SCHALK NEARING BREAKING POINT

BY HILLY EVAN. Ray Schalk, brilliant catcher of the Chicago White Sox, is apparently to be denied a certain goal that he had set.

For 11 consecutive years Schalk has caught 100 or more games. He hoped to stretch the record to an even dozen, then rest on his laurels. However, a series of injuries have practically killed his chance.

Schalk has passed the peak of his career. Years of hard work have taken their toll. The wonder catcher of the White Sox admits it.

"Unless 100 games is a little too much for me now," says Ray, "but if I ever get my hands in good shape as there is no telling what I might be able to do."

At present Schalk is playing with three badly injured fingers on his throwing hand. Most catchers wouldn't even don a uniform under the circumstances. Schalk loses the game. Perhaps that in a measure explains the greatness that he has attained.

Clutton for Work. White far from being husky, Schalk is built on sturdy lines. One would never expect a player of his physique to stand up under 11 years of hard service, in which he has caught from 106 to 151 games.

From 1912 to 1924 Schalk has taken part in 144 games, an average of some 131 games per season over a period of 11 years. The league schedules call for 154 games. This will give some idea of how little the rest of the White Sox catching staff has had to do over that stretch of play.

Most Unusual Career. Schalk's career in the American League fairly teems with brilliant performances. The feat that phases him most is that he has made a putout at every base in the field, quite unusual for a catcher.

While Schalk may never again catch 100 games during a major league season, he is far from being through as a catcher, still is one of the most valuable in the majors.

A matter of fact, there will probably be a place for Schalk in the ball as long as he cares to stick to the game. His knowledge of the catching game makes him invaluable to a club in its development of pitchers.

Always noted as a smart player, the managerial field is open to him, should he care to take a whiff at directing a club.

Catchers of the Schalk type come about once in a score of years.

Girl, Wounded in Gun Battle, Dead. Detroit, Aug. 8.—Mary Ciletti, 22-year-old, died in Grace Hospital tonight as the result of a bullet wound in her abdomen, received during a gun fight yesterday after her home between her father, Frank Ciletti, and two alleged extortionists, Angelo Lettori, one of the latter, was instantly killed by the latter.

Frank Vigiotti, the surviving member of the pair, arrested on a charge of assault with intent to kill pleaded not guilty in Judge Christopher Stein's court today and was held for examination on \$20,000 bail. The death of the girl will result in the charge being changed to murder, according to the police.

When arraigned, Vigiotti denied having fired the shot that struck and killed the girl, declaring that he had no gun when he accompanied Lettori to the Ciletti home. He said the girl was wounded by one of the bullets fired by her father.

The father denied that he wounded his daughter.

Valentine Resigns Office With A. F. L. (By The Associated Press.)

Atlantic City, N. J., Aug. 8.—Joseph Valentine, former president of the International Molders' Union and present vice president of the American Federation of Labor, resigned today and his resignation was accepted by the executive council of the federation.

It was given as the reason for Mr. Valentine's resignation. A though it was reported that James Wilson, of Cincinnati, would succeed him if he resigned, no action was taken today toward the appointment of his successor.

Fagan Says Ford Petitions Are To Be Filed on Time

(By The Associated Press.) Detroit, Aug. 8.—Peter Fagan, secretary of the state public utilities commission, close friend of W. W. Potter, candidate for the Republican nomination for governor and visible "manager" of the mysterious Ford-for-Senator movement, came to Detroit tonight to check up on the prospects of his adopted candidate.

After viewing the situation he offered assurances that Henry Ford's name will be on the ballot in the September primary, as a Republican candidate for senator. Petitions bearing at least 10,000 signatures, both for the long and short terms, will be filed with the department of state at Lansing before the time limit expires Saturday afternoon at four o'clock, Mr. Fagan promised. An automobile caravan will tour to Lansing Saturday and file the petitions in Secretary of State Deland's office, if present plans go through.

Persons in Detroit and throughout the state, according to Mr. Fagan, have been tumbling over each other trying to get Ford petitions to circulate. He has been besieged with requests, he stated, and only the lack of time before the time for filing is up prevented an avalanche of signatures.

Mr. Fagan withheld information as to who is behind the Ford campaign. It would not do to disclose the names now, he indicated. He refused to deny, however, that "it wouldn't hurt Mr. Potter" to have him teamed in the public eye, with the automobile manufacturer.

At the Ford office it was insisted that Mr. Ford knows nothing about the movement, and spokesmen for him described it as "absurd." Mr. Fagan, on the other hand, believes that if his name is once placed in the race, Mr. Ford will make the run—or at least will not take the trouble to withdraw—and he foresees "Ford and Potter" swept into office on a landslide.

U. S. Minister to Rumania Returning for "Conferences"

(By The Associated Press.) Washington, Aug. 8.—American Minister Jay at Bucharest is coming home for conferences at the state department which may have an important bearing on future relations between the United States and Rumania.

The subject of the discussion will be the recent act of the Rumanian parliament, covering mining and oil exploration and development in that country in a way that is held here to affect adversely American interests particularly in Rumanian oil deposits. Officially, the reason for Mr. Jay's return to the United States is "for conference." Beyond that, state department officials will not go. It is likely, however, that his stay in this country will be somewhat prolonged, and the date of his return to his post may depend on the success of further American efforts to have the new law modified.

The matter already has been the subject of representations to the Rumanian government, but so far as can be learned the sections of the legislation objected to have not been corrected. Coupled with this circumstance is the further fact that Rumanian officials have been slow to adjust their government's commercial obligations with several American firms, including the Baldwin Locomotive Company.

Order Is Issued to General Mitchell

(By The Associated Press.) Milwaukee, Wis., Aug. 8.—Rickardier General William E. Mitchell, assistant chief of the United States air forces, who was rewed a year ago in Detroit, Mich., to his recently divorced wife, Caroline Stoddard Mitchell, was ordered today to show cause why he should not be required to pay additional alimony.

The order was issued by Judge J. J. Gregory on petition by Mrs. Mitchell and is returnable before Judge E. T. Fairchild, on August 15.

The order was filed today and it declares that General Mitchell's income has been doubled by coming into possession of a portion of the estate of his mother.

BLIND AIDS BLIND

Congressman John L. Cable of Lima, O. (left) temporarily is groping about in total blindness. But from his room in a sanitarium in Cincinnati he is directing his campaign for governor of Ohio. Walter E. Darling (right), a blind ex-service man, is serving as his secretary. Cable lost the sight in one eye some years ago. And a flying splinter nearly cost him the sight of the other a few weeks back. Specialists, though, say he will be able to see again in a few weeks.

