

ANOTHER BLOW TO "WET" ADHERENTS

BUILD CAMP TO HOLD OVERFLOW OF COMMUNISTS

Caminetti Asks More Legal Talent to Battle With Red Aliens.

Washington, Jan. 5.—The government's plan to rid the nation of 3,000 aliens, members of the Communist and Communist Labor parties, arrested in recent raids, promises to be a long fight, department of justice officials declared tonight.

With the radicals fortified by strong legal talent and a "slush" fund to finance their opposition to deportation and the immigration department inadequately supplied with men or means to handle the situation, the help of congress was regarded as absolutely necessary by officials.

Wants More Lawyers.

Anthony Caminetti, commissioner general of immigration, appeared before the house appropriations committee today with an appeal for funds. The commissioner asked for at least 10 more lawyers.

Officials explained that all over the country the work of perfecting the cases against the reds would be slow because of the small number of inspectors.

The problem of prison facilities engaged attention today at Ellis Island where hitherto, all of the radicals arrested have been kept, is overcrowded.

Build Detention Camp.

Secretary Baker announced he had instructed Maj. Gen. Bullard, commanding the department of the east, to provide at once for a detention camp. It was understood this would be Camp Upton because of its proximity to New York. Officials thought a second camp might also be necessary. If another is chosen it will be in the middle west, it was said.

It was apparent that officials had information that reds were in flight in many sections but confidence was expressed that those wanted would be apprehended. More arrests are planned in Chicago, New York, Detroit and Boston and several smaller cities in the east.

RAIDS CONCLUDED.

New York, Jan. 5.—The sweeping raids against reds by federal agents, which netted nearly 700 prisoners Saturday, were resumed tonight when 10 automobiles and two army transport wagons began rounding up Communists and other seditious mongers who escaped the first dragnet.

Chief Flynn announced later that the New York raids were part of another nation-wide sweep which he expected to bring as important results as the raids of last Friday.

With the arrest on a deportation warrant of Gregory Weinstein, "chief of staff" of soviet Russia's "ambassador" Ludwig Martens, the department of justice announced it was hunting "big game" in its efforts to rid the country of the most dangerous alien anarchists.

Rated as Trotsky's "best friend" here, Weinstein's position in the soviet organization ranks virtually equal with that of Martens.

Victor Wolodin, former manager of the Novi Mir and said to have been another co-worker with Trotsky, was swept into the net late today and sent to Ellis Island in the wake of Weinstein. Neither of the two men would talk.

Attempts to obtain release of many radicals started today when attorneys began applying for writs of habeas corpus.

The joint legislative committee investigating sedition in New York descended again today on the radical foreign language press including the Novi Mir, Communist World, Elore and Rablnik, to seize evidence overlooked Saturday.

Roof Burns at Home of Alderman Tolan

The fire department was called to the home of Alderman James Tolan, 403 Ludington street, shortly after seven o'clock last night by a blaze in the roof of the building. It is believed the blaze was started by a spark from the chimney but it was extinguished by the use of chemicals before any damage had been done.

Alderman Tolan sent the firemen a box of cigars following their expeditious handling of the blaze.

THE OPTIMIST

SUPREME COURT GIVES "DRYS" GREATER HOPE

Holds Congress Has Right to Define Intoxicants During War Time.

Washington, Jan. 5.—By a margin of one vote, the supreme court today upheld the right of congress to define intoxicating liquor in so far as applied to war-time prohibition.

In a five to four opinion, rendered by Associate Justice Brandeis, the court sustained the constitutionality of the Volstead prohibition enforcement act, prohibiting the manufacture and sale of beverages containing one-half of 1 per cent or more of alcohol. Associate Justices Day, Van Deventer, McReynolds and Clarke dissented.

Validity of the federal prohibition constitutional amendment and a portion of the Volstead act affecting its enforcement, was not involved in the proceedings, but the opinion was regarded as so sweeping as to leave little hope among wet adherents.

Anti-Saloonists Jubilant.

W. B. Wheeler, general counsel for the Anti-saloon league, hailed it as a "sweeping victory" and in a statement tonight said the only prohibition question left open by the court now is whether the eighteenth amendment is of a nature that can be considered as a federal amendment and whether it was properly adopted.

The court sustained federal court decrees dismissing injunction proceedings to enjoin federal authorities from preventing Jacob Ruppert, a New York brewer, from manufacturing beer containing in excess of one-half of 1 per cent alcohol, but which he alleged was non-intoxicating. The wets, however, received a brief ray of hope when Associate Justice Day sustained dismissal of indictments brought under the war-time prohibition act against the Standard brewery of Baltimore and the American Brewing company of New Orleans for manufacturing 2.75 beer before the Volstead act was passed.

In sustaining this action the court held that congress has the right to determine what are intoxicating beverages, but in view of the fact the Volstead act had not yet been passed, manufacture of low alcoholic beer was permissible under the war-time prohibition act, providing it was not intoxicating.

Prosecutions to Follow.

Following today's opinion, Assistant Attorney General Frierson, who has been in charge of the prohibition cases in the supreme court, announced that the department of justice was ready to begin the prosecution of all persons who have sold beer since the passage, last October, of the Volstead act.

The opinion of Justice Brandeis was sweeping, setting forth that "implied war power over intoxicating liquors extends to the enactment of laws which will not merely prohibit the sale of intoxicating liquors but will effectually prevent their sale."

"Whether it be for purposes of national defense," the justice said, "or for the purpose of establishing post offices and post roads or for the purpose of regulating commerce, congress has the power to make all laws necessary and proper for carrying into execution the duty so reposed in the federal government."

Justice Brandeis also declared the war powers of congress possess virtually the same authority as that held by the states under their police powers, adding: "If, in its opinion, the particular emergency demands the immediate discontinuance of the traffic, congress must have the power to require such discontinuance."

A dissenting opinion concurred in by the other three associate justices was rendered by Justice McReynolds, who took exception to the majority view regarding the scope of the war powers.

TO MAKE ANOTHER FIGHT.

New York, Jan. 5.—Another fight for 2.75 beer will be made before the United States supreme court, according to Emory Buckner, associated with Ellihu Root as counsel for Jacob Ruppert, against whom the United States supreme court decided today.

Mr. Root's firm is counsel for Christian Felgenstam, a New Jersey brewer, seeking to restrain enforcement of the act.

Physicians in Spain are by no means well paid, and they are expected to attend the poorer classes without any charge at all.

HOUSE LEADERS PLAN TO AGAIN EXCLUDE BERGER

Representative Mann, of Illinois, Will Support Him.

Washington, Jan. 5.—Congress went to work immediately today on reconvening after its holiday recess. Without formality, both senate and house began disposition of bills on their calendars, and within an hour or so both bodies resumed their normal appearance of scant attendance during speechmaking. Miscellaneous bills only were considered and a few of the less important passed.

The senate, late in the day, started debate on the water power development bill, consideration of which promised to continue into next week. The Sterling sedition bill, which senate leaders had expected to take up today, went over until tomorrow.

There were few developments and only perfunctory discussion of the peace treaty in the senate. Senator King, Democrat, presented his set of compromise reservations, and many senators engaged in private conferences on the situation, but nothing tangible resulted.

Victor Berger, Wisconsin, Socialist, re-elected after being refused a seat by the house, did not arrive today, but tomorrow or immediately on his presentation of re-election credentials, house leaders planned to refuse again to grant him a seat. Representative Mann of Illinois, former Republican leader, surprised house members by announcing he would support Berger's claim.

WOMAN RELATES STORY OF LIFE AMONG BANDITS

Captured by Mexicans, She Spent Eight Months in Custody.

Washington, Jan. 5.—A dramatic story of eight months as a prisoner in a bandit camp was told today by Mrs. C. L. Sturgis before a senate committee investigating the Mexican situation. Mrs. Sturgis told how her aged mother, worn out by long suffering and humiliation, died of starvation after their plantation had been looted by bandits, and how she had been forced to cut wood and go on a long tramp to another camp with a secret message from bandit to bandit secreted in the sole of her shoe.

Carranza Started Trouble.

"Americans were perfectly safe under Diaz," she said. "We had no trouble under Madero because the people liked him. We had no trouble with Huerta and folks in our part of the country heard little about him. Our first trouble was when Carranza troops came to our section in 1915 and drove away the help. We lost big crops right on the eve of the harvest."

It was two years later that the Sturgis home was raided by federal soldiers, who charged them with having given refuge to rebels.

"Two Carranza captains and a lot of soldiers came to our home and beat us," she testified. "When my husband protested and reminded the bandits that we were Americans, they pushed him aside, saying: 'Your old government is only a bluff.'"

Work Together.

Mrs. Sturgis said rebel and Carranza forces frequently worked together and that both disseminated anti-American propaganda.

The most thrilling chapter in her recital was that concerning her capture by Zapata bandits, who took everything movable from the house, including \$23,000 in cash. They were sent 40 miles across country to a prison camp. Mrs. Sturgis and her husband afoot and her mother on a mule. Some months later she was released and, "more dead than alive, walked with Dr. Sturgis over the hills to their plantation, to find it as bare as a bone."

