BRITISH GAIN 3 MILES

SOMME RIVER SEVEN MILES BEHIND THEM

LaFere and St. Quentin Now Within Range of Allied Artillery—Yanks Forge Ahead.

HUN DEFENSE STIFFENS

BULLETIN London, Sept. 6.—South of Peronne, the British now stand seven miles east of the Somme, General Haig announces in his night bulletin. Numerous prisoners were taken by the British in the day's fighting.

London, Sept. 6.—St. Quentin, the southern keypoint of the Hindenburg defensive line facing the British, is eminently menaced as a result of the all day fighting carried on by the British who gained between two and three miles on a 12 mile front to a point seven miles east of the Somme. Monchy-Logaches, Vraignes and Pincourt-Bonely, villages in the vicinity of St. Quentin have been captured. At the same time the British northeast of Peronne forced two and three miles on a wide front. Capelle, the Hindenburg bulwark, (between LaFere, Combaux and St. Quentin) as well as Equasacourt, Nuis Longueones and Liermont, are in the hands of the British.

Except for a straight front between Havrincourt and the Scharpe, the British are everywhere across the Somme and the canal du Nord. In Flanders, Armentieres is almost within the grasp of the British-American-French army advancing eastward.

GERMANS CONTINUE RETREAT

London, Sept. 6.—Along the whole 140 mile front from Ypres to west of Rheims, the Germans continue to retreat tonight, except for certain spots near the center of the line where they are already in the very forefront of the main Hindenburg defense line. Here the Teutons have rallied somewhat and have thrown still counter thrusts in front of the allied armies, but to no avail.

The American advance has reached between four and seven miles, since the Alsne retreat of the enemy began in the angle of the river east of Soissons, the Americans have reached the Alsne along a wide stretch. In the north, the French drive towards LaFere has almost surrounded Chauny seven miles southwest of LaFere, while further north they have driven to a point within three miles of Ham, the most important city in German hands west of the Hindenburg defense line. Towards St. Quentin on the British right and the French left, there have been important allied gains and each hour brings the entente fighters nearer Douai.

In Flanders the British and Americans have followed up their gains of yesterday and have taken Neuve-Chapelle, the famous battleground where the Canadians and Australians won undying fame early in the war.

WILL SOON BE UNDER ALLIED FIRE

LaFere and Loan on the last line where the Germans can stand before they retire to the Belgium fortresses, will be under French fire as soon as the heavy guns can be placed on the dominating positions the Pollus have won in the past 24 hours.

The British, in their advance towards St. Quentin on the St. Quentin-Peronne line, have gone nearly 12 miles on a 12 mile front since Sept. 1.

ENEMY DESTROYING AS HE RETREATS

In all sectors where the German retreat is in progress, aerial observers state that the Teutons are burning and destroying everything that cannot be taken with them.

Mr. and Mrs. J. Dessero received word yesterday that their son James submitted to an operation at Camp Custer yesterday.

First Mail Carrier In Air Makes Landing

Chicago, Sept. 6.—Max Miller, the first New York to Chicago aerial mail carrier landed here today with a bag of mail supposed to contain 40,000 letters. The landing was made in Grant park where the war exposition was in progress and was witnessed by a crowd of several thousand people. They cheered the flyer enthusiastically and later a formal reception for him was held, arranged by Capt. Lipsner, in charge of military activities at the exposition.

TRANSPORT TORPEDOED; NONE LOST

St. Vernon Was Formerly German Ship; Was Returning from France—Able to Make Port.

DETAILS ARE MEAGRE

Washington, Sept. 6.—The United States ship Mount Vernon, an army transport, formerly the German liner "Kronprinzin Cecilie," was torpedoed by a German submarine 200 miles at sea from the French coast, the navy department learned tonight.

The Mount Vernon was homeward bound and was able to return to port at fair speed. No report has been received as to casualties but it is inferred that the first statement would have mentioned them if there were any.

An official in the navy department stated tonight that details of the clash are still lacking but it is improbable that there was loss of life.

than 20 divisions which are all that he has not used in the fighting of the past two weeks.

The Canal du Nord can no longer be figured as a possible chance for him to hold short of the St. Quentin-LaFere line is at the Chemin des Dames in the region of the Gohain-Massart canal.

