United States Will Make Close Inquiry Into Sinking Of Ship—British Gain On Belgian Field

MAY PROTEST ACTION TO GERMANY; NEUTRAL BOARD MAKES REPORT

SINKING OF AMERICAN SAILING SHIP, W. P. FREY MAY PRECIPITATE INTERNATIONAL NEGOTIATIONS—ANOTHER STEAMER ADDED TO LIST OF VICTIMS OF EITEL.

(By Associated Press.) Washington, March 11.—President Wilson announced today that: "A most searching inquiry into the sinking of the American ship the William P. Frey, by the German cruiser, Prince Eitel Friedrich.

Discussion of the affair in official circles today is taken to foreshadow a strong protest to Germany against the sinking of the vessel.

The contention that the German captain found contraband aboard the ship is the plea offered as the reason for her sinking, but it is stated that this is not recognized by the government.

Is Piracy Case
The fact that the Prince Eitel was commanded by a German naval officer and that he was under commission from the German government, and the fact that there were no lives lost in the destruction of the American ship, transfers the case from criminal jurisdiction to a perishable charge of piracy, making it a subject for diplomatic negotiations.

That the United States would ask for damages and for an explanation from the Germans is regarded as certain. Some thought the German government would feel itself constrained to repudiate the action of the commander of the Eitel Friedrich, but others are of the opinion that the stand will be supported.

Review Precedents
The precedents in international law revealed the occasions where neutral nations acquiesced in the destruction of their vessels in time of war were very few.

Under the law the belligerent must take the vessel into port unless the ship was unseaworthy or in a dangerous condition, or if its cargo is absolutely known to be of contraband and which even then would make it only a subject for a prize court.

Wilson on Case
Washington, March 11.—The following statement was issued from the White House this afternoon, in the Frey matter which says: "A most searching inquiry will be made into the matter and whatever action is taken will be based on the results of that investigation."

Neutral Board Reports
Washington, March 11.—The neutral board made a report this afternoon which intimated that it is understood that the Eitel will be allowed to make such repairs so as to make her seaworthy, under the supervision of the United States officials, and that immediately afterwards she leaves the U. S. port.

Will Not Intern
Newport, March 11.—The captain

ROOM IS REDECORATED

Painters are busy at the Olmsted pool room today, putting on a coat of paint on the ceiling and walls of the big room, brightening the interior to a large extent.

CARRANZA REPLY GIVEN TO WILSON TODAY; SAY SITUATION IMPROVING

GENERAL CARRANZA'S REPLY TO THE WILSON NOTE OF YESTERDAY PLACED BEFORE EXECUTIVE FOR CONSIDERATION—CONDITIONS IMPROVING.

Washington, March 11.—The Carranza reply to the American note has been placed before President Wilson today and it is admitted in administration circles that the situation was more encouraging. Secretary Bryan stated that he was working to get food supplies into Mexico City.

The assurance was received from Carranza that foreigners and others could use the railroads to get out of the city. There was no evacuation of Mexico City last night, according to despatches.

A despatch from Carranza today, says that he has placed 300 railroad cars at the disposal of the chamber of commerce and of the municipal council that General Obregon had given 500,000 pesos to the poor at his order.

Says Looting Going on
Washington, March 11.—Senor Liano, Spanish ambassador at Washington, informed the state department today that four Spanish citizens were assassinated in Mexico City, and he also presented a report of looting and burning of private residences in the outskirts of the city, but made no specific request for action by the United States.

of the Prince Eitel today formally informed Collector of the port, Hamilton, that it was not his intention to intern, and unless the United States refuses to grant him time for necessary repairs, the cruiser will attempt to continue her voyage of adventure.

The crew of the Frey were released today and late this afternoon were brought ashore. Twenty-two arrived and two of German nationality remained behind to join the colors by enlistment.

New Victim Announced
Washington, March 11.—The British steamer Charcas, said to have been one of the Eitel's victims, and destroyed in the south Pacific, was the property of the New York and British company and was on her way to New York to take American registry at the time.

TO DELIVER BOOZE BY AEROPLANE NOW

Wheeling, W. Va., March 1.—Following the court decision, making it illegal to deliver intoxicants by common carrier, a liquor company of Dillonville, O., doing a business with customers here, will deliver wet goods by aeroplane, thus evading the law.

VON HINDENBERG IN ANOTHER SWIFT MOVE ON THE RUSS FRONT

BRITISH CLAIM VICTORY AT NUEVE CHAPPELLE, NORTH OF LA BASSE — BRITISH ADMIRALTY SILENT ON DARDENELLES CONFLICT.

(By Associated Press.)

Berlin, March 11.—Field Marshall, General von Hindenberg, commander of the German armies in the east, has made another of the swift movements that has characterized his operations against the Russians in the direction of Warsaw.

He gathered a large force of troops and has begun a new movement to the south in an effort to strike again at Przasnysz, where the Germans were defeated by the Russians recently. An important battle was developed from this move the results of which are not indicated, says Petrograd.

German military authorities says the allies have suffered defeat in France and state that the move was made to relieve the pressure on the Russ.

CLAIM VICTORY

London, March 11.—Under cover of the fire of heavy artillery, the British captured Nueve Chappelle, three and a half miles north of La Basse. Prisoners and machine guns were taken, making this the most considerable advance in several months. If made in force the move is of great strategic importance as it controls the roads to Lille. The Germans hold is also made insecure and allows the allies to straighten their lines.

The British admiralty is silent of the Dardenelles engagement, but reports say that armored ships have entered the straits. It is believed the attack will not be pressed until a land force is ready which is now indicated in that a French transport has been sighted off Malta.

GASOLINE FUMES AND BURNS FROM A TORCH CAUSE NORTON DEATH

While engaged in doing some repair work on a recent occasion, Thomas E. Norton, a former resident of this city, and whose death at Mendota, Ill., was announced yesterday, became overcome from the fumes of a gasoline torch which he was using. While in an unconscious condition from this source, the torch fell from his hands, and as his body pitched forward it fell with the head in the flame of the torch. He was so severely burned that he died three hours later without being able to tell of the experience. His plight was discovered when the family vainly awaited his return home for lunch and began a search. Funeral services will be held in Mendota today, according to advices received by Marquette relatives.

THE WEATHER.

Fair tonight and Friday.

COME ON BOYS—STORE YOUR OVER COATS WITH YOUR UNCLE.

Here is a new portrait of King Ferdinand of Roumania. This little nation has figured largely in the news of the day, regarding its plan for entering the great European struggle now in progress near its borders. Roumania has been on the verge of war several times during the past few months and may yet become a party to the big scrap.

WILL RERATE CITY IN NEAR FUTURE—BUSINESS SECTION BE INSPECTED

PROPRIETORS OF BUSINESS HOUSES IN MERCHANTILE SECTION URGED TO REMOVE RUBBISH AND PREPARE FOR INSPECTION

According to advices received by the Thatcher insurance agency in this city, Escanaba will be forced to undergo a rerating at the hands of the state insurance body, in the near future, so it is understood.

The inspection of the merchantile section of the city, the only part that is to be affected by the rerating plan at the present time, it is understood will be made during the coming week by a member of the state inspection bureau.

Insurance writers of the city urge the owners of property in the section to be inspected to clean up their premises and clear out all rubbish, in anticipation of the visit of the inspector. It is claimed that the condition of the premises, the wiring and other features of similar nature is the basis upon which the rerating will be made, and the cleaner and more carefully kept the place is, the better chance of a low rate being given.

Particular attention should be given to electrical wiring, that drop cords are not allowed to be left hanging, from nails, or wires loose and improperly protected from injury. Care should be taken so that the insulation of wiring be kept away from chance of being rubbed or worn off in any manner say the insurance men.

Intention of the plan was given insurance men here some time ago, but the date on which the inspection was to be made, has been unsettled until this time.

CUPID TURNS MENOMINEE DOWN

Menominee, March 11.—Cupid is having on the job in Menominee, this haven of the matrimonially inclined. Not only were fewer marriages licensed during January and February this year than were issued last year during those two months but the license activity has been decidedly slack at the county clerk's office since March 1. The first license this month was issued on March 4. The second was issued on the 9 to Albert Vander Heuvel and Josephine Cathoor, both of Green Bay. Vander Heuvel is 29 years old and a hotel manager. The bride is 28.

"HOOKEY VIC" MUST LEAVE CITY; IS GIVEN FIVE DAYS TO LEAVE

ASTOUNDING CONDITION IS REVEALED IN CHARGE BROUGHT AGAINST "HOOKEY VIC" PERROW—SAID SOLD BOOZE TO CHILDREN.

CLAIMED TOOK LIBERTIES WITH CHILDREN

Prosecutor Rushton Asserts Man is Moral Degenerate of Worst Type—Must Leave City in Five Days—Ran Vice Den on Bay Shore.

One of the most astounding stories of vice and immorality ever revealed in the city became public property today, following the arrest of Victor Perrow, a man of sixty years, and who is better known as "Hokey Vic." "Hokey Vic" has been given just five days to dispose of his interests in Escanaba and to "beat it for the tall timbers," or elsewhere, just so it is not in Delta county, according to the Prosecutor's office today.

The things that are laid at the door of this character, if published in full would make the face of the reader burn with shame. He is charged with having maintained a regular den of vice, where booze was sold to children of tender ages; where liberties were taken with young girls. This, however, has not been of recent occurrence. For some time "Hokey Vic" lived in a shack on the bay shore where these things are said to have occurred. That there is truth in the statements above is given color by the fact that Prosecutor Rushton announced them today.

