SINGLE COPIES, FIVE CENTS

KENTUCKY CONVICTS STILL HOLD PRISON

RING OF DEATH SURROUNDS THE THREE CONVICTS

Warden Worries About Food for the Other Prisoners.

Barricaded Building in Which Murderers Are Contains Most of Prison Food Supply.

Eddyville, Ky., Oct. 4.—V. B. Mattingly, one of the prison guards who was wounded by Monte Walters and his companions, in a dash for liberty from the prison yesterday, died of his wounds in the prison hospital today. Mattingly lay in the dining hall all day yesterday crying for water after he had been shot, but fellow guards and armed vigilantes were unable to aid him. He was later carried to safety by a convict trusty.

This morning's sun swung up over the hills to light the scene of a tense drama, the successive acts of which will be unfolded today on the strangest stage that has ever been cast by destiny to play upon in Kentucky.

Hold All Food Supplies. Hemmed in by the grim, gray stone walls of the prison area of the Western Kentucky state prison, three convict murderers who yesterday killed one guard and wounded three others, one probably fatally in an attempt to shoot their way to freedom, were barricaded in a two-story brick dining room building, the central structure of the prison plant.

The convicts apparently were conserving their ammunition for their automatic pistols—and waiting.

Ring of Death. From behind the walls of the improvised fortress, the convicts faced a ring of death. Stationed at vantage points about the barricaded building were prison guards, members of Troop C of the National Guard machine gun company, of Hopkinsville, and citizen marksmen from the neighboring countryside.

The trim barrels of two machine guns were trained upon the building ready to sweep a withering stream of bullets in case of an attempted sortie. Prison authorities and national guard officers were expected to initiate today an active campaign to dislodge the convicts.

Hold Out at Noon. At noon today, thirty hours after the three murderers had attempted to shoot their way to freedom, they were still holding the Kentucky armed forces at bay, while the warden, national guards and state officials are holding conferences determining on the most logical plan to dislodge the barricaded gunmen, with the least loss of life to themselves.

Food Shortage Bothersome. The question will have to be solved pretty soon, was the opinion of the warden for all of the food supplies for the 600 or more prisoners, in the building occupied by the convicts. Hunger for the other prisoners may become a serious menace. A small amount of food was obtainable and rush orders have been sent to nearby towns, but as the convicts have possession of the dining hall and kitchen, it will be hard to feed the remaining prisoners, with the facilities at command of the prison forces. While the prisoners are hoarding for bread, there are more than 1,000 loaves in the barricaded building.

All other prisoners have been locked in their cells and are being fed there by prison guards in groups of twos and threes. All last night and all day today sharpshooters have been watching the building in hopes that the men inside might show their faces at one of the windows.

Boy Falls From Dock But Saved By Onlookers

Arthur Rousseau, the 12-year-old son of Mrs. Anna Rousseau, fell off the Hansen & Jensen dock this morning and might have been drowned if the accident had not been seen by some of the men working about the dock. He was pulled out of the water and outside of a severe chill was none the worse for the accident.

Eleven Bodies Taken from Wyoming Wreck

CASPER, Wyo., Oct. 4.—The body of W. E. Hendricks, railway mail clerk, was recovered from the Coleridge wreck early today. It was dug from the mail compartment of the combination car. This was the eleventh body recovered. The sands of the creek yesterday gave up the bodies of five persons who lost their lives when the train crashed through a bridge. Four of them were men and the other a woman.

FIRST LYCEUM NUMBER COMES NEXT MONDAY

Russian Cathedral Quartette Said to Be the Finest on the Road Will Open Course.

The Russian Cathedral Quartet, which comes here as the first number on the Lyceum Course, Monday night, October 8th, at the High School auditorium, will afford a notable opportunity for local Lyceum patrons to hear the music of Russia interpreted by native Russian singers.

Russian music has been given much prominence in America and Europe during the last few years, and its influence is being widely felt. The program of this quartet includes some of the finest examples of the song literature of Russia. Chants, folk songs and operatic selections are sung in the original Russian.

There are few more impressive spectacles on the concert stage than the quartet's rendition of "The Cherubim Hymn" from the oratorio "The Resurrection" of the Greek Orthodox church. This chant, famous in the cathedrals of Russia, is presented by the singers in cathedral robes more than one hundred years old.

A number of Russian peasant songs are also presented in the native folk attire of the peasants. These songs, in their striking contrasts, portray the mystic and melancholy spirit of the people which pervades their traditional music, thrown into relief by robust humor.

In addition to the Russian music, well-known American songs are given. "My Old Kentucky Home" is always a favorite, being sung by Mr. Vasiloff, second tenor, against the humming of the other three singers.

GOVERNOR PINCHOT VISITS SALOONS IN PHILADELPHIA

Wanted Personal Information as to How They Were Obeying His Recently Given Orders.

(By the Associated Press.) PHILADELPHIA, Pa., Oct. 4.—Governor Pinchot, early today personally observed the open defiance by Philadelphia saloons of his order to cease business under threat of being dealt with according to the "padlock" section of the prohibition laws. Last Tuesday the governor and the federal department of justice issued a joint order notifying the 1300 or more local saloons and cafes to close up and dismantle their places within twenty-four hours. A large force of government agents and state police who served the notices on the proprietors completed their work late last night. Shortly thereafter Governor Pinchot made the rounds to see for himself whether the order was being obeyed. He visited half a dozen or more places and found them all doing a flourishing business. The governor made no attempt to make a purchase.