The chief obstacle in the way of Gen. Wood's candidacy for President lies in the fact that he is not from Ohio.—Lexington Herald.

ELECTION LAWS ARE DEFENDED BY GOVERNMENT

Prosecutor Dailey Upholds Right of Congress to Pass Measure.

Grand Rapids, Jan. 5.—Characterizing the argument of the defense in support of the demurrer on indictments in the election of Senator Truman H. Newberry as an effort to create a "wilight zone between the jurisdiction of the state and the nation in which corruptors of election laws may take refuge." Special Assistant Attorney General Dailey opposed the demurrer in the federal district court today.

The chief issue raised by the defense strikes at the constitutionality of the general election law of the United States and questions the jurisdiction of congress to regulate or control elections of senators and congressmen and especially primary elections in the states.

Recalls Registration Law.

Mr. Dailey, in replying to Mr. Littleton's contentions, said that not only is the general law constitutional but congress has authority to regulate devices for the nomination of candidates in the various states. He sighted the fact that the United States supreme court had held that the law by congress regulating the registration of voters, demonstrated that the government had authority to go behind the elections in the states without infringement on the states' rights.

In discussing the claim of the defense that the sixth count which claims conspiracy to violate the postal fraud law gives the post office department and department of justice authority which congress did not convey, Mr. Dailey took the position that if it did not apply in this case, the law might as well be stricken from the books. He said the law was intended to cover all frauds in which the United States mails are used and if a fraud was committed in the nomination and election of Newberry it fell clearly under the meaning of the statute. He said it was of no importance what the nature of the conspiracy might be so long as the mails were used.

Delays Decision.

Judge Elchorn, who is assisting Mr. Dailey, closed the argument for the government. He took up briefly certain technical objections and pointed out what are the government reasons for the assertion that the indictments are sufficient.

Judge Sessions announced that the question involved was too important to be properly covered in an oral opinion and indicated that he would write his decision after further consideration of points raised.

Japs Rushing Troops to Aid Anti-Bolsheviks

Honolulu, Jan. 5.—(By The Associated Press)—Heavy Japanese reinforcements have been rushed to Iruk to aid Admiral Kolebak, according to cable advices reaching here from Tokio.

Denikine's Losses Have Been Heavy

Washington, Jan. 5.—More than 4,000 square miles were recently lost by General Denikine in his retreat, according to cable advices received today at the Ukrainian bureau.

**AUSTRIA FACES
COMING YEAR
WITH FOREBODING**
*Conditions of Republic
Do Not Work Out
as Desired.*

VIENNA, Jan. 5.—The Austrian republic faces its second year with foreboding. Both the political and economic situations are believed here to have grown daily worse since early autumn.

The holiday season found Vienna with a reduced bread ration, virtually no fats and without fuel. The expected supply of coal from Czechoslovakia has not been received and public utilities were kept partly in operation only by great efforts and economies.

High hopes had been entertained from the visit of Chancellor Renner to the supreme council at Paris. The people expected that Austria would obtain sufficient credit, food, fuel and raw material for the resumption of their industrial life. Now that the result of his journey has become known, the newspapers sound a note of despair. One of them remarks that the decision of the supreme council that Vorarlberg may not separate from Austria means that that province is condemned to suffer along with the rest of Austria until the ordinary native will have hardly sufficient for food and clothing becomes a luxury for even the comparatively well-to-do.

Rumors of Revolt.
Other provinces are seeking to free themselves from the burdens of Austria and turn elsewhere for help. There have been rumors of an impending revolt and declaration of independence in Tyrol. It is charged in some quarters that the whole separation movement in the Austrian provinces has been inspired by German propaganda with a view to establishing a corridor between Germany and Austria.

While Austria seems unable to obtain foreign credit for rehabilitation, there has been much comment here upon the fact that foreign private capital has been diligently exploiting the country. It is asserted that the country has virtually been stripped of articles de luxe, while its remaining factories are unable to obtain raw materials. According to common report, foreign interests, principally Italian, have acquired enormous holdings of stock in Austrian industries and mines.

The government is evenly balanced between Socialists and Conservatives and thus far has been unable to give birth to constructive legislation looking to the solution of many internal problems facing the country.

**ARMY REPORTS
NOT TRUSTED BY
BOY'S PARENTS**

Cleveland, O., Jan. 5.—The body of Corporal Harold A. Moorehouse of Cleveland, according to the records of the United States army, lies beneath a small mound at Olzene, just over the Belgian border and within the sound of gunshot from the ruins of Ypres. Confirmation of his death and burial is contained in sympathetic letters from his superior officers and chums who stood by the open graves of the heroes of Olzene.

But the relatives of the young man, his father and mother and many friends cannot believe that he is dead and confidently expect his early return home.

Their hope is based on what they have heard of "lost memory" cases among the returned soldiers. Nurses and attendants at various army hospitals in the United States have identified photographs of Corporal Moorehouse as the likeness of a wounded soldier who showed an X ray picture of his wounded arms.

Hospitals at Camp Sherman, Fort Benj. Harrison, Camp Grant and Fort Sheridan have been visited by the father Herbert S. Moorehouse in search of his son. Further encouragement in the search has come from letters from Denver and towns in Utah telling of Corporal Moorehouse.

So the vigil at the Moorehouse home, 2481 Arlington road, Shaker Heights, continues for the boy who they believe is wandering "somewhere in the United States" trying to remember his home and return to it.

**Cincinnati Pupils
Going After Prizes**

Cincinnati, O., Jan. 5.—School children are to compete for prizes during the thrift campaign week here January 17 to 23. For the best 10 definitions of the word "thrift," prizes will be given. A "Flying squad" of speakers will make special appeals to the wage earner, house-wife and school boy or girl.

Newspapers will be used for advertising the objects of the campaign to preserve the lessons learned during the war—of self denial, sacrifice and saving. Thrift and increased production will be enlarged upon.

Potatoes do not stain the hands if peeled while quite dry and not thrown into the water till afterward.

A record probably without parallel is that of Simon Gratz, who for 50 years has served on the board of education of Philadelphia.

**SUPREME COURT
GIVES "DRYS"
GREATER HOPE**

(Continued from Page 1)
18th amendment in New Jersey. The bill of complaint says that 2.75 beer is not intoxicating and that "Such fact has been definitely determined and demonstrated by experience."
"The question whether 2.75 beer can be sold after the 18th amendment is effective must be decided in the future," said Mr. Buckner.
"Today's decision affects its status only under war time prohibition. When the amendment is effective, questions will be raised not only as to the validity of its passage but also whether or not non-intoxicating beer can be sold under it."

**SHIP BUILDERS
ON GREAT LAKES
MAKE A RECORD**

**Turn Out 188 Steamers
and 29 Tugs Dur-
ing 1919.**

Cleveland, O., Jan. 5.—The shipbuilding firms on the Great Lakes turned out 188 steamers and 29 tugs, during 1919, making a total of 217 vessels for the Emergency Fleet Corporation for salt water service. All the vessels that were ordered for 1919 delivery were not completed, and 57 steamers and 19 tugs were carried over.

The American Shipbuilding Co. built ninety three of the steamers that were sent to the coast in 1919. The Great Lakes Emergency Works turned out thirty-seven steamers. The Toledo Shipbuilding Co. completed and turned over twelve steamers. The Saginaw Shipbuilding Co. of Saginaw built eight of the Manitowoc Shipbuilding Co. of Manitowoc twelve, the McDougall-Duluth Shipbuilding Co. of Duluth seventeen and the Globe Shipbuilding Co. of Duluth nine steamers. The twenty-nine tugs were turned out by the Leatham & Smith Towing & Wrecking Co. of Sturgeon Bay, Northwest Engineering Co. of Green Bay, Burger Boat Co. of Manitowoc and Whitney Bros. Co. of Superior.

Not a single vessel was built for the lake trade last season, as the yards were all busy on government work. A number of steamers have been ordered for salt water service for 1920 delivery and some bulk freighters may be built for the lake trade.

**Canadian Grain Not
Moving Toward U. S.**

Winnipeg, Man., Jan. 5.—Although the embargo on shipments of wheat to the United States has been lifted since the middle of December, there has only been a slight movement of grain in that direction according to the wheat export board.

It is understood that a mix-up regarding wheat prices in which western grain men may lose thousands of dollars, has held up any movement of wheat to America. It is claimed that many traders bought wheat options at from \$2.30 to \$2.45 and had to pay the differences between that figure and the \$2.15 ultimately established by the wheat board to close out their contracts.

The government is being urged to assist in compensating these traders.

**FIGURES SHOW
TBC INCREASES
AS WOMEN WORK**

**Sharp Increase In
Dread Disease as Women
Take Men's Places.**

Lansing, Jan. 5.—The women of America are beginning to pay the bill of their entrance into industry in the large numbers that the exigencies of war conditions compelled, according to the National Tuberculosis Association. A big life insurance company has published a table in which it shows that the death rate from tuberculosis among white females between the ages of 25 and 55 has increased sharply during the past year, while the death rate among white males, colored males and colored females, for the same age-group, shows a reduction. While the life insurance company draws no conclusion from the figures, merely giving the statistics as a matter of record, the National Tuberculosis Association believes that the "rising female death rate in this particular age period is due in no small degree to the very large and sudden influx of millions of women into industrial pursuits."

