YANKEES OKEH FRENCH LOAN AS GOOD SIGN

REFINANCING MOVE MAKES SOUNDER CONDITION.

BY DAVID LAWRENCE.

(Copyright 1927, by the Associated Press)

Washington, Sept. 2.—The United States government will interpose no objection to the flotation by the government of France of its proposed \$70,000,000 refinancing loan. This does not mean that the government has modified its position with respect to the lending of money to countries which have not agreed to fund their war debts but it does mean that any refinancing operations are regarded as symptomatic of better financial conditions in the country which does the borrowing.

The new French loan has not come officially before the American government but the policy here has been decided upon. As a matter of fact, the desire of France to convert her outstanding loans from an 8 per cent basis to a 5 per cent basis is regarded as natural and as one official remarked "America will not stand in the way of France if she can save 3 per cent interest on her present fixed charges on past loans."

France Has Money. It is recognized moreover, that any saving which the French government accomplishes adds that much more to the French budget as well as adding considerable strength to the future borrowing power. The incident is nevertheless provoking a good deal of discussion here because officials of the government point out that France will not be able much longer to withhold payment on the war debt to the American government while accumulating in America large gold reserves. It is estimated for instance, that France has on deposit in the United States somewhere between \$400,000,000 and \$500,000,000 and the contention is advanced that a nation with such a big deposit ought certainly to be able to pay at least \$20,000,000 a year on the war debt.

There is no indication that the American government will reopen the matter with the French. It is expected, on the other hand, that the French government will not long desire to place itself before the world as having ignored a debt of the size of the French debt to the United States. The next move, in other words, is expected to come from France.

Congressional Action. So far as the American congress is concerned, no action will be taken on the Mellon-Berenger agreement until the French parliament has approved it. The word war debt refunding commission has been dissolved and there is little likelihood that any counter proposition which modifies the Mellon-Berenger agreement in any essential point will be acceptable. There are reasons to believe, however, that French reservations to the Mellon-Berenger agreement could be so phrased as to make those reservations acceptable to the American congress.

Although Premier Poincare's diplomatic relations with the United States have never been

Deliver Package as Ruse, Pilfer House

Detroit, Sept. 2.—(P)—Two men adopting the ruse of delivering a package, entered the home of Euben Simon today, locked Mrs. Simon and her aunt, Miss Minnie Sirkster in a closet and escaped with clothing, jewelry and money totalling about \$1,000. Both men were armed.

The men carried a package which they left behind. It proved to be an empty box carefully wrapped.

A diamond valued at \$500, a fur coat valued at \$150 and a watch and chain valued at \$200 were among the articles taken.

LEAGUE FEELS PRESS' POWER

Asks Support in Smoothing International Affairs.

Geneva, Switzerland, Sept. 2.—(P)—The feature of the meeting of the council of the League of Nations today was the formal recognition by all its members of the immense power of the press. Basing their remarks on the recent successful international press conference here, men like Gustav Stresemann, German foreign minister; Paul Boncour, French statesman; Sir Austen Chamberlain, British secretary for foreign affairs, and Mineichiro Adachi, Japanese ambassador to France, dealt successively on the tremendous responsibility of the press. Like their colleagues they pledged themselves to forward in every way possible the press conference resolutions, which treat with such matters as improvement of international communication, reduction of press rates, protection of news against piracy and the elimination of all censorship except in war time.

Herr Stresemann, who has learned of the power of the press in Germany, emphasized that press delegates occasionally had found some difficulty in obtaining unanimity. He then uttered a phrase which was creating great interest in Geneva tonight: "Compromise is not a sign of feebleness but of wisdom."

He added to this an expression of the hope that newspapermen would collaborate with politicians to achieve smoother running of international affairs.

Sir Austen Chamberlain referred particularly to the press conference resolution which appeals to the world press to contribute to the consolation of peace by combatting hatreds between nationalities and thus prepare for moral disarmament.

"The collaboration of the press in such work is of equal consequence, and may be even of greater influence than anything statesmen can do," declared Sir Austen.

Stephenson Appeals for Prison Release

South Bend, Ind., Sept. 2.—(P)—D. C. Stephenson, former Klan leader, today appealed to the United States district court here in an effort to obtain freedom from Indiana state prison at Michigan City, where he is serving a life term for murder of an Indianapolis girl. The prisoner, through Atty. William V. Rooker, of Indianapolis, asked Judge Thomas Slick to grant a writ of habeas corpus on the ground that he is held in violation of his rights under article four of the fourteenth amendment to the federal constitution. Stephenson contends he was convicted illegally in 1925 on an "unassigned, unverified charge of venue."

NAILS RUMORS AS ERRONEOUS IN STATEMENT

ARTICLE IN JOURNAL UNTRUTHFUL, HE ANNOUNCES.

Washington, Sept. 2.—(P)—Hansford MacNider authorized a denial through his secretary tonight of a statement that will appear tomorrow in the Army and Navy Journal to the effect that he had resigned as assistant secretary of war.

"I have not resigned," MacNider's statement said. "My stay in Washington will probably be regulated by my superiors."

"I have no intention of running for the senate or for anything else. There is no vacancy for a senator for four years which proves how absurd such a statement is."

MacNider, now in New York, issued the statement through his secretary here.

Second Rumor. The assistant secretary declared that "the statement which will appear in the Army and Navy Journal constituted the second time 'within a month this rumor has appeared.'"

"I have no knowledge of its source or authority," he added. The article to appear in the Journal fails to assign any reason for its forecast of action by the secretary, but declares it was known MacNider had been dissatisfied with the budget bureau treatment of war department estimates.

ISSUES DENIAL. New York, Sept. 2.—(P)—Hansford MacNider tonight denied a report from Washington that he had resigned as assistant secretary of war.

"It's all news to me," Mr. MacNider said when shown a Washington dispatch quoting the Army and Navy Journal, as saying that he had resigned effective December 1.

"This is the second time this has been reported," he continued. "A month ago another service journal had both Secretary of War Davis and myself resigning and running for senatorship in our respective states."

"As a matter of fact, there will be no senatorship vacant in Iowa for four years more. Couldn't deny rumor. "The secretary of war was in Europe and could not deny this earlier rumor, but I denied it as soon as I got back from an inspection trip by air and read the newspapers."

"As far as I am concerned," Colonel MacNider continued, "I have no intention of resigning and none whatsoever of running for any public office. I have never run for public office and I have no expectation of doing so."

American Bar Starts Movement to Regulate Trans-Oceanic Flights

Buffalo, N. Y., Sept. 2.—(P)—A movement aimed at the regulation of trans-oceanic flights to prevent loss of lives in unworthy planes was launched today at the final business meeting of the American Bar association's fifth annual convention.

The movement took the form of a resolution unanimously adopted, that pledged the association's members to urge congress to pass legislation extending the powers of the secretary of commerce to include regulation of such flights.

The resolution was introduced by Chester W. Cuthell, New York chairman of the association's air law committee, general counsel of the National Air Transport company, and the Curtiss Aeroplane company. In an explanation of the resolution and the air law committee's report, Mr. Cuthell said:

"During the recent trans-oceanic flights, 25 lives have been lost. If all reported missing are dead. Most of these flights were not of a strictly commercial nature; the profession calls them 'stunt' flights. Our commercial aviation law was passed to regulate commercial enterprises, and therefore not broad enough to give the secretary of commerce the right to regulate, and in some cases, of preventing such flights."

William P. McCracken, Jr., chairman of the Bar association's air law committee, and of the aeronautical bureau of the department of commerce, commenting on the resolution in an interview, said the department of commerce would be glad to assume regulatory power, if congress saw fit to confer it.

"But," he added, "the impression must not be taken that regulation would prevent the loss of all life. There might be lives lost just the same as now. For these are pioneer enterprises and heavy with risks. Still, even if we could not prevent the loss of some lives, to save a few would be worthwhile work and one that the department would be willing to undertake."

Emphasized Danger. "One feature of these flights is that they are drawing attention from the safety of daily commercial aviation and leading to a focusing of the public attention on disastrous, sometimes terribly so, flights that mean little in the development of aviation. I do not mean that this is true of all ocean flights, for some have been highly important."

Silas H. Strawn, Chicago attorney, was elected president of the association, succeeding Chas. S. Whitman, former governor of New York.

HIT SENATORIAL POWER. Buffalo, N. Y., Sept. 2.—(P)—The ability of two or three senators, "exercising a greater power" than the president to prevent bills coming before the senate for a vote was scored in a report submitted to the American Bar association today.

"Two or three senators," the report said, "in preventing a vote are exercising a greater power than the chief executive, whose veto could be overridden by a two-thirds vote. Moreover, the president cannot hold a bill longer than 10 days, while a committee can hold one forever. There is no way of preventing this oppressive practice except through a righteous public resentment which requires organization to become effective."

Oppose Delays. That statement was made in a note attached to the report, which deals with the failure of the judicial procedure committee of the bar association to procure passage of a bill it believes would remedy delays. Senator Walsh of Montana and Chairman Graham, Pennsylvania, of the house committee, were mentioned as opponents of the measure.

The report was submitted without a reading and the only action taken was an approval of it and a vote to have the committee on judicial procedure continue its attempt to procure passage of the bill.

ACE FOLLOWS ST. RAPHAEL'S PATH TO WEST

FOG FORCES FRENCH SHIP TO RETURN TO HANGAR.

(BULLETIN). Plymouth, Eng., Sept. 2.—(P)—Capt. F. F. Courtney hopped off on a trans-Atlantic flight at 6:28 a. m. today.

New York, Sept. 2.—(P)—Strong refusal against the support being given long flights, especially trans-oceanic, was manifested today as fear for the lives of the St. Raphael's crew became sad certainty.

At Buffalo, N. Y., the committee on air laws of the American Bar association expressed hope that legislation might be enacted to halt the mounting loss of life. The Stinson Aircraft corporation of Detroit declared no orders will be accepted hereafter for planes intended for solo oceanic hops. From Washington, navy hydrographers called attention to the strikingly adverse conditions faced by the St. Raphael and declared these conditions might be expected to operate against other "immediate" eastward flights reported in prospect.

Characterizing the ocean flight as "a gambler's hazard," industrial German dailies decried the importance being attached to them and urged that the men, machines and money be better spent in other lines of development.

Olds Led Heavily. In London, the government weather bureau arrived at the same conclusion that odds lie heavily against successful ocean flights at this stage of aviation. Not only in the present season, the analysis held, but for 355 days in any year, nature opposes the attempts with her weapons of fog and wind.

Despite the long list of missing Capt. T. F. Courtney was at Plymouth, England, tonight ready to take off in his big aircraft cruiser "Whale," at dawn.