CAN HER CHILDREN TRIUMPH OVER CURSE OF HEREDITY?

BY ALEXANDER HERMAN, NEA Service Writer. Gloucester, N. J.—Thomas Allen, two, and his brother, Edward J., three, still look upon life with a smile.

Their mother, only 22, fears that their aspect soon will change. If heredity means anything, these youngsters start life under a tremendous handicap.

Their father recently was electrocuted for murder. Their grandfather met his end the same way. Their uncle is in a reformatory.

Their mother faces the job of counteracting these influences in an environment of poverty.

Allen, his father-in-law, and another man paid the penalty for the murder of a farmer, whom they tried to rob. After nearly a year of litigation the state took its due—three lives for one.

That's justice which Mrs. Allen can't comprehend.

"No thought was given to me," she says. "No thought was given to the two children, who will have to become charges of the state, if anything happens to me."

"If only one of the men were left to make my lot easier!"

She was left so poor that she couldn't claim the bodies of her husband and father. They now lie in a Potter's field.

Homeless and penniless Mrs. Allen sought succor of the several agencies.

Aside from advice, there was little forthcoming, until Mrs. Minnie White, a neighborly widow, took her in tow.

"There's too much slush in this world," says she. "Too much sentiment and not enough action."

"Nothing is as black as it looks. Mrs. Allen has only two kids to worry about. I had five when I first became a widow."

That was back in Columbus, O., shortly after the Johnston flood. Mrs. White's husband, an engineer, was killed in a train wreck.

"And I mothered those five, had eight more by subsequent marriage," she says, "and raised 30 other children on the side."

Mrs. White became a professional nurse.

"It's the best job a woman is fitted for," she goes on, "and the most comforting."

"So why worry?" Under such guidance Mrs. Allen has taken a new lease on life. She, too, has turned nurse. But not for her own children. She has a job caring for the youngster of a wealthy family in town.

And she leaves her children with Mrs. White.

With the money earned the widow, bereft by the state, hopes to make a go of it until her two little boys grow big enough to help her in turn.

But between that time and this, there looms a big cloud that casts its shadow over the worried mother.

What kind of children will hers grow up to be?

Will they be among the unfortunate upon whom the sins of the father are visited?

Or will adversity strike out any evil tendencies that may be inherited?

Much Interest Is Displayed in Bout

(By The Associated Press.) London, Aug. 8.—Everybody in Great Britain who knows anything about boxing, and a good many thousands who pretend they don't ordinarily take interest in fisty affairs, seem to be greatly excited over the twenty round bout which is to be fought tomorrow evening in the great Wembley stadium by Tom Gibbons, the American light heavyweight, and Jack Bloomfield, the English boxer.

Already 70,000 seats are said to have been sold, an unprecedented number for a British ring battle, and if the weather is good, the newspaper prophets expect a crowd of 100,000 to swarm into the stadium, which will hold 127,000 spectators.

Thomas Read's Petitions Are Not Filed Yet

(By The Associated Press.) Lansing, Mich., Aug. 8.—Thomas Read of Shelby was missing tonight from the list of candidates who had filed their petitions for the Republican primary. He assured representatives of the secretary of state he would file for "something" in the morning, leaving the matter of whether he would file for governor or lieutenant governor still in the air. Nine names already are on the list.

Eight names made up the list of candidates for United States senator tonight with assurance that the name of Henry Ford will be added before closing time tomorrow night. Petitions for Ford appeared on the streets of Lansing today and it was stated they were being signed in Flint and Jackson.

Late filings today included George P. Tilma, Republican, Grand Rapids, as an opponent of Carl E. Mapes, for congress in the fifth district and Anthony F. Brackett, Norway, Republican, for congress in the twelfth.

With one day left for filing, two congressmen, Michener in the second and Hudson in the sixth were without either Democratic or Republican opposition.

Two Lansing Men Drowning Victims

(By The Associated Press.) Benton Harbor, Mich., Aug. 8.—D. Brockway, 22 years old, and Jay Slaughter, 19, both said to be residents of Lansing, Mich., were drowned while swimming in Lake Michigan at Bridgman, 15 miles south of here, late today.

Brockway, according to reports, lost his life in an effort to rescue his companion, who had called for help.

The two men had been staying at Bridgman only a few days. High waves carried both bodies out, but later washed them ashore. An inquest will be held at Bridgman tomorrow.

The drownings bring the total number drowned in Berrien county this week to three, Frank Bedwell, a member of the House of David, having broken his neck when diving from a springboard Tuesday.

Lansing, Mich., Aug. 8.—Dee M. Brockway and Jay Slaughter, drowned at Bridgman late Friday, were both students at the Michigan Agricultural College and were in Bridgman on extension work for that institution. Brockway, who would have entered his senior year this fall, was president-elect of the Delphi Society. Slaughter was tackle on the freshman football team and was regarded as one of the best prospects for the varsity team this year. He was also a member of the Delphi Society.

Mr. and Mrs. Fred L. Brockway, parents of Dee, left for Bridgman Friday night after being notified of the drowning of their son.

Couple Married at Midnight by Judge

(By The Associated Press.) Omaha, Neb., Aug. 8.—R. G. Wood, 26, of Lancaster, a school principal, and Ruth J. Jensen, 24, a school teacher of Cincinnati, Ohio, wanted to get married on their birthday anniversaries, August 7 and 8, respectively, so Judge Crawford, of Omaha, started the ceremony at 5 minutes to 12 o'clock, midnight, and ran it over into the morning to accommodate them today. It was necessary for the judge to waive the provisions of the Nebraska eugenic marriage law, which requires a ten day notice before marriage.

Supreme Penalty Paid by Murderer

(By The Associated Press.) Villiplate, La., Aug. 8.—Euzebe Vidrine, 27 years old, confessed slayer of five men, went calmly to his death on the scaffold at 12:42 o'clock this afternoon.

Vidrine was hanged for the murder, on May 19, last, of Robert Leo Wiggins, 27-year-old son of a former sheriff of Evangeline Parish, his fifth victim.

At the foot of the scaffold Vidrine stopped to have his photograph taken and after mounting the structure spoke for half an hour, admonishing his hearers not to gamble or drink whiskey.

In a book written by Vidrine since his conviction of the murder of Wiggins and released immediately following his execution, he told of the details of the killing of four other men.

MILWAUKEE LADY SAYS IT IS WORTH \$10 BOTTLE

"Knowing as I do what a wonderful medicine Tanlac is I would buy it if it cost ten dollars a bottle," is the high valuation placed on the famous treatment by Mrs. Fred Pennig, 1605 Claybourn St., Milwaukee, Wis.