"It seems unreasonable to expect," the statement continues, "that we should compel some three million women to take up new and vigorous forms of industrial life and not expect in return to reap a harvest in tuberculosis from the sapped vitality and lowered resistance that such a life will bring to the more delicately organized female mechanism. The figures of the life insurance company would seem to indicate that men have been able to stand the strain of war work better than women."

No figures are as yet available on this point for the state of Michigan, according to the Michigan Anti-Tuberculosis Association, the statistics for 1919 not yet having been tabulated. But it is believed that what was found to be true of the whole country will in a general way prove true of Michigan.

It means that a new problem has been instilled into the tuberculosis fight. Women have of course for many years taken part in industry, but it was only during the war that thousands of them took the places of men and did men's work, donning overalls for the purpose. A great many of these women are retaining their jobs now that war is over, and in many cases they are probably working beyond their vitality for the sake of the high pay. While there is no disposition either on the part of the National Association or on the part of the state association to argue against women in industry, the health workers are pointing out the menace connected with it and they declare that greater safeguards must be put up to meet the new conditions.

Graceful overtones of delicate fabric are edged with fur.
The vogue of colored handkerchiefs is increasing, for the charm of these dainty confections is irresistible and their value as a crowning touch of pleasing color to a costume quite apparent.

**G. O. P. WOMEN
WILL AID IN
MANAGEMENT**

**Hays Promises Equal Voice
in Affairs of the
Party.**

Chicago, Jan. 5.—Republican women from 14 midwest states, conferring today on party plans for the 1920 campaign, demanded equal representation with men on the national committee and urged "a fair representation of women from each state" at the national convention.

Many of the women professed to see an immediate endorsement of their stand in the speech which Will H. Hays, chairman of the national committee, delivered at a banquet following the conference.

"The Republican party offers the women everything we offer the men," he said. "Women come not as women but as voters, entitled to participate, and participating as other voters."

Women on Committee.
The women proposed in a formal resolution that the coming convention take action to double the membership of the national committee so that each state will be represented by one man and one woman member.

The women also adopted ten suggested plans for the Republican platform. These included recommendations for direct citizenship for women and laws making possible the naturalization of married women.

The women's stand on all questions was reflected in talks at the banquet. The affair was given by the state central committee in honor of Mr. Hays and the chairman of the woman's division of the state committee, Mrs. J. S. South.

These two held the places of honor on the speakers' list. Two avowed aspirants for the Republican presidential nomination—Governor Lowden and Major General Wood—also spoke. The banquet had both a toast-master and toastmistress. Frank L. Smith of the state central committee introduced the men, and Mrs. Fletcher Dobyns, chairman of the state's Republican women, did the same for the woman speakers.

The local headquarters of Governor Lowden, General Wood and Senator Harding hummed today with activity. Lobby conferences were almost as numerous as in convention days.

TOO LATE TO CLASSIFY.

**JELICOE GUEST
OF OFFICERS IN
AMERICAN NAVY**

**British Sea Fighter
Sees New Long
Range Rifle.**

Washington, Jan. 5.—The American navy was "host" tonight at a reception to Admiral Viscount Jellicoe, former first lord of the British admiralty and commander of the high seas fleet in the battle of Jutland. Every naval officer in Washington was invited to be present. Also among the guests were members of congress and attaches of the various embassies and legations.

Viscount Jellicoe, who arrived yesterday from New York, started the day with formal calls on Secretary Lansing and Secretary Daniels. Later he called on Vice President Marshall and was received on the floors of the senate and house. The feature of the day, however, was an official inspection of the Washington navy yard.

Admiral Jellicoe and his staff witnessed in the new gun shops the shrinking of a jacket on a 14-inch gun and lining of a 16-inch 50-caliber rifle. They were also shown an experimental 16-inch rifle which will have an elevation of 50 degrees. Engineers hesitated to predict the range of this piece, 30 degrees being the greatest elevation yet tried. In this position the gun threw a shell more than 25 miles.

The largest pin factory is in Birmingham, England, where something like 50,000,000 pins are manufactured every working day.

Ostriches are the largest feathered creatures existing, and one of these birds will sometimes measure eight feet in height and weigh 300 pounds.

Frocks for the junior are especially smart this season when made of wool jersey cloth embroidered in contrasting color.

'SNOWBALLING' CAUSE OF LOTS OF IDLENESS

Controversies Between Labor Unions Hold Up Construction.

New York, Jan. 5.—Ninety-five per cent of the strikes and 75 per cent of the days of idleness in the building trades in the past have occurred through what is known as "snowballing" or controversies between wage earners themselves as to which trade should do the work, says Franklin T. Miller, president of the F. W. Dodge company and formerly director of the division of public works and construction of the United States department of labor. Only 5 per cent, he declares, have been on questions between employer and employee.

Mr. Miller, who has been in touch with the construction industry in this city for 23 years, cited the case of a big Chicago hotel costing millions, the work on which had been delayed, he said, more than a year because of a disagreement between skilled workers as to who should handle certain doors because of the preponderance of metal over wood. This, he said, was an inevitable consequence of the rapid development of the industry. Analyzing the situation and the building outlook for 1920, Mr. Miller said:

Labor Problem Board.

"The creation of a board of jurisdictional award by the United States department of labor, a board composed of architects, engineers, contractors, material men and wage-earners, promises a solution of one of the most difficult labor problems in the building industry. As a result of it, decreased cost of construction may be expected. The board of jurisdictional award has been formulated with the full approval of all interests concerned, who seem to have entered into it without reservation."

"The labor outlook in the building industry thus promises a condition of greater stability during the coming year because of the organized dealings between employers and employees, with full recognition of the term contract and arbitration principles."

"The first serious labor troubles in the building industry," said Mr. Miller in reviewing the national construction shortage, "occurred in the latter part of October, 1918, through a strike of carpenters on government work in Brooklyn in violation of the Baker-Gompers agreement, a pact between the war department and the American Federation of Labor. This strike was settled by a compromise early in March, 1919, but in the meantime it threatened a sympathetic nation-wide strike of the building trades and held up construction, not only in New York but made it uncertain throughout the land. Other labor troubles sprang up throughout the country, notably in Chicago, where the whole building trade was tied up from July to September, 1919. Since then conditions have improved, but there would not be complete harmony in the building industry until the federal board of jurisdictional award began to function."

Factors in Situation.
"From April, 1919, to last July the war department, through Col. Arthur Woods as special assistant to the secretary of war, engaged in the active promotion of public works in order to provide jobs for returning soldiers," concluded Mr. Miller. "Then it appeared that there would not be sufficient labor, materials and capital for the necessary new construction of the country. The promotion of non-productive public works was abandoned. The federal reserve board, early in December, 1919, announced its purpose of postponing the erection of its contemplated banking institutions. These are among the factors in the present situation."

Dr. F. T. Long Not to Leave Escanaba

Dr. F. T. Long returned yesterday from a brief visit with his family at Gary, Ind. In spite of a report circulated that Dr. Long intended to locate at Gary permanently, the dentist said yesterday that he had made no other plans than to continue to make Escanaba his home and location for the practice of his profession.

The Best Cough Medicine.
When a druggist finds that his customers all speak well of a certain preparation, he forms a good opinion of it, and when in need of such a medicine is almost certain to use it himself and in his family. This is why so many druggists use and recommend Chamberlain's Cough Remedy. J. B. Jones, a well known druggist of Cabrun, Ky., says: "I have used Chamberlain's Cough Remedy in my family for the past seven years and have found it to be the best cough medicine I have ever known."

NOTICE.

NOTICE IS HEREBY GIVEN that at the regular meeting of the Board of Supervisors of Delta County, Michigan, to be held at the Court House in the city of Escanaba, in said county, beginning on the 9th day of February, 1920, at the hour of 11 o'clock in the forenoon of said day, or at such other time and place to which said meeting may be adjourned, will be heard and determined the petition of the undersigned Phil L. Utley and John G. Sutherland, to said Board of Supervisors, now on file with the clerk of said Board of Supervisors, praying leave to themselves, their successors and assigns to construct across the Escanaba river in the townships of Cornell and Baldwin, in Delta county, Michigan, two dams for the purpose of accumulating, storing, manufacturing, conducting, using, selling, furnishing and supplying water and water power, electricity and electric power, and all and every kind of power, for any and all purposes at the location and of the height and description following, to wit:

A dam running in a northerly and southerly course across said stream adjacent to Squaw creek and located Three Thousand (3000) feet past from the west line of Section Six (6) in Township Forty-one (41) North, Range Twenty-three (23) West, the northerly end of which dam is located on Lot One (1) in Section Six (6), Township Forty-one (41) North, Range Twenty-three (23) West, and the southerly end of which dam is located on Lot Three (3) in Section Six (6), Township Forty-one (41) North, Range Twenty-three (23) West, and the middle of which dam is distant about Three Thousand (3000) feet from the west line of Section Six (6) in the township and range last mentioned, of the height of fifty (50) feet above the average level of the tail water below said dam, of ample concrete construction without any lock, but with a concave face to serve the purpose of an apron, at least fifty (50) feet wide, and with a waste gate not less than twelve (12) feet wide and twelve (12) feet in depth from the top of said dam, and with a log chute or sluice not less than five and one-half (5½) feet wide and four (4) feet in depth from the top of said dam, for the passage of timber and other forest floatables.

