ESCANABA HAS GREAT FUTURE MAPPED OUT

Building of City of Gary Ind. By United States Steel Corporation Where will be Located Greatest Steel Plant in World will Result in Annual ore Tonnage out of This Port Being Increased by 5,000,000 tons.

CANAL IS ASSURED

Growing Demand for ore will Result in Lake Superior Being Connected with Lake Michigan at Head of Little Bay de Noc.

Through the building of the city of Gary, Ind., by the United States Steel corporation at an approximate cost of \$75,000,000 the annual tonnage of iron ore passing through the docks at the port of Escanaba will be increased, it is estimated, by nearly 5,000,000 tons.

The construction of the city of Gary has already been begun and within four years, when it is planned that every detail of the model city will be completed, the port of Escanaba will experience one of the greatest business booms in the history of the municipality.

A comparison of distances from the principal northern ore shipping ports, shows that the port of Escanaba will furnish the greater portion of the iron ore used by what will be the greatest steel plant in the world.

By obtaining ore from the port of Escanaba for the new plant a haul of approximately 1,000 miles will be saved.

The building of the new city and steel plant will mean that a greater portion of the Marquette range ore will be shipped by rail to Escanaba than is now sent to this port because of the great saving in hauling charges.

The building of the city of Gary by the United States Steel corporation it is believed will have a far greater effect on this district than any industrial movement that has ever before been inaugurated.

It will be necessary for the plant to obtain a certain percentage of Marquette range ore and this demand, backed by the powerful influences of the United States Steel Corporation, will result in the building of a ship canal across the peninsula of Michigan connecting Lake Superior with Lake Michigan at the head of Little Bay de Noc.

The construction of such a canal will entail the expenditure of a great amount of money but it is believed that the developments in the iron ore trade of the country within the next few years, will demonstrate that the canal is a necessity.

Exploration of new mining properties in all parts of this district is now more active than ever before in the history of the iron-ore industry. These explorations are being carried forward by farighted men at the head of powerful corporations who see into the future a greater demand for ore than has yet been experienced.

Escanaba being located contiguous to some of the richest ore producing districts of the peninsula cannot help but profit by the increased demand and people of the city can rest assured that this city has not yet reached its greatest growth.

"Build us a city for 100,000 persons. Equip it with every municipal convenience known. Make it a city so pleasant to live in that men of high intelligence and independent means will be glad to pass their lives and raise their families in it. Spare no money and fill this order promptly." It was the United States Steel corporation, through the offices of the Indiana steel company, talking.

The order was placed with A. F. Knott, a young lawyer of northern Indiana and now the active agent of United States Steel in building a new city, to be called Gary, Ind.

The board of directors of the United States Steel corporation has set aside \$10,500,000 to be spent at Gary this year. The plan is its entirety will cost \$75,000,000 to carry out and it will take at least four years to put into effect the plans already made. This includes the cost of the greatest steel plant in the world and a city for 100,000 people attached to it.

Gary, not yet incorporated as a city, will lie on the south bank of the Calumet river, directly south of the most southerly point of Lake Michigan. At this point the Calumet is a mile from the lake shore and the area between the river and the lake is to be devoted to the greatest steel plant in the world. About 6,000 acres of land have been secured, and as soon as it is physically possible to push the work, two sections of land are to be covered with plant

to create a harbor suitable to the enterprise, it has been found necessary to ask congress to establish a dock line in the lake as the water along the shore at this point is shallow, it being nearly 2,000 feet to navigable water. From deep water in the lake to the Great Calumet river a slip is to be built by the steel company 700 feet wide and 25 feet deep, extending along the eastern boundary of the plant. The corporation is not asking congress for anything more than an official survey for a dock line in order that the plans of the company may be carried forward before another session of congress.

The mills will handle 5,000,000 tons of iron ore a year and from 2,500,000 to 2,700,000 tons of steel. There will be sixteen blast furnaces, eighty-four open-heart furnaces and six rolling mills. If steel rails alone the production will be 75,000 tons a month, and the portion of the plant used for rail-making will cost \$2,500,000. Coal is to be coked at the Gary plant and the gas generated in the process will supply the power to run the entire plant.

Considered industrially, the decision of the steel corporation to establish its first comprehensive plant at Gary means that the center of gravity of the steel trade of America hereafter will be along the most southerly shore of Lake Michigan. Even the present plans for the expenditure of \$75,000,000 at this point do not include all that has been talked of by the officers of the steel corporation in connection with the expansion of the industry near Chicago. In time—and not a very long time, if the prosperity of the country is maintained—the foot of Lake Michigan is expected to be the greatest manufacturing center in the world for the steel and iron trades and those allied with them.

