

TWO TICKETS WILL BE IN THE FIELD

There Promises to Be a Merry Fight Next Monday for Places on the Charter Revision Com- mission—An Unusual Situation Develops—The Story.

Considerable surprise will be occasioned in some quarters by the announcement that there will be two tickets in the field at the special election to be held next Monday for the election of a city charter commission. It had been supposed that the candidates chosen by the committees representing the common council, Escanaba Business Men's association and the Trades and Labor council at a joint meeting held on the evening of May 5 were entirely satisfactory and would not be opposed.

meeting of electors, reputed to be held on Tuesday evening, May 17, another ticket was nominated, three of the candidates, however, being also on the joint committees' ticket. This meeting was held so quietly that only those present knew anything about it until today, when the facts were learned through the board of primary election commissioners, to which certificate of the nomination of the ticket had been made.

The Candidates Named.
The candidates nominated at the meeting May 17 are as follows:

MINERS STRIKE

Union Officers Say It Will Be Lasting as the Miners Have a Strike Fund of \$750,000—Operators Think the Men Will Return to Work in a Short Time.

(By Associated Press.)
Peoria, Ill., May 21.—It is thought by the operators of the mines that the members of the Illinois union of the miners will be of short duration. The officers of the union declare that the 75,000 men are out to a finish and that they have at their command a strike fund of \$750,000.

PNEUMONIA FATAL TO YOUNG WOMAN

Friends of Miss Nellie Mayrend, who was until recently employed in this city, will be pained to learn of her death, which occurred about two o'clock yesterday afternoon at the home of her parents, Mr. and Mrs. Mayrend, in Shafter. The cause of Miss Mayrend's death was pneumonia from which she had been ill but three days. She was twenty years old. The funeral will be held at Shafter next Monday morning.

SEWERS OF THE CITY WILL BE CLEANED

At the special meeting of the common council last evening the purchasing committee was authorized and instructed to purchase 400 feet of sewer rod, to be used in cleaning out sewers. This action was taken after Street Commissioner Holmes had explained that many of the sewers of the city have become clogged by sand,

stone screenings and other debris which have been carried into the pipes through the manholes. Mr. Holmes stated that the pipes could be cleaned out with the use of the sewer rods and the council thereupon took the action noted, for it has been madly plain evident this spring that many of the sewers are clogged and badly need cleaning out.

OFFER TO SELL CITY SMALL ROAD ROLLER

Last evening at the special meeting of the common council the city clerk read a letter from Smith & Fleming in which it was stated that if the council desired to purchase a street roller of suitable size for use in street improvement work the writers had such a roller for sale. The roller and outfit attached was formerly owned by the Northern Engineering and Construction company, and Smith & Fleming are willing to sell it and the complete outfit to the city for \$1,300. The communication was referred to the street committee.

MRS. GODIN'S FUNERAL LARGELY ATTENDED

The funeral of the late Mrs. Ulderick Godin, who passed away last Wednesday at her home on Ayer street, was held at nine o'clock this morning from St. Anne's church and was very largely attended, the deceased having been very well known and possessed of a large number of warm friends. Rev. Father Menard conducted the services and the remains were given burial in St. Anne's cemetery. Among those in attendance was Felix Godin, a son of Mrs. Godin, who conducts a farm near Maywood. Another son, who lives at Waukegan, Ill., could not come for the funeral on account of being disabled by injuries which he recently received in an accident.

Henry E. Nelson of Menominee was in the city on business yesterday. Alex Anderson transacted business at Bark River yesterday.

KNIGHTS OF PYTHIAS TO ATTEND SERVICES

Will Observe the Forty-Sixth Anniversary of the Founding of Their Order at The First M. E. Church Sunday Evening—Pastor to Preach an Appropriate Sermon.

Tomorrow evening the members of Escanaba lodge No. 98 of the Knights of Pythias will attend services at the First Methodist Episcopal church in commemoration of the forty-sixth anniversary of the founding of the order.

On account of the prospective departure of the pastor, Rev. Frederick Spence, and his family on the nine o'clock Chicago & Northwestern train, with England as their objective point, the services will begin at 7:15 o'clock instead of the usual time of 7:30 o'clock. Mr. Spence will preach a short sermon appropriate to the occasion and the following music will be rendered.

Organ and violin prelude—"Berceuse"—Mrs. Brace and Mr. Kiest.
Anthem—"A Vesper Hymn of Praise"—The choir.
Duet—"How Sweet the Name of Jesus Sounds"—Mrs. A. P. Smith and Mr. Spence.

Not only Knights of Pythias and their families but all others, members of the church and their friends, will be cordially welcome at these special services.

CHARTER REVISORS TO GET \$50 EACH

Following a star chamber session of half an hour's duration in the office of Mayor Greenhoot, the common council held a special meeting last evening and by the adoption of a resolution fixed the compensation of the commission that is to revise the charter at \$50 for each commissioner.

This means a total of \$500 for this service, as there are to be ten commissioners elected next Monday. The amount noted was decided upon at the star chamber session and there was no discussion of the resolution, which was passed immediately after its presentation without a dissenting vote of the ten aldermen present.

GIVEN SURPRISE AND PRESENT OF MONEY

Mr. and Mrs. L. J. Frederickson of 307 South Mary street were made the recipients of a most delightful surprise party last evening at the hands of about 200 of their friends. The occasion for the party was the birthday of Mrs. Frederickson, which fell on yesterday, and it was held in the basement hall of the Swedish Lutheran church, to which place Mr. and Mrs. Frederickson were unsuspectingly inveigled under some specious pretext or another. The evening was spent in a most agreeable manner with music and social converse and an elaborate luncheon was served.

As a token of the esteem in which Mr. and Mrs. Frederickson are held and as a remembrance in particular of the latter's birthday, Mrs. Frederickson was presented with a purse containing a large sum of money, approximately \$110. The Mirror is informed. This gift was the greatest surprise of all and its recipient was deeply affected by it and by the spirit of friendship it revealed.

NOTED SPORT WRITER DIES OF INJURIES

(By Associated Press.)
Chicago, Ill., May 21.—George A. McDonald, the celebrated local baseball writer, died today from the result of injuries received last night in an automobile accident. McDonald and several friends were riding with "Johnny" Evers, the second baseman of the Chicago Nationals, when the automobile was struck by a street car. All the other occupants of the car escaped injury.

STARTS SUIT FOR \$15,000 DAMAGES

John Schroeder, as next friend for Anna, Pearl and William Denter, has through Attorney H. J. Ruston, begun suit in circuit court against John Richter and his bondsmen for damages in the sum of \$15,000, alleging that by Richter's alleged unlawful selling of liquor to the father of the Denter children, Bernard Denter, the death of the latter was caused or contributed to. It will be remembered that Mr. Denter was found dead in E. P. Johnson's saloon on the morning of December 19 last.