MENOMINEE IS PLANNING CARE FOR THOUSAND

Expect That Many at Educational Convention Next Week.

Great Talent Has Been Engaged and the Public Will Be Invited to Attend Some Lectures.

One of the biggest conventions ever held in Menominee will be the meeting of the Upper Peninsula Educational Association and Teachers' Institute, which meets there Thursday and Friday, Oct. 11 and 12. The membership of this association in the Upper Peninsula is approximately 1500 and at least 1000 are expected to attend the meeting in Menominee next week.

This big gathering of teachers is being planned to worry the local committee as to the possibility of providing sleeping accommodations and private homes which have spare rooms or can arrange to get a spare room ready are urged to co-operate with the committee to see that the visitors are cared for. Places to eat can be more easily provided in hotels and restaurants. The teachers will come prepared to pay from 75 cents to one dollar per person for lodging, so those who can accommodate them will receive enough compensation for the trouble.

Public Invited. From an educational point of view the meeting will be of great importance, and the public will be invited to many of the sessions, most of which will be held in the Menominee theatre.

Prominent among the array of talent that will participate in the program is Dr. Ernest Horn, professor of education of the University of Iowa, who will address several meetings during the institute. Dr. M. S. Pitman, one of the greatest authorities on rural education, of the Michigan State Normal school, Ypsilanti, is also coming. Dr. Elbert K. Fretwell, of Columbia University will discuss education in citizenship and there are a number of other features on the program too numerous to mention.

The general meeting at the Menominee theatre on Thursday night, Oct. 11, will feature a musical program of rare artistic merit. This will include an instrumental trio by Elizabeth Herschfeld, piano; Otto Vieth, cello, and Frank Karas, violin; vocal solos by Mrs. Estelle Vermet; baritone solos by Emory H. James, and a vocal solo by Miss Lorraine Volaw, of the Bush Conservatory of Music, Chicago; Mrs. James Hamilton will be accompanist. The general public will be interested in this program which will also include an address on "Education in Citizenship" by Dr. Elbert K. Fretwell.

Themes for Discussion. The discussions at the two-day session will embrace grammar school, rural schools, agricultural training, teaching of music in the schools, history, home economics, manual training and industrial arts, commercial training, physical education and art.

The committee on local arrangements are, R. D. West, Martin N. D. Minne and Miss Frances T. Radford.

STOP POWDERING NOSES OF QUIT SCHOOL, ULTIMAUM

TROY, N. Y., Oct. 4.—North Troy high school girls must stop powdering their noses and leave their vanity cases home, or leave school. This solemn warning was issued by Neil K. White, superintendent of schools. All vanity cases brought to school will be confiscated. The girls cannot have their minds on their complexion and studies at the same time, White said.

GASOLINE CUT TO 149 CENTS IN MINNEAPOLIS AND ST. PAUL

MINNEAPOLIS, Minn., Oct. 4.—Independent gasoline distributors of the Twin Cities yesterday met a cut of 2 cents to 149 cents a gallon made by the Standard Oil the night before, giving Minneapolis and St. Paul autoists the cheapest gas they have enjoyed for fourteen years. It was 23.5 last August 15, before the first big slash.

CHECKING UP DAMAGE.

SAN DIEGO, Cal., Oct. 4.—Detailed estimates and descriptions of the damage done to the ships of the 11 squadron when they went on the rocks off the California coast on Sept. 28, were expected to consume most of today's session of the naval court of inquiry investigating the disaster.

Men Are Drowned When Boat Sinks

DETROIT, Oct. 4.—Three men are believed to have been drowned in the heavy sea which was running in the river last night when the launch they were in was burned. The craft was sighted from the shore at 9 o'clock and rescue boats put out but before they could reach the launch, however, it turned over and went to the bottom.

'MAN-WOMAN' IS FREED BY JURY

Thompson Held Not Guilty of Murder of Insurance Man.

CHICAGO, Oct. 4.—Fred Thompson, who admitted being the husband of one woman while he lived as the wife of another man, was found not guilty of the murder of Richard Tesmer, insurance adjuster shot in a hold-up, by a jury here yesterday, the verdict being returned after approximately two hours of deliberation.

Thompson's attorney had stressed what he claimed was the feminine personality in Thompson and Judge Caverly at several times spoke of the prisoner as "lady."

Thompson, taking the stand in his own defense near the close of the defense's presentation of evidence, broke down and sobbed like a woman, declaring he "couldn't kill a cat."

The defendant had been arrested by police on a tip that man dressing as a woman was seen going in and out of the apartment of Frank Carrick. This tip came shortly after the fatal shooting of Tesmer at the hands of a "smiling woman handi" who, with a male companion, held up Tesmer and his wife as they drove up to their garage one night.

