Laura Winston Stock Co. Presents "Sherlock Holmes" at Peterson Opera House This Week

What is easily one of the best bills put on by the Laura Winston Stock company at the Peterson opera house for some time is "Sherlock Holmes" which is being presented there this week.

Cecil Lionel, in the role of Holmes, is admirable while his intimate friend Dr. Watson is ably portrayed by Harry M. Royale. Willis Van as James Larrabee and Otto Hazelbauer in the role of Sidney Prince, the cracksman, do their full quota towards rounding out the performance, while Walter Long as Prof. Moriarity, the greatest of all criminals, is seen at his best. Arthur Sendra, one of the new members of the company, does the dual role of butler and tough, handling both in an excellent manner. Blanche Brennan, too, deserves her share of praise in making the production a success. She is charming at all times and a clever little actress. Miss Pearl Sterns, as Madge Larrabee, a woman of the world and the wife of Larrabee, was just a cynical as usual.

Next week the company will present the French play "In the Shadow of the Guillotine."

New Manager

Frank J. Geniesse, who for nine years past has been shoe salesman at the store of C. R. Williams, has resigned that position and has accepted a position as manager of the shoe department at the Fair Savings Bank department store. The new position carries with it a great deal more responsibility and incidentally a considerable increase in salary During the years he has been in the employ of Mr. Williams, Mr. Geniesse has made hosts of friends who will be greatly pleased at his advancement.

APPOINTMENTS MADE

Council Affirms Appointments of Mayor With One Exception

At the regular meeting of the city council held at the council rooms Tuesday evening, the appointments of city officers for the ensuing year were all confirmed with the one exception of the office of city health officer. The name of Dr. W. A. Cotton was

offered by the mayor, but was voted down and the name of Dr. O. C. Breitenbach, was substituted.

The appointments made and confirmwere as follows: City Atty. I. C. Jennings, city physician Dr. M. P. Fenelon street commissioner Charles Lefebvre, city engineer D. A. Brotherton, poor commissioner N. J. Blanchett, pound master Peter Duranceau, scavenger William Martens, chief of fire department James Tolan, Capt. No. 1 William Meiers, Capt. No. 2 Herman Kamrath, driver No. 1 S. Anderson, driver No. 2 J. Brunnell, linemen A. Johnson, V. Rondeau, William Bray, John Young and August Gabourie, chief of police Peter Beitzer, city detective George McCarthy, patrolmen, Andrew Everson, Dominick McCauley, Michael Stern, A. Gabourie, Nels Nelson, Knute Larson and Charles Larson. The present salary list for appointive officers remains the same as last year with two exceptions, as follows:

One hundred dollars was added to the salary of city physician and \$100 was deducted from the salary of health physician. - In the past the city health commissioner received a regular salary of \$400 and an additional \$200, for caring for all city patients suffering from contagious diseases. By the action of the council the salary of the health commissioner is now fixed at \$500 with the understanding that he shall also attend all contagious disease patients.

Following is the salary list as fixed by the council last night: mayor \$50, aldermen \$50, city clerk \$1200, city treasurer \$800, city attorney \$600, health commisioner \$500, city physician \$300, street commissioner \$55 a month, city engineer \$187.50 a month, poor commissioner \$50 a month, pound master \$500 a year, chief of police \$75 a month, patrolmen \$60 a month, 'city fair sized audience. detective \$65 a month, chief of fire department \$75 a month, captain \$67,50 a

MAN AND HORSE KILLED **BOND AGAIN REFUSED**

John Illijanich has Difficulty in Securing Liquor License

John Illijanich a saloonkeeper of North Escanaba seems to be playing in hard luck securing a liquor license this year. At the last special meeting of the city council held last week for the purpose of examining liquor bonds, the bond of Illijanich was returned as one of the sureties offered was not satisfactory. At the meeting of the council held Tuesday night of this week, Illjanich's bond was again rejected bethe number of the street in which he desired to do business.

Same Pay as Last Year

At the meeting of the city council Tuesday night the pay of the city employees of the street department was fixed at the same price as last year, although an attempt was made to cut the scale to \$1.25 per day. The pay is now \$1.75 per day.

Alderman M. K. Bissell was the only alderman voting in the negative.

