

STORM HITS U. S. AND WEST INDIES

HOOVER GETS LAFOLLETTE'S VOTE IN OHIO

REPUBLICAN PARTY WILL BENEFIT THIS YEAR

BY DAVID LAWRENCE. Copyright 1928, by the Escanaba Press... This year was carried by La Follette...

In 1924 there were 14 states in which the combined La Follette and Davis vote was in excess of that of President Coolidge...

Leaders Divided.

It so happens that the radical leaders who supported the La Follette-Wheeler ticket are divided today. Many of them are...

The change as between Davis to Hoover and Coolidge to Smith was about a stand-off.

Hoover strength in this ward reveals a slightly increased number from the La Follette vote than is being obtained by Gov. Smith...

The inference which may be drawn from the straw balloting is that all things being equal the La Follette vote will go back where it came from—the two major parties—and if it is evenly divided the Republican nominee will benefit materially by such a movement.

GOVERNOR HITS AT COMSTOCK

Replies to Charges Made by Democratic Candidate

Lansing, Sept. 13—(AP)—In a scathing communication Governor Fred W. Green today charged his Democratic opponent, Wm. A. Comstock, of Detroit, with excessive expenditures and pointed to George W. Welsh, of Grand Rapids, Republican gubernatorial aspirant in the recent primary as an "assistant" in the Democratic cause...

The letter was in reply to a recent open demand from Comstock for a campaign accounting. The governor signed his answer "very truthfully yours."

"I assure you a full accounting will be made and the law will be scrupulously obeyed," the governor wrote. "Inasmuch as you have had no contest I cannot express the hope you will do the same. In fact I doubt very much whether you would keep inside the law if you had a primary campaign, because I understand that your most formidable weapon in the past has been 'the barrel'...

"Your senseless attack on me regarding campaign expenditures gained you nothing two years ago. It will gain you nothing now. Your friends got a great laugh two years ago when you assumed the role of 'I am holier than you,' because you appear most unconcerned in it. What a fine thing it would be for Michigan if you would forget silly, senseless, personal attacks and be a sportsman."

TICKET SCRATCHING PRACTICE OF HOOSIERS

BY D. FIELD BRITTE (Associated Press Staff Writer) Indianapolis, Ind., Sept. 13—(AP)—Thrilled by a deep love for politics that is second to none, Indiana's electorate now stands contemplating a campaign vista greatly to its liking, one that offers more than the usual high lights and shadings of state and national issues...

As the Hoosier state prepares with historic fervor to choose a president, senator, governor and other officers, it gives ominous forecast of one of those domestic upsurges at which any electorate is fond at times—an orgy of ticket scratching that strikes Democrat here and Republican there...

offices (although he is not up for reelection); the state campaign offices and a private headquarters set up by Leslie.

**Count on Liberals**

In these separate Republican headquarters, the Democrats declare they see evidence of a paramount fight for state control and they hope to profit thereby. They eagerly welcomed the latest campaign participant, the Independent Equality for Agriculture club, which is definitely committed against Hoover. It is under the direction of L. F. Shuttleworth, formerly an official of the Indiana Farm Bureau Federation, and it has announced its intention to cooperate with the Democratic state committee and its plan to attempt to swerve Republican farmers to the Smith farm relief proposal.

The Democrats count on known liberal elements in Republican counties to go to Smith and they say that the question of religious faith is acting as a boomerang to bring many Protestants to the Smith stand in protest against prejudice.

Republicans profess to know, however, that their partisans who are wet are first of all Republicans and that the feeling against Catholicism is more widespread than is generally supposed.

were reported. The wind, which was of tornado velocity, swept an area about four miles in length and half a mile wide. It uprooted trees, felled chimneys, swept shingles from roofs and caused houses to sway on their foundations.

Telephone and telegraph poles were felled and communication was almost entirely disrupted.

**THREE KILLED**

Yankton, S. D., Sept. 13.—(P)—Three persons were killed and several injured today when a tornado swept through an area approximately 12 miles long and one mile wide, in the north central portion of Yankton county.

The dead: James Foley, 56, of Yankton. Oscar Haugen, 36, farmer. Mildred Sylliaasen, 11.

Several hundred head of livestock were killed and many buildings were wrecked.

**COMMUNITY HIT**

Concord, N. H., Sept. 13.—(P)—A tornado struck the town of Rindge, about 60 miles southwest of here early tonight, causing heavy damage to property and probably death and injury.

All forms of communication were disrupted and information could only be obtained by the greatest difficulty.

**OPEN SWITCH CAUSES WRECK**

Responsibility for Derailment of Train Not Placed

Detroit, Sept. 13.—(P)—An open switch, the responsibility for which had not been fixed tonight, caused the "Red Arrow," crack flyer of the Pennsylvania railroad, to crash into four freight cars on a siding here this morning.

Some 200 passengers on the train, including two railroad officials, were badly shaken, but none was seriously hurt. Fireman John Romaker, of Toledo, was taken to a hospital after having jumped when he saw the crash was inevitable.

The accident occurred shortly after 8:30 a. m. in Lincoln Park, Detroit suburb. The train was made up of eleven cars, mostly sleepers. All were of steel. None left the track.

The alertness of John A. Thomas, of Toledo, engineer, was said by railroad officials to have prevented a serious wreck. The train was approaching the Lincoln Park crossing at a speed of near fifty miles an hour. When about 150 feet from the crossing he saw the switch was open and applied the brakes.

Will investigate. With its brakes grinding, the train turned onto the siding and the locomotive buried its nose into the first loaded freight car. Two other freight cars on the end of the string were pushed off the track into the street.

First reports here were that a serious wreck had occurred and all ambulances, a fireman's scene. It was announced a few minutes later that a section car had

ter and most of the money recovered. Jaworski was convicted of murder for the guard's death, and was awaiting execution when he escaped from the Allegheny county jail just thirteen months ago today.

Detroit police also were hunting him as a suspect in connection with a hold up there last June 6 in which a patrolman was fatally wounded and part of the weekly payroll of the Detroit News was stolen. He was wanted also for questioning in connection with other Detroit robberies.

At St. Alexis' hospital where Jaworski was taken he was faced with the quiz of detectives who inquired about his hide-outs, his family, his wife and his friend Vas Binder or "Vas" as the gunmen called him.

Jaworski answered almost everything but the queries about "Vas." He declined to say where he might be found. A reference was made to the possibility of his death. "I don't care if I die," snarled the prisoner.

"I shall we notify your wife?" someone asked. "No, let her read it in the papers. That's soon enough," he said.

Further questioning revealed that he and Vas Binder hid in Cleveland two months and that they formerly were hiding out in Detroit and Chicago. Jaworski said he was married in Chicago and that his wife now lives in Detroit.

**KILLED ONE**

Detroit, Sept. 13.—(P)—Paul Jaworski, youthful bandit, who was shot while attempting to evade arrest today in Cleveland, is wanted at various places over the country for a total of five murders and robberies, that netted the perpetrators in the neighborhood of a million dollars, according to local police.

While a youth in his teens, Jaworski according to local police records organized what was known as the "flathead mob," in his neighborhood of Hamtrick, Detroit suburb. The gang, comprised of Polish youths, soon was operating on a wholesale scale specializing in payroll hold-ups and became the object of nationwide police attention.

Among the crimes attributed to the gang, was the holdup and killing of a payroll master in Beading, Pa., in 1923, in which \$23,000 was obtained; robbery of an armored car here and the shooting to death of the driver, Ross Loney, in 1925. The gang obtained \$18,000. The Pittsburgh Terminal Coal Co. robbery at Mollenauer, Pa., Dec. 23, 1925, in which a guard was killed. Dynamiting Pittsburgh Terminal Coal company payroll truck near Bentleyville, Pa., in which \$104,000 was obtained.

Introduced Shotgun On Aug. 18, 1927, while Jaworski was awaiting execution in the Allegheny county jail at Pittsburgh, he obtained two pistols and shot his way out of the place, killing one guard and wounding another.

The latest crime attributed to him was the holdup of the Detroit News in which a policeman was shot to death.

Jaworski, according to local police introduced the sawed-off shotgun into the underworld and was said to have boasted that its use eliminated the possibility of "missing."

The fact that he evaded capture for so long, in the opinion of officers was because he never frequented the known haunts of criminals and his associates patterned after him.

Sam Jaworski, Jim Mesheek, John Weckowski and a number of others of his followers, who were apprehended by police, all lived on farms away from the beaten paths, and were well respected in their communities.

**Bean Growers Meet to Set Prices**

Lansing, Sept. 13.—(P)—Michigan white bean growers today were invited by the state department of agriculture and Gov. Green to call a conference in this city for the purpose of reaching an agreement on prices this year. A definite date for the conference was not suggested.

In a statement issued to growers all over the state, Commissioner Herbert E. Powell declared all crop estimates in this state and the other chief white bean state of Idaho forecast an average crop. The minimum price of \$5 a hundred of last year should be received this year, the commissioner said.

Powell said his department does not seek to fix bean prices. He urged that every bean growers section of the state be represented at the conference when it is called.

Experiments on living animals in Great Britain during 1927 totaled 295,592, an increase of 28,824 over 1926, according to a recent announcement of the British Home Office.

passed over the switch on a hand car, but it was not learned whether any of the crew left the switch open. An exhaustive investigation was ordered.