The dwindling of the German man-strength is plainly shown by the frequent orders for shortening the period of rest for the troops that have been in the front line trenches and the throwing of recruits who ordinarily would be getting their final training, into the fray.

Lens is now no-man's-land so it cannot be considered a part of the defense line.

GERMANS DECIDE NOT TO BOTHER YANKS

With the American Forces Approaching the Alsne, Sept. 6.—German aviation, which was out in great force yesterday has disappeared almost entirely today. It is believed that the air squadrons have decided that the Yankees are not to be disturbed with any sort of a degree of safety and have moved to some other sector.

Our air-observers report that eleven bridges in the Alsne sector have been destroyed by American artillery fire and that the shelling has been so persistent that the enemy has had no chance to repair them.

There has been little activity by the German transports today except in the regions of Maisy and Romaine, especially in the vicinity of the latter where it takes longer to extricate material because of the lack of good roads. It is believed that the enemy is moving everything north of Chemin des Dames.

ENEMY DESTROYING AS HE RETREATS

CUBS TRIM BOSTON IN SECOND ONE

Tyler Pitches Great Game and Beats Red Sox 3 to 1 at Chicago Yesterday Honors Even.

IS ANYBODY'S TITLE

Chicago, Sept. 6.—Vastly more baseball was injected into the second game of the world's series today. The Cubs exhibited some of it in their bats, hands and feet and trimmed the Red Sox 3 to 1. One round—the second—upset Bullet Joe Bush. Three tallies were counted on four hits and one pass. But if Bullet Joe suffered shell shock it was not apparent in the subsequent rounds. He pitched great ball the rest of the session. Only in the fourth and sixth frames was he threatened.

Tyler a Tightwad

Tyler was a tightwad all right. But four singles were secured by the Boston contenders until the ninth when for no reason at all, Strunk and White man got triples in speedy succession. It was a two-base hit by Killifer that upset Joe and Killifer is thereby proclaimed a hero. No wonder he smote a two-bagger. He had just had his eye cleaned-out by Doc Merkle.

In the first inning McInnis bunted down the first base line. Killifer was among the nine Chicago players who chased the ball. Some unknown party grabbed a handful of dust and threw it—or otherwise put it—in Killifer's left lamp. Several of the athletes tried to take the stuff out. Merkle borrowed a handkerchief, prepared a corner of it as he would a ball to deliver a splitter and the dust yielded without any trouble whatever. He held the clinic at the plate so that all might see and his noble and heroic deed was the occasion of much applause.

A Rough House

Knabe who was coaching at third and Wagner, official Barker for the Cubs, staged a first class hand-to-hand scrimmage which brought members of both teams running to the cave under the grandstand from all parts of no-man's land. The umpires assumed a "let 'em scrape" attitude. Had not Cub patrols separated them, the battle had promise and created considerable interest. While no decision was rendered, the general press verdict was that Wagner won on points.

Following are the usual statistics:

Table with columns for Chicago and Boston, and rows for players like Flack, Mann, Paskert, etc., with statistics for AB, R, H, PO, A, E.

Summary

Sacrifice hits, Scott, Deal. Two base hit, Killifer. Three base hits, Hollocher, Strunk, Whitman. Double plays, Killifer to Hollocher, Hollocher to Pick to Merkle. Bases on balls, off Tyler, 3; off Bush, 3. Struck out by Tyler, 1. Umpires—At the plate Hildebrand, on first, Klem; on second, Owens; at third, O'Day. Attendance—\$0,000.

Sheriff Iverson Issues A Reply

TO THE EDITOR: With reference to the publication of the name of Dr. F. X. Barth I wish to make the following statement: I reported his name to the Fuel Committee, along with a number of other cars which had been in operation last Sunday. The information that Dr. Barth's car had been in use Sunday was furnished me by Deputy Otto Scheriff, who came to me voluntarily Monday morning and stated that he saw Father Barth in his car with three other priests on the Ford River Road Sunday. Believing that I could safely rely on his statement, I turned in the name with the others. Today Mr. Scheriff states that he cannot recollect seeing Father Barth in his car Sunday, and as so that he does not know what the car looks like; and that as he remembers it some one else told him of the use of the car; and he reported it to me in that way. ANDREW IVERSON, Sheriff.