Mrs. Tesmer said she would not forget the smile of the woman and when Thompson, dressed as a woman, was taken before her, she screamed, "That's the one!" During the trial she took the stand and testified Thompson was the one who shot her husband.

Thompson said he had dressed as a boy during childhood but "felt easier" in girl's clothes and when he later came to Chicago assumed woman's attire. He married Frank Carrick at Crown Point, Ind., in 1912 and then later married Marie Clark because he sympathized with her and "didn't want her to go wrong."

Thompson's first wish after learning the verdict was for new dresses.

HEADLESS MURDER MYSTERY Baffles POLICE OFFICERS

Head Has Been Recovered Where It Was Buried in Sand-Near Scene of Crime.

PITTSBURGH, Pa., Oct. 4.—Investigation of Pittsburgh's "headless" murder mystery today centered around the identity of three girls, a snapshot of whom was discovered in the clothing of the torso of the white man when it was discovered yesterday in the girls' dressing room at a bathing resort on the river.

A trail of blood followed by a group of boys took them to a pile of rock 170 feet from the dressing room last night where the man's head was found buried more than a foot deep in the sand. Nearby was found a suit of blood-stained underclothing.

City detectives admitted they were without clues.

BAIRD PRAISES GAME WARDENS FOR GOOD WORK

Many Wolves and other Animals Killed by Men.

Letter Is Received by Deputy Herman Leisner; Report Says Birds Are On Increase.

Deputy Game Warden Herman Leisner has received an advance copy of the Michigan Hunters' news letter, issued by the department of conservation and the bureau of biological survey, co-operating with the United States department of agriculture.

"The excellent service accomplished by many of the deputy game wardens through both peninsulas of the state is highly commendable; especially so when the fact is considered that these deputies have so many other duties besides the killing of predatory animals," John Baird, director of conservation, says. "No prowling enemy of game can long remain a serious menace in Michigan under the combined attack of the two organized forces, state and government hunters and deputy game wardens working in close co-operation as is now the case."

Increase of Birds.

The letter had the following relative to the increase of partridge in the Upper Peninsula: "As one travels throughout the Upper Peninsula and sees the vast number of partridge on every hand, although an unusually great number of those birds were killed during the last hunting season, one is convinced that there is a combination of conditions favorable to the welfare of these wonderful game birds. The great reduction in the over-supply of foxes by the hunters and deputy game wardens is evidently the main reason for the substantial increase in the numbers of partridge. In most sections of the Upper Peninsula deer are also abundant, and it is reasonable to believe that with the conservative hunting policy, as is now enforced, complete eradication of timber wolves and control of coyotes (so far as possible with the present sources of reinfestation) the reserve supply of deer will remain fully up to carrying capacity of available winter range."

July-August Records.

In July the total kill of predatory animals was eighty-seven, consisting of twenty-eight coyotes, six bobcats and fifty-three foxes. In addition 390 porcupines, eighty-nine woodchucks, nineteen weasels, 225 crows, eighty-eight hawks and twenty-three owls were also killed. The warden hunters, all working north of the straits, accounted for twenty-seven of the coyotes, five weasels, nine foxes, 303 porcupines, sixteen woodchucks and six crows and birds of prey. Deputy wardens both north and south of the straits accounted for the remainder of the kill.

During August warden hunters took a total of eighty-nine of the larger predatory animals, consisting of fourteen timber wolves, nine of them being young, thirty-one coyotes, thirty-five foxes and one wildcat. They also accounted for 250 porcupines, eleven woodchucks, four crows, twelve hawks and three horned owls. Deputy game wardens reported killing twenty-one predatory animals, including six coyotes, two wolves and thirteen foxes. Deputies also killed ninety-eight porcupines, forty-five woodchucks, twenty-two weasels, 295 crows, 161 hawks and thirty-five owls, making a total kill of 110 predatory animals, 348 porcupines, fifty-six woodchucks, twenty-two weasels, 212 crows, 113 hawks and thirty-eight owls.

'UP THE LADDER'

William A. Brady's great American comedy success, "Up the Ladder," will be seen at the Delft theatre, Saturday, Oct. 6th, direct from a six months' run at the Central theatre in Chicago. The cast is an exceptionally good one and they interpret the various characters in the story that is so full of homely truth and simple wit, and which moves along so smoothly and true to life that it does not seem to be artificial or unreal. The play is well staged.

Barn Dance Will Be Big Feature at Terrace Gardens

It has been announced that the Terrace Gardens will give its annual barn dance next Saturday night and that this year, the decorations and other preparations will be more elaborate than ever before. Large quantities of farm products will be used in the decoration scheme and lanterns will throw a dim light over the interior of the great dancing pavilion. A great harvest moon will shed a stream of "moonlight" down the center of the floor.

It is planned to make it a real "down east" affair and your farmer clothes will be in order, but you will not be put out of the "barn" even if you have some "store clothes" on.

Walton Hearing Was Postponed

(By the Associated Press) OKLAHOMA, Oct. 4.—Hearing of an injunction action brought by members of the state legislature to prevent the governor and his representatives from interfering with their efforts to hold an impeachment session, set for this morning was postponed until late this afternoon by agreement of counsel.

ESCANABA HIGH IS GETTING SET FOR GLADSTONE

Will Pull Off Big Demonstration Next Friday Night.