Among the corporation giants in the United States are several others besides the steel corporation with strength enough to become builders of modern cities if the future of Gary demonstrates the success of this industrial plan. One of the principal charges made in late years against the "trust" as an institution is its tendency to shut down plants and destroy the prosperity of towns and cities dependent on them. Is the time near at hand when the big industrial combination can show a balance of positive construction in energy to its credit?

LARGE CROWD ON EXCURSION

First Outing Arranged by Escanaba Light Guard was Great Success.

The first successful excursion of the year out of Escanaba to another port was that given by the members of the Escanaba Light Guard to Sturgeon Bay yesterday.

Nearly a capacity load was carried by the steamer Maywood of the Escanaba & Gladstone Transportation company's line when that boat left the Stephenson dock promptly at 8 o'clock yesterday morning bound for the lower Green Bay port.

To add to the success of the undertaking, the Escanaba baseball team who accompanied the excursionists, won its first victory of the season yesterday afternoon defeating the Sturgeon Bay players by a score of 6 to 5.

Despite the heavy gale of wind which blew steadily from the north throughout the day the course both to Sturgeon Bay and returning was accomplished without incident and on schedule time.

A heavy sea was encountered by the steamer both on the trip up and down the bay but for the greater portion of the distance the comfort of the passengers was not interfered with. Battering in the trough of the waves from outside peninsula point to Marquette the Maywood rolled but little but in crossing the bay to Sturgeon Bay the heaviest sea of the trip was encountered but only a few of the passengers were affected by the rolling of the boat.

Nearly one-half of those who took part in the excursion yesterday stopped at Marquette when that port was reached to visit for the day with friends in the twin cities and were picked up by the Maywood on the return trip to this port.

The excursionists arrived back in Escanaba shortly after 3 o'clock this morning.

The Ford River Switch band was engaged for the day and gave a musical program both on the boat and at Sturgeon Bay.

At 7:30 o'clock yesterday morning the members of the Light Guard met at their hall and with the band leading marched to the Stephenson dock making an especially attractive appearance.

At Sturgeon Bay a short exhibition drill was given by the guard and following which they escorted the members of the baseball team to the park.

Several Gladstone people took part in the excursion of yesterday and after the Maywood had discharged its Escanaba passengers at the Stephenson dock on the return trip the boat proceeded to Gladstone and arrived back at its dock here early this morning.

GIVE MUCH TO FRISCO VICTIMS

Knights of Columbus Close Meeting After Making Provision for Liberal Donation.

A final adjournment of the delegates to the national convention of the Knights of Columbus was taken. Norfolk, Va., was selected as the place of the next convention in August.

The directors chosen are: J. C. Peilister Boston; E. W. Buckley, St. Paul, Minn.; D. B. Lucey, Ogdensburg, N. Y.; D. J. Callahan, Norfolk, Va., for the three year term, and J. S. Leahy, St. Louis, for two years.

The California delegates, consisting of Joseph Scott, George A. Connelly and Neal Powers presented an appeal to the convention in behalf of the members of the order in San Francisco. The convention voted a sum which will approach \$100,000 for relief work.

This money will be forthcoming immediately from the national fund, which will in turn be reimbursed by two assessments of 40 cents on each member.

The assessments will be payable in July and the following January. It was further voted that the California delegation above named shall be constituted a national relief fund committee for the Knights of Columbus.

In addition to this fund this committee will handle all other contributions in the interest of the order in the stricken district.

Rev. Father Doyle, of Washington, appeared before the national body for the purpose of making an appeal to the order that it act as sponsor for the Paulists and lend its support in spreading the influence of the Catholic religion in the United States. It was voted to give a contribution which, it is hoped, will amount to \$180,000.

Considerable time was spent during the afternoon session in considering some revisions of the by laws and constitution, the most important of which was the raising of the minimum initiation fee from \$5 to \$10. This was adopted. Among other changes acted upon favorably was the adoption of a new schedule for extra hazardous risks for membership. This will affect only new applicants.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 W. 3rd st., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years, and if I had taken it at the start I would have saved years of suffering." Ellsworth's Drug Store.

ESCANABA WON A CLOSE GAME

Sturgeon Bay Defeated After Exciting Finish in the Ninth Inning.

After blanking the Sturgeon Bay baseball team in each inning up to the seventh the members of the Escanaba team yesterday afternoon were given a hard run for victory in the final inning.

Up to the seventh inning Sturgeon Bay was not allowed a score but in that period one man crossed the home plate for the initial score. Sturgeon Bay was blanked again in the eighth but in the ninth inning with the score standing at 6 to 1 in favor of Escanaba the opposing team took on a wonderful hero and scored four runs before the score getting could be stopped.

Norden was in the box for the Escanaba team and pitched an excellent game throughout. He had good speed and control and up to the seventh inning a continual fanning of the air was in order for the Sturgeon Bay players.

Matt was behind the bat for the Escanaba team and played the game without an error and in good form.