The first car behind the tender of the locomotive was a private car occupied by T. W. Hulme, first vice president of the Pennsylvania railroad, and Judge Charles B. Heiseleman, chief counsel. Hulme was uninjured but Heiseleman was slightly bruised.

**NO CONTEST IN NON-STOP RACE**

All Planes Forced to Land in Trans-Continental Air Derby

Los Angeles, Sept. 13.—(P)—The feature event of the 1928 National Air Races, the nonstop flight from New York to Los Angeles, tonight was described by air meet officials as being "no race."

Art Goebel, Los Angeles, the only finisher, who reached Mines Field at 3:30 this afternoon to receive the plaudits of the crowd as winner of the race, soon afterward quieted the enthusiasm with the revelation that he had not made a nonstop flight.

Goebel landed his Lockheed-Vega at Prescott, Ariz., earlier in the day, to spend over an hour repairing a troublesome carburetor and replenishing a dwindling gas supply.

Nine plans hopped off from Roosevelt Field, New York, late yesterday for the long grind. The last contestant to make a landing short of the goal was George Haldeman of Detroit, who brought his Bellanca down at Albuquerque, N. M., at 5:05 p. m.

Haldeman said he was running short of gasoline and bucking bad head winds as he neared Flagstaff, Ariz., this afternoon. Fearing he might be forced to land on dangerous ground, he turned and with the wind behind him returned to Albuquerque. Haldeman said he flew through a bad storm near St. Louis last night.

All Others Down Goebel, the only contestant to arrive at Mines Field, commented that Haldeman, although flying a slower craft, left Roosevelt Field three hours ahead of himself, and that the obvious reason for the Bellanca plane not arriving late today was a forced landing. Goebel said probably lack of fuel ended the flight of the only known remaining contestant, explaining that he did not see how any plane could complete the nonstop grind against the winds and storms he had battled most of the night.

The other contestants landed at various points along the route of flight last night and today. A single serious accident marred the flight. The Lockheed-Vega ship piloted by Capt. John Morris and carrying as passenger Col. William Thaw II, crashed into a fence during a forced landing at Decatur, Ind., early today. Col. Thaw was seriously injured and Capt. Morris less seriously. The former is the only surviving member of the original Lafayette Escadrille.

The entries came to earth in the following order: Oliver Leboutoulier, East Orange, N. J.—Returned to Field soon after take-off. Clifford McMillin, Syracuse, N. Y.—Landed at Chase, Pa.

Col. William Thaw II, Pittsburgh—Crashed at Decatur, Ind. Lieut. Commander Jack Iseman, Station—Landed at Amarillo, Tex. Emil Burgin, Minocla, N. Y.—Landed at Willard, N. M.

Nick Mamer, Spokane, Wash.—Landed at Rawlins, Wyo. George Haldeman, Detroit—Landed at Albuquerque, N. M. Art Goebel, Los Angeles—Landed at Los Angeles.

**Missing Business Man Found Doped**

Asheville, N. C., Sept. 13.—(P)—Edward B. Kelly, New York business man, who has been the object of a widespread search since his mysterious disappearance from his summer home here, last Tuesday, was found here tonight, in what police described as a "doped" condition.

Two hours after being found, Kelly was still unconscious. Attending physicians were using a stomach pump in an effort to revive him. His condition was pronounced as serious.

When found, he possessed only \$1.75, although he had several hundred dollars on his person at the time of his disappearance.

**New York Paper Bought by Kobler**

New York, Sept. 13.—(P)—Albert J. Kobler announced tonight that he had purchased the New York Daily Mirror from Alexander P. Moore, American ambassador to Peru, and that he expected to support Gov. Smith in the presidential campaign.

Moore acquired the property about six months ago from William Randolph Hearst. The Mirror was Hearst's first venture into the tabloid field.

Kobler for several years has been identified with the Hearst organization.

Mr. Trudell was employed by the Chicago & Northwestern railroad for forty years and was pensioned eight years ago. He left Escanaba at that time.

He is survived by the following children: Ellen Trudell, Ed Trudell, Wilfred Trudell, and Mrs. Albert Lehay of Gary, and Sister Lawrence and Sister Pancharacous of St. Joseph's Order, Kansas City.

It is expected that funeral services will be held in Gary today.

**MRS D. M. LIBERTY.** Funeral services for Mrs. D. M. Liberty, who died Sept. 5 at the home of her son, Ed Liberty of Wells, were held in Menominee Saturday morning. Short services were held at the R. Lemieux Funeral Parlors at 8 o'clock and at the St. John's church at 9 o'clock. Rev. Fr. Cleary officiated. Burial was in the Menominee cemetery.

Out of town relatives and friends who attended the services were Mr. and Mrs. Ed Liberty and sons, Ronald, Richard and Edward and daughter Evelyn of Wells, Mrs. Mae English and son Norbert and daughters Katherine and Margaret of Milwaukee; Mr. and Mrs. Frank Reando of Chicago; Mr. and Mrs. James Redmond, Mr. and Mrs. William Blockham, Mr. and Mrs. Wilfred Couillard, Mrs. Louis Casey and Mrs. John Wigrand of Wells. Two sisters and one brother were unable to attend the services.

The large number of floral offerings showed the high esteem in which she was held by her many friends.

**GRANT RECOUNT OF 26TH VOTES**

Defeated Candidate in District Charges Ballot Irregularities

Lansing, Sept. 13.—(P)—A recount in the most hotly contested legislative contest of the recent Republican primary was granted by the defendants of state today on the petition of State Senator Thomas Read, defeated candidate for the senatorial nomination in the twenty-sixth district. Read was beaten by Orville E. Atwood, former state senator, by 96 votes, according to local canvasses.

In his petition Read charged fraud, particularly in Newaygo county, Atwood's home. He asked a recount in a number of precincts in that county. The senator alleged that inspectors in Fremont election precincts registered voters illegally on the day of the primary and permitted them to vote, that absent voters' ballots were handed out discriminatorily, that disqualified voters were permitted to cast ballots, that voters cast for Read were counted for Atwood and that non-residents of the district exercised the franchise.

The district is made up of Manistee, Mason, Oceana, Newaygo, and Lake counties. In Newaygo, Read was credited with 652 votes against 3128 for Atwood. Virgil Fitch, of Ludington, a third contestant for the nomination, ran far behind.

According to Sidney A. Schulte, deputy secretary of state, the recount will be made at the county seat of Newaygo, with state canvassers on hand.

Robinson Lauds Smith as "Great American Governor"

BY WALTER CHAMBLIN (Associated Press Staff Writer) Columbia, S. C., Sept. 13.—(P)—Accusing the opposition of being afraid to fight in the open, Senator Joe Robinson tonight described Alfred E. Smith as a "great American governor" who believed in the separation of church and state and declared almost in the same breath that this was "more than some members of my own church seem to do."

After the applause had subsided, the senator, who is a member of the Methodist Episcopal Church, South, added that it was his opinion that preachers should preach the gospel and "not undertake to run politics of the nation."

Taking advantage of a 17-station hook-up, the most extensive radio broadcast he has used since his notification speech, the Democratic vice presidential nominee touched upon three subjects—immigration, farm relief and religion.

**Minister Heads Michigan Kiwanis**  
Benton Harbor, Sept. 13.—(P)—In the final session of the state Kiwanis International convention this afternoon, Rev. N. S. Sichterman of Port Huron was elected governor, and Lansing was chosen as the 1929 convention city.

Rev. Sichterman succeeds Archie N. Case of Jackson, and was elected over John Merrifield of Sault Ste. Marie, who was also nominated.

District governors named were: Douglas Graham, Detroit, first district; Rev. George Horst, St. Joseph, second district; William Chapman, Traverse City, third district; Arthur Pierpont, Owosso, fourth district; Dr. Walter C. Bobb, Battle Creek, fifth district; V. O. Nelson, Ann Arbor, sixth district, and Fennimore Fut, Detroit, seventh district.

Said to have been owned by Oliver Cromwell, a watch was recently sold in London for \$1,023.

**SAYS HOOVER FIXED PRICES**

New York, Sept. 13.—(P)—Senator James A. Reed of Missouri at Democratic national headquarters here today reiterated his charge that Herbert Hoover while he was national food administrator during the war fixed the price of American farm products for the benefit of Great Britain.

Senator Reed arrived from Wisconsin, where he has been on a fishing trip, to work out at the Speakers' Bureau tomorrow the itinerary for his speaking tour for Governor Smith. He will open the campaign in Kansas, he said, probably on September 19, the night after Governor Smith's Omaha speech, but he did not know where his speech would be delivered.

"I think it is true," Senator Reed said, "that the farmer of the United States realizes today the fact that during the war when everybody else—almost everybody else at any rate—was making money at war prices, Mr. Hoover closed the market on him and compelled him to sell at the

price Mr. Hoover set and then gave the benefit of that price to Great Britain."

Senator Reed charged that Hoover helped to create a single purchasing agency for the Allies, before the United States entered the war, the object of which Senator Reed said was to forestall the market by holding all the allies out as purchasers until the price would be broken. Senator Reed charged that after the United States entered the war Hoover organized the Export Grain Corporation and, by using his power to issue and revoke licenses to domestic grain dealers, fixed a price by which the Export Grain Corporation dealt with the Allies' Purchasing Agency.