A dam running in an easterly and westerly course across said stream and located about two hundred (200) feet south of the north line of Lots Two (2) and Five (5) of Section Two (2), Township Forty-one (41) North, Range Twenty-four (24) West, Michigan, the easterly end of which dam is located on Lot Two (2), in Section Two (2), Township Forty-one (41) North, Range Twenty-four (24) West, and the middle of which dam is distant about two hundred (200) feet south of the north line of Lots Two (2) and Five (5) in the township and range last mentioned, of the height of sixty (60) feet above the average level of the tail water below said dam, of ample concrete construction without any lock, but with a concave face to serve the purpose of an apron at least fifty (50) feet wide, and with a waste gate not less than twelve (12) feet wide and twelve (12) feet in depth from the top of said dam, and with a log chute or sluice not less than five and one-half (5½) feet wide and four (4) feet in depth from the top of said dam, for the passage of timber and other forest floatables.

Dated this 12th day of December, 1919.

PHIL L. UTLEY,
JOHN G. SUTHERLAND.

NEW TREATMENT THAT KNOCKS RHEUMATISM

75c BOX FREE TO ANY SUFFERER

Up in Syracuse, N. Y., a treatment for rheumatism has been found that hundreds of users say is a wonder, relieving cases that seem little short of miraculous. Just a few treatments even in the every, worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous clogging waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish.

The treatment first introduced by Mr. DeLano is so good that its owner wants everybody that suffers from rheumatism or who has a friend so afflicted, to get a free 75c package from him to prove just what it will do in every case before a penny is spent. Mr. DeLano says: "To prove that the DeLano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed, I will, if you have never previously used the treatment, send you a full size 75c package free if you will just cut out this notice and send it with your name and address with 16c to help pay postage and distribution expense to the person."

F. H. DeLano, 1645-A Griffin Square Bldg., Syracuse, N. Y. I can send only one Free Package to an address.

LONG CORE IS TAKEN FROM A TEST HOLE HERE

Solid Core, Seven and a Half Feet in Length, Attracts Interest.

A solid core, 7½ feet long, taken from the iron formation at the Escanaba Iron Range Exploration Company's test hole, four miles west of the city, is on display at the company's offices at 509 Ludington street. Workmen for the Longyear company, sinking the test holes here, assert that the core is one of the longest they have ever taken from an iron formation. Cores of similar length or longer are common in copper formation drilling. In the iron formation the core usually comes up in small pieces, and the long piece taken from the hole here is considered an object of considerable interest. The core is beautifully banded and will be carefully preserved by officers of the company.

OBITUARY.

THOMAS FUNERAL MONDAY.
Funeral services were held yesterday afternoon for John Thomas, highly respected blacksmith and well beloved citizen of Escanaba, with Rev. Harry W. Staver, pastor of the First Presbyterian church, officiating. Interment was made in Lakeview cemetery.

The funeral was attended by representatives of several lodges with which Mr. Thomas was affiliated and the following pall bearers assisted in bearing their friend to his last resting place: J. C. Finnegan, Jesse Burdick, P. J. Geniesse, C. A. Bowers and Mr. Olson.

LAVIGNE FUNERAL YESTERDAY.
Impressive funeral services were held yesterday for Mrs. Frances Lavigne, who died at her home in Garden several days ago following an illness from pneumonia and pleurisy. She was 73 years of age and had resided in Delta county for many years.

Mrs. Lavigne is survived by her husband, eight sons and daughters, two brothers and two sisters. The children are: Eugene and Frank Lavigne, of Republic; George Lavigne, of Florida; Mrs. Albert Rousseau, of Manistique; Mrs. N. Boudreau and Henry, of Alpena and Joseph Lavigne, of Garden.

The surviving brothers are: Edmund Ranquette, of Schaffer, and Norbert Ranquette of this city.

The surviving sisters are: Mrs. LaMay, of Quebec, and Mrs. Doucette, of Schaffer.

One of the novelties of this season is the Buster Brown collar and cuff set of linen or pique to be worn with colored sweaters.

Walsh to Put Up Big Stock of Ice

Nick Walsh, who last season entered the ice business in this city, to store more ice than ever for the coming season. He is now engaged in building an addition to his ice house at the old Escanaba Brewery site and the latter part of this week will begin his ice harvest with a big crew of men.

Woman Can't Find Words to Express Herself

"After six years of suffering from stomach trouble I am feeling fine. All the bloating and soreness is gone from my stomach and bowels. I can eat all I like now. I can't think of any words suitable enough to praise May's Wonderful Remedy. I am sure it has saved my life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At Druggists everywhere.

Eat Less Meat If Back Hurts

Take a glass of Salts to Flush Kidneys if bladder bothers you.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

'LISTEN LESTER,' COMEDY OF WIT, DANCE AND SONG

Next Friday—Escanabans will have the opportunity of seeing the musical comedy that signed at the Knickerbocker Theatre, New York City, for twelve consecutive months. "Listen Lester," which was awarded the trade-mark as "the smartest musical comedy of the season on Broadway" is the work of Harry L. Cort, George E. Stoddard and Harold Orlob. Its dancing features were remarkable in a season of dancing specialties, and it deserves its rank as much for its tuneful melodies which have circulated throughout the country on the Victrola. The story concerns one Arbutus Quilty, a successful manufacturer with much foresight and a package of letters, written to her by a repentant Colonel Dodge. The erstwhile suitor, Colonel Dodge, is trailed by the determined Arbutus to a hotel in Florida. The Colonel establishes a reputation for dodging, the vindictive Arbutus! the female detective who is trailing Arbutus, and the designing widow, Mrs. Mumm, who awaits him with open arms. William Penn, Jr., the hotel clerk, is a good mixer and almost keeps peace between the guests of the hotel; Lester, the titular hero of the comedy, is a hotel porter who listens only when the request is backed by a banknote. His services are much in demand by all parties.

This musical comedy reaches the high water mark in wit, dance and song, and in the excellence of its cast which is the entire New York company, chorus, production and special orchestra and mention should be made of the several names who have been seen in their respective parts for over one year, Miriam Folger, Florida Belaire, Frances Anderson, Florence De Barr, Betty Kirkbride, Cecil Williams, Henrietta Lee, Ann Ott, Gus Shy, William Sellery, Delano Del, William Wayne, John L. Lyons, Murry Hart, Mark Thompson and Andrew Leigh and the Daintiest, Danciest chorus ever seen on any stage.

Frank Beaudoin Is Recovering Nicely

The condition of Frank Beaudoin, who was painfully injured Saturday morning when he was hit by a locomotive in the C. & N. W. yards here, was yesterday reported to be greatly improved. It appears that Mr. Beaudoin was not as badly injured as at first thought, and he was able to sit up in bed for a short time yesterday at St. Francis' hospital.

To the Dyspeptic.

Would you not like to feel that your stomach troubles are over, that you can eat any kind of food that you crave? Consider then the fact that Chamberlain's Tablets have cured others—why not you. There are many who have been restored to health by taking these tablets and can now eat any kind of food that they crave.

5c a package NOW

THE FLAVOR LASTS SO DOES THE PRICE!

THE old-time pack-bearer could carry a hundred pounds ten miles a day.

The railroad is the modern pack-bearer. For every employee it carries 2,000 times as much.

Back of each railroad worker there is a \$10,000 investment in tracks and trains and terminals, with steam and electricity harnessed like a great beast of burden.

Without this mighty transportation machine the railroad worker could do no more than the old-time packer. But with it he is enabled to earn the highest railroad wages paid in the world, while the country gains the lowest-cost transportation in the world.

The modern railroad does as much work for half a cent as the pack-bearer could do for a full day's pay.

The investment of capital in transportation and other industries increases production, spreads prosperity and advances civilization.

To enlarge our railroads so that they may keep pace with the Nation's increasing production, to improve them so that freight may be hauled with less and less human effort—a constant stream of new capital needs to be attracted.

Under wise public regulation the growth of railroads will be stimulated, the country will be adequately and economically served, labor will receive its full share of the fruits of good management, and investors will be fairly rewarded.

JOHN PAUL JONES.

In enduring stone, the words of John Paul Jones, the famous naval officer of the American Revolution, are to be perpetuated on the monument to be erected in Potomac Park, in the city of Washington.

John Paul Jones, whatever may have been said against him by his critics on both sides of the Atlantic, evidently had an exalted conception of the necessary characteristics of an American naval officer.

No one feels that any defence of John Paul Jones is necessary at the present time, or that any has ever been necessary. He won distinctive medals and official commendations, both from his own country and from France.

WARNINGS TO THE FIREBRANDS.

One of the notorious firebrands, who manage to keep within the law and make agitation pay, said this in a speech the other day: "They say I am a radical. Yes, I am a radical, and I hope the day will never come when I'll cease to be one."