Denter's widow, Mrs. Emily Denter, brought a similar suit against Richter at the last term of circuit court, but she lost the case the judge directing the jury to return a verdict of no cause for action. From this verdict Mrs. Denter will take an appeal to the supreme court, it is stated. The case begun by Mr. Schroeder in behalf of the children of Bernard Denter is an entirely separate one.

HOUSE TO RENT AD GETS QUICK RETURNS

Hello! Is this The Mirror office?
"Yes."
"Well, for heaven's sake take out that ad of mine offering a cottage at 229 Maple street for rent. Ever since The Mirror came out yesterday afternoon with the ad in its classified ad column I've been kept busy responding to enquiries about that cottage and I was even kept up late last night answering the door bell in response to callers who wanted to rent the cottage. Now, you needn't run the ad any more, because if you do I probably won't get any rest all day Sunday. Have changed my mind but I've found out that an ad in The Mirror will do the business. That's all, but don't forget to take out the ad. Good bye."
The foregoing is the substance of a one-sided conversation that took place over the telephone this morning. It tells in no uncertain words that it pays to advertise, especially when the advertising medium is The Mirror.

NUMEROUS HUNTING LODGES DESTROYED

Recent Fresto and Bush Fires in the Upper Peninsula Cost Hunters and Fishermen a Great Deal—Cause of the Fires Has Been Puzzle to Many People—Story.

The recent bush and forest fires all over the upper peninsula cost the hunters and fishermen of the copper and iron districts thousands of dollars. It is said that more than half the many hunting lodges and camps maintained by the hunters and other sportsmen throughout this part of the peninsula were destroyed by the fires. At Birch and Spruce, on the line of the South Shore road below Baraga, several very fine and excellently equipped lodges were burned together with guns, fishing tackle, clothing, dishes, stoves and furniture and other property. N. C. Willard, engaged in the railroad mail service on the Calumet-Marquette run, lost a very fine lodge at Birch. His total loss will amount to several hundred dollars.

Several copper country sportsmen report the loss of hunting camps and equipment.

Just what has caused the very destructive forest fires this spring has been puzzling many. It will be recalled, however, that there were few, if any, fires before the opening of the fishing season, although the woods have been dry for several weeks. It is therefore believed that fires made for camps of fishermen were responsible, largely, for the bad forest and bush fires. It is understood that the state game and fire warden favors the passage of a law making it necessary to secure a permit before a party going into the woods can light a fire of any kind. This would make it possible to allow only responsible persons to have fires in the woods. The passage of such a law is favored here by sportsmen and fishermen.

It is claimed, too, that the early burning and then neglect of brush piles by the farmers and homesteaders of the district caused a great many of the fires, as in the case of the conflagrations that so nearly destroyed the village of Alston a week or two ago.

SOME SKY-GAZERS SIGHT THE COMET

Chicago, May 21.—According to information received here today from the Yerkes observatory at Williams Bay, Wis., Halley's comet was observed there last evening in the western sky, setting at nine o'clock. No tail was visible. This would indicate that the comet has passed the earth, but whether the earth went through the tail is still a question. Professor Edwin Frost says that the comet should be visible to the naked eye tonight from eight to nine o'clock.

The comet was observed at the Lick observatory, San Jose, Calif., yesterday morning, with the tail growing less intense. The observers were unable to say whether the earth passed through the tail of the comet or missed it altogether.

The comet was visible last night at the Lick observatory. A very brilliant tail was seen.

PIGS BORN MINUS THEIR HIND LEGS

Porker on Farm Just Outside the City Gives Birth to Litter of Monstrosities—Piggies Are Without Hind Legs or Have Them Crossed—Details.

Last night a sow owned by A. F. Nehls, who conducts a farm about a half mile west of the Delta County hospital, gave birth to a litter of nine pigs, every one of which was a monstrosity. Of the nine pigs several had no hind legs at all and those that did have such legs had them crossed and joined together in such a manner that they would be entirely useless.

Five of Them Die.
Five of the freak pigs died during the night and now Mr. Nehls is making every effort to save the lives of the other four. News of the birth of the freaks traveled fast

and today the Nehls farm has been the objective joint of many people who desired to see them.

The mother of the deformed piggies is of the Chester White breed and not much more than a year old, while the father is a Poland China.

Worth Money as Freaks.
These are said to be the strangest monstrosities in the animal line ever born in Delta county and if Mr. Nehls succeeds in keeping alive the surviving four he surely ought to get a small fortune for them from some enterprising manager of freak attractions.

without delay. According to a dispatch from Washington, D. C., the war department has issued a statement saying that municipalities desiring obsolete field pieces for ornamental purposes may obtain them upon formal application to the department through the senator or representative first securing the guns' condemnation. Gun carriages may be purchased for about \$10.

CHECK FOR SCHOOL MONEY IS RECEIVED

County Treasurer Joseph J. Mallmann has received from Auditor General O. B. Fuller a check for \$61,847.50, which is Delta county's share of the semi-annual apportionment of the primary school money, details concerning which were published in The Mirror yesterday. This money will be divided among the cities and townships of the county, according to the number of school children in each at \$6.50 per capita, and will be most welcome.

DIDN'T PAY LIVERY BILL; NOW IN JAIL

Upon complaint of Thomas Richer, a livery stable proprietor, William Cambray, a woodsman, was arrested and brought into Justice Linden's court this morning and arraigned upon a charge of "renting a horse and buggy from Thomas Richer without paying for such hire and without settling therefor." Cambray had his trial and was found guilty. He was sentenced to pay a fine of \$5 and costs, but not having the wherewithal to square himself was committed to the county jail for ten days.

James Robertson, said to hail from Ishpeming, was sentenced to eight days in the city jail for drunkenness, in default of paying the customary fine of \$5 and costs.

Miss Alvina Steinbeck, August Steinbeck, Miss Mabel Steinbeck and Lawrence Quinthead, all of Ford River, were in the city today.

TELLS HOW MISHAPS CAN BE AVOIDED

R. C. Richards, Claim Agent of the Chicago & Northwestern Railway, Delivers a Most Interesting and Instructive Lecture Before Local Railroad Men.

R. C. Richards, general claim agent for the Chicago & Northwestern railroad, was in the city yesterday and devoted part of the morning in giving a very instructive talk to the railroad men on the subject of accidents.

Mr. Richards has had the experience of many railroad accidents both to the public and to the employees that he is well qualified to lecture the men on the simple element of caution. He told of many things that could be done to avoid accidents and was pronounced in his remarks to the men on assuming the many risks that they do, where it is not asked nor required by the company.

Many accidents were reviewed by Mr. Richards and in discussing them he showed how easily they could have been avoided by a little caution.

