ING IMMENSELY

MARQUETTE MEET-

Although Marquette suffered from the same extremely high temperatures that prevailed here the visitors thoroughly enjoyed every part of the pro gram at the Lake Superior City and returned to Escanaba enthusiastic over the reception accorded them. Of the meeting the Mining Journal SAYS:

"Yesterday was Shriners' day Marquette, being the summer semiannual session of Ahmed temple, Nobles of the Ancient Order of the Mystic Shrine. In spite of the intense heat, there was a fairly good attendance from all parts of the upper peninsula and the usual good fellowship and good time was enjoyed.

The business session in the afternoon was very short and the remainder of the time was spent in seeing the sights of the city and other forms of pleasure. In the evening the Shriners in rea

caps and other regalia marched from the Hotel Marquette to Masonic Hall, leading the candidates who were destined to cross the desert sands by a rough and toilsome pilgrimage to finally find comfort and enjoyment in the oasis of Ahmed Temple. After the ceremonial session a musi

cal and vaudeville program was given. which was followed by a luncheon and smoker.

The delegation of business men that were appointed by the Escanaba Business 'Men's Association, J. E. Byrns, J. C. Kirkpatrick, R. E. McLean, W. R. Smith, F. d. Shaw and T. M. Judson, to confer with the Chicago and North-Western railroad officials at Chicago

have returned to the city quite jubilant over the success they met on their trip. They were cordially received by Mr. W. A. Gardner, vice-president, Mr. Johnson, General Passenger Agent of the North Western and Mr. Nash, assistant to the President.

The result of the trip was that the C. and N. W. rallway are to inaugurate the following changes:

Train No. 3, that heretofore arrived at Menominee at 4:55 p. m. is to run through to Escanaba, making its ter minus here.

Train No. 12, due to leave Menominee at 7:35 a. m., going south is to have Escanaba as its starting point, leaving here about 5:30 a. m. This train will enable passengers going south to transact business at Green Bay or other points and return the same evening.

Train No. 116, due here at 11:00 a m. going south to carry a parlor car. Train No. 117, due here at 2:05 p. m. going north, carry a parlor car.

Escanaba is also to have a section reserved on the Calumet sleeper, a section on the Soo sleeper and a section on the Marquette sleeper. Heretofore there was merely one section

reserved from Escanaba. The above named railroad officials are to come here within a week or ten days and take up with the committee in regard to train No. 115 that is due here at 8:50 a.m.

The committee requested the C. and

FINE EFFECTS 비개 CATERERS DO MUCH WITH ICES AND SPUN SUGAR.

Wonderful Schemes of Decoration Evolved-Hostess May Have Any Idea Which Particularly Strikes the Moment's Fancy.

ices and Spun Sugar,-Caterers in the world of fashion are achieving wonderful effects in spun sugar, to be used with decorative ices at dinners, luncheons or suppers. The ices are ordered in special forms and can be had to match any color scheme or to carry out any holiday decoration. For a bridal breakfast there are large wedding bells of white spun sugar filled with ices in the forms of Cupids and orange blossoms. Again, the sun sugar is a huge slipper filled with heart-shaped and small wedding bell ices.

For a spring luncheon in yellow nothing is lovelier than a great poke bonnet of yellow spun sugar, set on masses of green spun sugar with a broad band-like green ribbon across the crown. This is filled with ices in the form of white lilles, or reses with green stems.

This form is passed to each guest, who serves herself to it and some of the spun sugar.

For a pink luncheon a huge corn copia of pink sugar is filled with ices in the shape of big azalea blossoms trailing from a bed of pale.green span sugar. Or it may be filled with real strawberries and vanilla ices molded to resemble strawberry blossoms and foliage.

Quick and Easily Made Icing-Cream lump of butter the size of an egg with two cups of powdered or confectioners' sugar and three tablespoonfuls of cocos, vanilla and five tab! spoonfuls of cold coffee. By using orange juice instead of cocoa and coffee, and orange rind or extract instead of vanilla, a nice orange filling is made. Beat hard and spread on cake layers.

