

GERMANS ARE IN RUSSIA

ARMIES OF KAISER FLUSHED WITH SUCCESS UPON ENTERING RUSSIA

(Special to The Press)

London, June 29.—Flushed with victories at Halicz and Lemberg, the Austro-German armies under General Von Linsingen today swept across the border and now in Russian territory, till fighting desperately but apparently hopelessly, the army of Grand Duke Nicholas is retreating. In their advance across the border into Russian Poland the Germans have captured the town of Tomaszow about 50 miles from Lemberg and 30 miles into Russia. Announcement of the continued Teuton advance is contained in official statement from Berlin and Vienna, while Petrograd admits Russian defeats. The Russians also have been repulsed at Kamionka, 25 miles north-east of Lemberg with great life loss. The Russians were routed among the entire border.

(Special to The Press.)

London, June 29.—Enormous numbers of German troops are reported from eastern front to be enroute to the western front. Greatest secrecy is maintained. The most spirited action was fought in Vosges where, in an endeavor to push forward on the slopes to the east of Metzeral, the French suffered a momentary check. After terrific counter attack it is reported at Paris that the French have again occupied all the ground they lost.

NEW NOTE IS FORTHCOMING

(Special to The Press.)

Washington, June 29.—Evidence accumulated today at the State Department that concrete plans are proceeding between the United States and Germany to reduce to the minimum dangers to American life and property in the German war zone. An effort is now being made, it can be stated positively, to avoid attacks on vessels flying an American flag. It is admitted at the State Department today that the United States now advises the German foreign office, through Ambassador Gerard of the date of sailing from America of every vessel that will enter the zone. There would be no surprise now if Germany were to admit her liability for reparation in the case of the Lusitania. It is thought at the department that Germany cannot successfully combat the official evidence of the United States that the Lusitania was unarmed and not resisting capture. Officials also believe many will state the difficulties so frankly that they will amount to an appeal for suggestions from the United States as to how best it may allow a free sea for neutrals and at the same time maintain a blockade of English ports.

MAY SETTLE AFFAIRS FOR OLD MEXICO

(Special to The Press.)

Washington, June 29.—President Wilson soon will take a definite step towards a settlement of Mexico's tangled affairs in the opinion of officials close to the administration. They believe two courses are open to Wilson.

(1) To increase the pressure on General Carranza by closing Vera Cruz, Tampico and other Mexican ports to induce him to negotiate with General Villa.

(2) To eliminate Carranza personally from consideration and attempt to bring together some of the strongest men in the convention to select a candidate for the President who will have the moral support of the United States and recognition from the administration.

Don't forget the Union dancing party given by the Int. Assn. of Machinists, Helpers at Clark's Hall, Monday evening July 5th. Music by Hym's Orchestra. 50c per couple and a good time assured.

AUDITOR GENERAL RETURNS TO LANSING

Auditor General and Mrs. O. B. Fuller and son Harold, left yesterday on their return motor trip to Lansing, after having visited with friends and relatives here for the past two weeks. They were accompanied on the return trip to Lansing by Miss Ruth Malloch who will visit at both Lansing and Grand Rapids before returning to her home here.

WOOLPERT IS READY

C. U. Woolpert, of Wells, on Thursday will formally enter upon the discharge of his duties as county school commissioner, succeeding P. R. Legg, of Gladstone, whose term expires today. Mr. Woolpert some time ago took the oath of office and is prepared to enter actively into the work of the office.

For the present Mr. Woolpert will continue to make his home at Wells where he has been engaged as superintendent of the schools for several years. His successor in charge of the Wells schools has not yet been announced.

THAW WILL START FIGHT

(Special to The Press.)

New York, June 29.—Harry K. Thaw tomorrow will begin his real fight for liberty. With the flat sworn statements of three experts on insanity that Thaw is sane his counsel today put a capstone on a strong case in their clients behalf. Tomorrow the state will begin its work of demolishing this case before the jury. Prior to this, Deputy Attorney General Cook will cross examine Dr. Charles K. Mills, the last of Thaw's alienists, who in closing the hours of the trial today said "Thaw is sane." A surprise is promised by Thaw before the end of the trial.

BETTER SALARIES FOR OFFICERS

Washington, June 29.—Offers of large salaries to expert ordnance officers of the army by manufacturers of war munitions have created such a serious problem in the war department that Secretary Garrison has called upon Attorney General Gregory for an opinion as to whether an army officer has an "inalienable right" to resign his commission in times of peace. Four resignations were accepted before the gravity of the situation was realized, but two others recently tendered are being held up pending the attorney general's decision and the formation of a general policy by the department.

Ordinarily this question gives the army little trouble. Few officers have been anxious to abandon their military careers. Now, however, the tremendous and growing demands of the warring European powers for arms and ammunition has made it well work while to private manufacturers to pay handsome salaries to attract ordnance experts.

High officials are reluctant to permit wholesale resignations under such circumstances and even are inclined to consider it unpatriotic for officers to quit the service for more money. Apparently, however, the legal authorities seriously doubt that any law can be found to keep an officer in the army against his will, particularly if he has served a reasonable number of years after receiving his education at the military academy.

Another source of concern is the considerable number of civil employes, scientific men and skilled mechanics leaving government arsenals and powder plants for private employment.

A shooting match will be held at LaPalme's store on the Danforth road on Sunday, July 4th. As this is the first match to be given this season it is hoped a large crowd will attend.

PLANT TO BE REOPENED

PREPARATIONS BEING MADE FOR RESUMPTION OF BUSINESS OF MICHIGAN TANNING AND EXTRACT CO.

Repair work is rapidly going forward at the plant of the Michigan Tanning and Extract Company at the Chemical Plant location in preparation for the reopening of that industry, after having been closed for over a year's time.

F. M. Shaw, general manager of the local plant, stated yesterday that the work of making the needed alterations and repairs was being pushed rapidly and that it would probably reopen with the course of three or four weeks time.

The resumption of operations at the Extract Plant will materially assist the lack-of-work situation that has existed here. Fully 50 men will be employed from the beginning and more will be added as they are needed.

"The demand for products of extract plants in all sections of the country is especially great since the opening of the war," said Mr. Shaw, "and I believe that within a short time after the local plant has been started that the demand will be greater than we can supply," continued Mr. Shaw.

Many of the employes who held positions with the local concern before it closed down a year ago will be recalled and given their old jobs back. The reopening of the Extract Plant but makes more certain the belief that business conditions in all sections of the country are recovering from their recent slight depression.

REV. P. B. FERRIS IS VISITING HERE

Rev. and Mrs. P. B. Ferris, the former pastor of the First Presbyterian church here for 10 years, arrived in the city Monday evening and will visit here for one week with friends and relatives.

Rev. Ferris was probably the busiest man in the city yesterday greeting his old friends. Probably no minister ever to occupy a local pulpit formed more solid friendships than did Rev. Ferris and on his return here for a vacation, all extend a most hearty welcome. That he has chosen Escanaba as the place to spend his summer's vacation, leads his local friends to believe that the ex-pastor cares just as much for people here as he did for him.

Rev. Ferris is now enjoying an excellent pastorate at Petoskey, Michigan.

CHILDREN HAVE GREAT GARDENS

There are no school gardens at Ludington Park this year because that plot has been changed into a lawn, but the idea of home gardens has been carried out very extensively. Already there are about one hundred and fifty boys and girls who have entered into the competition of the school garden contest representing all the grade schools of the city. These gardens will be inspected during the summer and the apportionment of prizes will be based upon the inspection. If there are any other grade children in the city who neglected to hand their name into the teacher, they will be allowed to enter the contest this week, provided they leave their name and address at the high school.

TWENTY YEARS AS A PRIEST

Rev. Father Barth, pastor of St. Patrick's church of this city yesterday celebrated the twentieth anniversary of his entrance to the priesthood.

Twenty years ago yesterday Father Barth was formally ordained a priest at Louvain, Belgium and the vows that he took at that time have been firmly kept by the local pastor and at the present time he is looked upon as one of the most brilliant, important and prominent in this district.

His first parish was at Stephenson, Michigan, where he placed a run down church upon a firm financial foundation and before leaving Stephenson to come to Escanaba five years ago, a new church and rectory had been erected.

Perhaps the greatest work that Father Barth has done since coming here, in addition to becoming a church financier of importance, is his organization of first, the Boys Brigade and now his starting the organization of His endeavors with respect to the young of his church have been unceasing and on his twentieth anniversary he should look with pride upon his record. The good that he has done among the young people of Escanaba alone, cannot be reckoned in a Girls Brigade.

mere words. It has been priceless.

WILL INSTALL NEW PRESS AT LOCAL PAPER OFFICE

Fred Scudford has arrived in the city from Geneva, N. Y., to install the new Whitlock press at the Escanaba Journal office. Mr. Scudford will probably be engaged here for several days.