The talk was given in one of the passenger coaches in the railroad yard and was listened to by many of the men employed on this division. That the lecture was most instructive and greatly appreciated was demonstrated by the talk that it created among the trainmen. Last evening it was the subject of conversation wherever railroad men congregated and many of them expressed much regret that it could not be published in full in this paper.

The story from San Francisco that the United States steamer Tennessee took a weather report from Table Bluff, on the coast of northern California, when she was five days out from Honolulu on her way to the Admiralty Islands, and 4,580 miles distant from the bluff, establishes a record for wireless telegraph that may have a depressing influence on the market for telegraph wire. It also gives the weather bureau a wider zone of influence than it has ever before served.

Consider the case of the pork packers. They assert that the supply of hogs is 25 per cent smaller than it was ten years ago, that the corn to feed their hogs costs twice as much as it did then, and that the number of pork eaters in the country has increased 15 per cent. They would like to know, you know, where they would get off if they didn't make the prices higher. Well, they cannot charge themselves with having neglected to make the prices high enough, anyhow.

MOTOR BOATS START ON LONG RACE TO HAVANA

Start Today From Philadelphia on a Twelve Hundred Mile Contest on the Sea.

(By Associated Press.) Philadelphia, May 21.—Shortly after noon today five little motor boats set out from the Race street wharf to brave the terrors of the sea in the longest race ever attempted by power craft of from fifty to 100 feet in length. A great concourse of enthusiasts gathered to see the plucky contestants off on the hazardous trip, which is to have Havana, Cuba, as its terminus. It is expected that from five to seven days will elapse before the boats enter the harbor of the beautiful Cuban capital.

The Havana race is the longest event of its kind that has ever been planned. The distance of the race is 1,200 miles and the yachts taking part in the race should never be more than 190 miles off the coast. The race will have an advantage over those to Bermuda in that at no time will a boat be over 100 miles from a harbor in case of breakdown of the motive power, and will always be in the track of shipping, so that the contestants will constantly be reported by wireless and otherwise.

The early long distance races for motor boats were frowned on by yachtsmen of the old school because it was thought that small craft could not safely combat the seas encountered in an offshore race and because it was feared that the marine motor being in an experimental state it

was dangerous to try to make long journeys out of sight of land and out of the trade routes.

They Were in Danger.

There were some plucky yachtsmen, though, who had faith in the models of their yachts and who had tried and tested the marine motor. They were in danger and if Providence had not been very good to them some might never have been heard of again. These showed what type of boat was best adapted to such races and cruises, and they proved that the marine motor which was only in an experimental stage then could be improved and made to do all that its admirers declared it would.

May Teach One Thing.

The race may teach one thing if nothing else, that Hattaras is a bugaboo to frighten children. It is of course an exasperating point for sailing vessels on account of contrary and shifting winds, but the government statistics on the winds at Hattaras for the past seven years show that for May, which is one of the most favorable months of the year at that point, the average movement is thirteen miles an hour.

The Havana Yacht club and people of that city are making great preparations to entertain the visiting yachtsmen upon their arrival, so that the event will have a big social side.

GIRL RESCUED FROM RELIGIOUS FANATICS

Aline, Okla., May 21.—Miss Jane Warfield, sixteen years old, was rescued from a band of religious fanatics southwest of here. She was about to be offered up as a sacrifice to make a blood atonement that the sins of the world might be forgiven.

The sheriff of Dewey county had been informed that a band of religious enthusiasts had given out that their leader had received a revelation from God that the world was to end Wednesday and the heavens would be rolled up like a scroll following the contact of the tail of the comet; that the only thing that would avert the disaster was a blood sacrifice; that in order to save the world a sacrifice had been planned, and the lot had fallen to Jane Warfield.

Sheriff Hughes, with a posse of six men, reached the dell in the Glass mountains, just as the sacrifice was being prepared. The girl was clad in white with a wreath of white roses about her head. Her hands were bound.

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

New Perfection Oil Cook-stove

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

C. FLAGSTADT.

THIS WAS WHERE THE WORM TURNED

Ann Arbor, Mich., May 21.—In one of the downtown ice cream parlors they recently got out some tasty cards showing what concoctions they served. After the printing, they added in link the names of several other new sundae. Some student printed most neatly, "Try a Halley's comet, 25 cents, or, if that's too high, we offer a most delicious worm sundae, made from the fattest angleworms, which is most delicious."

The proprietor had not become "wise" to the addition to his specialties, and he was at a loss to know what was the matter when two co-eds seated themselves smilingly at a table and started to scan the card. They frowned, heads in the air and dresses fairly swishing the tables over in their haste.

"Well, I declare! That's the last time here for me. The very idea!" remarked one.

Not understanding the trouble he called a girl and asked her if she had done anything to offend the customer. Suddenly in came two students. Now a student never allows a little thing to upset his stomach, so when their eyes caught sight of the new sundae one called out: "Say, kiddo, bring me a worm." The proprietor rushed up to him, but a glance at the card showed him the reason and he fainted. His cards came down forthwith.

BANNER HAUL OF HERRING AT SOO

The Sault Ste. Marie market was flooded with Sea Islands herring the other day as the result of the work of two local fishermen, Frank Brown, Jr., and Alex Cadreau captured between eleven and twelve hundred herring with their dip nets from a canoe in the rapids, within a few hours. This is the largest catch reported for the same length of time for many years.

A HOT ONE.

The Count—May I ask you who were thinking about, ma chérie?
The Girl—You.

Prepared for Trouble.

"Doesn't it ever make you unhappy to see the way the papers refer to your husband as a grafter?" "It used to, but I don't let it bother me any more. He says he has things fixed so that he could stand any kind of an investigation."—Chicago Record-Herald.

The Modern Child.

A young girl, incorrigibly given to slang, went with her mother to the funeral of an aunt. The dead woman had been strikingly handsome in life, and her features retained all their attractiveness. "How do you think Aunt Blanche looked?" asked the mother when they had viewed the corpse. Enthusiastically the child replied: "Dead swell, didn't she, mother?"

Sharpens the Wits.

Isn't it strange what baldness will lead a man to do? There is some sense in the action of that minister who resigned because he lost his thatch and thereby cleared the way for a succession of colds, but imagine the wonderful possibilities in the tank of that man who had a spider's web tattooed on a dome that was as smooth as a tin roof!

AND GOT LICKED.

Kind Gentleman—Why are you crying, little boy? Little Boy—My father was hanging a picture. Kind Gentleman—That shouldn't make you cry. Little Boy—I know; but he soaked his thumb, and I laughed.

With One Ear Awake. "Johnny," said the boy's mother, "I hope you have been a nice, quiet boy at school this morning?" "That's what I was," answered Johnny. "I went to sleep and the teacher said she'd whip any boy in the room who waked me up."