"In other words, he came over here from Great Britain, having previously been the consulting agency of Great Britain in the matter of controlling prices, and, having gained control of our market through his power to license, he fixed the price of American farm products for the benefit of Great Britain, the country in which he had lived for 23 years, and fixed it against the country which he had remained out of for 23 years and in which he had never cast a vote. This is all a record of fact."

Said to have been owned by Oliver Cromwell, a watch was recently sold in London for \$1,023.

### Home Tested Recipes

**Tumeric Pickles.**  
25 good sized cucumbers.  
10 medium sized onions.  
1 quart vinegar.  
1 tablespoon mustard seed.  
1 tablespoon celery seed.  
2 teaspoonfuls tumeric powder.  
1 1/4 pound brown sugar.  
Slice cucumbers lengthwise very thin, slice onions thin and place in layers, cover with salt and let stand two hours. Then add vinegar, sugar and spices, boil 5 minutes, seal white hot in sterilized jars.

**Green Tomato Relish.**  
1 peck green tomatoes.  
1 large head cabbage.  
8 onions, medium size.  
4 cups brown sugar.  
4 cups vinegar.  
Put 3 ounces stick cinnamon and 3 ounces whole cloves in cloth sack. Cut tomatoes thin and cover with salt, let stand overnight. Drain, add 1 red pepper chopped fine (this may be left out), add chopped cabbage, sugar, onions and spices and cook slowly about two hours. Seal in tight jars.

**Peach Conserve.**  
Peel, stone and slice peaches, weight them, cook slowly for two hours. Add an equal weight of sugar and the grated rind and juice of one lemon and one orange to every two pounds of peaches. Cook all together until thick. Let stand and add desired amount of shelled walnuts or blanched almonds. Canned pineapple may be substituted for orange, using one small can of pineapple and the juice for every two pounds of peaches. When cold and thick put in glasses and cover with paraffin.

### Lake Shore Drive Lauded by Phone Company Official

Detroit, Mich.—Variety is the keynote of the Menominee, Mich., industrial exhibit to be seen this week in the display window of the Michigan Bell Telephone company building, Washington boulevard and Clifford street.

The display is one of a series of similar exhibits presented by the telephone company to advertise the industries of the state and to direct attention to its long distance service.

13 Industries Displayed. Thirteen of Menominee's manufactures are represented in the display. They are the Lloyd Manufacturing company, by samples of loom woven fibre used in the manufacture of furniture and baby carriages; J. W. Wells Lumber company, by varnished sections of maple flooring; Hoskins-Moraville Paper company, by Hoskin Wrapper, and the Bates Valve Bag corporation, maker of multi-walled fibre bags.

Calsate Line, for garden and household uses, a product of another Menominee company, the Limestone Products company, is advertised by inclosure in Bates bags as a part of the Bates display. Electric fans, ventilators, bells, buzzers and telegraph instruments compose the display of the Signal Electric Manufacturing company, pioneer manufacturers of radio sets.

Flamingo Fibre, product of the Menominee & Marinette Paper company, also is on display. The products of the Prescott company, manufacturers of heavy sawmill machinery, mine and oil pumps and the bottle filling machinery built by the Henes & Keller company, are to be seen in display placards.

Solid and flake caustic, as prepared by the Michigan Electrochemical company and Crystal Pure Sugar, product of the Menominee River Sugar company, add to the long list of exhibits.

Big Stores Exhibited. The new plant of the Twin City Packing company, largest of its kind north of Milwaukee; Lloyd's Department store, the Menominee County Agricultural school and the Spies public library are depicted in photographs topping the well ordered window.

And in the very center of the display, typifying the spirit of progress in Menominee, is a map of the Menominee county airport on highway U. S. 35, and the shore of Green Bay about five miles north of the city. Two gravel ramps, 1650 and 2030 feet long, provide ample runway for the arrival and departure of planes visiting Menominee.

Other upper peninsula cities whose industries have been pictured this year in the telephone company's window on exclusive Washington boulevard are Iron Mountain, Houghton-Hancock and Calumet. The exhibits are kept in the window from a week to ten days. Last year Ironwood, Escanaba and Sault Ste. Marie presented a review of their industries in displays.

Robert R. Stevens, in charge of the phone company's exhibits, declared the displays have resulted in a number of business queries from prospective customers to the manufacturers advertised.

"I just returned from a vacation spent circling Lake Michigan in an auto so I've seen most of these plants," Stevens said. "Menominee can surely be proud of J. W. Wells and John Henes parks and these industries. And say, who would ever expect to find such stores as Lloyd's and Lauerman's in cities the size of Menominee and Marinette?"

"But then, you know, I thought when I was driving through that the cities were much larger than they really are.

"That drive along the lake shore from Escanaba to Menominee was the most pleasant portion of the entire trip around the lake for me," Stevens concluded.

Of 16 long feature films that are to be released by a joint German and Russian firm, seven are of Russian origin, six German, and three produced jointly and featuring some of the greater German and Russian Artists under the direction of a Russian.

### ESCANABA MAN ADDS HIS PRAISE FOR NEW REMEDY

Indigestion and other stomach disorders show rapid improvement by taking Drecto, the new root and herb medicine.

The great herbal remedy Drecto which was recently introduced here through the Drecto Expert at the Drug Dept. of The Fair Store is growing daily in popularity because of its certain action on the vital organs. Its powers are great to relieve constipation, dizziness, headaches, gas in the stomach, backache and other symptoms. Many people testify to the results obtained.

Mr. Charles J. Anderson of 303 North 14th St., Escanaba, says: "I've been troubled in a peculiar way and nothing seemed to correct it. After meals I'd have an excess of saliva in my mouth which was really disagreeable. I believe it was caused by a form of indigestion as I also felt uncomfortable in my stomach."

"I got a bottle of the new medicine Drecto and it has surely helped, in fact, I am now on my second bottle and improving every day. I think it a grand medicine." Drecto is the pure-liquid extract of twelve roots, herbs, barks and leaves, Nature's own remedies. After taking Drecto it is noticed that the stomach is soothed and the bowels become active, relieving constipation, headaches, dizzy spells and that dull tired out feeling; nerves are quieted which induces sound sleep and the whole system takes on renewed energy, vigor and vitality.

The Drecto Man is now at Drug Dept., Fair Store, where he is daily explaining the merits of Drecto to numerous local people and presenting everyone who is interested with a valuable health booklet free.—Adv.

### The Piffle Hook

#### COWBOY STUFF

The following original plots for cow-boy stories in the magazines and on the screen, are offered free of charge to authors who are casting about for such material.

**Plot No. 1:** Circle-Dot ranch is owned by a red-haired girl who, on the death of her father, returns from an eastern school to manage the property. She can ride anything on four legs. The place is being systematically robbed by a crooked foreman and a gang of bandits. A wandering waddie with red hair comes along, rescues the girl from drowning and is given a job as foreman of the Circle Dot. He shoots the former foreman, arrests the rest of the gang and marries the girl.

**Plot No. 2:** The Turkey Track ranch is owned by a black-haired girl, who, upon the death of her grandfather, returns from a western school to take charge of the property. She can ride anything on four legs. The ranch is being systematically robbed by a crooked foreman and a gang of bandits. A wandering waddie with yellow hair comes along, rescues the girl from a stampede of cattle, and is given a job as foreman of the Turkey Track. He shoots the former foreman, arrests the rest of the gang and marries the girl.

**Plot No. 3:** The Two-Bar-J ranch is owned by a blond girl who, upon the death of her uncle, returns from a southern school to take charge of the property. She can ride anything on four legs. The ranch is being systematically robbed by a crooked foreman and a gang of bandits. A wandering waddie with black hair comes along, rescues the girl from a fire and is given a job as foreman of the Two-Bar-J. He shoots the former foreman, arrests the gang and marries the girl.

### THE WHOLE STORY.

**THE DEMOCRATIC** candidate for president of the United States, in an effort to discredit the Republican record of government economy, has cited increases in appropriations for independent bureaus and offices from \$3,400,000 in 1914 to \$556,000,000 in 1928. He failed to point out that \$500,000,000 of the latter sum was for the Veterans' Bureau, to be devoted to the care and rehabilitation of wounded veterans, an obligation which the Republican administration gladly assumed.

He likewise neglected to mention that since 1914 there have been created the Employees Compensation Commission, the U. S. Shipping board, the U. S. Tariff Commission and the Emergency Fleet corporation. The unfairness of his criticism is manifested by the fact that all of these independent offices, adding millions of dollars to administrative expenditures, were created by congress under Democratic control.

The Democratic candidate adroitly draws attention to the increase of \$24,000,000 in taxes collected since the first year of the Coolidge administration, but without adding that, in the same period, two slashing tax reductions have become effective and that the increase in receipts is due entirely to good business, increased earnings and other causes which have resulted in greater incomes and, therefore, in larger tax payments.

Reduction in federal expenditures has been accomplished despite rapidly increasing legitimate demands on the government. This fact is very apparent when the whole story is told.

### TOO MANY WORDS.

"Economic security was my reason for taking up professional pugilism as a career. This having been achieved, I have resigned," said the Hon. James Joseph Tunney—nee Gene Tunney—in Paris, recently, when he addressed 300 members of the American club at luncheon.