Is a Degenerate, is Said
"The man is a moral degenerate," said Atty. Rushton today in speaking of the case.

FARMERS' SPECIAL TO VISIT THIS SECTION DURING COMING MONTH

ANNUAL FARMERS' TRAIN FROM THE AGRICULTURAL COLLEGE AT LANSING TO VISIT UPPER PENINSULA IN APRIL—ARRANGING ITINERY.

Upper peninsula farmers are showing marked interest in the plans for the annual tour of the Michigan Agricultural college farm special, which will visit Delta county in April. The itinerary is now being arranged by J. H. Jasberg, colonization agent of the South Shore railway. No less than 1,500 peninsula farmers have already asked for information about the route, so that a large attendance is assured.

The scope of the train's exhibits will be much broader than in former years and it is probable that the train will be larger by one coach.

Mr. Jasberg obtained the names of all farmers north of the Straits of Mackinac, and particularly those living near the points that the train will stop, and circulars were sent them. Responses have been received from a large number, indicating a lively interest in the plans.

LOCAL MAN SAYS SAW FIRST ROBIN

"Did you ever know it to fall," said an Escanaba man today, "When the sun shines bright and the ice and snow begins to go off the streets and people leave their doors and windows open for a time during the day, that sooner or later some one sees the "first" robin?"

How true that saying! Yesterday, the story came out. Joseph Belanger, a perfectly honest and upright citizen of the city, has told friends that on Monday, he saw the "first" spring robin. The lonely individual of a bird sat, so the story goes, on a limb in a tree at the corner of Langley and Mary streets. For some time the public of the city has been awaiting this very announcement and to those who are wont to go by these signs, spring is sure on its way.

WALKS CLEAR OF SNOW FOR FIRST TIME SINCE SHUTDOWN OF WINTER

For the first time since the breaking of winter, sidewalks in the city have been free of ice and snow. The pedestrian can now feel how good it seems to be walking on good solid cement again, after several months of icy, slushy walks. More weather of the present kind will with the assistance of owners of property and their occupants, soon clean all the walks of the snow and ice accumulation.

TODAY'S ODDEST STORY

Fairbault, Minn., Mar. 11.—During the legislative investigation of the school for the deaf and dumb here, a little deaf and dumb boy told about two other deaf and dumb boys being dragged into a dungeon. Representative J. W. North, a member of the investigating committee, turned to the interpreter with this query: "Ask him if he heard no outcries." He had not.

THAW'S ATTEMPT TO GET SANITY EVIDENCE IN RECORDS, FAILURE

JUSTICE PAGE RULED OUT ALL TESTIMONY ATTEMPTING TO SHOW THAW SANE WHEN HE ESCAPED FROM MATTEAWAN.

(By Associated Press.)

New York, March 11.—Harry K. Thaw's attempt today to get evidence concerning his sanity at the time he is said to have conspired to escape from Matteawan into the records of the case, in which he and five others are charged with conspiracy, failed this afternoon. Justice Page ruled out all testimony of this character from the records of the present trial, except just enough to show that Thaw was sane enough to enter into a conspiracy to effect his escape. Justice Page said that it was purely to show the illegal existence of a conspiracy. The state closed its case this morning, and the defense immediately made the usual motion to dismiss the indictment, setting forth the plea that the state had failed to show their case. All the motions were denied by Justice Page.

Later, a motion was made by counsel for the defense in behalf of Michael O'Keefe, the motion setting forth that there had not been any evidence introduced to show that O'Keefe was connected with the conspiracy. The motion was granted and O'Keefe released.

Thaw took the stand in his own behalf this afternoon.

PURCHASES ESCANABA BOILER WORKS TODAY

A deal was completed today whereby the former proprietor of the Escanaba Boiler Works, 406 Stephenson avenue, Jos. Michels relinquished his holdings and turned the plant over to the new owner, A. S. Pearson. Mr. Pearson will open the shop for business, Monday March 15.

Cats were domesticated in Egypt as early as 1600 B. C.

WAYNE OBJECTS TO PASSAGE OF AUTO TAX NOW BEFORE THE HOUSE

PROPOSED JEROME MEASURE WOULD DECREASE DETROIT'S REVENUES AT LEAST \$400,000 ARGUE OPPONENTS TO THE MEASURE.

RAILROAD RATES STILL UNSETTLED

State Legislature Desires More Definite Information on the Question of Earnings Before Will Arrive at any Definite Decision in the Matter.

BY DOUGLAS D. MARTIN.

Lansing, Mich., March 11.—(Special)—The question of railroad rates and of statewide prohibition are the two measures which are occupying the most attention in legislative circles at present. Senator Odell's bill abolishing the office of game warden is, of course, coming in for considerable interest, and the possibility of passing this measure over the veto of the governor is being seriously considered.

Apparently dissatisfied with the progress made by the lower house the senate passed resolutions instructing the auditor general, the railroad commission and the state tax commissioners to furnish data which will assist the legislature in arriving at a decision as to whether the roads are justified in their appeal for an increase in rates.

Senator Fred Woodworth, of Huron, introduced the resolution calling upon auditor General O. B. Fuller to furnish all facts concerning the railroads in his possession, Senator Robert Walters, of Traverse City, called on the state tax commission to do likewise and Senator Terry Corliss put in a resolution asking the assistance of the state railroad commission.

Thousands of petitions are pouring into the legislature from citizens of the state asking that increases in rates be granted. Several legislators are investigating these and endeavoring to learn whether they are spontaneous or inspired.

DAUGHTER ESCANABAN SUCCEUMBS AT HANCOCK

Mrs. Leo Eckertsoy, Daughter of Mrs. A. Gamache is Dead

Word received by the city yesterday of the death of Mrs. Leo Eckertsoy, daughter of Mrs. A. Gamache, 426 south Fannie street, which occurred in Hancock yesterday. She had been ill for several months. Her mother, Mrs. Gamache having been with her for the past several weeks.

Funeral services will be held from St. Anne's church in this city, Saturday morning at nine o'clock with burial at St. Anne's cemetery. The body of deceased will be brought to the city this evening, accompanied by the husband, three children and Mrs. Gamache.

John E. Jackson today received a Maxwell cabriolet, which has been sold to a local physician. The little car is a beauty and affords all the comfort of a coupe with the advantages of an open car.

CHRISTIANS IN NORTHWESTERN PERSIA ARE BEING SUBJECTED TO GREAT SUFFERING AND PERSECUTION—FLEE BEFORE TURKISH FORCE

(By Associated Press.)

New York, March 11.—The horrors of the great war have brought suffering and exile to more than 50,000 of fenceless Christian people in northwestern Persia, according to a statement given out by a newly organized Persian War Relief Committee. The invasion of Persia and the capture by Turks and Kurds of the cities of Urumia, Tabriz and other cities which had been held by Russian troops drove the Assyrian and Armenian people, in fear of massacre, either out of the country into Russia or into the American missionary compounds in Urumia and Tabriz. The flight from Urumia began at midnight on January 2nd, the people having only a few moments' notice of the approach of

PENNSYLVANIA MAN BELIEVES THAT RUSSIA WILL GET PORT OF KAO-CHOW IN CHINA; IS OF OPINION THAT RUSSIA WILL LOSE LEAST

(By BURTON K. STANDISH)

(Written for the Associated Press.) Washington, March 10.—Is Russia to get from Japan, what Germany is alleged to have stolen—diplomatically—from Russia, namely, the port of Kiao-chow? Is Japan to make this return to Russia, her present ally, for having taken Port Arthur?

Rep. W. D. B. Alney, of Pennsylvania, has such an idea. He recently returned from a rather extensive trip through the far east, Siberia included. He is impressed with the continued growth of Russia and believes that nation will be least hurt by the war. "It may be," he says, "that the weight of influence will slip away from Europe, passing beyond the Ural mountains and find lodgment among the peoples of Asia. Out of this war, (Continued on page two)

ENGINEER WILL TALK TO MEMBERS OF CLUB

George M. Mashek Will Lecture to Vocational Club Tonight

Announcement is made today of the regular meeting of the Boys' Vocational club, which will be held this evening at the high school auditorium, and at which time George M. Mashek will deliver a lecture on engineering. Mr. Mashek is an engineer of wide experience and his talk to the club will no doubt be of great interest. This will be fourth of the vocational club lectures to be given thus far during the school year. The plans of these back of the club call for at least six more of these interesting events before the close of the school year.

BELIEVES THAT RUSSIA WILL GET PORT OF KHAO-CHOW

(Continued from page one)
Russia, with her great resources, is likely to emerge least harmed of any great power. Russia territorially is largely Asiatic; ethnologically, she is allied in large measures with the Orient. Russia, slow-moving, ponderous Russia, that has been nothing up in all these centuries until she now occupies one-sixth of the land area of the world with 8,417,000 square miles of territory; Russia, extending from the Atlantic to the Pacific and from the Arctic almost to the Indian ocean; Russia with a population of 185,000,000 people; Russia with a railroad extending 6,000 miles across the continents of Asia and Europe; Russia that can put under arms from 22 to 30 million of men; Russia is a factor in the future development of the world. Russia will pour her commercial activities into the Pacific.

