DEAN OF MINING COLLEGE DIES

Veteran Mineralogist Passes Away Suddenly at Home of Son in Philadelphia

Philadelphia, Pa., Jan. 16.—Prof. George A. Koenig, the oldest member of the Michigan College of Mines faculty, died here today at the home of his son Augustus, at the age of sixty-eight. He came with Mrs. Koenig to Philadelphia last week, called by the illness of a daughter who died before their arrival.

For twenty years Professor Koenig, who was born and educated in Germany, was a member of the University of Pennsylvania faculty, and in 1892 he came to the Houghton institution. He was a recognized authority on minerals, as well as one of the most esteemed residents of the copper country.

GREAT BASSO IS COMING TO CITY

Gustaf Holmquist Has Been Engaged For Concert at Swedish Lutheran Church For February 3.

During several months past Rev. C. A. Lund of the Swedish Lutheran Church of this city has been negotiating with Mr. Gustaf Holmquist of Chicago, a basso soloist, who during recent years has attained to both national and international fame, with a view of securing him for a concert in this city in the near future. Such negotiations have now been successfully terminated and Mr. Holmquist will appear in concert in our city February 3.

The concert will be given in the new Swedish Lutheran Church. Gustaf Holmquist, within the last few years, has made for himself an enviable place among the ablest bassos of the United States. Possessing a voice of exceptionally rich, sympathetic quality, of great power and of wide range, he is peculiarly fitted for every kind of public concert work from oratorio and festival performances to song recitals and private musicales. His successes as bass soloist in Handel's "Messiah," "The Creation" of Haydn, Mendelssohn "Elijah" and "St. Paul," Gounod's "Redemption" and kindred works prove him an oratorio singer par-excellence.

His song recitals have been the subject of most enthusiastic approval, his interpretation of standard German, French and English songs winning him only highest commendation, and his authoritative rendition of the Swedish folk and art songs lending peculiar interest and novelty to his programs. It has been the good fortune of Rev. Lund to have heard Mr. Holmquist both in oratorio and other concert work on several occasions. His admiration for Mr. Holmquist therefore is not based on hearsay.

He naturally feels very much elated over his success in securing the able services of such rare talent for concert on date above mentioned.

Mr. Holmquist will be assisted by Prof. E. Larson of Chicago, a pianist and pipe organ player with more than ordinary ability. With one or more of his pipe organ solos added to the program a pleasing variation of songs and music will be offered. It has often been said that high grade entertainments in song, music, lectures, etc. are not encouraged and supported by our good Escanaba people as they should be. It is to be hoped that the above mentioned event will testify to the contrary.

FUR SMARTNESS. Pert Cap Matches This Scarf and Muff Set.

THREE PIECE SET OF SEALSKIN.

From a famous furrier comes this chic set of sealskin, which includes a typical French cap, the design used by a Parisian dressmaker, a long flat scarf and a big muff.

The scarf and muff show a mosaic arrangement of the fur, while the cap is of seal and brown satin.

This is How She'll Look. Woman's dress is to take on an aspect of military for 1913, according to the edict of the National Cloak, Suit and Skirt Makers' association, which met in convention recently.

Skirts are to be perfectly straight, looking like an envelope. Jackets are to be the same. Narrow skirts will prevail, with a slash, because women wearing narrow skirts unslashed are in constant danger from falls.

Waist-coats will be worn with nearly all of the spring suits. They will be made of contrasting material.

The spring coats are to be made of stripes and checks mostly. There are few plain materials in the new coats.

WANT THEIR \$34.72 AS UNCLE SAM'S DIVIDEND

Newspaper Story, Telling of Per Capita Wealth of Nation Brings Requests to Treasury

Washington, January 16.—A newspaper story discussing the per capita circulation of money in the United States in a humorous vein has flooded the treasury department with applications for the \$34.72 which, if the nation's wealth were divided equally, would be the possession of every man, woman and child.

The story, intended facetiously, advised those who needed the money to draw upon the government.

Dozens of letters today swamped George E. Roberts, director of the mint. One woman wrote:

"Kindly send me by parcel post my dividend of the \$3,350,727,000 which is \$34.72, in \$1 bills and 72 pennies."