Gladstone Man Gets Out Of Pan Into A Hot Fire

Things happened fast to Victor Mattson, of Gladstone, formerly of this city this week. He was arrested early in the week charged with taking \$55 from an aged Gladstone resident. He settled the charge by returning the stolen money and paying the costs.

In the investigation that intervened it developed that he had made a false affidavit in filling out his questionnaire. In his affidavit he alleged that he was a married man with dependents. The investigation proved that while he was living with a woman, who signed the affidavit as his wife, he was not married to her. Yesterday he appeared at the court house and to escape the lodging of a serious charge against him, waived all claims for exemption and will go to Camp Custer with the next contingent on Wednesday.

Haymarket Anarchist Widow May Be Guilty

Chicago, Sept. 6.—District Attorney Maclay Hoyne stated tonight that the persons responsible for the explosion in the Federal building, which killed three and injured 30, had been taken into custody. The plunger of the bomb has been positively identified he said. The three persons arrested were: Harry Wilson, on whom papers were found connecting him with the I. W. W.; Nina Bazant Spies, widow of August Spies hanged for his part in the Haymarket riots and Mike Gucciaro, acknowledged friend of Wilson.

Teuton Prisoners Are Dead From Typhoid

Washington, Sept. 6.—Eighteen German prisoners at Hot Springs, N. C., have died from typhoid fever in an epidemic of 177 cases, the war department announced late today. All prisoners have been transferred from Hot Springs to Baltimore, N. C., or Ft. Oglethorpe, Ga.

SIX SENATORS VOTE AGAINST DRY MEASURE

Will Prohibit Sale, Manufacture and Importation of Distiller Vineous and Malt Liquors.

EFFECTIVE JUNE 30TH

Washington, Sept. 6.—This time there was a roll call on the bone-dry rider to the emergency agricultural stimulation bill which passed the senate today by a vote of 45 to 6. In the preliminary "bouts" on the measure, the senators had successfully dodged a registering vote. The six men who voted wet were:

- Democrats: Garry, Rhode Island. Phelan, California. Poforene, Ohio. Ransdell, Louisiana. Underwood, Alabama. Republicans: Gandagee, Connecticut.

Ransdell, after the vote was taken declared himself to be heartily in favor of prohibition, but said he could not vote for the bill for he believed it to be unconstitutional and a measure only within the political powers of the various states. He stated that he would earnestly support a "real" bone dry prohibition bill.

This opinion was shared, it was stated by many members of the senate including prohibition leaders, who fear it will not stand in the courts. The bill will prohibit the sale, manufacture and importation of distilled, vineous and malt liquors after June 30, 1919, until a proclamation by the president declares the mobilization of United States troops to be complete.

37 Hostile Planes Downed by British

With the American Forces in Lorraine, Sept. 6.—It is now permitted to cable that the 35th division, composed largely of Kansas and Missouri men, have been holding the line in Alsace west of Colmar where they have acquitted themselves well.

The 35th arrived in France on June 9, spent a few days with the British traversed the whole of France and were on the battle line on what was once German soil, on June 20. Until August 29, in spite of constant local activities, the division had lost no prisoners.

Haywood's Gang Now On Way to the Coop

Chicago, Sept. 6.—A special train carrying the 97 convicted I. W. W. to Fort Leavenworth Federal prison, left Chicago tonight. The greatest secrecy was maintained concerning the train until after its departure under heavy guard. The men were recently sentenced to terms of one to 20 years for "anti-war" activities.

Big Ship Sunk After Collision On Ocean

Washington, Sept. 6.—The following statement was issued by the navy department tonight: "The navy department learns that the United States steamer Almirante was sunk in a collision with the Ship Hisko which after picking up the survivors is reported proceeding to an Atlantic port. The Almirante was owned by the United States Ship company and her tonnage was something over 5,000."

FOX CHILD DIES

Roy, the 3-year-old son of Mr. and Mrs. Fred Beattie of Fox, died at a local hospital yesterday. He was brought here about ten days ago for treatment. The body was taken to the Wilkinson Undertaken parlors where it was prepared for burial and it will be shipped to Menominee this morning.