China Once After Port.
"It is interesting to recall that it was Kiao-chow, and not Port Arthur, which was Russia's first love. It was almost within her grasp. China had leased Kiao-chow to Russia; with it went the concession to build the trans-Siberian railroad through Manchuria; accompanying it there was an undoubted purpose to build the Kalgan railroad from Lake Balkal to Peking. A straight line would take this road to Kiao-chow, thus giving Russia her long-desired open port to the Pacific."
"It was about this time that Li Hung Chang made his celebrated trip around the world; he came to Berlin, and Germany became aware of Russia's purpose. The murder of two Lutheran missionaries on the Shantung peninsula furnished the pretext, Germany seized Kiao-chow and Russia swallowed her chagrin, taking Port Arthur as a consolation. This crowded her against Japan. The result is well known. Today Russia and Japan find themselves in accord and where Kiao-chow may ultimately land is beyond the ken of any who are content to deal with facts. Certain it is there are evidences of renewed activity in railroad construction in the vicinity of Kalgan."

WAS BORN BLIND; NOW HAS SIGHT

Marblehead, Mass., Mar. 11.—Maud Emerson Lincoln, 21 years old, who was born blind, is now able to see distinctly with both eyes. She says that a miracle has been performed. Sight came to her while she was washing dishes.

PRZEMYSL CAN HOLD OUT FOR SOME TIME SAYS CORRESPONDENT

HUNGARIAN CITY UNDER SIEGE BY THE RUSS IS SAID TO HAVE A PLENTIFUL FOOD SUPPLY—SAY SITUATION IS NOT YET ALARMING.

(By Associated Press.)
Venice, Feb. 26.—(Correspondence)—According to the Hungarian newspapers received here the situation in Przemysl, which has been under siege of a Russian army for four months, is not yet alarming. Aviators, who visit the garrison almost daily, report that there should be no really serious shortage of provisions for another three months. The victualing problem has been considerably assisted by the flight over the town recently of vast flocks of wild ducks which were shot by the thousands.
The population of Przemysl now numbers about 60,000, including both soldiers and civilians and 5,600 Russian prisoners. The garrison is all Hungarian.

The Russian besiegers under General Dimitrieff hold every entrance and approach to the town, but they are still held outside of the outer line of the city's fortifications, which have a radius of twelve miles, and include a considerable area of farm and garden land and twelve small agricultural villages.

Well Stocked With Food.
The city was well stocked with food at the beginning of the siege and this supply has been carefully husbanded and doled out under the strictest regulations by the military authorities. Food allotted for the civil population is turned over at stated intervals by the military governor, who fixes the retail price of each commodity. Prices, curiously enough are lower than they were before the war, but money has really little value in a community where the amounts of each article purchasable are limited by law. Those who have no money receive free meals of approximately the same quantity and quality allowed to those who pay for their food.

The Russians outside the city also have several aeroplanes which make frequent reconnaissance flights over the city and the surrounding neighborhood. Occasionally they attempt bomb attacks, but none of these have resulted in any serious damage. Their hope, of course, is that a stray shot may find the Hungarian arsenal and ammunition stores.

It is said that the Hungarians within the city get along very well with their Russian prisoners, many of

whom have given their parole and are allowed to move freely within limited area. Some of the better educated Russian officers have voluntarily offered their services to officers and men of the garrison for instruction in the Russian language.

Use the Mirror "Want Column" when you want help.

UPPER PENINSULA IS SPLENDID PLACE FOR BEE CULTURE

Iron Mountain, March 11.—Every one knows the industry of the bee, but few people know that the Eskil apary in this city is the largest single bee yard in the Upper Peninsula. It now contains 120 hives, and will doubtless be increased by 60 or 70 hives during the coming year. Last summer the bees produced over two and a half tons of honey, and when one considers that the honey is of the finest quality, this industry is no small factor in the agricultural possibilities of Dickinson county. The old boggy that the northern peninsula is too cold for bees, has been put to rest. The bees winter well and are ready for the spring with good strong brood.

Questionably the Eskil apary is but the fore-runner of many other large aparies in the cut-over areas of Cloverland. Already many people have started in with small nucleus of from one to fifteen hives with the intention of increasing to a much larger number.
The white and alske clover, gold-earred, fire-weed, raspberries and wild asters, which grow in such abundance throughout this district, afford honey that is hard to equal either in flavor or quality in any other part of the United States.

ELK OFFICIAL IN CITY TODAY; WILL MAKE INSPECTION

Members of the local lodge of Elks will hold their annual election of officers this evening, and at the same time stage a big banquet in honor of William J. Johnson of Marquette, district deputy, grand exalted ruler of the Northern part.

A large class of candidates will also be initiated at this time. It is stated today.

Auction sales originated in ancient Rome, and were introduced to enable soldiers to dispose of spoils of war.

Groats, or fourpenny pieces, were last coined in Great Britain in 1856.

GERMANY BOMBARDED BY YOUTHFUL ALLIES

The cast of this little skit, and its location are minimal to a certain section of Ludington street, near the corner of Tilden and Ludington.
The characters comprise a portly German of unmistakable antecedents, a trio of youthful and irrepressible Escanaba lads, called allies for convenience and from the fact that they certainly showed the characteristics and a number of interested spectators, supers, to the little play that was staged shortly before the noon hour, yesterday.

The portly German entered the scene first, proceeded up Ludington for fifty feet from the Lemmer building where his progress was dealt a stinging reminder of danger, in the form of a very heavy and very wet snow or iceball, that landed with unerring aim on the back of his neck. The von Hindenbergiers spirit then manifested itself.

Attack Grows
"Vant me to blinch you kids," he called back at three heads that stuck out to view beside an entrance way back of him. "Sure" yelled the triumvirate of allies, gleefully. Sulting the action to the word the German forces swung to the rear and began the advance. Ball after ball (snow, of course) few past him or lodged on some part of his anatomy until he had reached the strategic point (doorway entrance). Here the allies faded from view, and Germany, in hopes the enemy would appear from the front craftily stood just to one side, where he could watch the path the allies would have to take to get to the front.

Outflanked!
In the meantime, the allies slipped around the alley and as the Teutonic force awaited their return with impatience, a ball was heaved high in the air and dropped with a splash at his feet, startled, he looked around and then slyly peeped around the corner of the fence at that point. As he stooped, three hard packed pellets of snow went whizzing on their way, straight to the mark. Germany was outflanked and fled precipitately, while the allies, safely hid from view rocked in merriment.

WILL STAGE ATHLETIC MEET AT HIGH SCHOOL; PLAN GYMNASIUM WORK

INDOOR GAMES WILL BE HELD MARCH 19, AT HIGH SCHOOL GYMNASIUM—PLAN BASKET-BALL GAME BETWEEN WOMEN FACULTY MEMBERS AND SCHOOL GIRLS

The date for the indoor athletic games at the High School gymnasium has been determined upon, March 19, being the date designated for that event. It was announced today by Coach Hutto.

A comprehensive list of events has been arranged and will be run off on that occasion.

One of the most interesting features of the occasion, is carried out as planned, will be the basket ball game between women members of the faculty and a team drawn from the ranks of the feminine contingent of the high school.

It is the intention of Coach Hutto to make the affair a sort of general athletic carnival, and towards this end classes of students, among the boys, will be given instructions in gymnastics and in tumbling and apparatus work. This is expected to be a regular feature of the work at the school starting next week.

ISHPEMING PLANS TO "BEAT DAYLIGHT" BY TURNING CLOCKS UP

City Council of Hematite City to Turn Clocks Ahead.

There is every probability that the proposal to introduce eastern time in Ishpeeming, discussed for several months will be tried out and that should it prove unsatisfactory to the people, a return to standard time will be made. A. J. Yungbluth, who instituted the movement Tuesday, said he felt confident that eastern time, giving an additional working hour of daylight will be taken favorably and that those who are now skeptical will cease to be after tryout. A special meeting of the council will be called and if that body raises no objection, Easter Sunday, April 4, at 9 p. m., will be fixed as the date for the change.

GET CONFERENCE PICTURES

Young men of the Escanaba delegation to the Upper Peninsula conference at Calumet, have received pictures of the big gathering, taken before the high school at Calumet and in which 600 young men are included. The Escanaba delegation is placed in the center of the group with their huge banner prominently displayed.

Don't accept any substitute. Sample mailed FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

The Broad Way Leads to Goodyear Tires

Try it a little while. It has carried some 400,000 motorists to the haven of content. It is traveled by more users than has any other tire. That has been so for years.

We can't win you to Fortified Tires by asking you to try them. The tires themselves must win you. But our plea is that you should try the tires that countless men found best. There must be a reason as you know, why Goodyears dominate like this. Last year men bought about one Goodyear tire every car in use.

Price Reduction
On February 1st we made our biggest price reduction. That makes these reductions in two prices, 10% and 15%.

Men Like You
This Goodyear army is composed of men like you. They want quality, safety, endurance. They want trouble-saving and low cost per mile.

Goodyears best met these wants. They met them because they are Fortified Tires.

Either Way— Drugs Are Harmful!
IF A COFFEE DRINKER, have you stopped to think that, with every cup of coffee, you are taking from two to three grains of caffeine, a slow, but powerful, drug?
According to medical authorities, caffeine is a cause of nervousness, heart trouble, indigestion, constipation and other ailments. It's a cumulative drug, and what's more, a habit-forming drug.
Sometime, when the coffee-drug gets in its ticks, you'll realize the harm it does; but wouldn't it be better to avoid trouble—stop coffee now and use POSTUM.
It is a pure food-drink, made from selected wheat and a little wholesome molasses, carefully roasted, ground and skillfully blended. This gives it a snappy taste much like that rich, old Java, but Postum is absolutely free from caffeine, or any other harmful ingredient.
POSTUM comes in two forms:—POSTUM CEREAL—requires boiling—15c and 25c pkgs.
INSTANT POSTUM—a soluble form—no boiling required—made INSTANTLY in the cup with hot water—30c and 50c tins.
The difference is only in the form. Both kinds are equally wholesome and delicious and the cost per cup is about the same. Be sure to ask for the kind you want.
"There's a Reason" for POSTUM
—sold by Grocers everywhere.

