## LOCAL HIGHS TO THE SOO

### COACH HUTTO WILL LEAD BAND TO DO BATTLE WITH LOCK CITY HIGHS THIS AFTER-NOON

Coach Hutto will lead his band of gridiron stars of the Escanaba high school to Sault Ste. Marie today where this afternoon they will battle with the Lock City high eleven in a game that promises to be filled with action. The Soo team has been warring a lot of time trying to arrange a game with Marquette, victors over Escanaba, with out first meeting the local squad and Coach Hutto's men are today going to try and convince the Soo team management that they should have no great desire to gain a personal acquaintance with the Lake Superior City eleven. The locals are going to the Soo with the idea and the hope of giving the high school squad there a beating that will make them ever remember that Escanaba is still on the gridiron map of the peninsula. Whether they will accomplish that purpose will be shown when the official report of the game is received this evening.

Of today's game the Soo Evening News says:

With the Soo-Escanaba game only three days away, Coach Barber yesterday afternoon gave his team one of the hardest workouts this season. The field was in the worst condition than it has been at any time this year. This, together with the fact that there are only three more days before the Escanaba game leaves the team handicapped.

Coach Barber had his men going through a number of the plays and was giving them some more training on line work and blocking the men.

Deadman piloted the team, but it is expected that Bell will be put in, as soon as he gets back in form. Deadman is a good man and is fast but does not get his team away in time. Bell is also an end, and could fill that job, should Deadman improve so that he displays first-rate ability.

These are the two positions that are just now puzzling Barber. Johnson, a new man that came out this year is after the end position, but as in the case of a number of the other men he lacks the experience. Whybra is another candidate for the end job. He is a live one all the way through, being on the job all the time and a hard man to get. O'Neil, the biggest find that Barber has made during this year, is pushing both Kelly and Wheeler for their tackle jobs and in another year will be one of the best men on the team.

Wheeler is back in the game again, he not being able to play last Saturday. With Kelly and Wheeler, Barber has the best pair of tackles that the Soo team has ever had. They

## AGREEMENT IS SIGNED

New York, Oct. 15.—The half billion dollar loan agreement between American bankers and the commissioners of French and British governments, was signed at J. P. Morgan & Company's office late this afternoon.

## MEMONIEE TURNS IT DOWN

On an exactly similar point that was raised in this county against the regularity of local option petitions presented before the Delta county board of supervisors the Menominee county board yesterday, on the advice of the attorney general, refused to submit the local option question to the voters of that county. The point was raised in Menominee county, as in Delta, that more than one petition had been circulated in several of the voting precincts of that county. Petitions over which the dispute arose, were forwarded to the attorney general at Lansing and yesterday word was received that the petitions in no precinct where more than one petition had been circulated, could be counted.

When the decision of the attorney general was submitted to the Menominee county board the matter of submitting the local option question, on the petitions before that board, was turned down by a vote of 20 to 5.

## VESSEL RELEASED BY OWN EFFORTS

After running on Sand Point, in the dense fog that covered the bay on Thursday night, the steamer Canopus, worked herself loose and proceeded to the North Western dock without aid. The vessel did not strike hard and after working for several hours the master succeeded in releasing himself without calling for aid.

## MCNABB OWNS FINEST BIRD DOG IN STATE

Marcus McNabb, county surveyor, owns the champion partridge dog in Delta county. To secure a daily supply of birds all it is necessary for the county surveyor to do is to take his dog to the woods. The dog flushes a partridge. Follows to the three where the bird alights. Climbs the tree. Catches the bird and returns it to his master. An it isn't even necessary for McNabb to take out a gun. One day this week the county surveyor was working in the woods near Brampton. He saw the dog start a partridge and paid little attention to the matter until he noticed that the bird had alighted in a bush about four feet from the ground. He curiously watched the dog, which crept stealthily up to the bush and then directly under the bird leaped upward. He caught the partridge by the leg and when McNabb reached the spot the game was ready for the owner. And all of this McNabb tells as the truth and the whole truth.

## DISMISS CHARGE IN A GUN CASE

Because of the expense that would be incurred in bringing witnesses to the city from points about the county to which they have scattered, the case against Jacob Sulveny, charged with carrying concealed weapons, was dismissed in Judge C. D. McEwen's court yesterday on the application of the prosecuting attorney. Sulveny has been held at the police station for ten days, and it was considered by the authorities, after investigating the case, that he had been sufficiently punished without going to the expense of bringing witnesses to the city for a formal hearing.

## SMALL NATION PRAIRES PRESIDENT

New York, Oct. 15.—Lawrence Grant, London, arrived here on the French liner, Chicago, with a letter from President Pierre Font, Andora, the oldest and second smallest republic in the world, to President Wilson as head of the largest republic.

President Font congratulates President Wilson upon the stand taken by the United States for neutrality, and also upon the material aid rendered to the Belgians. The president of Andorra states that his republic is always ready to lend its feeble voice toward a peace conference.

Andorra, on the southern slope of the Pyrenees, adjacent to France and Spain, became a republic about 790. It contains 175 square miles, and has a population of approximately 6,000.

## DELTA CO. BANKERS BACK FROM MEETING

Delta county's representatives at the first annual meeting of Group I of the Michigan Bankers Association, have returned to their homes after participating at Houghton in one of the most important sessions of its kind ever held in the peninsula. Delta county was represented at the Houghton meeting by M. N. Smith, cashier of the Escanaba National Bank; George M. Mashek, director of the Escanaba National Bank; C. W. Malloch, cashier of the State Savings Bank and W. W. Gasser, cashier of the Gladstone State Savings Bank.

## ESTIMATES TO BREAK RECORD

### TOTAL REQUISITIONS FOR CONDUCTING GOVERNMENT FOR NEXT FISCAL YEAR IS \$1,240,000,000

(Special to The Press.) Washington, D. C., Oct. 15.—At midnight tonight the departmental estimates for the operation of the government during the next fiscal year, totaling over \$1,240,000,000—the largest amount ever asked for a similar period—were in the office of Secretary of Treasury McAdoo. Although McAdoo, himself, was absent from the city, it was indicated from reliable sources in his department that as soon as he returns from the coast—in about ten days—he will confer with President Wilson and members of the cabinet as to how this enormous sum can be raised. The \$1,240,000,000, which will be asked of congress exceeds by over \$87,000,000, the total estimates of last year. It was generally conceded among treasury officials that the most likely course for raising the additional money needed will be by the sale of bonds, probably Panama bonds. It is understood the President has given his approval to the estimates.

(Special to The Press.) Washington, D. C., Oct. 15.—Complete details of the plan for reorganization of the army which is expected to provide six hundred thousand fighting men, at the end of three years, became known for the first time today. The plan has received the president's approval. It contemplates an increase in the personnel of the regular army to insure a strength of 125,000 men and 2,000 additional officers within the next two years.