"For a year past I have been so afflicted with indigestion that I could scarcely eat anything. What I did eat caused gas to collect around my heart and almost cut off my breath. These attacks were attended by such severe pains that I could hardly stand it.

"Tanlac set my stomach in order and then, backache, nervousness, dizziness and that tired feeling all went away and left me 11 pounds heavier and feeling like a new woman. I am still taking Tanlac and am gaining more in weight and strength every day. I am glad to help spread the good news about Tanlac."

Candidacy of Ford Not Begun by Him

(By The Associated Press.) Lansing, Mich., Aug. 8.—W. W. Potter, candidate for governor, tonight issued a letter of thanks and appreciation to the political forces that have been ascribing to him the advancement of the Henry Ford candidacy for senator.

"Aside from the fact I had nothing to do with Mr. Ford's candidacy, and never communicated with him directly or indirectly, and that statements made in the press that I was responsible for initiating Mr. Ford's candidacy, are unqualifiedly false, I feel very much pleased, gratified and flattered to be credited with having sufficient political power, prestige and influence to have initiated Mr. Ford's candidacy."

"When my attention was called to the fact that Mr. Ford was likely to be a candidate, I did say, and I now repeat, that the fact that Mr. Ford is dry and not wet; a taxpayer and not a tax dodger; and for Coolidge and not against him, would make him a formidable candidate."

"I thank all those who credit me with political influence strong enough to make Mr. Ford a candidate."

BIG QUININE SHIPMENT Athens.—The largest consignment of quinine ever shipped at sea was dispatched by the American Red Cross on board the Thermistocles, which left New York for the Piraeus with an initial shipment of five tons to combat malaria in Greece. The consignment included 10,000,000 tablets.

BASES PLANNED FOR AVIATORS' USE, IS REPORT

(Continued From Page One.) Raleigh on the open sea will be considered, although the fliers regard this a desperate expedient.

The navy and army officers have another hope. This is based on the fact that the steamer Quest, built for the Shackleton Antarctic expedition some years ago, is now in these waters and may be engaged to break through the ice of some east Greenland harbor and thus afford the planes a base. The Quest left Reykjavik sometime ago and her present position is not known. Radio messages requesting the services of the ice breaker were sent out today. They have not yet been answered, but it is hoped they may have been picked up by the Quest.

Lieutenant Smith and Major Crumrine are unwilling to give up the fight at this stage. They agree that the weather conditions in Greenland are best between August 15 and September 1 and favor remaining here until good reports are received.

Much Property Is Damaged By Terrific Storm

(Continued From Page One.) of additional deaths were received. Late today State Highway engineer T. J. Donaghey made public reports from division highway engineers which show that more than 200 bridges in the state have been destroyed.

Telephone and telegraph companies are among the heaviest losers.

A violent wind and rain storm swept over the northeast section of the city today. A half inch of rain fell while a forty-mile-an-hour wind uprooted trees and caused considerable damage to small buildings.

Train Is Derailed; Nobody Is Injured

Columbus, O., Aug. 8.—Norfolk and Western officials here said no one was seriously injured when train number 16 was derailed at Hanging Rock today. The Cincinnati sleeper and Columbus express car, attached to the rear of the train, left the track, bruising several passengers, according to reports to officials.

A wrecking crew from Portsmouth cleared the track.

**Iron Trade Rev'ed**

Cleveland, Ohio, August 8th—Iron Trade Review yesterday said: More headway is being made in the recovery of the steel market though the situation cannot yet be described as one of general activity. Orders are more numerous and for heavier amounts. Some companies place present bookings at 60% of normal and for most producers July was the best month in new business since April or March. This improvement has ranged from 20 to 70% depending upon the product. These gains appear larger relatively, however, than they actually represent in tonnage and they serve to emphasize the very low level of buying that prevailed in June and early July.

Prospects for the farming implement industry are much brighter and production schedules for the fall and winter are to be revised upward. The comeback of the automobile industry is very gradual.

Operations are slowly reflecting the betterment in tonnage. Steelmaking activity of the Steel Corporation is considerably higher, the Carnegie Steel Co. averaging 20% above a week ago and is 60% to 65% engaged. Independent plants in the Pittsburgh district are near 60%. Operations are expanding in the Youngstown, Wheeling and eastern districts but Chicago shows slight change.

Curtailment of pig iron production gradually is subsiding as indicated by the figures for July, which, while 14.6% lower, make a better showing than the declines of 20% in June and 21% in May. The July output of 57,541 tons daily was the lowest since January 1922. Total production in July was 1,783,778 tons, a loss of 239,058 tons from June. Active furnaces at the end of July had fallen to 146, a

**Sheriff's Posse Finds John Lehto Firing Big Outdoor Outfit.**

Moonshining clauses of the old internal revenue act, under which illicit manufacturers of whiskey were prosecuted before prohibition became nationwide, probably will be resurrected in the case of John Lehto, of Maple Ridge township, arrested yesterday by a sheriff's posse. The officers found Lehto operating a large still in the middle of a dense swamp seven miles northeast of the village of Rock.

The still, samples of mash and 31 gallons of moonshine liquor were confiscated.

**Taken by Surprise.**

Creeping through a mile of swamp and marsh, the posse, which included Sheriff J. P. Carney and Deputies Earl Bourdais and Clem Tordeur, took Lehto completely by surprise. They made their appearance suddenly from a clump of bushes, not ten feet from the spot where the moonshiner was pouring water into the tank which cooled the vaporized "mule." He offered no resistance.

The still and the pipes which leads to the dripping tank are made of heavy galvanized iron. There is not a square inch of copper in the entire apparatus. The still is pyramid shaped with a base about five feet square. The vapor traveled about ten or twelve feet through a piece of galvanized spouting, intended to drain water from the roof of a building. The fuel used was cordwood, an open fire being built under the still. The liquor, even after it had been condensed, was still steaming hot and it had a particularly vile and violent odor.

**Caught in the Act.**

No search warrants were procured for the raid. The plant was not on Lehto's property and all thought stories about it had reached the ears of the officers frequently. It was impossible to procure a sales charge on which a search warrant could be based. Consequently, it was necessary to catch Lehto in the act of operating the still. On a previous visit to the place, the officers had crept through the swamp and watched Lehto making repairs, soldering loose joints, splitting wood for the fire and doing other odd jobs around the place, but the fire was not started.

Yesterday, however, they found "things going at full blast, with Lehto on the job."