Some slight hope for the St. Raphael and its passengers, the Princess Lowenstein Wirtzel, Captain Hamilton and Colonel Minchin, was revived in the report that a white light, probably belonging to an airplane, was sighted by the Dutch steamer Bijlandt at sea about 250 miles east southeast of New York.

Light Going East. The light was traveling in an easterly direction, however, and it was the St. Raphael, the plane was far off its course and going in the wrong direction.

Thick weather held two more planes, the Sir John Carling, flying from London, Ont., to London, Eng., and the Royal Windsor, en route from Windsor, Ont., to Windsor, Eng., to the ground. They were forced down by fog, one near Montreal and the other near Caribou, Me.

Charles A. Levine was grooming his plane, the Columbia, today for a take-off from Cranwell Field, near London, with Captain Northcliff as pilot.

The Pride of Detroit flew from Constantinople to Bagdad, on the seventh day of its flight around the world and now has some 5,025 miles.

BLUEBIRD RETURNS. Lebourg, Sept. 2.—(P)—French trans-Atlantic flyers are taking a day off tomorrow. Announcement that there would be no flights attempted Saturday morning came somewhat as a disappointment to Boulevardiers, men and women about town, who for the past month have acquired a habit of pacing to Lebourg in the early hours of the morning as they formerly went to the Bois de Boulogne, but to harassed mechanics, officials and newspaper men the news was welcome, meaning one day in which to rest.

The Bluebird after a flight that failed today will need retouching in its stabilization and heavy load-lifting equipment. Farnam Brothers, builders of the plane, and their technical men had a long conference with Pilots Leon Giron and Pierre Corbu who were forced back by fog after starting for America today. It was decided to make necessary changes Saturday and it was expected that the plane would be ready to try again Sunday.

Rabbit Restriction Unnecessary—Dice

Lansing, Mich., Sept. 2.—(P)—No further restrictions on the hunting of snowhaze rabbits in the upper peninsula are necessary, in the opinion of L. R. Dice, of the University of Michigan, who submitted a report to the conservation department today. Dice recently completed an investigation. His report will be submitted to the conservation committee next week. It is probable, it was said, the committee will rescind a recent order shortening the season on rabbits in the upper peninsula.

Dice's report declared there was evidence that the rabbits are numerous in most places and very abundant in some. There was no trace of disease, he declared.

Following the committee's decision to shorten the season, protests were received. Norman H. Hill, of Sault Ste. Marie, a member of the commission, wired the department, suggesting a reconsideration of the short season order and Dice's report bears out his contention no further protection for rabbits is needed.

CAL CONSIDERS EARLY SESSION

May Be Needed to Decide Election Contests in Senate.

Rapid City, S. D., Sept. 2.—(P)—Convening of a special session of the senate this fall in order to give it an opportunity to consider contested election cases will be considered by President Coolidge in conference with senate leaders upon his return to Washington. It was stated today at the executive offices that Mr. Coolidge is not aware of the exact standing of the contested cases but he thinks it might be helpful to take these up ahead of the regular meeting time in December.

Two contests involving considerable fireworks are pending for the seats of Senator Smith of Illinois, and Senator Vane of Pennsylvania, both Republicans.

While a special session of the senate seems likely if approved by its leaders, it was reiterated today that Mr. Coolidge has not changed his opinion about a special meeting of congress. This opinion is understood to be that there is no necessity for a session for flood relief alone.

Attention again was directed today at the executive office to the bankers' manifesto of a year ago which urged removal of trade barriers in the form of tariffs and it was on behalf of Mr. Coolidge that he thought a recent editorial in the Saturday Evening Post explained his view—that the manifesto did not refer to America and its tariff.

Mr. Coolidge likes particularly the sentence of the editorial declaring: "The suggestion that discussions on trade barriers are directed at us in the same sense that they are directed at European countries is gratuitous and the implications do not operate in the direction of improvement in international commercial relations."

This view has always been held by the president, namely, that the manifesto given out in London and signed by a large number of international bankers had reference only to the tariff walls standing between European countries.

Monroe Crime Quiz Adjourns for Week

Monroe, Mich., Sept. 2.—(P)—The one-man grand jury investigation into crime conditions in Monroe, conducted by Judge George Sample of Ann Arbor, was adjourned today until September 12. Eight witnesses were questioned today including Deputy Sheriff A. C. Morrin of Erie. The grand jury has now questioned 170 witnesses.

Monroe, Mich., Sept. 2.—(P)—A graphic story of how a family was routed from their home at night, marched away into the woods and fogged by four masked men, was told today by one of the victims, J. R. Richardson, a cotton picker, in district court where one of the alleged floggers is on trial.

Cain Anderson, the defendant, is a wealthy farmer and dairyman and the Richardson family was a tenant on his property. Dressed in a blue denim shirt and overalls, Richardson took the stand and described the attack, declaring he had recognized the planter as one of the assailants. "My wife was sick in bed, my four children were asleep and I was in the hall of the house when four men, wearing masks, and carrying guns, suddenly entered the house," Richardson related. "They ordered me to put up my hands and my wife to get out of bed. My wife and I were marched from the house to a nearby wood. I was caught by my hand and led to the ground on my side and whipped with a rope. "Dewitt Osborne finally took a rope and tried to break every bone in my body. (Osborne is also a der. indelict and awaiting trial. "They jerked my wife down and whipped her." Richardson said she asked "What was that for?" and the men replied: "Because you won't work."

AMERICAN CITY BUREAU CHIEF TO COME HERE

Charles E. Watkins, educational director of the American City Bureau of Chicago, has a busy schedule ahead of him next week when he comes to Escanaba to assist in the membership renewal and stock taking campaign of the Escanaba Chamber of Commerce.

Chamber officials in charge of the movement feel that Mr. Watkins has a message of unusual interest to every citizen of Escanaba and are arranging for him to appear before as many representative groups in the city as his schedule will permit during his stay of one week here.

At 10 o'clock Monday morning he will speak at the Labor Day celebration meeting in the DeWitt theatre, of which Charles N. Wolf is chairman.

Joint Gathering. At noon Tuesday he will address a joint meeting of the Rotary and Kiwanis clubs at the Delta hotel and will appear before the American Legion at 8 o'clock in the evening.

Wednesday at noon, Mr. Watkins will meet with the clergymen of Escanaba at a luncheon in the Delta hotel. He will address a meeting of the North Star society Wednesday evening at 8 o'clock. At 9 o'clock members of St. Joseph's Holy Name society will hear him in a brief address.

Thursday evening at 5:15, in the Delta hotel, a Membership Forum meeting of the Chamber of Commerce has been called to hear him in one of his principal addresses during his stay in Escanaba. The meeting will be in the form of a dinner and notices have been mailed to all members with the request to return their reservations at once in order that proper provision may be made to accommodate as many as the dining room will seat. After the forum meeting Thursday evening, he will speak to the members of the B. P. O. E.

Friday evening at 8 o'clock he will speak before a meeting of the Masonic orders in the Masonic hall.

Yank Rancher Pays Huge Ransom, Freed

Nogales, Ariz., Sept. 2.—(P)—Dispatches to the Herald from Tepic, Nayarit, today reported that Alfredo Quimby, an American rancher of Tecomete, in the state of Nayarit, has been liberated after being held for ransom by bandits since Monday. Quimby's release was obtained by friends who paid a total of 5,000 pesos ransom.

Quimby's ranch is a few miles from Acajocote, scene of two recent bandit attacks upon passenger trains of the Southern Pacific of Mexico railway. The dispatches estimate fifty men were in the band.

Mrs. W. C. Dunn, wife of an American rubber rancher, living near Quimby, confirmed the reported kidnaping here today. Mexican military officers declared 4,000 federal army men were to be moved immediately from Sonora to Nayarit for action in the head of the bandit-infested country.

German Heads Move to Assist Indigenes

New York, Sept. 2.—(P)—The moving spirit in the recently organized Co-operative Action Association, Inc., a membership group designed to help procure work for the indigent and jobless middle-aged, revealed himself today. He is Clement Schwines, of Brooklyn, a graduate of the University of Bonn, in Germany, a retired manufacturer, and a student of international economics.

Marine Inflates Raft as Parachute Descends

Quantico, Va., Sept. 2.—(P)—Corp. Richard L. Huffman, marine corps, inflated a collapsible rubber raft while falling 3,000 feet from an airplane to the Potomac river here today, dropped it and released himself from his parachute when near the water. He then climbed aboard and rowed to safety. The feat was accomplished in testing the advisability of including such rafts as standard equipment for aviators flying over water. It was sanctioned by Rear Admiral Moffett, naval air chief, and carried out by marine aviators under Major C. E. Lutz. Huffman, who comes from St. Clairsville, O., jumped from a training plane piloted by Lieut. V. M. Guymon of Salt Lake City, Utah. When his parachute opened 75 feet lower, he unpacked the raft and inflated it with two tubes of carbon dioxide. He drifted slowly downward until he dived into the river three minutes after the jump. Bobbing up quickly, he swam to retrieve the parachute and fasten it to the raft. He scrambled onto the rubber seat, put together the two-piece oars tied to the raft sides, and rowed to shore. The test, which was arranged by Capt. Harold Major, marine corps, in conjunction with the Paramount News Reel, will be followed by similar tests. "If these are equally successful," said Captain Major, "safety of aviators making forced landings in water will be considered enhanced and the navy may require its flyers to carry deflated rubber rafts as well as parachutes."

Invite Foreigners to See Maneuvers of Yankee Cavalry

Washington, Sept. 2.—(P)—Two foreign military attaches, Brig. Gen. Augusto Villa, of the Italian army, and Major Angel M. Zuloaga, of the Argentine army, have accepted the invitation of the war department to witness the maneuvers of the first cavalry division in the vicinity of Marfa, Texas, September 20 to October 3.

The chief of cavalry, Maj. Gen. Herbert B. Croaby, and ten other officers specially designated by the war department, also will observe the maneuvers. The first cavalry division with the exception of the first brigade will all leave Fort Bliss, Texas, September 10 for the march to Marfa while the first brigade will start from Fort Clark, Texas, September 4.

Iron Mountain Man Dies in Car Crash

Hancock, Mich., Sept. 2.—(P)—Injuries received by John P. Morin of Iron Mountain in an automobile accident on highway U.S. 41, near L'Anse, Sunday evening, resulted in his death tonight in a Hancock hospital. Death is believed to have been caused by a fracture at the base of the skull.

Farmer Tells of Being Flogged by Hooded Men

Tyler, Tex., Sept. 2.—(P)—A graphic story of how a family was routed from their home at night, marched away into the woods and fogged by four masked men, was told today by one of the victims, J. R. # RISON BREAK ARRESTS MADE

### Ohio Convict Confesses Killing Guard, Implicates Pal.

New Lexington, O., Sept. 2.—(P)—Arrest tonight of two women and three men alleged to have participated in the shooting of Patrick J. Riley, Ohio convict, followed on the slaying today of Grant Kelly, prison guard, victim of sensational break for liberty by prisoners.

