RE: Nishnawbe News Circulation

Patti Dyer has contacted the Computer Center and I understand that we can get a computer print-out of the addresses of high schools in Michigan, Wisconsin, and Minnesota. If a copy of the newspaper is included with the letter requesting a subscription from all high school libraries, I believe we could possibly get more revenue.

Perhaps we could send requests to a sample group of schools to test the market, i.e., Upper Peninsula, Northern Wisconsin, or those areas that we know have a relatively large Indian population.