43 Will Try For The Team

Forty-three men registered yesterday at the high school for the football squad. Principal Coonen, Coach Walton and Charles Gessner were speakers at a booster meeting of the athletic association.

Prospects this year are especially bright because of the large number of experience men who have returned to school. The schedule is nearing completion and will be of more than usual interest. Practice under the direction of Coach Walton will begin at once.

BOARD GETS HURRY CALL FOR 42 MEN

Wire to Local Board Calls Another Batch of Men to the Colors On Wednesday of Next Week.

ARE TO SEND NOTICES

Forty-two Delta county men will go to the colors on Wednesday of next week, according to a call received by the local exemption board yesterday. The board yesterday received telegraphic orders to prepare for the entrainment of the extra contingent as soon as possible.

The work of selecting the men to fill the quota will probably be completed by the board today and formal notices will be mailed to the men. Take June 5 Registrants. Practically all of the men summoned on the emergency call will be taken from the list of Class One men who registered on June 5 and will leave but a few remaining in that class.

Before the end of September, it is the opinion of the board, all of the Class One men of the June 5 registration and those who registered on August 24 will be with the colors, opening the way for sending the first men registered on Sept. 12, early in October. Report at 8 O'clock. The men summoned for next Wednesday will report at the court house at 8 o'clock, where the usual procedure will be carried out, with the naming of a military police and the submission of final instructions to the registrants.

Unloading New Motor Sprinkler

A fine new motor sprinkler which will be given a tryout on the local streets, was unloaded by the street department yesterday. The truck has a dump cart attached and is expected to save considerable of a livery bill for Escanaba. An expert from the manufacturer is expected in a day or two to put it into operation.

Parents Asked To Fill Cards

M. B. Melican, of the school garden committee, stated last night that it will be of great help if parents of the city will assist their children in filling out the report cards on their gardens.

35th Is Now Holding Line on Hun Ground

London, Sept. 6.—Thirty-seven hostile machines were brought down by the British yesterday. The British lost 13 machines. Three German captive balloons were shot down in flames. Twenty-one tons of bombs were dropped on various German targets.

GREAT FAIR IS CERTAIN FOR COUNTY

Everything In Readiness for Opening of First State Fair Ever Held in the Upper Peninsula.

IMPROVE CAR SERVICE

Indications are accumulating with each day that the Northern Michigan State Fair to be held in this city next week will be the first real state fair ever held in Cloverland. Assurance is now given that the agricultural and stock exhibits will surpass those of any former fair and in addition displays of state wide interest are now being installed.

President Arthur Peterson yesterday issued the prediction that because of the widespread interest exhibited in the fair of this fall in every section of the country, the big exhibition building will be scarcely able to hold the displays.

The stock building has been completely remodeled with box stalls and iron stanchions, making it possible to show double the number of animals that were on display last year. To accommodate the much greater number of race horses that are to participate in the races, it has been necessary to build additional stalls.

The big exposition building has been completely remodeled and is now ready for the placing of exhibits. J. E. Byrns, chairman of the transportation committee, yesterday announced that the Escanaba Traction company has arranged an exceptional service for the entire fair.

General Manager P. L. Utley has arranged on the emergency call will be taken from the list of Class One men who registered on June 5 and will leave but a few remaining in that class. For Gladstone day Mr. Utley has arranged to place trailers on all cars leaving Gladstone from 9 to 12 o'clock in the forenoon and the same excellent service will be provided for the afternoon.

Captain Falk of Company L Falls in Great Battle

Capt. Oscar Falk of Menominee, in command of the Alpena company, 12th Regiment, 32d Division, was severely wounded in action on August 31, according to a telegram received in his home city.

Captain Falk was in command of Company L last summer and made many friends during his stay here. He is one of the veteran guard officers of the state, having served for more than 20 years.

Children Asked To Get Material

Children of the city have been requested to aid the government in collecting peach, plum and cherry pits of all kinds of nut shells. These are used for making carbon for gas masks so necessary for the safety of the United States soldier.

It was stated by Prof. Melican of the High school faculty last night that 2 1/2 pounds of peach pits, fill furnish carbon for one mask. A boy or girl who turns in this quantity of pits or shells may be the means of saving one life in the front line trenches. Children are asked to save all of the above articles they can get hold of and take it to Mr. Melican at the high school. The government will provide for its transportation later.

