SIX PAGES

CITIZENS WILL JOIN HANDS

RESIDENTS OF ESCANABA TODAY WILL DISPLAY A REAL SPIRIT OF APPRECIATION

PROCLAMATION
The people of this city have always shown a disposition to be progressive and liberal minded, especially along educational lines.

It is the customary practice, to set aside one day as Escanaba Day, during Chautauqua week. We seldom have an opportunity to be entertained in an educational way by such notable speakers and entertainers as we will have with us on Wednesday, viz: Senator Mason, Jean McDonald and Bland's Band.

I therefore respectfully request that all places of business close Wednesday afternoon, July 21, between the hours of 2:00 and 6:00 p. m., so that all may have an opportunity to take advantage of the program on this day, as it is a real treat and worthy of your presence.

Yours Respectfully,
B. J. MACKILLICAN,
Mayor.

On this, "Escanaba Day" at the Lincoln Chautauqua, now in progress here, business houses in general in all sections of the city will be closed from 2 until 6 o'clock this afternoon, that all residents alike may participate in the biggest day of the entire week. In the above proclamation, issued by Mayor B. J. MacKillican, merchants of Escanaba are requested to set aside their business cares for four hours and to lend themselves to a movement that has received the endorsement of the United States at large.

Thus far, Escanaba people have not responded to the season ticket sale as they should or as they did last year. It was necessary to guarantee the Lincoln people a total of \$1250 to bring them here and thus far but (Continued From Page One.)

ALDERMEN WERE BUSY

At last night's session of the council a great volume of municipal business was handled. Among the matters given action were the following:

Referred to the health and garbage committee the claim of Thomas Rowan that he had been charged for work never performed by a former city scavenger.

Adopted after second reading, an amendment to an ordinance, making it unlawful for the sale of either milk or cream that has been adulterated.

Received for first reading an amendment to the city traffic ordinance fixing the penalty for violating provisions of the traffic law, at a fine of not to exceed \$20 or imprisonment for 30 days.

Referred to the council sidewalk committee and the city attorney a complaint made against a narrow sidewalk that is constructed on Dousman avenue.

Adopted the special assessment rolls for the current installment due for paving Hartnett avenue, Bay street, North Mary street, North Charlotte street, South Georgia street and Lang street.

Instructed the street committee to advertise for bids for opening a road along the west limits of the city.

Referred to the building committee the application of Joseph Delorier to build a fireproof addition to the barber shop occupied by him in the 1200 block of Ludington street.

Referred to the sidewalk committee, the street commissioner and the city engineer, the matter of rectifying an error in a sidewalk grade at North Escanaba and in the 900 block of Wells avenue.

Voted to issue a license to Golmar Brothers circus to appear in this city on Aug. 12.

Referred to the street committee with power to act the matter of repairing the Danforth road from the Schlesinger crossing westward to the city limit.

Voted to request the NorthWestern road to station a farmer at the Schlesinger crossing on the Danforth road, further east.

DRUGGIST SUFFERS AT COURT'S HANDS

Ralph D. Kuehn, a Garden druggist, who pleaded guilty to violation of the liquor law, suffered at the hands of Judge Finnigan yesterday when he was sentenced to pay a \$200 fine and to spend the next days in the county jail, or, in default of the fine to spend 40 days in jail.

Kuehn pleaded guilty to selling intoxicating liquors to John Nolan, a minor who furnished James Brody and Louis Mercier with it, who in turn met their death when the Dan Seavey mill burned at Gouley's Bay.

Kuehn has already started in serving his sentence.

CONTRACT ENDORSED

BID OF JOHN S. LINDSAY FOR CONSTRUCTING TRUNK LINE SEWER ACCEPTED BY COUNCIL

The city council last night endorsed the action of the board of public works in awarding to John S. Lindsay the contract for constructing the new trunk line sewer. The list of bids that were received by the board was submitted to the council showing that the proposal made by Mr. Lindsay was the lowest and the aldermen voted unanimously to empower the board to enter into a formal contract.

The council also last night accepted the recommendations of the board of public works to defer decision as to the type of a sewage disposal plant to be installed here until important experiments have been concluded in Milwaukee late in the present year. The special committee that visited sewage disposal plants in a number of cities reported the results of their investigation and in the majority of cases found conditions dissimilar to those to be encountered here. A number of cities are successfully using sewage disposal plants but in the city of Milwaukee between eight and ten million dollars is being spent for such a plant and experiments are being conducted that noted engineers claim will revolutionize the sewage disposal system. It is believed that those experiments will be completed by Jan. 1 and which will be in sufficient time to allow Escanaba to decide on the type of the plant to be constructed here.

The council clashed with the public works board last night on two matters. The alleged action of the board in purchasing tools with which to make gas connections and allowing but one plumber in the city to use those tools, was reported to the council. Also a protest was received from the board against the action of the council in refusing the board the right to pay all bills on which a discount could be saved for the city without first submitting the bills to the council. The entire matter will be threshed out at the next regular meeting of the board when a special committee of the council will attend. The members of the special committee are: Aldermen Noreus, Toland and Swan.

STRAND IS ENDORSED

The official stamp of the state's approval of the new Strand theater was given this week by Deputy State Fire Marshal C. N. Dewey. After completing a thorough inspection of the building, Mr. Dewey said: "The new Strand theater, just completed here and opened to the public, is one of the best appointed and safest amusement places in the peninsula. The public's safety has been safeguarded in every part of the building and the people of Escanaba are to be congratulated on being provided with another theater building that is modern and safe in every respect."

Contest tickets for the Grand theater will not be good after Sunday.

Harrie L. Bland and His Band

HARRIE L. BLAND, organizer and bandmaster, whose Chautauqua successes have placed him at the very head of his profession, will appear with his band in the afternoon and his orchestra at night, fourth day of the Chautauqua. Mr. Bland has been an unmatched success wherever he has appeared during the last seven years with these organizations.

SITUATION IS MIXED

It developed at the meeting of the city council last night that because of the appointment of Dr. A. J. Carlson, as full time officer by the mayor and aldermen, did not meet with the approval of some of the members of the board of education an effort will be made in the latter body to disregard the city's appointment and to refuse to contribute \$800 toward the health officer's salary, as originally promised. The matter was discussed at length at the council session of last night and Mayor MacKillican informed the aldermen that he had been informed by the president of the board of education that a special committee from the council had agreed to a certain appointment as health officer as contingent to the board paying \$800 toward that official's salary. Members of the council committee denied with reservation that any such agreement had been made and considerable surprise was expressed that the action threatened had been proposed. Members of the council special committee that met with a committee from the board of education will meet with the board at their next meeting on the first Tuesday in August when the entire situation will be gone over.

BOATS CAPACITY HAS BEEN REACHED

Invitations for the annual Fair Savings Bank store, excursion to Fayette have been closed as the capacity of the boat has been reached and all plans are now practically completed for the big outing of next Tuesday. The excursion is arranged by Herman Salinsky to the employees of the Fair store and a few invited friends and through elaborate plans being made the event of this year is expected to set a new record for such events in this district. Great interest has been aroused in the picnic throughout the east shore district where many people have planned to make the day a holiday. As a feature of the day the Northern Beauty baseball team of this city will play the Garden team and the Escanaba Military band will furnish a musical program throughout the day.

I guarantee to cure any horse suffering from the heaves. Fee for first horse treated for each owner \$3, and \$5 for each additional horse. Call Morning Press Office. 224-203-11.

MANY SEE BIG PROGRAM

ISHPEMING GIRL WITH ARDEN COMPANY DELIGHTED AUDIENCES. PITT PARKER MAKES BIG HIT

TODAY'S PROGRAM
MORNING—Junior Chautauqua. Afternoon—Concert, Bland's Chautauqua Band; Readings, Jean Macdonald; Address: "Presidents I Have Known," by Hon. William E. Mason. (Admission 25 and 50 cents). Children's Hour at the Playground.

NIGHT—Grand Instrumental Program, including Solos, Duets and Quartets, Bland's Chautauqua Orchestra. Readings, Jean Macdonald. (Admission 25 and 50 cents.)

Yesterday's Chautauqua yesterday afternoon and last night was greeted with monster audience, especially at the program of last evening, when the big tent which is purported to seat 1200 people, proved entirely too small to accommodate the big crowd.