Quickly Made Sandwiches. Fifteen minutes spent in watching

a caterer make up the sandwiches for an evening entertainment yielded some profitable information. With a sharp knife he first cut up all his bread into thin slices, trimming off the crusts from a dozen slices at a time. Then into a bowl of freshly made mayonnaise he stirred the contents of a can of deviled ham. It was the work of a moment to spread this rich paste upon two slices of bread. A slap with the big knife pressed them into a thin wedge and a sharp cut divided the sandwich square in two tri-

"To tell our women that it helps to save their souls to wear short skirts and let their hair hang down. For every soul of a woman that it saves it sends two men on the road to hell!" So intense was the old man's displeasure and so ludicrous the twisting contortions of his face that Nathaniel could hardly restrain himself from bursting into a roar of laughter. Obadiah perceived his inclination and with an angry bob of his head led the way through to the inner edge of the walting circle of men. Within this circle, in a small open space, was a short post with straps attached to an arm nailed across it, and leaning upon this post in an attitude of one who

Nathaniel drew Winnsome's note from his pocket and read it aloud Obadiah smiled gleefully when he noticed how carefully he kept the handwriting from his eyes.

"Strang's wife."

"Yes, even so. And it was she who set my old legs a-running for you, my boy. Come, let us move!"

The little councilor was his old self again, chuckling and grimacing and rubbing his hands, and his eyes danced as he spoke of the girl.

"Casey is not a cautious man," he surgled with a sudden upward leer. "Casey is a fool!" "Casey!" almost shouted Captain

An ominous si lence pervaded the circle, with the exception of the hushed whispering of a number of women who had forced themselves into the line of spectators, bent upon witnessing the sight c blood as well as hearing the second of lashes. Nathaniel noticed that most of the women hung in frightened curi-

osity beyond the men. "That is MacDongall with the lash -official whipper and caretaker of the slave hounds," explained Obadiah in a whisper. Nathanley gave a start of horror.

"Slave hounds!" he breathed.

The councilor grinned and twisted his hands in enjoyment of his companion's surprise.

"We have the finest pack of blood hounds north of Louisiana," he con-tinued, so low that only Nathaniel could hear. "See! Isn't the earth worn smooth and hard about that post?"

Nathaniel looked and his blood grew hot

"I have seen such things in the south," he said. "But not-for white men!"

The councilor caught him by the arm. "They are coming!"

In the direction of the jail the crowd was separating. Men crushed back on each side, forming a narrow aisle, even the whispering of the women ceased. A moment later three men appeared in the opening between the spectators. One of these, who walked between the other two, was stripped to the waist. About each of his naked wrists was tied a leather thong and these thongs were held by the man's guards. The prisoner's face was livid; his hands were red with blood that dripped from his lac-

"Ah, it's Wittle first!" breathed the councilor. "It's he who said his wife should not wear short skirts."

At the edge of the circle the prisoner hesitated and the muscles in his arms and chest grew rigid. Those of the crowd nearest to him drew back. Then a sudden change swept over the man's features and he walked quickly to the stake and kneeled before it. The thongs about his wrist were tied to the straps of the cross-piece and the whipper took his position. As the first lash fell, a cry burst from the lips of the victim. A party of six Escanaba young men will leave on Sunday morning for two weeks' munch cruise down Green Bay and the Fox River. Those who will make up the party are: P. A. Aronson, Matt Peterson, Taylor Peterson, Hans Hanson, William Schmidt and Henry Peterson. They will visit all of the ports alog Green Bay and will run down the Fox River to Oshkosh, two weeks being consumed in the cruise. The trip is practically the same as was enjoyed by the same party of young men last season, the cruise proving so enjoyable they unanimously decided to repeat it this year.

CHANGE IN REVENUE LAW TO AFFECT TOBACCO MEN

Formal notice hasbeen received from the commissioner of internal revenue at Washington as to the provisions of the new revenue act as affecting tobacco, snuffs, cigars and cigarettes which becomes operative July 1. The law is of interest to every manufacturer and many dealers.

Under the provisions of the tariff act approved Aug. 5, 1909, the rates of internal revenue taxes on manufactured tobacco and snuff are increased from 6 to 8 cents per pound; on cigars weighing not more than three pounds cents per thousand; on cigarettes weighing not more than three pounds per thousand, from 54 cets to \$1.08 per thousand, according to the wholesale price, to one rate of \$1.25 per tions of the famous "knockout" blows thousand and on cigarettes weighing of the Sullivan-Corbett battle, Fitzmore than three pounds per thousand, simmons knocking out Corbett, Jetfrom \$3 to \$3,60 per thousand, to take fries knocking Fitzsimmons down in

XVIII.-CONTINUED.

To a stranger he would have looked a sick man, but perhaps association had blunted my perceptions in his case, and his words surprised me. Assuredly he was no weaker than on the night when he first came to me. If there had been any change, it had been an improvement. The old air of the fugitive had in great part disappeared, though he still gave one the impression of continual vigilance.