"Howling Hundred" Well Organized to Root for Local Men; Parade to End in Bonfire.

Much speculation and comment is being circulated in local football circles as to the outcome of the Escanaba High School-Gladstone football game here next Saturday afternoon. Both teams are said to be well matched not only in weight, but also in players' ability, and the general opinion is that the team which receives the breaks of the game will be the team to win.

Coch Thompson has been giving the Orange and Black eleven a hard week of dummy practice in scrimmaging preparatory to what is thought will be the hardest game of the season. Word from the Up Bay camp brings news of equal preparation.

Local students are planning to back their team for this game as they never have in the past. A parade downtown Friday evening, starting at the library at 7:15 o'clock and ending at a luncheon in the street south of the High School; a "pop" session during school hours Friday afternoon; the organization of the "Howling Hundred," which is practicing some pep yells, are but a few of the plans for the demonstration of some real "pep" next Saturday.

Rivalry is intense. Both sides predict victory. The teams are on edge for a hard fight. Because of all the difference in opinion a record crowd will be on hand when the first whistle calls the two teams together Saturday afternoon.

The student body of the Escanaba High School, in general assembly, had their first general sing of the year, under the direction of Musical Director Leonard Shanklin today. The whole student body, under his direction, sang school songs several times preparatory to the "pop" meeting tomorrow afternoon, in the gymnasium.

Automobile Is Stolen; Found This Morning

A touring car belonging to Norman Stephenson was stolen from the garage last night and according to the speedometer was driven about 110 miles before the gasoline supply failed. The car was found on the Lake Shore Drive early this morning. Another car was also reported as stolen to the police, but a few hours later the party complaining called up the station and said the car had been returned and was in good condition. Mr. Stephenson did not know of the theft of his automobile until he went to get it this morning.

OIL SUPPLY TO LAST TWENTY YEARS, SAYS PROFESSOR

(By the Associated Press) DUBUQUE, Ia., Oct. 4.—The world's available supply of oil will be exhausted within twenty years, Professor G. W. Heitcamp, head of the geological department of Columbia College predicted in an address before Rotarians. He added that all carbon will have been used after 20 years. Scientists now are working to obtain new motive power, he said.

BURIED 9 DAYS, MINERS FOUND; ASK FOR SMOKE

Were Entombed in Coal Mine by an Explosion.

There Are Still Thirty-Six Men to be Accounted for; Hopes Had Been Abandoned by Friends.

(By the Associated Press) SELKIRK, Scotland, Oct. 4.—Buried alive for nine days, five of the 41 miners entombed by an explosion in a coal pit here were rescued today. They were brought to the surface in fairly good condition and their remarkable escape has revived hope in the minds of the relatives of the others imprisoned, and the searchers are redoubling their efforts.

The first things the men asked for when brought out of the mine was cigarettes. They said all they had to subsist on was water after the first day when the supply of bread gave out. The pit they were in was flooded by the explosion, but they crawled to a ledge where they found a current of air. There they stuck, excepting for occasional trips for water until they were rescued.

Seventy men were entombed, but 23 soon escaped through an unused shaft. Virtually all of the remaining men had been given up.

NORTH POLE NEWS OVER RADIO WAS HEARD LAST NIGHT

Members of High School Faculty Tuned in on Some Long Distance Stuff by Accident.

Last evening William Sullivan and Leonard Shanklin, members of the High School faculty, were experimenting with a radio outfit owned by Mr. Sullivan and had just been listening to a Buffalo program, when they picked up a message sent from the Zenith Broadcasting Station at Chicago to an Arctic expedition within 9 degrees of the North Pole. Every week the Chicago station sends personal messages, news of the world and other interesting bits of gossip.

While the snow and ice-bound expedition cannot send as great a distance as Chicago, they are able to send to Winnipeg and that station forwards their messages to Chicago. Commander Campbell of the Arctic expedition was the first to receive a message, which was sent to him by the broadcasting station by his wife. This was followed by a number of news stories and then the Winnipeg station cut in and the conversation between Winnipeg and Chicago could be followed.

The atmospheric conditions were favorable last evening for receiving and the men were fortunate in getting tuned in on such long distance broadcasting.

Reception Planned for Rev. C. E. Merrill

Members of the First Methodist church of this city announced last night the completion of preparations for a reception to be given in the church at 7:30 tonight in honor of Rev. C. E. Merrill and wife. The affair will be in the nature of a celebration of the return of Rev. Merrill to the local pastorate for another year. Special music and other features have been arranged by a committee headed by T. M. Judson. Refreshments will be served by the Ladies' Aid of the church.

CATHOLIC PRELATES TO GATHER IN CINCINNATI

CINCINNATI, Oct. 4.—Many distinguished Catholic prelates and laymen will attend the annual convention of the National Council of Catholic Men, which will be held here October 16-17. The council is one of the five departments of the National Catholic Welfare Council and embraces all Catholic laymen in the United States. Admiral William S. Benson, retired, now a member of the Shipping Board, is national president of the Council and will preside.

THE WEATHER

Generally fair tonight and Friday; slightly colder tonight with frost; moderate north and northeast winds.