The program offered yesterday by the Lincoln people was perhaps the most notable yet to appear this year. Every number on the program given was of a strictly high class order and every person who appeared did him or herself great credit. All who displayed their talent for the benefit of Es-

QUICK RECOVERY OF LOCAL MAN

After suffering from a severe breakdown and a paralytic stroke ten days ago, Mr. H. T. Hansen of the Escanaba Bottling Works, left yesterday for Wilson, where he will remain until fully recuperated. Mr. Hansen attributes his unusually quick recovery in health and use of the paralyzed foot and arm to the treatment received by him at the Escanaba Health Institute. Mr. Hansen yesterday issued the following statement: "I desire to give credit where credit is due and I desire to publicly commend N. Pavlov and the Escanaba Health Institute, particularly, for such cases as mine. In conjunction with a physician, Mr. Pavlov's treatments made possible my unusually quick recovery, and I most cheerfully wish to recommend Mr. Pavlov, his work and his institution."

COURT HAS LONG DAY

From 9 o'clock yesterday morning until 4 o'clock yesterday afternoon the time of Circuit Court in session here, was occupied by the case of The People versus Peter Somonic, who was charged with burglary.

A great amount of evidence was submitted in the case making up a most tedious day for the jury empaneled in the case.

At 4 o'clock the case was turned over to the jury and at 4:35 they returned a verdict of not guilty.

Lewis and Pierson appeared for Somonic in the case.

Somonic is the man who was shot last February while he was running from the officer, after it was alleged (Continued on Page Six.)

FOUR CAUGHT; GET 30 DAYS

Two young men and two young women, all local characters, arrested by the police department early Tuesday morning, when found spending the night in a building on Market street, yesterday afternoon found themselves in a most disagreeable position when they appeared before Justice C. D. McEwen.

All were fined \$10 and costs or sentenced to 30 days in jail. The men paid their fines but the young women were unable to do so and were forced to go to jail last night. The women arrested in the escapade are but 19 years of age each, both are or have been married and both have children.

NEW NOTE TO BE STRONG

PRESIDENT WILL GRANT GERMAN "NO QUARTER" IN COMMUNICATION

(Special to The Press.)
Washington, July 20.—Despite a strong note sent by this government, insisting that the American commerce shall be treated in accordance with the International law, the State Department is inclined to pessimistically regard the possibility of a satisfactory settlement of the issues between the United States and England. The department expects England to yield on some points notably as to search before seizure. However, there is but little belief that Great Britain will forego the policy of preventing trade with Germany.

(Special to The Press.)
Washington, July 20.—President Wilson and his cabinet discussed for two hours today the three tentative drafts of the proposed reply to the last German note and agreed upon certain sections of the document. The question still to be decided is whether a paragraph shall be added warning Germany for the last time that unless she yields to the demands of this government the United States will adopt a more vigorous course than she has heretofore employed. The alternative is to withhold this declaration until the next communication. If a positive step is to be taken diplomatic relations between the two countries will be broken off. Sections of the reply agreed upon are devoted to a short restatement of the (Continued on Page Six.)

FIRST STEP WAS TAKEN

COUNCIL ACTS TO PROVIDE MUNICIPAL WATER PLANT FOR ESCANABA

The first step was taken by members of the Escanaba city council last night looking toward a municipally owned water service for this city.

City Atty. H. R. Dotsch was last night instructed, by the unanimous vote of the aldermen, to prepare an amendment to the city charter, allowing this city to either purchase the plant of the North Michigan Water Company or to construct a new plant by the municipality. The amendment will be submitted to the people at a special election and will be submitted to the governor for endorsement, as provided by law.

In addition the council ordered the appointment of a committee, composed of the mayor and four aldermen to investigate the value of the North Michigan Water Company's property in this city and to also determine the cost of constructing a new water plant for the municipality. The members of the committee are: Mayor MacKillican and Aldermen Cuthbert, Swan, Follo and Hodson.

The action of last night is in line with pre-election promises made by the present city administration and in view of the present strained relations between the city and the water company, the action will prove a most popular one. It is expected that the amendment to the city charter, allowing Escanaba to either build a new system or purchase the property of the private corporation now operating here, will be presented to the council at their next meeting and steps will then be taken to provide for a special election at an early date. The franchise and contract of the North Michigan Water Company will expire in June of next year.

LATHROP CUBS PLAY THE TIGERS

The Lathrop Cubs and Turin Tigers played a game at the latter's grounds Sunday. The score was 3 to 3, the being called at the end of the 5th inning to allow Little Lake to play the Turin Team.

Miss Carrie Shaw has returned to her home in the city after a visit at Crystal Falls and Iron River.

Escanaba's periodical musicians' war is again on. Both armies have taken to the trenches and gas bombs will likely be requisitioned soon.

President Wilson is not to mention the Lusitania case in the nation's latest note to Germany. For all the good it did he might also have eliminated that matter from his first note.

Harry Thaw, after nine years spent in jails and asylums, has gone back to his mother. It's a safe bet that if he spent a little more time at the side of his mother in those earlier years he would have been saved from the experiences of the last decade.

Judge Flannigan believes that every man and particularly every boy is entitled to a chance to make good. The mere fact that a defendant has once fallen from the oats of rectitude does not make him a confirmed criminal.

sea power from receiving these supplies, just as Austria is cut off from the United States today. With full knowledge of these circumstances, Germany has made no such protest as this of Austria. Austria might well have considered the course of her more experienced ally.

Much as we may regret the trade in guns, explosives and other war material, we cannot lose sight of the fact that it is legitimate within the purview of world law and that though it would be possible to prohibit it before any war broke out, it would not be neutral to stop it during the course of war. We have the word of our government of ex-President Taft and of others who speak wholly from the American viewpoint, that to interdict the exportation of arms and munitions of war now would be an unneutral act and therefore ground for a declaration of war against us. Their words should be sufficient. If we cannot depend upon them, then whom can we depend upon for knowledge of the facts, the law and the situation?

WAR

London, July 20.—Can Warsaw be held? With the German field marshals, von Hindenburg on the north and von Mackensen on the south, with ping forward the two ends of a great arc around the city it is realized in England that Grand Duke Nicholas, commander-in-chief of the Russian armies, has the most severe task imposed on him since the outbreak of the European war, and the military writers of some of the London papers seem to think that his task is well-nigh impossible.

There was sustained confidence that Germany's previous violent attacks along the Bzura-Rawka front would never pierce the Russian line, but the present colossal, co-ordinate movement was developed with such suddenness and carried so far without meeting serious Russian resistance that more and more the British press is discounting the fall of the Polish capital, and while not giving up all hope of its retention, is pointing out the enormous difficulties the Russian armies have labored under from the start.

Having been unable to straighten out their line by an advance through East Prussia in the north and Galicia in the south, the Russians have perpetually faced the pincers of the Austro-Germans and if these can now be sufficiently tightened, Warsaw must go and with it the entire line.

As was the case on Saturday, when the Austro-Germans recorded the success of their offensive in the east, no official communication from either Berlin or Vienna reached the London newspapers today. Saturday's communication was released Sunday for publication and up to midnight last night no new communication has come to hand. In the absence of additional information from Petrograd there is nothing to throw fresh light on the eastern front.

According to the latest account the Austro-German forces advancing from Przasnysz were within forty miles of Warsaw, while to the south von Mackensen's center was, at certain points, within ten miles of the Lublin-Cholm railroad.

The Italians report some progress in the mountains east of Trentino, where the invaders are now striking toward one of the two railroads serving Austria's Trentino forces.

A telegram from a Rome news agency to Paris says that a refugee who has reached Rome from Pola, the Austrian naval base, says two Austrian submarines which left to reconnoiter the Italian coast have not returned and are believed to have been lost. One of the submarines had a crew of twenty, the other a crew of forty.

While comparative quiet prevails along the western front the French report that considerable losses were inflicted on the Germans when the French repulsed strong attacks on the heights of the Meuse. A violent cannonade near Souchez, the bombardment of Arras and fighting with bombs and petards in the Argonne constituted virtually all of the fighting that took place.

Official figures announced in London show the total casualties of the Dardanelles expeditionary force to date to be 42,434 officers and men killed, wounded and missing. Casualties among officers were 8,084, of whom 1,933 were killed.

NOTICE

From City Treasurer.

Notice is hereby given that the city's portion of Taxes for the year 1915 is now in my hands for collection. The taxes therein levied can be paid in the City Treasurer's Office at the City Hall at any time before the 15th day of September, 1915, without any charge for collection. Four per cent collection fee will be charged upon all taxes remaining unpaid upon said 15th day of September, 1915.

CARL E. ANDERSON,
City Treasurer.

Office Hours: 9:00 to 12:00 a. m.
2:00 to 5:00 p. m.

