Marquette, Mich. - Saturday, May 9, 1942

Marquette Coast Guard Station Playing Important Role In War

in its wartime role, is more than a haven of protection for boats ply-ing in and out of the Marquette port, for swimmers at Presque Isle and Shiras Park and for small craft operators in this area.

Its time-honored part in the life of the community is that of a staunch guardian over pleasureseekers who find sport on Lake Superior or at its shores-fishing, swimming, sailing, picnicking or and wily lake trout from the greatest of the Great Lakes.

This service, of course, must be continued, but the wartime mission of the station has made its work of greater consequence, and there is a general feeling that it's high time for most of us to wake up and realize the station and its crew are playing a real part in the war

Recruit Training School

Since the first of the year, the station has been a recruit training school. Twenty recruits from Buf-A. C. Gross, chief boatswain and captain of the port, who succeeded 'Cap" T. E. Deegan, now retired, as commander of the station.

Ten more were transferred here from Grand Marais on March 30 Guard station April 9. In the meantime, most of the old standperienced seamen all and well-German civilians apparently are trained in their particular type of still eating more potatoes than U. service, were transferred to more S. folks, but there are apparent active wartime duty on the East

> They left shortly after the Coast Guard cutter Rush, commanded by is a question, but all residents will recall when she was a familiar

sight in the Marquette harbor.

Whit Wyatt Credited With Victory

BROOKLYN, May 8-A-One of crowd of 42,822 fans who contrib- farm system. uted \$59,859.25 to the Navy Relief society, brought the Brooklyn Dodgers a 7-6 triumph over the New York Giants today.

Whitlow Wyatt, the outstanding pitcher of the National league a year ago, lasted past the first inning for the first time in three games and went on to attain his first victory of the season, although he couldn't finish.

In the third inning the Dodgers hit four successive singles without scoring because Wyatt was trapped going from first to third. But with the bases loaded Johnny Rizzo hit a ringing double to right for two runs and the National league champs, supposedly weak against left handers, went on to knock Cliff Melton out of the box and score four runs in this frame.

Bartell Makes Two Errors

And in the fourth inning the Dodgers stormed to two more runs, one of them coming home when Keller robbed him of a home run Manager Mel Ott, of the Glants, at Yankee stadium by leaping and made a tremendous throw from reaching into the left field stand right field and the ball hit Catcher Hank Danning on the head and bounced against the screen behind the plate. Third Baseman Dick Bartell, trying to intercept Ott's throw, ran in front of Danning just in time to screen the ball and was charged with an error.

Bartell also had left a hard-hit grounder by Joe Medwick go squarely between his legs in the

Newhouser **Elevated To Starting Role**

DETROIT, May 8— A -- Until further notice four right-handers and a southpaw-young Hal Newhouser-will comprise the Detroit Tiger pitching staff that Manager Del Baker plans to send in regular turn against American league riv-

The 20-year-old Newhouser, called upon chiefly this season for relief assignments, was elevated to a starting role today as the Tigers returned from an eastern invasion that yielded an even break in 10 games. To make room for him, Charley Fuchs, three-game winner, will be dropped down to bullpen

Benton On Mound Today

After two days of idleness, the Tigers will practically start from scratch tomorrow against the Cleveland Indians. Big Al Benton, 1942 hard luck champion, will face veteran Mel Harder, of the Tribe, on the mound. Tommy Bridges and Hal White will work the twin bill at Cleveland Sunday, and Paul (Dizzy) Trout will get the Monday

assignment at Cleveland. That means Newhouser probably will start here Tuesday against the Washington Senators, first of the eastern invaders, and his opponent is almost certain to be Bobo Newsom, who last time out blanked the

igers on one hit. In selecting his starting pitchers after one swing around the circuit, Baker made it plain that the other five members of the staff would be given consideration should any of the starters falter. Bridges, dean of the active Tigers, most likely will miss his regular turn occasionally to lengthen his rest

"Newhouser had plenty of stuff and he seems to have found his control," Baker declared. "He ought to be a big help to us in the next few months.'

U. S. Force Smashes Japanese Invasion ·Fleet In Great 6-Day Battle Off Australia

Enemy Claims Discounted In Washington

By John M. Hightower

WASHINGTON, May 8-(By A. P.) - An authoritative analysis of American reports and enemy claims arismg from the fateful battle in the southwest Pacific indicated today that the Japanese had suffered heavy losses which, if continued, would result in a smashing victory for the Allied sea and air forces and secure for the time being the northeastern approaches to Australia.

This view apparently was borne out by a statement of the naval spokesman in Allied headquarters in Australia to the effect that "we might have been blasted out of our beds last night, but we got in there and did the job."

U. S. Losses Inevitable

In the absence of complete official information, however, 'the naval experts here refrained from labelling these engagements an against optimism unwarranted by the facts officialy made public to date.

date.

They said also that short of a in both surface and aircra must be expected as the inevitable

The significant facts pertaining to the outcome of these encounters as evaluated here were:

ships, including an aircraft carrier, into a "total loss" and five other ships heavily damaged.

The Japanese claimed an American battleship and two aircraft carriers sunk, plus a British battleship (Warspite) and an Australian cruiser damaged.