BENDER ON WARPATH IN HITLESS RUNLESS GAME

INDIAN TWIRLER SCALPS THE CLEVELAND PLAYERS—OTHER NO HIT, NO RUN MEN.

WITH a warwhoop that could be heard all over the American league stamping grounds and echoed through the camps of the National league warriors, "Big Chief" Bender of the Philadelphia Athletics unshathed his tomahawk and scalping knife a few days ago and before he was through with his awful massacre the Cleveland Naps were tortured and slain.

All but one of the Naps died three times under the tomahawk. Bender tied them all securely to the stake except Turner, who managed to slip the buckskin thongs and get to first base. Then when he tried to escape Renegades Thomas and Collins of Connie Mack's band captured him and added him to the list of dead.

It was a hitless, runless game pitched by Bender, who is some kind of an Indian. Whether a Sioux, Comanche, Apache, Cherokee or of some other tribe, the Cleveland players agree that Bender fits into the class.

"BIG CHIEF" BENDER.

scation that "only a dead Indian is a good Indian."

It was awful, say the war correspondents, to see such mighty scouts as Lajole, Flick, Turner et al., step up to the plate with war club in hand and try to hit the ball as it sped with the swiftness of an arrow into the catcher's mitt.

Bender has pitched some wonderful games before, but this is his first no-hit-no-run achievement. Not long ago Addie Joss, a long, lanky paleface on the Cleveland team, shut the Chicago Sox out without a hit or run and there is joy in the camp of Comiskey's braves over the slaughter of the band led by "Deacon" McGuire. It was the second hitless, runless game in the American league this season and is taken as an Indian sign—not the tobacco store kind—that there is going to be some pitching in the junior organization of big league circles this year.

The first no-hit-no-run game was pitched May 29, 1875, by Mann of Princeton against Yale. The pitchers who have accomplished the feat of permitting no hits by their opponents and the teams with which they played are:

Mann, Princeton; Borden, Boston; Devlin, Chicago; Richmond, Worcester; 3; Galvin, St. Louis, 4; Bradley, St. Louis; Welch, Troy; Lynch, Washington; Keefe, Albany; Ward, Providence; Corcoran, Boston, 3; Mullane, Louisville; Radbourne, Providence; Daly, Cleveland; Clarkson, Chicago; Ferguson, Philadelphia; Atkinson, Philadelphia; Terry, Brooklyn; Kilroy, Baltimore; Van Halten, New York; Porter, Kansas City; Seward, Philadelphia; Woyhing, Philadelphia; King, Chicago; Titcomb, Rochester; Lovett, Brooklyn; Rusie, New York; Stivetta, Boston; Sanders, Louisville; Jones, Cincinnati; Hawke, Baltimore; Young, Cleveland, 2; Breitenstein, Cincinnati; Hughes, Baltimore, 2; Donahue, Philadelphia; Thornton, Chicago; Phillip, Louisville; Willis, Boston, 2; Hahn, Cincinnati; Matthewson, New York, 2; Dowling, Cleveland; Callahan, Chicago; Fraser, Philadelphia; Henley, Philadelphia; Dineen, Boston; Smith, Chicago; Lush, Philadelphia, 2; McLean, Rochester; Eason, Brooklyn; Swan, Kansas City; Moriarty, Newark; Pfeffer, Boston; Maddox, Pittsburg; West, Toledo; Stovall, Louisville; Brandon, Kansas City; Curtis, Milwaukee; Wood, Kansas City; Wittbe, New York, 10 innings; Upp, Columbus; Marquard, Indianapolis; Rucker, Brooklyn; Rhoades, Cleveland; Joss, Cleveland, 2; Hall, St. Paul, and Bender, Philadelphia.

Hall of St. Paul is allowed a no-hit game because it was in the tenth inning that one of the Louisville batsmen got a single and the Colonels won, one to nothing.

Catcher Pat Moran has been sold to the Phillies by the Chicago Cubs. Chicago got him from Boston in the O'Neill-Pfeffer trade.

As only "good values" are "advertisable," or can stand the TEST of advertising, it follows that to be a big and persistent advertiser a merchant MUST have "advertisable"

Which Parish?

By HELOISE BROGTON

Copyright, 1910, by American Press Association.

The farm of Jules Rubideaux was located on the intersection of two lines marking boundary intersections. Indeed, there was a point where he could stand on a corner of four parishes. Jules was a sly dog and if pressed by the bailiff to pay for things he had bought from the stores in the village near by would keep them in a state of uncertainty as to which parish had jurisdiction in his case. He knew them all and knew which parish to stand on to avoid arrest when he saw one of them coming for the purpose.

His daughter, Anita, was a very pretty girl of eighteen whose short prettily skirt displayed a well turned ankle and whose black eye was full of mischief. Her father employed a farm hand during the harvesting, and Anita got all the fun she desired by coquetting with this person till the harvest was over and he went elsewhere, when she would tell him that she was very sorry, but she could not possibly love him well enough to marry him. This was very amusing to Anita and very hard on the farm hand.

One day just as the harvest was commencing a fine looking young fellow, Antoine Perrine, came along and was hired, as usual, by the farmer. Anita surveyed him from a window while he was talking near the barn with her father and thought that she would have a better time flirting with him than any one she had ever tackled. So the next day, when Antoine was mowing, she went out to him with a biscuit and a glass of wine for his refreshment. She saw at once by the way he looked at her that she had impressed him, and after sympathizing with him for being obliged to work in the hot sun she went back to the house very much pleased with herself and him.

Antoine was no fool. He had heard of the coquetry of the farmer's pretty daughter and, furthermore, that when she married she would have a very snug dot. Indeed, he was the son of a well to do former living some twenty leagues away and had hired himself out with the especial design of winning her in order to take revenge upon her for the damage she had done his fellow men. Nevertheless when he saw her he thought he would like to win her for keeps.

The affair went through the usual course. At the close of the harvest season Antoine declared his love, and Anita replied in the usual way. Antoine accepted her refusal and departed. He had no sooner gone than the girl discovered that this was a very

different affair from any of the others and that she had been caught in her own trap. But unfortunately she did not discover this till Antoine had gone. That night she wept bitter tears, because even if she were not too proud to call him back she had no means of doing so, for she did not know whether he had gone.

The next morning, while dressing she looked out her window and was horrified to see the body of a man hanging from a tree that stood alone near the intersecting lines of the four parishes. Dressing herself, she ran out to the tree, but before she got there a man who was passing stopped and looked up at the body. When Anita came up she fainted. The suicide was Antoine.

When she came to herself the stranger was administering to her necessities.

"Cut him down!" she cried in agony. "No, mademoiselle. To do that might lead to serious complications. I have sent a boy to report the fact to the local guard. There he comes now." The local guard came hurrying up to the tree, which was rapidly being surrounded by a crowd of people. He felt of the body and, finding it warm, said:

"He may be alive."