PACER TO HAVE GAIT CHANGED

Cleveland, O., July 20.—When The Climax, 2:07 1-4, one of the greatest half mile wigglers in the country, appears at North Randall next week in the 2:07 pace, it will be the last time the local public will have to see The Climax as a pacer on a mile ring.

Next season The Climax will blossom forth as a stake trotter, it being planned to shift him to the trot, immediately after the close of 1916 season, and, judging from the way the horse has performed when allowed to trot, he will more than make good as a square gaited performer.

Mr. McElroy, president of the United States Horse Shoe company, this week refused an offer of \$5,000 for The Climax and when told that \$5,000 was a pretty long price for any pacer, came back with the announcement that The Climax was a pacer only temporarily and that next year would be raced on the trot.

PEARCE LETTERS FROM DEAD MAN

Washington, July 20.—Another "Pearce" letter, postmarked New Orleans, containing threats against J. P. Morgan, the financier, and Sir Cecil A. Spring-Rice, the British ambassador, and warning Americans to stay off a long list of British ships which the writer declares to be marked for destruction, was received today by the Washington Times.

The writer says that he is one of "the first division of patriots" commissioned to carry on the work begun by Erich Muentzer, alias Frank Holt, the terrorist, and adds that within a week "our men will be operating in every port in this country where munitions and mules are being exported." Every man in the ring, he says, is under oath to destroy himself if arrested, in order to prevent the secret of their operations from becoming known to the authorities.

Two interrelations in the letter raised the question as to whether Holt, the suicide, was really "Pearce." The morning after the recent explosion in the capitol the Washington Times received a letter signed "Pearce," explaining the outrage. Holt, following his arrest for his attempt to kill Morgan, told the authorities that he was "Pearce," that the name was an alias, and that he had no complicity in that or any other of his schemes.

"BETTER HORSES" IS STATE PLEA

Dr. J. E. Ward, chairman of the state board of veterinarians, is in the peninsula inspecting stallions and informing owners of the provisions of the new law concerning breeding horses which becomes effective Aug. 1, but which will not be rigidly enforced until Jan. 1, 1917.

"The new law will prohibit mongrel breeding," says Dr. Ward. "The present law requires that all stallions be brought into the state must be registered and licensed. In the Upper Peninsula I find few stallions brought into the state must be registered and licensed. In the Upper Peninsula I find few stallions have been licensed and only three applications for license have been received from Iron county. These owners of unlicensed stallions are subject to prosecution and the horses they have brought here may be sent back to the place whence they came."

"The new law tightens up the old law, and after Jan. 1, 1917, no stallion that is not registered and licensed under the state law may be used for breeding purposes. In order that no hardship may be worked upon owners I am making a trip through the Upper Peninsula to warn them of the provisions of the new law in order that they may have their horses licensed before it becomes operative. Otherwise they will lose, for the State Veterinary Board is determined to stop the breeding of mongrel horses."

"Other states have adopted stringent laws regulating the breeding of horses and as a result Michigan has become a dumping ground for mongrels not permitted to probrate their kind in those states. The board so far has done nothing more than send these horses back to former owners, but under the new law the new owners will be prosecuted in addition to depriving them of the use of their horses."

WANTED NOW.

Right now, when hay fever is attacking its victims and when asthma is causing so much distress, there is a demand for Foley's Honey and Tar Compound—the remedy that brought relief to thousands in previous years. Don't continue to suffer. It will help you. Contains no opiates. Sold everywhere.

COURT CLEARS LUSITANIA LINE

London, July 20.—"Torpedoes fired by a submarine of German nationality" caused the loss of the Lusitania and its passengers, according to the findings of the court of inquiry appointed to investigate the disaster. The court held that no blame for the tragedy attached to Capt. Turner commander of the vessel, or the Cunard line, owners.

"In the opinion of the court," says the formal report in part, "the act was done not merely with the intention of sinking the ship, but also with the intention of destroying the lives of the people aboard."

The report was a distinct disappointment to the American survivors, who expressed indignation at the portion which exonerated Capt. Turner and the Cunard line from all blame and commended the discipline of the crew.

"No doubt there were mishaps in handling the ropes of the boats," Lord Mersey, in giving the report, said, "but in my opinion there was no incompetence or neglect."

Lord Mersey in handing down the judgment said in part: "The captain of the ship, Mr. Thomas Turner, gave his evidence truthfully and well. I am quite satisfied that the two captains and the officers are competent men and that they did their duty. Capt. Turner remained on the bridge until he was swept into the sea and Capt. Anderson was working on deck until he went overboard and was drowned."

The court praised Leslie M. Morton, a member of the crew who shipped at New York and was acting as extra lookoutman at the time that the Lusitania was torpedoed, saying: "He was only 18 years old, but he seems to have exhibited great courage, self-possession and resource. He was the first to observe the approach of the torpedoes and before they had touched the ship he had reported them to the bridge by means of a telephone."

Though knocked off his feet when a torpedo hit the Lusitania and later having to swim for his life, Lord Mersey said, the youth, aided by a member of the crew named Parry, righted a collapsible boat and was instrumental in saving nearly a hundred lives.

The court here analyzed the passenger list. He added: "Some passengers attempted to assist in launching the boats and in my opinion they did more harm than good. It is, however, quite impossible to impose any blame to them. They were all working for the best."

"The cargo was a general cargo of the ordinary kind, but partly consisted of cases of cartridges—about 5,000. This ammunition was stored well forward on the upper and lower decks and was about fifty yards away from where the torpedo struck the ship."

Lord Mersey then iterated that the Lusitania carried no masked guns nor troops. Lord Mersey described at some length the events immediately preceding the torpedoing of the vessel, giving her speed as 18 knots, and recounted details regarding the position of the ships as testified by Capt. Turner. Continuing he said:

"The blow of the first torpedo broke number five life boat to splinters. A second torpedo was fired almost immediately afterward, when struck the ship on the starboard side. The two torpedoes struck the ship almost simultaneously."

"Both of these were discharged by a German submarine from a distance variously estimated at from 200 to 500 yards. No warning of any kind was given."

Lord Mersey bitterly assailed the German government, saying the fact was "a murderous attack because it was made with a deliberate and wholly unjustifiable intention of killing the people on board."

CLEAN WOUNDS ARE VERY RARE

London, July 20.—Clean wounds apparently do not exist, said Dr. H. S. Souttar, late surgeon in chief of the Belgian field hospital in a lecture before the Royal Society of Medicine. Much has been written about the clean wounds left by the modern bullet, but the doctor never met one in his experience in Flanders, and a colleague who had treated 10,000 wounds in the present campaign confirmed this opinion. Every wound is infected, although not all the organisms produce disease.

Dr. Souttar found it was a mistaken idea a wounded man could apply his first dressing properly. It required clean hands and non-interference with the actual wound. His instructions were that the skin around the wound should be disinfected with iodine, carbolic or eye soap and water, but the wound should not be touched. External appearances of wounds are often deceptive. Back of a small puncture in the skin may be a cavity as large as a fist, perhaps with a piece of shell or a bullet at the bottom.

LOSES PORTION OF BRAIN RECOVERING

Cadillac, July 20.—That the case of William G. Glidie, the young man shot at South Boardman last Sunday by his uncle in a fit of rage is the most remarkable he has met in his 35 years of practice, is the statement of Dr. B. H. McMullen of this city. Glidie was shot a week ago, lost a part of his brain in the operation that followed, and today is alive and apparently recovering.

Glidie was shot through the brain and was pronounced dead Sunday night a week ago. He regained consciousness, but doctors said he could not live. Later, however, when the boy was still alive Tuesday he was brought to the hospital here. Tuesday afternoon young Glidie was operated on.

"The bullet entered the middle of the back of the head," said Dr. McMullen, "and went two inches into the brain just to the right of the Median line. It was a dum-dum bullet and when it struck the skull it flattened, tore out a piece of bone the size of a cent and carried the bone along with a portion of hat into the brain. In the operation two tablespoons of his brain is paralyzed and he probably will lose a part of his mental faculties. He perhaps will be unable to recall some of the important incidents of his life."

JESS WILLARD QUICK THINKER

Nate Lewis tells a little story about Jess Willard which should dispel any idea that the big champion is not a fast thinker. Nate says that a couple of years ago Jess visited his gymnasium to do a little training.

On the floor below was a billiard room where the boxers adjourned for a little play after the daily workout. One day Willard and Eddie McGoorty, the Oshkosh middleweight, hooked up in a pocket billiard match of 25 balls.