In fact all of the Escanaba players were in good form for the contest and errors for the most part, were conspicuous by their absence.

The remainder of the lineup of the team for the game was as follows: Aubin first base, M. Walsh second base, Lehr third base, Lentz short stop, J. Walsh left field, Flath center field and Walsh right field.

ELECTION LAW IN OPERATION

Enrolled Voters of Delta County Will Have Opportunity Tomorrow to Take Part in General Primary Election.

Enrolled voters of all political parties throughout the state will tomorrow decide whether or not the primary system of elections for the offices of governor and lieutenant shall be permanently adopted.

At the same time candidates for the offices of governor and lieutenant governor will be nominated by all parties by direct vote.

Delegates to attend the county conventions of the Republican and Democratic parties will be named in each ward and township of Delta county according to the provisions of the primary law.

The election of tomorrow will be the first that has been held since the passage by the last legislature, of the primary election law and accordingly its results will be important.

It is provided that only enrolled voters can take part in the election in the several wards and townships and because of the lack of a great vital interest by the rank and file of the different parties it is not believed that a large vote will be polled.

Gov. Warner has urged the enrolled Republican voters of the state to turn out for the election of tomorrow in order that the full provisions of the new law may be tested and Republicans of Delta county who are entitled to participate in the election should do so.

BIG AUDIENCE AT OPENING

Winner Brothers Company Appeared in Clover Dale at the Peterson Last Night.

One of the largest audiences of the season filled the Peterson opera house last night for the opening performance of a week's engagement at that theater by Winner Brothers stock company.

The pastoral play "Clover Dale" was the bill for the initial performance and the enthusiasm aroused in the audience at different stages of the production, showed well the bit that had been scored by the company.

Winner Brothers company have appeared in Escanaba on several occasions, coming to this city last, for a week's engagement two years ago, and is one of the most popular troupes of players who visit this city.

In addition to the five members of the Winner company who appear in the casts of the productions, competent actresses and actors are engaged for the supporting parts and all of the productions given are of a good standard.

In Clover Dale all of the members of the company took their parts well and frequent applause from the audience gave evidence of a popularity for the players which will continue through the engagement, specialists by the best members of the company.

Between the acts making a continuous performance raising of the first curtain.

Final act.

NEW VOLUMES ARE RECEIVED

Books for Reference Department are Added at Carnegie Public Library.

A list of new books, have been just received at the Carnegie public library and now ready for the shelves. These books are all classified and among them are a few medical books—the first in this particular class that has been added for some time.

The list is as follows:
Fine arts.
Julius Gaba, Yachting.
Charles Skinner, Little Gardens.
Useful Arts.
Materia Medica and Therapeutic.
Dr. Toby Cohn, Electro-diagnosis, electro-therapeutics.
J. N. Langley, Practical histology.
Charles B. Lockwood, Appendicitis, its pathology and surgery.
Gustav Mann, Physiological histology methods and theory.
Dr. James Paget, Selected essays and address.
Philosophy.
H. W. Dresser, Man and the divine order.

Science.
Chas. Dixon, "Birds Nests."
C. E. Dutton, "Earthquake in the light of the new seismology."
Sociology.
Katharine Beebe, Kinlergarten activities.
Charles E. Bolton, "A model village and other papers."
Alice M. Earle, "Two centuries of costume in America."
N. Dwight Harris, "The history of negro servitude in Illinois."
Lillian Pettigill, Tailors of the home."

More books are expected soon and lists will be published in this paper as rapidly as the books are ready for circulation.

Three Physicians Treated him Without Success.

W. L. Yancy, Paducah, Ky., writes: "I had a severe case of kidney disease and three of the best physicians in Kentucky treated me without success. I then took Foley's Kidney Cure. The first bottle gave immediate relief, and three bottles cured me permanently. I gladly recommend this wonderful remedy." Ellsworth's Drug Store.

More books are expected soon and lists will be published in this paper as rapidly as the books are ready for circulation.

The high price of leather is due primarily to the fact that with the increase in the number of people who wear shoes, the production of hides has steadily decreased. In the old days, hides were shipped in great quantities around the horn from California. Today, cattle are killed only for meat the hide being a secondary consideration. In connection with this it is interesting to note that with the tremendous increase in the demand for shoes, the people refuse persistently to eat meat in proportion but actually eat less.

The volume of the shoe trade has increased very much within the last few years. Some of the heathen nations are becoming civilized and when civilization comes, it brings shoes. The shoe follows the white man in all his travels. Not only is the demand for shoe leather increased but leather for useful and ornamental articles is also used greatly in excess of former times. Now that the consumption of meat has taken another drop with the revelations concerning the beef trust it is hard to imagine how the leather trade will be able to adapt itself to conditions. On account of the high price of hides and tanned leather, the jobber must raise the price to the retailer or substitute inferior goods. As the price is high now and the quality not what it used to be for the same money, it looks as though the consumer will have to pay again.