He described his symptoms with his habitual deliberateness, closing the account with a statement that he believed his heart to be affected seriously, and that he desired me to examine him at

"Well, let that be as it may," said Mrs. Weston, who was not to be entrapped into a definite statement on such a doubtful point, "she's a marvel, I must say. 'Tain't like, now, as if she had to work for a livin'. But that's jes' the way the world seems to go. Them that don't need gets; them that wants to rest has to keep stirrin'. If 'twas her niece was rushin' round, 'twould be all natural, because she's got her livin' to get sooner 'r later. If I was in her place I'd be plannin' and savin' like a good fellow."

She is devoted to boating, you know; it is surprising that she has resisted the temptation so often lately. Nevertheless, we labored over her long after we realized that our efforts were in vain. With that palefaced girl struggling with the agony which possessed her, yet working with us unremittingly, it was a harder task to cease than to continue our endeavors. Lamar approached us once, but, after a glance at the scene, turned away without a word and reentered the house. A moment later, however, old Martha appeared, bearing stimulants, which she placed beside me, and then stood watching us with awe-stricken curiosity. At last Johnson rose.

"It's no use, doctor, no use," he said, solemnly. "The poor lady's gone." The girl gave a despairing cry. Some ime before she must have begun to realize the truth, but she had battled against it, striving to deceive herself. "No, no, it can't be, it can't bel" she moaned. "Oh, aunt, aunt! Gone, gone from me, forever!"

She reeled, and would have fallen, but I caught her in my arms, and held her close as she sobbed upon my breast, crying her heart out, it seemed, as the sense of her great loss burst upon her.

"Valvular. I should like a consultation at once."

"Of what advantage?" he asked, as coolly as if he were not discussing his own death sentence. "The disease is mortal. Treatment cannot cure it."

"But it may prolong life," I urged. "Besides, it is only fairness to yourself to have an expert's opinion. Take my advice-"

"Pardon, but I must decline to do so. I am content with your skill unaided. It is a confirmation of my own suspicion. The end is not so much; I have the warning-it is all I desire."

He was silent for a little, this strange being, his expression unchanged, his self-control absolute. When at last he spoke there was no hint of emotion in his voice as he asked the question I dreaded to hear.

"How long may I, in reason, count

upon?" "I cannot tell you definitely," I answered. "It may be a year, two years. three years; it may be to-morrow. A shock, a-"

"I comprehend. But, undisturbed, what time do the odds favor?"

"Six months. But it is no more than the wildest guesswork."

Again there was a pause. Presently he asked:

"You spoke of a shock. Would it be

of necessity fatal?" "No. But it would be the one chance in ten if it were not." I knew my man well enough to understand that he desired no evasions.

"You speak from the book," he said, quietly; "but in that I think you wrong. I rate the chance greater."

"May you be in the right of it," I mid; but he made no comment upon the hope thus expressed. Soon after, having given a few directions for his care of himself, and having promised to have a prescription for him made up at once, I left him to his thoughts. What they were I could hardly imagine, but I hoped that among them was some shadow of remorse at the remembrance of the poor devil whom he had suf-fered to lie helpless for hours almost at his door. It was fate's irony that of these two men the one who then was close to death should now be far on the road to health, with the prospect of many years before him, while the other, who had rejoiced in his mis-fortune, should find himself under a sentence which knew no chance of re-

"And how have you improved them?" "My teacher is flattering. But perhaps I may be able to display my skill. in a practical way, if only we get a breeze this afternoon."

"Count on me to be a severe critic," said I. "By the way, Miss Gray, do you mind if I combine business with pleasure? I have an errand to do at Mr. Lamar's, and if you would land me near his house, and then pick me up again, I should be your debtor forever."

She fell in with this plan, and I turned back to the house to secure a volume which Lamar had asked me to lend him. It was a small textbook on histology, I remember, though why he should have desired to get a smattering of that branch I never learned. When I reached the boat Mrs. Loring was enthroned in the stern sheets, while her niece was perched on the narrow seat in the bow. The air was stifling hot on the sheltered waters of the errek, and the sweat gathered on my face as I busied myself with the oars.

"Ugh! this is like the flue of a fur nace," I protested, ceasing rowing for a moment to wipe my forehead. "J envy you ladies your parasols and cool attire.