No Battleships There? London promptly denied that the rier bay. Warspite or any other British bat-

tleship had been sunk, the promptness of the denial suggesting that London well knew there were no British battleships there to sink. In fact, the entire action on the Allied side may have developed, it was believed here, as an operation in the interior of Madagascar, but of an aircraft carrier-cruiser-de-

noted that in the task force actions reported up to this time there had not been a single instance of battleship participation. The naval authorities also commented that it was curious that the Japanese had claimed only large vessels - the sinking of which

Unreported; May Be Small

U.S. Losses

WASHINGTON, May 8-(By A. P.) - A thunderous Allied-Japanese naval battle that started among the islands northeast of Australia five days ago and was continuing tonight has cost the enemy 11 ships, including nine warships, the Navy department announced tonight.

In addition to the sinking of these vessels, six other Jap craft, including four warships, have been damaged.

The figures were given in a communique which scrupulously avoided claiming a victory for American and Allied sea and air forces in the gigantic conflict but inferentially indicated that their losses might be inconsiderable in comparison with those of Japan.

"Details of losses and damage to our forces are not fully known at present, but no credence should be given to claims that have been or may be put out by Tokyo," the By Chinese Navy said.

Scene Northeast Of Australia

The communique fixed the scene of the running battle as being in two Japanese columns thrusting the Coral sea southward of the Bisput it somewhere between 500 and 1,000 miles east of the northeast coast of Australia and means that the Japanese force has been within range of shore-based aircraft from

Tech Offers New Program Of Education

Young persons and adults of the Marquette area who are interested in obtaining engineering degrees or in taking specific technical courses will have the opportunity to consult John Kelly, official Michigan College of Mining and Technology representative, at Marquette Friday, May 15. He will be at the Baraga school

at 9 a. m., Graveraet high school at 11 a. m., and at John D. Pierce

Kelly will describe the accelerited schedule recently adopted by the college to ald in the war effort. This speeded-up program allows freshmen who enter this symmer to complete the normal four years of work in three. Summer Session Expanded

Included in the expanded summer session, which is a part of the accelerated program, will be several courses in writing, speech, literature, history, economics, and economic geography.

Michigan Tech, originally established as the state's mining school in 1885, now offers courses leading to the bachelor of science degree in all major branches of engineering, and in forestry, chemistry, and eneral science

attending Michigan Tech are Herbert Alvord, James Belland, Arthur Bennett, William Field, Dean Hof-

14,088 Get **Ration Books** In Marquette

Compilation of records in the of-fice of W. M. Whitman, superintendent of schools, last night show-ed that ration books were issued this week to 14,088 residents of Marquette.

Books were issued from Monday to Thursday night in six public school buildings and the number of registrations at each follows: North Marquette1,263

Fisher3,074 Graveraet 3,664 Northern college School teachers served as regis-

trars without remuneration and the work was carried out with little interruption of schoolroom routine, although it was necessary to dismiss all classes Thursday noon so that the teachers could resume rationing registration at 1 p.

Persons who have not procured ration books will not be able to get them before May 21. Many could not get books this week bespecified maximum amount of

Mr. Whitman warmly commended the work done by the teachers. "It was hard work," he said, "and the teachers were on duty long hours. Because the Government rules required that no one except registrars could write the family records into the ration books, it was impossible to speed up the job. But with few exceptions the public understood the situation and we County Men in Uniform had good cooperation."

Nearly 5,000,000 In State

LANSING, May 8-AP-A spurt in Michigan's population since 1940 was indicated today in the state rationing administration's report that nearly 5,000,000 persons had registered for sugar ration books in the four-day enrollment which ended Thursday night.

Incomplete final returns, the administration said, showed population increases since the 1940 census in at least seven counties, including Kalamazoo, Bay, Lenawee, Benzie, Branch, Mecosta and Ottawa, all reporting registrations of more than 100 per cent.

Arthur H. Sarvis, state rationing administrator, said registration based on partial reports from 73 1940 population of 5,360,000.

Wayne county, Sarvis said, was sho-nuff warm. 97 per cent registered with close to 2,000,000 applicants. Other counties with nearly complete registration included Arenac, Cass, Ingham, Ionia, Kent, Iron, Leelanau, Mason, Newaygo, Schoolcraft, Mus-

kegon and Shiawassee. In Genesee county which had a stration of 83 per cent with 187,600 applications in a population of 225,500, rationing officials said they suspected sugar hoarding and indicated an investigation of unreported persons might be or-

substantial

were general Registrations Top Census Total were registered, compared with Chicago soon for advanced training. the 1940 population of 74,891. Ottawa county with a listed population of 59,660 registered 60,002, while the cities of Ludington,

Muskegon Heights and Port Huron also registered more persons than their 1940 populations, early reports showed. Persons who failed to register during the four-day period now must wait until May 21 when county rationing boards will begin ac-

cepting applications, Sarvis said. Man Got Ration Books For Children in Austria

LANSING, May 8-(AP)-Rationing officials decided today that the four children of a 63-year-old Lansing man might need sugar, but that the need was outside their jurisdic-

Therefore, they cancelled all but one of the five war rationing books obtained by the father.

The officials said investigation disclosed the four children are living in Austria.