Mr. Roberts has drawn a circular letter in which he must disappoint the applicants with the information that the treasury department monthly computes the per capita circulation on a theoretical basis and has no control over its distribution.

Chaucer's Face in a Stone. In a geological branch of the British museum the visitor is shown a wonderful specimen of natural imitation in a small "ribbon Jasper."

This stone, the material of which is not unlike that of other handed agates, has upon its surface a perfect miniature portrait of the poet Chaucer. Every detail is startlingly correct. There are the white face, the pointing lips, the broad, low forehead and even the whites of the slightly upturned eyes.

Putting It Mildly. She was only sixteen stone and three-quarters, so that when she trod on a banana skin she subsided very gently.

A polite shopkeeper came out to assist her to rise from a box of his best new laid eggs. "Oh, I do hope I have not broken them!" she cried. "Not at all, madam," said the polite one; "they are only bent."—Lon Globe

FUNERAL EXPENSE MAY BE DEDUCTED

Lansing, Mich., January 16.—The Industrial Accident board has ruled that lump sum payments may be made to defray funeral expenses in case of fatalities, but that the sum must be deducted from the sum ultimately allowed dependents of the deceased.

The decision was made in the case of T. H. Hetherington, who was killed in the employ of the A. J. Shith Construction company, of Detroit.

The commission has also ruled that attorneys representing clients at arbitration hearings shall not receive anything from the state. The law provides the state shall pay the expenses of the hearing and many attorneys construed this to include attorneys' fees.

The act also provides the board shall regulate the amount attorneys shall receive from clients. It has been contended this clause of the law is unconstitutional as an abridgement of the right to contract.

THE NEW SPORTING ANNUAL

The best little sporting reference book of the year is the "Pollock Gazette Sporting Annual" for 1913, published by the Richard K. Fox Publishing Company. It is a compendium of best performances in all branches of sports; ably compiled and edited by Sam C. Austin, the well-known sporting writer and critic.

The main feature of the book, however, is the pugilistic records, and includes the history of every boxer of prominence in the world. The splendid book is made doubly attractive by its high-class illustrations and photos of the champions. It is authentic and reliable, and stands today an authority on the subject upon which it treats.