"Cut him down quick!" again cried Anita.

"If I mistake not," said the guard, "at this point four parishes join. I do not think the suicide is in my parish. I will inform the special guard of the parish in which he hangs."

He went away for the purpose, and Anita implored those standing about to take down the suicide in order that if he were not dead he might be resuscitated. But no one would take the responsibility from the shoulders of the authorities. Since she was a girl and had no means of doing the work she was obliged to wait for the special guard of the proper parish. After awhile he came hurrying along with the man who had summoned him. The two got out a map and began a spirited discussion as to which parish had a legal right to attend to the matter. At last they arrived at the conclusion that the tree was in one parish and the man was hanging over the other. This led to a further discussion as to which of the two parishes had jurisdiction.

The disputants finally decided that they were entirely wrong as to their position and that both tree and body were in a parish the guard of which had not been summoned. At this point the corpse gave a kick. The crowd started back. Then the corpse put his hand in his pocket, pulled out a knife and, reaching up, cut the rope just above his head and dropped to the ground. The rope had been passed beneath his coat under his arms.

Anita on seeing that she had been tricked flew away to the house, but he followed her, and they were soon clasped in a lovers' embrace.

1912 WILL WITNESS GREAT NAVAL SHOW

Four of the Great Powers Will Dispatch Their Crack Warships to the Thousand Sea Fighters Expected to Assemble, Making a Stupendous Marine Spectacle.

Washington, D. C. May 21.—What will be the most stupendous marine spectacle ever witnessed will take place in 1912, when about 1000 warships, flying the colors of seven nations will assemble in Atlantic waters. It is believed they will meet in the Caribbean sea, and that a good portion of these ships will anchor near New York for a brief visit.

England, Germany, France and Italy will order sections of their fleets on a general tour in that year.

Inasmuch as the United States, according to official announcement, will order a second battleship cruise around the world about that time, and Japan and Russia will undertake to send a few ships to the Atlantic ocean presumably in anticipation of the opening of the Panama canal, there will be a grand total of battleships that could not be accommodated at any port at one time.

There will be about 100 battleships of the first class, including dreadnaughts of the latest type; 250 cruisers of the first class, 200 destroyers, 300 torpedo boats and scout ships, and more than 100 ships of other classes, including colliers, submarines and lesser fighting craft.

That the powers have decided upon these individual cruises now forms part of the official records in Washington.

JOY RIDER IS NOT FIT TO BE AT LARGE

Louisville Courier-Journal:—An automobile, properly managed, is less dangerous than a horse, which, according to an old established proverb, is "a vain thing for safety." And what is true of the automobile in its relation to the safety of the driver and occupants is doubly true in regard to those who are not motoring. A horse occasionally bolts, escapes the control of the driver, dashes down a crowded street and endangers life and limb. If any one is injured, or killed no one is morally responsible. But

when an automobile is careering down the street at break neck speed some one is to blame for the menace that it constitutes.

Sometimes the guilty individual is a crack brained owner. Sometimes he is a drunken chauffeur. In either event he is not fit to be at large in the community. When caught after having killed some one he should be sent to the penitentiary for as long a term as possible, and with the least possible delay. Suits for the recovery of damages are an insufficient discourager of owners who are given to reckless driving.

In all the ordinary contingencies automobiles running at the legal speed or any where near the legal limit, can be stopped quickly enough to prevent accidents to pedestrians. When they are driven by persons who do not leave their brains at home when they go motoring their is very little danger of catastrophe. In the hands of the joy rider they are as much of a nuisance and a menace to a sensible motorist as they are to pedestrians.

GOLD MEDAL FLOUR

Yes; the Merchant Who Advertises Can AFFORD to Sell It For LESS.

No matter what the article is, unless it should be something whose selling price is as fixed as that of a postage stamp, the merchant who is an enterprise advertiser is sure to sell it for less than the merchant who does not advertise.

For, in spite of his advantages in buying—buying in large quantities, for cash or short credit, taking instant advantage of buying OPPORTUNITIES—his selling-advantage is the decisive factor. For he is enabled to count his profits on a large aggregate of sales—not compelled to secure them from a FEW SALES, for he would then be taxing a small number of customers with the entire support of his business.

A store that makes a net profit of \$100 in a day from sales to three hundred customers, is sure to sell to each of those customers on a closer margin of profit than is the non-advertising store that is COMPELLED to make enough to cover a daily expense of \$50 out of sales made to fifty customers.

If you are one of the 300 daily customers of the merchant who advertises, you are paying but one three hundredth part of his store-profits on the days you buy. If you are one of the fifty daily customers of the non-advertising merchant, you are paying one fiftieth of his profits.

If you are fairly "good at figures" you will quickly convince yourself that you ought to buy advertised things!

THE UPPER PENINSULA TRADE IS WORTH WHILE

Therefore the Detroit Wholesalers and Manufacturers Will Try to Get a Share.

Concerning the trip of the Detroit wholesalers and manufacturers to the upper peninsula next week The Detroit Evening Journal has the following interesting explanation and comments:

Business principles and a due admixture of sentiment are relied on by the energetic wholesalers and manufacturers of Detroit to win for them the large share of the trade of the upper peninsula, which, has it is realized, been too long left in the open for all the business prowlers from every section of the country.

Every large trading center is expected that upper peninsula business, especially in the later years of general as well as mining development. New York and Baltimore from the east are working for it, Chicago, of course, hustles for it, Milwaukee puts up a stiff fight, and from the northwest St. Paul and Minneapolis vie for the northern Michigan favors.

Counts on State Pride.
But what Detroit counts on, trade conditions being equal, is the sentiment of state pride, of all from the Ohio and Indiana state lines to Isle Royale's farthest point, all these in this territory are Michigan men, under the same government and laws, commonly interested in legislation, in the waterways, in state railroads, in systems of taxation, in courts and all that pertains to a state.

It is sometimes said that there is no sentiment in business, but the wholesalers and manufacturers believe that there is, provided the business side is kept in sight, and it is further believed that the practical foundation has been laid on which a reasonable sentiment may be based.

Time Has Now Come.
For more than two years the wholesalers and manufacturers have been working on the practical lines that now enable them to talk vigorously to the upper peninsula buyers. The transportation question has been

solved. By all-rail and by rail-and-water routes the upper peninsula has been brought as near to Detroit as to any other trading center, and nearer than some others that formerly had the advantage over Detroit. Trading and price conditions of all kinds have been studied out.

Today Detroit is prepared to offer the upper peninsula the goods, the prices and the transportation facilities—to meet all competitors on even terms and in many cases on more than even terms. The time has now come for the exhibition of a common citizenship, for a getting together of upper and lower peninsula people as of a united Michigan, with all the arguments that it is best for a state to stand together, that individual and mutual interests may be the better served.