REPUBLICAN COUNTY CONVENTION.

A convention of the Republican delegates of Delta county, to be elected in the several wards and townships of the county at the primary election to be held on the twelfth day of June 1906, is hereby called to meet at the court house in the city of Escanaba in said county, on Monday the eighteenth day of June 1906 at 11 o'clock in the forenoon for the purpose of electing ten delegates to attend the state convention, hereafter to be called, for the nomination of state officers.

The several wards in the cities of Escanaba and Gladstone and the townships of the county are entitled to delegates in the convention based on the vote for governor at the general election held in November 1904 as follows:

Townships	Delegates
Baldwin	1
Bark River	2
Bay de Noc	1
Brampton	1
Cornell	1
Escanaba	1
Fairbanks	1
Ford River	2
Garden	2
Maple Ridge	1
Masonville	2

Chairman Delta County Republican Committee.
John P. Norton,
Secretary.

DEMOCRATIC COUNTY CONVENTION.

A convention of the Democratic delegates of Delta county, to be elected in the several wards and townships of the county at the primary election to be held on the twelfth day of June 1906 is hereby called to meet at the court house in the city of Escanaba in said county on Tuesday, June 19, 1906, at 1 o'clock in the afternoon for the purpose of electing ten delegates to attend the convention, thereafter to

be called, for the nomination of state officers.

The several wards in the cities of Escanaba and Gladstone and the townships of the county are entitled to delegates in the convention based on the vote for governor at the general election held in November 1904 as follows:
City of Escanaba—First ward 2 delegates. Second ward 2 delegates. Third ward 4 delegates. Fourth ward 3 delegates. Fifth ward 3 delegates. Sixth ward 3 delegates. Seventh ward 1 delegate.
City of Gladstone—First, Second, Third and Fourth wards, each 1 delegate.
Townships of Baldwin, Bark River, Bay de Noc, Brampton, Cornell, Escanaba, Ford River, Fairbanks, Garden, Maple Ridge, Masonville, Nahma, Wells, each one delegate.
Dated Escanaba June 1, 1906.

MORRIS JONES COMEDIAN
At Ben's Theater This Week

SAYS CROSS IS NOT NECESSARY

Deputy Attorney General Chase holds the opinion that it will be unnecessary for electors to make a cross before the names of Fred M. Warner and Patrick H. Kelley on the state primary ballot in order to cast a legal vote for them. Chase holds that they are the only candidates for the offices of governor and lieutenant governor, and the depositing of a ballot will be considered a vote for each. This also applies to W. N. Ferris, the only candidate for the nomination for governor on the Democratic ticket. It is announced at Lansing that the secretary of state will read instructions to election commissioners in the state to this effect. However, attorneys here when asked for an opinion regarding the matter, side stepped, and ventured the suggestion that "it might be all right, but the safest plan would be for electors to make the cross." The primary law is none too clearly understood in its present form, and further complications like the one above cited, would, if promulgated at this time, have the effect of further confusing voters.

MAYOR WANTS CHIEF RETIRED

In a communication issued Saturday Mayor Robert G. Minahan of Green Bay recommended to the police and fire commissioners that chief of the fire department, William Kennedy, be suspended from service because he accepted a bribe in 1902 from Charles E. Johnson, representing the Seagrave company of Columbus, O., to use his influence with the council to award the contract for a chemical wagon and supplies to the latter concern. Kennedy recently admitted his guilt and paid a fine of \$200 in municipal court.

ARRANGE FOR DANCING PARTY

Invitations were issued today for a dancing party to be given at Clark's hall tomorrow evening. Oscar Weiss of Appleton who is visiting with friends in the city will be the guest of honor. The party is arranged by Miss Caroline Grenier and Miss Arna Greis who with their friends are ending all efforts to make the party an enjoyable one. Sullivan's orchestra has been engaged to furnish the musical program.

POSTMASTERS GET INCREASES

The salaries of the following postmasters in the upper peninsula were raised by the postoffice department last week in the annual readjustment: Republic, \$1,100 to \$1,200; Norway, \$1,000 to \$1,100; Houghton \$2,000 to \$2,700; Hancock \$2,800 to \$3,200; St. Ignace, \$1,500 to \$1,600.
Harsh physics react, weaken the bowels, cause chronic constipation. Doan's Regulets operate easily, tone the stomach, cure constipation, 25c. Ask your druggist for them.

PEDDLERS TO GET LICENSES

Mayor M. Perron Issues Orders for all Vegetable Peddlers of City to Comply with Ordinances.