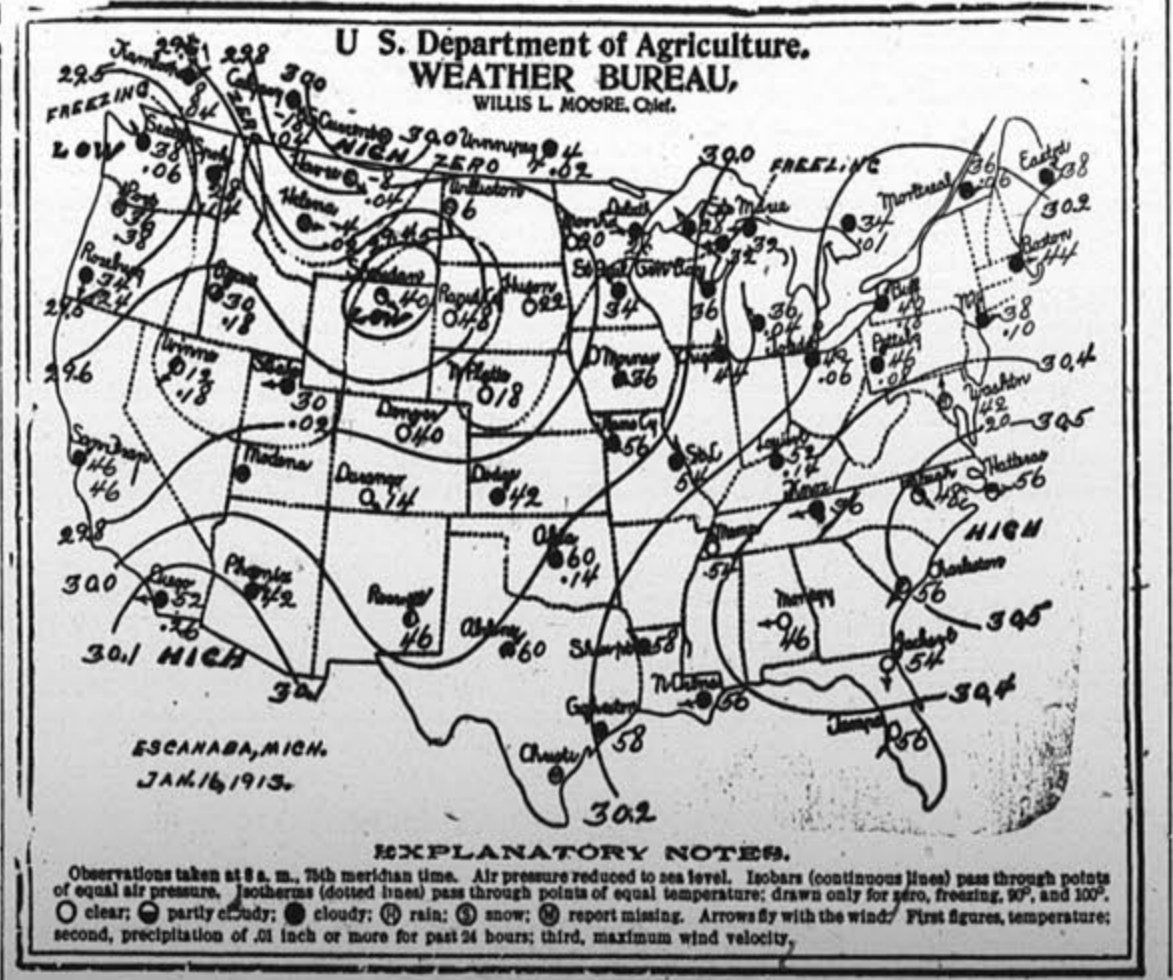

AT ONCE! CLOGGED NOSTRILS OPEN AND GOLD-IN-HEAD OR CATARRH VANISHES

Instantly Relieves Swollen, Inflamed Nose, Head, Throat—You Breathe Freely—Dull, Headache Goes—Nasty Discharge Stops.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm

OLD CANDY COMPANY WILL QUIT BUSINESS

J. P. Annen Candy Company Turns Holdings Over to Trustee for Benefit of Creditors.

Green Bay, Jan. 16.—The Annen Candy & Biscuit company, a concern organized over a score of years ago, is going out of business. The company, on account of financial conditions which have arisen recently, has decided to dispose of its holdings, such as its factory, in order to liquidate for the benefit of creditors.

A letter was sent today to creditors, in which an explanation of the situation is given. The company explains in that letter that it has executed to A. M. Duncan, the trustee, a deed to all real and personal property in trust. This step was taken in order to avoid bankruptcy and the expense connected therewith, and the creditors will be asked to sanction the move.

Trustee Duncan has called a meeting of creditors for Tuesday morning of next week at 10 o'clock at the Commercial club rooms in the Business college building.

J. P. Annen, president and general manager of the company, believes that by disposing of the property the greatest possible amount of money will be obtained for the creditors. J. P. Annen started the business 21 years ago, and it expanded till a large number of people were employed. A small factory in the alley back of Washington street was first used, then the building at the corner of Walnut and Jefferson streets was occupied. The company bought the Van Dyke brewery and real estate a few years ago and has been operating there until the present time.

CAN'T INSURE AUTOISTS AGAINST HURTING PEOPLE

Lansing, Mich., Jan. 16.—Attorney General Fellows and attorneys for the American Automobile Insurance company argued the case of the company against the state insurance department in the supreme court today. The company seeks to restrain the state from prohibiting it issuing insurance to autoists against loss by personal injuries.

Commissioner Palmer has held the company cannot furnish indemnity to autoists against hurting people. The company contended it had the right.

Arguing that a thief will be less likely to steal hand baggage that has no handle upon it, an inventor has patented a detachable handle for suit cases.

WILL MEND LIBERTY BELL.

Famous Object to Be Taken to Panama-Pacific Exposition.
The two mile petition of 500,000 school children of California presented to Mayor Blankenburg and the city council of Philadelphia by Mrs. Emma Doane of San Francisco having been granted, the historic Liberty bell will again take a journey from Independence hall to clear across the continent, 3,000 miles, to San Francisco for the Panama-Pacific exposition in 1915. The bell has made six trips from Independence hall on missions of patriotism and instruction. It went to the Cotton exposition at New Orleans

Photos by American Press Association.