Mission of Brotherhood.
Therefore the wholesalers and manufacturers of Detroit will go forth on May 25 to demonstrate that the Mackinac straits do not separate, but instead they more firmly link together the two peninsulas of the greatest of the water states. They go on a mission of Michigan brotherhood, to urge that Michigan people should give the Michigan metropolis the preference in trade and social visiting over the metropolitan cities of other states.

There are no particular figures and statistics about the trip. The upper peninsula trade is still something of an unknown quantity to those farther south, but of growing importance and huge future dimensions. It is simply felt that now is the time to get after it, to the benefit of every manufacturing and jobbing line in Detroit, and for the cementing of a broader, firmer interest in everything that pertains to the state of Michigan and its development.

LETTER FROM GRAND CHANCELLOR WETMORE

Important Announcement is Issued Relative to the Annual Meeting of the Upper Peninsula Knights of Pythias League at Manistique on June 7 to 10.

Grand Chancellor Fred C. Wetmore of the Knights of Pythias has issued the following self-explanatory letter, a copy of which has been received by the Escanaba and other subordinate lodges of the order in the upper peninsula:

"Brothers:—The annual meeting of the Upper Peninsula League will be held this year at the city of Manistique on June 7th to 10th. This is the most important Pythian event of the year to the lodges in the Upper Peninsula and is also a matter of great importance to the Grand Lodge. The meeting of the League will be considered one of the district meetings which were authorized by the Grand Lodge at its last convention, and the Grand Chancellor and other Grand Lodge officers will be in attendance.

"The annual third rank contest will take place during the meeting, and will be participated in by a large number of teams. A fine line of entertainment will be provided by the Manistique brothers, and every lodge in the Upper Peninsula should be represented by a large delegation. Full particulars will be furnished by the officers of the League.

"A special Grand Lodge convention to confer the Grand Lodge degree will be held on June 7th in connection with the League meeting, and will if necessary continue. All Past Chancellors, who have not received the Grand Lodge rank, may receive the same at this time, upon furnishing proper credentials, as provided in section 52 of the Grand Statutes. These credentials may be filed with the Grand Chancellor or Grand Keeper of Records and Seals at the time of the special meeting.

"I shall hope to have the pleasure of meeting a large number of upper peninsula brothers at this gathering, and I know that it will be an occasion that is worth while. Fraternally yours, Fred C. Wetmore, Grand Chancellor."

BIG VEIN OF COPPER GLANCE DISCOVERED

Houghton, Mich., May 21.—It leaked out yesterday, after being kept secret many weeks, that an immense vein of copper glance has been found in the copper country.

CONVICT HAS FOUR BIGAMOUS WIVES

Cleveland, Bay 21.—Walter C. Lytle, a manufacturer, who had been missing from here for a year, has been located in the Mississippi penitentiary, where he is serving a ten-

year sentence for bigamy. It has been discovered that Lytle's bigamous wives number at least four. They are in different parts of the country.

"WHITE SLAVER" IS FOUND GUILTY

New York, May 21.—Belle Moore, a mulatto, was found guilty of selling girls into shame. The maximum penalty is five years' imprisonment and \$1,000 fine. Sentence will be pronounced next Thursday. The case was the first brought to trial under the indictments handed down by the Rockefeller grand jury.

MANISTIQUE HAS NEW CITY ATTORNEY

V. I. Hixson succeeds James C. Wood as city attorney of Manistique. The latter was first appointed, but before the council voted on the matter of confirmation Mr. Wood addressed the aldermen, stating that he would not accept the honor for another term, and Mr. Hixson's appointment and confirmation quickly followed.

"THIRD DEGREE" ENDS IN SUICIDE

Chicago, Ill., May 21.—Stephen Zacak, twenty-four years old, after fifty-two hours of almost continuous questioning, during which it is said, he was not permitted to sleep and confessed to the murder of a policeman, committed suicide. The patrolman said to have been killed by him met death attempting to arrest robbers plundering a freight car.

CLARA MORRIS MAY LOSE HER SIGHT

New York, May 21.—Blindness threatens Clara Morris, the famous actress of a generation ago. She is declared to be in a serious condition, having been nearly blind for a week and also suffering from general breakdown.

Settlement of Britain.
It is quite generally held by students of the ethnic migrations across Europe that the Irish are of a race older than the British, but that they settled in Britain first and then moved on to Ireland under the impulse of later swarms behind them. The settlement of Scotland is similarly explained as a crowding of the same race to the northward, upon which was later overlaid a backward migration from the north of Ireland to the nearest point of Scotland.

Fashion Hints

CHAT ON HANDBAGS

VERY NECESSARY PART OF MODERN COSTUME.

Considerable Latitude is Allowed in Choice of These Useful Accessories—Beaded Reticule Has Returned to Popularity.

The value of the handbag is no longer to be disputed; the pocketless condition of the garb of modern woman has long ago let in the bag as a permanent possession.

It is counted among the legitimate expenses of economical woman, and is not likely soon to disappear from the list.

Black velvet bags are a feature of the season, an all-the-year-round article, matching the garment in winter and the hat or some touch on the costume in summer. Their particular attraction at the moment is the monogram in gold (or brass) to match the mount.

Cords are the last expression of a sensible fashion mandate for the saving of gloves. Metal chains, however, survive, and are necessary on the bag with the engraved mounting.

The suede bag is identical in outline with the velvet, and its monograms do not differ. Either material is beaded, and many of the simple designs suggest the home application of large gems and little beads.

The beaded reticule of other days has come back both in its mounted state and in a drawn-together model, and invariably the beadwork, which is done by hand, is a reproduction of the old floral wreath or basket of flowers done on the most ancient of handbags. All that is needed in the modern hand bag is that softening influence of time to bring down the colors to a lower tone.

CHAT ON HANDBAGS

VERY NECESSARY PART OF MODERN COSTUME.

Considerable Latitude is Allowed in Choice of These Useful Accessories—Beaded Reticule Has Returned to Popularity.

The value of the handbag is no longer to be disputed; the pocketless condition of the garb of modern woman has long ago let in the bag as a permanent possession.

It is counted among the legitimate expenses of economical woman, and is not likely soon to disappear from the list.

Black velvet bags are a feature of the season, an all-the-year-round article, matching the garment in winter and the hat or some touch on the costume in summer. Their particular attraction at the moment is the monogram in gold (or brass) to match the mount.

Cords are the last expression of a sensible fashion mandate for the saving of gloves. Metal chains, however, survive, and are necessary on the bag with the engraved mounting.

The suede bag is identical in outline with the velvet, and its monograms do not differ. Either material is beaded, and many of the simple designs suggest the home application of large gems and little beads.