City Council Takes Steps to Get Possession of South Shore Property

The city council took the first step at the meeting on Tuesday evening to have a strip of land situated on the south shore and adjoining the present city park condemned for park purposes. The strip is owned by the Riparian Land company and that company refuses to set a price for the land. The city attorney was instructed by the council to commence proceedings to have the land condemned.

The "Kreutzer Sonata" Played By Blanche Walch And Her Company

Is Built On Unusual Lines

IT IS DIFFERENT

Jacob Gordin's drama "The Kreutzer Sonata" was presented at the Peterson opera house last Tuesday evening by Miss Blanche Walch and her capable company. \ The story told in the play is not a pleasant one by any means and Chas. K. Verrity's saloon, the road the play is one which will not please all theatre-goers.

A young Russian Jewess is forced by her father to marry a musician-a cause he had failed to insert therein the road are not protected at this point Gentile a man both morally and socially her inferior to prevent a scandal, growing out of her irregular marriage with a German army officer. The musician marries her, knowing the story of her life and they come to America. The husband leads a very fast life, subjecting his wife to humiliation and abuse and even ruins his wife's younger sister Celia who is a wanton by nature. The climax in the last act could scarcely be more logical, the wronged wife killing both her husband and sister and herself losing her reason.

Miss Walch gives an excellent portrayal of the stellar role and Mr. George H. Howard, as her husband, was good at all times. The work of Miss Alma Kriger as Celia, was excellent she presenting a most realistic picture of a very unpleasant character. Other members of the cast were good, some fine character work being done.

GOOD NEWS

Many Escanaba Readers Have Heard It and Profited Thereby

"Good news travels fast," and the thousands of bad back sufferers in Escanaba are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Many people are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:

Mrs. Edward Brockington, of 212 B St., Iron Mountain, Mich., says: "My little girl was afflicted with a bladder weakness. She was greatly annoyed by lack of control over the secretions and also suffered greatly from severe pains through her kidneys and back. We tried every remedy we could hear about but nothing seemed to have the slightest effect. I saw Doan's Kidney Pills very highly recommended and learned of their curing several people in Iron Mountain of kidney trouble, so I got a box and gave them to my little girl according to the directions. The result was a complete cure and she has had no return of the trouble since." Plenty more proof like this from

Escanaba people. Call at Mead Drug Co.'s store and ask what their customers report."

BORAX IN THE DAIRY

A Matter of Profitable Interest to the Farmer and Dalryman

The problem of keeping sweet all the utensils used in connection with milk and cream selling, and butter making, has been a serious one with the farmer.

He has come to realize fully that the slightest taint or hint of staleness left in a can, tin or churn may ruin a whole output; that the taint which is left is in the form of bacteria which grow and multiply in milk or butter, producing disastrous results. The farmer has learned that hot

water won't rinse away the greasy residue in dairy utensils. He has learned that soap leaves a

residue of its own which is, if anything, worse than the milk or cream residue, and it is little wonder that that there has been a constant clamor for a dairy cleanser and sweetener that will meet modern requirements. A few of the largest creamery, establishments have called experts into consultation on this problem and have with this scientific aid hit upon a product of nature which exactly fills the bill-borax.

Scientists have long known borax as a cleanser, a sweetener and an antiseptic destroyer of bacteria and germ growths. Destroys all that is harmful and promotes and preserves freshness, sweetness and purity, relieving the dairyman and dairy housewife of drudgery and of needless work and worry.

Its cheapness and value should give it first place in the necessities of every dairy,

The cow's udder is kept in a clean, healthy and smooth condition by washing it with borax and water, a tablespoonful of borax to two quarts of water.

This prevents roughness and soreness or cracking teats, which make milking time a dread to the cow and a worry to the milker.

GREAT CHURCH CONFERENCE NEWS OF THE STATE **OPENED AT BALTIMORE**

session of the general conference of the Methodist Episcopal church-its supreme legislative and judicial body-opened in this city May'6, and will continue its work until some time in the first week in June. This church is the largest of the Protestant denominations in this country, with a membership of 3,300,-000 of the laity, about 20,000 ministers and 14,000 local preachers. To represent this vast host about 850 delegates assembled in the general conference, half of them laymen, there being included in the latter class a score or, so of "elect women," for since the year 1900 women may be sent as delegates to the general conference.