All vegetable peddlers of Escanaba must obtain licenses. Such is the edict given today by Mayor M. Perron and he is determined that the order shall be obeyed. All vegetable peddlers of the city were notified today of the order issued by Mayor Perron and unless the necessary licenses are taken out arrests will follow. Several peddlers are now operating in the city peddling with the regularly established merchants and it is claimed that but few have taken out the licenses provided for in the city ordinances.

COMMITTEES ARE NAMED

Additional Plans for Great Fourth of July Celebration Were Made Yesterday Afternoon.

"The eagle will scream as she has never screamed before in Escanaba on July 4," said President Joseph Wickert, of the special arrangement committee organized by Mayor Perron to lay plans for one of the most elaborate Fourth of July demonstrations that has ever been carried out in a peninsula city. "We are already aware of a sufficient sum of money to carry out our plans and from this time until after the celebration every spare moment of the time of the committee men will be devoted to insuring its success. Unless our plans miscarry Escanaba will be the Mecca for people of all surrounding points of the peninsula on July 4. They have heard of our new streets and many improvements and at this time we propose to offer extra attractions in order that they will come to Escanaba and be convinced that we have the best city north of the straits." Seven working committees were appointed at the meeting of the general committee on arrangements yesterday afternoon and when additional plans for the demonstration were discussed. Another meeting will be held at the city hall on Wednesday evening at 8 o'clock which will be in the form of a mass meeting and which it is expected will be attended by all committee members and many of the businessmen of the city who are interested in making the celebration a marked success. Following are the members of the committee named yesterday: Music Herman Salinsky, Aid. Edward C. Voght. Transportation Mayor M. Perron, R. E. MacLean, W. R. Smith. Advertising Herman Salinsky and newspaper publishers of Escanaba. Purchasing Joseph Wickert, John O'Meara and E. E. Wood. Speakers John J. Sourwine, Mayor M. Perron and Henry C. Coburn. Committee on floats John J. Tolan and A. J. Valentine. Sports and games, George McEwen and Axel Peterson. The members of those committees will undertake the work assigned to them at once and some of them will be able to present reports at the meeting of Wednesday evening. Escanaba's demonstration is to be advertised by all businessmen of the city according to plans that have been adopted by members of the arrangement committee. From this time until July 4 the arrangement committee will furnish envelopes printed on the back with announcements of the demonstration to all businessmen to be used in their correspondence with businessmen of outside cities.

IS CLOSED TO PUBLIC

The Russell House, at Munising, for ten years the leading hotel of the city, and one of the best of its kind in the upper peninsula, has been sold to the Cleveland Cliffs Iron company, and will be closed to the public, says the Munising Journal. The final negotiations in the deal were consummated this week, and the company is now in possession of the fee to the property. For several months the Cleveland Cliffs Iron company has had under consideration a plan to establish a Y. M. C. A. building at Munising, and prominent citizens of the place conferred several times with president Mather regarding the matter. While not officially announced, it is understood that the hotel will be used for Y. M. C. A. purposes, the building being well adapted for it. The Cleveland Cliffs Iron company recently bought the Beach Inn Hotel property at Munising, and every effort is being made to make it a first class summer and winter hotel. It is probable that an addition will be built during the present year, and a number of sleeping apartments added. The Beach occupies a slightly location on the shore of Munising bay, near the Marquette & Southeastern railway depot.

GREAT VESSEL IS IN PORT

Steamer J. P. Morgan will Break all ore Carrying Records out of Port of Escanaba.

The steamer J. P. Morgan, the largest vessel now in commission on the Great Lakes, is at the North Western No. 6 dock taking on a cargo of ore and will probably clear here tonight for Chicago.

The Morgan has a total length of 602 feet with a 56 foot beam and 25 hatches. The monster carrier arrived in Escanaba yesterday and is now taking on her first load of ore out of this port. According to estimates made by the Capt. A. P. Chantlers, in charge of the Morgan and dock officials, when the boat clears from this port tonight all ore carrying records will be broken. It was estimated this afternoon that the total load carried out by the Morgan will aggregate 14,500 tons which will exceed the carrying record established up to this time.

The great vessel fills nearly an entire side of the No. 6 North Western dock which is the largest dock at this port; and the contrast between that vessel and other carriers of ordinary size now at the docks is marked. Many people of the city visited the big vessel today as she lay at the dock arousing nearly as much interest as did the arrival of the Wclvin at this port two years ago when that vessel was the largest carrier in commission on fresh water. The Morgan will carry her load to South Chicago.

FIRE CHIEF SET BLAZES

Chief of Fire Department at Sturgeon Bay Adopted Strange Tactics to Increase Salary.

After several mysterious fires had baffled the attempts of the marshal at Sturgeon Bay to solve their origin the chief of the fire department in that city was arrested yesterday morning charged with starting the blazes.

According to Escanaba people who visited at Sturgeon Bay yesterday the origin of the greater portion of a large number of fires that have occurred with in the last week in that city, have been traced to the fire chief.