A FOOL AND HIS MONEY

BY GEORGE BARR McCUTCHEON.

Copyright, 1915, by George Barr McCutcheon.

SYNOPSIS.

In Toledo, Scott, a millionaire, is to a fortune, while alone with a lady, Densel, and his wife, Danube, in care of the Schmicks, a mysterious woman inhabits of the towers.

CHAPTER III. The Real Owner.

HE KNEW at once that he was the kind of an American I have come to hate with a zest that knows no moderation—the kind that is ashamed of the national flag.

"What's that? Here, here, none of sort of talk, my friend! We're to look over your stuff, and we're business, but you won't get any by talking like that."

"There is nothing for sale here," I shortly. "And you've got a lot to come bolting into a prison-house."

"You are sure there was a treaty, Maude?" demanded her parent accusingly. "Certainly," she cried. "The Teutons ceded Alsace-Lorraine to us."

"Pardon me once more," I cried, and this time I pleaded guilty to a blush. "You are thinking of the other treaty—the one at Metz, Miss Riley-Werkheimer. This, as you will recall, antedates that one by—oh, several years."

"Thank you," she said, quite condescendingly. "I was confused for a moment. Of course, father, I can't say that it was signed here on this table as the young man says. I only know that there was a treaty. I do wish you'd come and see the fire screen I've found."

"Let's get this out of our system first," said her father. "If you can show me statistics and the proper proof that this is the genuine table, young man, I'll—"

"Pray rest easy, sir," I said. "We can take it up later on. The facts are—"

"And this Pontius Pilate seat," interrupted Rocksworth, biting off the end of a fresh cigar—"what about it? Got a match?"

"Get the gentleman a match, Britton," I said, thereby giving my valet an opportunity to do his exploding in the pantry. "I can only affirm, sir, that it is common history that Pontius Pilate spent a portion of his exile here in the sixth century. It is reasonable to assume that he sat in this seat, being an old man unused to difficult stairways. He—"

"Buy it, Orson," said his wife, with authority. "We'll take a chance on it. If it isn't the right thing we can sell it to the secondhand dealers. What's the price?"

"A thousand dollars to you, madam," said I.

"They were at once suspicious. While they were busily engaged in looking at the seat over the porters shifted it about at all angles I stepped over and ordered my workmen to resume operations."

"Here!" roared Mr. Rocksworth. "Stop this beastly noise! What the deuce do you mean, sir, permitting these scoundrels to raise the dead like this?"

"I moved forward apologetically. 'They are raising the dead. The price is fairly alive with dead rats and—'

"Good Lord!" gasped Riley-Werkheimer. "We'll get the imbecile plague here."

"Well, let's move on upstairs," said Rocksworth. Addressing the porters, he said: "You fellows get this lot of stuff together, and I'll take an option on it. I'll be over tomorrow to close the deal, Mr.—Mr.—Now, where is the old Florentine mirror the count was telling us about?"

"The count?" said I, frowning. "Yes, the real owner. You can't stuff me with your talk about being the proprietor here, my friend. You see, we happen to know the count."

"They all condescended to laugh at me. I don't know what I should have said or done if Britton had not returned with a box of matches at that instant."

"Almost simultaneously there appeared in the lower hall a lanky youth of eighteen. 'Say, these clubs are the real stuff, all right, all right. They're as brittle as glass. See what I did to 'em. We can have 'em spliced and rewound, and I'll bang 'em on my wall. All I want is the heads anyhow.'"

He held up to view a headless mid-iron and brassie and triumphantly waved a splendid cleek. My favorite clubs! I could play better from a hanging lie with that beautiful brassie than with any club I ever owned, and, as for the iron, I was dead with it.

He lit a cigarette and threw the match into a pile of shavings. Old

Conrad returned to life at that instant and stamped out the incipient blaze. "I shouldn't consider them very good clubs, Harold, if they break off like that," said his mother.

"What do you know about clubs?" he snapped, and I at once knew what class he was in at the preparatory school.

If I was ever like one of these, said I to myself, God rest the sage soul of my Uncle Rillas!

The situation was no longer humorous. I could put up with anything but the mishandling of my devoted golf clubs.

Striding up to him, I snatched the remnants from his hands. "You infernal cub!" I roared. "Haven't you any more sense than to smash a golf club like that? For two cents I'd break this putter over your head."

"Father," he yelled indignantly, "who is this mucker?"

Mr. Rocksworth bounced toward me, his cane raised. I whirled upon him. "How dare you?" he shouted. The ladies squealed.

If he expected me to cringe he was mightily mistaken. My blood was up. I advanced.

"Paste him, dad!" roared Harold. But Mr. Rocksworth suddenly altered his course and put the historic treaty table between him and me. He didn't like the appearance of my rather brawny fist.

"You big stiff!" shouted Harold. Afterward it occurred to me that this inelegant appellation may have been meant for his father, but at the time I took it to be aimed at me.

Before Harold quite knew what was happening to him he was prancing down the long hall with my bony fingers grasping his collar. Coming to the door opening into the outer vestibule, I drew back my foot for a final aid to locomotion. Acutely recalling the fact that slippers are not designed for kicking purposes, I raised my foot, removed the slipper and laid it upon a taut section of his trousers with all of the melancholy force that I usually exert in slicing my drive off the tee. I shall never forget the exquisite spasm of pleasure his plaintive "Ouch!" gave me.

Then Harold passed swiftly out of my life.

Mr. Rocksworth, re-enforced by four reluctant mercenaries in the shape of porters, was advancing upon me. Somehow I had a vague but unerring instinct that some one had fainted, but I didn't stop to inquire. Without much ado I wrested the cane from him and sent it scuttling after Harold.

"Now get out!" I roared. "You shall pay for this!" he spluttered, quite black in the face. "Grab him, you infernal cowards!"

But the four porters slunk away, and Mr. Rocksworth faced me alone. Rudolph and Max, thoroughly fed and most prodigious, were bearing down upon us, accounting for the flight of the mercenaries.

"Get out!" I repeated. "I am the owner of this place, Mr. Rocksworth, and I am mad through and through! Skip!"

They skipped.

(To be Continued.)

Novelty in Motor Vehicles. A novel motor-driven racer is the invention of a St. Louis genius, who has given the name of the "unicycle" to the great hoop. Though a couple of small wheels, or rollers, are attached to the side of the queer craft, they merely serve to steady it when it is still, and are raised when the device is in motion. The motive power is a gas engine of the rotary type, with three cylinders, and this drives a propeller, five feet in length, at such speed that the wheel travels at a better rate than a mile a minute—74 miles an hour, to be exact. The frame which carries the engine, propeller, driver, and fuel supply is very ingeniously constructed with a set of rollers that revolve against the inner side of the big wheel. In this manner the frame remains upright while the wheel revolves. The latter is of aluminum and has a diameter of 81 inches. Its circumference is protected by a solid rubber tire.

Columbia will coin \$2,000,000 worth of silver.

WAYNE OBJECTS TO PASSAGE OF AUTO TAX NOW BEFORE HOUSE

(Continued from page one)

Despite the opposition of the Anti-Saloon League, Senator Henry Straight, of Coldwater, has introduced his bill which would put before the voters in 1916 the question of whether Michigan shall be made "dry" territory.

Instead of attempting to secure a constitutional amendment, which would require a two-thirds vote in each house, Senator Straight asks for statutory prohibition and his bill, of course, carries a provision which places the matter before the people of the state if passed by the legislature. A majority vote is all that is necessary to carry the measure through the legislature.

Wets Challenge Drys. It is known that Gov. Ferris will sign such a bill if it passes both houses, even though it is practically the result of a dare issued by Senator Murtha, the democratic leader of the legislature.

Murtha challenged the drys of the state to try out the question of state-wide prohibition and Straight replied by announcing that he would immediately introduce the bill which he had been holding up at the request of the Anti-Saloon League. The announcement rather took the wets off their feet, but they have rallied and countered with the declaration that they will introduce a bill which will make the state instead of the country the unit in a wet and dry fight. If such a bill should pass the legislature and then pass the people it would mean that county option would be wiped out, and that the state would either be all wet or all dry.

Despite their challenge to the drys, the wet members of the legislature are preparing to fight the proposed state prohibition measure, and it seems certain that there will be a bitterly fought battle on the question before the session adjourns.

The Odell Measure. The Odell bill, which would wipe out the present game warden's department, with its dozens of political jobs, and thereby destroy the finest political machine in the state, has passed the senate and is before house committees. Senator Odell wants the work of the department to be done by the public domain commission. He declares that the state will save many thousands of dollars each year by making the change. At the same time the republicans will be depriving the democrats of a chance to fill the office of game warden, now held by Wm. Oates, with one of their own faith and likewise deprive many democrats of jobs as deputies.

His beloved that Gov. Ferris will veto the Odell bill when it comes before him, and in anticipation of just such a result the republican members of the legislature are preparing to pass it over his signature. They claim that they can easily procure the necessary three-fifths vote to do this.

The senate also passed an amendment to the bill giving it immediate effect and the three democrats in the body were the only ones who made a fight against it.