Miss Elizabeth Lorraine Wooster, former state superintendent of public instruction and the first woman to be elected to a state office in Kansas, is being urged by her friends and supporters to become a candidate for the governorship.

PERSONAL

Is a friend from out of town visiting you? The nicest courtesy you can show your guests is to have their visits mentioned in this column. The nicest courtesy you can show your friends is to let them learn of your visit through this column whenever you go away. Address all personals to the Personal Editor, or phone 91.

Mrs. Peter Zaboski left yesterday for Milwaukee after a visit in the city.

A. M. Lottraine returned to Minneapolis after a visit in the city.

Mrs. John Hall of Perkins was a shopper in the city yesterday.

R. C. Hall left yesterday for a week-end trip at Menominee.

Frank Jenels and H. A. Jerry were in Spalding Tuesday in the interests of the M. B. A.

Word was received in this city that a son was born to Mr. and Mrs. Leon Weickman of Gary, Ind. Mrs. Weickman was formerly Miss Arlene Hammond of Wells. Her mother, Mrs. A. P. Hammond of Wells is visiting with her at the present time.

Harry Wright of State Line spent two days with relatives at Wells, enroute to Big Bay, Mich., where he will visit with his parents, Mr. and Mrs. George Wright, formerly of Wells.

Mrs. A. Bushy of Marinette returned to her home after a shopping trip in the city.

G. H. Turner left last night for Chicago.

R. I. Gilbert left for Chicago after a business trip in the city.

John Wright of Marinette returned to his home after a visit in the city.

Walter O. Dejean and Telesphor M. LeMieux of Fargo, N. D., arrived here yesterday for a visit of a few days at the home of the former's uncle, Henry Norhorne, 714 Ludington St. They are to visit at Menominee and Green Bay, enroute to Milwaukee, Wis.

Lou's Folio left today for Everett, Wash., and other cities in the west. He will return at the holiday time.

"Bud" Resler of Gladstone motored to this city yesterday afternoon.

William Derouin has returned to his home at 1110 Lake Drive from St. Francis hospital, where he underwent an operation for appendicitis on Sept. 29.

Mrs. D. J. Murphy, 501 South Thirteenth street, who has been attending a meeting of the Chief Rangers of Foresters in Marquette, returned to this city yesterday.

Miss Ruth Roche, daughter of Mr. and Mrs. George Roche, 1618 South Fifth avenue, underwent an operation for appendicitis at St. Francis hospital yesterday morning.

Mrs. Carl Jackson and Mrs. Theodore Amundsen motored to Marinette yesterday to spend a few days with friends.

Adelard Goulet, 216 North Thirteenth street, captain of the Escanaba High School football team, has returned to school after a short illness.

Eleanor Carlson of Perkins was a visitor in the city Wednesday.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hacking, muffled, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

SIGNS AFFIDAVIT THAT SHOOTING WAS ACCIDENT

DANVILLE, Ill., Oct. 4.—Jonas Haas, formerly night chief of police of Danville, but recently a railway detective sergeant for the Chicago & Eastern Illinois railway, has made and signed an affidavit for State's Attorney Lewman that he accidentally shot himself when his gun dropped from its holster. This ends the investigation as far as the state's attorney's office is concerned. Rumors of a triangle and of a jealous fellow detective have been rife ever since the shooting.

"The Island of Black Cats" is a name applied to Chatham Island in the Pacific Ocean, about 730 miles west of the coast of Ecuador. It is overrun with black cats. Indeed, cats of no other color are seen there. These animals live in the crevices of the lava foundation near the coast, and subsist by catching fish and crabs, instead of rats and mice.

LATONIA SPECIAL MAY BE HIGHEST RACING CLASSIC

CINCINNATI, Oct. 4.—The undisputed champion thoroughbred of the American turf may be decided Saturday, October 6, with the second annual running of the \$50,000 added Latonia Special Handicap, at the Latonia race course.

The race is for horses of all ages, and it promises to be one of the greatest, if not the greatest, in the history of the turf. The nominations for the great classic include the best horses in America.

Matt J. Winn, general manager of the Latonia Jockey Club said the handicap closed with 75 nominations.

BANKING, FARM AND LABOR GROUPS MEET AT DENVER

DENVER, Col., Oct. 4.—Governor Sweet yesterday welcomed more than 200 representatives of industry, banking, farm and labor organizations at the opening session of the Western Tariff Association. Frank J. Haggenbarth of Salt Lake City outlined the association's purpose as an effort to "protect and promote the interests of those engaged in productive pursuits" in the West.

MILWAUKEE CO-ED IN EAST KILLED BY AUTO

NEW YORK, Oct. 4.—Classmates of Miss Marguerite Stack, 29, a student in the fashionable Marymount School in Tarrytown, saw her hurled twenty feet and killed by an automobile on the Albany post road. Miss Stack was the daughter of Dr. D. S. S. Stack, physician of Milwaukee. A man describing himself as D. Lindsay Bell of Yonkers was arrested and committed to jail without bail on the charge of killing the girl.