RULING ON NURSES LANSING, May 8-AP-An at-

torney general's opinion, asserted today that nurses employed in industrial plants may not remove foreign bodies from the eyes or fingers of employes, nor may they prescribe medicine of any kind except under the direct supervision of a physician.

That is why we have to prove to them is that pered Burton Fisher, who comes is done in the main by colonials, pocritically indignant about an Senegalese for example, and by operation like Madagascar. The soldiers of fortune, and by profes- only thing the French nation would sinals. That surely is a very im- seriously object to would be an portant reason why Hitler and his operation which was not success-

> nothing which we cannot surely It must be counted as a possibil- finish neatly and thoroughly. Too ity, however, if the resistance in soon and too little is almost as bad in war, and especially in the peculiar state of the French empire in this war, as too late and too little. For we must bear in mind that the French are a defeated nation, who, while they intend eventually to reenter the war, do not wish to be defeated a second time by Hitler. They will not fight him openly until they see a good prospect of winning. And, therefore, whether we appear in France itself, or in any part of the French empire, we must come in sufficient force to act decisively at that point.

The question of Martinique, Guadaloupe and French Guiana in this colored servant: "Mammy, who hemisphere is one which we had lives in this beautiful home?" better leave to the President and "Kunnel Robertson live here," his advisers. They alone are in a position to judge the military significance of these territories, and if Mammy (proudly): "He ain't they have taken, as no doubt they pushing them.

The strongest of all the reasons is that we must not ever seem to take especially if it involves bloodshed, to the war against the Axis. Obviously, Syria was vital to the defense of the Middle East, Obviously, Caledonia, in the Pacific, and of While tional doubt that operations in all of the war, and the real test is, "Great about MacArthur, isn't therefore, always whether the oper-

ations are successful. But in the case of Martinique the relation to the war is not so self-"General MacArthur," says the evident, and, therefore, it is the volunteering his chief talent. - Ap- in the Pacific. He'll knock hell the appearance of winning a cheap and inconsequential victory over weak French forces. If, as may well be the case, the Vichy agents should "Sure are," says the salesman, be cleared out of these French colobserving that the pump is now onies in the Western Hemisphere, ready for action. "Well, fill her the diplomatic action should be as

> (Copyright, 1942, New York Tribune, Inc.)

Five pike will be the new daily creel limit for pike fishermen whose season's sport begins Friday May 15, on more than 200 of Michigan's larger inland lakes.

Until this season the inland lake angler could take five northern pike, five walleyed pike, and five black bass in a day, besides panfish and trout. Now his aggregate limit of big fish will be five, rather than 15. The length limit on pike continues at 14 inches.

Special provisions for Great Lakes waters permit the taking of a total of 10 of these big game fish daily. All 10 may be walleyes, but no more than five may be northern pike and no more than five may be black bass.

More than five and one-half million walleyed pike were planted as fry in inland waters and 4,250 northern pike, all adults, were ment is now planning a research ground. program to test ways of rearing both these fish to fingerling size or larger, in hatcheries.

All designated pike lakes are listed in the fish law digest distributed with each fishing license, Fishing on other lakes, not in the trout or begin until June 25.

Army Plane Flies Over City at Night

Did you hear, or think you heard, an airplane droning over Marquette about 9:30 Thursday night? The fact is that a plane did fly over the city twice within a few minutes. It was not seen, because it carried no lights, and the pilot kept the ship at a high altitude, but the noise of the motors was heard by a few citizens and one of them, determined to find out what it was all aout, started an investigation which

makes an odd story. When the Marquette man heard the plane the first time he 'phoned the state police barracks and the county airport. No one at either place had heard what he heard. A few minutes later he heard it again. Again he 'phoned the state police barracks. That time, he learned, the plane was heard by one of the officers on duty. The officer reported the incident to state police eadquarters in East Lansing and message was broadcast from the state police radio station. "Airplanes without lights flying over Marquette," said the air report.

The state police relayed the reort to Army authorities at Selfridge field. They investigated and earned that the plane which flew over Marquette came from an Army airfield in Illinois and was on a routine test flight.

It's News Up Here

The sheriff of Mason county, who heard the state police broadcast Thursday night, 'phoned Sheriff Howard Treado, of Marquette county, yesterday morning and asked: "What's going on up there?" 'Nothing unusual, I guess," Treado answered. "Why do you ask?"

So the Mason county officer told Treado that unidentified airplanes had been reported flying over Marquette the night before. "I haven't heard a word about it," Treado devisitor here Wednesday.

H. M. Fosmoe, of Ironwood, the state police," the down-stater me," said Treado. Later in the day Mr. and Mrs. Andrew Lilavis and he made a few inquiries, but could children were visitors in Houghton get no clue as to what the Mason man was talking about. He 'phoned The Mining Journal and the reporter he talked to said: "Never heard of it. Probably nothing but one more wild war rumor."

But an hour later the Marquette man who heard the 'plane and reported it to the state police walked into The Mining Journal editor-

Did You Grouse And Wail About Ration Cards?

(By MANTHEI HOWE)

Sometimes all adults are only children grownup. And it is when attend. there is a real emergency that one has occasion to note exactly how grownup we all really are.

You know it is a bit diverting to note how America at war gives a demonstration not unlike that of children away from home for the first time and forced to face unaccustomed discipline.