Save on Wheat

After the Hindenburg line, then Belgium and THEN the Rhine.

Von Hertling, the Imperial German Chancellor, has resigned. Mr. Kaiser you're next.

As proof of claims that more than 150 German submarines have been destroyed the British government is publishing the list of the "late" commanders of those subs.

Let's see—what's the big idea in this world's series stuff, anyway? Until yesterday not one man in ten knew the names of the teams participating.

American vessel builders have launched 2,750,000 tons of new shipping so far during the present year, and there are still left four months more of 1918 in which construction will proceed at the new and unprecedented pace now established.

Under the man-power act the work of the draft boards will continue. The members of these boards as a class have performed onerous duties, heretofore practically uncompensated, and the public is very much in their debt.

More Protests Are Filed By Motorists

Relative to the list of names published by the Delta county fuel committee, of motorists who used their cars last Sunday the following communication were received by the Press yesterday.

Sept. 5, 1918.

Editor Morning Press: Noting that the name of Chas. D. Symonds is in your list of pleasure motorists, published today, I take this opportunity of informing you that Mrs. Helen Symonds, aged 75, the mother of Mr. C. D. Symonds, suffered a severe stroke of paralysis Sunday morning, Sept. 1, and I ordered her taken at once to St. Francis hospital, Escanaba and accompanied her there in the car of Mr. Symonds. Considering the fact that the trip was necessary, and that Mr. Symonds car was acting as an ambulance, I feel that you will make the proper correction.

Yours very truly, Chas. F. Whiteshield, M. D. Crystal Falls, Sept. 5, 1918. Editor Morning Press: Understand you have listed my name as one of the violators of our government's request regarding use

of automobiles on Sunday. On or about May 15, 1918, I sold my car to one Carl Fredericksen of Stager Mich., and at once notified Lansing of change of ownership. Will you kindly correct this mistake through your paper at once. I do not now, nor during this war, intend to own an automobile. J. R. Papineau, Crystal Falls

Delta County Lads Training Hard

The following letter was received by the Press yesterday from J. C. Laraby of Rapid River and R. Deloughary of Bark River, now in training for military service at Valparaiso University:

Wishing to communicate to our friends through your paper we are in a position to write to each one—endeavoring to write a few lines and hope to have the pleasure of seeing it in print. We deeply regret that we are not in a position to write to each one separately but we wish to state that we would like very much to do so.

We are enjoying camp life immensely and deeply regret that our other "buddy" from Delta county was rejected because we know that he would have liked it.

Although there are quite a number of Michigan men here there are not many that either of us were formerly acquainted with, but we meet some nearly every day.

Each company takes its turn acting as K. P. in alphabetical arrangement. We all know the terrors of the kitchen by now. You should see Laraby slinging hash. He sure will make a fine "hubby" for some war bride.

As for Deloughary he takes great pride in conscientiously knowing that the ladies are strong for him so he is at perfect ease.

We have movie shows and stunt nights each company taking their turn. Our company is known as the singing or Canary company. We, the remnants of the old Michigan Co. C, have the "pop" and we are always backed up by the rookies.

Not wishing to make too lengthy a letter for the first time, we will close with best wishes to all our friends.

AT THE STRAND.
"Tangled Lives" the Vitagraph Blue Ribbon Feature which was shown in the Strand theatre today and Sunday is a powerful romance portraying the loves and tragedies in the life of a strong man. The picture gives Harry Morey one of his strongest roles, which he plays in his usual easy and convincing manner. Betty Blythe, his beautiful young leading woman is seen to advantage as his frivolous society wife who deserts him.

The picture is a screen version of James Oliver Curwood's widely read book by the same name and none of its fascination is lost in its direction by Paul Scardon, the continuity being well maintained and the suspense sustained to the end. There are many fine settings and beautiful exteriors and many smart gowns are worn by Miss Blythe and other women of the cast.

AMERICANS TAKE 25,000 PRISONERS SINCE JULY 1

Washington—Twenty thousand to 25,000 German prisoners constitute America's portion of the great allied haul of 112,000 captives since July 1.