In other words, remarks the Sault Ste. Marie News, "I needed the money so I became a prize fighter. I've made my stake so I quit."

The News continues: "We wish that Gene would explain English and not so much of it."

"Paul DeKraif told us a good one when he was here recently. Said he and a friend happened to rub elbows with Tunney at some social gathering, and by way of small talk remarked that it looked like rain. And what do you suppose Gene's answer was? 'Indubitably.' Can you beat it?"

"We recall the wild enthusiasm of the marines when Tunney, one of their own, was crowned king of the heavyweights not so many years ago. They hailed him as a first class fighting man. But alas, no. He didn't take up the fight game (he calls it 'pugilism') for red-blooded reasons. Economic necessity. Can you imagine how they feel now?"

"Thornton Wilder would be a good man to interview, after they finish their walking trip through Europe, if he would tell exactly what he thinks. Most Americans right now could, without doubt, be offered Tunney stock at very attractive prices without buying. It doesn't look so good."

### UNCLE SAM COULD HELP.

GUN fighters armed to the teeth, again are conducting open warfare in Chicago. The leaders of these gangs, many of them aliens, are well-known. They can be found by newspaper reporters for interview. They can be photographed at funerals and other semi-public functions, with their hands on their bulging gun pockets. But for some reason, still not clear to most of us, they are not molested.

It has been asserted that Chicago's law enforcement officers are powerless to act. That, of course, is not true. No man, in Chicago or elsewhere, is bigger than the law if the people of the community really desire to see the weight of the law descend upon him. The only answer, then, is that Chicago is so steeped in graft that the officers are unwilling to act. This means, too, that the majority of the people of Chicago are satisfied to let conditions remain as they are.

If local authorities can not or will not stamp out gang crime, the federal government has a weapon that can do the job and do it speedily. That weapon is deportation of undesirable aliens. The federal government, just now, has insufficient funds with which to finance such a drive. The next congress, however, will be asked to provide such funds.

We are confident that government secret service men could find these "super-laws" and can take them into custody. It's high time that they were given a chance to try.

### OWAN DOYLE'S EYES.

SIR ARTHUR Conan Doyle, addressing the International Spiritualists' Association, declared that "a number of people can see fairies but are ashamed to say so because of the foolish incredulity with which their observations would be greeted." He asserted that fairies can be photographed and distributed a photograph purporting to show a fairy presenting a flower to a little girl. He also showed pictures of "wood elves" dancing and a girl playing with a gnomie who seemed in

### THE WAY OF THE WORLD

By GROVE PATTERSON.

**CHAPTER XXIII**  
**GIRLISH CONFIDENCES.**  
Claire Stanhope wiped her eyes when Lyn said to her: "Ralph Armitage's father must be a queer old duck."

"He isn't, Lyn," answered Claire. "He's only a very unhappy old man."

Through his silly idea of family pride, he egged Ralph on to marry the girl who is now insane, simply because he thought her family was as good as his own; consequently Ralph makes his marriage, although it is very tragic, a perpetual scandal. Some day Ralph Armitage is going to fall desperately and wholly in love with some girl instead of flirting around, and then, if he cannot buy the girl with love or money, look out for the fireworks!

"You'll not go back on me, will you, dear?" continued Claire, who saw that Lynda had paid very little attention to what she had been saying. "I've gone through the list of all my friends, and it seems to me they have all turned down on account of Fred, but I think if you would speak to Ralph, I would have some chance with the Armitages. I know it is asking a great deal, but will you do this for me, Lynda? Will you get Ralph Armitage's ear, and talk it over with him?"

"Of course I will, dear. But before I do this, I have to know exactly what you want me to do. Do you love Fred Blaque?"

"I thought I did, once—perhaps I do now, after a fashion," she said, "but I don't love him enough to go through scandal for his sake. We women do so many things in this life, dear, and we say to ourselves while doing them, that we will not care what people say; and yet, afterward, we do care. I don't think I could stand a scandal, even to keep Fred's love, or rather, I do not think he could stand scandal for me. You see, it would hurt his two children. Suppose I decided to stand that for all that everyone would say of me, and suppose that Fred cared enough for me to do his share; we, perhaps, could go through with it, marry, and in time could adjust ourselves, so that we could be happy in our new lives. But when those girls grow older—both children are girls, you know—it would embarrass, if not shame, them to have some one decline to meet me, because their father had married the co-respondent in his divorced case."

Claire began to sob again.

"Don't cry for that rotter, Claire. He doesn't really love you," said Lynda, putting her arms around her. "Why, I just saw him in a roadster as I was coming home, and he had a girl with him that Emily Andrews said was Pamilla Sheston. When she bade him good-bye, she bent over and kissed him in sight of everyone in the street."

Claire's eyes opened wide, and her tears dried quickly.

"That burns me up," she said, angrily. "Why, Fred Blaque has

### FOLDED HANDS

A British author by the name of King has written a book of essays or comment on life. He calls his book "Folded Hands." He gives it this name because folded hands indicate that time of life—usually in middle age—when we come to the conclusion we can't do much in the way of changing people or reforming them. We decide to take them as they are and let it go at that. It is the period when adjustment comes home to stay.

"Folded hands" is a good name for it.

### MISREPRESENTATION

One of life's major temptations is the temptation to misrepresent. It is so easy to misrepresent things, just a little, for our own benefit. It is so easy to make ourselves and the things we want to do appear in a favorable light. It is pretty hard to set out all the facts when all the facts are not favorable. All automobile wheels wobble a little, from one cause or another. If they don't wobble more than one eighth of an inch they do very well and don't need to be changed. Most of us wobble a little on the truth. Do we keep within an eighth of an inch?

### ACTING

William James, long famous as a psychologist of the most scholarly sort, used to say that if we would but ACT as though we felt cheerful we might soon find ourselves cheerful. His point was, rather than the act following the emotion, while when you don't feel like it and by and by you will feel like whistling. There are many things worth doing which you do not like to do. If you have the courage and the energy to do them, like them or not, you may be surprised to find yourself in the easy habit of doing them.

### WHO KNOWS?

It is said that painless death to be inflicted on sufferers from incurable diseases will be made legal in Czechoslovakia. The written approval of two physicians will have to be had. Such a law may be a step forward. It may be progress, but human beings will have to become very wise to deal finally with life and death. And the state is made up of all of us imperfect humans.

A taxi driver, arrested last fall in Menominee with 90 quarts of Canadian liquor in his cab, was acquitted of a charge of transportation by a federal jury at Marquette. The defense theory, it appears, was "one hundred or no count."

## SWEETHEARTS

By Idah McGlone Gibson

Copyright, 1928, by Central Press Association, Inc.

Just been telling me that he had come to me straight from his club, where he had been so lonely and homesick for me, that he risked my being angry with him for coming here. Do you know, Lyn, that he almost had me feeling sorry for him before you came in? I ought to realize that he never tells the truth."

"Perhaps that is a sign he loves you," said Lyn. "A man seldom lets such a little thing as the truth stand in the way of making himself appear well in the eyes of the woman he loves."

"How do you know that, Lyn? You never have met many men."

"But I've read a great many books, and that's the sum and substance of most misunderstandings and most romances."

"I can't understand why Fred should deliberately tell me an untruth about that young woman. He knows that I would understand."

"That you will understand is just what he doesn't know—but I do know this, or rather I believe this: A man may be so homesick and lonely for one girl, that he will deliberately bust up another one, to see whether it will make him forget the girl he truly loves."

Lynda said this more to stop Claire's sobs than because she truly believed it. Then a sudden thought struck her.

"I'll tell you what I'll do. I'll talk the whole matter over, as you asked me to do with Mr. Armitage, to-morrow. You know he is a friend of Fred Blaque. If he will not hush up everything for you, he certainly will do it for Fred. Anyway, we will get to the bottom of the whole thing. If that Blaque man really cares for you, as he says, he does, Mr. Armitage will be the one to know it."

"Lynda, Fred Blaque would not tell anything about himself and me to anyone on earth. It's only women who confide in each other. I'm not sure that when you tell Ralph Armitage all of this, he will not be quite disgusted to think I've told my troubles to you."

"Don't be too sure, Claire. Of course I know nothing about it, for I never had anyone to confide in except David. But I know this: that I never told David anything more of my troubles, my hopes, my aspirations, than David did me. I think, dear, that the longing for sympathy is quite as rampant in men as in women. Anyway, I am sure that Mr. Armitage will do all he can to keep your name out of it, for I have found out one thing already about the 'young boss': Claire: if one can enlist his sympathy—and I think I can—he will do anything possible to please one. But let's don't talk any more about it, dear. Tomorrow morning things will look entirely different. Don't you want to help me with my dress? Emily has really persuaded me to go to the party."

Lynda did this, not because she was at all unfeeling, but because she realized that if she could get Claire interested in something else, she would be much better off. Without giving her a chance to say she could not help her, Lynda brought out her gown, saying:

"I shall love to go to this party, for you know I've never been to a real party in all my life."

## Who's Who in Timely Views

GERMANY PICTURED AS MAKING REAL COMEBACK. By DR. JULIUS KLEIN, International Expert.