CRY OF "WOLF" HEARD IN STREETS OF PARIS

Paris, May 21.—The cry of "wolf" was not raised for nothing in one of the most popular districts of Paris the other night, for a she wolf had actually got loose from a menagerie and was taking the air of the streets. But it was a good wolf, after all, this native of Siberia, and had no intentions of doing any harm. It felt a bit lost among the crowd, and, taking an elderly lady sitting on a bench for the least dangerous person, it looked at her with his gray eyes appealingly, and stretched forth its pointed ears. The lady got frightened and screamed, and then the wolf got frightened, too, not knowing what wrong it had done. It darted away down a side street, followed by a yelling crowd, and finally reached a more deserted quarter, where it wandered about innocently for a long time, an object of suspicion to the dogs round, until discovered by some policemen in a private passage. They hurriedly closed the gate and notified the proprietor of the menagerie, who came and took away his wolf, which was as docile as a lamb. The policeman who first discovered the wolf faintly.

COME TO OSHKOSH

5,000 Men Wanted

Steady Employment Good Wages

A wonderful opportunity for you to secure better wages. The City of Oshkosh has entered upon a period of growth that is phenomenal. Workmen in all lines can find immediate employment.

OSHKOSH is the city of great opportunity for the workman today. You can find employment there at once. The new industries locating in Oshkosh, the rapid expansion of present factories, the great increase in building operations, offer employment to all classes of labor. Oshkosh has now over 300 prosperous manufacturing concerns. Every one of them is in need of more help. Conditions are such that they must rapidly train unskilled labor into skilled help to care for increased production. This means quick advancement—higher wages. For a man with a family the situation offers unusual advantages. He can not only find employment for himself but also for his sons and daughters. In Oshkosh the majority of workmen own their own homes. Churches of all denominations are thriving—schools are the best—stores carry large and complete stocks of all commodities supplied from local wholesale houses which equal those of the larger cities. Rents are low—property reasonable now but will rapidly increase in value. Splendid street car service reaches all parts of the city—3 cent fare during time men are going and coming from work. Up-to-date Interurban Cars afford rapid transportation to surrounding cities at low rate. Oshkosh, one of the most beautiful and healthful cities in the country, is situated in the famous Fox River Valley on the shores of beautiful Lake Winnebago in the heart of one of the richest agricultural districts in the world. It is a country seat. Within a radius of 50 miles there are 200,000 people. Its manufacturing industries send their products all over the world. It is the home of the largest match factory—the largest sash, door and blind factory—the center of hardwood and veneer door production. Shipping facilities are excellent, via lake or rail. Oshkosh is famous as a summer resort. People come from all over the country to spend their vacations here. Its shady, parklike streets, handsome public buildings, comfortable homes, splendid police and fire departments, excellent gas and electric lighting systems, make it at once a safe, pleasant and economical place to live. There are plenty of amusements both outdoor and indoor—good theatres and short, easy, inexpensive trips up the lake or into the country.

Some of the Products Manufactured
Sash, doors and blinds—hardwood and veneered doors—matches—logging and mill supplies—bank and office furniture—boats—engines—sawmill and shingle-mill machinery—furniture—mattresses—springs—carriages—trunks—autos—candy—bottle covers—grass matting—clothing—muslin underwear—boilers—boxes—brooms—wagons—cigars—cigar boxes—excelsior—kitchen cabinets—step and extension ladders—rugs—saw-mills—soap—threshing machines—vinegar—tools—and machinery—soda water—direct mail—lime—cement—leaks—building materials—flour—castings—art glass—grill work—beer—pumps—mining lamps—mine signal systems—moving-picture machines—cut stone, etc.

If you are dissatisfied with your present way of living—if you are not getting all out of life you feel you ought to—if you are under paid and find it hard to get along—hard to keep the family happy and comfortable—if you are an earnest, thinking man with an eye on the future, and a keen appreciation of the need and opportunity of the present, we urge you to come to Oshkosh. If you are looking for a place where you can have steady, pleasant, profitable work all the year round in a growing city of health, wealth and happiness; where you can buy or rent at lowest rates with good schools for your children, and a chance to learn a trade, you should come to Oshkosh at once or write us for particulars in regard to what Oshkosh offers you. D. R. FERRIS JOINS THE SILENT THROG

The Marquette Mining Journal of today has the following note of the death of D. R. Ferris, who was well known in this city and who was the father of the late Harry Ferris, who once taught in the local schools and lost his life several years ago by drowning while in the Philippine Islands:

"D. R. Ferris, for the past twenty-eight years a resident of Marquette, passed away early yesterday morning at the family residence, after a lingering illness. Mr. Ferris was sixty-seven years of age, and a veteran of the Civil war. He was a member of the National League of Veterans and Sons. He is survived by his wife, one daughter, Mrs. M. W. Lowdermilk, of Negaunee, and two sons, Mark and Guy, of this city. The funeral will be held Sunday at 3:30 o'clock from the residence, and interment will be in Park cemetery. Rev. Bates G. Burk will conduct the funeral services.

JUDGE DISMISSES JUROR IN DISGRACE

Marquette, Mich., May 21.—Albert Melch of Negaunee yesterday had it impressed on him that jury duty is serious business, with which key can be mixed only at the considerable risk of the mixee. Melch wasn't on hand when court was called yesterday morning, and Judge Flannigan sent Sheriff Lehman out to look him up. While the sheriff was absent on this mission, Melch turned up in the court room looking much the worse for wear, but perfectly happy. He was drunk, in fact quite drunk, and Judge Flannigan ordered him into the county jail to be sobered up. When the court was called in the afternoon Melch was brought before the Judge, given a keelhauling that melted him in tears and was then dismissed in disgrace. Next time Melch is called for jury duty he will doubtless sign a pledge before he leaves home.

CITY WILL HELP IN DEFRAYING EXPENSE

Upon the suggestion of Mayor Greenhoot and motion of Alderman Valentine, the common council last evening voted to appropriate the sum of \$60 from the city treasury to help defray the expenses of the observance of Memorial day. There was no objection to the action and the money will be donated toward the fund raised by the members of the G. A. R. and Woman's Relief Corps for the purchase of flowers, and use of carriages for the veterans and other expenses incidental to a Memorial day observance.

TRAVELING MEN DON'T LIKE TRAIN SERVICE

While the change in service of the Chicago & Northwestern road between Houghton and Chicago has many advantages and improves the mail and express service between Chicago and the copper country, the traveling men who make this district are not in favor of the change and prefer the old schedule. Of course they feel that the old schedule could have been improved and it would have pleased them more if it had been made different.

At Houghton last Wednesday a sort of indignation meeting of the traveling men was held and they adopted resolutions disapproving of the change. Of course, it is not likely that this will make any difference with the railroad company, but the traveling men wanted to make it known that they do not like the new service. There are many people in Escanaba who feel the same way about it.