## BIG COMPANY IS BANKRUPT

(Special to The Press.) St. Joseph, Mich., Oct. 15.—The Graham & Morton Transportation Company, operating a line of steamers between here and Chicago and Holland today filed a petition in voluntary bankruptcy in the United States District Court at Grand Rapids. Assets of the company are scheduled at \$1,500,000 and the liabilities \$600,000. President and General Manager Morton of the company, states today that the action is taken to keep the property of the line intact for the protection of the bondholders and creditors and prevent the tying up of any of the fleet by attachment. The embarrassment of the company is attributed to the off seasons for the last two years; to the Eastland disaster; to the European war and to unrest arising from the passage of the LaFollette seamen's bill.

## LONGWORTH SEES G. O. P. VICTORY

Cincinnati, Oct. 15.—Congressman Nicholas Longworth and wife have returned from an extended trip to the Pacific coast. Both are in splendid health and speak enthusiastically of their travels.

"I found the Republicans enthusiastic and united all over the west," said the congressman, "and I think that the great mass of the former Progressive vote will be for the Republican national ticket next year. There is widespread disgust with the Wilson free-trade policy and California in particular has suffered from it."

## LITTLE FRIENDS ARE ENTERTAINED

Bernice Paquin entertained a host of girl friends at the home of her parents last night in celebration of her birthday anniversary. The party was arranged under the direction of Blanche Charlebois aided by Mrs. A. Godin and every moment of the evening was filled with pleasure for the guests. Music and dancing occupied the evening and following the program an elaborate luncheon was served.

## SCENE WAS READY

Boss Dick had the scene all ready for the elimination of the Wells post office yesterday when Uncle Samuel sat down. Uncle Sam, through the post office department, announced that he would not be ready to relinquish the Wells post office before Oct. 21. Postmaster Byers at Wells received a telegram to keep the office running until further instructions were received and Postmaster John O'Meara received a telegram announcing that the date of closing the Wells post office and transferring mail for that village to North Escanaba, had been changed to Oct. 21. No reason for the change of plans were announced by the department.

Anticipating the elimination of the Wells office Boss Dick had a crew of men at work for the past few days constructing a set of boxes that will be installed in the present Wells post office. It is presumed. When the Wells office goes out of existence he will delegate some man Friday to call at the North Escanaba office or the city office for the mail of the company and all residents of Wells and it will be placed in the boxes by Friday and thus distributed to the residents of the village.

Thus it is proven that Boss Dick was actuated in his move to bar the official Wells post office from the village because another than himself was designated by the government as postmaster. He is now to establish an independent postoffice for his people, when the official office is closed and he will possibly go about wearing a phoney star bearing the words "near postmaster" in an effort to convince the people that his supreme will is also being supreme at the seat of government at Washington.

## HINTS FOR HOUSEWIVES

John T. Rowe, of Laurium, deputy state pure food commissioner, yesterday issued a series of hints to the housewives of Escanaba in a statement given to the Press.

Mr. Rowe, in his statement, says: "The purchaser should purchase only from dealers who have sealed scales and weights and then occasionally check the goods bought and see that they agree with what was ordered. Buy in a careful manner and not in indefinite terms. When ordering commodities order them by weight or numerical count. Purchase package goods which are clearly marked on the outside with the net quantity they contain and thus encourage the dealer who is willing to take the purchaser into his confidence, and let him know what he is delivering. Bargains are not always bargains because the price is low. Don't allow your grocer to weigh in the wooden butter dish, when he is weighing your butter. These butter dishes frequently weigh, in accordance with their size from 3-4 ounce to three ounces. You will ob-

(Continued on page six.)

PORTLAND FITS UP CLUB TO TAKE SALOON'S PLACE  
Portland, Ore., Oct. 15.—To provide a place of resort, after the state prohibition law goes into effect Jan. 1, laboring men who now gather in saloons, the city leased a four story building and will fit it up with reading room, gymnasium, baths and a limited number of beds for unemployed men.

## DECLARES WAR ON BULGARIA

### ENGLAND TAKES FORMAL STEP TOWARD INVADERS OF SERBIA. GERMAN ADVANCE ON TWO FRONTS

(Special to The Press.) London, Oct. 15.—The foreign office tonight issued a statement that a state of war exists between Bulgaria and England.

(Special to The Press.) London, Oct. 15.—The Austro-German invasion of Serbia made another distinct advance today when the Germans captured the town of Pozarevac, 12 miles southeast of Semendria. At the same time the first Bulgarian army attacking on the eastern frontier, captured several passes and repulsed Serbian troops, who attempted to capture strategic points on the Sofia road in the Kostendil district. The Teutonic progress, slight as it is, was made at enormous cost, according to neutral reports, as the Serbians are fighting desperately for every foot of ground they surrender.

(Special to The Press.) London, Oct. 15.—In a general artillery action, fought on a front of nearly 300 miles, the Germans today struck heavily at the Allies' lines in Artois, Champagne and Vosges. They drove the French from positions east of Auberville, where French guns seriously menaced the German lines and recaptured Hartmannsweller-Kopf in Vosges. These advances are admitted by Paris. Paris reports the capture of several sections of trench in Lorraine.

## SAY DATE IS NOVEMBER 10

(Special to The Press.) Washington, D. C., Oct. 15.—It was said today by a prominent Democrat that November 10 is the date fixed upon for the wedding of President Wilson to Mrs. Norman Galt.

## IRON COUNTY PIN MEN HERE

Two representatives of the five man bowling team of Crystal Falls, who will meet a local five man team at the Delta club alleys tonight, arrived in the city yesterday to complete arrangements for the B. Flood and George Trembley represent the advance guard of the Iron county bowlers, who reached the city by auto yesterday and this afternoon the remaining members of the invading squad will also come in by auto. The Crystal Falls bowlers yesterday were enthusiastic over the Delta club alleys asserting that without question they are the finest set of alleys in the peninsula.

The members of the local team to meet the Crystal Falls bowlers will be W. P. Schultes, Victor Lahale, Con Driscoll, William Van de Wiele and Hugh Blake. Women of the city are invited to be present to witness the inter city contest.

## FORMER GLADSTONE MAN PASSED AWAY

James Inman, for 20 years a locomotive engineer for the Soo Line, running out of Gladstone, passed away yesterday morning at Minneapolis after a short illness from pneumonia. Mr. Inman left Gladstone two years ago to make his headquarters in Minneapolis. He had a host of friends in the Upper Bay City who were deeply shocked to learn of his death.

Mr. and Mrs. Francis Racine of Ishpeming, who have been spending their honeymoon at the home of Mr. and Mrs. Peter Murray here, have returned to their home. Mrs. Racine was formerly Miss Minnie Shancy of Ishpeming.

## JACKSON TO HAVE A NEW GARAGE

John E. Jackson has leased the old Windsor hotel building, on Campbell street and remodeling work is being carried out to convert the structure into a model garage and auto machine shop. Mr. Jackson will install considerable machinery in the building and will make the place one of the best auto repair shops in the city.