Labor Asks Action. The labor interests want sweeping changes made in the present compensation law. President Homer Waterman of the state federation of labor, has been at work on a bill for several weeks and it was finally introduced last week. The federation measure is practically a copy of the Ohio compensation law. One of its features is the provision which places the state liability insurance department under the direction of the compensation commission. The bill would also increase compensation from 50 to 66 2/3 per cent per week with a maximum of \$12 per week and a minimum of \$4.

To Simplify Elections. A plan to simplify elections by dispensing with some of them has been originated by Representatives Ormsbee and Rogers. They are planning a bill which will make the terms of all county and state officers of four years' duration instead of two. They would have the elections held on the day of the regular presidential election every four years. There is considerable sentiment in the legislature in favor of such a method of settling the difficulties which now arise over the frequency of primaries, elections and registrations.

Health Bill Killed. The bill introduced by Rep. Jerome, of Hillsdale, which would divide the state into 30 health districts, each one of which would be governed by a commissioner receiving a salary of \$2,500 a year, has been killed in committee. As was stated in these columns early in the session, the bill never had a chance to become a law. Backed by political interests in the state health department, however, Rep. Jerome made a hard fight for his measure. Several times it was near death and was saved only by being drawn off the floor. Finally the committee killed the bill and ended the controversy. Rep. Jerome thereupon introduced another health bill. Under this measure physicians who fail to report cases of contagious disease to the state health department will be punished severely.

Limit Child Labor. Rep. Wm. DeBoer, of Kent county, is the author of a measure which would make the laws governing women and child labor in this state even more stringent than they are at the present time. The new measure is introduced at the request of the superintendent of the Grand Rapids public schools. It would deprive the probate court of the right to issue working permits to children. The bill cuts out the clause which exempts canning factories from the provision of the law which limits the working hours for women to 54 per week. The bill also provides that no female under 18 years of age may be employed more than 48 hours a week. The age at which children may be sent to work is also increased from 14 to 16 years, and changes the provision that children only 14 may be put at work upon the giving of a permit by making the age 15 years. The bill follows the suggestions made by the state federation of women's clubs.

May Abolish Food Department.

Abolishing departments of the state government seems to be one of the things that occupy a great deal of time in the present session.

Plans are being laid in the house of representatives to introduce a measure which will wipe the dairy and food department out of existence. The action is the result of the continued agitation against the reappointment of Commission James Helm. The senate is still rebelling against confirming Helm and Senator Murtha, who has broken away from Gov. Ferris for the second time on this question, is leading the fight. It occasioned considerable surprise to learn that the sentiment has spread to the lower house, but such seems to be the case.

The proposed bill would place the work of the state dairy and food commission in the hands of Michigan Agricultural College authorities. It is argued that they could perform the duties of the department at a great saving to the state, and that much of the work would not require an additional force. The college now has a complete laboratory equipment and employs many expert chemists who are authorities on practically every problem that now comes before the state dairy and food commission. It is certain that such a bill would pass the senate. It may also pass the house, but there is no likelihood that Gov. Ferris would sign it. Whether the friends of the measure could pass it over the governor's veto is very doubtful.

Object to Auto Tax. Serious objections are being made to the Jerome bill taxing automobiles according to weight and horsepower for the benefit of road improvement funds, and exempting them from every other form of taxation.

Wayne county, which probably has more automobiles than any county in the United States, is making a strong fight to kill the measure. Speakers who appeared before the house and senate committees point out that if the automobile is taken from the regular tax rolls the city of Detroit will lose a revenue amounting to \$400,000 a year. At the same time it will not benefit by road improvements, owing to the fact that most of the roads in Wayne county are already improved. The speakers also objected to the feature of the bill which makes a second-hand auto pay as big a tax as a new one of the same weight.

The reason for this provision is clearly seen, however. It is shown by road commissioners that a second-hand car tears up the highway just as badly as a new one and they are of the belief that the tax should be the same on both classes.

Appropriations Are To Be High. There is no chance that state appropriations this year will fall much below the \$14,000,000 mark.

Chairman Harry Hinkley, of the house ways and means committee has compiled figures from the appropriations already in sight showing that there is a serious doubt whether the bill can be kept below \$14,800,000.

The fixed appropriations for the University of Michigan amount to \$2,762,064.25. The prisons of the state must receive \$300,000 for current expenses and the increased mill tax for the Michigan Agricultural College means \$373,333.33 additional this year. State hospitals will receive \$2,517,694.78 and the amount necessary for the state highway commission totals \$1,500,000. For general purposes the legislature will be compelled to appropriate \$2,112,920. The total of appropriation bills at present runs to \$20,000,000, but as Gov. Ferris has said that these must be reduced, and the finance committees have agreed with him, some big items must fall by the wayside. However, it is apparent that it will be absolutely impossible to keep the figures within the \$13,000,000 limit prescribed by the chief executive.

The bill to appropriate \$500,000 for a new four-story office building for state departments has passed the senate and has received a favorable report from one committee in the house.

Dog Rescues Ice Skater. Carroll Searis had a narrow and wonderful escape from death while attempting to skate on the ice at the city reservoir. He tried the ice at first and decided it was strong enough to hold him. While skating it suddenly gave way and he was precipitated into the cold water.

His dog saw the predicament and ran across the ice to where the hole had been broken and attempted to drag his young master to safety. It took but a short time for young Searis to find the bank, and a quick trip home in his icy clothing apparently left him without serious results.—Nevada City Dispatch to San Diego Union.

For Lovers of Birds. Start at once to make some bird houses. Try scattering a few about the premises and enjoy the neighbors that will move into them. One of the most pleasing songsters that may easily be attracted to a home near the house, is the wren. A very small opening should be made in its house to prevent other birds from using it.

ROCKEFELLER FUND TO BE USED TO AID WORK IN CHINESE HOSPITALS

New York, March 11.—The Rockefeller foundation announced Monday that it had decided to undertake a comprehensive plan for the improvement of medical and hospital conditions in China.

For this purpose the foundation has established a special organization to be known as "The China medical board of the Rockefeller foundation," and plans as the first step toward effective work the development in China of medical education.

Extent of Assistance. This will include aid for the two or more medical schools in China,

described as inadequately equipped; the strengthening of the staffs of missions and other hospitals, assistance in the establishment of two modern tuberculosis hospitals, and the establishment of six \$1,000 scholarships, with traveling expenses, to enable Chinese graduates in medicine to prosecute further studies abroad; and of five scholarships to enable Chinese nurses to obtain training in this country.

The action taken was based, the foundation says, upon an exhaustive report of its special commission, which last year made a first-hand exhaustive study of the public health and medical practice in China and reported that the need of medical relief there was great.

ESCANABA CIGAR CO.

1307 Ludington Street

The White Ribbon

Yes, they are good, is what every man says after he has smoked a White Ribbon cigar. They are the best that money can procure and for a good satisfying smoke there is no better 3-for-25 cents cigar made. Don't burn good money for bad cigars. Get a White Ribbon and you will be pleased in every way. You may smoke one on us for a trial if you want to.

—THE DON GUSTO—

is our 10c straight smoke

Gierke & Haglund

Corner Ludington and Charlotte Sts.

There's real satisfaction in smoking an ESTIMENTO cigar. The man who has not tried them has missed a rare treat. They are made from the very finest of tobacco raised in Cuba. The wrapper adds the right flavor to this cigar. You will like it every time and make it your permanent smoke.

Ask your dealer for an

Estemento

Three for Twenty-five Cents

AT OUR OWN DOORS

The problems that beset the workers, striving for the betterment of local conditions in the social and civic scales are often of such a nature that they require the closest attention of men and women, experts in their particular line of endeavor.

Recently, a little band of sociological explorers discovered an odd little district that needed attention, says the Saturday Evening Post.

The first robin of the spring has been seen in Escanaba on a recent date, it is said. With the character of weather the government sky gazer is dishing out today, we are inclined to be lenient with the perpetrator of the "first" robin story.

Quarrel over steak causes petition for divorce in Chicago. The trouble in most families is to get the steak—Hillsdale Daily.

If Eugenics is to produce the perfect baby, every mother believes that her middle name is Eugenics—Jackson Patriot.

The way to solve the vexed question of taxation is for the assessor to list every man at his own valuation of himself—Saginaw News.

Chicago has instituted what the papers call a "court of broken hearts." Mayor Harrison has a place to take his troubles to—Manistee News-Advertiser.

VOCATIONAL SCHOOLS

The action of the Escanaba school board on Tuesday evening in making the decision to bond the city for funds to provide the erection of a manual training school, is striking the real note of advancement.

are graduated from educational institutions with little, if any preparation for work of any sort that could bring them a living revenue, or even assist in their support.

This, of course is not true of all cities, but it is true of those communities in which the schools are not equipped for vocational teaching, or for the preparation of the young ideas in manual arts.

Escanaba will welcome the addition to her school system, of a manual training institution, and it is believed that one of the big drags against increased numbers of students will be entirely removed in the acquisition.

Citizens of the community, and especially those who have the franchise; into whose hands the matter finally rests, should give the proposition their closest attention, and then on April 6, vote YES to give the city that manual training school.

The Mining Journal, in an editorial, yesterday, comments on the recent situation in Escanaba, brought about by the account, The Journal suggests that a school of instruction be held preceding elections in order to insure that officials be properly instructed in their duties.

It is certainly true, as intimated in the Journal, that the votes of many men would be saved to them, by properly instructed officials of elections. That recount has probably taught a considerable number of Escanaba voters a lesson that they will not soon forget, and it is believed that in another election there will be less ignorance of the laws displayed than was revealed at the primaries.