Notice Odd Fellows

The meeting of the Odd Fellows called for next Monday evening has been postponed for one week. (Signed) CARL O. ANDERSON.

EXPERIMENTS BEING MADE

This year the High school farm which consists of six acres at South Park, will be planted with many different varieties of legumes and grasses which have not been tried out in the Upper Peninsula before. Some of the varieties which are being planted are:

Broom Corn Millet, German Millet, Hungarian Millet, Japanese Millet, Common Millet, Soudan Grass, Spring Rye, Perennial Rye, Sweet Clover, 3 varieties; Sanfoin Clover, Alsiko Clover, Crimson Clover, Alfalfa, Bell Brand Clover, Canada Blue Grass, Kentucky Blue Grass, Winter Vetch, Red Top, Orchard Grass, Broom Grass, Sorghum, Soy Beans, Cow Peas, Rye and Vetch.

The light soil will be tried out with the legumes with the idea of building it up, and for that purpose there has been applied to the soil three tons of hydrated lime. In answer to a number of inquiries, the lime is added to the soil to correct its acidity and also to make the other plant foods more available.

These soil building legumes must be treated with bacteria so that they will take the nitrogen out of the air instead of out of the soil. The scheme of inoculating the soil with this nitrogen bacteria is to inoculate the seed before it is planted with the culture of this bacteria.

These experiment plots will be labeled, and it is hoped that people from the entire county will inspect them during the summer. To our knowledge, this is the most extensive experiment concerning the growth of legumes on the effects of lime upon them which has been conducted so far in the upper peninsula.

If any one is interested in the effect which lime has upon alfalfa, they should see the plot at South Park which was planted in 1914 both with and without lime. The plot which was limed came through the winter in excellent shape, while the unlimed plot has only an occasional plant growing in it.

BRAMPTON HAD A FINE PROGRAM

The Brampton Sunday School observed its Children's Day on last Sunday afternoon. The school house was beautifully decorated with letters and flowers. A fine religious program was rendered by the children and all were well pleased. This Sunday school numbers between thirty-five and fifty attendance. They have preaching every two weeks. So Brampton is coming to the front. Next Saturday Brampton will hold a fourth of July celebration.

Morning Press "Want Ads" Bring Results.

MAVES FUNERAL THIS AFTERNOON

Final funeral ceremonies over the body of August Maves, who met a horrible death at the Masonville mills on Monday, will be conducted this afternoon from the home of Mrs. William Peters and from the German Lutheran church at Jacob and Jennie streets. Rev. Hohenstein will officiate and interment will be made at Lakeview cemetery.

PAVILION WILL OPEN

Members of the Escanaba Military Band are making unusually elaborate plans for the opening of the South Park dancing pavilion on Thursday night. Under the leadership of H. O. Boston, the band has prepared a program of a particularly high standard for the opening event and with fair weather conditions prevailing it is expected that a tremendous crowd of dancers will be attracted to the place. The band is now made up practically in its entirety by Escanaba musicians and the organization holds the united support of the business men of the city in their effort to give to this city a high class musical organization.

NEGAUNEE PIONEER CALLED TO REWARD

Julius Jacobson, a pioneer resident of Negaunee and well known in this city, passed away on Monday at Los Angeles, where he had gone in search of health.

Of the death of the Negaunee man an exchange says:

Julius Jacobson, a pioneer business man of Negaunee, died yesterday afternoon at Los Angeles, Calif., where he went last December with Mrs. Jacobson to remain for several months. News of his passing was received here from Mrs. Jacobson last evening. Mr. Jacobson was seventy-five years of age. He was in fairly good health when he left Negaunee. He became ill four months ago, but recently was reported to be improving. He expected to return home in July.

Fr. Jacobson was one of Negaunee's early merchants. He conducted a drygoods and clothing store in the Pulvey block for a number of years before retiring. Mr. Jacobson was interested in mineral lands. He was the owner of a one-seventh interest in the Ravenna and Carpenter mines, in the Crystal Falls district of the Fenomee range.

Besides his widow, Mr. Jacobson is survived by two children, Norma, of Negaunee, and Fred, of Bisbee, Ariz. Fred, it is expected, will accompany the body of his father to Negaunee.

KYLE-WRIGHT WEDDING PRETTY

Last evening at 6 o'clock, Miss Emma Kyle, daughter of Mr. and Mrs. Thomas R. Kyle, of 315 South Oak Street, became the bride of Mr. George Wright, Rev. R. Stanley Brown, pastor of the First Presbyterian church assisted by Rev. P. B. Ferris, ex-pastor of the local church, officiating. Immediately following the wedding an elaborate supper was served at the home of the bride.

The wedding was most beautifully carried out, the couple receiving the wedding vows under a canopy of daisies and ground pine. The bride was beautifully gowned, making the picture a most pleasing one.

Miss Kyle has served as a teacher at the Washington school for a number of years and in this capacity has won the respect and admiration of scores of local people. She has established an enviable reputation as a teacher here.

Mr. Wright is well known in this city having resided here for the greater share of his lifetime. Through his strict honesty and integrity, Mr. Wright has won friends here by the score.

The couple will make Escanaba their future home and in doing so will receive the good will and congratulations of their many friends.

Second game: Boston—2. New York—3. Batteries: Rudolph and Gowdy; Stroud, Schauler and Meyers.

Baseball News of Day Tersely Told

WHITE SOX STILL WIN CHAMPS AND GIANTS DIVIDE

American League

(Special to The Press.) Chicago, June 29.—Opportune hitting by J. Collins and Faber enabled Faber to win his fourteenth game this season. Sieler of the University of Michigan played first base and delivered one run.

St. Louis—2. Chicago—4. Batteries: Hamilton, Perryman and Severoid; Faber and Schalk.

(Special to The Press.)

Boston, June 29.—The Yankees tied the score in the ninth and forged ahead in the tenth, but the Red Sox scored two in their half on two hits, two errors and Speaker's single, ending the game.

New York—3. Boston—4. Batteries: Caldwell and Nunnemaker; Ruth and Thomas.

(Special to The Press.)

Washington, June 29.—In the fourth, with the bases full Shanks cleaned up with a three bagger. Washington had little difficulty with the three Athletic pitchers.

Philadelphia—0. Washington—8. Batteries: Wyckoff, Davis, Heffner and Lapp; Boehling and Henry.

National League

(Special to The Press.) St. Louis, June 29.—The Cardinals and Pirates split a double header before 12,000 people. St. Louis secured an early lead in the first but were overhauled. In the second the locals went away with a flying start and were never headed.

NEW IDEAS GIVEN PEOPLE

HUNDREDS YESTERDAY ATTENDED GOOD HEALTH WEEK SESSIONS

High School Auditorium this Afternoon 2:30

Selection Girls Sextette Drill—"Fold Dances" Barr school Piano Duet—The Misses Cornelia Henderson and Edna Cratt. Lecture—"Health and Heredity" Dr. H. S. Bartholomew High School Auditorium this evening 8:00

Overture Orchestra Rhythm Drill Webster School Solo Mrs. Barras Lecture—"How to Improve the City Milk Supply" Mr. M. L. Holm, State Bacteriologist Selection Orchestra

Yesterday was one of the most important and enthusiastic days, thus far, of Good Health Week. Speakers of national prominence yesterday talked to Escanabans and it is believed that more real good was derived from the sessions of yesterday than on any previous day.

Last evening's session was held at the high school auditorium at which time Dr. H. S. Bartholomew, city physician of Lansing and Hon. D. E. McClure were the principal speakers.

Dr. Bartholomew took for his topic yesterday "The Specific Character of Dangerous Communicable Diseases", while Fr. McClure talked from his designated topic "The Relation of Disease to Crime".

The lectures of these two men last night were entirely made up of good common sense and it is believed that their remarks of last evening will have a material effect upon the hearers of last evening. By attending the lectures at the high school last evening, Escanabans were able to secure knowledge which will prove invaluable at future times and which, in many instances, will be placed into practice use here.

Yesterday afternoon the meeting was held at the City Park. One of the prominent speakers of the afternoon was Congressman Scott of Alpena. In his address Fr. Scott lauded the city for having the splendid water system that it has and he stated that he sincerely hoped that some day his home town, Alpena might follow the example of this city in this regard. He is highly in sympathy with the Health Week Idea and will be an ardent supporter of such from this time forward.

The Escanaba Military Band yesterday afternoon furnished a most pleasing program at the park. Both the literary and musical number of both the afternoon and evening programs were of a high standard and of such a nature as to reflect much credit upon those who took part.