## PRIZED HEN IS SOUGHT BY SLEUTHS

The champion big egg laying hen of Delta county is among the missing. W. P. Belanger was once her proud owner and but a week ago he displayed down town an egg, from the camp of his flock, that measured 8 1/4 by 6 1/2 inches. The egg was treasured highly and so was the hen that produced it. With visions of achieving fame through his hen Belanger began to look his chicken coop nights. But a tall high-waisted man with a penchant for fancy pullets learned of the reputation of the Belanger chick. And he scooped at locks and bars and armed with an axe he stole up to the home of the near famous hen some time during Thursday night. He hacked away the lock and Belanger was asleep on the job. He entered the coop and from among a roost of non-script pullets the robber picked out the prize hen and went his way. Belanger still has the egg and detectives are searching for the hen that produced it.

## BRIDE TO BE WAS GUEST AT SHOWER

Miss Anna Rudiger was the guest of honor at a miscellaneous shower given at her home Thursday evening. She was the recipient of many beautiful and useful articles. The home was prettily decorated with autumn leaves and cut flowers. Games and music furnished the principle diversion of the evening after which a delightful luncheon was served. Miss Rudiger is soon to become the bride of L. A. Kjerfve.

## SKATERS ATTEND RINK EN MASSE

The largest crowd of skaters of the season was attracted to the Peterson rink on Thursday evening when a special musical program was given by the Escanaba Military Band. A number of Gladstone skaters were present to swell the crowd and make the evening an enjoyable one for all. The rink will be open this afternoon and evening and with the same open hours for tomorrow.

## RECEIVES CHECK IN QUICK ORDER

A. D. Dupuis yesterday received a check covering a policy carried in the Brotherhood of American Yeomen on the life of Mrs. Ovid Lattenville. The check was turned over to J. A. Allo, guardian of the heirs to the estate, in an unusually short time after the death was reported.

## ALEXANDER STARTED AS INFIELDER

Grover Alexander, the pride of Nebraska fans, started in the great national game as an infielder. That was in his kid days in St. Paul, Neb., Grover's home town. Alex played with the young Saints in those days and he pastimed at second and behind the bat.

## WILL FIX LIABILITY

### SUIT IS BEGUN IN FEDERAL COURT TO SETTLE RESPONSIBILITY FOR SINKING OF LUSITANIA

(Special to The Press.) Chicago, Ill., Oct. 15.—The United States government is held responsible for the sinking of the Lusitania and the loss of 1,152 lives, 114 of them Americans, in a \$50,000 damage suit, filed today in the Federal district court, by Mrs. Sarah Lund, a survivor. Dudley Field Malone, collector of the port of New York, Captain W. T. Turner, master of the Lusitania, and the Cunard Steamship Company, are named defendants. The bill flatly charges that both soldiers and ammunition were carried on the Lusitania, although international treaty laws in the United States and Great Britain expressly forbid such passengers and freight. Germany will be released for all possible liability if the suit is successful.

## BARK RIVER MOVING UP

The first football game ever played in the village of Bark River, will be staged this afternoon when the Bark River school team will clash with the Stephenson school aggregation. Although it will be the first gridiron contest for the village, it will be staged with all of the frills of a regular college game. Miss Theresa Froehette has been elected as cheer leader for the game and last night the Bark River team staged a big demonstration for the contest to a high pitch. The lineup of the Bark River team for the game today will be as follows: H. Foyle, full back; John RLeaume, left half; Roy Bergman, right half; William Hopper, quarter; George Anderson, left end; Edward Boyle, left tackle; Carl Gustavson, left guard; Ivan Swanson, center; Wesley Tenia, right guard; E. Berouin, right tackle; Francis Boyle, right end.

## TO HOLD FUNERAL THIS MORNING

Funeral services over the body of Thomas Powers, pioneer resident of Escanaba, who passed away at Green Bay, will be conducted at St. Patrick's church, at 9 o'clock this morning. Interment will be at St. Joseph's cemetery. The body of Mr. Powers was brought to the city yesterday morning from Green Bay, and was taken to the home of his son, Thomas Powers, on Stephenson avenue, where it will remain until the hour of the funeral today.

## NO TELEGRAM RECEIVED

The evening Mirror, on Thursday, carried a report that late on Thursday afternoon Pros. Atty. H. J. Rushton, had received a telegram from the attorney general, confirming the opinion given by him to the county board, holding that the local option petitions before the local board were in legal form. The prosecuting attorney announced yesterday that he had received no supplemental telegram from the attorney general on Thursday, but it was learned that some unknown person, who represented himself to be the prosecuting attorney had telephoned to the Mirror office that such a telegram had been received. The prosecuting attorney did not receive a telegram supporting the decision given by him on the legality of the petitions to the board of supervisors and the fact that in Menominee county the attorney general yesterday gave a decision exactly contradictory to the decision given to the Delta county board, proves that no telegram as reported, was received.

ESCANABA MORNING PRESS

JAMES S. DOHERTY, President and Business Manager; JOHN P. NORTON, Secretary and Managing Editor

TERMS OF SUBSCRIPTION:

Table with subscription rates: By Carrier, Payable in Advance; By Mail, Strictly in Advance. Rates for One Year, Six Months, Three Months, and One Month.

Entered as second class matter April 4, 1909, at the post-office at Escanaba, Michigan, under the Act of March 3, 1879.

Instruct the carrier to deliver The Morning Press or order it by postal card or telephone, Bell, 693. Make complaint promptly if delivery is irregular.

Latest time of subscription payments are indicated to out-of-town subscribers on the labels of the Morning Press. To local subscribers by date indicated on their card.

The Escanaba Morning Press Co. will not stand responsible for any indebtedness incurred except on an order signed by the president of this company or by the secretary.

UNITED STATES DEPARTMENT OF AGRICULTURE

Weather Bureau

Escanaba, Mich., Oct. 16, 1915.

For Escanaba and vicinity: Saturday generally fair; moderate east and southeast winds.

Highest temperature yesterday 53 degrees.

Lowest temperature yesterday 41 degrees.

Precipitation yesterday 0 inches.

Relative humidity at even hours yesterday:

Table showing relative humidity at various times of the day (12 noon, 2 p.m., 4 p.m., 6 p.m., 8 p.m.) for the previous day.

Relative humidity one year ago yesterday 0 inches.

Men who boast that they never lose in the same game twice, forget the fact that they lost their whole roll on the first bite.

Lots of congressmen are coming out in support of national defense but it is hoped that their idea of nation defense is not the limited building of fences at home.

Escanaba had a lot more women who possessed the nerve displayed by the feminine clan when she summoned a would-be purse-snatcher, and would be accomplished toward discouraging the latter vocation in this city.

Slavs, Huns, Poles, Russians, Austrians and other foreigners, who never voted and never will vote, can be coerced into signing local option petitions but, happily, that's the only part the poor dupes can play.