Children, who have always received a degree of coddling at home who find themselves suddenly outside the home and expected Some will whimper and wail and want to go home right away where things are more comfortable. They cringe and are afraid.

It's Active Anyway

Others will kick and scream and rebel with all their small might, expected of them; or the members | canaba. of the same group may sulk, stick their chins out, and stubbornly resist doing the thing they don't want

Another group will recognize that the situation has to be faced, will adjust themselves, and get along all right. The last two groups are the easiest to work with, and children in such groups manage to live more happily and

Well, American grownups are inclined to fall into similar classifications. If you don't believe it simply recall the comments, growls and whimpering you have heard on the subject of sugar rationing.

Never before have Americans had a similar experience. In the first World War we didn't have to stand in line or sit hour after hour to register for ration cards. And how it griped us, all of us, to have to do so this week!

sputtered. "It's not American, and Mrs. Elsie Simons, What if we can't get any sugar at all? They say there is plenty of sugar and no shortage, why should such a registration any how?"

to see that during a war of world- 13, Carroll Rushton, probate judg

condensed milk. Hundreds of thousands of persons, human beings like ourselves, have patiently stood bly are student directed and planin line to get a little FOOD, not ned. for the privilege of getting a RAsuch cargoes have, in many in- venience or pleasure. stances, been taken over for transportation of war materials.

What's Your Choice?

Would you rather have the privwant, and have a resulting "bottle let's grab for those cards. neck" in moving war materials, or would you rather accept the socalled "un-American" plan of rationing; use less, or no sugar if need be, and keep the boys at the front supplied with munitions? Why should we register? For

one reason, there is a possibility that we may have to be rationed on some other products before this war is won. It is better to get that registering done now, with records to tell the exact distribution of population, and to give some idea of its needs, than to wait for such registration when there is an acute shortage in some article.

The teachers, who worked overtime registering the folk, teachers who taught daily and then worked until 10 and 11 o'clock at night getting their records in order, were the ones who might reasonably have had some occasion for complaining. They got no over-time Some of them wrote until they had writer's cramp. of them even had to listen patiently to the ungracious and sarcastic criticism directed at them because some householders had to wait, but two or three teachers said: "Well, it was the contribution of war time effort the government asked us to make."

This Is Only First

Their's was the adult and philosophical attittude toward a situation that had to be faced and han-Before this war is ended there will be other situations, necessary restrictions, demands for sacrifices, that may try our patience a bit because the way of life in a democracy has not conditioned us to that. But, before we complain, we may well remember that if we don't do everything in our power to forward war effort, to cooperate in shoving aside comforts for the sake of strengthening our armed forces, we'll lose this war. Then we'll face a future where everything will be regimented, where we'll be shoved about willy-nilly, where we'll have so much less than we have ever had before that it will seem as though we had abso-

lutely nothing. That grim day, too horrible for any American to contemplate, will never come if now we register cheerfully, willing to face rationing that may come; if we dig down and put every cent we can scrape

Collected Many Pounds paper, and general miscellany for salvage purposes, and 2,000 pounds

A. J. Fontaine, city chairman, was most appreciative of the cooperation received from Mayor Biegler and Fred J. Hawken. The salvage committee urges

householders to continue saving the waste paper, but there will be no pick-up after today, for a month. Something of the importance of the work of salvage committees may be gleaned from the picture shown on the back page of yesterday's Mining Journal, which showed how the salvage operations in Monroe county, through the civilian defense council built up a huge waste paper stockpile at one of Monroe's three paper mills for conversion of such waste to paper board boxes for shells and other war material. Keep saving that paper, and in a month there will be another pick-up.

ganized University of Michigan college attendance or induction into the military services, Mr. Phelps estimated that some 200 persons had failed to register, Ishpeming had a population in 1940 of 9.491.

The difference of 202 between registrations and book issuances represents, Mr. Phelps pointed out, the number of persons in the families which declared holdings of more than six pounds a person at the time of registration.

27 Detroiters Arrested For Blackout Violations

DETROIT, May 8-P-As an aftermath of Detroit's first blackout last Sunday, 27 Detroit residents facing charges of violating blackout regulations will appear in court May 21.

Two persons, arrested by police, are charged with failing to stop their cars and turn off their lights. The remaining cases were chosen as the most serious of 100 complaints filed by air raid wardens. Judges Thomas F. Maher and George T. Murphy said they would be lenient with "unintential" violators, but that "due steps will be taken" in cases of wilful violators.

A cowry is a sea shell, frequently used as money in some sections of the world.

These possibilities indicate, authorities said, that the engagement which began last Monday in the solomons and moved gradually inmanager, urges all former Legion to the Coral sea, nearer Australia, battles, although that would appear to depend on the severity of the losses suffered by the enemy.

The fact tout the battle moved practicians as a movement delibercommanders to bring the enemy based aircraft from the continent.

Iron Street Sewer Joh Plans To Be Prepared

NEGAUNEE, May 8-Connection of buildings on the south side of Iron street, east of the Railo building, with the sanitary sewer Alderman Bruno Lehto, chairman of the sewer committee.