The achievements of the "New Germany" in trade, industry and transportation demonstrate an extraordinary capacity for recovery from one of the greatest of the world's economic disasters. The German people, ardently, tenaciously, have been toiling up the hill out of the dark abyss, moved by a dogged determination to regain the commercial position that they enjoyed before the world was plunged into the maelstrom of war.

The figures of German trade are rising. The figures for the first half of the present year show that Germany shipped to foreign countries \$212,000,000 more than in the corresponding six months of 1927. And the surplus of imports over exports was \$78,000,000 less. German export is increasing more steadily, and at a greater pace, than that of any other important European country.

The industrial recovery of Germany is being stimulated by the German organizing genius, the achievements of German science, the improved industrial equipment, and the rapid progress of efficiency in production and the

effective marshaling of economic forces.

The labor situation in Germany leaves much to be desired, however. Discontent and even a certain degree of menace are discernible in the ranks of German workmen, springing apparently from the feeling that wages are still more or less out of line with living costs and the country's general economic advance.

Germany, after the postwar loss of nearly all her mercantile marine, has now rebuilt this to 70 per cent of its prewar size, possessing today more than 3,500,000 gross tons of shipping and again ranking high as a maritime power of the world. Germany is re-establishing her world-wide services with modern and economical ships. Her shipping lines have effected numerous amalgamations, larger companies absorbing smaller ones for the purpose of eliminating competitive services and gaining control of feeder lines.

Advancing in civil aviation, last year the total distance flown by German planes was 6,200,000 miles, nearly 14 times the mileage recorded only four years earlier. The German State railways last year carried 25 per cent more freight than in 1926. Half a million motor vehicles are owned in Germany today, against 152,000 five years ago.

These facts show that, despite a number of undeniably adverse factors and unfavorable conditions that still await solution, Germany has been remarkably successful in "coming back" since the desperate days of the period 1918-1922.

## LYRICS OF LIFE

By Douglas Malloch

**THE SHIFTLSS.**  
I've noticed this, the less they own  
The more they waste and spend,  
And then they sadly sit and moan  
About some favored friend,  
Some lucky neighbor who is worth  
A little more each night,  
And swear the good things of this earth  
Are not divided right.

I've noticed this, if humble their  
Abode, it made them sad,  
And yet the less they gave of care  
To anything they had,  
They envied other people who  
Had better-looking things,  
The while their table needed glass,  
Their cushions needed springs.

I've noticed this, although, no doubt,  
Misfortune some may see,  
The rest of us are just about  
What we deserve to be.  
The spendthrift always hates the rich,  
The coward hates the bold,  
And those who never take a stitch  
Complain about the cold.

## DIET AND HEALTH

**ANSWERS TO MOTHERS.**  
God could not be everywhere; therefore He made mothers.  
—Jewish Proverb.

**The Baby Locomotion Article.**  
Those of you who follow the column will remember that a short time ago I ran an excerpt from an article by Dr. Ales Hrdlicka. It was on babies who run and walk on all fours, instead of creeping. When Dr. Hrdlicka wrote, he had had reports of 41 cases. I asked those whose babies used this unusual method, to write to me, and since I returned from my vacation I have had 51 interesting reports. These I will forward to Dr. Hrdlicka after I have had the time to make some tabulations from them.

I have noted already the same things that Dr. Hrdlicka noticed, that this running on all fours instead of the usual creeping apparently has other advantages than keeping the panties and stockings clean. The children, as a rule, walk sooner and have a little stronger development.

It is not known why these babies should take this unusual method. I want to thank all of the mothers who took the trouble to write me. Quite a few sent pictures of the babies in action and they certainly were cunning.

**Drooling.**  
"We are worried over our two-year-old son because he still drools, especially when he is excited. I have benefited much from your column and I thought you could help me out on this. Do you think this is due to his diet? He has all his teeth."

"MRS. W."

About the third month, the salivary glands become very active. The baby isn't interested in swallowing anything but milk, so naturally saliva collects and he nonchalantly allows it to drool out. It is not a sign of teething at this age, although when the teething begins, there will probably be more.

At your baby's age—two years—if in normal amounts the saliva should be under control; so it is possible that he has a slight inflammation of the mouth, causing an increased amount. If you are not feeding him correctly, this may be the cause. He may have incipient scurvy, for soreness of the mouth and gums is one of the symptoms of this disease; or he may have enlarged adenoids.

Drooling may be just a habit also. However, it would be wise to go to your child's clinic or to a baby specialist and have your baby checked up. Mrs. W. will give the daily foundation diet for children.

**Best Foundation for Each Day for Each Child.**  
Part 1. Protective Foods—One and one-half pints of milk, at least, one full cup of vegetables (especially the green-leaf vegetables), part of them raw, one full cup of fruit, part fresh, if possible, one to two ounces of high protein food (flesh foods, eggs, cheese).

Part 2. Energy Foods—Cereals, including whole-grain breads; rice, potatoes, macaroni and similar foods; simple desserts; fats in the form of butter, cream, egg yolks and nuts.

## Poor Old Sandman?

John and Garnet Hall

New Martinsville, W. Va.—How much sleep does youth need? "A great deal," says the old folks.

"None at all—or at least, not much," answer John and Garnet Hall, of here, and they plan to prove it. That is, they intend to show that less than five hours a day is plenty long enough for any boy or girl to snooze.

John, age 19, and his sister, Garnet, age 16, plan soon to enter college, studying alternately an hour and sleeping 15 minutes for the full 24 hours of the day. At this rate of study they believe they can cover and absorb a full four-year course in one.

The Hall plan would give the pair four hours and 48 minutes of complete rest daily, and 19 hours and 18 minutes in which to study.

They are certain they can "hold up," pointing to their recent record, made in a dance marathon at Wheeling, in which they claim they danced continuously for 37 days, or 650 hours. They actually gained five pounds, according to their parents.

Dr. F. R. Dew, Belmont county district health commissioner, is quoted as warning the pair not to extend their sleepless careers too long. Dr. Dew sees little harm in abbreviated sleeping for a time, but if prolonged for five years or more would bring premature-old age.

Party for Friend. A group of thirty women enjoyed a one o'clock luncheon at Jay's Tea Room Wednesday complimentary to Mrs. Clyde Hewitt who with her family will leave in the near future to make their home at Sault Ste. Marie where Mr. Hewitt makes his headquarters in the interest of business.

Bernier-Gaffner. Mr. and Mrs. Napoleon Bernier, 618 Stephenson avenue, have announced the marriage of their daughter, Beatrice, to Charles Gaffner of this city.

Miscellaneous Shower. Mr. and Mrs. Charles Buckland, 519 North Nineteenth street, entertained at their home Wednesday evening complimenting Miss Tillie Buckland, who will become the bride of Ernest Erickson, September 25.

The evening was spent in playing buncos and five hundred. High scores in five hundred were won by Mrs. Arthur Lund first, Mrs. Walter Menard second, and Mrs. Thelma Poquette third, while Mrs. John Sheedlo won the consolation award.

Bunco awards went to Mrs. Arthur Buckland first, Mrs. Andrew Buckland second, Miss Lillian Bouchard and Miss Maximo Bouchard was awarded the guest prize.

Chimneys Should Be Cleaned Now, Fire Chief Says

Puffy, black billows, rolling away from the chimneys of most Escanaba homes during the past two days and evenings have heralded the approach of the seasonal menace—the chimney fire, and this morning Arvid Johnson, chief of the fire department, shook a warning finger at the uncleaned chimney.

At least 90 per cent of all calls received by the two Escanaba departments are for chimney fires, reports show, and Chief Johnson contends that the total can be materially reduced with a little attention and consideration on

the part of the home owner or tenant. Now it is the "heatin'-up" season again, and many stoves and furnaces have already gone into blast with no thought whatever of the chimney. There will be more chimney fires, perhaps some damage and then, after all the fuss and muss is over, somebody will wonder why it wasn't looked after early in the season.

Contrary to the general conception there is no particular danger in a chimney burning out, providing it is in first class repair and the sparks die out before they hit the roof. But that, the chief believes, is taking "too long a chance," and is sidestepping the very simple and inexpensive operation of chimney-cleaning.

"People, as a rule, are funny about chimneys," the chief said. "Many of them think of every other single detail about the house but the chimney. They'll have the storm windows up weeks before they're really necessary. They'll have the winter coal in, minor repairs to walls and ceilings, and they'll even have someone give the heating plant a good going-over, but they'll forget all about

the chimney. In the majority of cases, of course, the chimney fire is caught before it has done any damage, but there is always that one time when the unforeseen happens. "It is safer and cheaper to clean the chimneys than buy a new roof or, worse yet, lose the whole house."

American Public Shows Great Appreciation for Good Music, Says Sousa

BY LAWRENCE HARTWIG The American public is showing each year a greater appreciation for good music, said John Philip Sousa, the March King, who was Escanaba's distinguished visitor yesterday. He attributes this to the growth of school bands and school orchestras.

"It has been interesting to watch from the conductor's stand the rise of American musicianship," he said. "Within the last few years I have noticed decided progress, which can only be attributed to the fine courses in instrumental work introduced in secondary schools."

He stated in an interview yesterday that one of the greatest thrills in his long career was experienced recently when he judged a national high school band concert, and saw how efficiently the youth of America is being trained in band work.

Still Active Man. The kindly old man of music, whose stirring rhythms have inspired millions, showed Escanabans that despite his 73 years, fifty of which have been devoted to translating America into music, he has many active seasons ahead.