Riley, back at Ohio penitentiary at Columbus tonight, signed confession before Warden Thomas admitting the shooting of a convict, Fred Kellogg, his companion in the unsuccessful attempt that was terminated when a red convict, Irwin Ewald, seized a gun from the dead guard and aided in stopping them with a hail of bullets.

The five persons arrested were held by authorities to have participated in the shooting of Riley. They were Mrs. Kelley and Mr. and Mrs. James Warner, all of Newark; Beaumont Wiers, 32, Cincinnati, and George Vennes, 32, Detroit.—They were taken into custody at New Lexington.

Guard Weakley was killed in a denial office of Dr. A. M. Shier to which he had brought prisoners from the prison at Junction City for treatment. Riley is serving from one to five years for pocketing and Kellogg was sentenced to three years for carrying a weapon.

# NOTED CHICAGO ATTORNEY DIES

### Patrick O'Donnell Figured in Prominent Crime Cases.

Chicago, Sept. 2.—(P)—Patrick H. O'Donnell, defense attorney in many outstanding Chicago criminal cases, who answered the last summons to his farm near Burrows, Ind., the home of his boyhood. He was 65 years old.

His wife and seven children were at O'Donnell's bedside when he died. Cerebral hemorrhage which he had been struck a week ago, led his death. He had been unable to speak since stricken, but regained consciousness.

O'Donnell left an Indiana farm which he was born for Chicago. He needed more money to support several brothers and sisters, made orphans by the death of the father. He acquired his academic legal training at Georgetown university.

Among the well-known trials in which he figured were the public trial of Boodie in prosecution in which defended Fred Lundin, former State of Mayor Thompson; the \$100,000 suit against Governor Hall in 1924; the Anselmi-Scalise case, and the Harold Croarkin case. O'Donnell was convicted of being a jury. He was granted a full trial and exonerated.

# S. Minister Meets Ireland at Horse Show

Dublin, Irish Free State—Fredrick A. Sterling, new United States minister to the Irish Free State, chose the Dublin horse show as the occasion of his first public appearance.

He appeared with Lord Rathmore, president of the Royal Dublin Society, and sauntered through the paddock looking like an Irish country gentleman.

Mr. Sterling chose the occasion of his first public appearance as an opportunity for studying the Irish people, he found classes represented. Over the ring, buying, selling, training and racing of horses there is more equality in Ireland than in other fields.

# TREATY PLEA IN PLAY

Budapest—Hungary's plea for dissolution of the peace treaty is to be presented in drama form by City Theater. It will be called "1000 Years." The prologue of the epilogue will show the London Daily Mail office with its proprietor, Lord Rothermere, giving his part as the exponent of Hungary's demand for better treatment by the allies.

In between will be the story of Hungary's history for a thousand years.

average above 100 miles per hour was maintained but the plane gave an imitation of the dance for which it was named when it was caught in a squall and needs some slight additional stabilization.

# PREPARE RUNWAY

St. Johns, Que., Sept. 2.—(P)—Although damage to the monoplane Royal Windsor, which made a forced landing near here last night had been repaired tonight, the rough terrain of a hay field held back the trans-Atlantic flyers, Clarence "Duke" Schiller and Phil Wood, Detroit business man, until tomorrow.

All day field hands scraped and dragged the field at St. Gregoire, six miles from here, to provide a smooth runway for the monoplane which is expected to take off early tomorrow for Windsor, England. Had this runway been completed, Schiller and Wood might have sped off late today after the broken tail skid had been repaired. There was plenty of fuel aboard, Schiller said.

# Miraculous Escape

"It was a miracle we didn't crash proper," Wood declared, referring to the forced descent in a thick fog. "But when we leave this place we're going just as far as we can," he asserted.

The Royal Windsor had been in the air nine hours and everything had become hot, Wood said, when he noticed a wispy of smoke trailing the left wing. "I don't know what caused the fire," he said, "but it was either a spark from the exhaust or friction."

The wing was not seriously damaged by fire, but the tail skid was smashed somewhat in landing.

Wood seemed confident he and Schiller would make a successful crossing and promised that they would keep a sharp watch both along the coast and at sea for the missing St. Raphael plane.

# OFFERS ASSISTANCE

Detroit, Sept. 2.—(P)—Capt. Frederick A. Giles, British aviator, who is awaiting repairs on his Hess-Bluebird biplane, before attempting a flight to New Zealand by way of San Francisco, today wired Mrs. Leslie Hamilton of Ottawa, wife of Captain Hamilton, one of the crew of the missing Fokker plane, St. Raphael, offering to aid in the search.

Captain Giles said he would go at once to St. Johns, N. F., and continue flights extending 1,100 miles out over the Atlantic if Mrs. Hamilton accepted his offer. Captain Giles served with Captain Hamilton during and following the World war.

# Wolf, Coyote, Bobcat Under Ban in Alaska

Juneau, Alaska — Cooperative efforts similar to those between the federal government and western states have been developed between the federal and territorial governments in Alaska to control predatory animals, which annually destroy thousands of dollars worth of livestock, wild game, and birds.

The territorial legislature, at its last session appropriated \$10,000 to the undertaking. R. K. Stewart, of the U. S. Biological Survey has been detailed to Alaska to develop methods for control of wolves, coyotes and bobcats.

Operations started as early as 1923 have had a gratifying benefit, officials say, in the destruction of gray wolves through the use of traps and poison.

# Pecan Grower Dalls Trees Money Makers

San Angelo, Texas—Owners of pecan timber have quite an edge on cattlemen in this district in the size of profits, says Frank J. Willman, pecan tree specialist.

Here are Willman's figures: A big pecan tree will produce 100 pounds of native pecans yearly. An acre will stand ten big trees and the nuts should be worth about \$15. That means should be \$15. That means \$150 an acre yearly, making the acre worth—at 10 per cent—\$1,500. For a cow or steer 10 acres are required, which would under ordinary conditions, bring a net profit of \$10.

Seeing New York by air is cheaper than by taxi. The same route covered by an airplane at a cost of \$5 will run up a taxi bill of \$6.10.

# FLAYS GERMAN MODE OF LIVING

### Duisberg Requests Countrymen to Turn to Essentials.

Frankfort-On-Maine, Germany, Sept. 2.—(P)—The tendency of the German people to forget that "we lost the biggest war in history" was denounced by Carl Duisberg, president of the League of German Industrialists, today in an address opening the annual convention of that organization.

"Everybody seems to think he has the right to live better than before the war," he went on. "The opposite ought to be true. It is simply indefensible for collapsed Germany, of all nations, to insist that it must have the highest radio tower, the longest speedway and the largest tennis hall in all Europe."

"We build waterways, and warehouses, important though these be, instead of first doing everything possible for good production and exchange, without whose development our building programs are useless, and even constitute a heavy burden."

# MOVIE STRIKE STILL IMPASSE

### Operators, Stage Hands Agree to Re-Open Negotiations.

Chicago, Sept. 2.—(P)—Chicago, which has been without movies for five days because of labor difficulties, may be able to go to the theatre by Sunday, it was indicated tonight when officials of the motion picture operators and stage hands unions agreed to reopen negotiations with the theatre owners.

Thomas W. Maloy, business manager of the operators, announced the union's decision after a conference with two commissioners of conciliation for the federal department of labor. The exhibitors previously had expressed a willingness to negotiate.

The unions agreed to the conference on the condition that they start where they were broken off—on the demand that four operators instead of two be employed at the Belmont theatre, operated by the Orpheum vaudeville circuit. Operators in Orpheum houses struck after which other movie houses closed and declared a lockout in support of the Orpheum theatres. Later, stage hands and musicians declared a strike.

# Texas Fruit Embargo to Halt Insect Pest

Brownsville, Texas—Fruit shipments are practically at a standstill in Cameron, Hidalgo, and Willacy counties following enforcement of federal quarantine regulations to prevent spread of the Mexican fruit worm.

Products affected include grapefruit, oranges, and all other citrus fruits except lemons and sour limes; also peaches, apples, pears, plums, mangoes, sapotas, guavas, apricots, mangoes, citrus and guavas.

"This new menace to the fruit industries of the southern United States is believed to have crossed the border through sale of fruit on stands in Mexican towns opposite American ports of entry. An attempt to eradicate it by starvation is in process and all fruit within an orchard or district found to be infested is to be destroyed or processed in a manner to destroy insect life.

Scientists' observations indicate that the sun radiated four per cent less heat in 1922 than in previous years, and that since then it has not sent out a normal amount of heat. The life of the sun, however, is estimated to be 30,000,000,000 years.

Officers elected in the abstractors' section include: James H. Jones, Pendleton, Ore., chairman; Alvin Moody, Houston, Tex., vice chairman; W. B. Clarke, Miles City, Mont., secretary.

# Epidemic of Cholera Weakens Sun's Army

Shanghai, Sept. 2.—(P)—Cholera is reported to have joined the forces of the Nationalist troops in pushing Gen. Sun Chuan-fang's northern army back from the Yangtze, where, according to Nationalist accounts, the general lost 20,000 men in combat during the heavy fighting of the past week. Foreign dispatches from Nanking state that a cholera epidemic is taking a heavy toll among the soldiers in that district.

"Bodies are piled up high on the river banks," say the vernacular papers here, "and hundreds are floating in the river. It is impossible to bury the dead. The medical aid is most inadequate."

Gen. Sun Chuan-fang's rapid and spectacular drive to the Yangtze from Shanghai during recent weeks, in which he forced back the Nationalists to the south of that great waterway, would appear from dispatches received here to have collapsed completely. The northern army is said to be retreating along the Pukow railway, having reached Chuchow, leaving Pukow in the hands of the Nationalists.

The Nationalists announce that the way to Peking is once more open.

# Soap Magnate Gets Black Mail Letter

Chicago, Sept. 2.—(P)—Walter R. Kirk, millionaire soap manufacturer, was closely guarded today at his Lake Forest home, following a threat of death if he failed to surrender \$10,000 to the writer of a blackmail note.

Mr. Kirk decided to take no risks, although he stated he was convinced that the letter was the work of a crank. After turning the matter over to postal authorities, he employed a private detective agency to guard him and his home.

The note was mailed in Lake Forest Sunday and was received Wednesday. It demanded that \$10,000 in bills of small denominations be placed beneath a walk along the Waukegan road near Lake Bluff. It was signed "Sympathizers of Sacco and Vanzetti."

Chief Lester Tiffany of the Lake Forest police department, stated today that the blackmailer might be a member of the gang which recently schemed to kidnap Jean and John Shedd Schweppe, children of the millionaire, Charles H. Schweppe.