When Delta county wants to give any thing to Escanaba, although the practice is not general in the best families, it is well to look the gift horse carefully in the mouth. Before Escanaba takes the county's promised gift of \$1,000, hook, line and sinker, to establish a municipal court, the fact should not be lost sight of that the county will be saving a matter of about \$800 a year. The shoe was entirely on the other foot, the county board demonstrated, when the proposal to adopt the county poor system was turned down because the county then would help Escanaba bear

the expense of supporting her poor department. Those township supervisors are war horses in the game of looking after their own interests, and that's what they're elected for. And for that reason they bear watching in every project where the city's interests are involved.

THINKS WAR MAY DISORGANIZE U.S.

Indianapolis, Oct. 15.—The United States is as unprepared for peace as it is for war, George W. Perkins of New York told the Indiana Bankers association here today. Perkins' plea was "let business be not interfere with by government." He continued: "No sane person questions that we are unprepared for war. A government permitting this unpreparedness is not a wise and prudent government. Concerning unpreparedness for peace, he said:

"The depression which, threw thousands out of work, closed factories and depressed commerce and finance at the beginning of the war and had been gathering force for several years, largely because of the construction placed upon the Sherman anti-trust law. Business men could no do big business legally. Business men are not going to risk a jail sentence just to organize a business properly. Taft's trust dissolution policy rapped the climax.

"The war, which disorganized us when it began, is apt to end as suddenly and disorganize us again, throwing thousands of men out of work. America flooded with Europe's gold, will find that Europe, to get it back, will flood us with low-priced products, thus further disorganizing us.

"It seems to me the United States should not be at work on preparedness against this industrial war which will follow the European war. Europe will not be so exhausted she cannot compete with us in manufacturers. "The way to prepare against this is for congress to appoint a permanent tariff commission to keep each item of the tariff just where it should be in the scale to meet conditions. Farmers, laborers, bankers, manufacturers, all would, favor it."

Recommends Chamberlain's Cough Remedy.

"Last winter I used a bottle of Chamberlain's Cough Remedy for bad bronchial cough. I felt its beneficial effect immediately and before had finished the bottle I was cured. never tire of recommending this remedy to my friends," writes Mrs. William Bright, Ft. Wayne, Ind. Obtainable everywhere.

Laughter.

Laughter begins either with the mouth or the eyes. Then come the other muscular groups and then come the vocal expressions of laughter, such as brays, cackles, snickers, simpers, giggles, snorts, grunts, fog-horn rumbles, yells, shrieks, guffaws, trills, chuckles, sniffls and all sorts of peculiar bird notes and musical sounds.

JAPAN MAY ENTER WESTERN FIGHT

Tokio, Oct. 15.—Bulgaria's participation in the war and advice received here from London that British opinion in some quarters at least, favors the dispatch of Japanese troops to the Balkans have suddenly reopened the question in Tokio of what Japan's future course will be.

There is a strong impression here that the return from Paris today of Baron Kikujiro Ishai, the recently appointed minister of foreign affairs and previously ambassador to France, is likely to be followed by a full consideration of the international situation with special reference to Japan's policy for the preservation of her own permanent interests.

Another factor in arousing discussion on this subject is the arrival of Hughes Le Roux, editor of the Paris Martin, who, although without official mission, comes, it is understood, with introductions from the approbatics, of M. Delcasse, the French foreign minister, to discuss military questions with prominent Japanese with a view to determining whether the latest developments justify a change in Japan's decision not to send an army to aid her allies and the likelihood of dispatching troops to the Balkan theater.

STATE OF MICHIGAN

October 9, 1915 to October 23, 1915.

THE PROBATE COURT FOR THE COUNTY OF DELTA.

In the Matter of the Estate of Aime Rochefort, Sr., deceased.

Notice is hereby given that four months from the eighth day of October A. D. 1915, have been allowed for creditors to present their claims against said deceased to said court for examination and adjustment, and that all creditors of said deceased are required to present their claims to said court, at the probate office, in the city of Escanaba in said county, on or before the eleventh day of February A. D. 1916 and that said claims will be heard by said court on Monday the fourteenth day of February A. D. 1916, at ten o'clock in the forenoon.

October 8, A. D. 1915.

JUDD YELLAND, Judge of Probate.

OUR JITNEY OFFER—This and So

DON'T MISS THIS. Cut out this slip, enclose with five cents to Fole & Co., Chicago Ill., writing your name and address clearly. You will receive in return a trial package containing Fole's Honey and Tar Compound, Fole's Coughs, colds and Croup, Fole's Kidney Pills, and Fole's Cathartic Tablets.

THE WAR

London, Oct. 15.—A dispatch to Reuter's Telegram company from Sofia dated last night (Thursday) says a royal manifesto has been issued calling upon the Bulgarian people and army to defend the national soil, "violated by a perfidious neighbor, and delivered their brethren, oppressed beneath the Serbian yoke."

The manifesto, the correspondent says, refers to the great efforts made by the king and government to preserve the peace and make both groups of belligerents realize the great injustice done to Bulgaria by the division of Macedonia.

Athens, Oct. 15.—The Bulgarian minister at noon today notified the Greek government that Bulgaria at 8 o'clock this morning declared war on Serbia, because a Serbian column had attacked the Bulgarians near Kostendil (southwest Bulgaria,) killing seventy men and wounding five hundred.

Advices received in diplomatic circles here are that German skilled workmen have arrived at Varna, Bulgaria's chief Black sea port, from Constantinople, to assemble submarines which have been sent there in sections.

London, Oct. 16.—Sir Edward Grey the British foreign secretary, made a long statement in the house of commons today on the situation in the Balkans, but as he dealt with the diplomatic side of the question he added little to the knowledge of the public and failed to satisfy curiosity as to the progress of the Anglo-French expedition landed at Saloniki. "He did say, however, that Russian troops would co-operate, "as soon as they were available."

The French premier, M. Viviani, had more cheering news for the allied countries, when, in the French senate, he expressed the belief that "the allies can count on Italian co-operation in the Balkans."

There is naturally much speculation as to how Italian and Russian assistance will be afforded. Italy has a large number of troops available and the means of moving them to the desired spot, but Russia is handicapped in this respect and there is an inclination here to believe a report from Rome that Petrograd has asked Rumania to allow Russian troops to pass through her territory on the way to Bulgaria.

To grant such a request would be construed by Germany as tantamount to a definite alliance with the entente powers and would doubtless result in the Austro-German troops attacking Rumania.

This, it is thought, might happen anyway, as Germany has already refused her displeasure at Rumania's refusal to allow munitions to pass through to Turkey, and now it is reported that Germany has suspended the postal service and is holding up all foodstuffs consigned to Rumania over German railways until Bucharest more clearly defines its attitude toward the central powers.