"I will work until the great Music Master tells me to quit," he said with a gleam in his eye that belies his advanced years.

When asked what he thought about popular music and whether it would stand the test of time, Mr. Sousa said that such men as Irving Berlin have done a great work in dignifying modern jazz. He would not predict its permanency, however.

"Jazz is like the well-known little girl with the curl, when it is good is very, very good, and when it is bad it is horrid."

It Will Live. "Of course, one is often misunderstood in speaking of popular music. I apply the term to works of Wagner, Tschalkowsky and others, who certainly are popular, and

who transacted business here yesterday left last night for St. Paul and Minneapolis.

Jesse Nichols of Detroit is visiting friends in the city.

Miss Theima Patterson of Oconomowac, Wis., has returned to her home after a week's visit with friends here and at Gladstone.

Mrs. Napoleon Franchette of Kenosha, Wis., is spending a few days in the city visiting her father, Seraphim Belanger, who is a patient at St. Francis hospital, and her sister, Mrs. William Fahay, North Eighteenth street.

then I say it will live." Looking down the long span of 50 years, Mr. Sousa yesterday expressed confidence in the latent musical talent of the nation. It is hard, he said, for a young country to make permanent contributions to the arts, but America, as she ages, is developing a music typically her own. That Mr. Sousa himself has been a leader in this movement he modestly left unsaid. He was waiting for the interviewer to ask him how he composed his marches.

"With me the thought comes, sometimes slowly, sometimes with ease and rapidity. The idea gathers force in my brain and takes form not only melodically, but harmonically at the same time. Before I commit a piece to paper I know it entirely in my mind."

Most Famous March. That is the way he wrote "The Stars and Stripes Forever," perhaps his most famous march, and other renowned pieces such as the "Washington Post" which have endeared Sousa's name wherever band music is enjoyed.

Sousa himself is typically American and is regarded in this country and abroad as a national character. He was born in Washington, D. C., before Abraham Lincoln sprang into prominence, and as conductor of the Marine band intimately knew Presidents, Hayes, Arthur, Cleveland and Harrison.

His concerts before the crowned heads of Europe in numerous tours carried American good-will to her sister nations across the seas. Sousa traveled around the world with his band and came home with the plaudits of South Africa, Australia, New Zealand and Hawaii ringing in his ears.

Now the man of melody is on his thirty-fourth trip through the United States. His hair is somewhat grayer than it was on the first trip. He's a little older. But there's the same erect form, the same snap of the baton as the March King marches along.

### SOUSA THRILLS LARGE CROWDS

Famous Bandmaster Gives Two Concerts Here Yesterday

John Philip Sousa, greatest and best loved of America's masters, thrilled two capacity audiences at the Delft theatre yesterday with music that only the magic of his gifted baton can produce.

The distinguished director was generous. In addition to his formal program, he played, as encores, a lengthy list of his own soul-stirring marches—El Capitan, Riders for the Field, Manhattan Beach, U. S. Field Artillery, Pride of the Wolverines which was written especially for the Michigan State Fair at Detroit, where the band had just completed an engagement, and of course, The Stars and Stripes Forever, the greatest of all, and others.

And last night, as an added number, Mr. Sousa presented an Escanaba march, "Escanaba Hustler," by Joseph Greenfield, director of the Escanaba Municipal band.

At the afternoon concert, the band played as program numbers, A Study in Rhythms; a suite, At the Kings Court; and a new march, Minnesota, all by Mr. Sousa; The Parade of the Gendarmes by Lake; the Prelude and Love's Death from Tristram and Isolde by Wagner; and a medley of favorite melodies from Victor Herbert.

At night the band's program numbers included a suite, Tales of a Traveler; Balance and Swing Partners, Golden Jubilee, a new march celebrating the conductor's fiftieth year as a bandmaster, all by Sousa; and a sketch, Among My Souvenirs, by Nicholas and Sousa; The Serenade, "Militaire Français" from The Algerienne by St. Saens; and the symphonic poem, Death and Transfiguration by Richard Strauss.

Assisting were Ralph Ohstrom, cornet soloist; Howard Goulden, xylophone soloist; Miss Marjorie Moody, soprano; a sextet of flutes, an octet of saxophones, and a sextette of trombones.

It was a musical event toward which Escanaba had looked with eagerness for weeks. It will be one they will remember for years.

### Band Concert Program

A BRAND NEW MARCH, "Escanaba Hustler," composed by Joseph Greenfield, and played for the first time on any program by Sousa's band at their concert last night, will be played tonight by the Escanaba Municipal band at their weekly concert in Ludington park. Mr. Greenfield has dedicated the march to a prominent Escanaban, Herman Gesner, whose leadership in business and civic affairs is well described in the title of the musical composition.

The complete program for the evening, as announced by director Greenfield, is as follows:

- PROGRAM**  
March—Collingwood (Petite)  
Selection—Wang (Bellen)

### Airways Preparing For Army Flyers

Forty acres additional flying field space is being prepared at the U. P. Airways, Inc., airport to make room for the ten army planes that will be here for dedication ceremonies Sept. 20.

The added acreage will give plenty of room for the take off of the pursuit planes that will make the trip to this city. Stumps are being pulled out and carried from the field and uneven spot rolled and graded.

The hangar, housing the plane shed, shop, office and classrooms, is being given a coat of paint and will put on its best appearance for the program, which will include speeches by Governor Fred Green and other state officials.

A speakers' platform will be erected for the occasion.

### Information Booth at U. P. State Fair

The Escanaba Chamber of Commerce is preparing to conduct a general information booth at the Upper Peninsula State Fair next week. The booth will furnish information of all kinds to visitors, assisting them find rooms if necessary, and helping them in locating points of interest in the vicinity if they care to do a bit of sight-seeing in addition to taking in the fair.

After having been on strike for three weeks, 12,000 dock workers at Antwerp, Belgium, deserted their Communist leaders and returned to work.

### BRIEFLY TOLD

**Y. P. S. Meeting**—The Young People's society of the Norwegian Danish Lutheran church will hold a meeting at the church parlors at 8 o'clock this evening. A program will be followed by refreshments.

**B. R. E. Meeting**—The Brotherhood of Railroad Employees, Escanaba Division, No. 64, will hold its annual supper and meeting at the Eagles' hall Tuesday evening, September 18. The business session will open at 7:30 o'clock and will be followed by a dance at 8 o'clock. Music will be furnished by the Blue Aces. Supper will be served beginning at 8:30 o'clock. Brother Secret, assistant to the national secretary, will attend the meeting. A large crowd is anticipated.

**Mrs. Leo Roland and daughter Irene** returned yesterday from a visit in Shawano and Green Bay. Miss Irene will leave Tuesday to resume her studies at Rosary college, River Forest, Ill.

### Snap Shots Coming In But Many More Views Are Desired

While many excellent snapshots of roads, trails, streams and wild life, and public buildings and other points of interest have been received at the Chamber of Commerce, the committee conducting the picture contest is hopeful that many more will come in. R. E. Sel-

the federal bonus, government life insurance and compensation.

chairman of the committee, said yesterday. The committee wants snapshots and pictures of all kinds which might be suitable for illustrating a new tourist folder to be prepared, during the winter, for circulation throughout the country next year. All sorts of pictures are desired. Particularly needed are pictures of deer, wild birds and game of all varieties, and attractive landscapes. The prints and the films should be submitted to the Chamber of

Commerce. They will be returned. Those who submit pictures used in the book will receive handsome enlargements of the prints.

Inter-island air service is to be inaugurated in Hawaii.

QUALITY isn't figured in the material alone. It's part of the fit, too . . . the way a suit looks and feels on you. Better to have a cheaper grade of suit fit right than an expensive one that's shapeless and badly tailored. Have it tailor made. It satisfies.

### Dean Confers With War Veterans on Claims for Bonus

Capt. Russell S. Dean, chief of the soldiers' bonus division of the state adjutant general's office at Lansing, conferred with about a dozen former service men at the Delta hotel yesterday regarding claims for the state bonus. He will remain in Escanaba today to meet other war veterans.

Under the state bonus law, persons who were residents of Michigan at the time they entered World War service, are entitled to a bonus of fifteen dollars per month. Capt. Dean states that he will gladly furnish information also concerning

County G. O. P. Under Hoover's Platform; Nominees Endorsed

Adherence to the National Republican platform, and endorsement of regular party nominees for county, state and national offices are expressed in resolutions adopted by Schoolcraft county Republicans at their regular convention Wednesday afternoon.

We, the Republicans of Schoolcraft County in convention assembled at the City of Manistique on September 12th, 1928, reaffirm our allegiance to the Republican Party and adhere to its principles as announced by the National Convention.

We endorse the candidacy of Hon. Frank P. Bohn our present congressman from this district. We believe that the present administration of our state government has been efficient and economical and in the interest of the people of the State, and we heartily endorse for reelection our present Governor, Fred W. Green, and commend him for his fearless and honorable character, his unswerving fidelity to duty and his tireless efforts in behalf of our state and its people.

We believe that the present state officials have justified the confidence heretofore placed in them, and particularly are we proud of the splendid records of our Attorney General, Wilber M. Brucker and Auditor General, Oramel B. Fuller, State Treasurer, Frank D. McKay and Secretary of State, John S. Haggerty, and as Republicans of Schoolcraft County, we heartily endorse their candidacy for renomination and election.