The cosmopolitan aspects of this body may be inferred from the fact that there are 300,000 members in the 20 Afro-American conferences in the south, besides missions in Africa on the east and west coasts, and in Rhodesia, where Bishop J. C. Hartzell is a west Virginian by birth, an and his colored associate, Bishop Scott, have done remarkable work. There are missions also in China, Korea, Japan, Burmah, the Philippine islands, India and many countries of South America, besides Methodist conferences in Germany, Switzerland, Italy, Bulgaria, Sweden, Denmark, Norway, Finland and France. The German contingent alone aggregates

Oppose Central Plant.

The local interests at Cincinnati and in New York city have antagonized these propositions, especially that part of them which suggested the establishment of a central plant, perhaps in some inland town for the supposed sake of economy, where all the printing and manufacturing should be done. Two elements, it would seem, will suggest caution just at this juncture were such a proposition to be made. once more at the general conference. The first is the unprecedented success which has been won under the present management; and the second is the fact that the financial situation just now is so fluctuating as to forbid undertaking any such a revolutionary enterprise as would be involved in the dismantling of two great publishing houses to enter upon an experiment in which hundreds of thousands of dollars must be invested before any return can be warranted.

The time limit will come up once more for discussion. Methodism had no time limit at first in its pastorates; it was the practice of the pioneer Bishop Asbury to change men from one field to another every three or six months, to keep them on the move. In 1804 a time limit of two years was fixed; this was in 1864 extended to three years; in-1888 the limit was fixed at five years, and in 1900 it was removed altogether. Hence it has occurred that a few men have been able in commanding places to hold their the representatives of other denominations who have obtained a local influence and prestige in part through the policy whereby they were able to stay in one field indefinitely.

BUYING PAINT BLINDLY.

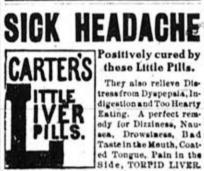

Many people look upon paint buying as a lottery and so it is, the way they do it. It is not necessarily so, however. Pure White Lead and linseed oil are the essential elements of good paint. Adulterants in white lead can be easily found by the use of a blowpipe. Adulterations in linseed oil can be detected with a fair degree of certainty. See that these two elements are pure and properly put on and the paint will stay put.

National Lead Company, Woodbridge, Building, New York City, will send a blowpipe outfit and instructions for testing both white lead and linseed oil, on request.

FRIENDS HELP. St. Paul Park Incident.

"After drinking coffee for breakfast I always felt languid and dull, having no ambition to get to my morning duties. Then in about an hour or so a weak, nervous derangement of the heart and stomach would come over me with such force I would frequently have to lie down.

"At other times I had severe headaches: stomach finally became affected and digestion so impaired that I had serious chronic dyspepsia and constination. A lady, for many years State President of the W. C. T. U., told me she had been greatly benefited by quitting coffee and using Postum Food Coffee; she was troubled for years with asthma. She said it was no cross to quit coffee when she found she could have as delicious an article as Postum,

GREAT CHURCH CONFERENCE NEWS OF THE STATE But He Had to Play Mean Trick on **OPENED AT BALTIMORE**

D and judicial body-opened in this city the Protestant denominations in this elect. country, with a membership of 3,300,-000 of the laity, about 20,000 ministers and 14,000 local preachers. To repreassembled in the general conference, half of them laymen, there being-inso of "elect women," for since the year 1900 women may be sent as delegates to the general conference.

The cosmopolitan aspects of this body may be inferred from the fact that there are 300,000 members in the 20 Afro-American conferences in the south, besides missions in Africa on the east and west coasts, and in Rhodesia, where Bishop J. C. Hartzell and his colored associate, Bishop Scott, have done remarkable work. There are missions also in China, Korea, Japan, Burmah, the Philippine islands, India and many countries of South America, besides Methodist conferences in Germany, Switzerland, Norway, Finland and France. The German contingent alone aggregates

RECORD OF A WEEK'S HAPPEN-INGS IN MICHIGAN.

ASK A CHANGE OF VENUE

Frank W. Lyle and Ira B. Gage, Charged with Dowagiac Bank Irregularities, Seek Trial in a Jackson County Court.