# Flyer Explains MEX DETENTION

### Was Mistaken for Imposter Impersonating Him, He Says.

San Antonio, Tex., Sept. 2.—(P)—A case of being mistaken for an imposter impersonating him, was responsible for the five day detention of Capt. C. H. Reynolds and Master Sergeant Gus Newland with their plane in Mexico, Captain Reynolds said tonight.

Reynolds and Newland were sent to Arizona from Fort Sam Houston to assist in the search for Albert Z. Menard, world war veteran, lost in the desert. In the course of their search, an imposter, representing himself as Reynolds, reported that Menard had been seen from the plane.

Reynolds was forced down in Mexico half a mile south of the Rio Grande near Presidio, Tex., on his return trip to San Antonio. His release by Mexican authorities would have been only a matter of a few hours, he said tonight, if it had not been for the hoax in Arizona.

Before Reynolds could get away reports that he was not Reynolds, but in reality was the imposter responsible for the false Menard rumor, came to the ears of Mexican customs officials.

This complication, Reynolds said, resulted in the five day delay in the release of the plane. The aviators reached San Antonio today after a flight from Marfa, where they went after their release.

Reynolds said his plane was forced down by gasoline trouble. Mexican customs officers found the aviators shortly after their landing but the flyers were unable to make them understand their story.

# YANKEES OKEH FRENCH LOAN AS GOOD SIGN

(Continued From Page One.)

characterized by much success. It is nevertheless conceded that the French premier has not only an able financial mind but that he will at the proper moment find the occasion to get parliamentary backing for an agreement with the United States.

The reorganization of French finance under the Poincare regime has been observed with a good deal of satisfaction and it is confidently hoped that the re-financing of the French loan which now is proposed will stimulate the French government to take a forward step toward the settlement of the war debt due the American government. Far from wishing to impede the proposed refinancing operation, the American government is anxious to see that operation a success, though to be sure no approval or disapproval is ever entered in the record with respect to the merits of any foreign loan.

# Interest Rate Low

Incidentally, the lower the interest rate paid by France under loans floated through private banking channels, the less vulnerable is the American debt funding commission for having agreed to allow France to pay a low rate of interest. So long as France was paying private investors as much as 8 per cent there have been men in congress who have refused to believe that the American government acted wisely in agreeing to take anything less than five per cent from foreign countries. There is a natural margin between a relatively small-sized loan floated through private channels and the interest rates on borrowings by established governments, but the disparity has been considered too large by the radical elements here.

It is not beyond the range of probability that France some day will be borrowing through private channels at rates even lower than six per cent, which is only another way of saying that the American government in making a long term settlement over a period of 62 years had to bear in mind the gradual improvement in French credit and borrowing power.

### FAMOUS BIBLE TEACHER HERE

Miss Mary A. Hyndman of Chicago to Speak Sunday.

Miss Mary A. Hyndman, identified for 15 years with the Aiken Institute, well-known Baptist organization in Chicago, will speak at the First Baptist church Sunday morning at 11 o'clock. Described as a forceful and interesting speaker, Miss Hyndman will tell Escanaba people of her work in Chicago during the years she has been in charge of the Aiken Institute. As an organizer of daily Bible schools, Miss Hyndman established a world record in Chicago in interdenominational organization work. The enrollment of the daily Bible school under her direction included people of 30 nationalities with 573 Catholics, 251 Protestants and 219 of no religious affiliations. Previous to her 15 years at Aiken Institute, Miss Hyndman served 10 years at the Jackson Y. M. C. A. Her appearance at the local Baptist church is expected to draw a large attendance.

### Enthusiastic Fan Is Totally Blind

Springfield, O.—You don't have to have eyes to enjoy a baseball game, says Clarence Hawkes, sightless poet, nature-study writer and ardent baseball fan. His sense of hearing is so perfect that he unconsciously interprets the language, grunts and yells of the crowd into a mental picture of what's going on. He knows where the players are and what they are doing and can tell whether the ball has been hit and whether it is likely to be caught.

### Masonville Liquor Still Confiscated

The moonshine making process being carried out by August Larson of Masonville township was stopped suddenly late Thursday night when members of the sheriff's department found the small still in operation. Larson was arrested on a charge of manufacture and possession. He was arraigned before Justice James S. Doherty yesterday and bound over to circuit court. A small quantity of moonshine, a small still and 156 gallons of mash were confiscated during the raid.

### Poses as Archduke, Lives On Village

Budapest (P)—Franz Karl Adolph, aged and unkempt, is living in illness at Lajosmizse, revered as the Archduke Adolph, son of the late Emperor Francis Joseph of Austria. Franz Karl Adolph says the casket in which the archduke is buried in the Capuchin crypt at Vienna contains only a wax effigy. The old fellow resembles the late emperor, although no credence is given to his claim of kinship outside the village. Authorities are annoyed at the manner in which the peasants show their veneration, but they can reproach him with nothing tangible. The village guest put on a sly or mysterious look when his real identity is discussed, and lends color to the general belief that he is the archduke.

### WILD MAN GOES WILD

New York—A crowd was staring at the wild man at Coney Island the other night when someone remarked: "It's all a fake; that ain't no wild man." The negro, enraged, threw a bottle at his heckler, followed it with a glass and was about to charge himself when police grabbed him. They agreed he was wild, but found he was just an ordinary resident of Harlem.

### City Passes Law to Guard Worms

Glen Cove, L. I.—This city has become famous as a haven for persecuted worms. The city council, without a single dissenting vote, has passed an ordinance protecting them. No person who is not an inhabitant of Glen Cove can dig a worm within its limits. The reason was that Glen Cove was famous for its worms, and fishermen from many miles away came to dig them up. Resident fishermen, faced with an impending shortage of bait, appealed to the council for aid, and got it.

### Radio Helps Save Symphony Orchestra

Chicago (P)—The Chicago Symphony Orchestra faced with dissolution because of salary differences with its musicians, has been saved by public subscriptions, with the radio audience of the middle west leading the way. When announcement was made that the orchestra must disband unless \$30,000 were raised to pay increased salaries asked by the musicians, the proposition was placed before listeners of radio stations WMAQ and WQJ. Some of the infrequent broadcasts of the orchestra had gone out over the stations and the radio audience was asked to show its appreciation by contributing. The money began to come in quickly and virtually all of the necessary \$30,000 was raised in that fashion. The radio fans' money, added to contributions made directly to the Symphony association, was sufficient to insure continuance of the orchestra.

### Irregular Prospect of Mart Continues

New York, Sept. 2—(P)—Bradstreet's tomorrow will say: The irregular prospects which characterize the rather erratic goods market seem destined to continue for a time.

At this season of course, wholesale and jobbing lines naturally hold chief interest and even the moderate gains shown in these lines differ accordingly as different areas and markets report. Weekly bank clearings were \$9,175,429,000, an increase of \$36 per cent over last year.

New York—No visitor to Manhattan should fail to peep in on the most hectic 20 minutes to be found anywhere under the sun with the exception, perhaps, of the Stock Exchange during a market raid. This sight can be witnessed almost any evening simply by walking to Forty-fourth and Broadway. The time is 8 to 8:20 p. m. And the place is Joe Leblang's ticket agency. Here come all the last minute combatants for bargain seats at the theatres. A bargain counter is a quiet and peaceful scene by contrast. Out of the streets mill all the good folk who have made up their minds at the last minute. Arms shoot out right and left and voices are raised to high pitch. From hotels and clubs and apartments come phone calls and clerks who dart about like airplanes. Money changes with the rapidity of lightning and into outstretched hands are thrust bits of paper that act as "open Sesame" to Broadway theatre doors. Half the crowd is hoping for a last minute bargain. The names of productions flash down upon scores of eyes and quick decisions must be made, however wrong they may eventually prove. It's practically all over in 20 minutes, but during that time—Oh, boy!

### IN NEW YORK

New York—No visitor to Manhattan should fail to peep in on the most hectic 20 minutes to be found anywhere under the sun with the exception, perhaps, of the Stock Exchange during a market raid. This sight can be witnessed almost any evening simply by walking to Forty-fourth and Broadway. The time is 8 to 8:20 p. m. And the place is Joe Leblang's ticket agency. Here come all the last minute combatants for bargain seats at the theatres. A bargain counter is a quiet and peaceful scene by contrast. Out of the streets mill all the good folk who have made up their minds at the last minute. Arms shoot out right and left and voices are raised to high pitch. From hotels and clubs and apartments come phone calls and clerks who dart about like airplanes. Money changes with the rapidity of lightning and into outstretched hands are thrust bits of paper that act as "open Sesame" to Broadway theatre doors. Half the crowd is hoping for a last minute bargain. The names of productions flash down upon scores of eyes and quick decisions must be made, however wrong they may eventually prove. It's practically all over in 20 minutes, but during that time—Oh, boy!

About ten years ago, or more, he bobbed up in Hester street—heart of the great East Side. He was a young fellow singing ballads. But there was something in the way he sang them—no, it was more the follow himself, perhaps. Anyway,

### Episcopalians to Continue Their Theatre Meetings

St. Stephen's Episcopal services will be held again at the Delft theatre Sunday morning, and will continue being held there until the church plant is completed. Rev. John Crippen Evans will undertake a series of popular expositions of certain foundation ideas in religion. Last Sunday he spoke of certain purposes of the church. Tomorrow a foundation will be laid for a discussion of Bruce Barton's new book, "What Can a Man Believe," which will begin on September 11. Master Richard Cariton, Escanaba's boy soprano, will sing a solo in tomorrow's service. Holy communion will be celebrated in Trinity Episcopal church, Gladstone, at 8:30 a. m. Escanaba communicants will be welcomed. Breakfast will be served immediately after the early service.

### No Light on Wagon Costs Farmer \$150

Because he drove his wagon on a highway at night without a lantern, John Landman of Ensign township agreed to pay for \$150 damages done to the automobile which smashed into his wagon, when he was arraigned in Justice James S. Doherty's court yesterday. Landman was driving on the road near Ensign without a lantern on the rear end, as required by law. The automobile owned by Fannie Anderson of Ensign crashed into the rear of the wagon and seriously damaged the car.

WASTE. A wan boy in a tenement coughing his life away, an over-fed and pampered poodle in a limousine, an artist sleeping in the gutter, a well-muscled, strong-backed man complaining—these are common images of waste.

What is the remedy? How shall Society, as we capitalize it, care for the world's great waste? How shall Government obliterate it? How shall Humanity bend down and lift up what is wasted to a place of usefulness?

The PENNY PRINCESS by Anne Austin

What's the row? "Happy," the moon-faced kidnaper, called from the doorway, and no voice had ever sounded so musical in Vee-Vee's ears.

The prince rose from his knees, and dusted his trousers with a fastidiousness that no crisis could jar. "My wife was having a nightmare," he explained, with all the hauteur of a prince who resents the questioning of an inferior.