We as Republicans of Schoolcraft County, recognize the outstanding qualities as a jurist and the eminent fitness for the high office of Justice of the Supreme Court, of our late Circuit Judge, Hon. Louis H. Fead. We reaffirm our faith in his ability and point with pride to his outstanding record; and urge his nomination as a candidate for Justice of the Supreme Court.

We commend and endorse the record of Senator Herbert Rushon and our present Circuit Judge, Herbert W. Rannels, and endorse their candidacies for re-election. We commend the faithful services of our present county officers and abide by the verdict of the people in the recent primary in their renomination, and firmly believe that the expression of our people at the primary has cleared the way for a united Republican party in this county, to the end that all Republicans may go forth to battle at the election with renewed faith in the principles of the party, with a firm belief in the abilities and fitness of our candidates, and a determination that will bring victory for the party and our candidates at the November election.

AT GERO TODAY "The Grain of Dust," the Tiffany-Stahl production feature now playing at the Gero Theatre is an adaptation by L. O. Riggio of David Graham Phillips' powerful novel which caused such a furor on its publication some years ago.

It is the story of a man's struggle against the designing little office vamps whose voluptuous appeal gradually sweeps him away into the flood which he knows may wreck his entire career and the happiness of the woman his better self loves.

Cortex, of course, plays the engineer, a man whose better self is constantly warring with his weaker self—who sees himself drugged by the powerful appeal of a bit of feminine appeal that really, isn't worth a second glance, and yet is powerless to throw off her spell. It's a difficult part but one that Cortex' artistry is capable of encompassing.

A card party has been arranged for Friday evening, September 21, to mark the re-opening of the Hobok Amusement Hall, N. Houghton avenue, which has been closed for the summer months.

Because he believes the bible declares against bobbing, Joseph Kasser, of London, refuses to cut women's hair. He bases his belief on the verse from 1 Corinthians XI. "But if a woman have long hair, it is a glory to her: for her hair is given her for covering."

Never an Iron on My Hair Wherever my theatrical engagements happen to take me I could have a marcel, but I never do. I prefer my own method—waving my hair with my Wave and Sheen.

I always keep my hair clean by shampooing once a week. I apply Wave and Sheen with a comb. You can use a brush or just your hands. I dampen the hair with it—insert combs in the direction I wish the waves and forget it for about an hour. Some types of hair require more time, some less.

The result is a soft, lovely, undulating wave. Most people in my audiences think I have it marceled. Many ask whether it is a natural wave. It is not. You can have this same sheen no matter what method you use to wave your hair. Get a bottle at any toilet counter for 75 cents. One trial will convince you as it has thousands of others.—Adv.

Miss Elizabeth Falk left Tuesday for Appleton, Wis., where she will be a student at Lawrence college this year.

Thirty Booths in Exhibit Building

Hay and hops, cows and crops, posies and pies—or what have you. They all hold equal interest for fair visitors at Manistique this week. In the main exhibit hall are some 30 mercantile display booths which are also getting their share of attention.

While work is progressing on the 1929-sheet atlas in which all the world is mapped on the same scale and each nation is doing its own area, the promoters say it will require several years more to complete the work.

Mrs. Stanley Reid and son Jack of Detroit are guests at the home of the former's father, John Barnes, Alger avenue.

EXPO PROGRAM CARRIED OVER TO SATURDAY

County fair week at Manistique will be extended over into Saturday to permit the completion of the horse racing program which was delayed by rain Wednesday. An added attraction tomorrow afternoon will be the Manistique-Munising football game, marking the opening of the season for the Manistique high school team. The game is scheduled for 2:30 p. m. Manistique high school will not play another home game until October 20, when Newberry high comes to scrap on the Schoolcraft lot. The tilt this week is one of five conference games scheduled by Coach Cook's crew. The high school band will be out for the game, and the Manistique W. O. W. Band has been held over for the Saturday afternoon program. Free acts postponed from Wednesday will be staged, providing a varied program for the public.

Sunshine Chases Mud and Gloom at County Fair Lot

Making amends for his ingratitude on opening day, the weather man sent Old Sol to gladden the hearts of Schoolcraft county fair visitors with sunshine Thursday. Fortunately, the soil underlying the fairgrounds is of a sandy nature, and the heavy rainfall was readily absorbed in most places. Fortunately also, Manistique is still a "sawmill town", and there was plenty of sawdust available to spread in soggy spots. Although the fair program was delayed a day by the incessant rain, crowds for the remainder of the week were expected to bring attendance up to par. GOLFERS PLAY BRIDGE Instead of their usual matches, members of the Indian Lake ladies golf club enjoyed a bridge tea at the Sunset Beach tea room Tuesday. Mrs. Harold Cockram won high honors and Mrs. W. F. Kefauver was second. Housekeeper Wanted Middle-aged woman preferred APPLY OLE OLSON, Thompson, Mich.

**SILK NARCISSUS**—There are few women who do not look well in the flattering printed chiffons which have been so popular throughout the summer and still continue to hold their vogue. They are both serviceable and dainty. This model of gaily colored printed chiffon uses silk narcissus as a trim. An unusual note is furnished by the band of velvet beaver. The cuffs are decidedly caught at the shoulder with a bunch of flowers and also at the hipline.

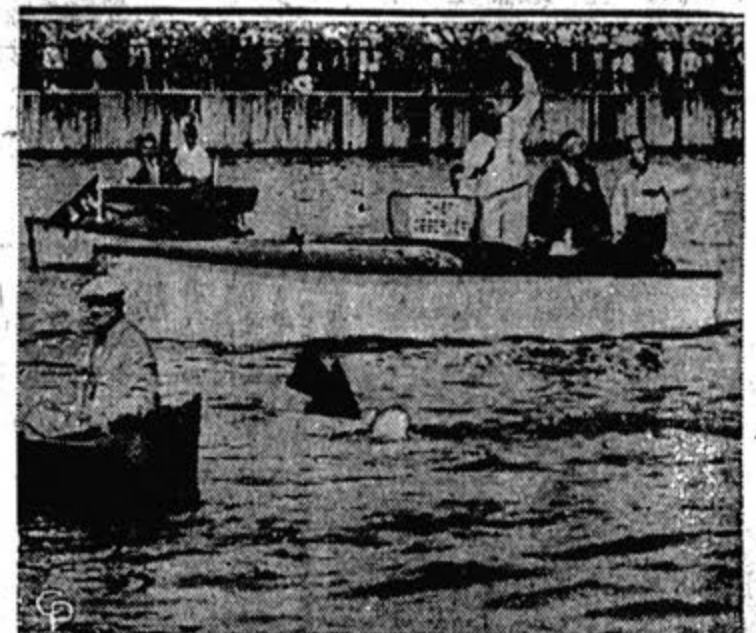

**BEAVER TRIM**—Time used to be when all fur coats were expensive and cloth coats relatively cheap, but nowadays milady often can purchase a fairly nice fur coat much more cheaply than she can buy an attractive one of the cloth variety. Quantities of fur trimming on the cloth models makes them much more costly. This coat of basket weave features an unusual trim of twin beaver. The cuffs are decidedly caught at the shoulder with a chic and this type of collar is always good. Kathryn Crawford is the model.

# Cubs Trounce League Leading Cardinals, 6 to 1

## ST. LOUIS HAS 2 GAME MARGIN

### Crowd of 45,000 Watch Chicago Nationals Win Contest

By Orlo L. Robertson (Associated Press Sports Writer) Chicago, Sept. 13.—(P)—The Cubs advanced to within two games of the pace-setting Cardinals by defeating the St. Louis entry by 6 to 1 here today before a record week-day crowd of 45,000. The game was started at 1:30 to permit the Cardinals to make connections by special train for Philadelphia, where they play tomorrow.

Faced by Kiki Cuyler, Garby Hartnett and Woody English, the Cubs drove the veteran Clarence Mitchell from the box, and maltreated his successor, Sylvester Johnson. Fred Knopke pitched to the last batter in the Chicago eighth after singles by Beck and a triple by English had given the Cubs two runs with two out.

While his mates were pounding the opposition for fourteen hits, including two triples and two doubles, Sheriff Blake was holding the Cardinals to four hits, two each in the fourth and the fifth innings. In addition to his defensive efforts, Blake himself got two hits and scored two runs. He started the opening Chicago rally and the second in the eighth.

English and Cuyler shared the hitting honors, with Hartnett a close second. The former Pirate pounded out a double and two singles in four trips to the plate, driving in two runs and scoring one in person. English's work with the stick included a triple, a double, a single and a sacrifice in five attempts.

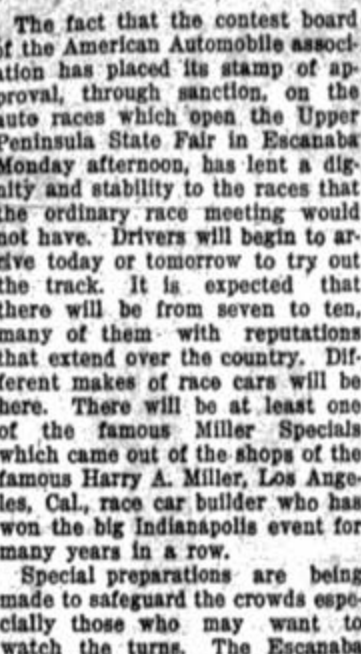

## CONFERENCE GAMES ON CARD

### St. Joseph's Eleven Also Will Face Two New Foes

Five Cleveland Athletic conference games are listed on the 1928 schedule of the St. Joseph's high school, and also two new opponents will face the local parochial school eleven. In all, there are eight games on the school's schedule.