That municipal ownership of water works is the proper method of handling a city's drinking sources, is made clear in the statement just issued by the Negaunee department. The water plant in that city has received \$9,000 more than it disbursed. That surely is as good an argument as any towards the acquiring of the water supply by the city.

The first robin of the spring has been seen in Escanaba on a recent date, it is said. With the character of weather the government sky gazer is dishing out today, we are inclined to be lenient with the perpetrator of the "first" robin story.

Probably it will be dreadfully long some without a congress for the first time in two years—Flint Journal.

Quarrel over steak causes petition for divorce in Chicago. The trouble in most families is to get the steak—Hillsdale Daily.

If Eugenics is to produce the perfect baby, every mother believes that her middle name is Eugenics—Jackson Patriot.

The way to solve the vexed question of taxation is for the assessor to list every man at his own valuation of himself—Saginaw News.

Chicago has instituted what the papers call a "court of broken hearts." Mayor Harrison has a place to take his troubles to—Manistee News-Advertiser.

Escanaba, has a well organized committee of women, who are planning work along this line, of sociological endeavor. Their program, expressed to the public through the columns of the press, is comprehensive; it carries the promise of being able to do some real good for Escanaba and her citizens.

"GETS-IT" a Sure Shot for All Corns

Use Two Drops - and They Vanish. When corns make you almost die with your boots on, when you try to walk on the edge of your shoes to try to get away from your corns, you're way behind time if you have not used "GETS-IT." It's the...

INTERESTING ARTICLES IN CURRENT MAGAZINES AT CARNEGIE LIBRARY

LIBRARIAN PREPARES LIST OF ARTICLES ON LIVE AND INTERESTING TOPICS, FOUND IN THE MONTH'S MAGAZINES ON FILE.

The Panama-Pacific Exposition is again turning the attention of people in this country to that stupendous undertaking, the building of the Panama Canal. Beginning in the March number of Scribner's Magazine is a series of articles on the building of the canal, written by Colonel Goethals, the man who spent \$400,000,000 to build this greatest wonder of the age.

Peace Treaty Review. Oswald Garrison Villard has an excellent article in this month's North American Review on "The United States and the Peace Treaty." Mr. Villard discusses, in a very sane manner, the attitude of the United States and the various countries at war, towards Peace, and shows the magnificent opportunity which the United States now has, of leading the way towards universal and permanent peace.

The World's Work has published some very enlightening articles on the European war during the last few months, and this month one of the leading articles is "The War on the Eastern Front," telling how Germany, deadlocked in France and Belgium, has striven for a mighty decision in the eastern theatre of the war.

"When John Muir climbed his last trail and passed over the Great Divide into the undiscovered country a wonderful man was lost to the world." Those who are acquainted with his delightful book, "Our National Parks," and that classic, "The Mountains of California," and his charming little story, "Stuckee," and have followed the story of one of the most interesting characters that ever was in or out of a book, in his "My Boyhood and Youth," will take much pleasure in an article in Country Life in America for March, written by Bailey Millard.

Pen Picture of the Kaiser. In this first installment of "Cabages and Kings," in the March Century Magazine, H. R. H., the Infanta Eulalia of Spain gives a delightfully personal picture of the Kaiser Wilhelm, showing the attractive, human side as well as the imperial; his attention to detail, and his dominant belief that he is an instrument in the hands of the Almighty, divinely appointed to reign; and she does not forget to describe life at the German Court, with its inexorable rules of etiquette. She says, "The etiquette at Versailles in the time of Louis XVI could hardly be more exasperating to a modern woman than that of Berlin in the twentieth century."

Ida M. Tarbell is writing a new series of articles on business for the "American." The first article in this new series called, "Experiments in Justice," discusses compensation of workmen. She advocates paying employees for the quality and quantity of their work and also for that intangible service, which the workman who stays by a business for a long period of time, certainly contributes to the building up of the good will of the business.

These magazines are to be found in the reading room of the public library and the library is a good place to spend a leisure hour reading some of these interesting articles.

DREAMS HE'S ROBBED; TRUE

Wakes Up to Find Fifty \$20 Gold Pieces Gone From Fruit Jar Sets. Horie, Ark.—A. A. Henry, aged fifty-five, who makes his living by doing odd jobs about town, had saved up fifty \$20 gold pieces. For safe keeping he placed them in a fruit jar and buried the jar. One night he dreamed that the hiding place of his money had been discovered and that it had been stolen. Next morning he found that his dream had come true. The money and jar were gone. Henry says that his dream had a snow-capped man...

MAINS PROVED TO BE GRAVE FOR BODY OF ZAPATISTA TROOPS

(By Associated Press.) Mexico City, Feb. 26.—(Correspondence)—Two hundred men of General Obregon's command were drowned in the water main leading out to the suburban sources of Mexico City's water supply in a recent attempt to get to the rear of the Zapatista forces. When the Zapatistas were compelled to evacuate the capital a few weeks ago, they retired to the suburb of Xochimilco and seized the sources of the city's water supply, making the capital dependent on artesian wells and a small reservoir in a park near Chapultepec Castle. The unflushed sewers, due to the fact that a scarcity of water made it unwise to use it for anything than drinking purposes, seriously menaced the health of the city. General Obregon made many attempts to recapture the main sources of the water supply in the old Indian town of Xochimilco, but all of them were repulsed by Zapata's men. A daring raid was finally decided upon, for which General Obregon detached 200 of his men. He ordered them to drop into the mains which had long been dry, and to attempt to travel through them to an opening at the rear of Zapata's main position. A spy informed the latter general of the ruse and after the men had been allowed to travel some distance in the mains, the full force of the water was turned on, drowning the invading force to a man.

BELGIAN TOWN TO NAME STREETS IN HONOR OF AMERICA

MUNICIPAL AUTHORITIES OF LOUVAIN, CITY PARTLY DESTROYED BY GERMAN SHELLS AT START OF WAR, MAY NAME STREETS FOR AMERICA. London, March 11.—The decision of the municipal authorities at Louvain, Belgium, to give American names to certain streets of the city, is set forth in a formal resolution of thanks which was adopted on Washington's birthday by the burgomaster and aldermen of Louvain and sent to the American commission for relief in Belgium. The resolution concludes: "In order to perpetuate to future generations our ardent gratitude, we have decided this day that in the new parts of the city, as they arise out of the ruins, three streets or squares shall receive the illustrious names of President Wilson, Washington and American Nation."

National Roller Skating League. Plans are under way to form a national roller skating circuit made up of Pittsburgh, Charleston, W. Va.; Cincinnati, Detroit, Chicago and Milwaukee. It is proposed to hold one week's racing in each city.

Browns Turn Four Back. The St. Louis Browns have turned over four players to the Atlanta club. They are Catchers Bill Romler, Joe Jenkins and A. Jarosik and infielder Tim Bowles.

DRINK MORE WATER IF KIDNEYS BOTHER

Eat Less Meat and take Salts for Back ache or Bladder trouble—Neutralizes acids. Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Drugists have say they will look at Jad Salts as better who believe in overworking kidney trouble while it is only trouble.

DRINK, CIGAR OR \$50,000 HIS CHOICE

Watertown, N. Y.—On the condition that Charles Gordon Emery II neither drinks nor smokes until he is thirty years old he will receive \$50,000 from the estate of his grandfather, Charles G. Emery, whose will was filed for probate here. Mr. Emery, a tobacco man, spent much of his time at his home on Calumet Island, in the St. Lawrence, near here. The estate is estimated at \$4,000,000. A majority is left in trust to relatives. Two servants, Pauline and Nashville Wanner of New York city, each receive \$4,000. Frank W. Emery, son, receives \$250,000 in trust, and similar amounts in trust are given to the two daughters of Mr. Emery. A nephew, William Francis Emery, received \$20,000 in trust, and a niece, Mabel Tracy Emery, receives \$10,000. At the termination of the trusts the estate is to be divided among the three children or their survivors. The sum of \$1,000,000 is left in trust to keep and maintain the St. Lawrence property. A large amount of the estate consists of oil producing ranches in the West.

Must Not Drink or Smoke to Get \$50,000.

When Car Conductor Starts to Enforce His Command He Joins Passengers in Laugh.

Indianapolis.—Car No. 907 on the East Washington street line was crowded to the doors, as usual, recently. It looked as if half the passengers were standing. But when the conductor looked back over the heads of the jammed-in crowd and saw one man's head far above the others he recalled that passengers are not permitted to stand on the seats and he decided that the man must get down. "Hey, you, get down off that seat!" the conductor yelled.

"Hey, you, I told you to get down off that seat," came again from the conductor. The passenger paid no more attention to the second order than he did to the first one. "I'll make that guy get down," the conductor said, and he started through the crowd toward the rear of the car. But the passenger did not get down from the seat. He was 6 feet 7 1/2 inches tall and his head was far above the rest of the crowd. The crowd laughed. So did the conductor.

Sunbury, Pa.—When more than twenty residents of Shamokin, attending court here, procured passes and went to visit the Northumberland county jail, William Neary, the turnkey, took them in a cell room, and, according to custom, locked them in. When they were ready to get out the turnkey found that his big key had broken off in the lock. For hours local locksmiths tried to release the unwilling prisoners; but their skill was unequal to the resistance of the clogged mechanism. At night Warden Wallace W. Barr passed their suppers between the bars, and then telephoned to Philadelphia for an expert, who opened the door the next morning.

Denver, Colo.—Two companies of firemen were called out to rescue W. A. Tracy from a five-inch ledge striking the seventh story of a downtown hotel. Tracy, who, according to the police, was crazed with drugs, had climbed out of a window and crawled about sixty feet along the ledge when discovered. While firemen were attempting to rescue Tracy with ladders, a member of another department hoisted him from a nearby window and dragged him to safety.