**Once Tried for Murder.**

Lehto was acquitted, about a year and a half ago, of a charge of murder, growing out of the death of a neighbor who had been beaten to death with a pickaxe. His plea was self defense. Home-made moonshine figured prominently in that incident.

London—The rotation of the earth on its axis is gradually slowing down, Dr. A. C. D. Crommelin told members of the British Astronomical Association. loss of 12.

Easing of steel prices has lowered Iron Trade Review composite this week to \$39.29 compared with \$39.47 last week, \$41.58 three months ago and \$44.87 one year ago.

Recent sales of lake iron ore have revealed price weakness of 50 cents or more.

The long string of new proposals up for bids, attests to the continuing vigor of building steel conditions. More than 40 new inquiries totalling 39,000 tons are reported this week. Awards total 32,366 tons.

**DEMAND GROWS MUCH BROADER**

A steady broadening demand for lumber and advancing prices—in the substance of reports from practically all manufacturing and distributing centers, says the American Lumberman, Chicago. Bookings by mills subscribing to the Southern Pine Association during the week ended July 25 totaled 104 percent of normal—the highest point for nearly a year and 25 percent above the week's production. Orders accepted by the West Coast Lumbermen's Association mills during the same week exceeded output by 10 percent, a large percentage being for overseas shipment. The North Carolina Pine Association reports that trade in that wood, which has been lethargic for many months, has lately shown a notable recovery, bookings by its member mills during the week ended July 26 having risen to 85 percent of normal, while production stood at 72 and shipments at 76 percent of the same mark. The Western Pine Manufacturers' Association also advises that demand for inland Empire forest products has

broadened considerably during the last few weeks, orders and production now being on a par at 94 percent of normal, with shipments still low at 73 percent.

Advices received from the various producing sections since the dates indicated, state that demand during the first week in August has held up to these levels, if not actually increased. Prices are a good deal stronger, advances being noted especially in Douglas fir and western pines.

The larger part of the demand continues to come from retail sources. City yards are transacting a good business, consequent to the sustained building activity, and there is more buying being done by country retailers. Middle-western retailers are especially optimistic regarding fall business as a result of the generally satisfactory crops and the high prices obtainable on practically all farm products. They expect that when the farmer has finished his field work he will do some construction and much repair work, and that while the individual demand may be small the aggregate will be large.

Hardwoods are gradually working into a stronger position, and some manufacturers are advancing prices on items that are attracting a big demand and are

getting scarce. The most conspicuous among these items are FAS sap gum and oak, which not only have a good domestic call but also attract a large volume of foreign orders.

An aerial defense gas that makes it impossible for anyone breathing it to ascend higher than 6,000 feet is reported to have been invented in Germany.

**Entertain Friends.**

Miss Muriel Wilson entertained a number of her friends at her home Thursday evening. Among those present were the following: Florence Benson, Kathryn Brouse, Unice Carlson, Dagna Carlson, Helen Crabusky, Kathryn Kelly, Agnes Kelly, Edna Post and Josephine Wagner. The evening was delightfully spent in dancing, playing games and various other diversions, following which a delicious luncheon was served. All the guests reported a most enjoyable evening.

**Juvenile Party.**

"Tommy" Dufour Jr., son of Mr. and Mrs. Thomas Dufour entertained ten little playmates at a birthday party at the home of his parents, 429 So. 12th St.

Games were played and dainty refreshments including ice cream everything were served. No fights were reported which proves that "Tommy" and his pals are well behaved.

**Mr's Duranvau Entertains.**

Miss Julia Duranvau entertained a large number of friends at her home at Flat Rock Thursday evening in honor of Mrs. Leon Miller of Dillard, Oregon, formerly Miss Blanche Barron of Flat Rock, and Mrs. Charles Byers, formerly Miss Yvonne Gardner also of Flat Rock. Cards,

games and various other diversions were enjoyed by the guests and a most pleasant evening was spent by everyone.

**Marriage Licenses.**

Marriage licenses have been issued at the court house to Ignatz Miketuno and Julia Hahlin, both of North Escanaba; John B. Rheume, of Bark River and Emma Beauchamp of Bark River.

**Morrell-Nichols.**

Miss Gladys Morrell, prominent and popular Escanaba teacher, and Chester V. Nichols, of Green Bay, were married at 5 o'clock yesterday afternoon at the home of the bride's mother, Mrs. R. E. Morrell, 738 Lake Shore Drive. The ceremony was read by the Rev. Mr. Lawrence, of the Menominee Episcopal church in the presence of a small group of relatives and close friends of the couple. The young people were unattended. Miss Morrell was given in marriage, by her mother.

The bride wore a satin crepe gown, trimmed with lace and carried a bouquet of pink roses. The home was tastefully decorated with cut flowers.

A wedding dinner was served at the Morrell home at 6 o'clock, for the wedding guests.

Following a honeymoon, to be spent at one of the resorts in the northern part of the peninsula, Mr. and Mrs. Nichols will make their home in Green Bay.

**Matthews-Lewis.**

Announcements have been received in the city of the marriage at Green Bay on Wednesday of Miss Dorothy Matthews, daughter of Mr. and Mrs. G. H. Matthews, of that city to Mr. Alden Lewis, also of Green Bay. The bride formerly resided in Escanaba with her parents, when her father was engaged as round house foreman for the North-Western road here.

## "KIDS" HAPPY AS THEY ROMP OVER GROUNDS

Approximately fifty of the poorer children of the city were the guests of the Lippa Amusement Company at the carnival grounds yesterday afternoon, and just fifty kids are being taken today, and are loud in their praise of the generosity shown them by the officials of the company.

At one-thirty yesterday afternoon, the kids assembled at the City Hall, where a red ribbon was appended to their cloaks, indicating that they had been asked by representatives of the Amusement Company to be its guests for the day. They were then brought to the grounds in cars, furnished by local individuals.

Baby Theda, four-year-old dancing girl, had anticipated the event for a week, and frequently, during the course of her stay here, had remarked that she was going to be the sole entertainer; "that this was to be her party." And it was her party, for wherever the local youngsters had congregated yesterday, the diminutive dancing marvel could be found in their midst.

The various recreational facilities at the grounds were thrown open to the indigent children amid great hilarity. They rode the Ferris wheel, and spent much time chatting away while riding the bucking broncos on the merry-go-round. The entertainment at the Vaudeville and Comedy Show was something novel for the kids, and they were all open mouthed watching Baby Theda pull her dancing stunts.