These figures are based on careful estimates of war department officials. The last official figures on American totals were 17,000, toward the end of the Soissons-Rhems struggle. After that time, several sizeable bags were made. And the Americans have continued to take more or less prisoners ever since the main fighting died down.

Save on Wheat

Many a man has "brought home the bacon," but it took the allies to grab him.

That slacker list continues as the only blot on Delta county's armor of honor.

The man who spends his time meddling with other people's affairs usually winds up by finding someone else running a business that once were his own.

"Heaven, Hell or Hoboken by Christmas" is the new battle cry of the Yanks in France. They don't specify what Christmas, but it can't be too soon, after their job is finished.

Some cities are merely mediocre because they deserve to be. Others have mediocrity forced upon them. Also some cities achieve greatness through the effort of their citizens while others have greatness thrust upon them. Where does your city stand?

REGISTERED SEPTEMBER 12. The day of the American volunteer is not past; for volunteer service is a matter of spirit—the willingness to do.

It can still speak; it can still act on the day of selective service registration.

The man who, on that day on which our country has commanded all men in America between 18 and 45 years

(both inclusive) to register for selective service rises eagerly, and hastens to place his name on the selective service roll, unless he has already registered, is an American volunteer.

He is as much an American volunteer as men who shouldered muskets in 1776, or answered the first call in 1861.

A man volunteers in his heart. Selective service opens the way for him to serve where he is best needed, and when. It safeguards an over zealous spirit from trying to serve where it is of little use.

The nation has set for itself the task of registering thirteen millions of men between the ages of 21 and 45, and 18 and 20 years.

It will register time, only if America's volunteer spirit speaks and acts. The need of the hour is a double-quick response. The country must add more than two million soldiers to the American army of today to beat the Hun back into his den.

It will pick these soldiers from the 13,000,000 who register next. Use every effort to learn where you must register. Register as early and as quickly as you can.

Go prepared to give the vital facts about yourself. Answer the questions of the registering board. Don't ask questions.

That will show a true volunteer spirit.

Fair Will Be A Real State Fair

Arrangements have been made with the state agricultural department and county agents of the different counties in the upper peninsula for county exhibits at the 1916 County Fair. This takes on the nature of a state fair. The fair this year will be nearer a State fair than ever before in its history. The management has arranged for extending and enlarging all features and is branching out to take in greater fields for educational and entertaining purposes. A large space has been allotted to the counties of the upper peninsula and a large quantity of vegetables and agricultural products will be shown from each county in the upper peninsula. Do not fail to bring your exhibits to the fair in order that Delta county may successfully compete with the other counties in the upper peninsula. The fair dates are September 10-11-12-13. Bring your exhibits to the grounds on Monday, September 9th.

Mrs. Adell LaBranche and son have returned from a six weeks' visit with Mr. and Mrs. Theodore Dufrene at Gary Ind.

Dubord-Lund. Miss Angeline M. Dubord became the bride of Alrich Lund Wednesday morning at 9 o'clock in the Chicago Cathedral.

The rooms were decorated in sweet peas and lillies of the valley. The bride wore a beautiful white satin gown and a picture hat to match and the flower girls wore little blue sateen dresses and carried baskets of roses.

They were Alice and Doris Lund of Chicago. Both Mr. and Mrs. Lund are popular young people. Mrs. Lund is a graduate of the local high school and is very popular among the young people.

The wedding will come as a surprise to many of their friends as only members of the family and close friends knew of the affair. Mr. and Mrs. Lund will make their future home in Chicago.

Jergenson-Gibbs. Miss Helen Jergenson and Benjamin Gibbs, both of this city, were married Thursday evening by Rev. Albert Lund at the Swedish Lutheran church.

The wedding was a very quiet one only the immediate friends and relatives being present. The bride wore a gown of crepe de chene. They were attended by Mr. and Mrs. Henry Nelson. Mr. and Mrs. Gibbs are well known in Escanaba and have a large number of friends here. They will make their home at 1400 Hale street.

Surprised by Friends. Mrs. James Jergenson was pleasantly surprised by a number of her friends at her home on Delta avenue Friday evening. A program of games was carried out and refreshments were served. Mrs. Jergenson was presented with a number of beautiful gifts.