BIG PETITION AND LIBERTY BELL.

In 1885, to the Columbian exposition at Chicago in 1893, to the Interstate and West Indian exposition at Charleston in 1902, to the celebration of the one hundred and twenty-eighth anniversary of the battle of Bunker Hill, Boston, in 1903, and to the St. Louis exposition in 1904.

Mayor Blankenburg has engaged Frederick W. Taylor, a consulting engineer of Chestnut Hill, to repair the Liberty bell so that it may make the trip to the Panama-Pacific exposition.

Mr. Taylor has devised an internal structure of steel and wood which will remove the dead weight strain that is rapidly lengthening the crack and pulling the historic bell asunder. He has assured the city authorities that there is little danger in the operation and that there will be no unsightly blotches or apparatus visible.

MAJ. W. V. JUDSON

Major Judson, engineer commissioner of the District of Columbia, may be made vice-governor of the canal zone.

COMPEL SHOWING OF ABILITY TO PAY

Rep. McBride Has Bill Which is Something Entirely New in Legislation.

Lansing, Mich., January 16.—Just where the legislature could stop its compelling absolute honesty by forcing purchasers of any products or commodities to disclose their ability to pay for what they buy is probably a question that will go before the judiciary committee.

Representative McBride, Progressive floor leader, who has already made a name for himself by prolific introduction of bills, has introduced another that is an entirely new proposition. It provides that persons buying milk and dairy products shall, whenever asked to do so, demonstrate their ability to make payment. This would naturally apply largely to creameries and such urban milk dealers who buy from the farmer. The farmer would be the only class to benefit.

The bill is based, it is said, on the experiences of farmers in various sections of the state who were "roped in" by irresponsible persons or corporations who secured large deliveries of milk on the weekly or monthly payday plan and failed to make good.

The state will be asked to pay for the slaying of John Ely, the Egyptian shot and killed during the Jackson prison riots by Captain Blackman and Private Jackson. A bill providing for \$10,000 for the dead man's family has been prepared and Representative Wood has been asked to introduce it. He will probably do so.

WILL DESIGN NEW CURRENCY.

Kenyon Cox, New York Artist, Receives Commission.

Secretary MacVeagh of the treasury department has engaged Kenyon Cox, a New York artist, to design the back of the new American currency notes. This design on the back will be the same for all denominations of all classes of notes—United States notes, coin certificates and national bank notes. By adopting only one design for the back Mr. MacVeagh believes that this feature of the currency can be given over to art, permitting changes and improvements to be easily made. Mr. Cox has submitted to the secretary the general features of the design he contemplates, and these were tentatively approved. The design is symbolic of

KENYON COX.

progress and peace, showing the development of the nation in the lines of labor and commerce.

The new currency will be two-thirds the size of that now in circulation, its dimensions being 6 by 2 1/2 inches.

Secretary MacVeagh expects to give the order for printing the new notes to Director Ralph of the bureau of engraving and printing about Feb. 15, almost at the end of his administration. It will require eighteen months to accomplish the change, which consequently will not be consummated until well along in President Wilson's term of office.

SAYS PARCELS POST IS OF BENEFIT TO PEOPLE

So Declares Postmaster Owen, as Compared to Delivery by the Express Companies

Milwaukee, Wis., Jan. 16.—Declaring that the parcel post system inaugurated by the United States postal service on Jan. 1, has numerous advantages over shipment by express.

One of the main reasons advanced for superiority is expressed by Mr. Owen when he says that much time in the aggregate, is saved to the parties to whom parcels are sent by parcel post.

quicker delivery and with less inconvenience to the addressee. The parcel post delivery extends to the homes in these rural sections while express companies deliver packages only to the nearest railroad station and then notify the persons by mail usually.

In this connection, it is interesting to note that a large volume of business is being transacted in the parcel post department of the Milwaukee postoffice. Mr. Owen stated that up to midnight on Wednesday, the department had mailed 56,102 parcel post packages and that the amount paid on these parcels was \$4,541.22.

tions were 1,086, and those from the entire country numbered 33,442 the average weight of which was nine ounces.

Local agents of one of the most prominent express companies of the country have received circulars from the head offices in which it is expressly pointed out that officials and all employes must refrain from an attitude unfriendly to or of criticism of the parcel post.