The match was made through kidding, McGoorty boasting that he was the best fighter-cueist in the world. Willard disputed his claim to the title, so they put up a little bet to make it interesting and the battle was on.

McGoorty set a fast pace and led from the start. When he had pocketed 23 balls while Willard's score stood at 19, it looked like a cinch the Oshkosh boy would be the winner.

But that was where the cowboy fooled them, for he came back with a run of five balls and had a setup on the

needed ball, which was near a corner pocket.

He shot, but the ball found the croch and wobbled, refusing to fall into the pocket. McGoorty, with a shout of glee, started for the other end of the table to "pick on the cripple," the ball started moving again and dropped into the slot, giving Willard the match and side bet.

McGoorty was more dazed and mystified than if he had been hit squarely on the point of the jaw by a right uppercut, but gamely coughed up his money.

It was a long time after that Willard tipped off how he beat McGoorty and he probably wouldn't have let it out then, but for the fact that he repeated the trick.

When he saw he ball wobble and that it wasn't going to fall in the pocket, he reached down with his right hand and tilted the table enough to roll the ball in, waving his cue in his left hand at the same time to divert the attention of McGoorty and those watching the game.

It was clever work and shows that Willard isn't a slow thinker.

ESCANABA TO MAYWOOD

After July 1st, hourly trips between Escanaba and Maywood can be made via street cars and the Gladstone Ferry Boat. 50c round trip tickets on sale on the cars or boat.

Everybody should go and enjoy an outing at this beautiful spot.

ADMISSION 10 CENTS

GOV. FERRIS NAMED DAY

Gov. W. N. Ferris has designated August 20 as Tuberculosis Day in Michigan when by general consent every physician in the state will without charge will examine any patients that may present themselves for symptoms of tuberculosis.

The governor's proclamation follows:

The people of the State of Michigan, always have been subject to the ravages of tuberculosis, a wholly preventable disease. This disease is the common enemy of mankind, and is rightly called the White Plague. The first manifestations of tuberculosis are frequently overlooked. The patient discovers his danger when it is too late. The Medical Fraternity of Michigan have it in their power to render the State an invaluable service. Their functions are to relieve suffering, cure disease and prevent disease, and the greatest of these three is to prevent disease. Michigan physicians are ready to encourage and practice this form of patriotism—the patriotism of saving their fellowmen from this awful scourge. I suggest that on Friday, August twentieth, any person in Michigan desiring a medical examination whereby he may ascertain whether he has any of the symptoms of tuberculosis, may have such examination and advice by asking a physician for it.

Therefore, I, Woodbridge N. Ferris, Governor of the State of Michigan, do hereby designate Friday, August twentieth, A. D. 1915, as Tuberculosis Day, at which time all physicians engaged in the practice of medicine are requested to render this service without charge.

Given under my hand and the Great Seal of the State, this seventh day of July in the year of our Lord one thousand nine hundred and fifteen, and of the Commonwealth the seventh ninth.

WOODBRIDGE N. FERRIS, Governor.

By the Governor: Coleman C. Vaughn, Secretary of State.

AMONG THE THEATRES

THE STRAND
"The Heart of Maryland" is the name of the gripping six reel drama that is to be offered at both matinee and night shows at this house today. The picture is one of the strongest war dramas to be displayed at a local house in some time and hundreds of Escanaba people will be thrilled by its presentation today.

THE DELFT
Today the feature picture at this house is "The Face of the Madonna" in which Miss Alice Joyce is appearing in the leading role. The vaudeville act at this house that appeared for the first time yesterday afternoon, scored a decided hit. The rendition of the "Poet and the Peasant" was especially applauded by a big audience. In addition splendid dancing will be seen here.

THE GRAND
The featured picture at this house Thursday is "Man's Prerogative." This picture is one of the most talked of, most unusual and most startling to be shown in this country in years. The famous actor, Robert Edeson, is appearing in the leading role in this splendid production and is supported by a brilliant company of actors. It will be shown in four parts, matinee and night, Thursday at the Grand.

India's Aluminum Wealth.
India offers a great field for future supplies of aluminum. There are great deposits of laterite and bauxite from which aluminum is derived. It is said that the Indian product could be placed on the market at a figure but little more than half that of the present quotation. The use of this metal is handicapped by the cost at present, and if the metal could be secured at a lower cost its field of usefulness would be greatly expanded. There are many comparatively accessible points where factories for the extraction of aluminum could be located.

Value of Ashes.
A ton of average hardwood ashes contains 100 pounds of potash, 22 pounds of phosphoric acid, and 640 pounds of lime, or about one-third of the latter. Tree trimmings run 100, 50 and 275 pounds, respectively. Woods will doubtless average about the yield for hay and straw or 30, 20 and 100. Coal ashes are practically valueless as fertilizer, but improve the physical condition of close or sticky soils. Fossil stable manure contains about one-tenth as much potash as do hardwood ashes.

NEW ORGANIST ARRIVES HERE

Ned Meech, an organist of ability, arrived in the city yesterday from Detroit and presided at the organ at the Delft theater for the first time last night. Mr. Meech has been engaged as organist in some of the largest theaters of the state and came to the management of the Delft with exceptional recommendations. Mr. Meech will appear at the organ regularly at the Delft theater.

LIVE ITEMS of INTEREST

A nine pound daughter has arrived at the home of Mr. and Mrs. Joseph Londo of South Sarah street.

The Marquette Chronicle says: Harold Thompson, of Escanaba, is one of the outsiders who is taking part in "Tango Town." This young man's name is not unknown to Marquette audiences as he has participated in many amateur performances and his fine tenor voice and clever acting has never failed to prove an attraction.

Hot water from little heat at lowest cost. New perfection hot water heater attached to stationary boiler in operation at Stille's Plumbing Shop. Look it over. Burns Kerosene oil. 2270-197-ft.

Miss Etta Norton is in Manistique visiting with her uncle, Capt. John Coffey.

Miss Ruth Buckley of South Pekip, Ill., has arrived in the city for a visit at the home of the Misses Mary and Theresa Bink on Third street.

Mrs. Otto Toren and son Carl, of Bessemer, have arrived in the city for a visit at the home of the former's sister, Mrs. Peter Olson.

Miss Mary Moynihan and niece, Dorothy Moynihan of Chicago, arrived in the city yesterday for an extended visit at the home of Mr. and Mrs. J. B. Moran on Ogden avenue.

Mr. and Mrs. Perry Elwood and family of Chicago, who recently leased the home of James Christie on Michigan avenue for the summer months, have arrived in the city to take up their residence here.

Miss Catherine Ramspeck and Miss Florence Needham returned from a visit at Lena, Wis., where they visited with relatives for a few days.

MATINEE & NIGHT Thursday, July 22

One Moral Law for Man & Woman?

This Is the Theme of **MAN'S PREROGATIVE**

THE MUCH DISCUSSED SOCIAL PROBLEM PLAY FEATURING THE DISTINGUISHED ACTOR

ROBERT EDESON

SUPPORTED BY A BRILLIANT COMPANY OF PLAYERS INCLUDING MARY ALDEN, CHARLES CLARY, BILLIE WEST.

What Would You Do If You Were A Wife with a high standard of morals and your husband should carry on a flirtation with a beautiful young woman belonging to a fast social set? Would you try to teach him a lesson by pretending to accept the attentions of another man—on the principle that the same code that governs the woman should regulate the conduct of the man?

What Would You Do If You Were A Husband and your wife should seem to disregard the social law which holds the woman to a stricter account than the man? Would you feel you had more privileges than she—that there are two standards of morals, one for the man who provides the home and another for the woman who maintains its honor? If either of you are in doubt, see "MAN'S PREROGATIVE."

A FOUR-PART MUTUAL MASTER PICTURE

The same as advertised in the Saturday Evening Post.

IF YOU'RE MARRIED DON'T MISS IT

GERMANY WILL WIN THE WAR?

On the anniversary of his eighty-fifth birthday, Henry Ammerman, of Menominee, father of William Ammerman of this city, expressed the belief that Germany ultimately will win in the European war and said that were he a resident of Germany he gladly would offer his service to his country. The Menominee Herald Leader says of the father of the Escanaba: "If I were living in Germany now I would offer my services to my country and be willing to shoulder a gun and fight for her." Thus depicting again the love of a Teuton for his Fatherland and his loyalty to the place from which he migrated years and years ago, Henry Ammerman, Menominee's oldest tailor, today expressed himself on his 85 birthday. "I think that Germany will win in her struggle against the world," said the aged Teuton as his eyes shone with feeling for the home of his fathers. "It was all the fault of Great Britain but it will pay for the suffering it has caused."