These diplomatic questions are not delaying the military operations. The Austro-German and Bulgaria attacks on Serbia are proceeding apace. They are however, meeting with stern resistance and, although under constant attack since Oct. 5, the Serbians are giving ground only foot by foot. The extent of the Bulgarian invasion up to the present, according to a dispatch from Nish, consists of an advance over the frontier at one point of a mile. With this exception, says the report, the fighting line remains intact and the railways have not yet been reached.

It is reported also that the allies have begun an offensive in the Dardanelles to keep the Turks busy.

The Austro-German army which is invading Serbia, has captured the fortified works to the west, northeast and southeast of Pozarevac. Announcement to this effect was made today by the Berlin war office. Bulgaria has in stock only 1,350 shells for each gun, according to information from mSerbian sources, says an Athens dispatch, and it is essential for its troops to effect a junction within a fortnight with the Austro-Germans who have invaded Serbia.

King Nicholas of Montenegro is quoted by the Paris Petit Parisien as having declared to its Cetinje correspondent: "We are fighting in the enemy's territory; we are ready and we fear nothing."

In response to a request for a definition of the attitude of Greece, King Constantine today made the following statement to the Associated Press at Athens:

"Greece is merely loosening her sword in its scabbard. She menaces no one. But she cannot permit that events shall constitute a menace to the integrity of the nation or the freedom of the Greek people.

"It is my duty to preserve my country from the danger of destruction through becoming involved in the general European conflict. I hope to do this at all hazards—if it is possible."

URGES FAMILY ALBUM OF FINGER-PRINTS.

Chicago, Oct. 15.—"Every family," said Frank V. Martinec, finger-print expert of the boys' court and morals court, "ought to have a finger-print album as a positive means of identification of relatives. In many cases where property is involved the finger-prints might solve the whole problem.

"In cases like the Eastland disaster" he added, "identification of bodies would be much easier if the family in every city kept the finger prints. Finger prints in every family means no nameless tombstones."

ENGLAND FACES BIG WAR TAXES

London, Oct. 15.—The secrets of the new budget are out and the general opinion is that it is fair and reaches the pockets of those best able to pay as well as those who have hitherto not been directly affected. In the latter category are to be found the small-wage earners who will now pay their cent or two through the increased income by reason of overtime on war contracts and the small farmer who will be brought into line with other business people regarding income tax.

There has already been the usual outcry from certain trades hit or likely to be hit by the new taxes and several deputations are likely to keep the Chancellor of the Exchequer busy with their complaints for a time. The abolition of half-penny postage caused considerable dismay in the picture postcard trade and newspapers and publishers are also up in arms at the prospects of double postage bills for daily and weekly papers as well as periodicals and magazines.

In the tea trade it is expected that consumption will be on a rather smaller scale and already the quality in tea shops is said to be reduced. The sugar tax caused a great outcry from consumers in the suburbs and provinces, as retailer put up the price immediately the budget tax "was announced and many and bitter were the remarks fired at unfortunate managers of various retail stores. One of the surprises is the tax on hats which will affect principally ladies' millinery imported from Paris, men's hats being made up almost wholly from materials imported.

The tax on petrol is likely to decrease the earning capacity of taxicabs whose fares are regulated by the Home Office, and may cause a revision in fares of the various motor-bus companies.

As far as the Stock Exchange is concerned gratitude was expressed that the increase was not greater, but it is at the same time recognized that investment business which, is at a low ebb at present will probably decrease, especially in those commercial undertakings which were bought in anticipation of increased dividends but which will not be subjected to special war tax on profits.

TO MAKE POWDER OF PINE STUMPS

Cadillac, Mich., Oct. 15.—The war in Europe may result in the clearing up of thousands of acres of cutover pine land in northern Michigan. This section is rich in pine stumps, which are rich in chemicals used in the manufacture of explosives.

The Du Pont Powder Co. recently purchased thousand of acres of land in Crawford and adjoining counties from the David Ward estate and from Rasmus Hanson and other lumbermen who owned cutover lands with Norwegian pine stumps on them.

Today strangers are superintending the building of a large powder factory about a mile from Graylin and are directing the operations of crews of carpenters who are rapidly building houses for men who will be employed in the powder plant, and more pretentious houses for factory superintendents.

It will not be long before there will be a thriving city near Graylin. Already the new town has been provided with branches of the Michigan Central and Manistee & Northwestern railroads.

URGES FAMILY ALBUM OF FINGER-PRINTS.

Chicago, Oct. 15.—"Every family," said Frank V. Martinec, finger-print expert of the boys' court and morals court, "ought to have a finger-print album as a positive means of identification of relatives. In many cases where property is involved the finger-prints might solve the whole problem.

"In cases like the Eastland disaster" he added, "identification of bodies would be much easier if the family in every city kept the finger prints. Finger prints in every family means no nameless tombstones."

MAKE SCHEME FOR POLITICIAN

Washington, Oct. 16.—Secretary of Commerce Redfield has intimated his intention of suggesting to congress in his annual report this winter the creation of a federal shipping board. Mr. Redfield will urge clothing this board with jurisdiction over the merchant marine similar to that exercised by the interstate commerce commission over railroads.

Secretary of the Treasury McAdoo, who is going to deliver in Indianapolis Wednesday a political speech, regarded as the first of a long series by various cabinet officials and other leading Democrats preliminary to the renomination of Woodrow Wilson, will second the Redfield suggestion, and will discuss and argue in favor of the creation of a federal shipping board.

There is a deeper political significance to this perfect obviously preconceived action than appears on the surface. Nor is Mr. McAdoo's bulldog tenacity in clinging to the ship purchase scheme altogether, ascribable to the "never-say-die" spirit of a man who refuses to recognize a licking.

A large number of Democrats realize that the president's handling of international matters—successful as he has been in that respect—are not going to constitute sufficient grounds for his re-election. These Democrats take the same view that was expressed last summer by Representative Patrick H. Kelley, of Michigan, when he declared all Americans, regardless of party, are behind the president in foreign matters—and then the Michigan Republican added: "We reserve the right to hold Lim accountable for his conduct of domestic affairs."

The lieutenants of the president are endeavoring to establish some domestic grounds for his re-election. They see in the tariff law, in the ruination of the domestic sugar industry, in the treasury deficit, in the deficiency revenue tax, in the interminable number of costly yet useless and ineffectual "investigations" and in the passage of such pieces of class legislation as the seaman's law very serious reason for the dismissal of the Wilson administration. And they know perfectly well that the attention of the public will be called to all these things when the campaign gets started.

So the effort is to win for the administration the nation's thanks for having done something of a domestic nature. The most spectacular thing possible right now would be to create a merchant marine. Sentimentally, commercially and every other way no other thing could so thoroughly arouse the American people as the establish-

ment of a real, genuine, thorough-going merchant marine under the Stars and Stripes. With South American commerce ripe and ships the only thing lacking, with the Orient ready and waiting with Europe for once on her knees and unable to smother the attempt there is certainly every conceivable argument in favor of the creation of an American merchant marine.

President Wilson knows this, so do Secretaries McAdoo and Redfield and all the rest of the secretaries. And they knew perfectly well, too, that a merchant marine under the American flag on the high seas.