In that statement this man unconsciously disclosed the difference between the pernicious agitator and the long-visioned, unselfish, active benefactor of mankind.

And it is worth while considering that the radical of today is thwarted in his vicious designs by the soundness of the social structure which those others created.

The signs which should put fear into the hearts of radicals like the speaker quoted are many, and they are multiplying.

MILITIA AND REGULARS.

For the welfare of the country it is to be hoped that the prediction of Major General Jesse Carter, chief of the bureau of military affairs, that in the future there will be closer co-ordination between the regular army and the national guard will be verified.

militia establishment. The contempt of the professional soldiers for the militia has been dissipated to a considerable extent by the good account national guard troops gave of themselves in the world war.

The shortest day of the year is passed and the January thaw is due, but Ground-hog day is still in the offing.

Evidently there's got to be more than one "soviet ark."

The success of the Philadelphia church in boosting attendance at Sunday School by offering a pound of sugar to each person is easily understood, but where do they get the sugar?

THE PIFFLE HOOK

BY THE OFFICE FORCE (Pinch Hitting for Slim Pickens)

ABNER IS "INFUSED." Mizry Bay, Mish Again, Jan. Forth.

Mr. Pinsh Hittur, Deer Sur an Tackx Pair: My sunlaw, Nate Hepson which lives over on Puffey Crick whair the wishbones of the turtles is predicatin' a hard winter and the whether men steel their stuff and call it fare and kolder, has been elucidatin' some expurgated incandescence to me about the objugated skule sets you wishin' in Esky.

The teachers of them days was savin' critters and it was a honner to be a demagogue. I have knowed teachers of the male gender to make a tidy sum endurin' one term of skule by helpin' out with the chorse befoar and after skule. They didn't abdicate to milking the cows and pigs and hesses, or pitch down hay or fodder the stock none.

Now then where you have got about sickxy skowlers in a room, it must be they have got 35 or forty parents and that makes 35 or forty places where the teacher could bord for a weak end at a time. They could tend furnises and babies and pollich up the needles for the vickteroleander and keep 'em threaded and keep the hole in the telephone wire cleaned out, and irradiate up about the house and help the missus with the dishes and dust insect powder around in the pantry where the kilowatts is bad.

I have allers bin strong for the vary best modicum of educashun there is to be had and I say to you tackx pairs of Esky that if you have got any conscription for the mentle ad valorem of your children, you should not disqualify to go fur in your mendashuness to make your teachers happy and prospective, so they will have a free mind to give awl their talunce to the intelck-shal deterioration of your prodjiny.

"That cuple there in the audience, my friends; that ball heded man and sweat phased woman is my father? "I am here tonight on the thrash hold of life's stormy sea most garnishly ekwhipped for the battle of life's maelstromonium as the result of that man's courage—that man who stood forth in the white hot hell of clashing opinions and silding scales and deathlessly gave his life to the dedication of irrational education in a way that has no significance in history—the man who shouted in the face of the wild multiform: "I care not what other may say, but so fer me, I stand firm and remote for the best grade of teachers we can get. Ime a hure of wood and a dror of water but I am likewise and also a parent and Ime willin' to pay a muntch and bord if nessesy to get 'em. I am Adam Aunt in my latitude. Let the galded jade winch. My weathers are on wrong."

BACK FROM ELBA

AT THE THEATRES

At The Strand. Mae Murray, star of "The Twin Pawns," the Pathe feature showing today at the Strand theatre is authority for the statement that the one ragged dress she wears in this picture caused her more trouble than all the lovely "latest-thing-from-Paris" frocks she wears.

You see, in "The Twin Pawns" Miss Murray is Violet and Daisy White. They are twins who have been separated since childhood—in fact, each is unaware of the existence of the other. Violet, the idol of her indulgent father, has everything her heart could wish, but Daisy, who has been raised by her mother, is poorly clad and underfed.

At The Delft. It takes a pretty good man to stand up before a brace of six-shooters and not flinch. In "The Money Corral," a new Arteract picture starring the infatigable William S. Hart, which will be seen at the Delft theatre today, this is proved when the star encounters some underworld crooks in Chicago and beats them at their own game.

Slave to Tobacco? Let Nicotol Set You Free. Are you a slave to tobacco, so addicted to its use that you must have your daily supply or feel nervous and irritable and unhappy? If you have reached this point your use of tobacco is excessive and this is always injurious to health and nerves, brain and body.

TALKING IT OVER WITH SADIE

BY IMOGENE. "WHEN IT COMES to this inventory takin'," said Sadie with a sigh of relief, "your little Sadie feels like pullin' pollyanna stuff all over the place that she ain't earnin' her spendin' money by the yard. Honest every time I think of yards, the wiser I gets to the fact that I'd rather be a k. m., counting up how many dust cloths an' dish towels I has on hand, or mebbe a cats-bird gettin' a line on the oatmeal an' eggs in a grocery store than sell the greenest lawn cloth on the market."

"When it comes to young music mansion, does you guess your little Sadie puts on a mush longer'n the line some guys carries around with them, an' hands the boss one of them 'it's gona ruin my young life an' there ain't no sense in doin' it neither' looks every time her lamps light on him? Well, get a transfer—your on the wrong guess. "All I does is get next to a few facts, about the music makers an' records an' the like an' the party's over. Say, the only thing in that line that your little Sadie ain't in love with is the ancient sheet music that they keeps stored up for years back. Honest when I gets through lookin' at that old stuff, it takes a couple good old frotrots to bring me outta it."

"Honest I bets them poor Janes starts measurin' the sheets when they flops into bed at night. "If you ain't out in the cruel world yet, take a tip from your little Sadie, an' when you does copy onto a little harmony house where there ain't no chance of havin' to find out how many yards of tenor solos you have on hand."

HOME HINTS

Chopped raisins are excellent served with various salads. Purchase only what you need and take care of what you have. Drawn butter pudding sauce is best made with brown sugar. Methylated spirits are also good when mixed with a little whitening to clean and polish piano keys. Onions should always be boiled in water that has been salted; otherwise they lose much of their flavor. Mirrors and pictures are most up to date hung with a heavy silk cord and tassel instead of the old-fashioned picture cord. By sewing a small brass ring in each corner of the rug and slipping the ring over a tack, rugs can be kept down well, especially when there are children about.

STOCKHOLDERS MEETING.

The annual meeting of the stockholders of the State Savings Bank of Escanaba, Michigan, will be held in the offices of the Bank at 1108 Ludington street, Escanaba, Michigan, January 13th, 1920, for the election of nine Directors and for the transaction of such other business as may properly come before the meeting. The meeting will convene at nine o'clock in the forenoon and the polls of the election will be open from nine o'clock in the forenoon until three o'clock in the afternoon of that day. Dated at Escanaba, Michigan, this 22nd day of December, 1919. C. W. MALLOCH, Cashier.

THE FIRST ANNIVERSARY of the death of George Washington will be observed with national mourning throughout the United States. Observance will be made at 12 o'clock. There shall today for a celebration of the centennial of the signing of the Declaration of Independence at the Indiana State Normal School. The first annual convention of the United States Voters' Association will open in New York city today and continue in session over tomorrow. A convention to revise the Constitution of Illinois, the first held in that State in half a century, will meet at Springfield today for organization. Notification of the Federal women suffrage amendment is expected to be one of the first acts of the Rhode Island legislature, which meets today for its annual session. Improved farm methods and the benefits of organization will be discussed by the Georgia Federation of Farm Bureaus at a convention to be opened today in Atlanta.

TODAY'S ANNIVERSARIES

1827—Charlotte Smith, the intimate friend of Coleridge, died at Weymouth, Dorset, Dec. 25, 1782. 1843—British army in Cuba began its retirement: of 2500 soldiers and 12,000 camp followers only Dr. Brydson and a few natives escaped assassination. 1845—Congressman Clingman of North Carolina and Yancey of Alabama fought a bloodless duel at Bellville, Va. 1868—Gen. Mariano Arista resigned the office of President of Mexico. 1891—U. S. Arsenal at Appleton, Wis., seized by State troops. 1879—Indiana State Normal School opened at Terre Haute. 1896—Ropallat uprising in Hawaii for the purpose of overthrowing the government. 1860—British repealed a Slave Bill by the House on Wagon Hill, at Liverpool. 1918—Theodore Roosevelt, twenty-sixth President of the United States, died at Oyster Bay, N. Y. Born in New York city, Oct. 27, 1858.

TODAY'S BIRTHDAYS.

Duncan J. Fletcher, senior United States senator from Florida, born in Sumner County, Fla., 61 years ago today. Ole Hansen, former mayor of Seattle, known for his aggressive Americanism, born in Racine County, Wis., 66 years ago today. Henry K. Dixey, one of the best known actors of the American stage, born in Boston, 61 years ago today. Adeline Genes, world-famous dancer, born in Aarhus, Denmark, 44 years ago today. Samuel Rayburn, representative in Congress of the Fourth Texas district, born in Roane County, Tenn., 38 years ago today. Woodbridge N. Ferris, former governor of Michigan, born at Spencer, N. Y., 67 years ago today.

THE WAR ONE YEAR AGO.

President Wilson departed from Italy on his return to Paris. Uprisings of radicals reported from Poland and many parts of Germany.

