SALE FOR 30 DAYS COMMENCING MONDAY JUNE 18.

CONCISE, BUT TO THE POINT!

A backward season's business must be forced in one short month.

NECESSITY KNOWS NO LAW,

The fact that we have too many goods and must reduce our stock compels us to quote low prices which under other circumstances we would not dare to make. These reductions will of course, to a great extent, wipe out all our former profits for this season but there is no way to avoid it and what cannot be cured must be endured.

Capt. Smith Moore Dead. From the Marquette Mining Journal of Saturday last we clip the following announcement of the death of a lake navigator well known to Escanabans: "Yesterday forenoon Captain Smith Moore returned by boat from a week's business trip to Cleveland. He boarded a street car, joking at the time with friends. Just as the car was rounding the curve into Hewitt avenue, Captain Moore, who was chatting with Mr. Asire and Alderman Brown, fell suddenly backward, his face flushed and showing every symptom of apoplexy. The car was immediately reversed and run at the highest speed back to Washington street where medical aid was summoned. All was without avail, however, for in a few minutes the captain was dead."

Captain Moore had spent his life afloat, on salt water as well as fresh, but just how he "at regular intervals weathered the storms of Cape Horn" while plying between New York and the isthmus of Panama the Mining Journal is requested to explain.

Iron Mountain Quiet. The miners and laborers at Iron Mountain will not strike. Advices are that no "labor agitation" will be tolerated by the men themselves. Their pay is too small but they understand that it is all that can be hoped for at present and are content to await better times.

Better Returns It. The person who picked up a lady's purse on Thomas street last Thursday afternoon will do well to return it without further delay. The address of the lady can be had at this office or of Marshal Ebsner.

The liveliest divorce centres of the west have to take second place when compared with matrimonial separations in Egypt, according to the accounts of the American consul to the land of the Nile. He tells of an altercation that took place between one of his most trusted servants and a veiled lady, his wife, which squabble resulted in a divorce in less than five minutes. The scene opened with reproaches emanating from the woman. "Take care," warned the man, "I put you from me." Nothing daunted the virago continued until the exasperated

man again repeated: "I put you from me." Still the torrent of abuse flowed incessantly. Worried beyond endurance the servant entered the house and secured thirty shillings out of his year's salary of £10, and returning to the woman said: "Here is your dowry; now for the third and last time I repeat: 'I put you from me.'" At these words the woman went her way, and the astonished American learned that he had witnessed divorce proceedings; for in Egypt the assertion, "I put you from me," made three times to a wife by her husband, constitutes a solemn divorce without alimony, and once the words are said the woman has no right to any further support from the man.

The Cleveland Outlook.

Sales of iron ore made in the past week were somewhat less in volume than in the preceding one, and consisted chiefly of piecing out lots of 10,000 to 15,000 tons. With the exception of two or three ores of limited output, which were especially sought and for which later buyers were willing to pay ten or fifteen cents a ton more than the first prices, there has been no advance, but all the conditions surrounding the market support the firm feeling noted for some time past. At the opening of the season there were but 100,000 tons of unsold standard Bessemer on the docks, and the indications point to a closer adjustment of production to demand than has been the case for several years past. The question of lake freights is an important factor in the account; certainly little or no unsold ore would come down, if present ore prices were maintained, accompanied by an advance in lake freights. Within the past week the rates on ore that ruled through the greater part of May have continued—eighty cents from the head of lake Superior, sixty-five cents from Marquette and fifty cents from Escanaba. It is believed that nothing but a very heavy grain movement, of which there are now no indications, will cause any advance from this basis. An element in the ore situation that is not altogether unexpected is the announcement in an Ironwood, Mich., dispatch, that miners there have made a demand for advances ranging from twenty-five to fifty cents a day. —Iron Trade Review.

Johnstone, the Mind Reader.

Paul A. Johnstone, the newly developed star in the psychological world,

will give a manifestation of his powers as a mind-reader at The Pete. soon this evening. Johnstone is the individual whose demonstrations in slate-writing and other phenomena of the kind, invariably surprise the curious and the half-believers in spiritualism, and who goes into a trance and drives about the streets to find some hidden article. He has created excitement in the larger cities by this latter performance, and Mr. Peterson informs The Iron Port that the mind-reader will perform the feat in Escanaba to-day.

Of Course He's Willing.

When interviewed at Saginaw regarding the force of the opposition to him, Gov. Rich said: "That is hardly a fair question to ask me now, but I don't take stock in all I read in the papers. Both the gentlemen mentioned for the governorship are personal friends of mine, and I am willing to submit to the will of Michigan's Republicans, as expressed at the convention."

Appropriated Fishing Tackle.

Some unprincipled individual appropriated a quantity of expensive fishing tackle belonging to "Old Man" Young on Saturday last. Mr. Young got out a search warrant, and the deputy sheriff "went through" a painter who had been at work in the Oliver House, but the tackle was not found.

EDITORIAL COMMENT.

The Bliss boom and the Pingree boom are likely, we imagine, to offset each other and make the renomination of Gov. Rich easy. If, after that, the convention sees fit to declare for "one term" we shall make no kick, though we think it bad policy. In truth we ought to make the gubernatorial term four years instead of two.

The Rev. Dr. Cave and the ex-rebel Rosser, who made fools of themselves at Richmond on Decoration day, are getting backhanded compliments from all level-headed southerners. They many of them think as Cave and Rosser do but are not fools enough to parade their sentiments.

James A. Conolly, a veteran of the war of the rebellion, will try to down "Bill" Springer for congress. It is about as tough a job as the assault on the rebel lines at Kenesaw, but the major may win. The Lord knows we wish he may.

The Free Press calls the rivalry for the gubernatorial nomination "a split in the republican party." It won't be able to find the "split" five minutes after the nomination is made.

Judge Tourgee, "a bystander," is pounding the republican party pretty hard, now-a-days, and his blows are hard to parry, but it is "the chastisement of a friend."

One of the graduating class at West Point having married the daughter of "an enlisted man," the rest of the class "cut" him. Snobs!

Such men as McBride, and Sovereign, and Debs are potent to start mischief but utterly impotent to control or stop it.