The exhibit at 706 Ludington street, yesterday attracted an immense amount of attention. F. J. Pienta, who has charge of the exhibit rooms declared last night that he believed that he had had his most successful lay yesterday, especially during the early portion of the evening when an especially interested audience gathered to watch the free exhibit and to listen to his lectures.

The exhibit is proving one of the most valuable assets of the Health Week program here.

WILL MARRY TODAY PARTY WAS HELD

Today Miss Ruth Robertson will become the bride of Mr. Andrew J. Potter of Detroit, at the home of Mr. and Mrs. E. J. Noreus on Michigan avenue, the latter being a sister of the bride-to-be.

The marriage ceremony will be performed by Reverend Pliny B. Ferris, of Petoskey, formerly pastor of the First Presbyterian church of this city and brother-in-law of the bride-to-be.

Yesterday afternoon the Misses June McCall and Clara Jaegers entertained at the former's home at a pre-nuptial party in honor of Miss Robertson. The affair was most delightful in nature, in that Miss Robertson met many of her former associates and schoolmates that had not been brought together in several years before. As the bride-to-be left the home in an auto the members of the party followed in another motor car throwing rice and cheering.

Immediately following the wedding today the bridal couple will leave for San Francisco to their wedding.

DO YOU WANT TO GO TO WAR.

The duty, the wisdom and the necessity of subordinating partisanship for this or that foreign country to consideration of the well being of our own country should by this time be apparent to all American citizens. The difficulty of the situation will largely be met if all of us determine to think first of America.

America occupies a peculiar position. The only first-class power not engaged in war, and with no purpose in view except to remain on friendly terms with all the embattled nations and to serve all of them when the time comes—meanwhile keeping out of the maelstrom herself—she has been courted by both sides and suspected and criticized by both. Her every act, her every step, has been subjected to keen and jealous scrutiny. Each side has tried to array her against the other. Her very neutrality, because of its strict impartiality, has created a feeling of hostility in both directions. She is today a striking illustration of the fact that an honestly neutral nation is for the moment without friends among belligerent powers. But she must follow her course to the end. The least misstep, a turning one way or the other way, any deviation from the laws and usages of nations, and she may find herself embroiled in war.

In addition to the influences that have been exerted from outside—and it is almost impossible to exaggerate their character and gravity—things have been done in our own country that are inimical to the interests of the nation. In utter disregard of President Wilson's appeal for neutrality in the press and in public places, not a few American citizens, not a few American newspapers, have denounced Germany and the German in bitter and unmeasured terms. On the other hand, not a few American

citizens, not a few American newspapers, have denounced Great Britain in bitter and unmeasured terms. Not is this all. Attempts have been made to inject into our public life issues that have been raised abroad and should be settled abroad. Propagandists who get their inspiration from other lands have been at work here in way which if successful, would destroy our solidarity as a nation. Our own government and our own nation—the American people as a whole have been insulted and reviled in the interests of Germany and in the interests of Great Britain. And some politicians, casting the call of duty and patriotism to the winds, have sought to raise themselves to power, or to intrench themselves in power, by fanning the fires of racial passion.

Are we a nation or simply a racial conglomeration? The Press is confident that we are a nation, and once the people understand the ulterior motives of agitators, once they realize the danger that threatens us, once they see the necessity of our standing together as one unit to defeat every attempt, on this side or on that side, or drag us in the war, we believe that regardless of birth or blood or natural and creditable sympathies, they will make it very plain that America and her peace and welfare are first in their minds and in their hearts.

The idea of war bills, us, not with fear but with horrors. President Wilson will surely avert war if it can possibly be done without sacrifice of our honor. All the rest of us have a duty to perform the duty of watching the situation at home and in this way assisting the president. We must control our feelings and counsel with our neighbors. And when agitators in the press or on the platform say things that overlook America's interests and tend to embroil America in war, we should remember that not they but we, our sons and our brothers, will have to carry the brunt of war—will have to go out to slay or be slain.

Do you want to go to war? Restored to Good Health. "I was sick for four years with stomach trouble," writes Mrs. Otto Gans, Zanesville, Ohio. "I lost weight and felt so weak that I almost gave up hope of being cured. A friend told me about Chamberlain's Tablets, and since using two bottles of them I have been a well woman." Obtainable everywhere.

WAR

Berlin, June 28.—The debate in the Prussian chamber of deputies yesterday in which the attitude of the German people toward peace was discussed, by Progressive and Socialist members, who in return were answered by a government official, the minister of the interior is attracting considerable attention this morning.

Herr Graun, Herr Wener and Dr. Carl Liebknecht took part in the exchanges. The morning newspapers report the proceeding substantially as follows:

Herr Wiener, Progressive cited with signs of approval from the members an article by Hugon Heineman, Socialist to the effect that no German wastes peace until Germany's enemies are willing to concede her right to develop her economic and cultural powers.

To this statement Dr. Karl Liebknecht, one of the Socialist leaders, interjected: "We have the masses with us and the masses want peace." After this interruption, Herr Wener continued.

"We are convinced that the co-operation of all parties and classes is essential and that it means German victory. In this co-operation is found the guarantee that we will hold out, and that we will be spared from such dastardly attacks in the future."

Herr Braun, Socialist, the next speaker, said the Socialist, did not deny that the German people must stand together against their innumerable enemies. He referred to the fact that certain persons are talking about continuing the war in order to realize "wild plans of annexation." A great majority of the German people wish imperatively that no opportunity for securing an early peace be lost, the speaker declared, and then emphatically reject annexation plans of all kinds.

"The German people want no conquests," Herr Braun declared. "They want annexations. The do want peace without bringing humiliation or subjection to our people."

Herr Delbrueck, Prussian minister of the interior, made answer to Herr Braun to part as follows:

"While we are involved in such a war as this we can have but one thought, namely to terminate it in a way that will make a repetition impossible. That is the goal which the imperial chancellor and the allied governments have set themselves and that is the goal you must strive for along with us."

These words from the minister were greeted with evidences of disapproval from the Socialist members present.

London, June 28.—A dispatch from Amsterdam says several trains loaded with heavy guns left Essen for the German front on the Saure river in Poland, where it is believed they will be used in an advance against Warsaw.

Along that most crucial sector of the Danubian battle front in Galicia between Zurawna and Halicz, heavy fighting is going on.

North of this area and still farther north, over the frontier in Poland, the Austro-German advances are sweeping forward. Dispatches from Petrograd assert that about 500,000 German troops are moving in the Russian Baltic provinces for a final and crushing blow in the north.

Berlin, June 28.—Official bulletin: "A Russian regiment stormed the Russian positions southeast of Oglenda, north of Ptasnyz and on both sides of the Murovka, and held the positions taken against several counter attacks, even against those made at night. The booty amounts to 636 prisoners and four machine guns."

"The army of Gen. von Linsing is continuing its attacks on the northern bank of the Danubius. The right bank near Halicz still is held by the enemy. Since the beginning of their attack on this river, June 23, they have taken 3,500 prisoners."

BACK TO CAVES; ALL EUROPE UNDER SOIL IN WAR ZONE.

Harried, houseless Europe will take to living underground. In subterranean holes. So says the retired Col-Manseloff who has been studying the new born love for soldiers and of civilians for trench and dug-out dwellings. Afonsoff says that if the war last much longer "as it is bound to last, half Holland, and a great part of France, Belgium and Austria; perhaps too, of Germany, will be diggings, itself deeper into the earth in order to avoid shells, keep warm, and escape the deadening, nerve rendering thunder."

Bilious Attacks.

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter. Obtainable everywhere.

GREAT DISTRICT TO GROW SHEEP

That the upper peninsula will ere long become the larder from which Michigan will get its mutton, and perhaps its beef, is the confident assertion of W. F. Raven, M. A. C. superintendent of extension work north of the straits.

Mr. Raven has just returned to Lansing from several months work among farmers in Cloverland and declares that experiments in sheep raising conducted on a number of upper peninsula farms during the past season were largely successful—so much so that the adaptability of the Lake Superior district to flocks has been proved practically beyond question.

"We are satisfied," said Superintendent Raven, "that sheep will thrive in the upper peninsula. The country is ideal for sheep, which can be raised with profit on the cut-over land."

These lands, it might be added, are for the most part at present lying idle, producing not even enough to pay the taxes. The sheep industry, according to Mr. Raven, will in the very near future be marked by great expansion in the northern districts.

It has also been demonstrated that the upper peninsula is suited to the raising of beef animals, and much of the work by the M. A. C. extension men the coming year will be devoted to assisting in the development of the beef industry.

\$83,000,000 RUSS SHELL ORDER

New York, June 29.—W. W. Butler, vice president of the Canadian Steel Foundries, Ltd., and the Canadian Car & Foundry Co., who arrived from Liverpool, declared that he closed a contract in Petrograd for \$83,000,000 worth of artillery shells, which he asserted is one of the largest contracts ever granted by Russia for foreign made ammunition. The shells will be manufactured in Canada.