OPEN DISABILITY HOME TO EX-SERVICE WOMEN

WASHINGTON, Oct. 4.—Ex-service women who have incurred disability will be admitted to the National Home for Disabled Volunteers, the War Department announced. Buildings have been tentatively set aside for women at Danville, Ill., and Milwaukee, Wis. In the past women have been entitled to the same compensation as men only in cases of disability arising from services.

JEALOUS SUITOR GIVES DEATH THREAT TO RIVAL

BOURBON, Ind., Oct. 4.—If Paul Patterson, 21 Bourbon, crosses into Fulton county Saturday night to visit a girl there he will be shot dead on departing from her residence, according to a warning given by an unidentified youth, who emphasized the threat with a revolver pressed against Patterson's head. The two suitors met on a country road late at night after Patterson had left the girl's home.

ARREST OTTAWA BANKERS IN \$2,000,000 SHORTAGE

(By the Associated Press) TORONTO, Ont., Oct. 4.—M. J. Daly, president; R. P. Gough, vice president, and six directors of the Home Bank of Canada at Ottawa, were arrested here yesterday afternoon in connection with the failure of the institution with an alleged shortage of \$2,000,000. The minister of finance said investigation has convinced the government that officials of the bank made false statements of the bank's affairs.

MARION WOMAN BOASTS THREE NAMES IN 3 HOURS

MARION, Ill., Oct. 4.—Three different names in three hours is a record held by Mrs. Charles Peebles of Marion. At 4 p. m. Mrs. Peebles was legally Mrs. Harry Parks. At 5 p. m. she was Miss Arvis Venua, a divorcee decree which carried with it the restoration of her maiden name, having been granted her. At 7 p. m. she was married to Charles Peebles.

MAN ALLEGED TO POSSESS SIX WIVES HELD IN JAIL

LOS ANGELES, Oct. 4.—Alleged to have confessed to having at least six wives in various cities of the West and Midwest, Harry R. Hoshon held in the city hall today, awaited the arrival of police from Tacoma, Wash., armed with extradition papers. Hoshon is also wanted in Des Moines, Ia., and Warren, O., but local authorities agreed to his return to Tacoma, where he is charged with illegally marrying Jennie Rex.

FOUR BILLION CUT FROM U. S. DEBT IN FOUR YEARS

WASHINGTON, Oct. 4.—The public debt of the United States has been reduced \$4,471,987,401 in four years, the Treasury Department announced. When the war debt was at its peak in September, 1919, the public debt amounted to \$28,596,701,648. A reduction of \$7,414,720 in September was due to large revenues from income taxes.

FATIMA - a mild cigarette. "What a whale of a difference just a few cents make!" The one cigarette you can smoke "day in and day out" and never tire your taste.

CHEAP TRAVEL ON CONTINENT AROUSES BRITISH COMPETITION

(By the Associated Press) LONDON, Oct. 4.—Cheap traveling on the continent has temporarily suspended non-stop dancing and long distance cricket scoring as the summer craze of England. The honors of the cheap traveling contest, it appears, will go to the person who travels the farthest and the longest on the least money. The daily papers are being swamped with letters from claimants.

A London vicar requests the blue ribbon for the feat of having travelled from London to Switzerland, and gone on a 15-day walking tour through that country, and then returned to London with a net expenditure of eight pounds 15 shillings, equal to \$10.50.

Two London school teachers have completed a 40-day hike through Germany and Austria and their pocket-book was set back only \$175.00.

SOCIETY

Attention, North and Morning Stars. The members of the North Star and Morning Star societies will meet at the North Star hall on Friday evening, October 5, at 6 o'clock sharp. It is planned to go to Manitowish for an official visit to the Golden Star lodge of that city. All members bringing automobiles are requested to bring them along. It is hoped that there will be enough autos to give all a chance to go who so desire. Lunching will be served at Manitowish from baskets brought along by the committee in charge.

Social Evening. A social evening was held last evening at the North Star hall by the members of the North Star and Morning Star Societies. The meeting was held for the purpose of welcoming the Grand Secretary, Edward Strand of Evelyn, Minn., who is at present in our city on an official visit. Card playing, singing and speech-making were the main attractions of the evening. At the conclusion a dainty lunch

DANCE AT DANFORTH

Plans are being made for a dancing party at Danforth hall Saturday night. The affair will be the first of a series to be staged at Danforth hall, it was announced. Williams' Musical Wizards will furnish the music.

ST. STEPHEN'S BOYS' CLUB

Members of the St. Stephen's Boys' Club will meet this evening at the home of Rev. A. L. E. Boss, 515 Third avenue, south. Inasmuch as this is the opening meeting of the school year, a large attendance is hoped for. The meeting will start promptly at 7:30 o'clock and it is expected that all members of the club will be present.

EVENING STAR PIE SOCIAL

Members of the Evening Star Society will hold a pie social at the North Star hall this evening. Each lady is expected to bring a pie and it is indicated that the affair will be largely attended.