NOTICE TO STOCKHOLDERS.

The annual meeting of the stockholders of the Escanaba Iron Range Exploration Company will be held at the office of the company at 509 Ludington street, in the city of Escanaba, Delta county, Michigan, on the 31st day of January, A. D. 1920, at the hour of 7:30 P. M. for the purpose of hearing report of the officers, the election of directors and for the further purpose of amending its articles of association by increasing the amount of the capital stock and the number of shares of said corporation, and for the transaction of such other business as may legally come before the meeting. Dated this 29th day of December, A. D. 1919. H. W. READE, President. L. N. SCHEMMLER, Secretary.

Babe Ruth Sold To Yankees

OLD GOVERNORS ARE RE-ELECTED

National Collegiate Body Makes No Changes in Personnel.

New York, Jan. 5.—The following executive officers of the National Collegiate Athletic Association were re-elected on the report of the nominating committee at the Hotel Astor last night:

President—Lieut. Col. E. P. Pierce of the United States Army. Vice-President—S. W. Beyer, dean of Iowa State College. Secretary-Treasurer—F. W. Nicholson, Wesleyan University.

A number of new district representatives were also selected.

At the opening of the evening session the reports of committees were continued. The executive committee was authorized to publish a rule book for all intercollegiate sports, to be prepared by Dr. J. E. Baycroft, in addition to the swimming guide now being published. No changes were recommended in association football, track, and basketball rules. A change was made by Dr. J. A. Bradburn that the attitude of eastern colleges toward neutral officials has been strongly antagonistic, especially among professional coaches; this was stated to be true in other parts of the country. The president advocated local conferences as an offset.

Physical Training.

In the afternoon session, which marked the opening of the fourteenth annual convention of the association, Lieut. Col. P. E. Pierce, president, said that the realization had grown that every boy and girl should receive systematic physical training while in school and college rather than military training. Furthermore, he warned against the use of drill as a substitute. Dr. J. H. McCurdy, after citing results of the tests of drafted men, advocated systematized instruction of physical tests for admission to colleges and systematic required muscular development.

167 Colleges United.

The association is now composed of 167 colleges and universities, practically all of any athletic prominence. The keynote of the morning session was the lesson of the war to athletic training and its necessity for good citizenship. Colonel Pierce, as president, laid stress on the need for care to prevent professionalism and advocated the incorporation into faculty control of all forms of athletics, including the appointment of coaches. He strongly advocated mass athletics. To accomplish good results, normal training, he said, is necessary, and he congratulated the association on the tremendous improvement in football since the association was organized in 1905, when the very existence of the game was threatened. Credit was given to the football rules committee. Colonel Pierce laid stress on the importance of mass athletics in France, and expressed the hope that the great meet at the Pershing Stadium might create a desire for similar events in this country. He opposed pre-season training, and post-season games, as tending to professionalism.

WELTERWEIGHT KING MAY COME ACROSS OCEAN

New York, Jan. 5.—Boxing enthusiasts today had their attention diverted temporarily from the proposed Carpenter-Dempsey bout by reports that Jack Britton, welterweight champion of America, would meet the winner of the bout between Kid Lewis and Johnny Bashaam for the English title this month.

English promoters have offered Britton \$12,500 to box in London in March. Britton also is said to have received an offer of \$20,000 from C. B. Cochrane, the English promoter now in this country, to box the winner of the Lewis-Bashaam affair.

NICK WILLIAMS DEVELOPED THE GREAT REUTHER

Moose Jaw, Sask., Jan. 5.—Nick Williams, who will manage the Moose Jaw baseball team of the Western Canada league this season, is credited with having been responsible for the early successes of Pitcher Reuther of the Cincinnati Nationals. Williams was a catcher when in his prime and may do a little backstopping for the Robb Hoods. This will be his first season with the locals. As it is expected that the Western Canada league will be classed as a "B" circuit, the player limit will probably be increased. Williams is on an ivory hunt at present.

Embroidery, though sparsely, is effectively used.

Chicago, Jan. 5.—Cotton, Jan. 1, 1919 94; Chicago, Jan. 5, 94 94; Jan. 1, 1918 84; Oats, May 6 64; July 7 74.

IOWA STATE HAD GREAT SEASON ON THE GRIDIRON

Met With Only One Defeat in Missouri Valley Contests.

Ames, Iowa, Jan. 5.—The Iowa State College football team came out of the 1919 season with only two defeats and with a gridiron machine that in some respects one of the strongest in the middle west, despite the fact that it was consistently outweighed. Ames' only defeat at the hands of a Missouri Valley Conference team was handed to them by University of Missouri, the winner of the Conference championship, early in the season by a score of 10 to 0. The loss of this game was alleviated later in the season when Iowa State downed University of Nebraska, the conquerers of Missouri, 3 to 0.

The Cardinal and Gold made a somewhat slow get-away at the beginning of the season, due not so much to the lack of material or ability as to the generosity of Coach C. W. Maysler. His strategy consisted in developing his teams rather slowly, "pointing" them for each particular game and working toward a climax with the closing of the schedule. Missouri's victory was, therefore, over a team much less powerful and resourceful than that which finished the season.

Ishpeming, Mich., Jan. 5.—Market opened strong and active, but after the first half hour, prices reacted until near the close. Bethlehem Steel sold off three points, but rallied two points in the last hour, with the general list acting accordingly. Notwithstanding, Copper, the Metal, sold at 19 1/2 cents today, an advance of 1/4 cent a pound, there was a little weakness in the Coppers, in sympathy with the New Yorks. The demand, however, on the weakness, was good. Seneca was well bought, on the expectation of a very flattering mill test. Trading in the Coppers has broadened out, materially in the past ten days, which indicated a change of sentiment toward this group. United Verde Extension sold ex-dividend today.

Calumet & Arizona, 145; Chino, 1,200; E. Butte, 400; Inspiration, 7,400; Miami, 1,900; Nev. Cons., 2,800; North Butte, 535; Anaconda, 8,500; Steel Common 76,900. Total-daily sales in New York, 1,228,000.

J. A. Minnear & Co.

STOCK MARKET.

New York, Jan. 5.—The low ratio of reserves reported by the Federal reserve banks, another supreme court decision sustaining war-time prohibition, progress of the railway bill in the senate and ease of demand loans constituted the main factors of today's market.

Of these conflicting influences the only encouragement was provided by the money market. On last cash inflow from interior points, call loans opened at ten percent, the lowest rate in weeks, falling to six percent in the final hours.

Steels, oils and motors were singled out for bear pressure with equipments, tobacco, shippings and several of the high priced specialties which figured in last week's rally, notably American Woolen, International Paper, American International and Baldwin Locomotive.

Several independent steels, secondary oils and motor accessories ran counter to the reactionary trend. Sales, 1,300,000 shares.

CHICAGO PRODUCE.

Chicago, Jan. 5.—Butter unsettled, creamery 52 at 64. Eggs easier, receipts 1,375 cases, firsts 66; ordinary firsts 60 at 64; at mark, cases included, 64 at 66. Poultry, alive, higher, springs 28; fowls 24 at 29.

CHICAGO POTATOES.

Chicago, Jan. 5.—Potatoes strong, arrivals 43 cars, Northern Whites, sacked and bulk, \$3.70 at \$3.35. The deep blue also is an interesting feature.

FAMOUS HITTER NOT TO REMAIN WITH BOSTON

Deal Is Announced by the Owner of New York American Club.

New York, Jan. 5.—The sale of Babe Ruth to the New York American league club was announced tonight by Col. Jacob Ruppert of the Yankees. He refused to state the price.

Ruth has a three-year contract with the Boston club, made last season, calling for a salary of \$10,000 a year. He is reported to have declared recently that unless this sum was boosted to \$20,000 he would not return to Boston.

He's a Bus Producer.

The famous hitter demanded this increase on the strength of his last season's batting record, when he broke all previous home run records. Ruth, who is 26 years old, joined Boston in 1915 as a pitcher. Last season he was transferred to outfield duty, where he batted .322 and hit 29 home runs. He made 12 three-base hits, 34 two-base hits and received 101 bases on balls. He pitched in 17 games and yielded an average of 2.97 runs. As an outfielder he erred only twice in 258 chances.

RUTH NOT SURPRISED.

Los Angeles, Jan. 5.—Babe Ruth tonight said he had no information regarding his reported sale by Boston to New York.

"I am not surprised, however," he added. "When I made my demand for \$20,000 a year I had an idea they would choose to sell me rather than buy the increase, and I knew the Yanks were the most probable purchasers in that event."

Toledo Backs Up on Tournament Plans

Toledo, Jan. 5.—Toledo's bid for the 1920 Grand American Handicap shooting tournament tonight withdrew its offer because of the expenditure involved, it was announced by the committee.

Kid Regan Is Given Verdict Over Brandt

St. Louis, Jan. 5.—Kid Regan, local bantamweight, won a newspaper decision over Dutch Brandt, of Brooklyn, in an 8-round bout here tonight.

Nine hundred and ninety-seven cutting tools alone are required in manufacturing a modern rifle.