Picnic at Groos. A number of the Delta Hardware employees will entertain at a picnic this afternoon at Groos. A picnic luncheon will be served and a program of amusements will be carried out.

For a Weak Stomach. The great relief afforded by Chamberlain's Tablets in the multitude of cases has fully proven the great value of this preparation for a weak stomach and impaired digestion. In many cases this relief has become permanent and the sufferers have been completely restored to health.

AT THE STRAND. In "The Fringe of Society" which will appear at the Strand theatre on Monday and Tuesday, a New York City newspaper editor, whose inherent taste for liquor is hereditary, has allied himself with progressive men and women to save drinking-inclined people from themselves.

This editor, Martin Drake (played by Milton Sills) is believed by his wife and by all others who know him intimately, to be a total abstainer. His wife, Esther Drake (played by Ruth Roland) has discovered that whenever she drinks anything alcoholic that her moral fibre undergoes a change.

Ned Medford (played by J. Herbert Frank) supposedly the loyal friend of the Drakes, and a member of their smart society set is more than the man of leisure he appears. Influential in high political circles, Medford really is head of the liquor interests. Finding that Drake is allied with the opposition, and being secretly in love with Esther Drake, Medford sets out deliberately to accomplish the defeat of the man whose confidence he has gained.

But, in a moment of carelessness, he makes a slip. A secret deal which he and the liquor interests make for acquiring millions of bushels of grain (in defiance of the government's laws) puts him at momentary disadvantage. Tip O'Neill, star reporter of Martin Drake's newspaper, "The Record" gets possession of the written agreement. Then a series of crises occur which leave the outcome in doubt up to the last one hundred feet of the picture.

AT THE DELFT. The weak spot in an elderly man's armour—his love of good food—was picked out by a clever young girl who wished to gain the good will of this old man—her uncle. The bright young woman is played by May Allison, charming young star of the sparkling comedy, "A Successful Adventure" which will be shown at the Delft theatre today.

June Mathis wrote it and Harry Franklin did the directing. Knowing the vulnerable spot of her grouchy old relative, this young Southern girl showed a woman's keen intuition when she chose the "kitchen route" as the way of reaching his heart. That she gained her ends goes with out saying when it is told that she knew how to cook in the approved old southern style.

May Allison plays the part of the girl to perfection. Her comedy is fascinating and her more pathetic scenes most appealing. It is a picture with many laughs and much deep heart interest.

Local Boy On Transport Hit By A Torpedo Theodore Kieffer, nephew of Mrs. Susan Kieffer and a former Escanaba boy, was a member of the crew of the Mt. Vernon, hit by a torpedo in European waters on Thursday.

The Mt. Vernon was formerly the "Kronprinzin Cecile" a German liner seized by the United States government at the outbreak of the war. Kieffer had made fourteen trips across the Atlantic on her, according to information to local relatives. There was no loss of life. Although she was 200 miles from port on a homeward journey, the Mount Vernon was able to return to a French port "at fair speed."

Policeman Gets
Boy's Footwear
At the police station today are two shoes—good shoes—belonging one to the left and right foot respectively, of a 14-year-old Escanaba boy.

NOTICE
We now have a full force of messengers and are in position to give prompt service.

The department received a call the other day, which brought the information that a group of four youngsters were breaking into a cabin belonging to John Johnson of Manistique.

Olmsted Wanted
Escanaba Team
To Sign Mays
Henry Olmsted, former Red Sox pitcher and one-time leading twirler of the American association and Western league came very near to signing Carl Mays, hero of yesterday's world's series ball game as slabster for the Escanaba club in league ball days here.

Local Man Gets
Money Back And
Nabs Swindlers

George Denoo of Escanaba not only forced the return of \$30 which had been "willed" from him by a "tall and short man" by means of the "handkerchief dodge," but caused the arrest in Chicago of one of the sharpers.

ANOTHER ESCANABA
LAD IS OVERSEAS

Mr. and Mrs. E. Beauvais yesterday received a letter from their son, Arthur Beauvais, announcing that he has been in France since Aug. 5.

HAROLD CLEARLY TO
TRAINING CAMP

Word has been received in the city that Harold Cleary, son of Mrs. John J. Cleary of this city, has been selected for admissions to the fifth officers training camp that is now about to open at Camp Taylor, Ky.