LOCOMOTIVE HAS A BLOODY RECORD

A locomotive with probably the bloodiest record in the world cut capers in the local yards here recently, was stripped of two side rods and a large piece was broken out of the drive wheel when it jumped the track while pulling a local freight out of the yards. The engine is Rio Grande No. 506. The hoodoo which goes with this engine is so strong that no experienced engineer can be induced to sit in its cab. The number was recently changed to 512 from 506, but the employees learned this and flight shy of the cab. The engine has pulled trains which have been in accidents in which many more than one hundred persons have been killed.—Grand Junction Correspondence of the Denver Republican.

GOLD MEDAL FLOUR

JUDGE FLANNIGAN IMPOSES BIG FINE

Gives a Marquette Restaurant Keeper Who Violated Liquor Law the Alternative of Paying \$223.50 or Going to Jail—Defendant Takes the Jail End.

Marquette, Mich., May 21.—Angus Crossman, a restaurant keeper, received a hard jolt from Judge Flannigan yesterday in circuit court. Crossman had pleaded not guilty to a charge of violating the liquor law, but was convicted by a jury of selling beer the evening of April 10. The severity of the sentence imposed in his case is another evidence of Judge Flannigan's intention to secure a strict observance of the liquor law in the counties of his circuit, if severe sentences can accomplish it. Crossman was fined \$200 and \$23.50 costs, and in default of payment was sentenced to sixty days in the county jail. Crossman was not able to pay the fine, and will serve the sixty days.

When Judge Flannigan asked Crossman if he had anything to say, Crossman again affirmed that he was not guilty. Judge Flannigan said he had been defended by a good attorney and had had a fair trial before an impartial jury, so that point had been disposed of. The Judge dwelt at some length on Crossman's offense. He said the law provided a method under which liquor may be sold legally in communities where people want it sold, and that persons desiring to sell liquor should comply with the conditions fixed. He warned Crossman that if he appeared before him a second time there would be no alternative punishment of a fine, but that a jail sentence would be fixed. He reiterated that the law applying to the liquor traffic must be observed.

Judge Flannigan's handling of the liquor cases brought before him this week has been generally commented on. It is the prevailing opinion that if there was any doubt left as what the status of the liquor business here would be in the future he has settled it, and his vigorous assertions that the law must be observed, coupled with his severe penalties, assure that the saloon men will hereafter take no chances on being haled into his court. "It takes a long time to earn \$100 in the saloon business now," a liquor dealer said yesterday. "No one can afford to take any chances on having to appear before Judge Flannigan."

The only saloon man who got off easy this term of court was August Oigren of Ishpeming. He pleaded not guilty when first arraigned, but evidently was guilty, for in the same breath he protested that he entered his saloon during illegal hours to fix his beer pump. He later changed his plea to one of guilty and was let off with \$10 fine and \$15 costs, the court evidently believing that he had not entered his place with any idea of doing business.

OFFERS REWARD FOR DESTROYER OF BILLS

P. M. Peterson has announced that he will pay a reward of \$25 for information that will lead to the arrest of the person or persons who deface the advertising on the bill boards owned by him about the city. He says that the destruction of advertising matter that is being placed on the boards costs him a lot of money and he hopes that by offering a good sized reward he will be able to find out who is guilty and that arrests will follow immediately.

GOING TO RAPID TO SEE FAST BALL GAME

Several local fans have arranged to accompany the Escanaba ball team to Rapid River tomorrow, where a speedy game is in prospect between the local players and the Rapid River team.

It is very probable that more than usual interest will be centered in this game, as "Al" Wickert will probably be given a tryout by the manager of the Rapid Rivers. Young Wickert shows great promise with the work he has been doing with the "Tip Tops" and will very likely be asked to make a change after the game of tomorrow. Most of the fans will go up on the morning boat and return in the evening.

LARGE SALMON TROUT CAUGHT

This morning the firm of Hansen & Jensen received a salmon trout from James Williams of Stonington that weighed five and one-half pounds. Mr. Jensen says that this is the largest salmon trout that has been taken in these waters and that it is rare to catch that kind of fish at any time. Spawns has been planted from time to time however, and it is very likely that the fish will become more plentiful hereabouts in a few years.

TWO TICKETS WILL BE IN THE FIELD

(Continued From Page 1.)

For commissioners at large—Matthew J. Ryan, Alfred P. Smith and Benjamin MacKillican. First ward—Peter Jensen. Second ward—F. D. Mead (endorsed).

Third ward—Frank J. Hamacher (endorsed). Fourth ward—Alonso R. Northup. Fifth ward—Charles Ford. Sixth ward—William L. Brown. Seventh ward—Frank E. G. Bacon (endorsed).

This ticket was formulated to oppose that nominated by the committees representing the common council, the Business Men's association and the Trades and Labor Council, which is as follows:

For Commissioners at Large—Hon. John Power, John Richardson and Attorney John Cumiskey. First ward—James Powells. Second ward—Attorney F. D. Mead.

Third ward—Frank J. Hamacher. Fourth ward—John Moe. Fifth ward—Charles Ford. Sixth ward—C. C. White. Seventh ward—Frank E. G. Bacon. Tickets Partly Illegal.

Both tickets were certified, as previously noted, to the board of election commissioners, the members of which are Attorney A. H. Ryall, ex-Mayor John J. Sourwine and John A. Stromberg, who upon looking up the law covering the matter found that part of both tickets were illegally chosen; that under the law the candidates could only nominate those for commissioners at large; that the city conventions could not name the ward candidates, but that the latter must be chosen by the same procedure as that followed in the selection of ward officers. Upon satisfying themselves as to the legality of the ward nominations, the election commissioners today decided that they could place only the candidates for commissioners at large on the two tickets, leaving the places for ward commissioners blank, so that the voters may vote for whoever they choose by writing in the name of their choice.

The ticket nominated at the "election convention" on May 17 was certified to the election commissioners by C. C. Stephenson as chairman and C. E. Anderson as secretary of the convention.

M. J. Ryan Withdraws. This afternoon it was announced that Matthew J. Ryan had withdrawn as a candidate for commissioner at large on the ticket and that in his place, former City Clerk Henry J. Wilke has been substituted. The candidates on the two tickets for members at large of the charter commission to be voted for at the election next Monday will therefore stand as follows:

John Power, John Richardson and John Cumiskey versus Henry J. Wilke, Alfred P. Smith and Benjamin MacKillican.

With two tickets in the field there should be a large vote cast and there undoubtedly will be, for considerable interest is being taken in the proposed revision of the city charter and in the personnel of the men to whom will be entrusted the task of revising it before it is submitted to the people for their final approval or disapproval.

The boards of registration for the election next Monday are sitting in the several wards today and will be