Mr. Ammerman has been a tailor for 71 years and has been in Menominee since May 11, 1871. He was born in Hedemünden, Hanover, Germany, in 1830 and came to American, June 19A, 1870.

The aged man has never worn glasses despite the fact that his life work has been one in which his eyes have been taxed to the utmost. He had never smoked but says he liked "a little beer once in a while." Mrs. Ammerman died here on Feb.

9, this year. Four children still survive. They are, Emil, a druggist of Iron River; William, a druggist of Escanaba; Mrs. Theodore Goldhammer and Mrs. Albert Duclow of Menominee.

GERMAN CITY PUTS TAX ON BACHELORS

Dresden, Germany, July 20.—The authorities of the little city of Reichenbach, in the Vogtland, have decreed that all unmarried persons, male or female, hereafter shall pay for the privilege of single blessedness. Those with incomes ranging from 1,400 to 2,200 marks must pay 5 per cent more than they usually do; those whose incomes run between 2,200 and

4,000 marks must pay an additional income tax of 10 per cent; those getting from 4,000 to 10,000 marks must pay 15 per cent; and those whose figures must pay 20 per cent additional tax.

The only exceptions are persons who have relatives dependent upon them. The authorities throw no light upon the ways and means by which female "bachelors" may remedy their single estate, and escape the new taxation.

Diarrhoea Quickly Cured.

"About two years ago I had a severe attack of diarrhoea which lasted for over a week," writes W. C. Jones, Buffalo, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Obtainable everywhere.

SAY TRENCHES HAVE MAN TRAPS

Rome, July 20.—A wounded officer of the engineering corps, now in Rome, declares that the Austrian trenches beyond the Isonzo, besides being protected by wire entanglements, ditches and mines, are provided with special iron mantraps, placed about 100 yards before the trenches and made invisible by covering of soil.

In addition the wire entanglements are interwound with electrical wire that when touched explodes mines. These complicated obstacles, he says, were prepared long beforehand in the hope that they would render the Austrian trenches impregnable. The Italians have, however, discovered a simple method of rendering the mantraps harmless.

UNITED STATES MEN DISCOVER METHOD

Cincinnati, O., July 20.—Two Cincinnati chemists, Al C. Roach and his brother, William Roach, after many experiments in methods of combating the use of poisonous gas in warfare have perfected that they declare to be an effective plan for "deflecting or dissipating" these gases.

"We are now negotiating with an agent of the allies in Washington and he has informed us that he heartily approves our invention. We feel sure our proposition will be carried direct to the war office in Paris and to Rome," said Al Roach today.

Roach said his information was not given to the United States because he and his brother already had submitted an important discovery as to the use of incendiary shells and had received but scant courtesy.

ACCUSE GERMAN

Washington, D. C., July 20.—The British government today informed the state department it has evidence that a wealthy German resident of Detroit, Mich., has supplied money to certain persons in Windsor, Ontario, which was used to destroy property of the Canadian government. The British government has inquired if the department would not regard the case of full substantiation, a case of military activity constituting a breach of neutrality. Pending investigation, the name of the man accused is being withheld. The case is connected with recent attempts to dynamite an armory and an explosion in a factory making clothing for British troops.

That ancient wheeze about the man who had been to a dog fight and was asked whether he or the other dog had won has a parallel in real life. This occurrence is not as old as the wheeze, having happened only as late as 1371. It so happened that in that year Aubrey de Montdidier, a soldier of France, was murdered, supposedly by his comrade, Richard de Macaire. The former's dog, a sole witness to the murder, harassed Macaire so continuously and persistently that Charles V, hearing of it, ordered a fight between man and dog. The dog killed Macaire, and was acclaimed his master's avenger.

Saint's Tender Conscience.
St. Macarius was originally a confectioner in Alexandria. He withdrew from trade and took up a life in the desert, devoting himself wholly to religious thought. His conscience, it is said, became so tender, that having once killed a goat that bit him he immediately hastened, in a penitent mood, to a marsh which abounded in great flies, a torment even to the wild boar. He exposed himself to these insects six months, at the end of which time his body was a mass of sores, and he could only be recognized by his voice.

Preocious Youngsters.
Two little lassies, about ten or eleven, had been having ice cream in one of the glittering glass parlors which are such a marvel of attraction to the kiddies. The taller, switching the back of her skirt importantly from side to side, paid the cashier "That candy," she drawled, indicating some on display, "is the face-smile of the kind we saw in Dobb's grocery." "I really don't care for any," said the other, rising to the magnificent of manner in her companion; "It offends my oil-factories." And the two gave the smiling clerk a disdainful look, and walked out with great dignity.

Recommended by Chamberlain's Linctoln, Treasuring Man's Experience

"Last winter I used Chamberlain's Linctoln for rheumatic pains, stiffness and aches of the knees, and was so completely cured that I never had any more. It did me so much good that I bought a bottle for my wife and daughter. Chamberlain, N. Y. O."

DAILY DAIRY

WORST FOE TO GOOD HEALTH

Constipation is Starting Point of Many Serious Ailments That Affect Dairy Cattle.

(By G. W. BARNES, Live Stock Specialist, Arizona Experiment Station.)

Constipation is one of the worst foes to good health in cows and to the pocketbook of the dairyman. It is the starting point of many serious ailments that affect dairy cattle. It causes the other organs to be overtaxed to throw off the accumulations of waste that should pass through the bowels.

Constipation causes the cow to have fever which makes such a case really more serious. There is also a marked decrease in the milk flow, and often this is the first symptom that the farmer notices. The farmer or attendant should keep his eyes open and so feed as to maintain a normal state of health. The genuine live-stock man will know his individuals so well that he can tell at once if a single animal gets out of feed. The best treatment is to remove the cause which gives rise to it. The main cause is usually from feeding too long on nothing but dry bulk foods. Flaxseed or linseed is a good laxative. If constipation has lasted long, repeated small doses of purgatives are better than a single large dose.

FINDING QUALITY OF BUTTER

Principal Factors to be Considered are Flavor, Texture, Salt and Appearance of Package.

The principal factors that are considered in determining the quality of butter are:

Flavor, texture, color, salt, general appearance of package.

To a few people all butter is very much alike. To the cultivated taste and the experienced judge there are a great many flavors found in butter, prominent among which are the following: Flat, rancid, cheesy, weedy, acid and stable flavors.

Churning the unripened cream produces the flat flavor; age has the tendency to produce a rancid flavor; unsalted butter develops a cheesy flavor; the cause of the weedy flavor is obvious, the remedy for which is to terminate the objectionable weeds from the pasture and feed silage, kale, turnips and the like only immediately after milking. Overripened cream that has been held at too low a temperature is found to produce the acid or bitter flavor; milking from unclean udders and in filthy and unsanitary stables are the chief sources of what is known as the stable flavor in butter.

MILK CAN AS REFRIGERATOR

Rise in Temperature of But 18 Degrees in 24 Hours Noted in Milk Carried in New Device.

A new way of shipping milk and cream for long distances during the heated season is offered by the invention of a refrigerator milk can which is simply two cans, one within the other, the space between being filled with

Refrigerator Milk Can.

baked cork and hair felt. In severe tests, under practical road conditions, milk shipped in these cans showed a rise in temperature of but 18 degrees in 24 hours, when exposed to a continuous temperature of 92 degrees. A special form of neck is provided, the inner portion being a segment of a sphere over which the bowl of the cover fits closely, so that the can is perfectly tight, even if the cover be tilted to one side or the other.—Popular Mechanics.

No Two Cows Alike.
No two cows are just alike. For that reason we must study them all separately and see what each one needs. The cow that is now giving milk will use more grain to advantage than one that has not yet begun the season's work. She is putting some of this grain in the pail and some into her own body. To get her up to the best possible condition, we need to give her a generous ration of flesh and fat-making material.

Cow is Often Neglected.
The trouble with the majority of farmers is they do not give time for the attentions that bring out the best qualities in the individual. No dairy cow, however good, will be profitable unless given the right care and it is good money to the farmer to see that her development is looked after, and that she is given good shelter and food.

DAILY LETTER

Traders witnessed a very dull and uninteresting market today. Prices moved in a narrow range and really were meaningless. There was no liquidation in the coppers, in fact, buying orders predominated although buyers were content to await fractional recessions. The reports on the metal were a cut in the price of copper below 20 cent mark, at which price some business was done. War order stocks were mixed, Bethlehem Steel making a new high, while Coal Products was off 6 points. These violent fluctuations in the special stocks tends to unsettle the balance of the list. Tonopah stocks were weaker as the Silver market does not show any advances and may mean a reduction in the dividend rate of some of the precious metal stocks. Copper stocks purchased on these dull days should show a profit in the near future.