"Well, shake a leg, prince," "Happy" advised him good-naturedly. "It's way past my dinner time and I'm hungry enough to eat snails. Come on and get busy with your can opener."

"I'm not a servant," the prince scowled at the impudent kidnaper. "If you want any dinner, you had better cook it yourself!"

"Naughty little prince!" "Happy" chided him. "I gotta nurse my baby, prince," and he patted the automatic which he held affectionately in his hands.

"I'll cook the dinner," Vee-Vee said in a voice that she strove to make matter-of-fact. She welcomed the chance to be busy, and the kidnaper's careless reference to a can opener gave her an idea.

"Thank you, Happy," Vee-Vee said softly. "I'm not going to ask you to let me escape. But oh, Happy, you'll protect me tonight, won't you? I'm afraid of the prince. Happy, you know—I'm not married to him any more. I divorced him. He—he was so cruel to me, Happy, and all he wants is my money."

"The dirty little bum!" Happy spat contemptuously into a clump of weeds beside the well. "I'll look after you, princess. That why you was screaming this afternoon? Tried to get fresh with you, did he?"

"Yes," she breathed. "Oh, Happy, if you'll keep him out of my room tonight I'll do anything in the world for you that I can—when I get back to New York, I mean," she added hastily, as the gleam she had learned to dread leaped in the man's eyes.

# AUGUST DRY, COOL MONTH

### Rain Fall Far Below Normal, Weather Bureau Reports.

A deficiency of 2.16 inches of rainfall made August one of the driest months on record according to the monthly weather survey issued by G. P. Crawford, observer pro tempore, from the federal building. The normal for August over a 55-year period is 3.61 inches, while only 1.45 inches of precipitation occurred this year.

A prevailing north wind brought the average daily temperature to 60 degrees from the normal of 64 degrees. The highest mark recorded during the month was 73 degrees on the 24th and the lowest was 43 on the 24.

Only two heavy rainstorms were experienced during the month and these make up all but .3 of the total. On the 6th, after a high mark was set by the mercury, .70 inches of rain fell and the record for the month was made on the 22nd when .73 inches fell. There were only four days on which .01 or more inches of precipitation occurred.

### Tells Teachers How to Solve Children's Behavior Problems

New York (AP)—Teachers with problems and mental conflicts of their own are often to be blamed for the behavior problems of difficult children, believes Dr. Dorian Feigenbaum, Viennese psychiatrist now at the Vanderbilt clinic in New York.

"The reaction of a particular child to a particular teacher frequently affects for better or for worse, the child's behavior difficulties in later life," he told a group of New York psychologists and social workers meeting under the auspices of the Associated Guidance Bureau.

Dr. Feigenbaum has just returned from Toronto where he lectured at the World Conference on Education held at Toronto university. He bases his statements on observations made as physician and psychiatrist in many countries. At one time he was chief consultant in criminal lunacy of the British government in Palestine and head of the Hospital for Mental Diseases in Jerusalem. In Austria and Switzerland he studied under Emil Krepelin and Sigmund Freud, specialists in mental problems.

"Formerly, the educator treated a child as though its behavior was motivated only by conscious good or evil intentions," he said. "Now instead of being upset by a child's laziness, stupidity or stubbornness, the modern intelligent teacher thinks of these characteristics as manifestations of unconscious difficulties standing in the way of its progress.

"There are simple preventives against pedagogical mistakes and their subsequent injury to the child. First, there must be a knowledge of the child's fundamental cravings, needs and handicaps. Then the teacher must have the same knowledge concerning herself."

Dr. Feigenbaum will tour Canada in September, addressing teachers and social workers on

## Talks on Health

By Dr. Morris Fishbein

**EDITOR'S NOTE:** This is the second of a series of five articles on the national suicide problem. Tomorrow: Ages of Suicides.

**GUN IS MOST FREQUENT AGENT OF SUICIDE IN U. S.**

When a man commits suicide he has a variety of choices of means by which he will propel himself into the unknown. The international list of causes of death groups cases according to suicide by poison, by asphyxia, by hanging or strangulation, by drowning, by firearms, by cutting or piercing instruments, by jumping from high places, by crushing, and finally by miscellaneous causes.

More than one-third of all suicides are accomplished by means of firearms, and guns are employed relatively more frequently in rural districts than in the city. Men are more likely to use firearms than are women, and the pistol is preferred to the rifle.

**Hanging Chosen Abroad.**

In most countries outside the United States hanging is the method preferred. The United States, Italy and Spain are the only countries in the civilized world in which firearms are more frequent than other methods.

In the United States suicides by hanging or strangulation ranks second. Suicide by asphyxia includes deaths by gas, either natural or artificial. This form is naturally far more common in the cities than in the country, where the facilities are not so frequently available.

Among women gas is one of the most frequently used forms of suicide. Drowning follows, being quite commonly employed by women, cutting or piercing instruments being of the same frequency.

It is popularly believed that colored men commit suicide with the razor, but figures show that they do not employ this means with any greater frequency than do the white.

### AMUSEMENTS

#### AT THE DELFT.

In "The Night Cry," which will be seen at the Delft theatre again today, Herman Raymaker has given Rin-Tin-Tin a splendid dramatic picture. Admirers of the famous police dog are certain to find it highly pleasing.

Rinty, a shepherd dog, is suspected and hunted for the mysterious killing of some sheep, with the ranchers demanding his life. His owners try to protect him, and he finally vindicates their trust by capturing the true criminal, a giant vulture, and saving his master's baby from the bird of prey.

#### AT THE STRAND.

George Walsh, in "His Rise to Fame," contributes to the screen one of the best prize fight pictures of the year. It will be shown again today at the Strand.

"His Rise to Fame" tells the tale of the young chap who was dazzled by the White Lights. Hovering around them like a moth, he met the figurative punishment a moth earns by burning himself good a plenty. Sunk in a remorseful slough of humiliation, he begins again at the bottom and by strength of character and purposeful courage he works himself up to a pinnacle of fame and success. The road to success which he travels is by force of circumstances the road identical to that which other champions at fistfights have traveled.

### High Heels Threaten To Destroy Arches

Boston—A generation with archless feet will result if women persist in wearing high heels, Dr. Joseph Lelyveld, assistant dean of the Massachusetts College of Podiatry, predicts.

The high heeled shoes worn by women today, he declares, cause permanent elongation of the feet, and as women's feet become longer they lose the arches that give the feet flexibility and serve as shock absorbers.

He says that while high heels may be worn without ill effects occasionally for formal dress, they are unfit for walking purposes.

the adjustment of the educational problems of children.

### Youth Needs Vanity, Says Sociologist

Ann Arbor, Mich.—(AP)—Young men should not be ashamed of vanity but should accept it as part of necessary human inheritance, believes Dr. Charles Horton Cooley, professor of sociology at the University of Michigan and president of the American Sociological Society.

"Treat vanity somewhat ironically," he suggests in his book "Life and the Student," "as though it were a slightly ridiculous member of your family. Much that passes as modesty is really vanity. Persons who dislike to talk about themselves refrain because it exposes them and awakens self-consciousness.

"Affectation is pretending something in order to impress others. All youth has affectation. As we grow older, we become a combination of what we are, in almost desire and habit, and partly what we try to seem to be."

### Will Bless Autos at Saint's Shrine

Cincinnati, O.—(AP)—A shrine for blessing automobiles will be erected here in the name of St. Christopher, the Roman Catholic patron saint of travelers the world over.

Rev. William P. O'Connor, pastor of St. Vincent de Paul's church, will set up the shrine in a corner of the church yard adjoining a transeptinal highway where hundreds of tourists pass daily.

While attending the American Legion convention in Paris he will bring back a relic of St. Christopher, around which the shrine will be erected. Motorists may stop, have a blessing said for their cars, and, if they wish, obtain a medal of St. Christopher to attach to their automobiles.

St. Christopher shrines are common throughout the Latin countries and the custom has invaded England.

### PICTURE SAVES HIS LIFE

Honolulu—A picture of Jack Holt, screen hero, saved the life of Abel Mansfield, seven years old. Obed shot himself while playing with a pistol. At the hospital it was found that a much folded newspaper picture of Holt had kept the bullet from piercing the boy's heart.

### OBITUARY

**MRS. PAULINE BITTNER.**

Funeral services for Mrs. Pauline Bittner, who died at the home of her daughter, Mrs. George Choler, Tuesday, will be held at 3 o'clock this afternoon at the Choler home at Ford River Switch and at 2:30 o'clock at the German Lutheran church at Ford River Switch. Out-of-town relatives who have arrived to attend the funeral are: Joseph Martin, a son, of Tomah, Wis.; Mrs. T. J. Martin, of Green Bay; Mr. and Mrs. J. A. Frechette, of Rexton, Mich.; and Mr. and Mrs. Gene Caulfield and son, of Chicago.

San Angelo, Texas—A coon dog belonging to V. C. Bird of San Angelo is nursing to maturity a litter of baby coons. Bird and his dogs go coon-hunting several nights a week. This dog heads the pack. When the chase is over the dog returns and suckles the baby coons she has adopted.

### Rev. J. B. Hubbard Returns Sunday

Rev. John B. Hubbard, will be back in the pulpit in the First Presbyterian church this coming Sunday morning, after a vacation of a month's duration. He and Mrs. Hubbard and son James have been visiting in southern Michigan at Morenci, Ann Arbor and Ypsilanti. Two weeks of the vacation were spent in an auto tour embracing Toledo, Cleveland, Buffalo, Toronto, Montreal, Lake Champlain, the Adirondacks, Elmira, and Watkins Glen.

### Book Room Opens at E. H. S. Today

Announcement was made yesterday by Principal John A. Lemmer that the Escanaba high school book room would be open this morning, with L. W. Soderberg in charge, for the purpose of buying second-hand books from students who wish to sell second-hand books to the school for resale. No new books will be sold to students this morning. Principal Lemmer will be in his office for those who wish to enroll.

## Menus for Family

BY SISTER MARY.  
Breakfast—Orange juice, cereal, cream, fried green tomatoes with cream sauce, bran muffins, milk, coffee.  
Luncheon—stuffed green peppers, creamed potatoes, apple sauce, rolled oats cookies, milk, tea.  
Dinner—Broiled porterhouse steak, twice baked potatoes, lima beans in cream, lettuce and cucumber salad, chilled watermelon, cake, milk, coffee.  
The tomato dish suggested in the breakfast menu should not be served to children under school age. Growups will enjoy the fried green tomatoes, though, and

the cream sauce adds to the nourishment.  
Rolled oats cookies will add much to the picnic basket or the afternoon tea table and they are very easy to make.  
Rolled Oats Cookies.  
One cup brown sugar, 1 cup seeded raisins, 3-4 cup shortening, 2 eggs, 5 tablespoons butter-milk, 1-2 teaspoons soda, 1 teaspoon cinnamon, 1-2 teaspoon salt, 1-2 cups flour, 2 cups rolled oats.  
Cream shortening and sugar. Add 1-2 cup sifted flour and mix thoroughly. Add eggs well beaten. Dissolve soda in buttermilk and beat into first mixture. Add raisins, salt, cinnamon, flour and rolled oats. Mix until smooth and drop from tip of spoon onto buttered and floured baking pan. Bake twelve minutes in a moderate oven.