## STAGG'S DAUGHTER IS LATEST ADDITION

Chicago, Oct. 15.—A new member has been added to the University of Chicago coaching staff. Miss Ruth Stagg, 10-year-old daughter of Coach A. Stagg, responded to the call and will be seen each afternoon on the field with the Maroon football candidates. That Miss Stagg will be of service to her father in developing the team was shown yesterday when she showed close behind the players and checked each athlete who shirked his prescribed task.

Now Denton, you go back and run a more lap," said Coachess Stagg. Denton Sparks, the stock end, had to cut short a lap from the pre-ferred half-mile at the end of a long and tiring drill.

Craig Redmond, a prospective center, who has reduced his weight to 250 pounds found the wind sprints a little fatiguing. Miss Stagg gave him encouragement, and after that, a giant guard raced up and down the field with the halfbacks.

### BYARD BOY OF 19 AN ASSISTANT PROFESSOR.

Cambridge, Mass., Oct. 15.—Nobert, 19 years old, has been appointed an assistant professor of zoology at Harvard college. At 13 Wiener received the degree of bachelor of arts from Tufts college. was awarded the degree of doctor of philosophy at Harvard in 1913. For the last two years he has been a travelling fellow of Harvard Cambridge university, England.

## URGES BREWERS TO CHECK EVILS

Springfield, Mass., Oct. 15.—Addressing the United States Brewers' association, whose members are set to produce over 75 per cent of the malt liquors in the United States, President Edward A. Schmidt declared that the brewers, as well as outside reformers, were striving to correct the evils of the saloon, and intimated that some radical reforms might be expected.

"For many years the educational work of our association was hampered by the lack of a constructive policy, which, however, was impossible until practically all our own people had reached the point of conviction in regard to the necessity of saloon reform and of rigid law observance.

"We have at last come to a fairly general agreement as to what constitutes a good licensing system, and have established in our own minds, certain definite principles which should govern the conduct of the retail trade.

"The co-operative committee, representing the national organizations of the brewers, the wholesalers and the retailers, have agreed that licenses should be issued in response to a normal demand for them, and that the artificial stimulation of business by any branch of the trade is undesirable. The committee also advocates the absolute suppression of any connection of any licensed premises with any disorderly house or gambling establishment, and urges the trade to refuse to sell to 'seap-easies,' or other illicit vendors.

"Perhaps the most important and far-reaching suggestion made by the co-operative committee is that the trade should encourage the establishment of public family resorts in which all kinds of refreshments shall be dispensed, and in which the sales of alcoholic beverages shall be no more emphasized than any other beverages.

"I appeal to you to have it your personal business to see that such reforms are undertaken and carried out, and to accept willingly your own share in the loss that these reforms may, and will necessarily involve—temporary though they may be—both because in the long run they will inure to your benefit, and most of all because they are putting the industry on all four with the welfare of the community."

The trustees' report protested the war tax on beer—the total tax on beer is now \$1.50 a barrel—and suggested that the government might look to manufacturers who are making fortunes out of munitions for more revenue.

"The brewing industry would bear these enormous burdens with more grace," says the report, "if they were accompanied by any reasonable assurance of stability in the beer trade—or if the government showed any disposition to compensate those men whose property is ruined by the enactment of prohibition. The brewers are not only burdened with enormous taxation, but they are called upon to expend a large amount of money and energy in the defense of their business, upon which the government leans so heavily for its maintenance and support."

The report stated that the annual liquor tax amounts to nearly half the federal revenue, and asked where the revenue would be made up in event of national prohibition.

## M'INNIS NEVER HAD SUCH A GOOD TIME

Boston, Mass., Oct. 15.—Stuffy McInnis, who is about the only good ball-player in the Athletic team, discussing the playing of the Athletics during the season just closed, said:

"It was the best year I ever had. I mean that I never had so much fun. When Collins and Baker and Murphy and Bender and Plank and Coombs were with us, it wasn't any sport. All we could do was feel sorry for the other team. Now I suppose I ought to feel sorry for my own team, but we're so bad I can't do anything but laugh. If you could have seen us day in and day out this season, you would have wondered why we happened to pick out baseball as a profession.

"I was lucky in not having much to do. The only people that got to first base were the ones that walked. The rest of them never hesitated at my station."

## People You Know; Things You Don't

H. B. Campbell, sales and advertising manager for the A. J. Kirstin Co., has returned from a business trip to Chicago and Milwaukee.

Miss Lorraine G. Hall, formerly of Penobscot, Maine, has joined the stenographic department of the A. J. Kirstin Co., manufacturers of the Kirstin One Man Stump Puller, of this city. Miss Hall is the daughter of Mr. A. H. Hall, superintendent of the Tooth-pleck department of the Escanaba Manufacturing Co., and who is in charge of installing the plant. Miss Hall was formerly private secretary to Professor J. O. Newton, of Maine Wesleyan Seminary and Woman's College, Kent's Hill, Maine, and her success with the local company is assured.

## CLOVERLAND WEEK FIXED

Members of the Menominee county board of supervisors have passed resolutions designating the week of Oct. 24 as "Cloverland Week." That period is to be set apart by the people of Menominee county in generally boosting their home county and Cloverland.

The resolutions, adopted by the supervisors of that county follow:

Whereas, United efforts are now being made by the local citizens of Cloverland along every line looking towards the active co-operation of all the people in the work of the Upper Peninsula Development Bureau, and

WHEREAS, Every good word spoken for the country wherein we live is an inspiration to the speaker and the listener as well, and,

WHEREAS, The County Board of Supervisors of Menominee County believes in interesting all the people in the upbuilding of Cloverland.

THEREFORE, BE IT RESOLVED, That the County Board of Supervisors of Menominee County nominates the week beginning October 24, 1915, as "Cloverland Week," and urges the citizens, the school children, the newspapers, the pulpit, the merchants, and all the people to devote what time they can during that week to speaking friendly words about their own county and to discuss together the best ways and means for making a good cuntry better. We urge the school teachers to speak especially of patriotism to their pupils, the clergy to preach a sermon on citizenship, and the newspapers to take up the good work in their columns. We specially suggest to all the merchants that in whatever advertising matter they use during "Cloverland Week" the following sentence be incorporated:

"We live in Cloverland, What helps one, helps us all."

THIS IS YOUR OPPORTUNITY

Our 12th Annual Sale of Summer Resort Pianos and Player-Pianos To

Continue This Week

Instruments late in reaching us are just now coming from our Regulating and Tuning Department.

TELLS OF GREAT BRITAIN'S BURDEN

Washington, Oct. 15.--In a note forwarded by Ambassador Gerard today Germany denies that American passports have been forged and stolen in use by German spies.

He was informed by the forest office that when the Germans captured Antwerp they found a plant the which had been used by the Belgians for making foreign passports.