BOSTON MARKETS

No feature to the Boston market, very dull and uninteresting merely dragging along and marking time. Some disappointment expressed at failure of St. Marys to declare \$2 dividend but had no effect market wise. Reported shading of Metal quotations acts as a damper to business generally on stock exchange. Zinc stocks were rather heavy.

ARE YOU FEELING FIT?

Do you envy the man or woman of striking energy, strong body and happy disposition? All these depend upon good health, and good health is impossible when the kidneys are diseased. Foley Kidney Pills help the kidneys cast out poisons that cause backache, rheumatism, and other symptoms of dangerous kidney and bladder troubles. Sold everywhere.

You See It First in the Morning Press.

SPECIAL WARDEN IN THE PEN.

B. J. Pearson, of Boyne Falls, special deputy of the game, fish and forestry division of the public domain commission, and who devotes his attention to forest protection work has arrived in the peninsula to confer with W. R. Oates and new deputies of the department relatives to the 1915 campaign in the upper peninsula. The former laws for forest protection were considerably strengthened by the last legislature and the changes call for considerable work of reorganization, which the department is now undertaking. Mr. Pearson will work in this field as long as is necessary thoroughly to instruct the deputies in their duties and responsibilities, and to insure that they are well organized to assist in the protection of the great forest areas in the upper peninsula. By virtue of his campaign and of the increased power given the department by the amendments, it is expected that the deputies will soon be a more effective force for this week of conservation that they have ever been before.

"The forest fire losses this year have been perhaps the smallest on record; certainly they have been the smallest in recent years," Mr. Oates said yesterday. "This has been due, of course, to the unusually wet spring and early summer. There have been few fires of any kind, and most of those that have been reported have burned only through brush. They occurred early in the season. The past several weeks the forests have been too thoroughly wet down to make fire possible.

"But there is no telling what August and the fall will bring, and it is the purpose of the department to make it as can of the laws on the subject and the services of the deputies to cut down the losses for this year. Every possible means is taken to impress the deputies with the importance of quenching incipient fires and bringing to bear the full resources of the department to stay those that have gained real headway."

Origin of Old Joke.
Harper Pennington has revealed the origin of the "standing room only" joke: It appears that there was hardly ever any furniture in Whistler's house. He was peculiarly parsimonious in the matter of chairs. This led to a remark of Corny Grain's which became famous. "Ah, Jimmy! Glad to see you playing to such a full house!" said Dick (Corny) Grain when shaking hands before a Sunday luncheon, while glaring around the studio with his large, protruding eyes in search of something to sit on. "What do you mean?" asked Whistler. "Standing room only," replied the actor.

To Curtail Fire Losses.
Some day we shall come to full realization of the enormous unnecessary loss entailed by fire and shall be the right sort of preventive campaign to lower it. One place to begin is the schools. It is probably within the truth to say that a considerable part of the cost could be canceled by saying that could be made by bringing the incoming generations to a proper appreciation of the value of property that they that even reason precaution would prevent.

SPLIT NOT TO HARM PARTY, BRYAN WRITES.
Lincoln, Neb., July 20.—"The president and his secretary of state were seeking to promote peace, but they differed as to the methods most likely to result in peace," writes W. J. Bryan in the current number of The Commoner. "They agreed to disagree; they separated, each respecting the other's position. Their purposes have not changed—their zeal for the party's welfare has not abated—they are alike wedded to the principles and policies for which the Democratic party stands. 'The Republican are singularly dull of comprehension if they think that the difference between the president and Mr. Bryan will redound to the benefit of the Republican party.'"

LIST OF LETTERS.
List of letters remaining unclaimed at the Escanaba, Mich., postoffice for the week ending July 17, 1915.
Allen, Wilard
Arnold, F. W.
Bergstrom, Emil
Board, Nick
Brennan, William
Calumet Chemical Co.
Couillard, Miss Emma
Callen, Valere
Dour, Miss Wilma
Egan, Frank
Howard, J. F., Repair Works
Knox, J. C. Sec'y.
Kurback, Mrs. Charles
Larson, Otis
Lindell, Oscar
Lundquist, Matt
Millard, Mrs. A. C.
Moore, J. J.
McRae, Miss Bessie
McCauley, Mrs. Bert
Rose, Joseph
Smith, Miss Margaret
Smith, Jas.
Worok, Mike
Persons calling for any of the foregoing letters will please say advertisement and give date.

FOR SALE
OR SALE—We have some new houses for sale at a bargain in good locations. If you are interested we will give you the benefit of our special liberal terms. Call at our office or details. Arntzen Brothers, Phone 102-W. 1857-121-1f.

DANIELS WON'T NAME BOARD

Washington, July 20.—Secretary Daniels today asked leading American scientific societies to select sixteen men foremost in science and invention to join Thomas A. Edison on the advisory board for the navy. Mr. Daniels will not make the appointments himself, as was expected.

"Much depends on the personnel of the committee," said Mr. Daniels in announcing plan, "and I have been desirous first of all that it should be made up of the ablest men in the country, who have demonstrated their leadership, in their professions. It would be comparatively easy for any well informed man to select half a dozen names which immediately would suggest themselves, but the desire is to have a committee that would not only in themselves insure high service, but as well be representative of the inventive and engineering talent of their societies."

"After consultation with eminent men in the navy and civilian life I have decided to ask eight associates having large memberships each to select two members who will make up the advisory committee. In this way I feel sure we will have the hearty cooperation of the thousands of trained experts who make up their membership. The members of these societies naturally will see to it that their most eminent representatives are chosen. We will therefore obtain for the navy the direct advice of those selected to serve on the committee and also the interest of all the members of the societies who make the selections."

U. S. WILL PROBE CHARGE

Washington, July 20.—At the instance of the British government the state department has called on the department of justice to investigate the activities of certain German sympathizers in the United States, who are alleged to have been employing unlawful means to strike at Great Britain and her allies.

Until inquiry has developed whether there is sufficient evidence to warrant prosecutions no names will be made public. It is known, however, that information has reached the embassy concerning all kinds of plots, ranging from schemes to wreck bridges over which railroad trains carry volunteers of the British army to the incitement of strikes at American industrial plants making war supplies for the allies.

One case in which the British government informed the state department it had evidence involving a wealthy German resident of Detroit, Mich., who is alleged to have supplied money to certain persons in Windsor, Ont., to finance an attempt to dynamite a Canadian armory and a factory making clothing for the British army. Great Britain inquired whether this case, if fully substantiated would constitute military activity on American soil, constituting a breach of neutrality.

According to reports today in official circles some persons of high repute in American business circles have been mentioned in reports transmitted by the British government.

10,000 ASK FOR PARDON OF COPPER COUNTRY MEN.

Lansing, July 20.—Petitions signed by 10,000 women and children of the copper country, praying for the release of the four deputy sheriffs and alleged gunmen who were convicted of murder in the copper strike, reached Governor Ferris this morning. Some time ago a petition from the men of the district was filed, with 5,000 names on it. The governor does not hint as to possible action. The deputies, Groff, Davis, Cooper and Polkinghorne, are now in Marquette prison, where they were sent from 7 1/2 to 14 years.

MYSTERIOUS FIRES ON U.S.S. OKLAHOMA

Philadelphia, July 20.—Fire of a mysterious origin was discovered tonight on board the United States battleship Oklahoma at the yard of the New York Shipbuilding company in Camden. Smoke was seen issuing from the compartment under turret No. 1 shortly after the workmen had left the yard for the day. The compartment was flooded and it was believed the fire had been put out. At 9 o'clock, however, more smoke was observed and the compartment was again flooded, the fire being finally extinguished an hour later.

S. M. Knox, president of the shipbuilding company, declared that he was unable to account for the fire, as to the best of his knowledge there was nothing that could burn in the compartment from which the smoke came. The Oklahoma is one of the super-dreadnaught type and is about ready for her trial trip. The builders expect to deliver her to the government in September.

A curious feature of the fire is that while there was dense smoke at no time was there any flame visible. A similar condition prevailed at a slight fire aboard the battleship Alabama July 11 at the Philadelphia navy yard, which was said by officials at the yard to have been due to crossed electric wires.

Shortly before midnight smoke was observed coming from a compartment beneath another turret at the opposite end of the vessel and the firemen were recalled to the yard. As in the case of the fires in the forward turret, there were dense clouds of black smoke, but no flames visible. Although apparently under control an hour later the firemen continued to flood the smoke-filled compartments.