He declared that the need of the allies now was for shells of a character that would destroy trenches constructed of reinforced concrete and steel, such as, he said, the Germans have built all along the western battle line.

Mr. Butler objected to England's efforts to draw upon Canada and other British colonies for a large supply of skilled labor.

Mr. Butler confirmed an interview he gave before sailing in which he complained that Canadian firms were not given an equal opportunity with firms of the United States in supplying ammunition and war supplies.

FIREBURG INCREASE LOSSES IN STATE

Lansing, June 29.—State Insurance Commissioner John T. Winship made his annual report to Governor Ferris on the fire and marine business of Michigan during the past year. According to his report the ratio of fire losses incurred to premiums received increased 6 per cent during 1914 over those of 1913. In explanation, Mr. Winship states that much of the loss is due to the work of fire bugs, whom it is impossible to stop working despite the efforts of the fire marshal's bureau.

He says that while the ratio of loss is higher than last year, the cost of increase per \$100 is 2 cents less, the cost last year being \$1.01 per \$100 and this year it being 99 cents per \$100. His report shows that the 232 fire and marine insurance companies in Michigan during the year wrote \$943,529,166 in net risks, received net premiums of \$9,699,077, paid net losses of \$6,190,606, and incurred net losses of \$6,341,294.

EX-STATE LEGISLATOR AND BREWER DIES

Green Bay, Wis., June 29.—Henry F. Hagemester, wealthy brewer and banker a former state senator and assemblyman and a life-long resident of Green Bay, died yesterday morning at his country home on the east shore of Green Bay in Door county. He had not felt well since Jan. 1, but his condition became serious only about ten days ago. He departed for his summer home last Monday, expecting to rest and regain his health. He failed rapidly, however, due to liver trouble and complications.

Mr. Hagemester was nearly 60 years of age. Morning Press "Want Ads" Bring Results.

ACCUSED OF ACT SAID VIOLATION OF NEUTRALITY

El Paso, Tex., June 29.—Victoriana Huerta, once president of Mexico, has been seized by United States cavalry officers, escorted by cavalrymen to Fort Bliss, charged with conspiracy to incite a revolution against a friend of the United States, and released on \$15,000 bonds. General Pascual Orozco, once a military leader in Mexico, was taken into custody with General Huerta, similarly charged with violation of neutrality laws, and released on bonds of \$7,500.

General Huerta, who came to the United States from Spain several weeks ago, whither he exiled himself when he was unable to retain control longer in Mexico City, has been under surveillance from the time he left New York a few days ago, ostensibly for San Francisco. After Huerta left Chicago westward bound, reports began to reach El Paso that he was bound for this city.

It was rather openly announced late last night that the general would leave the train on which he traveled and come to El Paso from Newman, N. M., twenty miles from here. This proved to be true, but he came with a military escort, not of his choosing.

Federal officers learned of his plan and Zack L. Cobb, collector of customs at El Paso and Clifford Beckham, agent for the federal department of justice took several federal officers and twenty-five cavalrymen from Fort Bliss and met the train at Newman. The Mexican generals took the affair good humoredly. They were taken in an automobile and driven rapidly to El Paso. After Washington had been consulted, charges of violation of the neutrality laws were made against Huerta and Orozco. The men soon arranged bonds and were released. Their hearing was fixed for Thursday, July 1.

Huerta in a statement said: "I am on my way to Los Angeles and San Francisco to visit the Pacific coast and see the Panama Pacific exposition. I lived in Oakland, Calif., about twenty years ago and have never visited the west coast of the United States since then so decided to make the trip. I came here to visit my daughter, Mrs. Fuentes."

Washington, June 29.—The United States government has frustrated the present attempt on the part of General Victoriana Huerta and his associates to launch from American territory a new revolutionary movement in Mexico. The detention of the former Mexican dictator with General Orozco and others at El Paso today followed nearly three months of espionage by government agents. The department of justice had instructed United States Attorney Camp of the western district of Texas to take into custody those men who seemingly were negated in violation of American neutrality laws which forbid the recruiting of men, the purchase of supplies and the organizing of a military expedition on the soil of the United States to be used in operations against a people with which this country is a peace.

Mr. Camp was instructed to place before a grand jury at El Paso immediately all evidence in his possession in order that indictments may be returned against anyone guilty of violating the neutrality laws of the United States. Apart from any consideration of policy which the Washington government may have in mind for the settlement of the Mexican problem, the department of justice has full sympathy with the department of state in enforcing neutrality laws, irrespective of the individuals concerned.

When Assistant Attorney General Warren called the attention of the secretary of state to the fact that General Huerta and his supporters appeared to be ready to start an armed expedition into Mexico, Mr. Lansing indicated that this was a subject for the department of justice to handle and the arrests were ordered forth with.

The developments in El Paso caused a sensation in Mexican quarters here both the Carranza and Villa agencies issuing statements rejoicing that the United States had checked an effort on the part of the so-called reactionary interests to gain control of Mexican affairs.

While officials were reticent as to the probable development of the case against General Huerta, it was indicated that the United States would retain in its custody for the present the ex-dictator who was declared by President Wilson to be responsible for the turbulence in the southern republic. Just what the evidence against General Huerta is is not disclosed here. The Villa agency here has dispatches from El Paso charging that Huerta is guilty of recruiting several hundred Mexicans and purchasing supplies for their equipment.

While the mere preparations of plans for the beginning of a revolution in a foreign country have not been held to be a violation of the neutrality laws yet soon in consummation

of such plan have formed the basis for indictments in the past.

Speculation was widespread in official and diplomatic quarters as to the effect of the arrest of Huerta on the political situation in Mexico generally. Six men arrested on Saturday and by The Villa and Carranza adherents regarded it as contradicting reports that the American government had lost its previously expressed sympathy for the original Constitutional movement and was now ready to turn to those formerly in control of Mexican politics. So far as the state department is concerned the question involved, it was said, is merely the violation of neutrality.

Washington, June 28.—Secretary of State Lansing, when informed today of reports that General Huerta had arrived at El Paso stated that questions involved in Huerta's presence there had been referred to the department of justice for inquiry. An investigation, it was learned, would be made by department of justice agents as to ascertain whether any neutrality laws of the United States already have been violated, or whether there is any plan on foot to launch from American territory an armed expedition into Mexico.

Under the neutrality laws indictments frequently have been returned against Mexicans for aiding in recruiting in American territory, or sending armed men into Mexico from the United States. Should it develop in the investigation being made that General Huerta has no connection with any military expedition his entry into Mexico would not be forbidden by officials of this government, even though he might join a military force in the field later.

Boston, June 29.—"I am overjoyed at the news. You may say I hope the United States government will keep them all locked up," exclaimed General Felipe Angeles, who is visiting his family here, when informed tonight of the detention of General Huerta and his party at El Paso.

GERMAN AND ENGLISH DUEL IN AIR

London, June 29.—"The German machine first circles around ours, at the same time shooting a machine gun but inflicting no damage," writes an eye-witness of an air duel between a German biplane and a British aeroplane 4,000 feet over the Belgian town of Poelcappelle.

"Then our observer fired fifty rounds in return at a range of less than 200 yards. It had some effect, for the hostile biplane was seen to waver, and after more shots at it, its engines stopped. The enemy aeroplane then dived to a level of 2,000 feet, where it again flattened its course, flying slowly and erratically."

"Under heavy anti-aircraft fire from below our pilot turned toward our line to complete his reconnaissance. When his machine was hit he decided to make for home, but the petrol tank had been pierced, and as the aeroplane glided downward on a slant the petrol was set alight by the exhaust and ran blazing down the front of the body of the aeroplane which traveled on to the accompaniment of a rattle of musketry as the unused rounds of machine gun ammunition exploded in the heat and the pilot's loaded revolver was discharged."

"The pilot, however, did not lose control and the aeroplane proceeded steadily on a downward course. Before it had reached the ground a large part of the framework had been destroyed. Even the hardwood blades of the propeller were so burned that the propeller ceased to revolve."

"When the machine finally landed back of our lines both officers had been severely burned and the pilot, climbing out of the blazing wreck, tripped over a wire stay and sprained his ankle. The few serviceable portions of the aeroplane were then collected and removed under the shrapnel fire from the German lines."

How Mrs. Harrod Got Rid of Her Stomach Trouble.

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. Obtainable everywhere.

\$160,000,000 WORTH OF WARSHIP LOST

Liverpool, June 28.—After ten months of war the losses suffered by the contending navies present some interesting points for speculation, says the Journal of Commerce affording a comparison of the relative merits of the various offensive weapons in the naval struggle, and showing how costly it is to the countries concerned to indulge in minor encounters.