Coach Leo Brunelle's gridders will go to Vulcan to open its season, Sept. 22. This will be the first meeting between the two schools on the gridiron, and it promises to be an interesting contest. Because of the increase in student enrollment, the Vulcan high school has been elevated from Class D to Class C, and it is probable that it will also become eventually a member of the Cleveland conference, which is composed of five Class C schools. The following Saturday, Sept. 29, St. Joseph will stay at home to engage in its annual contest with Escanaba high school. The first conference game will be played on Oct. 6, when the parochials will clash with Baraga Parochial at Marquette. Coach Bill Cook's schoolcrafters will come to Escanaba on Oct. 13, to do battle. Past gridiron battles between the two schools have always been watched with interest, and from indications there will be much more attention shown to this year's game because of the contestants being so closely matched.

## Auto Races at State Fair Have A. A. Official Stamp

BURT KARNATZ, Indianapolis speedster, driving a Speedway Special, will be one of the contestants in the automobile races which will open the U. P. State Fair Monday afternoon.

The fact that the contest board of the American Automobile association has placed its stamp of approval, through sanction, on the auto races which open the Upper Peninsula State Fair in Escanaba Monday afternoon, has lent a dignity and stability to the races that the ordinary race meeting would not have. Drivers will begin to arrive today or tomorrow to try out the track. It is expected that there will be from seven to ten, many of them with reputations that extend over the country. Different makes of race cars will be here. There will be at least one of the famous Miller Specials which came out of the shops of the famous Harry A. Miller, Los Angeles, Cal., race car builder who has won the big Indianapolis event for many years in a row.

Special preparations are being made to safeguard the crowds especially those who may want to watch the turns. The Escanaba track is so arranged that all the turns, in fact, the complete circle, can be seen from the stands. General Manager George E. Harvey urges spectators to come early and get their seats in the stands as the seating capacity is about 5500 and the seats are expected to be sold out early.

## BROWNS BEST CHICAGO, 6-4

### Heinie Manush Gathers Half of His Teams' Eight Hits

St. Louis, Sept. 13.—(P)—Collecting half of his team's eight hits, Heinie Manush, leftfielder, boosted his second place batting average to .375 over Lou Gehrig of the Yankees today as the St. Louis Browns bested the Chicago White Sox, 6 to 4.

Box score for Browns vs Chicago. Includes player names and statistics like AB, R, H, O, A, E.

## GIANTS BEAT BRAVES TWICE

### New York Team Is One and a Half Games Behind Cardinals

Boston, Sept. 13.—(P)—Giant fortunes continued to improve today when the New York team won twice from the Braves, and, by virtue of St. Louis' defeat moved to within one and one-half games of the league lead. The scores today were 12 to 2 and 7 to 6. It was the third consecutive double success for the Conque McGraw over the home forces and a new modern major league record. Two more victories here tomorrow would give the aspiring second-placers a new mark for all time.

## ROBINS TROUNCE PHILLIES, 10-6

### Big Jim Elliott Defeats Philadelphia 2nd Time in 48 Hours

Philadelphia, Sept. 13.—(P)—Big Jim Elliott matched the feat of William Watson Clark in coming back here today with only 48 hours of rest to defeat the Phillies by 10 to 6. It was the farewell game of the series at Brooklyn having won four. Elliott limited the Phils to six hits and never gave them a chance to score. By his victory he hoisted the Robins back to the 500 mark, though they are safely in sixth place for the season.

## U. P. High School Grid Schedules

Following are the football schedules of some of the upper peninsula high schools: Sault Ste. Marie, Sept. 15—Soo at Marquette. Sept. 22—Ishpeming at Soo. Sept. 29—Munising at Soo. Oct. 6—Newberry at Soo. Oct. 13—Soo at Petoskey. Oct. 20—Menominee at Soo. Oct. 27—Soo at Escanaba. Nov. 3—Manistique at Soo. Sept. 15—Negaunee at Ishpeming. Sept. 22—Ishpeming at Soo. Sept. 29—Ishpeming at Marquette. Oct. 6—Ironwood at Ishpeming. Oct. 13—Gladstone at Ishpeming. Oct. 20—Ishpeming at Negaunee. Oct. 27—Calumet at Ishpeming. Nov. 2—Marquette at Ishpeming.

## Ensign Harvesters Play Rock Sunday

Rock, Mich., Sept. 13. (Special)—The Ensign Harvesters will play a return game here Sunday afternoon and try to get revenge for their 9 to 7 defeat at the hands of the Rock baseball team Sunday. Through the good pitching of Pilon, Rock southpaw, who was a little wild, but very good in the pinches, the locals were able to defeat Ensign.

## KUICK SHIFTS GRID LINEUP

### Iron River High Expected to Have Strong Eleven

Iron River, Sept. 13.—Changes in the line-up of the Iron River high school football team appeared probable in the practice sessions this week, with Coach Stan Kuick shifting his candidates about to get a speedier backfield, and more weight on the line. Although the "first team" aspirants have not yet clinched their positions, it appears that those who practice as the first squad are practically certain of their jobs.

## Young Corbett Wins Decision Over Sam Baker

New York, Sept. 13.—(P)—Young Corbett, latest sensation from the Pacific coast, whipped Sammy Baker, rugged soldier socker from Mitchell Field tonight in his 12 round eastern debut at Madison Square Garden. Baker was knocked down for a count of nine in the seventh round. Each weighed 145 pounds. Corbett, twice winner over Jack Thompson, the negro who knocked out Joe Dundee recently, had moments when he too was on the verge of a knockout and 10,000 fans booed the decision lustily. The Associated Press score board gave Baker six rounds, with three for Corbett and three even.

Five Cleveland Athletic conference games are listed on the 1928 schedule of the St. Joseph's high school, and also two new opponents will face the local parochial school eleven. In all, there are eight games on the school's schedule.

## Auto Races at State Fair Have A. A. Official Stamp

The fact that the contest board of the American Automobile association has placed its stamp of approval, through sanction, on the auto races which open the Upper Peninsula State Fair in Escanaba Monday afternoon, has lent a dignity and stability to the races that the ordinary race meeting would not have. Drivers will begin to arrive today or tomorrow to try out the track. It is expected that there will be from seven to ten, many of them with reputations that extend over the country.

## GIANTS BEAT BRAVES TWICE

Boston, Sept. 13.—(P)—Giant fortunes continued to improve today when the New York team won twice from the Braves, and, by virtue of St. Louis' defeat moved to within one and one-half games of the league lead. The scores today were 12 to 2 and 7 to 6. It was the third consecutive double success for the Conque McGraw over the home forces and a new modern major league record.

## ROBINS TROUNCE PHILLIES, 10-6

Philadelphia, Sept. 13.—(P)—Big Jim Elliott matched the feat of William Watson Clark in coming back here today with only 48 hours of rest to defeat the Phillies by 10 to 6. It was the farewell game of the series at Brooklyn having won four.

\$18,000 to Be Spent in Improvements Before Holidays

As soon as Anderson & Bonfeld's furniture store is moved to its new home in the Semer building, the Fair Store will start an extensive program of improvements to the interior of the building and enlargement of the departments, costing more than \$18,000. The work will be rushed along in an effort to have all in readiness for the Christmas holiday shopping season.

The Grand Rapids Store Equipment corporation has had its experts survey the local department store, and has drafted an elaborate plan embodying the modern features of the large metropolitan stores. Although the immediate project calls for an expenditure of about \$18,000, more than \$40,000 will be spent eventually in the carrying out of the general improvement plan.

The exterior of the store has been redecorated in front and the installation of a large Neon sign adds to its attractiveness. The famous Fair Store clock has been removed, but a new electric time-piece will be erected in the front in the near future.

With the taking over of the quarters occupied by Anderson & Bonfeld, the Fair Store will have 7,000 square feet additional selling space on the third floor and 2,000 feet for storage on the fourth floor.

Included in the major improvements will be the abandonment of the outside basement entrance, which will be replaced by an interior entrance. The east side entrance to the main floor of the building will be moved to permit more window display space, and elaborate changes will be made to the front entrance, including an attractive terrazzo floor and modern fixtures.

To save steps for customers wishing to go to and from the departments on the main floor, an additional east-west lane will be provided in the center. The cloak and receiving rooms will be removed to other floors to allow more selling space on the main floor. Other improvements to be made on this floor are the installation of a new lighting system, abolition of the basket system of delivery, removal of the offices to the third floor, transfer of the shoe department from second floor and installation of new show counters and other fixtures.

A complete juvenile wear department will be given a prominent position on the rear of the second floor. The yard goods, drapery and bedding department will be moved to the third floor, which because of the presence of natural light, more satisfactory matching of fabrics can be made by customers than on the first floor, where artificial light must of necessity be used. This department will be enlarged about three times its present size.