The chief of the fire department at Sturgeon Bay by the action of the council is paid \$5 for each blaze that is extinguished by the department and in order to increase his revenues it is claimed that the fire chief started many blazes.

On Saturday night and early yesterday morning seven buildings at Sturgeon Bay and Bay View were destroyed by fires so by the chief. One of the buildings was a barn owned by John Fellman and second was a blacksmith shop belonging to Richard Maples, father in law to Chief of Police Peter Beitzer of Escanaba.

EXCURSION IS PLANNED

Many People will Visit Big Bay de Noc Points on Next Sunday.

What promises to be one of the most popular excursions of the year is that to be given on the Steamer Maywood to Big Bay de Noc points on next Sunday.

The complete schedule of the Maywood for the excursion was announced today by officials of the Escanaba & Gladstone Transportation company showing that nearly an entire day will be given the members of the party at the different points on Big Bay.

The Maywood will leave Gladstone on the morning of the excursion at 8:15 o'clock and will leave the Stephenson dock in Escanaba at 9:15 o'clock.

The excursionists for Fayette will be landed at that place at 10:15 o'clock at Nahma at 10:50 o'clock and at Van's Harbor at 12:20 o'clock.

On the return trip the boat will leave Van's Harbor at 6:30 o'clock, Nahma at 6:55 and Fayette 7:25 o'clock.

The Escanaba excursionists will be delivered back to the Stephenson dock here at 9:25 o'clock and at Gladstone at 9:45.

Many people of Escanaba who have lived in this city for many years have but an inadequate idea of the resources of the district east of Big Bay de Noc. What is considered to be one of the best farming districts in any part of the country lies about Fayette and Garden and by taking part in the excursion at the end of this week many people will be able to visit this interesting part of Delta county.

HEALTH LAWS WERE VIOLATED

Second Drayman is Fined by Judge Glaser for Improperly Burying Body of Horse.

Charged with burying a horse, outside of the limits of the city, Frederick less than two feet of earth Duran Shy, a drayman, was today arrested on a warrant sworn out by William Martens and when arraigned before Judge Emil Glaser was fined \$10 and costs.

Because of the fact that the body of the horse was buried outside the limits of the city it was necessary to make the complaint under the provisions of the state law which fixes the maximum penalty at \$10 together with the costs.

The penalty for leaving the bodies of dead animals unburied within the limits of the city is not less than \$25. Shy appeared before Judge Glaser this afternoon and paid his fine and costs amounting to \$14.25.

CONVENTION DATE CHANGED

Announcement was made today by Gerritt J. Diekmans, chairman of the Republican State Central committee that the date for the Republican state convention which will be held in the city of Detroit, has been changed from the date before announced to July 31.

The Republican county conventions will be held throughout the state however on June 18 as before announced.

Have you been betrayed by promises of quacks, swallowed pills and bottled medicines without results except a damaged stomach. To those who offer Hollister's Rocky Mountain Tea. 25 cents.—Hill Drug Co., both stores.

Truth About the Chinese. If every American could visit China the question of Chinese immigration would soon be settled upon a permanent basis, for no one can become acquainted with the Chinese coolie without recognizing the impossibility of opening the doors of our country to him without injustice to our own laboring men, demoralization to our social ideas, injury to China's reputation among us, and danger to our diplomatic relations with that country, says William J. Bryan, in Success Magazine.

I made it a point to inquire among the Chinese whom I met, in order to ascertain the real sentiment back of the boycott. I had heard of students being subjected to harsh regulations at ports of entry, of travelers humiliated by confinement in uncomfortable sheds, and of merchants treated rudely, and I supposed that these things had aroused the resentment. I found, however, that the things complained of were more difficult to deal with and the concessions demanded impossible to grant. In order to understand the boycott one must know something of Chinese history. As China has never had representative government the people have been compelled to bring their complaints before officials by petition; and, where the petition has been ignored, they have been accustomed to bring such pressure to bear as was within their power, and the boycott has often been resorted to as a means of compelling action upon the part of officials. They, therefore, conceived the idea of a boycott against American goods for the double purpose of urging their own government to favorable action and of calling the attention of the American government to their complaint. Our officials are doing what they can to convince the Chinese government of the injustice and folly of the boycott, and the Chinese officials with whom I conversed seemed anxious to cooperate with our minister and consuls. Immediate action upon the part of our congress, whether favorable or unfavorable to the Chinese, will remove the excuse for a boycott; and our government should not be influenced in its action by any threats affecting trade, for the subject is too grave to be determined by commercial considerations.