Ice cream sandwiches were furnished gratis by Mr. Young, secretary of the Lippa Company, and the fifty kids had a great time munching their gratuity, and listening to the prattle of Baby Theda. All in all, they had a splendid time, and left the grounds happy in the thought that they were so well remembered by total strangers.

Officials of the concern intimated yesterday that they were well satisfied with the hospitality extended them by local residents, and were gratified to ascertain that their efforts were being well received here.

## George Goodwin And The "Mrs." Visit Here Thurs.

George Goodwin, who cavorted at second base for the Manistique ball club last season, arrived in the city Thursday evening by motor from Stevens Point, Wisconsin, where he was a member of the fast Point aggregation up to its disbandment a few days ago.

Incidentally, George was accompanied by his "better half," Mrs. Goodwin, for the popular ball artist was recently united in marriage at Green Bay to a Stevens Point young lady. The trip to Manistique was in the nature of a honeymoon and simultaneously the renewal of his many acquaintances.

Goodwin, it will be remembered, remained with the locals last season until injuries forced him out of the game towards the close of the pennant chase. During the winter he was a member of a basketball quintet in Chicago, until sickness forced him to his home, where he was confined for many weeks.

The erstwhile Manistique player remained in the city until this morning, when he left for Munising, where he will visit with friends preparatory to leaving for Chicago. On November 1 he will accept a position as travelling salesman for a large Illinois concern.

## Former Manager On Visit Here

Earl Smith, former superintendent of the Goodwillie Box factory, in this city, and at present engaged in a similar capacity at a plant in Grand Rapids, Wisconsin, arrived in the city yesterday by motor for a brief visit with relatives.

Mr. Smith left his place of employment early this week for Rockford, Illinois, and other points in that state. From there he proceeded to Saginaw, where his family will remain for some time. Mr. Smith will leave the city tomorrow for Grand Rapids.

Miss Pearl Miller and sister, Avis, who have been the guests of Mrs. W. B. Thomas of Range street have left the city for their home in Minneapolis.

## CITY BRIEFS

Mrs. John Sells, who has been the guest of Mr. and Mrs. George Nicholson and family, has returned to her home in Sheboygan, Wisconsin.

Miss Carrie Moore has arrived in the city from Chicago, where she has been attending summer school. She was accompanied here by her two young nephews from Kenosha, Wisconsin, who will remain for a visit with Miss Moore, and the Hopkins family of Manistique Heights.

Mrs. George Young and family of Milwaukee have arrived in the city for a visit with Mrs. Young's parents, Mr. and Mrs. Chas. Atkins. She was accompanied by her sister, Miss Ruth Atkins, who is a teacher in the public schools of Detroit.

Mrs. Arthur Cockran was a caller in Marinette, Wisconsin on Thursday.

Mrs. Frank Ledstrand left the city today for her home in Marquette, after spending the past two weeks with her daughter, Mrs. Ben Gero, Jr.

Miss Abba Thompson left the city yesterday morning for Ypsilanti and Detroit on a two weeks' vacation from her stenographic duties in the Herbert law office.

Miss Olga Thompson, clerk in the Peoples' Store, is enjoying her annual two weeks' vacation.

John Vertin of Milwaukee is the guest of relatives and friends this week.

Miss Edna Tucker entertained at Bridge Thursday afternoon at her home on Range street.

Sweet peas of deep rose hue were pleasing arranged about the rooms, and added to the attractiveness of the small tables.

Mrs. Benjamin Gero, Jr., was the winner of the high score. Out of town guests in attendance were: Mrs. Voss of Milwaukee, Mrs. Parrish of London, Ontario, and Mrs. Frank Ledstrand of Marquette.

## DEMOCRATS TO PLACE TICKET AT PRIMARIES

At a Democratic caucus held at the local Justice of Peace office Thursday evening, the slate for the coming primary election on September 9 was elected and a strong ticket placed in the field for the primaries.

The meeting was adjured to be the best and most enthusiastic ever held in the county, and was attended by a large gathering. Those in attendance were very optimistic over the nominations, and it was intimated yesterday that the local Democrats will make a strong bid for the variously contested berths.

The Democrats have placed their appointments for the county offices, namely, that of county clerk, sheriff, and road commission. The present incumbents of the respective offices will be opposed by George McPherson of Thompson, and Frank Volstein, Edward Fitzgerald and Ed. Shilston are the candidates for the office of road commissioner.

Members were also elected for the county commission. The election resulted in the selection of George McPherson as chairman, and George C. Grenney as secretary and treasurer.

Petitions for the above offices were filed with County Clerk John Forshar yesterday afternoon. The sudden decision of the local "Demos" comes as a surprise to many Manistique people, as it was assumed that there would be no opposition at the polls.

With two tickets in the field, political activities will soon begin to stir, and there promises to be some lively moments before the primary election on September 9.

## Lakeside Giants Continue Their Winning Streak

Lakeside Giants 8; oakland Owls 5; that's the result of the fracas at the Fair Grounds Thursday, when the Giants got a commanding lead in the early innings, and were never in danger for the remainder of the fray.

As a result of the victory, the Giants stand far in the lead of other teams in the local Boys' League. Six straight wins without a loss, and a fat average for sportsmanship, that's the enviable record established by the Giants, who are being coached by Ben Tebo, first sacker on the local city nine.

Previous to the opening of the Boys' League, the Giants had won three games without a loss, so that their season's record, including league contests, stands nine wins and no defeats.

Walker and Thurman did the heavy work for the winners in the Thursday contest, while Wood and Schuetter performed for the losers.

## JAMES WOOD VERY PLEASED WITH OUTLOOK

James C. Wood, local attorney, and former State Senator, continues in an unrelenting campaign in the promotion of his candidacy for Congressman from the Eleventh District. He will be opposed at the September primaries by Frank D. Scott, present incumbent, Dr. W. A. Lemire, of Escanaba, and Thomas Mezzion, of Antrim county.

Mr. Wood has practically completed his survey of the district, but avers that he will continue his campaign up to primary election day on September 9. He is highly pleased with the outlook, and reports that the political situation is constantly looking better.

His present campaign is not a new venture, as he has canvassed this district before in the interest of his state senatorial campaign, and in this wise, his acquaintances will be a big asset in his present fight.

## FORD TOWN TEAM PLAYS HERE TODAY

Local Club Will Face Tedeschi Again This Afternoon.

Stanley Millard who pitched his team to a 3 to 2 victory over the Escanaba crowd Thursday afternoon will take a rest today and either Borman or Carsten will do the hurling this afternoon when the Iron Mountain club and Gladstone meet at the Gladstone ball park.