# BASKET :-:

**Breakfast**—Sliced bananas with raspberries, ready-to-serve cereal cream, creamed dried beef on toast, milk, coffee.  
**Luncheon**—Sweetbreads with fruit salad, brown bread, milk, tea.  
**Dinner**—Poor man's goose, new carrots in cream, head lettuce, Thousand Island dressing, brown bread and cheese sandwiches, Caroline cake, milk, coffee.

**Breakfast**—Fresh pears, crisp broiled bacon, scrambled eggs with rice, crisp whole wheat toast, milk, coffee.  
**Luncheon**—Leeks on toast, cucumber and carrot sticks, popovers, cottage cheese and strawberry jam, milk, tea.  
**Dinner**—Fresh salmon steaks, creamed celery, tomato and cress salad, peach and rice pudding, milk, coffee.

**Poor Man's Goose.**  
 Six medium sized potatoes, 2 onions, 1 teaspoon salt, 1/4 teaspoon pepper, 3/4 pound lean pork, 1 cup water.  
 Pare and parboil potatoes. Cut in slices 1/4 inch thick. Put meat through food chopper. Mince onions. Put a layer of potatoes into a buttered baking dish, sprinkle with salt and pepper and onion and cover with a layer of meat. Add another layer of potatoes, seasonings and meat and cover with a layer of potatoes. Pour over water and cover with a buttered paper. Bake 30 minutes in a hot oven. Remove paper and brown top. Serve from baking dish.  
 To make hard sauce cream 1/4 cup butter. Gradually sift in 1/2 cup powdered sugar. Beat in two drops lemon juice and 1/4 teaspoon vanilla. Pipe on a shallow dish and serve.

**Leeks on Toast**  
 One or two bunches leeks, 1 hard cooked egg, 1 tablespoon minced ripe olives, 1 tablespoon minced parsley, 4 tablespoons melted butter.  
 Wash leeks thoroughly. Trim and put trimmings in bottom of pan. Add leeks and 1-2 cup boiling water. Cover and steam until tender, about 30 minutes. Arrange leeks in bundles on four oblongs of toast on a hot platter. Pour 1 tablespoon melted butter over each portion and sprinkle with egg put through ricer and combined with minced olives and parsley. The white and yolk are put through ricer separately.  
 Although leeks are used often for flavoring they are seldom cooked. Cooked according to the recipe they are delicious and worth serving occasionally.

## Cash Mercantile Co.

**MEATS** **GROCERIES**  
**Saturday, Sept. 3rd**  
 Under new management; in entirely renovated store rooms; and with complete fresh, new stocks of nationally advertised staple and fancy groceries, select meats and choice greenstuffs—the Cash Mercantile Company opens its doors today for public inspection and patronage.  
 The new Cash Mercantile Co. will operate on a basis similar to that of the preceding management, the one radical change being the discontinuance of the Self Serve Feature. Patrons will at all times receive the benefits of personal service.  
 Messrs. Swanson and Tyrell, partners in the management of the Cash Mercantile Co., cordially invite you to come in and inspect the transformation that has occurred during the weeks that this store has been closed.

**MR. STROMBERG SAYS:**  
 I am firmly convinced that my successors will make an outstanding success of the Cash Mercantile Co. The efforts and money they have expended in remodeling the store and the care and judgment exercised in stocking it, are convincing of their willingness and ability to serve. I sincerely hope that all of my customers will give the new management a fair trial. As Messrs. Swanson and Tyrell are strangers in this community I will be in the store for the first week to aid them in getting acquainted.

## STATE STARTS SAFETY DRIVE

Highway Department Co-operates With Road Association.

Lansing — Michigan's highway department will cooperate with the American Road Builders' Association in inaugurating a new safety campaign throughout the state, according to an announcement from the office of Frank Rogers, state highway commissioner, and a comprehensive drive toward safety will start immediately. The association is opening an intense drive to regulate pedestrian as well as motor traffic.

"The individual alone holds the key to the solution of the accident problem," according to the findings of the road builders' association after a group of nationwide tests. "Therefore, the campaign against accidents will be launched so that it will reach the individual, and appeal to his better judgment."

Five ultimate objectives have been outlined by the association, for its safety drive. They are as follows:

- First, the education and regulation of pedestrian traffic as well as motor vehicle traffic. Pedestrians, as well as drivers, are to be subject to traffic regulations, the violations of which would be a misdemeanor.
- Second, the adoption of a standard code of motor vehicle laws in every state of the Union. This is expected to reduce accidents resulting from ignorance of regulations.
- Third, education in safety and accident prevention, to be incorporated in the curricula of elementary schools of all kinds. More advanced training would be developed in schools for teachers. General education to the public would be undertaken through newspaper campaigns, motion pictures, public meetings and church and parent-teacher organizations.
- Fourth, motorists will be asked to protect the design and materials of their automobiles by periodic adjustments and replacements. Particular emphasis will be put on the construction and adjustment to headlights, steering apparatus and brake mechanism.
- Fifth, a comprehensive program of street widening and the elimination of grade crossings will be carried out throughout the state and nation. Grade crossing accidents account for approximately nine per cent of the total highway traffic deaths. The railroad hazard is rapidly decreasing, however, as the result of installation of signals and gates, reduction in the number of crossings and safety legislation.

## THEATRES

**RIALTO SUNDAY**  
What is probably the longest scene ever photographed at the Metro-Goldwyn-Mayer studios occurs in "His Secretary," the new Norma Shearer starring vehicle coming to the Rialto Theatre Sunday.

The scene concludes the picture, and Norma Shearer and Lew Cody appear in it. Hobart Henley directed the sequence, and it is one of the cleverest bits of dual pantomime ever screened. The scene takes almost five minutes to run. Director Henley believes it is one of the finest scenes he has ever directed.

"His Secretary" is an original story by Carey Wilson, and has been adapted to the screen by Hope Loring and Louis B. Lighton. Willard Louis, Mabel Van Buren, Karl Dane, Gwen Lee, Estelle Clark and Ernest Gillen complete the cast.

**AT THE LYRIC**  
Fred Thomson and his wonder horse, Silver King, breezed across the Lyric theatre screen last night registering another on conclusive motion picture triumph.

As in previous films of the great West, Thomson wanders off the beaten path in his latest of his start-up pictures for FBO "Silver Comes Through" and by virtue of his splendid performance in an unique story wins his way characteristically into the hearts of his enthusiastic fans. "Silver Comes Through" possesses a liberal quota of thrill material developed to the nth degree by the vital performance of the popular Western star, aided by his wonder horse, and it has a well-defined love theme of a most wholesome type.

Edna Murphy, who plays the leading feminine role, is again seen at decided advantage in this, though it is her first opposite Thomson. And the remainder of the cast including William Courtwright as Miss Murphy's headstrong father, whose love for horses nearly proves his undoing, Harry Woods as the "menace"

## GARDEN BAY

Fire of unknown origin destroyed the merchant dock and warehouse, owned by Stellwagen Bros., at Van's Harbor, early Tuesday morning. The warehouse contained about one hundred and seventy-five tons of pressed hay. The local fire department was quickly on the scene and prevented the fire spreading to other property. The total loss sustained is about four or five thousand dollars, which is partially covered by insurance.

A large number of Garden people went to see the blaze. A new warehouse will be built in the near future.

George J. Truckey and son George left here Wednesday morning for Ann Arbor where the latter will take treatment at the State Hospital. Joseph Farley took them as far as Manistique.

Rupert Greene of Fayette spent Monday in town.

Mrs. L. J. Brooks is visiting Mr. and Mrs. W. R. Stewart at their camp at Portage Bay.

A large number of Garden and Fayette people were at the Fayette dock Tuesday night to see the S. S. Indiana which was making her last trip of the season.

## WELFARE CLUB TO HOLD BAKE SALE TODAY

The Gladstone Child's Welfare club will conduct a bake sale, the only affair of its kind sponsored by the club during the year, today, at Delhin's drug store.

The sale will begin at 10 o'clock this morning and will be held in the afternoon for the convenience of morning shoppers.

Baked goods that will fill table needs during the Sunday and Monday holidays will feature the sale. The goods on sale will include bread, Boston brown bread, nut bread, all varieties of rolls and breads, doughnuts and cookies, crop cakes and cakes of all kinds.

The finance committee of the club will be in charge, Mrs. A. H. Miller, chairman; Mrs. I. N. Bushong; Mrs. Henry Rosenblum and Mrs. T. Jones, assisted by the special bake sale committee, Mrs. W. J. Mottell, Mrs. M. J. Magoon, Mrs. E. R. Carter and Mrs. J. F. Card.

## Holy Communion at Trinity Episcopal

Rev. John Crippen Evans will celebrate holy communion at Trinity Episcopal church Sunday morning at 8:30 o'clock. This will be the first service after the vacation and breakfast will be served by members of Trinity Guild to St. Stephen's guests and others who attend. The hour is changed to 8:30 to accommodate the communicants from St. Stephen's who are for the present, without the service of holy communion until the new St. Stephen's church is completed.

## Roof Gardens Are Popular in Paris

Paris—Roof gardens are growing in favor in Paris.

For many years the extremely exclusive Automobile Club of France had the fashion all to itself. The garden there is very realistic and there is an irregular fountain that masquerades as a miniature lake. In summer the men—for no women ever are admitted—have dinner where they can see Paris all about them.

A number of homes lately have been built with flat enclosed roofs much in the Moorish style. The Louvre, the Bank of France and similar large buildings have had their drab roofs transformed by energetic employees.

## GIRARD WINS HIGH PRAISE

Exhibition at Toronto Fair Pleases Thousands.

The following account of the appearance in Toronto of William F. Girard, of this city, champion log-roller, who with his partner, William Glazier, appeared on exhibition at the fair there, is contained in The Globe of Toronto:

"Along the Exhibition waterfront on Saturday thousands of witnesses were thrilled by a log-rolling contest—a sport derived from the hazardous occupations of the lumber camp. It was the first introduction of this accomplishment at the Fair and attracted wide interest, not only through the excitement of the contest itself but because it conveyed a sense of the skill and daring of 'river-driving,' a work identified with one of the basic industries of the country.

"Both performers were formerly river-drivers but now devote nearly all their time to exhibition of log-rolling. They are William F. Girard, now of Gladstone, Mich., a descendant of a French-Canadian family, champion log-roller of the world and George Glazier, a French-Canadian and former champion log-roller of the world. Both were graduated as professional performers through the stern schools of river-driving in lumber camps.