Lehto said that sewage from these buildings empties into a storm sewer which is an open stream running through Gaffney field, and already has brought com-The connection can best be made,

Lento stated, by crossing under the Iron street railway tracks and bisecting a storm sewer pipe, the latter being large enough so the

Eagles Plan Initiation Group Three, of the Woman's Society of Christian Service of the Sunday Night

NEGAUNEE, May 8-The Negaunce Aerie of Eagles will initiate approximately 15 candidates at special ceremonies at 8 Sunday evening in the lodge rooms, in observance of Mother's day.

The Eagles throughout the world observe Mother's day each year with the initiation of a Mother's day class and claim that the lodge s responsible for the nation-wide observance of the day.

Dominic Bogetto, secretary of the Negaunce Acrie, to substantiate this claim cites the following: On February 4, 1904, in Indianapolis, Indiana, Frank E. Hering, then Junior Past Worthy President of South Bend, Indiana, Aerle, delivered the first-known public plea for a nation-wide observance of Mothers' Day.

Urged Day of Tribute

For eight years, 1904 to 1912, following the Indianapolis event, Eagle leaders, speaking throughout the jurisdiction, urged the setting aside of a day of tribute to mothers. In 1912, Mothers' Day was writ-

sunk and six badly damaged and stated only as to the Allied side: "Our own losses are not report-

A communique of the imperial Japanese command broadcast by the Tokyo radio claimed that a U S. battleship of the California type and two U. S. aircraft carriers of the Saratoga and Yorktown types had been sunk and that a British (Australian) cruiser of the Canberra type and a British battleship of the Warspite type had been heavily damaged. There was no immediate comment here upon these claims, but

the British admiralty in London at once announced flatly: "There is no truth whatever in the Japanese suggestion that HMS Warspite or any other British batand it was agreed to advertise for tleship had been sunk or damaged in the action which now is reported to be proceeding in the Coral

Alderman Prideaux asked where

The city attorney informed the

council that it was not the city's

duty to furnish transportation but

it could do so if the council wished.

On motion by Cattron it was vot-

ed to ask bids on transportation of

men to and from the cemetery in

Alderman Roy Lee explained that

The council also voted to accept bids for the rental of trucks for

the truck owned by the city and previously used for that purpose

city to flush storm sewers.

the morning and evenings.

Chief Urges **Guard at City Water Plant**

NEGAUNEE, May 8 - Chief of Police Arne Pynnonen, in his first report to the city council last night, requested that protective measures be taken at the city water works as a guard against sabotage and subversive activities.

Pynnonen specifically requested that a suitable fence, approximately eight feet in height be constructed around the entire grounds at the water works and that the grounds be suitably illuminated from sunset to sunrise

It was further suggested that heavy wire screens be placed on all windows, especially on the north side overlooking Teal lake.

He recommended that a watchman be on duty 24 hours of the day, with admittance to be refused. to any persons not having duties within the area or who are not identified with the police and protection program.

These precautions would remain in effect for the duration of the

Referred to Committee The matter was referred to the police and building and grounds committees for investigation.

The monthly report of the city police department, submitted to the council last night, shows that 15 arrests were made during the month of April. Six persons were arrest- Hattula, pastor. ed for being drunk and disorderly, four for being drunk, four for be-

45 complaints were investigated. Eighteen accidents were investigatreported out.

There were 162 lodgers at the pastor, city jail, 44 being resident lodger and 115 non-resident.

City To Ask For Bids On Truck Service

NEGAUNEE, May 8-Use of a privately-owned vehicle to trans-port city employes to and from the cemetery and whether the city is obligated to furnish such transportation occupied the council's attention for considerable time last

Alderman Richard Cattron ask-ed if it were true that such a conveyance had been hired for that purpose and was told that it had been done. At whose order, the amount being paid for the service and the owner of the truck were the truck hauled the men to work

in the morning and remained there Cattron said he had learned that until evening when it returned such a truck was being used and them to the city. The truck is fully without the authorization of the covered by insurance in the amount of \$10,000 an occupant and \$200,000 for public liability and property "If such a service is necessary

bids and the bids acted upon by Asks Formal Action "I am not objecting to a truck use when city trucks are repaired.

Five-Man Committee To Supervise Trout Derby

MUNISING, May 8-A committee has been appointed by W. A. Cox, president of the Development club, to arrange details for the third annual lake trout trolling derby to be sponsored by the club from July 4 to Labor day. Members of the committee are Frank Aley, Jr., chairman; George A, Cowell, Austin Taylor, R. W. Nebel and Charles R. Everett.

Regulations regarding the entering of trout for prizes, selection of the derby queen and all publicity will be handled by the special com-

Light for Blackouts Invented by Sol Marks

MUNISING, May 8-A new type of "combination light" which may be used during periods of blackout or as a bud or flower vase has been invented and placed on the market by Sol Marks, West Superior street, Munising.