Summarizing the losses under types of vessels, Great Britain and her allies have been deprived of the services of eight battleships, fourteen cruisers, four gunboats, six destroyers, ten submarines, fourteen boats, and six armed merchantmen and auxiliaries.

The losses of Germany and her allies consist of one battleship, twenty-three cruisers, fifteen gunboats, thirteen torpedo craft, six submarines and twenty armed merchantmen and auxiliaries.

Separating the losses under the various causes, neglecting auxiliaries and armed merchantment, the torpedo has destroyed 131,000 tons of allied vessels, the mine 50,000 tons, gunfire 27,000 tons and 22,000 tons have been lost in various other ways.

The German, Austrian and Turkish fleets have been deprived of 13,000 tons of war vessels by means of the torpedo, 23,000 tons of the mine, 81,000 tons by gunfire and 23,000 tons from various other causes.

These figures show that England and her allies have lost 230,000 tons of naval fighting material costing approximately \$100,000,000, while the Teuton and Turkish losses total 140,000 tons, worth about \$60,000,000.

The figures also show that the miscellaneous losses officially recorded are approximately the same on both sides, while from torpedo, gun and mine the British and their allies have lost nearly double the tonnage that their opponents have lost by the same causes. By torpedo the British losses are ten times more than those of the other side which shows clearly how important a part that weapon plays.

In gunfire England has established a long lead, chiefly because the German ships at large when war was declared have been destroyed by this means. In the armed merchantmen and auxiliary class the net register tonnage of allied ships destroyed amounts to 39,000, while the German Austrian and Turkish losses stand at approximately double that figure. The total financial loss in this instance amounts to about \$15,000,000.

Thus ten months of skirmishing and preliminary actions, leading to no definite result so far as the question of naval supremacy is concerned, has brought about the destruction of about 460,000 tons of warships, costing \$175,000,000.

PARASITE MAY CAUSE CANCER

Chicago, June 29.—Extraneous of a parasite or fungus growth is a cause of cancer, according to the opinion of Dr. Horace Packard of Boston University, who discussed "The Cancer Question" before the Surgical and Gynecological Society of the American Institute of Homeopathy here today. Dr. Packard emphasized his belief that the possible cause of cancer is dietary and argued that demineralized foods form a factor in the disease's development. The human family is under-fed in mineral food salts, he said.

"A momentous fact," he added, "is that the flour mills and the rice mills of the civilized world are busy eliminating every particle of iron, phosphorus, sorium, potassium, silica, calcium, chlorine, magnesium and sulphur, (mineral salts) from our staple food supply and sending out food material rich in heat units, but pitifully meagre in energizing and immunizing material.

"In a single flour mill of the middle West, approximately one million tons of wheat are milled each year. Of this about 550 thousand tons go to the human family as refined flour (wheat starch) and 450 thousand tons of the by-products bearing the energizing, immunizing food salts go mainly to feed domestic animals."

"BUTTERFLY SISTERHOOD" DENOUNCED BY COUNTESS

London, June 29.—The Chronicle publishes an article by Countess Warwick protesting against the "to sit at the end of a bed and smoke cigarettes with a wounded officer does not develop the efficiency of a hospital."

"Butterfly Sisterhood." After paying a tribute to the many prominent women who have labored conscientiously with splendid results since the war began, the countess says in part: "Unfortunately there is in London today a very large company of young women to whom war is little more than a new sensation. Scores have found their way to great London hospitals to face what they are pleased to regard as a training. I have known some who danced till 3 a. m. and who presented themselves at the hospital at 6 o'clock. They subvert discipline and they are a law to themselves."

AMONG THE THEATRES

THE DELFT
The feature at this house today is "Dixie and Dixie" which is a novelty slack wire act. It is an act that is entirely satisfactory and one that should please the public today.

The featured picture here today is "A Woman's Revenge," this is a two part Edison drama while a Selig drama called "The Face at the Window" will also be shown.

In addition there is a good comedy picture.

THE BIJOU
The featured picture here today is "Baby." This is a two reel comedy that should attract much attention to this house today. The drama today is "What a Blind Man Law." This is a picture of unusual significance.

On Friday "The Boss" comes to this house.

NEW GERMAN SHELLS KILL ALL

Warsaw, June 29.—Seven-eighths of the wounds in the Galician fighting were cases caused by shells, half of which were fired from big calibre guns, said Surgeon Major Leshghinstseff to an interviewer on returning to Warsaw from the front.

"Bullets play no part now," he continued, "and the infantrymen's rifle is a toy. Infantry merely occupies trenches cannot have won."

The most devastating of all are the new skoda shells of the German allies, which are seventeen inches in diameter and weigh 2,500 pounds. The shell penetrates twenty feet into the earth before exploding, two second after striking. These howitzers are said to be superior in every way to the Krupp motors of the same calibre.

"When a skoda shell hits it means death to everything within a radius of 150 yards and farther. The mere pressure of its gas rips open bomb proof shelters and catches those who escape with metal fragments and flying debris. This gas enters the body cavities and tears the flesh asunder, sometimes stripping men of their clothes. Men in the immediate neighborhood of the explosion are annihilated."

"So fierce is the heat of the explosion of the shells that it melts rifle barrels as if they were struck by lightning."

PRESIDENT'S AUTO PARTY LOST IN VERMONT WOODS, RIDES UPHILL, DOWN DALE

Windsor, Vt., June 28.—President Wilson and members of his family, out for an afternoon automobile ride, became lost in the foothills of the Green mountains and for nearly five hours were riding through dense forests, up and down steep inclines, part of the time in a driving rain. The drive took the presidential party over roads seldom traveled by automobiles. The president was accompanied by Mr. and Mrs. Francis B. Sayre, Miss Margaret Wilson, Miss Helen Woodrow, Bones, Dr. Cary T. Grayson and several secret service men. The chauffeurs of the two cars carrying the party were from Washington and the president knew the country at least as well as anyone with him. Apparently he enjoyed the experience and forgot entirely the cares of office.

SAYS QUEEN OF SWEDEN DEFINITELY ANNOUNCES SHE FAVORS GERMANY.

Berlin, by Wireless.—The Over-Seas News agency today gave out the following item:

"Queen Victoria of Sweden, while returning from a visit to her mother, the grand duchess of Baden at Karlsruhe, stayed over for a day in Berlin and was shown conspicuous attention by the German press and other members of the royal family.

"On her arrival at the capital the queen was given a great ovation by a thousand Berlin students who wished to manifest their joy at the escape of her majesty when the royal palace was attacked by French aviators.

"The queen joined in the singing of 'Deutschland Ueber Alles' and on receiving the leaders of a torchlight procession, said:

"My sympathy is with Germany. You may announce this to the whole world."

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This is a remedy that every family should be provided with, and especially during the summer months. Think of the pain and suffering that must be endured when medicine must be sent for or before relief can be obtained. This remedy is thoroughly reliable and everyone who has used it. Obtainable everywhere.

BOXING STILL VERY POPULAR

London, June 29.—That the war has not deprived English sporting events of interest is indicated by the controversy regarding the Bombardier Wells-Sergeant Dick Smith heavy-weight battle, recently fought in London. Public prints have devoted considerable space to the question as to whether Wells was not knocked out by Smith previously to the round in which Wells was awarded the fight.

In the eight round, Smith sent the Bombardier to the floor with a right to the body and the referee who was outside the ropes, according to the English custom, had to enter the ring before beginning his count. Wells arose at nine and in the next round knocked out his opponent. As a result of the controversy arising from this bout it is likely that the English system of counting will be changed.

The boxing expert of the Evening News attacks the whole system of timing at the British ringside. The method he characterizes as "extremely unsatisfactory and unreliable from the point of view of every one concerned." He continues:

"Boxing in the one grand old English sport that ought not to be endangered by pandering to the interests of the contending parties. Every boxer ought to know that when he is knocked off his feet he must get on to them within ten seconds, or lose. The limit of the ten seconds ought to be marked in only one way, and that is by the gong."

Green Bay, Wis., June 29.—Charles Stadler, 42 years old was accidentally shot and killed by his 6-year-old son, Sunday evening about 7 o'clock in his home in the town of Rockland; five miles north of De Perre. Several sons of Mr. and Mrs. Stadler, had been hunting on Sunday afternoon with a 22 calibre rifle and upon returning placed the gun where the younger son easily found it, who in tampering with it, accidentally discharged it and the bullet pierced the left temple of his father. Dr. Lefevy after a record breaking automobile run found the father in a dying condition and his death occurred about 2 o'clock this morning. The widow and children are prostrated. The Stadlers formerly lived at Seymour and five years ago moved to the present location.