CARD PARTY

The Rebekah Lodge will give a card party tonight at Odd Fellows' hall, the general public being invited. This is the first of a series of parties that will be given by the lodge for the coming season. Every effort is being made by the committee to make this as well as the following parties

BANDITS USE RADIO SET TO TIE JEWELER VICTIM

ST. LOUIS, Mo., Oct. 4.—Two bandits surprised Edward McCarthy of his jewelry store and forced him to open the safe. They took his radio set to pieces, unwound the coils, trussed up McCarthy with the wires and escaped with \$383 in cash and eight trays of jewelry valued at \$2,500.

REGULAR MEETINGS EVERY WEDNESDAY EVENING, 8 O'CLOCK

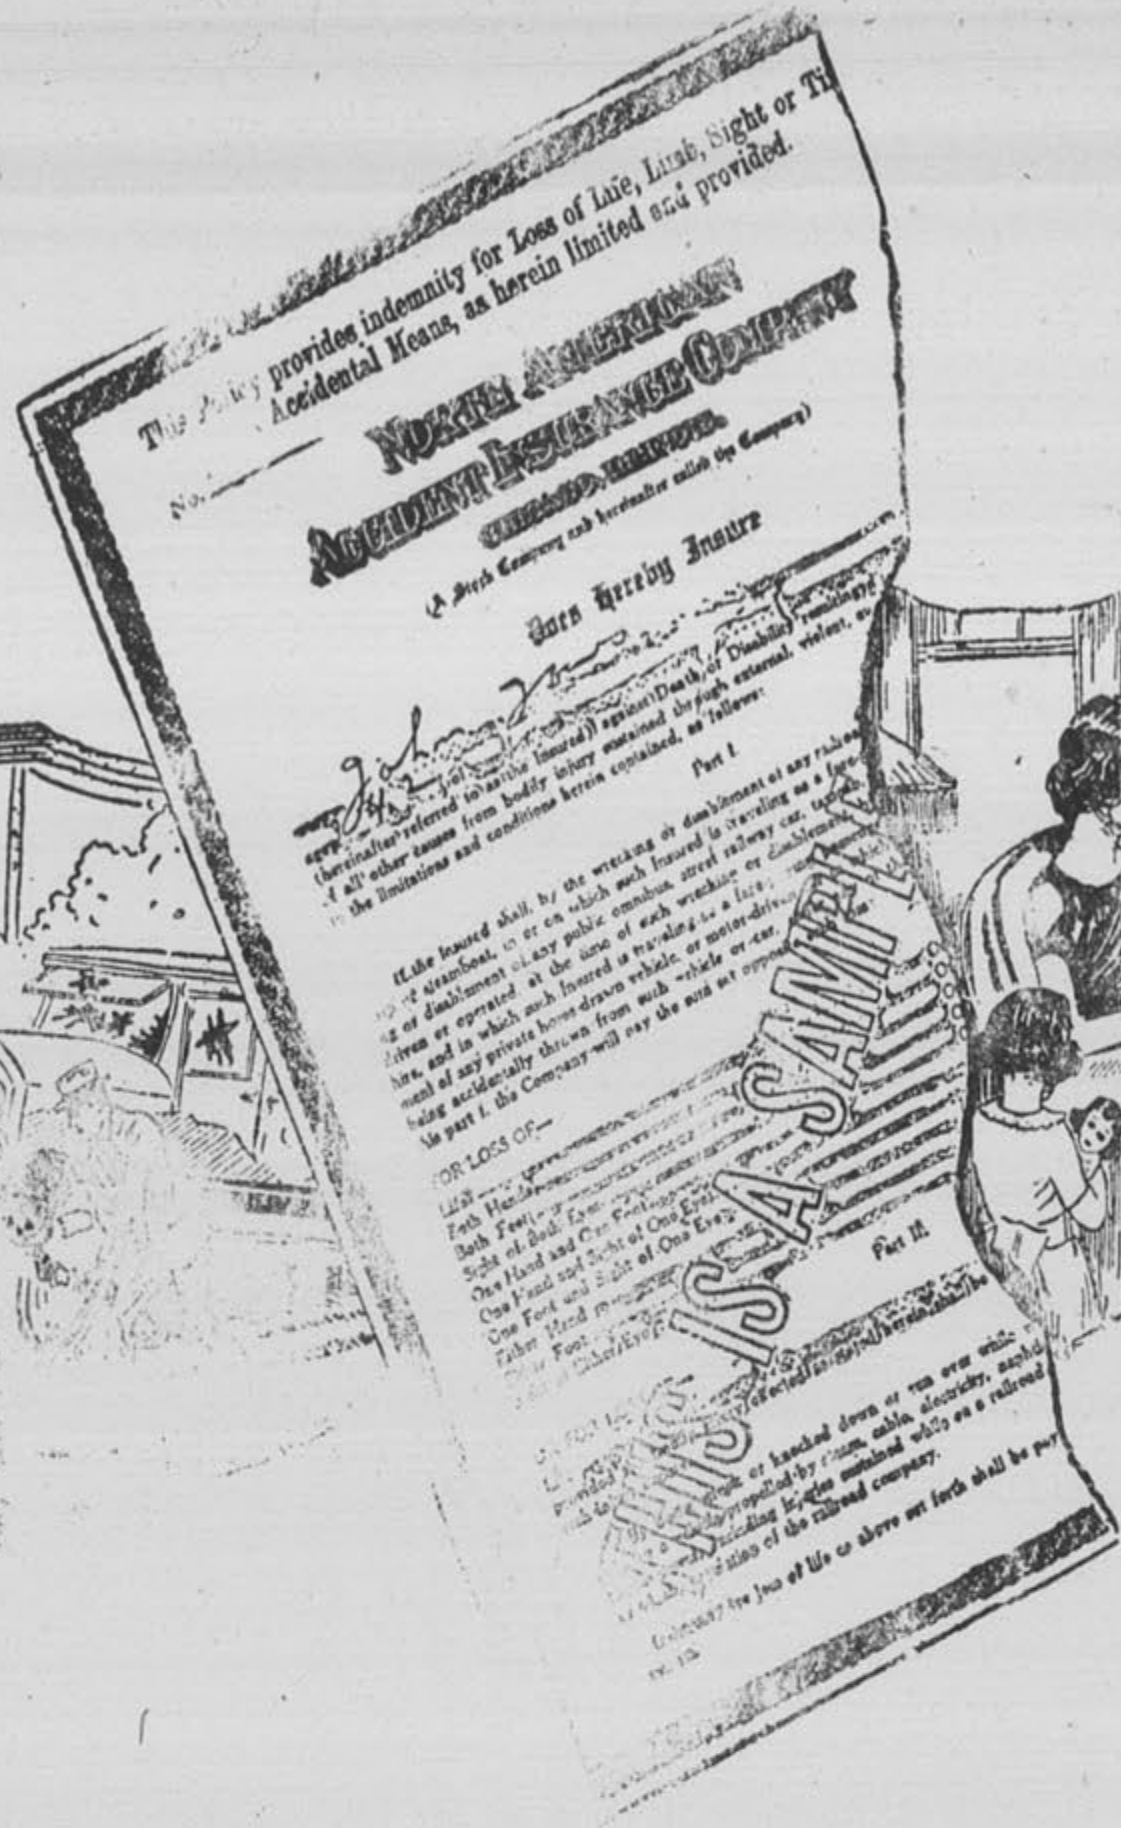

Is Chiropractic Dangerous? Instead of being dangerous, CHIROPRACTIC is the greatest of all health and life assurances. The Chiropractor puts no chemical into the body, lets out no blood, cuts out no organs, eliminating all possibility of danger when adjustments are given by a competent Chiropractor, whereas the safety of medicine and surgery is absolutely dependent upon correct diagnosis. The drug is selected that is believed to be most curative of the condition as diagnosed. If the diagnosis is incorrect, the drug is naturally more likely to do injury than do good. If the surgeon is wrong in determining what part of the body is diseased, a healthy organ has been irreparably injured and the disease remains, or the patient dies. After an autopsy on one thousand cases performed for the purpose of confirming his diagnosis, Dr. Richard C. Cabot, who is considered to be the most able exponent of medical science and practice; holds a chair of medicine in Harvard University; is author of a standard text book on physical diagnosis; is chief of the medical staff of Massachusetts General Hospital, frankly admits that he was mistaken in fifty per cent of his diagnoses. And what greater proof of the veracity of his statement and the efficacy of his method (medicine) could be demanded than the fact that death prepared his subjects for autopsy. And, yet, Dr. Cabot was aided by the best hospital facilities and every diagnostic instrument known to science. Almost every day we read of this one or that one dying from the