The German government further more informed Mr. Gerard that it did not believe Rosenthal and the other Germans executed as spies led American passports when captured.

Charge is alleged to be a British lie, if the spies made the statements quoted, it says they were false, and made simply to save the men's necks.

You make no mistake when you get your job printing at the Morning Press. Nothing but first class work.

DAILY LETTER
The markets were inclined to be reactionary again today. The coppers sold off fractionally on the statement that a prominent selling agency had reduced asking price from 18 1/4 cents per pound to 18. Some of the war stocks were again higher.

also active at advancing prices during the first hour. American Smelter advanced over three points to 95. While there was quite a little buying in Greene, it did not advance in sympathy.

There was great excitement in the wheat pit today. Wheat opening at an advance of two cents to a bushel on the rumors that there is a possibility of the Allies abandoning campaign against the Dardanelles.

POST-SERIES GAMES MAY NOT BE PLAYED. Philadelphia, Pa., Oct. 15.--The proposed post series games between the Phillies and the Red Sox may not be held in San Francisco unless more satisfactory arrangement can be made.

GOETHALS CANT SET THE DATE

Washington, Oct. 15.--A detailed account of the landslides which have caused the Panama canal to be closed indefinitely was made to the war department today by Maj. General Goethals. The dispatch said: "Mass of material involved in the break of October 14, 1914, which had been sliding gradually into prism, moved precipitately. This, combined with a similar movement from the break which occurred just opposite on the west bank of August causes present conditions."

Washington, Oct. 15.--In a note forwarded by Ambassador Gerard today Germany denies that American passports have been forged and stolen in use by German spies.

**U.S. NAVY OFFICER  
DESIGNS FAST SHIP**

Washington, Oct. 15.—A new American type of battleship—heavily armored, but the fastest in the world will be the feature of the forthcoming naval building program.

The new craft, designed by Naval Constructor D. W. Taylor, a rear admiral of the United States navy will be a combination battle and scout cruiser with a maximum speed of 35 knots, seven knots more than the latest ship in the British navy. If a speed of 35 knots be realized the American navy will possess vessels capable of steaming more than 40 miles an hour.

Naval experts regard this combination battle-scout cruiser as the type of fighting craft that will meet most satisfactory the demands of sea warfare as it is developing today. To hit heavily and run fast sum up these demands.

The vessel will carry guns as large as the largest on dreadnaughts, but fewer of them. It will be armored like a dreadnaught, but not so heavy. The Taylor design also includes special construction for resisting torpedo attacks, the exact character of which is being held a secret by the navy department.

The new dreadnaughts and the battle-scout cruisers will cost about \$18,000,000 each compared with 15,000,000 for each of the battleships authorized by congress last year. Secretary Daniels explained that the demand for war materials abroad has sent skyward the cost of armor and other steel guns and all the other elements of war ship construction.

**LEADERS DECLARE  
WAR WON'T LAST**

San Francisco, Oct. 15.—Count Okuma, Japanese premier, and Dr. Nig Poon Chew, a Chinese editor of San Francisco, told delegates to the International Peace congress today that world peace was yet a fantasy and will be until the militaristic order of things is changed.

In a message to the congress, Count Okuma said there was no hope for peace so long as there exist nations and individuals who believe or exalt themselves as absolutely superior to others, and to assert their superiority do not hesitate to appeal to material force.

On the floor of the congress tonight Dr. Nig Poon Chew added to Count Okuma's statement.

"There will be wars and more wars just so long as there are two codes of laws and two standards of morality, one governing nations, the other individuals," he said.

War, the doctor said, was going to keep right on in one place or another. Even China was preparing. He blamed western militarism, which he said had not only parcelled China, but had destroyed her ideals of peace, and he called Japan the disturber of peace of the Orient.

"If the United States were as unprepared it would fare no better than China at the hands of the world powers," he said. "China has learned her bitter lesson, and now is proceeding to abandon its concept that justice is the foundation of the state and to take up the practice of brute force."

"Japan is the disturber of the peace in the Orient. She is essentially a military nation, and she has in herself the perfect compilation of the militarism of Germany and the navyism of England. Her ambition is boundless."

"With such neighbors what must China do but prepare for defense?"

**JUDGE LINDSEY STRIKES  
ATTORNEY; COURT PUTS  
HIM UNDER DETENTION.**

Denver, Colo., Oct. 15.—Ben B. Lindsey, judge of the juvenile court, was ordered under detention in the district court when he struck Attorney Sullivan, who had made a statement when Lindsey contradicted with a short, emphatic term. The personal encounter occurred in District Judge Wright's court, where Frank Rose was on trial for alleged conspiracy to ruin Judge Lindsey.

**NOTICE**

**SLAVS EXPECTED  
SIX MONTHS WAR**

London, Oct. 15.—The enormous drain on Russia's supply of men and the financial strain upon the country are emphasized by the Times' Russian correspondent in a review of the situation in the east, Russia, he says, never expected the war to last longer than six months. She had sufficient money, an abundance of shells and a superfluity of men for such a war, but was not prepared for so prolonged and strenuous a struggle.

"She strove hard," the correspondent declares, "to meet the demands for ammunition, but she possesses neither the industrial background, the skilled hands nor the industrial mobility to support her army adequately. She

must depend on outside help and has to buy from Japan, the United States or elsewhere. Thus the problem becomes largely financial.

"It should be remembered that the Russian ruble has depreciated 40 per cent; that Russia raises nothing by the sale of spirits and scarcely anything by her tariff on imports and she also has greater difficulty in borrowing in America.

"For the time being she continues to hold her own. Soldiers' wages and army bills are paid with admirable punctuality and there is a feeling that all supplies will be obtained easily if once the Dardanelles are taken. But those who know the true inwardness of the situation know how much financial difficulty stands in the way of Russian making up lost ground and entering again upon a vigorous offensive."

"Taking up Russia's enormous losses in men, the correspondent says they undoubtedly are much greater than generally supposed. No lists are published of losses in the ranks and

it is difficult to gauge the extent of daily casualties.

"There was dreadful carnage in the Russo-Japanese war," the writer declares, "but everything in this war has been on a scale five times as large. Enormous numbers of young men who never expected to serve, and whose parents believed they were immune, now are being trained. The act of calling them out synchronized with Emperor Nicholas' assumption of command and was in a way a further example of Russia's whole-heartedness and determination to cast everything on the altar of the nation."

**HOW TO BE EFFICIENT.**

Nothing taps the vitality like kidney trouble. It causes backache, headache, stiff joints, sore muscles, "all ways tired" feeling, rheumatism and other ills. To be efficient, you must be healthy. Foley Kidney Pills strengthen the kidneys, help them do their work of filtering out from the system the waste matter that causes the trouble. Sold everywhere.

**DEMOCRATES TO  
ENACT NEW LAW**

Washington, Oct. 15.—The Chamber of Commerce of the United States sounded a call to the business interests of the country to unite in a demand for the following administrative reforms:

Non-partisan tariff commission, to take the tariff out of politics.