ROCKLAND MAN KILLED BY SON

Green Bay, Wis., June 29.—Charles Stadler, 42 years old was accidentally shot and killed by his 6-year-old son, Sunday evening about 7 o'clock in his home in the town of Rockland; five miles north of De Perre. KIMONO, DOCTOR'S KNEE, SEPERATION

New York.—Professional women may pass much time in the offices, studios or apartments of men of their profession without being subject to suspicion warranting a divorce. Justice Blanchard ruled in the Supreme Court today in interrupting a detective's evidence being given in behalf of Mrs. Mattie Saunders, suing for a divorce from Dr. Henry C. Saunders a specialist.

Justice Blanchard granted the decree, however, when he heard testimony that Dr. Saunders had held Mrs. Martha John Willshutz on his knee and had kissed her while she was clad in a kimono and was eating ice cream.

Morris Markham, a private detective was reading from his daily reports that Mrs. Willshutz was seen daily going into Dr. Saunders' apartment, when justice Blanchard stopped him.

"The day is long past since action for divorce can be predicated on such evidence," the justice ruled. "This is an enlightened age and woman is encroaching on man's sphere of activity. They may have professional business together where the man and woman are members of a profession. Counsel for Mrs. Saunders hastened to assure the justice that there was

nothing professional about the association, by calling Thomas Willshutz who is suing Dr. Saunders for \$5,000 for alleged alienation of his wife's affections.

Willshutz is a working man and said he first became suspicious when his wife began to receive expensive flowers and candy. Willshutz said he was too poor to furnish her with the money to buy these presents and when he frequently discovered her excited upon his return home decided to investigate. One day he went home early slipped into his flat and removed his shoes.

Willshutz testified that he walked noiselessly to his wife's room where he discovered her attired in a kimono seated on the specialist's lap eating ice cream. Willshutz said Dr. Saunders kissed Mrs. Willshutz.

The husband says he did not confront them, but later accused his wife and that she had admitted she had been implored to leave her husband and live with the physician.

That night, Willshutz said his wife ran away. He found tucked in a geranium pot this note:

"Darling—I love you. I must say again—I love you—
(Signed) "Your loving boy."
"I don't see why Dr. Saunders loved my wife so" said Willshutz seriously. "She is not very good looking and speaks only German."

Justice Blanchard announced he had heard enough and granted the decree.

ENGLISH WANT ORVILLE WRIGHT FOR MILITARY USE.

London, June 29.—The Daily Mail commenting editorially on the report that the Germans recently became possessor of a new and faster type of aeroplane, urges the British government to seek the assistance of Orville Wright, the American inventor.

"In so vital a matter we should employ the best brains in the world," says The Mail. "The aeroplane was invented by the Wright brothers. We do not know whether Orville Wright would come to England, but we know he is the world's best authority on aeroplanes and a singularly uncommercial inventor."

ESCANABA TO MAYWOOD

After July 1st, hourly trips between Escanaba and Maywood can be made via street cars and the Gladstone Ferry Boat, 50c round trip tickets on sale on the cars or boat.

Everybody should go and enjoy an outing at this beautiful spot.

Special rates to large parties.

ESCANABA TRACTION CO.

Royal Welsh Ladies Choir

THE Royal Welsh Ladies Choir, under the personal leadership of Mme. Hughes-Thomas of Cardiff, Wales. This organization is one of which Mme. Melba said: "They are wonderful. They are perfectly splendid, and you may say that I said so."

ORIENTALS TOLD TO USE CARE

Peking, China, June 29.—Warning—that the United States would not recognize any treaty between China and Japan which would in any way impair American treaty rights or interfere with the "open door" policy was conveyed in notes sent to China and Japan on May 15, it developed today. The note was handed to the foreign office of the Chinese republic a week after China had acceded to the demands of Japan, and were taken in the nature of a formal warning from Washington. The text of the American note in substance was: "In view of the negotiations now pending between the Republic of China and the government of Japan and the agreement reached as a result, the government of the United States has in honor to notify the government of China that it cannot recognize any agreement or understanding which may be entered into by China which impairs the treaty rights of the United States and its citizens in China, the political or territorial integrity or international policy relating thereto, commonly known as the Open Door policy." An identical note has been sent to the Japanese government.

CARY CALLS FORTS A MERE JOKE

Butte, Mont., June 29.—The Pacific coast is not properly fortified, according to Representative William J. Cary, Milwaukee. Mr. Cary was a member of the congressional delegation that spent several weeks investigating conditions on the coast. "I really believe it would be better if all of the runs on the Pacific coast were dumped into the ocean and all of the coast cities were designated as non-fortified," he said. "It would be better in the event of an attack. As non-fortified it would be against the rules of international warfare to attack them, but as they stand now they could not resist any attack and would be destroyed. There is not a gun on the coast that could reach the attackers. There are three little submarines on the coast. The aviation school is a joke. It has one hydro-aeroplane and one biplane needed in flying over land and ten or twelve different types of machines that are not accredited by the best aviators." In speaking of the ammunition stores, Mr. Cary said there is not enough in some of the forts to last half a day with continuous firing.

VALE MAN WHO SPENT \$500,000 DIES A PAUPER

Sacramento, Cal.—Relatives of Thos. King, Yale '93 and scion of a rich New York family, arranged today to exhume his body from potter's field here for shipment east, and reinterment in the family lot at Albany. King died here in January, a pauper in the county hospital, it is reported after squandering \$500,000. Miss Mary King, a Red Cross nurse with the British army, wrote to Judge Welsh, of Sacramento, requesting him to take charge of the transfer of the body. When King died all he had was an Industrial Workers of the World card. He is said to be a descendant of General Rufus King, of Massachusetts.

CALLS BRAVES POLITICIANS

Amsterdam, June 28.—The Berlin socialist newspaper orwaertz has been suppressed by the German government. The dispatch from Berlin gave no reason for the action. The appeal is reported to have created a sensation in Berlin, coming on the heels of the outbreaks by socialist peace leaders in the Prussian diet. The article said the socialists gave their support to the government at the outbreak of war and so earned the right to say when hostilities should cease.

BOSTON MARKETS

There was only a limited interest displayed in the local market today with Osceola being the strongest feature. American Zinc was held very firm around 54 with apparently good supporting orders just under that figure. The heaviness of the general list has caused our local market to dry up and not much activity is likely until something occurs to break the spell. At the same time underlying conditions continue favorable and purchases made on any recession should prove favorable.

BRITISH ARE NOW CONVINCED

London, June 29.—Not since the war began have the English people been so convinced that it will be a long one. Those who took this view months ago were called pessimists, but now it is generally admitted that the Russian army must fight for months and that in the meantime the much heralded big general movement on the western front must be postponed indefinitely while the entente powers thoroughly reorganize their methods. While the campaign in Great Britain for munitions is at its height it must be assumed that Germany is straining every fiber to the same end and calling into play her inventive skill so as to increase the deadly mechanisms of war to offset the inevitable and terrible drain on her men. The present consensus of opinion among military writers in London is that Germany intends further to press her eastern victory with another battering ram aimed at Warsaw in an endeavor to seize that city and the whole line of the Vistula. The line of defenses now directed from the Przasnysz region is along the valleys of the Omulew and Arzyc, tributaries of the river Narw which flows across east Poland and joins the Vistula above Warsaw.

NEGRO CONVICT HELD FOR THE JOILET MURDER BLAMES FELLOW TRUSTY

Joliet, Ill., June 29.—Joe Campbell, negro convict, suspected of the murder of Mrs. Edmund Allen, wife of the warden, passed out of the penitentiary gates today and, under heavy guard, was taken to the county jail, where he will be held to await the action of a grand jury. Campbell, who for a week has withstood the efforts of inquisitors to involve him in contradictions, continued to maintain his innocence tonight. He displayed no interest in the change of quarters and apparently was unconcerned by the events of the week. "No," he replied to the direct question at the jail, "Are you guilty of the murder?" "Who is?" he was asked. "One of two men, either Edwards or I," was his reply. Edwards was the negro trusty who acted as waiter for the Allens. He told such a straightforward and convincing story to the coroner's jury that he established a belief in his innocence.

Various Companionships.

If one's intimate in love or friendship cannot, or does not, share all one's intellectual tastes or pursuits, that is a small matter. Intellectual companions can be found easily in men and books. After all, if we think of it, most of the world's loves and friendships have been between people that could not read nor spell. —Oliver Wendell Holmes.

SAY JESS WILLARD TAKES IN \$1,000

Buffalo, June 29.—The last time Buffalo saw Jess Willard, the big cowboy battler, stepped into a local ring and gave big Ian Daly of Newcastle a fine young licking in ten rounds. A few months previously he had kept a belated date with the same club and dropped the pugilistic hopes of One Round Davis, the Buffalo clouter, with a well-directed right uppercut to the chin in the second round. Jess did not turn a hair in either battle.