The light, made in a variety of shapes of wood, is being manufac-tured by the Munising Wood Products company. It contains two dry cell batteries and has a removable top which contains a flashlight There is no reflector or lense, thus permitting a glowing light. By removing the top and the batteries the fixture may be used as a bud vase, flower vase or

as a decoration. Mr. Marks developed the light during the past year. He has obtained a patent on the wiring and plans to have other features of it

Makes Report For Last Year

MUNISING, May 8-Alger and Schoolcraft county youngsters are E. Cook, Hugo M. Viitala, Harvey about 41 years, died at 8:30 today missing 1,427 teeth since a dentist L. Green, Arthur G. Moulds, Harold at his home, 312 East Chocolay of the health department pulled that many as a part of the unit's dental service last year. In addiber after serving as janitor of tion to that, 2,488 fillings were in-Mather high school nearly 32 years, serted. The record shows that 1,-858 children made 2,360 visits to

the dental clinic during the year. Those figures are a part of the annual report of the department, compiled by Dr. C. C. Benjamin, acting-director. It also shows that staff members traveled 76,579 miles to make 12,880 field visits.

During the year 786 vaccinations against smallpox and 608 immunizations for diphtheria protection were given. For the control of tuberculosis, 237 tuberculin tests, 158 X-rays and 576 home visits were made, and seven cases were

Staff workers made 1,299 visits to expectant mothers who were under nursing supervision and 1 .-398 other visits were made to mothers of new-born babies. Instruction was given on the care of the young in 3,165 infant and 3,-451 pre-school cases. Physical examinations were given to 340 children in that age group, while school children had 1,369 medical examinations and 568 home visits. In that group, 1,025 defect corrections were reported.

From the Alger-Schoolcraft area 294 children were treated at the Northern Michigan Children's clinic in Marquette and three extension clinics were held with an attendance of 56.

An eye program was conducted in the district, 210 children being examined by an ophthalmologist and 164 fitted with glasses. During the year 955 sanitation

nspections were made by staff members, 279 on general sanitation and 676 for protection of milk and

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and cheek every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

Fishermen Aid U.S. In Newfoundland

BY TOM WOLF NEA Staff Correspondent

WITH THE U.S. ARMED FORCES, Newfoundland Base Com-mand, May 8—There are two armies in Newfoundland today. One is an army of fighters the soldiers watching the ramparts of North America's outpost nearest Europe.

The other is an army of builders -the construction workers whose skills have wrought modern cities from the wooded hills, rocky valleys and swampy lowlands of Newfoundland.

Harry Smith, carpenter foreman from North Carolina, is fighting in these "Builders' Battalions." Harry is 38. He stands about six-feettwo, is lean and muscular. His hair is thinning and turning gray and were it not for his neatly cropped mustache you'd never guess that it was once a deep red-brown. His eyes are pale blue and his thin face is ruddy from the biting winds that blow in from the North Atlan-

He works in high-laced boots, breeches and a red-and-black checked lumberjack's shirt beneath 1 heavy windbreaker. A fur cap protects his head and ears against the damp and cold.

Back in the States, Harry, like his father and grandfather before him, was a builder. Though most of his fellow-Americans up here Newfoundland Base Contractors is located), Harry has spent most of his life working in New York and New Jersey.

Complete "City"

This is his third base-building job in the past couple of years. He applied for it in May, 1941. After about a month of various

ups, he arrived here late last June. camp here. It is a temporary city built of wood and plastic board, with black paper sidings and felt roofs. Temporary though it is, it is a complete city. There is a commissary where the construction men can buy, duty and tax free, cigarettes and sodas, razor blades and tooth brushes, canned goods and a few items of wearing apparel, like overshoes and lum-

It will mean he checks into his time office for his "brass"-a small metal identification tag which shows who he is and that he is on the job.

"Newfies" Call Boss "Skipper"

These bases are being built priis boss to about 30 "Newfie" carpenters. To them he is "skipper," of Newfoundland.

ignorant about American construction methods when he started. Told to report to work with carpenters' tools, most of them turned up on the first day with a hammer and three of his bureaus to Chicago something with teeth which they without even consulting or noticalled a saw. The Americans gave fying Harold. At cabinet meetthem until the day after first payday to buy the rest of the carpen-

The majority of Harry's men, like all the base builders, were fishermen. They still turn up for work in high boots and oilskins. That's partly because these are tariat will not let him in for a the main items of their wardrobes, tete-a-tete. partly because they know how fickle the weather here can be.

Harry Smith and his fellow American foremen had to teach their Newfie workmen the American methods of speed buildingstarting with how to use a saw, the right method of framing, how to nail various kinds of board. Once he knows how, the Newfie is a very methodical worker. He is willing and sticks had at whatever he is told to do. Beyond that, with a few exceptions, he does

Like to Hibernate

All in all the Newfoundland laborers have given the Americans little trouble. Some of them have insisted on keeping their generations-old custom of going home and hibernating during the early winter months, which caused a bit of trouble at first.

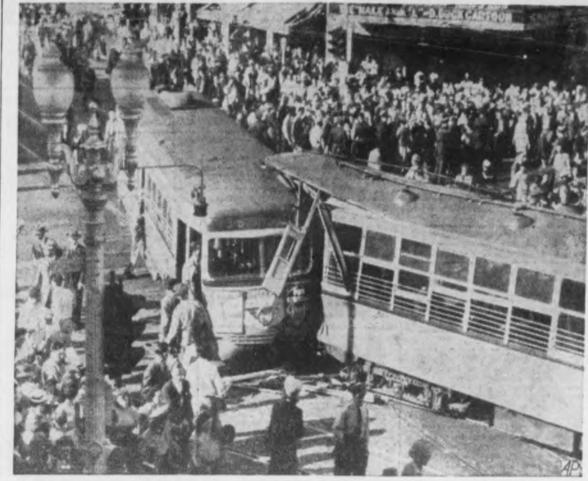

Pay rates for the Newfoundland workmen are above the local prevailing wage, though skilled American workmen are getting something less than U. S. union wages. There is no union here. Most of the men from the state came up on twoyear contracts, which call for a 60hour week, with pay based on 40 hours at regular scales, 20 at time

Success Story: Unknown Signs Movie Contract

He also has complete authority over private corporations in this field. The prospective shortage of juice for running munitions plants necessitates this farranging regulation.