Cassapolis. - Neither Frank W. Lyle, charged with embezzlement and obtaining money on false pretenses, nor Ira B. Gage, charged with obtaining money under false pretenses, both in connection with the recent failure of the Dowagiac bank, was in circuit court when the term opened in Cassapolis. Their case went over for a week, in order that the prosecutor can file certain information necessary to make out the state's case. James N. Kinnane, attorney for both the defendants, appeared in court and asked for a change of venue and a reduction of the bail which has not been furnished. The bail is \$5,000 on each charge, making a total of \$10,000 in the case of Lyle. The defense wants the case tried in the Jackson court.

NINE DIE IN CRASH.

Michigan Interurban Cars Collide Near Ypsilanti.

Detroit .- Nine men were killed and about 30 persons injured, some seriously, when two trolley cars on the interurban road from Detroit to Jackson collided 25 miles west of Detroit and near Ypsilanti. The cars were running about 45 miles an hour. A mistake in orders on the part of Motorman Isa Fay of the limited car, who was crushed to death beneath his vestibule, is alleged to have caused the collision. It is charged that he overran his orders. His home was at Jackson. The dead are: Motorman Isa Fay, Jackson; John Paget, Detroit; Charles Carmen, Detroit; George E. Howard, Detroit; Jack McMullen, Syracuse, N. Y.; Garborino Gronni, Detroit; three unidentified men. The limited car, comfortably filled with 40 people léft Ypsilanti at 2:17 o'clock for Detroit. .The running time of the car was changed and reduced, so that Motorman Fay-left Ypsilanti ten minutes earlier than he had been accustomed to. This is thought by some to have been responsible for his mistake.

Accused of Wrecking Corporation. Grand Rapids .- Alleging that the officers of the Macatawa Park association have practically wrecked the corporation, John P. Creque of Holleyville, Cal., one of the heaviest stockholders, has secured an injunction in United States district court, restrain ing the officers from further expenditures of money for improvements.

Himself to Do It.

An old gentleman in a village not far from Glasgow breakfasted every morning on porridge, and, in order to save fuel, cooked a whole week's supply every Saturday. One Friday morning the stuff seemed very cold and very salt, and he felt he must abandon the struggle to eat it. But his stubborn nature forbade any such thought. So he fetched the whisky from the cupboard, poured out a glass and placed it before him on the table. "Now, Sandy," said he, "if ye eat

that parritch ye'll has that whisky, an' if ye don't ye won't." He stuck again at the last spoonful, but keeping his eye steadily on

the glass of whisky, he made a bold, brave effort, and got it down. Then be slowly and carefully poured back the whisky into the bottle with a groad grin, as he said to himself: "Sandy, my lad, I did ye thot time, ye ould fule!"

15 YEARS OF SUFFERING.

Burning, Painful Sores on Lege-Tortured Day and Night-Tried Many Remedies to No Avail -Cured by Cuticura.

"After an attack of rheumatism, running sores broke out on my husband's legs, from below the knees to the ankles. There are no words to tell all the discomforts and great suffering he had to endure night and day. He used every kind of remedy and three physician's treated him, one after the other, without any good results whatever. One day I ordered some Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent. He began to use them and in three weeks all the sores were died up. The burning fire stopped, and the pains became bearable. After three months he was quite well. I can prove this testimonial at any time. Mrs. V. V. Albert, Upper Frenchville, Me., July 21. 1907."

VANS HARBOR NEWS

The young men of Van's Harbor have organized a club called the B. D. N. club. Its purpose is to promote good fellowship among its members and for amusement. There are already forty members and great enthusiasm is shown by all who belong to it. It is said that an orchestra is to be organized, also a base ball team and perhaps a brass band. The idea of a club of this kind is a good one and it is hoped that it will continue to be the success that it is at present.

(Copyright.) McCarthy, superintendent of the Golconda, big, bluff, and burly, was unhappy. He stood at the station walting for the belated train that was, to bring with it the special car containing the wife and daughter of the president. McCarthy disliked the waste of time and the role of entertainer for

women. "Most of the women I have known have been a nuisance," he said audibly. in his growing annoyance.

"Me, too, Mack," piped up a small voice beside him.