Northwestern Cigar Co. Makers of the La Propina. This is a home made cigar that makes a man risk burning his lips to get the last whiff. That's the kind of cigars we are making. The LaPropina is a pretty smoker; good shape, tempting looking, and well made of the cleanest, brightest and best tobacco that we can buy. Let us introduce it to you free of cost. You are missing a good smoke if you forget about the LaPropina. Northwestern Cigar Co.

LaGranda Cigar Factory. Carlson & Boucher, Proprs. 1518 Hartnett Ave. From a crop of tobacco as fine as any grown in the world, the tobacco is especially blended so as to form a most delicate and delicious smoke. The cigars are hand made in a clean up-to-date factory, by union workmen who are paid the highest scale of wages. LaGranda Big Moose Little Moose. Try a few and let us have your honest opinion.

The Cloverland Cigar and Tobacco Company. TOLAN BROTHERS. The reason why we are gaining trade every day is not hard to understand—our cigars have stood the test. Our stock is kept perfectly—our method of doing business is right and we only ask that you give a chance to make friends with you. Will you become one of our regular satisfied customers?

BOOST OF BREAD GIVEN BOOST IN SWITZERLAND ACCOUNT OF THE WAR

LITTLE MOUNTAIN COMMUNITY
FACES A SERIOUS CONDITION,
DUE TO THE WAR SITUATION—
DEPENDS UPON AMERICA FOR
HER WHEAT SUPPLY.

(By Associated Press.)

Geneva, Feb. 28.—(Correspondence)—The price of bread has increased 25 to 30 per cent in Switzerland in three weeks, while the size and quality of the loaves have diminished. Shippers will not take the risk of sending wheat down the Rhine to Basel as Germany has not given out a definite statement concerning the traffic on the Rhine. Southern Russia supplied most of the grain to Switzerland and this country now depends upon America for grain through Genoa and Marseilles, but these two ports are congested with goods and the former is temporarily closed. The Swiss mills cannot fill their orders and in Geneva alone fourteen bakers closed their shops within the last two days.

Switzerland is "supporting" a population of foreign nationalities numbering well over a million. Germany has practically closed her southern frontier against this country, involving much hardship on the inhabitants of both countries in the neutral zone. Passports costing six marks are now necessary to cross the German frontier for workmen. The milkmen at Kreuzlingen who carry milk, butter and cakes to the Germans daily, struck and were supplied with passes. Navigation on Lake Constance, which is patrolled by German boats, is practically at a standstill and no boat is allowed near the Zeppelin works at Friedrichshafen or off the shore. A new German order states that any boat approaching Friedrichshafen will be fired upon and that all Swiss fishermen must fly the Swiss flag in the future.

When is Dollar Day? Soon.

PATRONS OF TELEGRAPH COMPANY CAN NOW TELL WHEN MESSAGE IS SENT

An innovation, in effect at the offices of the Western Union telegraph company, the whole country over, now gives the patrons of the service an opportunity to know just when their messages were sent. This has been brought about by the dating of a telegram at both sending and receiving offices, with the month day and hour printed on the usual noncommittal date line. Heretofore the recipient of a telegram had no means of telling when the message was sent, unless he made inquiries at the office. Now the telegram is self explanatory in this regard.

STONINGTON NOTES

George Lorensen of Stonington has bought a nice new three year old pony and a nice spring cutter. The girls now certainly enjoy themselves when Mr. Lorensen takes them out for a ride.

Peder Hanson and Miss Anna Bonfeld, both from Stonington, were married last Saturday by Rev. Dahlager in the Norwegian Danish Lutheran church. They had their wedding at the bride's home, where a number of friends spent the evening.

Mr. and Mrs. Emil Leadman of this place have moved to their farm. They are now resting up after a long winter's hard work. Mrs. Leadman is very much interested in farming, so they are ready to have their garden seeded sometime next week if the weather continues warm.

SECTION THIRTEEN

Miss Anna Shannon went down to Spaulding Friday night to spend Saturday and Sunday with her parents.

Mr. and Mrs. Richard Barcom of Hardwood came up and spent Sunday with Mr. and Mrs. John Liszats.

Joyce Lynwood and David Turpin went to Whitney on business Sunday.

Wm. Rasmussen of Section 12 was a caller in our town Sunday. He was accompanied by his sister, Christine.

James E. King, who has been on the sick list for the last six weeks, has left for Marinette, where he will remain with his son William, until able to return to work.

Frank Varino spent Sunday with his wife and family at Escanaba.

Joseph Beauchamp of La Branche, spent Sunday here with his wife and family.

Joseph Briski, who has been ill for the past nine months came home yesterday from the hospital at Escanaba.

Mr. and Mrs. Victor Gosenaki of South Milwaukee who purchased the Slomski farm, has moved onto the place.

CHRISTIANS IN NORTHWESTERN PERSIA

Continued from page one. The Kurds and the need of flight. Rev. J. D. Barnard, a missionary of the Archbishop of Canterbury's Mission of the Church of England, who left Urumia with the refugees in view of the approach of the Turkish troops, writes:

"Practically the entire Christian population of the Urumia Plain and neighboring districts were in flight as we left. As far as the eye could reach in both directions was a constant stream of refugees, sometimes so dense that the road was blocked. It was a dreadful sight, and oh I never want to see again. Many old people and children died on the way."

Flee to Russia City. Most of the refugees who fled to Russia made their way to the city of Tiflis. The long journey of the thousands of fleeing people was made from Urumia in the depth of winter with no provision for the journey, afoot through snow and rain and cold. One of the refugees, John Mooslie, a naturalized American citizen and superintendent of the Day Schools in the Urumia Plain, writes from Tiflis:

"During the ten days' journey we have witnessed a long chain of men, women and children from Urumia to Djouka, most of them walking in cold and mud, without food or shelter. We have seen many women and children dead on the way, as they could not endure cold and fatigue. The Christian inhabitants of Tabriz and Salmas have left, except those in Tabriz who are protected by the American consul."

From Tabriz, Rev. Frederick N. Jessup writes:

"Everyone is seeking shelter with us, French, Belgium, Swede, Austrian, German, Turkish, Armenian and even Moslems. The Armenians are in great terror and everyone dreads the Kurds and their coming. We have been advised by our consul to withdraw from our other properties and to concentrate here in the school compound. We have permission to receive Europeans and our own people among the natives. For two days refugees have been coming in. All our school buildings are given over to them. All benches have been taken out and peo-

Opening of the Escanaba Health Institute

To the people of Escanaba and Upper Peninsula we extend a cordial invitation to attend our opening,

Wednesday, March 17, 605 Ludington St.

(OVER THE ESCANABA NATIONAL BANK)

The institute possesses every equipment for treating diseases by physical methods in harmony with the teachings of modern medical science. Here all forms of Physical Therapy are gathered together and brought into harmonious working order, and, it is: When thus combined and intelligently utilized that modern physical methods constitute such powerful recuperative measures and the most reliable curative system known to the present day.

Departments

Hydrotherapy or All forms of water treatment, douches, sprays, showers.
Phototherapy or Electric Baths.
Thermotherapy or Steam and Vapor Baths.
Mechanotherapy or Mechanical Swedish movements and massage.
Balmotherapy or Medicated Baths of all kinds.
Electro therapy or Immersion Baths with Electricity.
Massotherapy or General Massage.
General hygiene and Special Systemic Training or The Institute will give individual attention to all matters of personal hygiene pertaining to the patient's welfare.

Our Electrical department is exceptionally well-equipped, afforded facilities for every form of electrical treatment, our up-to-date electric cabinet will be utilized for the popular and well-known Turkish and Russian Baths. Our facilities for rest and cooling following all treatments are ideal, private rooms with key are provided and private dressing rooms offer a luxury very enjoyable, to our patrons. The Institute possesses its own water-heating and steam regulating plant. Our attendants are thoroughly trained in the administration of therapeutic procedures as well as being experts on massage and Swedish movements.

Courses of Treatment

We are prepared to pay particular attention to arranging special courses for teachers, professional and business men and others whose time is limited, but who so sorely need just such help as the institute affords, they will find in the treatments of the Institute, just what they require to build them up, and tone up the system, for we shall provide every therapeutic advantage and water treatment that can be obtained at any Sanitarium or Health Resort.