The more philosophical liberals realize that history is only repeating itself. Woodrow Wilson's first term renovations were swept aside when the United States mobilized in 1917, and they were never reinstated because conservative Republican administrations succeeded the war leader. But that recollection gives no comfort to the brain trusters as their cherished experiments are abandoned one by

DENIALS - Archibald MacLeish thinks up a new trick every day. His latest has provoked some protest on Capitol Hill.

The Congressional librarian has assigned stenographers to cover every House or Senate investigation of executive activities or departments. Under this novel experiment his girls take transcripts of all testimony, and presumably make numerous copies for the various cabinet members involved. The scheme enables those under fire to furnish the newspapers with denials or explanations immediately, whereas previously they only secured a chance at rebuttal several lays later.

The innovation explains why Washington regards the once radical poet as the Administration's "Archibald propagandist." It's a

tion convention in New York. Onethird fewer volumes were printed in April, 1942 than a year ago. Compositions in culture and social sciences are waning in general appeal, but all forms of technical publications are booming. The Red Cross first aid lessons are a best seller now, rivaling the distribution of Bithe traditional top-ranking purchase. Business is greatest in

areas with war industries. Most popular treatises are those dealing with mechanics, tooling, radio, aviation and maritime explanations. Engineering handbooks for study or references on machine shop practice attract customers because the new generation of workers needs less dexterity than old craftsmen but more knowledge of the fundamentals of operation. Students can learn short cuts by perusal of well-written descriptive pages.

Twenty-one thousand two hundred copies of one document on factory work were bought in 1939. During the first three months of this year 21,800 of the same text were sold. Devil Diver, Shut Out Favorites In 52nd Running Of Preakness

10 Entered; Sun Again May Not Run

BALIMORE, May 8-(P)-A battered silver mug full of gold-and the glory that goes with it-today drew 10 top three-year-old gallopers into the list for tomorrow's 52nd Preakness Stakes at Pimlico.

It's the biggest field in six years with any one of eight of the horses in it able to pick up the whole pot of more than \$58,000. As a result, some 40,000 to 45,000 customers are expected to jam their way into old Hill Top to sit in on the party at 4:55 p. m. (Eastern War time).

Topped off by the double-barreled entry of Shut Out, who won the Kentucky Derby a week ago, and Devil Diver, who was supposed to, nine of those whose names were morning are definite starters. The only one uncertain of getting to the post is Sun Again, the bigquartered chestnut who is the lone hope of Owner Warren Wright and Trainer Ben Jones for grabbing their second Preakness in a row.

They did it a year ago with little Mr. Big Tail, Whirlaway, but Sun Again has been hampered in training, was scratched from the Derby last Saturday and tonight had only a 50-50 chance of getting a crack at the big "dough" tomorrow. And this corner thinks he can do it, although the colt didn't come right out and say so himself.

With the race pouring new hundreds into Baltimore, the monumental city, already full of war workers, was a boom town tonight Streets were jammed, hotel lobbies were packed with visitors and every major hotel had the SRO sign out

Paige Won't Pitch 150 Games in '42

By HAROLD V. RATLIFF Wide World Features

DALLAS - Leroy (Satchel) Paige, a pitching symphony in ebony, missed his winter trip to Our President is a very great man, Cuba and Puerto Rico so that means he probably won' hurl his But he does not know very much usual 150 games this year.

The negro star, rated by many as the greatest pitcher who ever threw one down the alley, now is on an exhibition tour beginning his

sixteenth season in baseball. Paige's stomach was acting up would have gone to Cuba. Puerto Rico and South America in order to get in a full year in the game. That's how he does it: winter down there; spring and summer with the Kansas Sity Mon-

archs, world champion negro club. The Satchel thinks nothing of working two games in one day. Once he pitched three and won

them all. He's A Work Horse

No fretting about the weather, no worrying about his arm, no complaining about working out of turn. The Catchel can pitch every game on the schedule.

Paige started as a first baseman but soon decided there wasn't enough money playing that position. He had to pitch-be out there in the limelight, do the unusual. He travels 30,000 miles a year doing

He was a fast ball pitcher at the start but now he uses all the tricks of the trade. No need wearing out his arm even if it hasn't yet shown signs of weakening.