Today the big fellow returns as champion of the world, the biggest attraction of the present date with one of the biggest amusement concerns in the country. For appearing four times daily with the 101 Ranch he draws at least \$1,200 a day and sometimes more. He is hailed as the man who pugilistically delivered the white race, the "white hope," the man who "made good."

Buffalo has peculiar interest in Willard. It was here that the big fellow first made his start in a real campaign toward the title. It was from Buffalo that Marv Smith, then Willard's manager, sent broadcast all over the world, press matter boosting the young giant and shouting his claims and qualifications as the best white pugilist in the game. All that Marv Smith said and wrote of him was true, as the big Kansas cowboy has proven since then. He went from Marv to other manager until Tom Jones, handler of three champions—Wolfgang, Papke and Willard—directed his feet in the proper path to goal, a match with Jack Johnson. Willard had a tough time landing it, but when he did he landed with both feet—rather, hands, and the big black took the count. And now Jess is reaping the harvest everyone knew would follow the victory.

Jess travels in his private car, and while the trophe is parading will remember some of his old pals, such as Charlie Wilson, Ollie McWilliams, Bilsary, Marv Smith, the lads down at the First Ward A. C. and others. It must be great to come back to a town a champion after leaving it with a long-hard road ahead of you! Jess is a regular cowboy now but he says he'd rather fight.

The Belle C. Will make a regular trip every Sunday leaving the Merchant's dock at 10 a. m. and running to both docks at Stonington. Returning the boat will leave Stonington at 5 p. m. 2034-163-1f

MICH. TEACHERS TO TEST LAW

Grand Rapids, June 23.—The Michigan Federation of Teachers' clubs will contest the findings of Attorney-General Grandt fellows that the teachers' retirement law, passed by the last legislature is unconstitutional, Mrs. Lou I. Sigler, president of the federation, announced today.

"I think when such lawyers as Senator Erdler and Representative Floyers, who had charge of the bill for us, in the legislature pass favorably on its constitutionality it must be all right," she said.

"We shall do nothing about the matter just now, but after school opens in the fall, some teacher will be called upon to contribute to the pension fund. She will refuse to pay and then the matter will be taken to the courts."

U. S. CONSTRUCTING ELECTRIC WARSHIP

New York—A significant step in naval marine engineering is marked by the recent announcement from Washington that contracts had been let for electric machinery to propel the new battleship California. This announcement brings the realization of the hopes of many of our leading engineers throughout the country, who have long advocated the adoption of this form of propulsion for battleships and large transatlantic liners.

The saving in space and weight enables a vessel to carry more coal and to carry a heavier armament and become more powerful, or to have more powerful machinery and be capable of higher speed. The better economy reduces the coal required, and this again effects a still greater economy of space. The convenience of operation is due to the fact that electrical machinery is adapted to give two economical speeds and also to the ease and quickness with which the propellers may be stopped and reversed.

The case of control of electric motors is well known from our experience with electric cars. Any speed in either direction is obtained by movement of the handle of a controller placed in a compartment at the head of the train. Likewise, if desired, a ship may be controlled by a similar controller placed on the bridge convenient to the officer in charge. The time lost in signalling to the engineer and manually operating the levers is saved.

FOUR MEN ARE ARRESTED

Atlanta, June 23.—Danger violence of former Governor Slaton for his commutation of the sentence of Leo M. Frank is apparently not over.

Four men were arrested today near his country home and removed to the county jail pending action by the military authorities. The men were found near a road leading to the Slaton estate and failed to give satisfactory reason for their presence there.

They were not armed. The twenty-six men arrested on Saturday and taken to the county jail are still held. According to the jail authorities no formal charges have been preferred against them.

Atlanta, Ga., June 23.—Artillery, cavalry and infantry of the state militia stood guard Saturday night at the home of John M. Slaton, who retired as governor of the state on Saturday, surrendering the office to Nate E. Harris. During the day twenty-six were arrested by the militia near the Slaton home, and were still held in the county jail Saturday night. Firearms and explosives, it is alleged, were taken from them.

At a luncheon given on Saturday in honor of the new governor the retiring governor said:

VOTE WOULD SOIL WOMEN

Baltimore, Md., June 23.—Cardinal Gibbons, in the hope of settling once and for all any question of his position on woman suffrage, has addressed an open letter to James R. Nugent, former city counsel of New York and a Democratic leader in New Jersey.

In the campaign now being waged in New Jersey, New York, Pennsylvania, and Massachusetts, where the question of woman suffrage will be voted on in the fall, many contrary and divergent statements have appeared, all supposedly reflecting the attitude of Cardinal Gibbons. It has not been an unusual sight to see the prelate's name used in one city as a proponent of "votes for women" and in another city as opposed to the question, and many newspapers also have quoted him erroneously in this manner.

You make no mistake when you get your job printing at the Morning Press. Nothing but first class work

NO BARN FIGHTS SAYS WOLGAST

Chicago, June 23.—Ad. Wolgast, former lightweight champion, is back in Cadillac, resuming training there for prospective matches. Ad passed thru Chicago yesterday on his way from Denver.

Denver claimed he ran out of a match there with Steve Ketchell, but Ad laughed at these stories and says he quit after getting one look at the arena there. "It was about as big as a good-sized barn," Ad said, "and if they can get 700 people in it I'll eat the ring. They couldn't possibly pay me my guarantee, so why bother with it?"

Wolgast is disappointed that his battle with Joe Wellings at Benton Harbor had to be called off.

"I'll box any of them at any time where it can be shown the money is in sight," Ed said.

The Denver trip was the fourth "dead one" Wolgast has made recently. He went to the coast to box Rivers and broke his wrist before the match. Then he failed in New York with Leach Cross, again in Boston with Gilbert Gallant, taking sick the day of the match and now the Denver affair. He claims a loss of \$1,000 and over on these trips.

JOHNSON WOULD BRING \$60,000

Clark Griffith has set a new price on Walter Johnson.

"If I were to put Johnson on sale he would bring at least \$60,000," said Griffith. "Ayers is worth \$10,000; Shaw, \$20,000; Boehling, \$15,000; Engle, \$5,000; Hopper, \$3,000 and probably more to say nothing of my other promising youngsters, who would bring a goodly sum."

Despite the fact that Griffith has named these figures, he says that he would not sell one of them for this price.

Summing it up, the staff is about a \$150,000 asset, and it cost less than any staff in baseball. Johnson went to Washington for his railroad fare. Think of that. "Cliff" Blankenship, one-time National, saw him working and signed him. Shaw was a gift, having been signed while a member of the Pittsburgh Collegians. Boehling was with the Richmond Battle Ax team. He pitched a game in Washington and made such a favorable impression that Griffith procured his services.

Engle was a student at Mount St. Mary's college when he signed his contract. Thormahleu, Clarke, Russell and Stevens are the youngsters who may make good and further increase the full value of the pitching staff.

There were three pitchers who cost real coin. They Gallia, Ayers and Hopper. For Gallia, Griffith traded Vaughn and Walker and he figures that it was a \$12,000 transaction. Ayers was bought from the Richmond club for the surprisingly low price of \$1,200. "Tommy" Long, the outfielder, was traded for Hopper, and \$1,200 was spent in procuring Long. Therefore it will be seen that the pitching staff of the Washington Baseball club cost but \$3,000, and you could not buy one pitcher who was on last year's team for this amount.

Just a Little

KIRK'S JAP ROSE SOAP

is needed to give a generous quick cleansing lather, in hard or soft water; for the reason it is economical, and preferred by many who have tried it.

ELECTRIFIED MAN DIRECTS RESCUE

Green Bay, June 23.—Louis Manders, foreman of a crew of men in the employ of the Wisconsin Public Service company, while working at the top of a pole, on Oak street, in West DePeter, Saturday morning was electrified when he came in contact with a high tension cable carry 14,500 volts of electricity.

His clothing from his waist up was burned off, he was terribly burned about the body, arms and ears and is in a serious condition.

Because of the mans vitality it is believed he will recover. He has been conscious since burned and says he does not feel any pain. He is under the care of physicians at St. Mary's hospital here.

When Mr. Manders came in contact with the cable his clothes caught fire and his outer shirt and undershirt were quickly destroyed. The cuffs of his shirt remained on his arms.

Manders was able to direct the men of his crew in the task of taking him from the pole after the current had been broken.

Straps and ropes were used in lowering him from the top of the pole to the grounds. Mr. Manders is a son of Mr. and Mrs. William Banders of De Pere.

He is a man who possesses great strength.