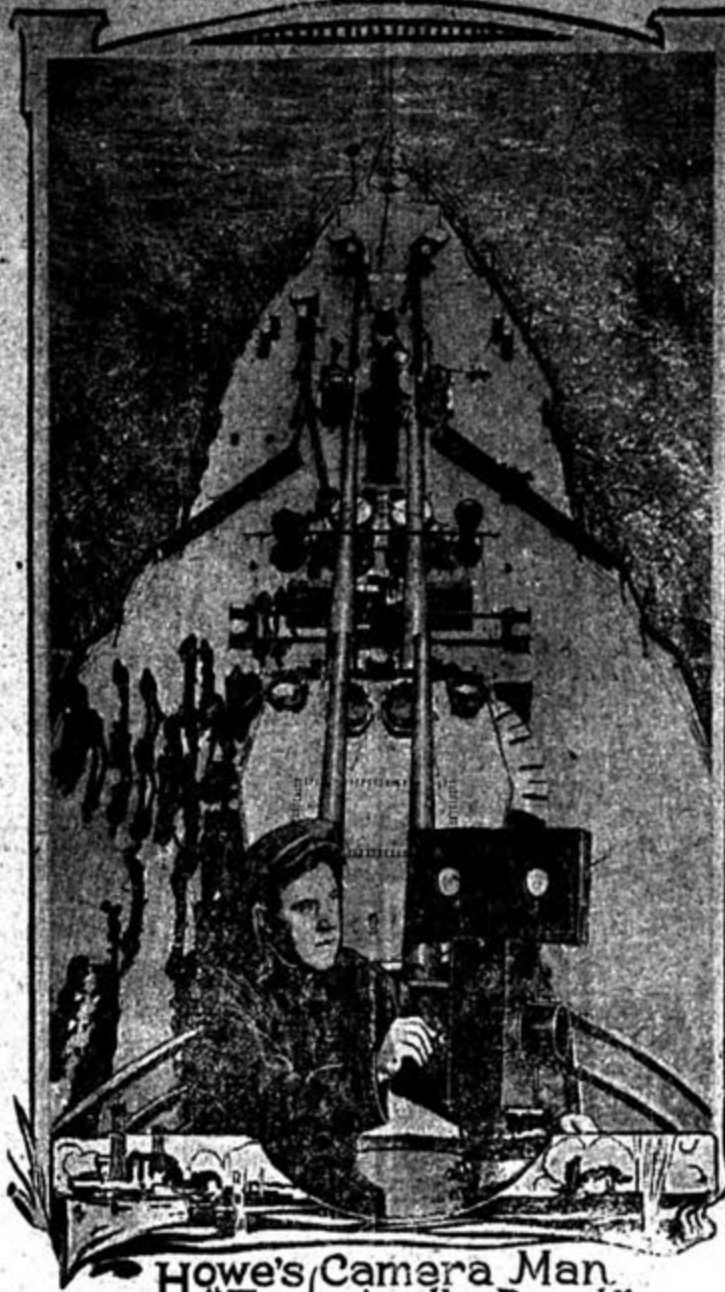

Equipment and Attendants

At a great expense—Time—and energy the Institute has been especially fitted up and completely equipped for the specific purposes to which it is devoted. The hydrotherapeutic department is perfect in all of its appointments, including the new and improved type of CONTROL TABLE for the accurate control and expert administration of all forms of douches, sprays, showers, etc.

P. J. Flanagan, Director **Nicholas Pavlow, Associate Director**

NOTE—Physicians may send their patients to the Institute for treatments under their personal supervision and in accordance with their own orders.

Flickerings From Film Land

Howe's Camera Man
"Technically Dead"

TECHNICALLY "DEAD" waters a few months ago. "Say you're dead up there!" was the message that floated from the captain's bridge of the battleship Wyoming to Lyman H. Howe's camera man perched high on the main mast of the flagship during the battle maneuvers of the Atlantic fleet in Mexican.

local people to the Army hall this evening at eight o'clock. A number of new additions to the Army staff will also be made at this time.

DOCTORS TAKE TUMOR FROM THROAT—ALMOST; PATIENT SWALLOWS IT

LOCAL MAN SUFFERS FROM THROAT AFFECTION—SUBMITS TO OPERATION—GROWTH SLIPS FROM INSTRUMENTS.

Some queer things have happened in the realm of medicine and surgery, but one of the queerest and at the same time one of the most unpleasant of propositions has happened to an Escanaba man.

For years, Joseph M. Nehls has been afflicted with what he believed was bronchial trouble; the tubes of his breathing apparatus seemed to be constantly plugged up. He sought relief from many sources, spending thousands of dollars in the effort to cure himself. Recently he went to the Mayo Brothers hospital in Rochester, Minn., and here submitted to an operation.

These surgeons removed a tumorous growth (that is, nearly) from the throat of Mr. Nehls. The instruments used in the operation were being with drawn, grasping the growth in the end, when for some cause, which Mr. Nehls makes no attempt to explain, the growth slipped from the instruments and slid back into the throat choking the patient, until he was forced, in self defense, to swallow it. However, he has suffered no ill results from the event and today says he can talk and sing with the best of them. He previously was forced to talk in a whisper.

LOCAL BOWLER ROLLS BIG SCORE YESTERDAY

In a spectacular performance at the Olmsted alleys yesterday afternoon, Earl Taylor, local pin smasher, par excellence, hung up a high score that will in all probability stand at the top of such performances in the city. Taylor rolled a score of 223. In the series in which the figure was hung up he ran strike after strike, finally spilling a three hundred score by a split in the last frame.

The final game in the city bowling league is slated for Friday evening at which time the Indians and the Wisconsin Nationals, both sharing the top rung of the championship ladder will fight it out for the cup.

"A GENTLEMAN OF ART" AT THE BIJOU TONIGHT

Two features of genuine interest are slated for this evening at the Bijou in "A Gentleman of Art," a story of a girl and a man, who are the central figures in a little drama of real life, and "The Governor Maker," a film embracing political features of interest, "Money," that great film of capital and labor, in one of its greatest phases is the offering that will be shown at the Bijou as the regular Friday feature.

"TYPHOON AT THE DELFT"

The attraction at the Delft theatre for this evening is the spectacular production in five parts, "The Typhoon." The story is one of the sort that fixes the attention on it from the initial reel and never allows it

Scene from "The Typhoon" at the Delft tonight

to waver for a second. Staged in the setting of the orient and with many of its characters being of the slant eyed Jap nationality a greater touch of interest is added. There is a love story, too that is as engrossing as any real event of similar nature.

SIX PART FEATURE AT THE ROYAL AND GRAND

"The Girl I Left Behind Me," is the title of a six part feature that will comprise the bill to be shown at the Royal and Grand theatres this evening. Francis X. Bushman will appear in a two part feature "Every Inch a King."

REFUSES PRESIDENCY; WILL ELECT ANOTHER

Womens' Club Head Declines to Act—Considering Nomination
Mrs. C. E. Andrews, yesterday elected to the head of the local Womens' Club to succeed herself, shortly after the nomination and election had been unanimously confirmed by the club members, declined emphatically to serve further in that capacity. The refusal came following the regular election and was too late for The Mirror to carry an account of it. The remainder of the ticket, however, remains as published emphatically in The

Mirror, yesterday.

A special business meeting of the organization will be held in the near future at which nominations for the presidency, made yesterday, will be voted upon and a choice to fill the vacant office made.

When is Dollar Day? Soon.

PUBLICITY IN THE CLASSIFIED COLUMNS serves the man who wants to sell his "used car" as effectively as he serves the man who wants to sell his "used coat."

Greyhounds belong to one of the oldest known types of dog.

There are five persons to each house on an average in Ireland.

'HOOKEY VIC' MUST LEAVE CITY

(Continued from Page One.)

"He is a character that is not desired in this community and I have made it clear to him that if he is not out of the county inside of the next five days, he will be brought before a justice and will be held to the circuit court on a charge that will keep him out of mischief for some time to come," added the prosecutor.

Enticed Children

Perrow, according to information given out by the police and the prosecutor, offered inducements to get small boys and girls into his place. While there he is said to have plied them with booze and done other things that are against all semblance of law. He was driven from the bay shore shack, some time ago, state officers, and since has run a store of small size on Sarah street, where, in a measure, the same thing has occurred.

Recently, such flagrant and open abuses have been reported that the

local police department took the situation in hand and with the aid of the Womens' Club of the city rounded up enough evidence to give them a lever with which to work. Today, members of the police department and Prosecutor Rushton called the man before them and read to him something that he was never faced with before in his career.

Must Get Out of City

The interests of the man, bound up in the store on Sarah street must be gotten rid of within the next five days, and he himself must be out of the city and away from the confines of the county. If this is not done in the time limit specified, a serious statutory charge will be brought against him. He will then have to await trial at the July term of court.

Officers of the city and county are determined that conditions of this sort, wherever found or reported, be cleaned out and the individuals responsible for them placed where they will be unable to exert such an influence.

The arrest of "Hookey Vic" and the

subsequent revelations, made today speak in a glowing manner for the work that the Womens' club, working in harmony with the police chief and his department, are doing, little of which, in the ordinary channel of things, gets to the surface where the public can see it.

MASONIC CELEBRATION PROGRAM ANNOUNCED

Past Masters' Banquet Monday, March 22—Dedication, March 23

Announcement of the program for the two days celebration under the auspices of the Escanaba Masonic order, is made today.

Monday, March 22, the Past Masters' banquet will be held in the newly remodeled temple, at which time the following program will be presented:

Invocation, Rev. C. L. Randall; selection by male quartette, Messrs. Price, Johnson, Frost and Lint; violin solo, Miss Ethel Dewey, accompanied by Miss Clio Dewey; address, "Our New Temple," W. R. Smith; Temple Building, Rev. Guy V. Hoard; selection, quartette.

The dedicatory services will be held Tuesday evening at 7:30 o'clock in the evening at which time all Masons and families are expected to be present. At nine o'clock a reception will be held in the lodge room, tendered by Delta Lodge to officers of the Grand Lodge of the state. Dancing will close the event, starting at 10:15 o'clock.

PROMINENT SWEDISH SALVATIONIST WILL SPEAK IN ESCANABA

Col Nelson, of Chicago, Will be Here This Evening

According to announcements made yesterday, Col. Carl Nelson, of the Swedish branch of the Salvation Army an officer whose work and ability is recognized the whole length and breadth of the United States, will be in the city this evening for an address at the headquarters of the Swedish Salvationists at 239 Stephenson street. Col. Nelson is one of the ablest speakers of the Swedish branch of the Army and his appearance here is expected to draw a large number of