The Prime of Life. The larger part of the great fortunes of this country have been accumulated after their amassers have passed 40. In fact, writes O. S. Marden, in Success Magazine, the first 40 years of a man's life are the preparatory years, the years of training and discipline. A large part of this time he is laying the foundation—just getting ready to rear the superstructure. Many of us stumble around many years before we get into the right place, and then, for additional years, we make many mistakes. Most men do not get wise until they have passed 40. They may get knowledge before this, but not much wisdom. Wisdom is a ripening process. It takes time. At the age when Dr. Osier thinks men are becoming useless, Lincoln was trying to get an appointment as a land commissioner, and failed. At the same age nobody outside of his own little community knew Ulysses S. Grant. He had not then accomplished anything of note, and yet he became the greatest military figure of his day. Every man makes his own dead line. Some reach it at 35, some at 40, some at 50; some do not reach it at 80; some never reach it, because they never cease to grow.

More than half a million officials, business, professional men, bankers, farmers and stockmen have been cured by using Hollister's Rocky Mountain Tea. 25 cents.—Tea or Tablets.—Hill Drug Co., both stores.

Hunger and Morality.

It is true hunger is the greatest foe to virtue of the elementary kind, for its claims transcend those of all the moralities, and it seeks to appease itself at any cost. The hungrier a person is, says a St. Louis Globe-Democrat writer, the less he reasons, and reason is after all the foundation of morals. It is also true that the well-fed man is disposed to practice the primal virtues; necessity does not compel him to depart from them. His reason has full sway, for his appetite sleeps. But for this very fact, if what we vaguely term "the moral sense" is not developed in him, he will be more dangerous to the general interests of society, than the hungry man whose reason is in abeyance. The hungry man seeks only the gratification of his physical appetite. He is satisfied to get food, and his methods of getting it are usually crude and simple. He may even commit murder to obtain it, but his crime does not affect the great body of society. On the other hand, the well-fed reasoner, while he would not steal outright or murder—his reason showing him that such forms of crime offer the most meager rewards with the greatest degree of punishment—would plot and scheme to obtain great riches or what he most desires, without incurring any legal responsibility. He would see that no evidence could be found against him. In indirect, but efficacious ways, he secures the fruits of others' labor, and so skillfully that though they realize that in some way they are being robbed, they cannot fasten the crime upon anyone. He may drive thousands to poverty and want, and yet be "eminently respectable." There are many of such criminals now plying their trade in society, and any one of them does more harm than all the criminals who sin through starvation. Indeed, the former are responsible for the majority of the latter.—So the full stomach as a moral factor is only negative in its effect. It is the normal condition which leaves the will of the individual free to follow its natural inclinations. Conjoined with the highest reasoning faculties—the "moral sense"—it makes a noble citizen, but in ordinary cases it has no moral value whatsoever.

Women Wage Earners. Two young Boston women, students at the University of Chicago, have set before themselves the difficult task of investigating the problems presented by the gainful employment of women in the United States. So far as the results of their inquiry have been made available in the pages of the Journal of Political Economy, they are confined to an analysis of the facts to be deduced from the census reports; but some of these results are so interesting that the student of social economies will await the completion of the study with impatience. Feminine competition with men is a subject on which it has been the fashion to dogmatize freely, but the actual material on which to base exact conclusions is surprisingly scanty, and any labor which furnishes the needed data is labor well applied. It has been often said, for instance, that women's invasion of fields of industrial activity hitherto restricted to the male worker has increased the keenness of the competition for a livelihood, and whatever progress has been made by women in enlarging the number of gainful occupations open to them has been at the expense of and in the face of the opposition of the men. Nevertheless, it has not been demonstrated that women's work has essentially altered in amount or intensity, and there is reason to believe that even the changes in the character of that work have not been so great as is commonly believed.

Advocates of the use of preservatives in canned and bottled foods will point to the fatal poisoning of two young women at Grand Rapids, Mich., through the eating of canned salmon that was permitted to remain in the package for some time after it had been opened. But the poisoning of the victims in this instance could have been avoided by the common precaution of removing the fish from the tin to a china dish immediately upon the opening of the can, while no amount of care will safeguard the consumer of foods in which poisonous preservatives are hidden.

That Milwaukee man who has been arrested on the charge of stealing \$26,000 worth of gas in the past seven years, by tapping the gaslight company's mains, will probably find in the end that it would have been cheaper if he had used electric light.

An enthusiastic wireless telegraph inventor declares that in a few years we shall be able to communicate with the planet Mars. But is he sure that the people on Mars, if there are any, are willing and ready to talk back?

A New York policeman has been detected detecting a crime, and this same man has been caught catching a thief. This has caused some good people to sit up nights anticipating the immediate arrival of the millennium.

The order of the garter seems to be very elastic. Great Britain has just conferred it upon the emperor of China.

A healthy man is a king in his own right, an unhealthy man is an unhappy slave. Burdock Blood Bitters build up sound health—keeps you well.