The superintendent looked at his companion, Sanders, the stage-driver. The latter, nearly four feet in height and 13 years old, returned the gaze unblinkingly from a pair of wise-looking Irish-American eyes which belied his age, meanwhile - wrinkling hie freckles into a mass that served as a harmonious fresco below his red hair. The train groaned and creaked along the rails, and came to a whining,

perspiring halt. Sanders dove frantically through the crowd and planted himself before the platform. Down the steps surged prop pectors, miners, commercial travelers, and women, bumping each others' legs with bales, bundles, and bags, and all in a hurry. But it was not Sanders' day. There was none who knew him -and those who were attracted by his shrill voice erying: "Stage-line to Horne," paid small heed to his appeal, and trafficked with his rival.

"Here, you, Sanders," hailed Mc-Carthy's voice from the diminishing crowd, "here are some passengers for you."

The wise-looking little, old face brightened up hopefully, and he came forward unabashed, but colored with self-consciousness before the outburst of merriment of the most beautiful lady he had ever seen. He recalled instantly a story his father used to tell him before he went to rest back up there in the hills, and from then on

she became to Fim the "Dream Lady." McCarthy led the way to the stage, assisted the president's wife and daughter to a seat, and then deposited his own huge bulk beside the driver's cushion.

Sanders crawled up to his place, using the spokes of the wheel as a ladder, clutched the reins in his small hands, tripped the brake with much effort, and started his horses with a yelp.

cerned, but his eyes were very de and lonely. The Dream Lady had a vell over her face, and no longer laughed as gaily as when she came to the hills for the summer. Only her mother talked-talked volubly and sharply and unceasingly as Sanders took them abroad.

The superintendent stood awkwardly by the wheel. "Some day we shall moot again," Sanders heard him say. The Dream Lady turned away without a word and looked toward the mountain-tops as though bidding them farewell.

The horses felt the coolness of the morning, and were mettlesome. Their hoofs rang spitefully on the frosthardened roads, and they tugged at the bits until Sanders' tough little arms ached with the persistent pull. They surged against the lines or jumped, as if frightened, away from familiar objects.

"What the devil alls you?" yelled Sanders, as the off-horse suddenly broke into a run. Sanders' foot struck out madly for a greater purchase on the brake, a defective bolt snapped somewhere, and he nearly fell from his seat. The team wildly plunged forward.

Down the deady hill, lurching,

swaying from side to side, or violently fumping over boulders, they went, but Sanders sat firm, with his browned hands twisted desperately into the lines.

Up from below, with bells tinkling on the leaders, and driven by one who carelessly whistled, came an orewagon. The whistle stopped abruptly, and the driver was startled into action. McCarthy had always thrown all but too late. Sanders had seen the the patronage to Sanders' line that he danger, and made instant choice. It Come and see us; this is your could. Sanders thought something smelled bad-just as the hospital did that time when father was taken there. He tried to raise his arm, but there was some big wooden thing on it and it hurt. He rested a while, trying to remember what had happened.

Then he decided to open his eyes, but one was blind, because there was a cloth wrapped around his head. Finally he looked out with the other one with much effort, and discovered, to his amazement, that he was in the superintendent's office; only it didn't look natural-there were so many bottles around on tables.

Sanders tried to sit up, but a cool hand restrained him. "Not yet, dear boy," said the Dream Lady? and then h! he could love his mind became active and he wanted to know where the stage was.

The armoved cruiser has been compared to cavalry. A distinguished naval officer says that it is not comparable to caval adds, "no one has proved that a navy needs anything comparable to the cavairy. It is not comparable to the cavalry for the reason that it has not nearly the same speed, relatively to the other vessels of a fleet, that the cavalry has to the other branches of an army; and because it has not nearly the same power, either offensive or defensive, relatively to the other ships, that the cavalry has to the other branches. And a person would have to labor hard to prove that a navy needs komething comparable to

THEY WERE RETURNED.

Nature and a woman's work combined have produced the grandest remedy for woman's ills that the world has ever known.

In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering.

The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffle the most skilled physicians who have spent years inthe study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their peculiar ills, more potent and effica-cious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills. Mrs. Bertha Muff, of 515 N.C. St.,

Louisiana, Mo., writes: "Complete restoration to health means so much to me that for the sake of other suffering women I am willing

to make my troubles public. "For twelve years I had been suffering with the worst forms of female ills. During that time I had eleven different physicians without help. No tongue can tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham for advice. followed it, and can truly say that Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice re-stored health and strength. It is worth mountains of gold to suffering women.'

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Muff. it will do for other suffering women.