ASK MISSIONARIES BE HELD UP

Calcutta, India, July 20.—There are 442 "enemy alien" missionaries, mostly Germans, at liberty in Indian at their posts on parole on condition of good behavior. Seventy others are residing by compulsion in specified places, and 115 are interned.

English missionaries have recently written to the newspapers calling attention to the large proportion of German missionaries still at large and characterizing the government's leniency as dangerous.

"From the standpoint of a Christian it would be pleasant to allow our German colleagues to remain at their posts," writes the Rev. Dr. William Miller, the leading Scottish Free Church missionary in India, to the Madras Mail. "But the path of duty is not always pleasant and the facts must be faced."

"The nobler the character of any German, the more likely is he to share the spirit of antagonism to Great Britain which has taken possession of his country, and therefore the more dangerous his influence becomes in a country, where wild and mischievous rumors gain extraordinary currency among the credulous masses."

"It appears to follow that every German, especially those who by intelligence and character have the greatest influence, should be removed from all places where it is in their power to aid our adversaries. Such removal is the kindest thing that can be done for our good German friends themselves, for it will place them beyond the reach of strong temptation. There is nothing harsh or novel in the proposal that missionaries should for a time remove from any country with which their own nation is at war."

CURB VISITORS

Washington, D. C., July 20.—A new regulation similar to that which was in operation during the Spanish-American war, governing admission to the building occupied by the state, war and navy departments, went into effect Sunday. The regulation was signed by the secretaries of state, war and navy, and its enforcement has been entrusted to Col. W. W. Hart's U. S. A. commissioner of public buildings and grounds.

Under the regulation no person not connected officially with any of those departments will be admitted to the building without a pass on Sundays or holidays or after 2 o'clock p. m., or before 9 o'clock a. m., on week days. The chief reason given for the issuance of the order is that official papers have been missed from desks of officials in the state and navy departments, and are believed to have been stolen.

The Belle C. Will make a regular trip every Sunday leaving the Merchant's dock at 10 a. m. and running to both docks at Stonington. Returning the boat will leave Stonington at 5 p. m. 2034-163-42

YELLOW PINE MEN HAVE LOST

Chicago, July 20.—Charles S. Keith, president of the Southern Pine association, today gave the federal trade commission a statement of conditions in the yellow pine lumber business and said that conditions were not good.

Mr. Keith said that his report covered the last eight years and that during the period, with the exception of the last half of 1913 and the first part of 1914 and the first part of 1915, conditions had been unsatisfactory.

"Today," asserted Mr. Keith's statement, "the lumber manufacturing business is virtually ruined, and has been ever since the beginning of 1914. This state was greatly accentuated immediately after the declaration of war. On the outbreak of war, a reduction of 58 per cent came in the volume of sales in August as compared with July. In September there was a 39 per cent reduction as compared with August. This decrease in demand resulted in the price of yellow pine reaching \$11.83 at thousand feet at the mills in December.

"The cost of production of yellow pine lumber in 1914 was shown to be not less than \$13.75 a thousand feet, while the price of lumber fell from the high mark of \$18.42 in February, 1913, to \$11.83 in December, 1914 a decline of 37 1/2 per cent.

"This situation has affected working conditions. In some cases have not been cut but hours have been increased, while in many instances wages have been reduced from 10 per cent to as much as 25 per cent. The cost of labor for the manufacture of yellow pine mills contributes \$57 a year out of his rightful earnings to this condition of over-production.

"The yellow pine industry, according to the census report of 1909, produced sixteen and one-quarter billion feet of lumber, so that the men have lost more than \$11,000,000 in this comparative situation. In addition to the loss to labor and to capital employed in the industry, there is a waste of thirty per cent in every tree, as it does not pay under present conditions to cut up the less present conditions to cut up the less valuable parts of trees. An estimate places the loss in this manner at \$45,000,000 a year.

"The only remedy we can suggest is to stop producing more lumber than the market can assimilate. If this should be done, it ought to be under full supervision of your commission. It is our belief that this would not be in violation of the law, in that it would not be in restraint of trade or lessen competition.

U. P. HOSPITAL GAINS 84 PATIENTS

Fifty-three cents per day will be allowed for the care of each patient in the Newberry state hospital by the state, this being the rate determined upon by the boards of the various state hospitals at a joint meeting held in Traverse City last week. The hospitals at Kalamazoo, Pontiac and Traverse City were allowed 50 cents a day per patient.

Francis T. MacDonald, a member of the Newberry hospital board, has just returned from the Traverse City meeting.

Mr. MacDonald was appointed a member of the committee on legislation of the state boards.

The next joint meeting of the boards of the various hospitals will be held in Pontiac in January.

There are now 970 patients confined in the Newberry hospital. This is a net increase of 84 persons in the past year.

There are various reasons for allowing three cents a day more for the care of each patient at the Newberry hospital than at the various other institutions. One of the principal items tending to increase the cost of upkeep is for fuel, as the winter season in the upper peninsula is longer than that below the straits.

BONESETTER REESE HAS RIVAL IN BOSTON DOCTOR.

There's a doctor up in Boston who soon will be putting Bonesetter Reese out of business if he keeps up his good work.

This doctor is the chap, who knocked the rheumatism out of Heine Wagner's right elbow and put him in shape to play second base for the Red Sox after Heine hadn't been able to play in a single contest in 1914.

The physician now has Vein Gregg's arm under his care, and reports that Gregg will be as good as ever within a month or six weeks.

It was this doctor, too, who put Del Gainer into playing shape after Gainer's leg had put him out of the game for a long time.

Daily Thought.
 Much of the charm of life is ruined by exacting demands of confidence. . . . Those who wish to destroy all mystery in those they love, to have everything revealed, are unconsciously killing their own happiness.—Stopford Brooke.

KRUPP WORKERS GIVEN PART

Geneva, Switzerland, July 20.—An important meeting was held at Eschen yesterday, according to advices received at Basel, between the administrators of the Krupp gunworks and the representatives of the workmen, in order to settle the dispute which has arisen over the demands of the men for an increase in wages.

Directly and indirectly about one hundred thousand men are involved. Minor disorders, in which machinery has been destroyed, have been reported. The military authorities, before the meeting, the Basel advices say, warned both sides that unless an immediate arrangement was reached drastic measures would be employed.

The Krupp officials are understood to have granted a portion of the demands of the employees, which has brought about a temporary peace, but the workmen still appear to be unsatisfied and many have left the works. A strike would greatly affect the supply of munitions, and for this reason the military has adopted rigorous precautions.

MAN MURDERED, BUT STILL WALKS

Milwaukee, Wis., July 20.—Although a man was convicted and sentenced to twenty-five years at Waupun on the charge of murdering Frank A. Klug, 32, living at 617 Lapham St., Aug. 22, 1914, and witnesses in municipal court testified that they were positive in their identification of his body, Klug walked into the saloon of Frank Kluth, 629 Mitchell street Sunday night, and bought "drinks for the boys."

The man sentenced for Klug's "murder" was Nicholas Gregoric, 32, charged with first degree murder. The jury found him guilty of second degree murder and he was given the maximum sentence. He has been serving since Dec. 5, 1914.

The body of the man was found shot to death on the railroad tracks near Lake station, Cudahy, Aug. 22, and after deputies had searched the neighborhood they found Gregoric asleep in some woods. A revolver was found on his person, and the bullet that killed the man was of the same caliber.

At the morgue relatives of the man and others who had worked with Klug, made the identification. The man's wife and mother were not positive and refused to testify that the body was that of Klug, however. In court Mrs. Klug and Klug's mother were not called to testify, but identification was made through other relatives, and men who had worked with him.

Klug is on probation for abandonment, and according to officials of the municipal court, a capias for his arrest is held by the police. The man's wife has supported herself and three children since the "murder" of her husband. She has refused to believe that her husband is dead, and has paid premiums on his insurance since his reported death.

Klug stated that since leaving Milwaukee he had been in Montana and the north.

According to attorneys and officials, the fact that Klug has returned, and that it was not he who was murdered, will make no difference in the sentence imposed on Gregoric. The fact that a man was murdered was well established, they say, and the circumstantial evidence positively connected Gregoric with the crime. Gregoric, however, has continually denied his guilt.

He stated that he was unable to obtain work in Milwaukee, and on the day that the murder occurred started to walk to Chicago. After walking as far as Lake station he went into some woods to sleep. He was leaving the woods when he was arrested. It was established in court that Gregoric had purchased the revolver two days before from a South side hardware man.