ISHPEMING MINES RICH

The largest and richest mines of the Marquette range, and among the richest anywhere, are the big properties of the Ishpeming basin. No other mining town in Michigan possesses such a collection of great mines as the Cleveland Cliffs group, the Steel Corporation's Lake Superior properties, and Jones & Laughlin's Lake Angelina mine.

Up to the close of last year the mines of Ishpeming had produced and marketed 42,811,000 tons of ore—enough, if converted into steel rails, to encircle the globe 15 times. They have been in commission for more than half a century and it is not to be doubted that they will still be on the active list 50 years hence, meanwhile annually extracting a large and healthy tonnage.

The ore measures of the Ishpeming basin are strong and persistent, filled with pockets or lenses of hematite, and their product's popular at the furnaces. The ores run low in moisture, high in iron, and have certain characteristics

of value to the iron and steel maker. An average production of better than 2,000,000 gross tons yearly can long be maintained.

Last year the mines of Ishpeming produced 2,423,000 gross tons, equal to any former year in their history. Heading the list was the Cleveland Cliffs Co., with a production of 1,288,416 tons; the Lake Superior Co., was next with 727,878 tons; the Lake Angelina forwarded 374,183 tons; the remainder, a small shipment of about 82,000 tons, was sent from the east New York property. The Cleveland Cliffs output was the largest for any single year in the more than 50 years' career of the company. The Lake Superior only once exceeded its performance, this being by a small margin in 1902.

Very Low Rates to Port Huron, Mich.

GIVE TEA TOMORROW

One of the most attractive social events of the week will be a tea given by the officers of St. Stephen's Guild for the benefit of the organization at the home of Miss Minnie Reynolds at 200 South Campbell street on Tuesday afternoon from 3 to 5 o'clock.

Officers of the Guild arranging the tea are: Mrs. C. R. Williams, Miss Reynolds, Mrs. George Beath, Mrs. C. M. Frost and Mrs. C. E. Andrews. A general invitation has been issued to the public to attend the function, the proceeds of which will be devoted to the support of St. Stephen's church.

TOOK WIFE AND NAME

There was considerable excitement in Marinette on Saturday. John Fersey arrived there from Coleman. He is a well known resident of that town. He learned that his wife was in Marinette and with her a man who gave his name as John Fersey. Mr. Fersey came

to see the man who was not only taking his wife, but his name also. The false Fersey was arrested by Sheriff Brown and with Mrs. Fersey is now in jail. Just what action will be taken is hard to tell. Fersey real and Fersey false had an interview at the jail and there was no scene, as expected.

Both men talked the matter over quietly and Mr. Fersey real has about decided to throw up the entire matter as far as prosecution is concerned and instead will begin an action for divorce.

CHILD DIED THIS MORNING

Sigis Freeman, the year old daughter of Mr. and Mrs. John C. Freeman, died early this morning at the home of the family at 810 Ludington street from whooping cough complicated with other diseases. The child had been ill for three months.

Funeral services will be conducted at 2 o'clock tomorrow afternoon by the Rev. Oscar Sandahl of the Swedish Lutheran church. Interment will be at Lakeview cemetery.

J. A. Lemieux, architect, Stack Block.

WELLS MAN WON THE DINNER SET

Erick Erickson, of Wells, won the one hundred piece dinner set offered as a door prize at Ben's theater on Sunday night bringing to a close an interesting contest at that theater.

It was announced by Manager Salinsky today that another dinner set will be given away on next Sunday evening and tickets for which will be issued at each performance of this week.

A complete new bill of specialties will be offered at Ben's theater tonight and in the list are some of the best teams now engaged in vaudeville work in the northwest. It is expected that a large audience will be attracted for the opening performance tonight.

CHILDREN'S DAY WAS OBSERVED

Attractive Children's Day exercises were given at all of the Protestant churches of the city yesterday. At the First Methodist Episcopal and the First Presbyterian churches the special exercises took the place of the regular

Sunday morning service while at the First Baptist church the program by the children of the Sunday school was given in the evening.

Special musical and literary numbers together with special church decorations marked the exercises in all of the churches.

Children's Day is observed annually by the Protestant churches throughout the country and yesterday was the day set apart for the observance.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marlon Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." Ellsworth's Drug Store.

REMNANTS

SALE STARTS MONDAY, JUNE 11, UNTIL JUNE 17

AN IMMENSE PILE OF REMNANTS and odds and ends accumulated during the tremendous selling month of May. Now they must be cleaned out for a still greater business during June

LISTEN LADIES! To you, these remnants and small lots that constitute this sale are of as great value as if bought from a complete stock, with the difference that the price is but a fraction of the original one. To us the remnants and small lots are hindrances in the way---taking up valuable space---that's the real reason that we cannot consider cost nor profit. If there is anything you can use in this sale---and there surely is---come and have a share in this great Mid-Summer Money Saving Event x x x x x x x x x x x x x x x x