The game will be called at 3 o'clock.

Today's game will be a stiff contest, it goes without say, and a big crowd of fans from both towns will be on hand for it.

Iron Mountain is bringing along Tedeschi and Humber, both star hurlers, and will use Eckholm at the other end of the line.

The Fordtown manager has not made known his mound selection but it is probable that Tedeschi, who needs no introduction to the local fans, will pitch.

The Iron Mountain pitcher has one win over Gladstone to his credit and has suffered one defeat at the hands of the local club, making the breaks about even. In game standings Gladstone at present has one game the start of the Ford team, a fact that is bound to make things doubly interesting.

Munising Sunday. In addition to this afternoon's game local fans will have a good contest in store for them Sunday when Munising comes here for a return game. Munising will bring along Lane, its negro pitcher. Manager Gervais has not announced his pitching selection.

## CLIFFORD HAM HAS ARTICLE IN MAGAZINE

An article on city managership written by Clifford W. Ham, Gladstone's first city manager, who is now city manager of Pontiac, is one of the leading features of the late edition of the City Manager Magazine.

The article written by Mr. Ham, is described as "a splendid discussion and study in municipal administration." Its subject is "The Assistant City Manager."

The story is accompanied by a fine picture of the city manager.

Sister Thaddeus has arrived from Chicago and is visiting here as a guest at the home of Mr. and Mrs. Axel Peterson. Sister Thaddeus is a sister of Mrs. Peterson.

Joseph N. Raiche of the Buckeye store force, is enjoying his annual vacation.

Miss Hilda Nelson of Grand Rapids visited friends here yesterday.

Miss Florence Scott, who has been visiting friends here, left yesterday for her home at Hancock, Wis.

Helmer Skogquist has left on a motor trip through Wisconsin. H. Ellenbogen of Detroit was a business caller here yesterday.

Mr. and Mrs. William Sauvageau are the proud parents of a son born Sunday night. The baby has been named William Edward. Mrs. Sauvageau, before her marriage, was Miss Azetta Moore.

Mrs. James O'Brien and daughters, Eleanor and Margie, have returned to their home at Chicago after a month's visit with Mrs. O'Brien's sister, Mrs. Edwin J. LaPorte.

## AUTHORITIES LOOKING FOR CAMP PROWLERS

Night Watchman May Be Placed As Guard Against Further Disturbance.

Reports that would-be burglars were prowling about the tourist camp Thursday night, led yesterday to a complete investigation of the matter by Gladstone police officials.

According to the story of the tourists who were at the camp at the time, the marauders, making their way about with the aid of flashlights, did considerable prowling about the camp but were frightened away before they could make away with anything.

The police were notified of the disturbance and an immediate investigation started with the result that a night watchman will probably be stationed at the park during the remainder of the season.

The prowlers, there is every reason to believe, were amateurs who were after either food or small booty and who were new enough at the game not to realize that tourists are not in the habit of carrying around their valuables with them.

Watchman. No disturbances of this kind will be tolerated by the officials, however, and a watchman will probably be taken as the best means of guarding against any repetition of anything of this kind at the camp.

In the meantime every effort will be made to apprehend the offenders and bring them to justice.

## Will Attend Ceremonies

Mrs. Louis Bullion will leave Sunday night for Milwaukee where she will attend the ceremonies at St. Francis convent, at which her

## CALL MEETING SOON TO PLAN FOR BAZAAR

Plans for the annual bazaar which will be held at All Saints' Catholic church sometime early this fall will come up for discussion at a meeting which will be called in the near future by the Rev. Father Sebastian Maier.

At this meeting arrangements for the bazaar which as yet have been definitely discussed will be talked over, appointment of a general chairman and of committees made. It is probable that the dates of the bazaar will be set at this time.

The Girls' Sodality members have announced their intention of having a booth at the bazaar and have already started preparation of articles for it, but their plans will not be made definite until after the general meeting is held and plans outlined.

## FIRE DESTROYS LUMBER IN BUCKEYE YARDS

Fire which broke out in the Buckeye yards early Thursday evening, destroyed a part of one of the Coopersage lumber piles before it was brought under control.

The blaze had a fair start when the call came in to the fire department about 6:30 o'clock, and it required twenty minutes hard work to extinguish the fire. Both the city and the Buckeye hose were used.

The loss which is estimated at a small figure is covered by insurance.

Being sensible takes a lot of practice.  
daughter, Miss Emily Bullion, who is entering the sisterhood, will take her first vows. The services will be held at the convent Tuesday morning.

**"THE STRANGER" IS APPEALING LOVE DRAMA**

A John Galsworthy story has at last reached the screen. "The First and the Last" by this greatest of all present-day English authors will play at the Community theatre today as "The Stranger," a Joseph Henabery Paramount production, featuring Betty Compson, Richard Dix, Lewis Stone and Tully Marshall. The story, an appealing love drama, has London with its sombre streets, criminal courts, stately homes and gloomy prisons as its material background. The characters are a beautiful young "girl of the streets," a neurotic well son of a prominent London family, his elder brother, a powerful politician and a candidate for Parliament, and an old mope-man.

**TOM SIMS SAYS**

Finding a horseshoe or laughing when the boss pulls a joke are both considered signs of good luck. The man who said figures couldn't lie wasn't a tax collector. Arizona is called the cactus state. So is the state of matrimony. The stingiest man on earth didn't want to pay his room rent because he had insomnia. Where you start does not matter. It is much better to be a former poor man than a former rich man. Kansas man who swallowed 27 spoons certainly has a silver lining. Many a man marries a woman simply because he admires her good taste in selecting a husband. Georgia hen laid an egg nine inches around, and we'll bet the oldtimers say it is as big as a basketball. The radio expert who spills sulphuric acid on his clothes: finds everything isn't acid should be. One thing isn't acid should be. Good taste is fresh peach ice cream. American frogs are being shipped to China where they will be raised if they do not croak.