"Equipped with the spiked boots of the lumbermen they took positions on a large white pine log and endeavored by amazing dexterity and footwork to make each other lose balance and top-

Japs Combat Heat With Eel Feasts

Takyo (P)—The inhabitants of Japan have observed their annual "eel day," at which hundreds of thousands of pounds of squirming delicacies were consumed.

"Eel day" is observed on the "day of the ox" in the doyo season which is the hottest of the year. The Japanese believe that the eating of eels on "eel day" prevents the afflictions and diseases which are common to summer.

Baron Okura, the 92-year-old financier, is said to attribute his age and robust health to the fact that he eats broiled eels and rice once a day. There are many varieties of eels in Japan, although most of them are produced on eel farms, which exist throughout the empire.

School Heads Start Roundup of Navajos

Shiprock, N. M.—(P)—The annual educational "round-up" of Navajo Indians on the reservation here is in full swing. By the middle of September more than 200 Navajo boys and girls, to whom the inside of a school room is now as strange as the sight of an ocean liner, will be enrolled as students in the schools of Uncle Sam.

The most thorough census ever undertaken in the San Juan jurisdiction of the Navajo reservation has just been launched by Capt. Herbert Redshaw of the government Indian service. As a result enrollments in the reservation's schools this year is expected to set a new high mark. Each year Captain Redshaw and his aide scour the reservation to get every Navajo boy and girl of school age.

Just a few years ago parents of these young children actively opposed the efforts of the government to educate their children. This condition now is changing, according to Captain Redshaw and the parents, many of them previously educated in the reservation schools now are eager to send their off-spring to the schools.

RUSSEL BRAULT, MANISTIQUE VICTIM OF CHICAGO SHOOTING; PARENTS CALLED TO BEDSIDE

Russell Brault, 15, son of Mr. and Mrs. E. O. Brault of Manistique, is in a Chicago hospital with his life hanging in the balance, and ten boys are under arrest as a result of a shooting which occurred in Chicago's west side section Tuesday night. The Manistique boy's head was pierced by a bullet which entered through his eye, and it was said that his life depended upon the operation for removal of the bullet, scheduled to take place this morning under the supervision of some of the most eminent surgeons and specialists in Chicago.

Start Memorial Day for Ships Lost on Lakes

Thursday was Marine Memorial Day in Wisconsin, and flags flew at half mast on all ships in Wisconsin ports, all dock warehouses, shipping offices, coast guard stations and other public buildings as a mark of respect and tribute to those of the merchant marine who have lost their lives at sea. The idea is said to have originated with Elmer C. Christensen of Sturgeon Bay, and it is intended that the observance will extend also to Michigan, in time becoming national in scope.

Under the caption, "Ships That Never Returned," a Milwaukee paper comments on the significance of this new memorial day, and lists a few of the more recent marine disasters on Lake Michigan. In this article is mentioned the disappearance of the Rouse Simmons, "the Christmas tree ship," a story that is well known to Manistique folks. Briefly, it is as follows:

The Rouse Simmons, a schooner that foundered with all hands off Two Rivers Point, November 22, 1912, was dubbed the Christmas tree ship. It got its name from the fact that it was the practice of her skipper, Captain Henry Schuenemann, to ship a cargo of Christmas trees in northern Michigan for retail sale off the deck in Chicago.

The Simmons, with a load of spruce trees for Chicago youngsters, left Manistique, Mich., November 22, in the teeth of a north-easterly gale. The barometer was dropping rapidly and the wind gathering strength. Old skippers and sailor men on the waterfront in Manistique shook their heads and remarked, "Captain Schuenemann must be in a big hurry to get those trees to market."

Off Keweenaw the lookout of the coast guard station there sighted the schooner flying before the wind and displaying distress signals at the masthead. A phone call to the crew of the Two Rivers station sent them out into the waves to head off the wild riding schooner, but a search of the waters for miles around Two Rivers point revealed no traces of the Christmas ship.

The Simmons was never seen again after the lookout at Keweenaw caught a glimpse of her. It is presumed she foundered in midlake, running before the storm. Months afterward bits of wreckage identified as part of the upper works of the Simmons were washed ashore on the Michigan side. Fourteen men went down with her.

Manistique people will recall also that about two years ago fishermen of the Wisconsin shore found in their nets a wallet identified as belonging to the captain of the lost craft, who had many friends in this city.

A picture of the Rouse Simmons under full sail surmounts the item in the Milwaukee newspaper.

Keep Finding Old Swedish Bonds

Stockholm (P)—Curious war relics in the form of mutilated Swedish government bonds were found in the invaded districts of France, as well as the former Baltic provinces of Russia, continue to be presented in Stockholm for payment, the head of the public debt commission, Dr. Karl Hildebrand, has announced.

Some have been half burned in bombardments and city conflagrations, others are mouldy and half decayed from lying buried with other treasure in the ground. Many bonds are still lost and as the chances of their recovery are getting more and more remote, the Swedish government is likely to have its foreign debt correspondingly reduced.

In the ten years preceding the world war, more than 700,000 Swedish government bonds were sold to small investors in France. When the invasion began many owners hastily dug them down in the ground before fleeing.

SAYS JAPANESE OVEREAT Tokyo—If the Japanese would quit overeating, Japan would overcome its constant rice shortage, declares Naokata Ito of the health consultation bureau. Too many Nipponeese, he says, think the more rice they eat, the sounder their health will be. This, he says, is not true.

Thirty per cent of American men and 47.1 per cent of the women are total abstainers, an estimate shows.

# Pirates Whip Cards, Take Firmer Hold on Lead

## KREMER BEATS ALEXANDER, 5-3

### Waner Brothers Get Seven Hits, Score for Pittsburgh.

Pittsburgh, Sept. 2.—(P)—Pittsburgh took a firmer hold on the National League lead by defeating St. Louis today 5 to 3. Kremer outpitched the veteran Alexander, who was hit hard. The Waner brothers scored for the Pirates, collecting seven hits between them.

Kremer pitched good ball but weakened in the ninth when two singles were followed by O'Farrell's double driving in two runs. The threatening rally was nipped in time, however.

Grover Cleveland Alexander was nipped for 15 hits against nine of Kremer, but held the score down by tight work with men on bases.

The battle was deadlocked at one-all until the seventh when Lloyd Waner stole second and Paul Waner brought his brother home. With the spell broken the Pirates scored three more in the eighth to establish a lead the Cards could not overcome.

FRENCH TENNIS PLAYERS LOSE  
Tri-Color Drops Out of Brookline Doubles Tournament.

Brookline, Mass., Sept. 2.—(P)—The defeat of the two French teams and the brilliance of the playing which eliminated the tri-color from further participation in the national doubles championship tournament at the Longwood Cricket club here, stimulated unusual speculation as to the outcome of the semi-finals tomorrow.

The French doubles champions, Henry Cochet and Jacques Brugnon, seeded first among the foreign entries, lost a closely contested match with America's young alternates of the Davis cup squad, John Doe, Santa Monica, Cal., and George M. Lott, Jr., Chicago. The match went five hard sets before Doe and Lott could master their opponents to win, 6-3, 5-4, 3-6, 2-6, 9-7.

Within the next two hours Jean Borotra and René Lacoste, of the French Davis cup team, were decisively beaten in straight sets, 6-4, 6-4, by the United States clay court title holders, John Hennessy, Indianapolis, and Lucien Williams, Chicago.

Tomorrow, Hennessy and Williams will meet William T. Tilden II and Francis T. Hunter, New Rochelle, N. Y., Wimbledon winners, for the right to enter the finals. Today, Tilden and Hunter easily eliminated Nathaniel W. Niles, Boston, and Watson M. Washburn, New York, Yankee veterans, 6-4, 6-2.

## Two New York Girls Begin Channel Swim

Cape Gris Nez, France, Sept. 2.—(P)—The 13-year-old twin sisters, Phyllis and Bernice Zittenfeld of New York, started at 11:43 tonight in an attempt to swim the English channel. They were followed by Miss Lorna Marriot, the British swimmer, who was forced to abandon an attempt yesterday. She entered the water at 11:50.

A light northeasterly breeze was blowing when the swimmers took the water. An enthusiastic crowd cheered them on their way.

## CHICAGO WILD OVER TUNNEY

### Gives Champion Enthusiastic Welcome; Jack Plays Golf.

Chicago, Sept. 2.—(P)—While downtown Chicago was giving Gene Tunney a rousing reception that in spots resembled the enthusiasm displayed upon the signing of the armistice, Jack Dempsey was indulging in another layoff at his Lincoln Field camp.

Dempsey did not choose to do any boxing nor any other work except the usual hike over the roads. In the afternoon he went over to the Olympia Fields golf course with Leo P. Flynn, his manager, and some friends to play in eighteen holes. Dempsey played the worst golf of anybody in the crowd.

"I have not seen Tunney since the night he shook hands with me when I was going into the ring to fight Sharkey," Dempsey said. "He was very pleasant on that occasion. Things will not be as pleasant when we meet the next time. I am glad Gene is here because it will give the public an opportunity to see him and to judge what kind of a fighter he is."

Neither Dempsey nor Tex Rickard were disturbed over the petition filed in circuit court today for an injunction to prevent the battle. B. E. Clements, president of the Coliseum Athletic club, filed the petition, naming Rickard, Floyd Fitzsimmons, the former Benton Harbor, Mich., promoter, George F. Gets, associated with Rickard, the South Park commission and the Illinois State Athletic commission as defendants.

## WOOD'S SPEED BOAT CAPSIZES

### Narrowly Escapes Drowning During Practice on River.

Algonie, Mich., Sept. 2.—(P)—Gar Wood, internationally famous speed boat pilot, and holder of the Harmsworth trophy, which he defended successfully last year, escaped drowning today when his hydroplane, Baby America III, capsized in the St. Clair river near here.

Three girls riding in an outboard motor boat towed the speed boat captain back to shore apparently uninjured except for a small cut on one leg, though partially overcome by the water.

Wood remarked later at his home: "I know now how Sharkey felt when Dempsey hit him."  
"The Baby America, III, was entered in the one and a half liter race on Labor Day.

Although the three girls, who declined to give their names, offered to help Wood into their boat, he refused, hanging to the side of the "put-put" until reaching a wharf.

Describing the accident, Wood said: "I was speeding along with one hand on the wheel and my other hand holding a stop watch. I was so intent on looking at the watch that I did not notice a passing steamer and the first thing I knew the swell turned the boat sharply and upset it. Out I went and hit the water pretty hard."

Gar Wood is one of eight brothers of Phil Wood, who with "Duke" Schiller as pilot, is attempting a trans-Atlantic flight in the Stinson-Detroit monoplane, "Royal Windsor."