PIRATES TRIM SOX TWO OUT OF THREE GAMES

Palmer and Janson Make High Scores on Their Teams.

Woods' Pirates won two interesting games from Olmsted's Sox at the Delt alleys last night in the resumption of league bowling in this city. The Sox won the second game by six pins. High scoring was done by Palmer of the Sox with 297 and Janson of the Pirates with 202. Toutsignant, low man on the Pirates team, was up against four bad splits in his second game.

Following are the scores:

Woods' Pirates.	
Janson	160 202 140 502
Larson	157 177 153 487
Toutsignant	167 127 156 450
Woods	180 142 173 495
Bink	153 190 190 523
Totals	817 838 812 2467
Olmsted's Sox.	
Engstrom	126 149 112 387
Feller	150 150 150 450
Bucholtz	160 160 160 480
Palmer	175 207 149 531
Olmsted	169 178 160 507
Totals	790 844 731 2365

Harvard's Trip May Upset Old Customs

Chicago, Jan. 5.—The Harvard football team, which defeated Oregon New Year's day, passed through Chicago today enroute home from California.

The Crimson manager said it had been the custom at Harvard for years not to leave Cambridge except for games with Yale and Princeton and that he believed Harvard's trip to the coast would serve as an opening wedge for future contests by Harvard, Yale and Princeton to meet worthy opponents away from home.

London Is Winner of Greek Championship

New York, Jan. 5.—Jim Londona, of Greece, defeated William Dematra, the Greek heavyweight wrestling champion, in a title contest tonight. Londona pinned his opponent to the mat with a double arm scissors in 1:45:20. Waldek Zbyszko, of Poland, threw George Strambell, of Belgium, in 7:16 with a flying mare followed by a wrist lock.

Philippine Budget Largest Ever Asked

Manila, Jan. 5.—The general budget for expenses of the Philippine government during the fiscal year of 1920 has just been presented to the legislature. It totals \$42,255,000. This is the largest general budget ever presented for legislative approval.

Sure to sell it. Press For Sale ads.

NEW WORLD'S BACK STROKE Swimming Champion—Gertrude Arde, who on Nov. 4 swam 100 yards back stroke in 1 minute, 27 and 3-5 seconds. In 1917 she won the National 100-yard championship and an all-around championship (c) UAU.

SPORTS in TABLOID

Seven New York American league players have signed their contracts. John Heydler, president of the National league, has asked that the annual meeting of the national commission set for next Monday be postponed, as he will be unable to attend. Birmingham High school basketball team has booked 11 games. Michigan clubs in the Michigan Ontario league favor continuing the organization next season. T. A. D. Jones, former football coach for Yale, may return in the same capacity next fall. New York Americans announce the release of six players to minor league clubs. Albion college has scheduled De Pauw university for next fall. It will be the first game out of the state for Albion in 15 years.

WISCONSIN HAS FEW VETERANS FOR BASKETBALL

Madison, Wis., Jan. 5.—The University of Wisconsin basketball team cannot expect to take its former position of strength in the Intercollegiate Conference Athletic Association this season. While other teams have been strengthened by the return of veterans from service, the Badgers must choose their five from the material of last season which failed to make three "W" men of the squad last year are again on the team, they do not play a brand of basketball that can equal the playing of teams like Illinois and Minnesota. A further handicap, and the greatest one, according to Coach G. S. Lowman, is the lack of an experienced and good center. This shortcoming makes it almost impossible to perfect plays that can be executed from the starting position, and it will give the more fortunate opponents an initial advantage that will be hard to overcome.

Harris More Than Makes Good Here

Joe Harris, the big first baseman who reported late to the Cleveland Indians last summer, more than made good. In 62 games he swatted the apple for an average of .375, just nine points behind Tyrus Raymond Cobb. So nifty was his work, Harris drove Doc Johnson to the bench. Harris served overseas, training at Camp Lee, Virginia. Just before leaving France he was injured in a motor car accident, and for a time it was feared that his baseball days were done. However, he finally landed in Hoboken and soon appeared in a Cleveland uniform. Once he got started, Doc Johnson never had a chance at that first base berth. Now Cleveland fans look for Harris to be there in 1920.

"Chick" Harley Has Bad Blood Poisoning

Columbus, O., Jan. 5.—"Chick" Harley, Ohio State football and basketball player, who three times was given a place on the mythical all-American football team, is in a hospital here suffering from a swollen arm. The injury was received in Toledo recently in a basketball game. The hospital treatment was decided upon, as blood poisoning was feared.

Barry's Next Attempt Financed by English

English sportsmen are raising a fund to finance Ernest Barry's trip to Australia next summer to try to regain the world's sculling title, which he lost to Felton on the Thames a few months ago. The Prince of Wales donated \$50.

LADY or gentleman agent wanted in Escanaba for Watkins Food Products. Watkins goods known everywhere. Big profits. Write today. Watkins Co., 25, Winona, Minn. 1024-4-11.

Suffered 3 Years With Rheumatism, Catarrh and Stomach Trouble, Since Taking No. 40 Feels Fine.

Gary Hill, April 25, 1919.—"I suffered for over three years with chronic rheumatism, catarrh, constipation, stomach trouble, bad blood, nervous spells, aching limbs, so I could not sleep. Saw an advertisement in the daily paper about Mendocino's Number 40 For The Blood. Thought I would give it a trial. Although I was discouraged, as I had doctor with a number of physicians and tried numerous medicines without receiving any benefit. I have taken but two bottles of Number 40. Can eat anything I want without fear and am not near so nervous and am feeling fine. I am now starting on my third bottle. Mrs. Gostine Rainey, 2270 Jefferson St., No. 40 is demanded in rheumatic, goy conditions, malnutrition, auto-toxication, constipation, liver and stomach troubles. Believed to remove and prevent gallstones, appendicitis. Successfully used in eczema and skin diseases. Used with phenomenal success in chronic rheumatism, catarrh, lumbago, myalgia (pain in the muscles, muscular rheumatism or neuralgia), glandular swellings, scrofula, mercurial and lead poisoning, abscesses, sores, ulcers, boils and carbuncles. For sale by Mead Drug Co., Escanaba, H. W. Colburn, Gladstone. Sweaters, scarfs and all sorts of novelties are still being developed with cotton, silk, or wool yarn and a set of knitting needles."

**DISABLED MEN
GET MORE PAY
UNDER NEW LAW**

**Sweet Bill Carries Some
Important Changes in
Regulations.**

A bulletin has been received presenting advance information relative to increased compensation that is to be allowed disabled ex-service men, together with changes in the war risk insurance regulations, that should be of most interest to former soldiers and sailors.

The information is sent in the form of a bulletin and says that compensation payments have been adjusted on the basis of \$80 per month for total temporary disability for men without dependents. Additional money will be paid to men who have dependents. A basic amount of \$100 per month has been stipulated for total permanent disability, with increases for those men with dependents. All increases and new compensation provisions are made retroactive to April 6, 1917.

Payments Doubled.
This announcement means that compensation payments have been approximately doubled, and means further that those who have been receiving compensation according to the scale which has been in effect will receive the difference between the old and new compensation for months that have passed.

Men inducted by the draft boards, but not accepted at camp and enrolled for active service, are included in the benefits of the new regulations, the bulletin says.

Insurance Changes.
Lump sum payments of insurance policies, after they have been converted, is also provided, and the class of beneficiaries in war insurance is enlarged to include uncles, aunts, nephews, nieces, brothers-in-law and sisters-in-law of the insured. Payments owing to any person who dies are made payable to his executor or administrator.

This information relates to the Sweet bill, as agreed to by the senate and house of representatives. It is the most important legislation affecting ex-service men that has been enacted since the signing of the armistice, and will effect scores of men in Delta county.

More detailed information will be available later at the Red Cross headquarters.

**BOARD OF WORKS
AWARDS CONTRACT
FOR TRANSFORMER**

Members of the board of public works held a regular meeting last night and audited monthly bills. They also let a contract for Westinghouse transformers for the electric light plant, to Jules Andre, of Milwaukee.

The report of the board and the representatives of the finance and utilities committees of the city council will be made to the council tonight.

**AMERICAN DEAD
TO BE BROUGHT
FROM ABROAD**

PARIS, Jan. 5.—The French government has granted permission for the removal of the bodies of 20,000 American soldiers buried in France, to the United States. The bodies to be removed are those buried in cemeteries outside the zone of the armies and do not include those gathered into big American cemeteries in the army zones.

It is understood the American government will remove to the United States only those bodies requested by relatives of the dead soldier. How many such requests have been made is not known.

These 20,000 bodies are scattered in 600 cemeteries, the largest two of which are at Brest, where there are about 5,500 graves of men who died of influenza; Brest and on transports.

The graves in these cemeteries are principally of men who died while on duty with the Service of Supply, but there are also the graves of many who died at hospitals in the rear, to which they were removed after being wounded.

It will probably be a year before the removal of the bodies begins as the plan is first to remove to America the bodies of about 1,000 Americans buried in Germany.

Seventy-six Americans are buried in Italy, two in Holland and a few in Austria. The American dead in England will be removed before the work in the French cemeteries begins.