**W. J. MILLER TO BE CANDIDATE FOR JUDGESHIP**

**Lawyer-Teacher To Seek Nomination For County Office.**

The following announcement of his candidacy was issued yesterday by W. J. Miller of Rapid River: "To the Voters of Delta County: "I wish to announce my candidacy for the office of Judge of Probate of this county. My decision to become a candidate is the result of a careful survey of the situation and of the solicitation of friends in all parts of the county. "I have lived in Delta County thirty-six years. My home for the last eighteen years has been at Rapid River. I am married and have five children. "As to my qualifications I wish to say that I am a graduate of the Ferris Institute, and also of the University of Michigan Law School, where I worked my way through. I taught school in the rural districts for several years before attending college. I was admitted to the Bar of Delta County in 1906. Since that time I have been in the general practice of law in both State and Federal courts. During the past thirteen years, along with my law work, I have been principal of the Rapid River High School. "I have held the office of Circuit Court Commissioner for two terms, and I am serving my third term as Supervisor of Masonville Township. "Having practiced law for eighteen years, I like every other lawyer of equal experience, have had to familiarize myself with probate law. If I am elected no patron of the probate court will have to engage an attorney to draw up papers, nor look after his or her interests unless it is so desired by such patron. "My experience as a teacher and school executive has given me qualifications for dealing with the cases against juvenile offenders. I believe I know more about the problems of our youth and their solution than persons who have not had to come in daily contact with boys and girls. "As a member of the County Board of Supervisors, I am thoroughly conversant with the problems of taxation and finance in this county. As a member of this Board I have always stood for economy. I have advocated the principle, that we should get a dollar's worth of value in work, materials or service for the dollar spent. I have not hesitated to criticize officers or departments whenever I thought criticism was due. "If nominated and elected, I assure you that the office will receive my constant, personal attention. I feel that I can bring to the office a high degree of education, training and experience that will be to the benefit of all the taxpayers of the county and especially to those who will have business in this court. "It will be an utterly physical impossibility for me or any other candidate to see each and every voter personally. It shouldn't be necessary. I want to present my case to you for your thoughtful consideration, after which, if you see fit, and think I have the qualifications and that I am entitled to your vote, give it to me, if not, to the other fellow. "I want to win on my merits. If I have had any measure to success so far in life it is because I have tried to merit it. In this campaign the voters will determine the issue. "I assure you all that your vote and support will be appreciated whether nominated or not. "WILLIAM J. MILLER."

**AMUSEMENTS**

**AT THE DELFT** For nearly a year Strongheart, recognized leader of canine stars of the screen, has been absent from local motion picture houses while other pleasing and talented dogs have appeared in good productions. Now, just as if to show that he is willing to give every dog a chance to have his day without fear they can unspool the leadership away from him, Strongheart is back, more brilliant and fascinating than ever. His new First National starring production is "The Love Master," the current attraction at the Delt Theatre. **AT THE STRAND** A scene not called for in the script was enacted during the filming of Wildcat Jordan, the Talmadge feature now showing at the Strand theatre. It was necessary for Talmadge to make a quick get-away from a second story window onto a passing cab. In making the leap, Talmadge jumped from a fire escape, swung out into the street and letting go jumped to the top of a taxicab. The action was timed perfectly before completing the leap, but on taking the scene the driver of the cab was a second slow and instead of landing on the front of the cab where the roof was made of sheet iron, Talmadge jumped onto the wooden framework, crashing through to the inside. Luckily, he was not seriously injured. This is but one of the many thrills and stunts in "Wildcat Jordan."

**Six Men Held to Federal Court on Liquor Charges**

Three Gladstone and three Iron Mountain men were bound over yesterday morning by United States Commissioner C. D. McEwen, on charges of having violated the federal prohibition laws. **Over-Refining It.** Frederick MacMonnies, the noted sculptor, was talking in New York about a new sculptor's work. "His work," he said, "is over-refined, over-nice—uselessly so. "His work, in fact, reminds me of the young husband who said to his bride at the honeymoon's end: "Darling, now that we have settled down in our new home, I'll have to leave you every morning to go to the office; but to make the parting less abrupt I'll give up my usual train, the 8:15 express, and take instead the 8:35, a slow accommodation." BE A GOOD SPORT.

A 20-pound muskellunge was hooked by a fisherman in Sparrow Lake, Ontario, Canada.

This fisherman, Bill Sparling, was alone in his boat—no one to advise. Also, he was a "city feller," had never before caught anything as big.

So he blew off its head—also blew a big hole in the bottom of his boat. An Ojibway Indian rescued him before he drowned among the weeds.

Fishing is an exciting game—when they're striking. That's why hundreds of thousands of Americans are vacationing with rod and line.

Fishing and hunting are the most ancient industries of man. They existed long before agriculture.

No real sportsman ever catches and kills more fish than will be eaten. To do so is vandalism.

All anglers know that the streams and lakes of our continent are gradually being "fished out."

When you catch a fish too small to keep, always handle him with wet hands. A dry hand is almost certain to kill the fish.

Another thing: An angler, enraged because the fish isn't large, often hurls it viciously far from the boat. This is apt to kill the fish within a few days.

Play the game fairly. Be a good sport. Help conserve our vanishing fish resources.

35000 CHANGES PROPOSED.

Since our republic was founded, more than 35000 schemes to amend the Constitution have been introduced in Congress.

The framers of the Constitution overlooked a lot of bits. They naturally failed to provide many things not needed at the time but absolutely necessary now.

Our national Constitution was provided during a period when most work was done by hand, there being little machinery.

Invention has revolutionized our ways of living. And most Constitutional changes are the result of mechanical invention.

Prohibition, for instance, was brought about primarily to make people work more. Child labor, the great evil needing a Constitutional amendment to abolish it as we long since abolished negro slavery, is an outgrowth of the machine age.

ENJOY THE SUMMER. The summer, long delayed, is here. Summer is no time for politics, or any other kind of feverish exertion and rivalry.

A summer of intense work, especially indoors, is hard to bear. A little less intensity and a little more outdoor recreation will make summer a time of enjoyment.

Let politics take a vacation. Let business and other work, and all hard-and-fast routine make a partial vacation.

When summer comes, it will be time to take up the slack, to start in on a full-time schedule and

## 8 PETITIONS FILED FRIDAY

### Time For Getting Names On September Ballots Closes Today.

Eight more names were added to the list of candidates for Republican nominations for county offices, when the county clerk's office closed last night. The legal period for filing petitions comes to a close at 4 o'clock this afternoon.

Those who filed yesterday were:

George E. Harvey, candidate for renomination for county clerk.

Charles R. Carter, candidate for renomination for member of the lower house of the state legislature.

W. P. Belanger, for county treasurer.

James Frost, for county prosecutor.

C. D. McEwen and Glenn W. Jackson, for circuit court commissioners. Two to nominate.

Dr. G. C. Bartley and Dr. George Bjorkman, for coroners. Two to nominate.

A number of other candidates are expected to file their petitions before the period closes this afternoon.

No Democratic candidates have made their presence known.