The Baby America, III, was hauled out of the river tonight. Its engine overhauled, inspected, and will be ready for the international races on the Detroit river on Labor Day. Wood said tonight: "The one and one-half liter race is the feature of the regatta starting tomorrow in which three American speed boat pilots will compete against two British and two German pilots.

## THREE TRACK RECORDS DROP

### Horses Finish in Fast Time at Grand Circuit Meet.

Syracuse, N. Y., Sept. 2.—(P)—Track records were broken in three races of the getaway program of the grand circuit meeting at the New York State Fair today.

The Cinder course mark for two-year-olds was bettered twice by Scott, Tommy Murphy's big black colt, in winning the \$18,000 wet weather track stake. Scott did the first heat in 2:07 1/4 and the second in 2:04.

Murphy smashed another record in the free-for-all trot when he drove Etta Drun, the first heat in 2:03. Aileen Guy, Ben White's mare, also bettered Tullis Brooke's mark in winning the second heat in 2:03 1/4. By taking the third mile, Aileen Guy bagged first money.

Record Bettered.  
Sir Roch, holder of the pacing mark for the cinders, bettered his record by more than four seconds in the third heat of the free-for-all pace, the last race of the program. Sir Roch reeled off the mile in 2:00 1/4. Loomis drove Sir Roch and won all three heats.

Signal Flash captured the Onondaga Hotel stake for three-year-olds in straight heats and Bugie Call scored a straight heat victory in the state fair stake for 2:20 trotters.

Heavy rains Thursday night and early today made the big dirt track unfit for racing and race officials announced that the Hambletonian stake for three-year-olds and a purse of \$54,000 would not be run. It will be transferred to the Lexington, Ky., meeting two weeks hence, if officials there can handle it.

## ANDERSON WINS OVER CANZONERI

### Awarded Decision After Second Foul in Second Round.

Chicago, Sept. 2.—(P)—Eddie Anderson, Wyoming featherweight, won on a foul from Tony Canzoneri, of New York, in the second round of a scheduled 10-round boxing contest here tonight.

The boxers met at 128 pounds, contenders for the featherweight title, now vacant.

It was Anderson's second claim of foul. In the first round he dropped to his knee in his own corner when Canzoneri sent in a low left. Instead of permitting claim of foul, however, the referee began tolling off seconds. At the end of the third count, Anderson jumped to his feet, fighting furiously.

Thirty seconds from the end of the second round, Canzoneri again dropped Anderson for a count of nine with a hard right. Anderson arose and covering up, lasted out the round.

## SQUAD OF 40 MEETS ROELS

### High School Coach Hands Out Equipment to His Huskies.

Forty sun-tanned, brawny high school boys, showing the results of a summer of training and good exercise, reported yesterday afternoon to Coach C. B. Roels who handed out equipment and hand a general "get-together" meeting with the gridiron prospects.

Roels has just returned from two coaches' training courses and has a number of well-planned offensive and defensive schemes to work the boys on during the next few weeks.

Thirteen of the men who reported yesterday are letter men from last season, giving Roels an experienced nucleus about which to weave his entire squad. These letter men are: Capt. George Snyder, Gustafson, Labre, Erdman, Gundersen, Gabouris, Vandenberg, Olson, Brown, Stegath, M. Snyder, Matthews and Powers.

Grid enthusiasts here believe that with such a wealth of material for his line, Roels will make a record year that should equal the "no defeat" mark hung up by his squad last summer.

It is expected that a number of other boys who signed up for football last spring, will be on hand with the opening of school. Those who reported yesterday in addition to the letter men are: Breitenbach, Erickson, L. Johnson, Lachapelle, Swanson, Patten, Glavin, Hart, Ranguette, Munson, Beath, Groesbeck, Lambert, Villeneuve, Wilson, Cass, D'Amour, Mathes, S. Johnson, Juhl, McFadden, Froberg, Snyder, Chatsen, Schram, Bourke and Nelson.

## RACES, POLO AT FLAT ROCK

The auto polo and motorcycle races at Flat Rock Sunday promise to be hotly contested matches.

The cream of the riders of upper Michigan are all set to strut their stuff. Without a doubt, this will be the best racing program put on here this season. The championship of the peninsula is at stake.

Riders who have already signed up for the races are Pepin and LaFleur, Escanaba; Trudell and Adleva, Iron Mountain; Kallahak, Gladstone, and Erickson of Marquette.

## YANKS' HOMERS BEAT MACKMEN

### Ruth Hits for Circuit Once; Gehrig Twice; Win, 12 to 2.

Philadelphia, Sept. 2.—(P)—Making 20 hits, including two home runs by Lou Gehrig and one by Babe Ruth, the New York Yankees blasted out a 12 to 2 victory over the Athletics here today.

Ruth made his 44th homer of the season in the first and Gehrig, next at bat, made his 43rd, adding number 43 in the second frame. Gehrig totalled four hits as did Combs and Koenig.

INDIANS 7; HOSE 6.  
Chicago, Sept. 2.—(P)—Chicago's ninth inning rally fell short by a run of tying Cleveland today, and the Indians took the second game of the series, 7 to 6. Blankenship's error and a base on balls, the only one the Indians received, proved the undoing of the Chicago pitcher. Chicago used 19 men in an attempt to overcome the Indians.

## FLAG HANGS ON WEEK ENDERS

### Labor Day Series to Decide Ownership of D. S. A. League Pennant.

The championship of the Delta-Schoolcraft Amateur baseball league will be decided over the Labor Day week-end. Gladstone and the Escanaba Independents are now in a tie for first honors. The Independents will play their ancient rivals, the Northwesterns, at South Park, Sunday, and will meet Manistique on Labor Day.

Gladstone will play Nahma tomorrow and will clash with Wells on Monday. None of the games will be a setup for either of the two teams. Both aggregations realize that a loss of one of the contests will probably mean loss of the pennant, and the contenders are in a fighting mood.

The games are expected to draw the biggest gates of the season. Start Tournament at Local Golf Club

The annual match for the President's cup at the Escanaba Golf club will be run off Sunday and Monday. It will be a handicap tournament, playing 36 holes, for a medal score.

Black Smith, winner of the cup last year, will not be here to compete for honors this year.

West Springfield, Mass., Sept. 2.—(P)—Davey Abad, Panama featherweight, decisively outpointed Tommy Ryan of McKeesport, Pa. in a 10-round bout here tonight. Abad weighed 122 to 121 1/2 lb.

Clyde Jones of Wilmington, Del., 127, won on a foul in the third round of an eight-rounder from Spark Plug Russell of Newark, N. J., 123.

## BROWNS RALLY TO BEAT TIGERS

### Unloosen Bats in Ninth and Make Two Runs; Win, 3 to 2.

St. Louis, Sept. 2.—(P)—The St. Louis Browns rallied in the ninth inning for two runs and won from the Detroit Tigers today, 3 to 2. Pitcher Milton Gaston's single brought in the winning run after Williams had tripled and O'Neill had doubled in the final frame.

Gaston allowed six hits, the same number allowed by the two Tiger pitchers, Carroll and Stoner. Detroit scored in the first inning. Blue reached first, Melillo fumbled and McManus singled. After Hallmann had walked Fothergill sacrificed, scoring Blue. Warner had been tossed out. After Wingo had walked, filling the bases, Tavener stepped to the plate to fan out.

Single Scores Warner. Fothergill singled in the eighth, scoring Warner to put Detroit in the lead again in the eighth, but Carroll weakened in St. Louis' half and was replaced by Lil Stoner. He had walked Gerber. A budding Detroit push in the ninth ended after Woodall had singled when Stoner drove into a double play after Tavener flied out.

Stoner let the ball game slip away, giving away three trips to first and three hits, including a triple, a double and a single. The hits came in the ninth. The box score:

### Boys Allow Race Horses to Escape From Fair Stables

Some time during Thursday night, provokers entered the stables at the fair grounds and allowed the race horses quartered there to escape. Sheriff Elmer Swanson is of the opinion that young boys are responsible for the work.

"Anyone who is found in the act of breaking into the stables at the grounds will be prosecuted to the full extent of the law," Swanson said. "Race horses are valuable animals and allowing them to run loose may result in injuries to them."

Several times in the past, gangs of small boys have been reported breaking down sections of the fence around the grounds. A watch will be kept in the future to prevent further occurrences.

### BRIEFLY TOLD

**Baptist Services**—Rev. Carl Antonson of Los Angeles, Calif., will be the speaker at an out-of-door meeting to be held at the Hillbom home at Cornell, Sunday afternoon at 3 o'clock. Mrs. A. Hillbom will serve refreshments. A large attendance is anticipated. Sunday morning and evening, Rev. Antonson will speak at services at the Swedish Baptist church. He will also conduct services at the church Tuesday, Wednesday and Thursday evening.

**Auditors Meeting**—There will be a meeting of the Delta county auditing committee in the courthouse Thursday afternoon, September 8, at 2:30 o'clock.

**Correction**—In an article printed in The Press recently, it was said that the joint meeting of the Upper Peninsula Supervisors' association and the directors of the Upper Peninsula Development Bureau will be held Saturday, September 10. This meeting will not be held until Monday, September 19.

**Pillow Dance**—Lundin's orchestra will furnish the music for a pillow dance at Dittich's hall, Ford River Switch, tonight.

**Celebration at Perkins**—The St. Joseph's church of Perkins is planning a big celebration for Labor Day. All forms of amusement, including a baseball game between Rock and Perkins, are on the program. The Ladies' Aid society of the church will serve dinner and supper. The people of the surrounding territory are cordially invited to attend the celebration.

### Clinic to Be Held by Dr. Campbell

Dr. E. H. Campbell, medical superintendent of the Newberry State hospital, will conduct a clinic for mental and nervous diseases in the office of Dr. H. J. Defnet in the city hall next Wednesday, Sept. 7. He also will be glad to meet relatives of patients in the Newberry hospital. The hours of the clinic will be 1 p. m. to 5 p. m.

### Two Recruits for Navy Signed Up

Two Escanaba young men—Philip J. Maynard and Walter G. Erickson—have enlisted in the United States navy, it was announced yesterday by E. J. Cook, in charge of the local recruiting office. The opportunity for travel, education and vocational guidance, offered by the navy was a big factor in bringing about the decision of the two to enlist, Cook said.

**NO MORE PUNCTURES.** Brookings, S. D.—Tourists on the main highways soon will be free from worry about punctures. A giant magnet 7 feet wide has been hung on a state highway truck which drives over the roads and picks up every scrap of metal. On a recent 20-mile run, more than 300 pounds of steel and iron scraps were picked up.

Libraries are being installed more rapidly than librarians with the necessary qualifications can be found to take charge of them. The number of library school graduates last year was 200 less than the number needed to meet the demand.