BAND REHEARSAL

All members of the Escanaba Military band are urged to be present at rehearsal on Monday night as this is the last meeting before the fair.

The Best Way to
Shrink-Proof
Your Dollars
Is To Invest In Fall Merchandise Now Without Further Delay

We are doing everything in our power to protect customers of this institution; anticipating your wants months and months ahead of time.

We cannot understand how anyone with proper impulse for thrift can let chances to save money—like once presented now in every department—slip by without taking advantage of them.

The longer you wait, that much more will the purchasing value of your dollar decrease. Today—throughout the store—you find very few items based on today's cost—hundreds and hundreds of items, in fact, are sold at lower prices than today's wholesale.

So If You Want to "Shrink-Proof" Your Hard-Earned Dollars, Buy Your Winter Clothes Now.

Dollars of a few weeks ago were bigger than this weeks. Both dollars look the same, but they don't buy the same.

This is because war-time policies and necessities are changing almost all costs and reducing almost every stock of raw material—over from week to week.

In ordinary times a dollar kept is a dollar saved. In war time a dollar kept is part of a dollar lost. If it is wisely spent today it is worth MORE than a dollar tomorrow.

Suppose the gift of prophecy had been yours this time last year—you'd have bought your 1936 Flannels, Sheeting, Dress Materials, Clothing, Hosiery, Shoes, Underwear, Overalls, Crockery—in fact everything down the line, then,

WOULDN'T YOU?
If you had your 1937 dollars now they would have been worth \$1.30 to \$1.50.

Well you needn't be a prophet or the son of one, to see what will happen a year from now to TODAY'S dollars unless you exchange them for the merchandise you need—for the wearing apparel you and yours must have.

WE HAVE BEEN FAIR to you—we have repeatedly given you good advice—many times with scant response.

We are Buyers and Sellers—our profit is made in disposing of our purchases in the quickest possible time—quick turn overs count more than anything else.

If you have been stubborn and insisting that our predictions have been made only to get your money—forget it—By this time you all know that when we a year ago advised buying in liberal quantities—that is if you needed the goods—those who heeded our advice saved a lot of money.

Those who act on our advice today will save a lot of money. Today if we would mark our goods according to today's market cost you'd have to pay a good deal more than our today's prices.

Your Own Interests Demand Immediate Purchasing of Fall and Winter Goods

If every man and woman in Delta county would fully appreciate the amount of money they can save—buying now and at present prices—we are fully confident that our store would be emptied in less than a week's time.

Why Not Start Monday?
Every day during State Fair Week special features in every part of the store.

Mrs. Mashek Is
City Champion
Mrs. George Mashek yesterday defeated Miss Litta Norton in the Women's finals for the city golf championship by 5-4 and 4 Both played good golf.

LOST—"A.E.O." sorority pin, pearls and turquois, initials F.E.T. on back Phone 511 351-St

Anton Sandstrom of Escanaba township, was yesterday adjudged to be insane and was ordered committed to the Northern State hospital at Newberry.

MEN—WOMEN
WAR OPPORTUNITIES
Accountants, bookkeepers, cashiers, clerical workers. The Government recently issued a call for expert accountants at salaries ranging from \$2,400 to \$6,000 a year.

Expert accountants have become so essential to the war-time program of tax collections that the Government is considering some steps to prevent their being taken into army service.

For this reason the Treasury has suggested to President Wilson that accountants be recognized as a class essential to the war.

Industrial concerns, merchantile houses and firms of accounts have greater need of accountants than ever before, thus making an UNPRECEDENTED DEMAND FOR MEN AND WOMEN trained in accounting.

Look to the Future
You will want good sight twenty years from now, just as much as you do today.

The better care you give your eyes now, the keener your vision will be in later years.

Our optometrist will examine your eyes and prescribe the proper lenses to correct your eye trouble.

Feed Your Crops

GROWING crops must have food—plant food—which they can get only from the soil. Naturally, a well-fed crop does better than one that is underfed.

Low 20th Century Manure Spreader

This is the spreader that gives the manure a double beating, breaks it up into small pieces and scatters it beyond the wheel tracks of the machine in an even coating, light or heavy, over the entire surface of the soil.