## BOY IS DROWNED WHILE CANOEING

Menominee, Mich.—George Hastings, Jr., 16, son of George L. Hastings, president and general manager of the Northern Hardware and Supply company, Menominee, was drowned while canoeing on the bay just back of his home at 394 Sheridan road, Menominee. It is believed that he became faint and fell out of the canoe. His body was recovered about 100 yards from shore in ten feet of water, and about 100 yards south of the Riley and Hinker coal dock.

See Empty Canoe.

First intimation that anything was wrong was when Ed. Potenhauer and Mike Leihberr about 9:15 o'clock saw an empty canoe floating out in the bay. They went to the Hastings home and inquiring for young George were told he was out in the boat. They went after the canoe in another boat and brought it to shore. In the meantime a call for a life boat was responded to by Captain Arthur Nyholm of the Domino. R. W. Wells' yacht, and Captain Frank Surk of the Isabella, belonging to A. C. Wells. Within five minutes of the call the men in a power boat and two minutes later after circling twice with the craft Captain Nyholm dived overboard bringing up the body of the boy.

## 3360 Registrations in City, to Date

Registrations at the city hall, at 3 o'clock yesterday afternoon totalled 3360. Voters have registered at the rate of about 100 a day since Monday and were continuing to come in rapidly. A larger registration list is expected today, and Monday's total will be supplemented by those received Monday night when City Clerk Carl E. Anderson spends the evening at the North Escanaba fire station for the convenience of north side residents.

## REMARKABLE RECOVERY OF MRS. SPINK

Minnesota Junction, Wis.—"I was under treatment, but nothing seemed to help me, and I was run-down and so weak that I had to remain in bed much of the time and was like an invalid. I had pains in my abdomen and in the female organs, and my stomach bothered me. My husband saw Lydia E. Pinkham's Vegetable Compound advertised, thought it must be good, and brought it home to me and advised me to try it. After taking one bottle I was able to eat, and after six bottles I was doing my own work, which I hadn't been able to do for years. I have a new baby who is doing nicely, and I am still taking the Vegetable Compound and feeling better than I have for four years. The medicine is surely wonderful and a good thing to have in the house."—Mrs. GEORGE BRUX, Minnesota Junction, Wisconsin.

A country-wide canvass of purchasers of the Compound reports 98 per cent. benefited.

## NO TRACE OF MISSING MAN

### Officers Still Running Down Every Available Clew.

Search for Joseph Giboulean, Escanaba contractor, who disappeared from this city two weeks ago, is continuing, with the police and sheriff's department following up every possible angle, in an effort to solve Giboulean's mysterious absence. All confessed last night that unless the body, reported by berry pickers to be floating about near the Gladstone coal dock recently is found, and is identified as that of the missing contractor, they were no farther ahead than they were when they first began their search.

Giboulean is said to have had a considerable sum of money when he left. Attempts to verify reports that he was seen, in the east part of the city, walking from Ludington street in the yards of the Chicago & North-Western, have been only partially successful, it was said. If the man seen at that time were really Giboulean, the date of his disappearance would be fixed definitely at August 29, instead of August 26, when relatives last saw him.

Others Help.

Officers in other counties of this locality are assisting in the running down of rumors, and police of Milwaukee, Green Bay and other cities have been asked to cooperate.

The Midwest will be covered, next week, with pictures and detailed descriptions of the man.

## WISCONSIN FLOOD DELAYS TOURISTS

Mr. and Mrs. Wm. Ray, son E. C. Ray, and daughter Janet of Detroit, motored to this city and are guests of Mrs. Lewis Rose, Hartnett Ave. When they arrived at Fond du Lac, Wis., they were forced to remain in that city one day owing to the damage done by the recent floods which delayed traffic on railroads as well as highways. They report the roads on this side of Fond du Lac in good condition but for a distance before reaching Fond du Lac the roads were in a poor condition on account of the water. Mrs. Rose's daughter, Mrs. Edith Franson and children who left here Tuesday morning for their home in Chicago had to remain in Fond du Lac 24 hours as the traffic along the C. & N. W. Ry. was at a standstill.

Mrs. Rose's guests will leave Monday for their home via the straits.

## GOV. A. J. GROESBECK COMING TO ESCANABA

Friends of Gov. Alex. J. Groesbeck have received word that he will tour the Upper Peninsula next week, and will visit Escanaba. The exact date of the governor's call here, however, is not stated.

## HERMAN WITTE CASE GIVEN TO FEDERAL

Herman Witte, of Schaffer, who is charged with the sale of liquor and the ownership of the biggest still ever captured in these parts, has been bound over to federal court, the United States authorities having taken over his case yesterday. His bond has been fixed by Judge D. McEwen at \$500.

## CITY MARKET PLANS PROGRESS RAPIDLY

Escanaba's municipal curb market will open August 16—one week from today. Preparations are being made to convert the first block in South 11th street, opposite the city hall, into a market place two mornings each week. The market will continue to operate semi-weekly throughout the summer and early autumn.

## OBITUARY

MRS. MARY REISBERG.

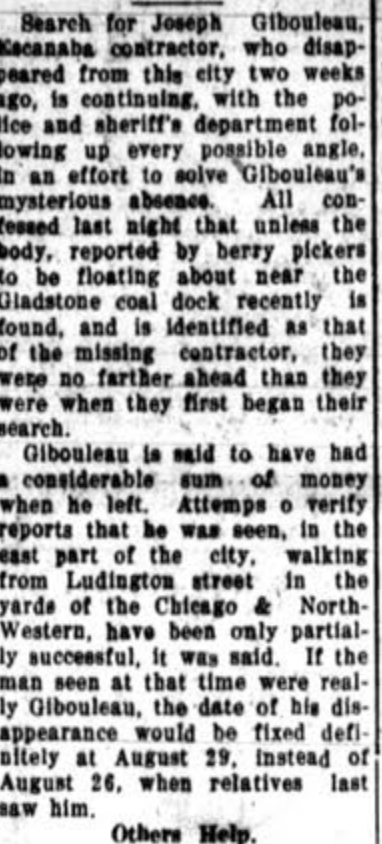

Mrs. Mary Reisberg, aged 74, died at her home at Stonington Thursday afternoon after an illness of several weeks due to complications.

Mrs. Reisberg had made her home at Stonington for the past 27 years with her son Carl who is the only survivor. The funeral service will be held from the family home at two thirty o'clock Sunday afternoon. Rev. O. E. Palm, pastor of the Swedish Methodist church of this city will officiate at the services. Burial will be in the family lot in Stonington cemetery.

Mrs. Reisberg was known to every inhabitant of the Stonington district and had a host of friends who extended their sympathy to her son in his loss.