The inauguration of a federal budget system.

Democratic administration is workman to provide tariff protection for American industries without a wholesale revision upward of the rates in the Underwood law.

Democratic leaders propose that the amendment of the law be confined to a suspension of the free listing of su-

gar and anti-dumping legislation.

The anti-dumping plan is a provision that additional high rates of duty may be imposed by the customs officials upon products with which foreign manufacturers attempt to flood the United States, like dyestuff, etc.

To promote the propaganda for a permanent tariff commission John H. Fahey, president of the national Chamber of Commerce, will appoint a committee of business men representing all sections of the country.

"I am confident," said President Fahey, "that with the many changes taking place as a result of the war the time has surely come when we should take the tariff out of politics so far as it is possible to do so."

Depraved Germs.  
Federal health experts have decided that the feather bed is insanitary. A germ which wouldn't go to sleep and be perfectly harmless in a feather bed incarnates total depravity.

**"Betty Wales" Senior**  
Made of Marine Blue French Serge. A left line effect with four pockets. Has a white collar over the serge, collar finished with an attractive Windsor tie; desirable for any size. Ask for the "Betty Wales" Senior, a high school Misses' gown, on sale today at **\$16.50**

Two perfect dresses for college, school or convent wear. We frequently have calls for a sorority uniform and feel that either of the two "Betty Wales" dresses would be splendid for that purpose. We have been doing a phenomenal business this week in these serge dresses. It doesn't take more than a glance to convince anyone of their wonderful cheapness.

**And Here Is "Betty Wales" Big Secret**

In a big brown envelope sealed with a big gold seal is an invitation from "Betty Wales" to each wearer of a "Betty Wales" dress, to join her in some of her new adventures, without any expense at all. This secret is very interesting. Don't you want to know it? We are very proud of the continuous admiration which is being shown for the "smart" dresses that we are presenting this fall.

**FINE WEAVE  
KNIT UNDERWEAR**

DR. HOLM SAYS POLITICS RAMPANT

Dr. M. L. Holm, state bacteriologist, who was in this city during Escanaba's Good Health Week and who recently resigned his state position because of the political activity of the State health board, has written to a peninsula friend concerning the incident. Writing from Lansing, Dr. Holm says:

"It was with extreme regret that I found it necessary to discontinue my work as bacteriologist and I would have enjoyed nothing more, than to have conducted my work in the beautiful city of Houghton. My reason for retiring, however, was not a financial one and I repeat that my resignation was due to political influences. In my letter to Dr. Abrams, I stated I had decided to resign 'Owing to the antagonism of the present political administration.'"

"I am not accusing Dr. Abrams, however, of playing politics. I believe Dr. Abrams and a majority of the members of the state board of health are endeavoring to support efficiency and scientific principles but in spite of their efforts they have failed to prevent the injection of pernicious political principles by the office at Lansing and recognize the Lansing office as the head to which all divisions are subordinate. If any member would deny political influences on the board let him explain why their various actions of May 29, 1915, were subsequently reversed or postponed, etc."

"I have every respect for the honorable members of the state board of health but I have never considered myself nor any of their employes above the influence of political antagonism. Their present secretary for some time has endeavored to secure my discharge and I am reliably informed that he has secured the support of the governor in his effort."

"Dr. Abrams and the other members of the board have assured me their protection and support but this has in no way prevented the public and private abuse to which I have been subjected by their secretary and inasmuch as an employe cannot gracefully defend himself against public accusations by an employer I tendered my resignation that I might be free to protect my honor and to avoid the discharge that was threatened."

BOOKS WHICH WILL INTEREST WOMEN

All wide-awake women—and men—have some interest, pro or con, in the great feminist movement which is sweeping around the world. Women who heard Mrs. Roberts lecture before the Escanaba Woman's Club this week will be especially interested in the books reviewed here—some of which, Mrs. Roberts recommended and others along the same line. These books may be borrowed from the Public Library.

Woman and Labor, by Olive Schreiner.

Those who believe that the woman movement is a passing fad, and has no firm foundation in the economic facts of our time will go well to read this eloquent plea. Mrs. Schreiner's three-chapter study on "Parasitism," wherein she pictures the condition in which woman is being pushed by modern industrial changes, is particularly forceful, and well worth the attention of all men and women. She points out the fact that the great unrest of women is due to an un-sound basis of life; that the condition of parasitism which they face must be remedied. Probably there is no other living woman writer who has Mrs. Schreiner's ability to present a point of view with resistless logic touched with emotion that has an appeal deeper than the intellect. One is never entirely released from the force with which she grips the attention.

The Home; its Work and Influence, by Charlotte Perkins Gilman.

Mrs. Gilman says that the human race has refused to see that the home has become better, along with other institutions, and that there is still vast room for improvement—largely due to a blind reverence which, in spite of knowledge to the contrary, makes it appear already perfect. "Our present home is injured by the rigidly enforced maintenance of long-outgrown conditions. 'We may free ourselves, if we will, from one of those injurious, old conditions, and still retain all that is good and beautiful and right in the home.'" Mrs. Gilman thinks somewhat ahead of her time, and for this reason, many men and women will not care with her; but no matter how much they dislike some of her ideas, they will be interested and stimulated, and if they are open-minded, will receive much food for thought. This book should be placed in the hands of every parent in the country.

Women of Tomorrow, by William Hard. Mr. Hard's style is humorous and vivacious, making this ever-present theme interesting and entertaining.

are a strong combination and are hard to get through.

Parasite was not out to practice last night, as the weather seemed too threatening for him. A number of the other players did not appear.

Tickets have been issued for the game next Saturday and it is expected that they will soon be grabbed up. By defeating this team the road is then opened for the Soo to go after Marquette which claims the U. P. championship. If the Soo fails to clean up on Escanaba they are practically eliminated from the race. Escanaba has been heard from and she has decided definitely that she will come to the Soo next Saturday with fifteen men.

HINTS FOR HOUSEWIVES

(Continued from page one.)

serve some of them very prettily decorated with tin on the edge. Remember if they weigh these in, they are selling you the tin and the wood at the price of butter. Don't order a "pail of lard," "thirty cents worth of 'Potatoes,' a forty-cent steak," a piece of bacon." Don't hesitate to notify the department if you are not getting your honest weight.

Do not, however, be too ready to condemn the merchant. The honest merchant in your town is in the majority.

An example: Shortage, 1 oz., commodity, 1 lb. butter; price, 30c; weekly sales, 500 lbs.; yearly illegal profit, \$500.00.

Shortage, 2 oz.; commodity, 100 lb. grain; price, \$1.75; weekly sales, 2 car loads; yearly illegal profit, \$2700.

Shortage, 10 oz.; commodity, 5 lb. pull lard; price 75c; weekly sales, 500 pounds; yearly illegal profit, \$2700.00.

This does not mean that shortages are confined to the commodities mentioned. Apply the test to everything you buy.