WANTS CIVIL WAR "VETS" TO URGE "PREPAREDNESS"

Chicago, June 23.—Civil war veterans were commissioned yesterday to go forth and preach the message of "Preparedness for War" in an address delivered by Commander-in-Chief David J. Palmer to the members of the old Glory post of the Grand Army of the Republic.

The commander told the veterans that they themselves had suffered because of an unpreparedness that had confronted them at the beginning of the Civil war and he asserted that this country never had been ready, although always successful, when war had broken out.

"You are the ones to arouse the people," Commander Palmer said.

MRS. THAW ASKED TO REPEAT STORY

New York, June 23.—With the hope of having Evelyn Nesbit Thaw repeat before a jury the evidence she gave in the habeas corpus proceedings at White Plains in 1909, when Thaw is said to have told her "When I get out of here (Matteawan) I suppose I will have to kill you," attorneys for the state were trying to serve a subpoena upon Mrs. Thaw at a summer resort in New York today.

General Streeter of Concord, N. H., who was head of the federal commission appointed to look into Thaw's sanity said at no time Thaw admitted to him that after firing the shot at Stanford White he realized that he had done wrong.

General Streeter said Thaw had "deepest regret for the killing," and added that Thaw had been unable to recall what was in his mind when he fired the shot as his memory was "not clean cut."

General Streeter said Thaw impressed him at the present time as "perfectly rational."

FORM OF BID FOR TRUNK LINE SEWER

Escanaba, Mich., June 23, 1915. Bids Opened July 15, 1915:

Sealed proposals will be received by the Board of Public Works of the city of Escanaba, Michigan, until July 15th, A. D., 1915, at 2:00 o'clock P. M. for the construction of a trunk line sewer.

The system includes substantially 1915 ft. of 8 in. Terra Cotta Pipe, 509 ft. of 10 in. Terra Cotta Pipe, 1699 ft. of 15 in. Terra Cotta Pipe, 2546 ft. of 18 in. Terra Cotta Pipe, 2986 ft. of 20 in. Terra Cotta Pipe, 3731 ft. of 24 in. Terra Cotta Pipe, 2710 ft. of 27 in. Terra Cotta Pipe, 300 ft. more or less of 36 in. Terra Cotta Pipe, 45 manholes complete.

Estimated cost Fifty Thousand (\$50,000) Dollars.

For the purpose of bidding, plans and specifications may be had at the office of the City Engineer upon the deposit of ten (\$10.00) Dollars which will be refunded on the return of the plans and specifications.

Work to be completed by the last day of December, A. D. 1915. Successful bidder to employ local labor, and use local material.

The mayor, and one member of the city council, and one member of the Board of Public Works to be the judge as to home labor and material.

BOARD OF PUBLIC WORKS.
 2101-181-12.

TORPEDO-PROOF SHIP IS AIM

Washington—The navy department is now constructing a caisson representing the side of a battleship of various sorts of construction. Experiments will be held with this at Norfolk, charges of high explosives will be detonated against the caisson to demonstrate the form of construction which offers the greatest protection against torpedo attack.

The naval experts have not hit upon any particularly novel idea to afford such protection. They are still depending upon air compartments and various thickness of armor plate or "skin" on the theory that a torpedo will not destroy more than a limited number of compartments, leaving the ship still sufficient tight to make port. They consider that if they can afford sufficient protection so that a capital ship would be only crippled by a torpedo, but still left able to make port and there be repaired, they will accomplish as much as can be hoped for at this time in the way of protection against torpedo attack.

They entertain no hope of perfecting a torpedo proof battleship. The best protection against submarines must still remain the development of the submarine's natural enemy, the destroyer.

Nevertheless the experts feel that that sufficient lessons have been learned from the European war to make possible a considerable improvement in battleship construction as regards torpedo attacks.

Giant Leaves.

The leaf of the cocconut tree is nearly thirty feet long; while a single leaf of the parasol magnolia of Ceylon will shelter fifteen to twenty persons.

Bell System

When there is an important transaction in hand it is often desirable to go or send a representative to close it up—but nine times out of ten it isn't necessary. You can "talk it out" over the wire and confirm by letter.

If time is an element, and it is, almost invariably, you have saved at least fifty per cent of that valuable element by using

PRESIDENT REFUSES TO SEE VISITORS

(Special to The Press.)
Windsor, Vt., June 29.—Col. Jesus Aguilar and Major I. A. Garcia called at Harlaakanden House today to arrange a conference between the President and General Felipe Angeles. The president sent word that he is on a vacation and is seeing no visitors.

MOVE VATICAN TO SWITZERLAND

Geneva Switzerland June 29.—During the last few weeks the monastery at Einsiedeln canton of Schwitz, has been carefully repaired and modernized to make it ready, it is stated, in the eventuality of the pope going there to reside temporarily.
The German and Austrian ministers to the vatican who now have headquarters at Lugano, Switzerland, are favoring by propaganda this change of residence for the pope.

SLATON'S ESTATE TO BE GUARDED

Atlanta, Ga., June 29.—President rumors that persons incensed against Governor Slaton, because of his commutation of Leo M. Frank's death sentence to life imprisonment, contemplated acts of violence against the governor tomorrow, caused state, county and city officials tonight, to take executive precautionary measures.
Mayor Woodward ordered all near beer saloons closed all day Saturday and also directed that special police be held in readiness for possible disorders. County officials have taken steps to reinforce the constabulary.
Governor Slaton's proclamation created a military zone surrounding his country estate, still was in effect tonight, eighty militiamen patrolling place. Adjutant General Nash has announced that he will double this force tomorrow night and that he will maintain the cordon of troops there as long as he deems it advisable.
All Marietta, near here, where Mary Phagan, resided, the board of trade tonight appealed to the mayor to take precautions against possible disorders there.

ARCH-BISHOP IS NEAR HIS END

(Special to The Press.)
Rochester, N. Y., June 29.—Arch-Bishop Quigley is very low. Physicians say it is but a matter of a few hours until death comes. His family is at the bedside. The prelate has been unconscious for 12 hours.

GLADSTONE PARTY TAKE IN NIGHT LIFE HERE

Headed by Misses Elizabeth and Rebecca Anderson and Alfred Anderson, a party of Gladstone young people last night motored to Escanaba and spent the evening at local shows and cafes. The members of the party were especially impressed with the picture "Hypocrites" at the Delta, the Delta hotel cafe and the moon hanging over Little Bay de Noc.

Polliteness III Rewarded.
"A man kin be too polite an' obligin'," said Uncle Eben. "I know a man dat stood wifout kickin' while his wife dressed him up in a fancy lounjin' coat an' a gorgeous necktie an' a smokin' cap. Den she inspected him an' decided dat she couldn't live wif such a lookin' man, nohow."

Delicate Hint
Fred, four years old, and his mother were visiting a friend. Invariably when they came the hostess would have some cake and coffee for them. This time she did not make anything. Fred, after waiting some time, became impatient and anxious. Wishing to remind her as delicately as possible, he said as he went into the other room: "I'll play the piano. Call me when the coffee's ready."

SMALL AS WELL AS LARGE ACCOUNTS INVITED

FRENCH DISPUTE OVER FINANCES

Paris, June 26.—The bill appropriating 5,600,000,000 francs (\$1,120,000,000) to cover government expenses for the three months beginning July 1, was passed almost unanimously in the chamber of deputies today. The vote was 492 to 1.
Alexandre Ribot, French minister of finance in a speech on the bill, prior to its passage, said French credit was intact and France felt no embarrassment. The minister, in censured and sober eloquence, said he would affirm once more that the people of France would go to the end, no matter how long the war might last.
The deputies listened in silence to the statesman, the proceedings being in remarkable contrast to the disorderly session of yesterday. The deputies more than once rose to their feet as a mark of respect, applauding the speakers.
New York, June 29.—The success of

the second Austro-Hungarian war loan assured, according to wireless messages received here from Vienna and announced tonight, Alex von Nuber, colonial general, says that the subscriptions for the second loan already amount to 4,500,000,000 crowns (\$900,000,000), which, he says, provides financial means for the continuation of the war for at least ten months.
"The total indebtedness of Austria-Hungary, which previous to the war amounted to \$3,800,000,000 has been raised to \$5,300,000,000. In this connection it is pointed out that the total wealth of Austria-Hungary is estimated at \$25,000,000; the increase of indebtedness therefore, amounts to only 6 per cent of the national wealth, he said.

CARD OF THANKS
We wish to extend our most sincere thanks to those who in any way aided us during the illness or after the death of our mother. We wish to especially thank those who send the beautiful floral offerings. Kind deeds done at this time will not soon be forgotten.
(Signed) Agnes, Myrtle, Alice, Arthur, Alexander and Herbert Anderson.