"Ah, but woman's dress is so illogical. you know, so contrary to the dictates f sense and science," said Miss Gray, a little maliciously. To tell the truth, I. think she was quoting a remark of mine with reasonable accuracy.

"Do you believe that?" I asked, rather feebly, giancing at her over my shoulder. She wore a gown of some light thin fabric, and, with the art possessed by many of her sex, looked daintily comfortable in spite of the outrageous tem perature.

"Of course she doesn't," Mrs. Loring to her."

A remark so direct, so unqualified, and so free from repetitions was a novelty. It centered my attention on the speaker, who, I now noted, was dressed almost as seasonably as her niece, al-though she favored darker colors.

"No man's opinioa seems to be weighty gh to count," said I, "especially as lickers would, no doubt, be the first to protest if their objections

later the girl had ceased rowing, and had shipped the slender spar which did duty as a mast. There appeared to be just breeze enough to fill the tiny sail.

Lamar met me at the door. "Here's that book you wanted." said I. "There was an opportunity to deliver it this afternoon, and 1 improved it. Anything else you would like to have

done?" "Nothing, I thank you," he answered turning back into the house. The dire-ful news he had received so recently had had no softening effect upon him. He showed no longing for sympathy, no desire to seek from his physician a word of encouragement.

Johnson was at work near by, and I stopped to chat with him, while 1 watched the boat move slowly northward and turn at last into the inlet. Miss Gray, sitting on the midship

thwart, was managing the sail, while Mrs. Loring, at her old post, held the steering lines. She was leaning over the side, I noticed, catching at bits of driftwood floating in the current. "It's a ladies' breeze, Johnson," said

L "barely enough to give the boat steerage way." "Ain't much of it," he answered, "and what little strength there's in it comes

in puffs. D'you notice 'em?" "Yes, but they're baby puffs; no weight in them."

"Not much, sir, that's true," said he going back to his task. I took my time in reaching the spot

about 100 yards from the house, where the bost was to touch; but so slow had been its movement that when I looked back it was yet opposite the knoll. Mrs. Loring was amusing herself as before, while Miss Gray was exchanging friend-ly nods with the fisherman. On the water just astern of the craft was a dark line, advancing rapidly toward it and marking the coming of a gust a lit-tle stronger than any of its predeces-sors. A few seconds later the sail filled

with the breeze, and the boat keel sharply, just as Mrs. Loring made an u usually reckless grasp at the driftwoo

The Saving of Two Souls by the Angel of Love.

They parted. Words had been spoken for which the noment could find no balm. Full of

the pride of his manhood, he had accare for. cused her of vacillation and insincerity. Had charged her with double dealing. Had spoken cruelly of her devotion to a friend who, he seemed to think, stood nearer to her higher self than he-he who had given his very

best to her. She, proud in the consciousness of

oure womanhood, jealous of her harmless friendship, had met charge with charge. Indignantly she had denied that love had any share in their meet-ings. Friendship, loyal and simple, had caused her to hasten to his side; thankfulness for favors; anxiety to render mental help to one in need of it. Her heart, she had vowed, again and again, belonged to him who had given her a new life; to whom she, in turn, according to his own admission, had revealed the happiness which can come only from the blending of two souls into one.

The talk had ended. Convinced of the justice of his position, the man pursued his way. Convinced of the justice of her position, the woman secrificed her love to her friendship.

And so they parted, stumbling under the cross they were carrying toward their cavalry.

For years they bore the burden. Their paths diverged, but the memory of the last parting kept their anguished souls in constant communion. At last they met again.

The angel of love removed the rock beneath which their hearts had been buried.

And Heaven recorded the resurrection of two souls .-- G. W. Weippiert, in Banner of Gold.

NO ESCAPE FROM THE TUNAS

Up in Schools and Devoured by Hundreds.

I have observed some curious scenes at sea, but never have I seen fear so forcibly expressed as by a at the mercy of the voracious tunas,

declares a correspondent of the Outing Magazine. I have had them gather about my boat and cling to its keel as closely as they could, while the air was full of leaping tunas and soaring flying fish. At such times when a school of sardines is rounded up the fishes are so terrified that men have

rowed up to them and scooped them in by the pailful. I have stood in a boat when the air seemed literally full of fish, the tunes coming up with a rush from below, and endeavoring to catch the flying fishes with tremendous leaps. Some-

times they take them in midair; again they strike and knock them higher, bleeding or dead, or miss them altogether. But whatever the result. the tuna is never displaced; it makes