CALL ADVERTISEMENT OF POISON SHELLS ATROCIOUS.

Washington, July 20.—Letters of reproof written by Secretary Redfield were sent today to the Cleveland Automatic Machinery Co., Cleveland, O., and The American Machinist, New York, dealing with an advertisement of poisonous, acid-loaded shells. President Wilson approved the letters, which characterize the advertisement as "atrocious."

Mr. Harrod Got Rid of Her Stomach Trouble.

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. obtainable everywhere.

The Morning Press

Is read daily by more people than all the other newspapers in Delta County combined.

WHY?

Because

The Morning Press prints the news when it is news

Because

The Morning Press presents each morning the news of the entire previous day and previous night.

Because

The Morning Press, with its unsurpassed telegraphic service, gives each morning the complete story of the great European war, up to the early morning hours.

Because

The Morning Press guards its columns from all matter not fit to be read in the home.

Because

If its news and is right and fit to print, you see it first in The Morning Press.

Daily since the first issue of the Morning Press, its army of readers has steadily increased. Each day brings its new names to the circulation list, people who want their money's worth of newspaper.

There's a Reason

The Reason Is---The Press Itself

GERMANS IN BIG GAINS

(Special to The Press.) London, July 20.—Germany and Austrian armies have been victorious all along the whole 1,000 mile Russian line. The city of Radom, the capital of Radom and 57 miles south of Warsaw, was occupied by the Austrians today. The Teutonic cavalry is astride an important railroad from Radom to Ivangorod. Lublin has either been captured or is on verge of being evacuated. The LublinCholm railroad an important line leading to Warsaw, is still held by the Russians but only temporary. Warsaw fall seems certain. In the extreme north, General Von Ruslow has taken Takum, within 38 miles of Riga, an important port. The fall of Riga seems as certain as that of Warsaw. With Riga in the hands of the Germans, it will afford the most important naval base and permit them to sweep the gulf clear of mines. Following a great semi-circle southward the Germans have met great successes to the northeast of Warsaw. Here General Von Mackensen has captured Ostrolenka, less than 20 miles from Warsaw. General Von Mackensen has captured Bionie, 15 miles southwest of that city.

(Special to The Press.) London, July 20.—A Reuter dispatch from Petrograd reports that a Russian torpedo boat attacked and destroyed 59 sailing ships bound to Treibzond with war material for the Ottoman Caucasus army.

(Special to The Press.) Washington, July 20.—The State department has ordered investigation of the attack on Orduva by the German submarine as reported by the passengers. It is regarded now as too late to utilize the case of the Orduva in formulating the pending note to Germany. Lansing said it would be taken up separately.

LABOR COUNCIL IN MEETING

Members of the Trades and Labor Council met at the Mayors office on Monday evening at which time preliminary plans were laid for the annual Labor Day celebration in this city. Committees were appointed from the 15 different locals and another meeting will be held on Monday evening to lay further plans and to receive committee reports. It is planned to hold a bigger and better celebration this year than ever before.

MENOMINEE HERE AGAIN

The fast Menominee baseball club that copped two games from the locals here two weeks ago are booked for this city again this week-end. The Menominee team took both games by close scores and as a consequence the locals are loading up to meet them for the coming series. In all probability "Buck" Nolden will throw for Escanaba on Saturday. "Buck" has been going like a house afire this season and should "show up" the youngsters from Menominee Saturday.

NORTH ESCANABA DOWNS RAPID RIVER TEAM

In a game last Sunday the North Escanaba baseball team defeated the Rapid River second team by the score of 5 to 3. Larson and Thompson served as the battery for the North towners while Thorsen and Kniskels filled those positions for Rapid River.

BOY SCOUTS OF CITY TO MEET THIS EVENING

The Boy Scouts of the city will meet this evening at 7:30 o'clock at the Methodist church to discuss final plans for their annual outing. All members are requested to be present.

CARD OF THANKS

We wish to express our most sincere and heartfelt thanks to all our many friends who so willingly aided us at the time of the death of our beloved husband and father, Oscar Wedell. We wish to thank all those who sent floral offerings, especially the Methodist church and Mission church, while the sorrow caused by this death will bear yet the memory of all these kind deeds will ever be with us. Mrs. Oscar Wedell and daughter.

THE ESCANABA NATIONAL BANK ESCANABA, MICH. THE BANK OF THE PEOPLE Courteous, Personal Attention! You are invited to make this bank your bank—small as well as large accounts are received. SMALL AS WELL AS LARGE ACCOUNTS INVITED

MANY SEE PROGRAM

(Continued From Page One.) canaba people yesterday were a high and broad type of man and womanhood which indeed, added materially to the enjoyment of the two big audiences. Pitt Parker the Cartoon lecturer, yesterday displayed a remarkable talent with the crayon and by his clever and entirely original lectures. His act was indeed interesting as well as instructive. The Arden Drama Company scored a complete hit. Each member of the company (seven people) took a highly difficult part in their long program and carried it out with great credit to themselves. It is interesting to local people to know that Miss Verna Mohr, who takes one of the prominent parts with the company, is an upper peninsula girl, having spent her life in Ishpeming. She appeared in several vocal numbers yesterday and delighted her audience with her wonderfully strong and wide ranged voice and her particularly pleasing stage manner. Her pleasing personality lent added zest to the program of yesterday. She is eagerly looking forward to Thursday of this week, when the Arden Company appears in Ishpeming, her home town. She was a classmate of a local young woman at the American Conservatory of Music at Chicago last year. Miss Louise Williams, who has charge of the Junior Chautauqua, has perhaps acquired more friends during her stay thus far here, than any other young woman ever to occupy a similar position here. Her pleasing and charming personality has won instant friends and her admirers, both masculine and feminine are many.

CITIZENS JOIN HANDS

(Continued on Page Six.) about \$800 has been realized from the ticket sale source. The committee in charge of selling the Chautauqua tickets have worked hard and earnestly to secure their guarantee in the advance sale of tickets but today, on the third and biggest day of the Chautauqua, the promoters find themselves faced by a \$50 deficit. It is at a time like that residents of Escanaba should rally around the committee and display their appreciation of the strenuous efforts that have been made by those in charge of the ticket sale. Today a program second to none that has ever been given in Escanaba is to be provided in the appearance of Senator William E. Mason and Blands Band and orchestra. Senator Mason's address on "Presidents I Have Known" is without a doubt one of the most interesting and educational speeches to be offered anywhere. With his excellent oratorical ability, Senator Mason should introduce a new kind of life among Escanaba people and in doing so give them a new view of the political situations of the present time. In Blands Band Escanaba people will find themselves listening to one of the most finished musical organizations of the times. It is made up of young men, practically every man a college man and in almost every instance they have appeared in their college bands. Another peculiar incident connected with this band is that every man of the musical combine is a fraternity man. They are finished, trained men that should serve as a big inspiration for local people today. Jean McDonald, the Canadian entertainer, is appearing with the band and through his numbers alone, the price of admission will be realized. Today Escanaba people have an opportunity to save the Escanaba Business Men's Association from a financial loss, which, if sustained, will be critical and may mean the end of Chautauquas for Escanaba. It is a time to rally nobly around those who have made this big, moral entertainment possible and to do this all business houses should close and all citizens alike should attend the program of this afternoon and evening.

NEW NOTE STRONG

(Continued From Page One.) legal and moral arguments of the President's first note. There is no question that the note will assert and put Germany on her note that the United States will ignore the irrelevant German policy of attempting to force the United States to regard the issues between this country and Great Britain as inseparable from the controversy between the United States and Germany.

COURT HAS LONG DAY

(Continued From Page One.) that he had attempted to burglarize the Stein store, at North Escanaba. Following the disposal of this case a jury was called for the case of The People versus Louis Schutte, charged with gaming. After the regular list of jurors had been exhausted in an attempt to secure a jury that was entirely satisfactory to both sides, it was necessary to call nine men from the bystanders. When the jury was finally selected and the information read to them by the prosecution, court was adjourned until this morning.

LEO FRANK IS MUCH BETTER

(Special to The Press.) Milledgeville, Ga., July 20.—Leo M. Frank, late this afternoon informed his physicians that he felt "much better" following his removal earlier in the day of three stitches in his throat and the establishment of free drainage from his wound. Green, Frank's assistant, continued to maintain a silence.

TOO LATE TO CLASSIFY.

LOST—On Monday night at Ludington Park, a gold Hamilton watch and chain. Finder return to Peter Monson and receive reward of \$5. 202-3t.