Before Joe DiMaggio went to the big leagues he batted against Paige in an exhibition game. Finally Joe got a hit and was quoted as saying: "Now I know I'll make good in the majors; I got a single

If Paige lost more than two games a season he would figure he was slipping. However, he can't recall having lost more than two. Of being free again

Most times it's just one. Paige strikes out a dozen to 18 batters a game. His best day was He knew the value of freedom

Sometimes he calls in his fellow players and has them sit down

while he strikes out the other side. There are, mused Satchel, quite a few folks who toy with the truth when it comes to sports. "A fella came up to me and

asked: 'Where is Satchel Paige?' I That here it didn't make any said: 'Do you know him?' 'I know him any time I see him,' the fella answered, Tve watcher him pitch a lot of times.'

'Oh he's around somewhere,' I said, and the guy went off looking

Men have come out of the darkness,

(Editor's Note-The following poem was written by Carl Byoir, co-chairman of the committee of public relations during the first World war, who heard Joe Louis say at a Navy Relief Society show in New York City: "We are going to win because we are on God's side." That answers the President's request for a name for this war, Byoir says. It's God's war. The poem serves to clarify our cause in this conflict and provides a fine word picture of Joe Louis, who is not only one of the greatest heavyweight champions but a true sportsman and a credit to his race.

Joe, you have named the war. don't think you knew That you were naming the war, You named it when you said, "We are going to win Because we are on God's side." You were right, Joe, And you have named the war. This is God's War.

Maybe you read in the newspaper That the President asked the reporters

To name the war. Joe,

about whom to ask To name wars. Reporters, Joe, are men who think No one could name this war out of lico today.

It had to be named out of the heart thing. It remembered the boos and and out of the soul, And out of some instinct that reaches back Thousands and thousands of years:

Back through all the struggle of mankind To establish the rights That we are fighting to keep now. But you were right, Joe.

You named the war. This is God's War. Maybe you are the first human being in five thousand years Who was not too conceited in

naming a war. For in all the wars that men have also becoming the first half-million fought in the past, Men on both sides said, "God is on records.

think you are the only man in all day with his \$437,730 bankroll. But history

Who ever said, "We are on God's side.' Of course I know, Joe,

That you were not thinking about naming a war. You just put into words something that you felt

Way down inside of you. So maybe it was your great grandfather Who named the war,

I imagine he was born a free man, And then someone brought him to America

And made a slave out of him And maybe through the long nights he dreamed Because he knew the bitterness And the agony of slavery

And wanted it again And maybe he was there, Joe, When Abraham Lincoln wrote the Emancipation Proclamation And said that this really was a free

country And made it come true, That white men and black men were all free.

difference About a man's race or creed or

color That this was really a country where all men were free. Maybe those words were stamped On our great grandfather's heart, And maybe they were burned into

his soul, And maybe he came to love America And to cherish its freedoms inherited them

he felt This is God's War.

Against men like this. Who are on God's side R H E Have always won.

> sponse, it looks like the tourney As long as there have been men to set free. will have to be cancelled." line for entries is only a week away,

U. M. Defeats Wildcats For 4th Victory

ANN ARBOR, Mich., May 8—# The University of Michigan basewestern, 6-2, behind the five-hit fourth victory in five starts in defense of its Western conference Illinois championship. The two teams meet Ohio State ... 002 000 00*-2 2 3 again tomorrow.

Boim, sophomore right - hander from Chicago, fanned seven and walked only one while blanking the Wildcats for the last seven innings. Early in the game Michigan twice came from behind to tie the score, and the winning tally was produced in the fifth.

Frank Hoblick, who went the distance for Northwestern, yielded nine hits, all singles. Dick Erdlitz contributed the game's only extraase hit, a triple in the first that led to Northwestern's initial run. Michigan's biggest inning was the eighth when two runs were scored largely through a double steal manipulated by Paul White and Bill Cartmill.

And after a while, because they Score: Northwest. ..110 000 000-2 5 They know they could win back Michigan ...,101 010 12*-6 9 1 Hoblcik and Garfas; Bolm and But always, Joe, it was a struggle. Winning it and losing it, and

Chicago Walloped, 16-0 CHICAGO, May 8—(AP)—Minneota humbled Chicago, 16-0, today behind the two-hit twirling of Bill Anderson. It was Chicago's seventh straight loss in Big Ten competition and the Gophers' second in in five games.

All-Colored Air Squadron **Organized**

WASHINGTON, May 8 — Faced with the problem of channeling all available man power into the war effort, and charged particularwith the responsibility of filling most effectively the ranks of combat units, the War and Navy deartments are hard at work devisng means of integrating, as soon as possible, Negroes into the army, the air forces, the Navy, the Marines and the Coast Guard.

Plans for Negro training programs are on foot in all arms, but ecause of the requirements of military secrecy, no definite figures on the number of Negro men to be taken into the fighting organizations are being made public Recognized by Navy

The Navy Department, which now directs the affairs of the Marines, and the Coast Guard, too, is the latest to give recognition to the fighting potential of the Negro. It long has recruited colored workers in the messman branch, but announced early in April that Negro volunteers would be accepted for enlistment for general service in the reserve components of all three naval branches.

Negroes will be eligible for all ranks up to that of chief petty offi-cer in the naval units and to the equivalent non-commissioned rank in the Marines.

It was explained that the new recruits, when taken in, would at first be used on small boats and around stations, and for construction work until such time as their training has advanced sufficiently. For the time being, it is planned that those aboard ship will comprise all-Negro crews under white

There are no plans, as yet, for using colored recruits on capital