Judging from the winter's fashion notes there are to be a good many coats with detachable capes. Sometimes a little fur cape is to be part of a cloth coat—a detachable part, that may be put on and taken off the coat at will.

Men's waistcoats are excellent with brown velour suits.

**NEW DOG LAW
IS EFFECTIVE
AFTER JAN. 10**

Dogs Must Wear Collars with Licenses Attached.

Delta county dog owners who desire to keep their pets must secure licenses before January 10 from the clerk of the city or township in which they reside. Commencing on that date, all dogs four months old or over must wear a collar with a metal tag attached, except when they are engaged in lawful hunting or accompanied by their owners or lawful custodians.

The new state laws relative to the taxing of dogs is much more strict than the city ordinances, under which the licensing of the animals was conducted in past years. One good feature of the new dog laws is that the animals must be confined to the premises of the owners at night. The night is defined as being from sunset until sunrise.

Laws Strict.
The law provides that the prosecuting attorney can commence proceedings against any owner of an unlicensed dog. It will be the work of the sheriff and members of the state constabulary to locate and kill all unlicensed dogs. "The sheriff shall also kill, on complaint from the people, any dog that is in the habit of running at large unaccompanied by the owner," the law reads. Police officers must also kill dogs they find running at large.

**FINANCIAL CREED
FOR NEW YEAR**

Ninth Federal Reserve District Has Plan for Students.

Every individual in the Ninth Federal District will be urged to subscribe and live up to a financial creed during 1920. This statement of belief will be brought to the attention of all newspaper readers, to all school children and War Savings Society members and emphasized every way possible by the Ninth District War Savings Organization.

The source and nature of the financial creed is explained in the following telegram received last night from Washington by M. E. Harrison, War Savings Director of this district:

Financial Creed.
"Because the successful solution of the economic and financial problems of the coming year demands the concentrated effort of every American citizen, the Savings Division of the Treasury Department urged today that each adopt and live up to an individual financial creed and course of conduct."

"To obtain the views of the various parts of the country on this matter, the Savings directors of the twelve Federal Reserve districts were asked to draw up such a creed and resolution."

Summary Of Suggestions.
"The following is a complete summary of their suggestions:

'I believe in the United States of America.

'My opportunity and hope depend upon her future.

'I believe that her stability and progress rest upon the industry and thrift of her people.

'Therefore, I will work hard and live simply.

'I will spend less than I earn.

'I will use my earnings with care.

'I will save consistently.

'I will invest thoughtfully.

'To increase the financial strength of my country and myself, I will buy Government securities.

'I will hold above barter the obligations my country thus incurred.

'I will do these things to insure the greatness of America's future.'

"Only the most determined efforts towards thrift, economy, saving and simple living," said William Mather Lewis, Director of Savings Division, "will bring about a reduction in the high cost of living, the stabilization of National industry and commerce, and the continuation of prosperous conditions."

The Misses Gertrude Soper and Helen O'Dess have returned to Marquette, where they are attending the Northern State Normal, after visiting at their homes here during the holidays.

Beck-Horstman.

In the presence of a few close friends Miss Elveda L. Beck, daughter of Mrs. Tilda Beck, 117 Tenth street north, and Mr. George H. Horstman, of New York, were married yesterday, Rev. C. A. Lund, pastor of the Swedish Lutheran church, officiated at the ceremony. The newly wedded couple left last night for a brief wedding trip after which they will go to New York where they will make their permanent home. The bride has spent all of her life in Escanaba and has a host of friends here. The groom is a traveling salesman who has included Escanaba in his itinerary for the past several years.

W. R. C. Install Today.

Open installation of the recently elected officers of the W. R. C. will be held this afternoon, beginning at 2:30 at Grenier's hall. All persons interested are invited to attend. It is planned to serve a lunch after the installation ceremony, and it is expected that a big crowd of citizens interested in the work of this organization will be present.

New Year's Party.

Mr. and Mrs. Mose Derouin, Ford River road, were honor guests at an elaborate New Year's party given on Thursday. The affair was arranged by their children and grandchildren and a large party of friends. Dancing and music, including vocal and instrumental selections, were enjoyed and refreshments were served. Mr. and Mrs. Derouin were the recipients of a number of pretty gifts. Those who attended the affair included Mr. and Mrs. Joseph Ranguette of Schaffer, Mr. and Mrs. A. Lec Beauchamp and Mr. and Mrs. Henry Derouin of the Soo, Mr. and Mrs. Nap LaChapelle of this city, Arthur Derouin and Miss Alice LaChapelle of this city, and Mr. and Mrs. Ruet of Northland.

Sleigh Ride Party.

Martin Olson entertained a party of friends at a sleigh ride Sunday afternoon. The guests went to Schaffer, where supper was served, after which a program of social amusements was enjoyed.

Entertains Friends.

Miss Florence Olson entertained a number of friends at her home, Fifteenth street south, Sunday afternoon. Cards were played during the afternoon, following which refreshments were served.

K. of P's Install.

Officers elected at the first meeting in December by Escanaba Lodge No. 98, Knights of Pythias, were installed at a well attended meeting held last night. Torval E. Strom acting as installing officer.

The following officers were installed:

George F. McEwen, chancellor commander; G. H. Gray, vice chancellor; E. M. Williams, prelate; C. O. Follo, master of work; O. O. Rollins, keeper of records and seals; C. E. Lewis, master of exchange; J. F. Stonehouse, master at arms; J. Bawden, inner guard; W. Herbst, outer guard, and August Blomstrom, trustee for three years.

Following the installation a big oyster supper was enjoyed at which F. L. Baldwin presided as toastmaster and interesting talks were made by W. E. Olds, A. G. Hitchcock and H. E. Scott, the latter of Menominee, and other prominent members.

"Caught fringes" appears as trimming on many mantles.

**SCHOOLS REOPEN
TEACHERS 'SHY'**

**Illness and Absence Makes
Some Substitutions
Necessary.**

Illness and absence of several teachers in the public schools made substitutions and changes necessary in reopening the schools yesterday after the holiday vacation period. Supt. W. E. Olds, who has been ill, was barely able to get back on the job but he was there and the result was that things were running along according to schedule.

Miss Lynda Campbell, kindergarten teacher in the Washington school, was absent because of illness in Dollar Bay, and Miss Ruby Bell, assistant in the kindergarten at the Franklin building, was sent to the Washington school to substitute for Miss Campbell.

Messages were received from Miss Lewis and Miss Young, who spent the vacation in Steubenville, O., stating they would be unable to be here until Wednesday and Mrs. Beal has been assigned to Miss Young's room.

Miss Kitzick is substituting at the Barr school for Miss Belle Humour, who arrived Saturday but who is ill and could not take charge of the fifth grade. Miss Mildred Sourwine of the Barr school, also is absent because of illness and Mrs. Erickson has taken charge of her pupils temporarily.

Miss Hendryx, principal of the Barr school, is ill and her place is being filled by Miss Anne Eoyale. Mrs. Brennan has taken charge of the room which formerly was taught by Miss Clara Yougei who was married a few days ago and whose position has not yet been filled. Supt. Olds expects to have a teacher for this room in a few days.

John Schoonenberg has returned from Chicago, where he attended the annual gathering of salesmen for the National Biscuit company. It was one of the largest and best attended meetings ever held. The meeting was concluded with a banquet at the LaSalle hotel.

**Kelso Installs New
Accounting System**

C. E. Kelso, public accountant of Manistique, who recently located in Escanaba, has just completed the work of installing a modern accounting system for the city of Manistique and for Schoolcraft county.

The Courier Record of Manistique says of the system installed for the city of Manistique and Schoolcraft county by Mr. Kelso:

"One of the most encouraging signs of the times is the new accounting system that has been installed at the City Hall and in the Court House. Government costs are still mounting and it is most necessary that the public as well as the city and county officials keep abreast of the times with their accounting systems. The present city administration has been working with this end in view for the past six months. C. E. Kelso, who is one of the best accountants in this section, has brought the business of the city up to date and has started the city clerk and treasurer on an open road of figures and accounts. By their enthusiastic acceptance we judge they are not likely to miss the trail."

**Former Examiner
Reassigned Here**

A. E. Kilsdonk, who for some time has served as naturalization examiner for this district, has been transferred to the Chicago district and will be succeeded in this district by George N. Danielson, of Appleton. Mr. Danielson formerly served as examiner for this district and his reassignment is a matter of great satisfaction to his many friends here. Mr. Danielson will come to Escanaba to conduct the examination of applicants for citizenship who will appear before Judge Flannigan in the Delta county circuit court next Monday.

Miss Elise Kruger has returned to Lansing, where she is engaged as a teacher in the public schools, after spending the holidays at her home here.

Don't You Forget It.

Bear in mind that Chamberlain's Tablets not only move the bowels, but improve the appetite and strengthen the digestion. They contain no poison or other digestive ferment, but strengthen the stomach and enable it to perform its functions naturally.

CHARLES RAY
IN
"Hay Foot, Straw Foot"
He had a name like a cheap cigarette and a line of second-hand tricks that carried the smoke of ages.
But Betty was watching him and—who cares a darn, by Cracky, when his Betty is watching? It's one of the best "rabe" pictures Charles Ray has ever made.