administration of the wrong drug, anti-toxins or operations. How many notices do you see of death caused by Chiropractic adjustments? NONE. Is this, our friend, not worthy your consideration? If you know little or nothing about Chiropractic, investigate and you will find that it is pre-eminently more safe, more effective, brings more actual results with less risk, and less costs than any other known health means or method. N. C. Anderson, D. C. E. F. Boelke, D. C., Ph. C. W. J. Mileski, D. C., Ph. C. "PALMER"

THURSDAY, OCTOBER 4, 1923

SAY IT QUICK.

Wordy, windy people are a tremendous bore. They button-hole you and spatter in your face for fifteen minutes when they could say it all in sixty seconds.

I have several acquaintances who have large possibilities along conversational lines. But a superfluity of words takes the punch and point out of everything they say.

Many a man has talked himself out of a job or an order. A man was trying to sell me a car not long ago. He had me sold. I was opening my mouth to tell him so, when he launched into a long line of reasons why his car was superior to a certain other make of car.

Mark Twain said he sat in a congregation listening to a minister plead for a large contribution. The plea was so eloquent and effective he decided to give five hundred dollars. But the preacher talked so long that when the collection plate was finally passed, Mark reached in and took a nickel out of it.

The short story has reached its highest development in this country. That is because the United Statesman insists that things must be "snappy." He demands that the three hundred thousand word novel be boiled down, so that he may read it in a hurry and be on his way.

That is what the average present-day reader has against the old-time literature. It is too prolix. This is not always the case, however. One of the shortest short stories I ever read is to be found in the sixteenth chapter of "Second Chronicles." Assa, in the thirty and ninth year of his reign was diseased in his feet, until this disease was exceedingly great; yet in his disease he sought not the Lord, but to the physicians.

The average speaker can tell his story in fifteen minutes, if he will choose his words. One of the most delightful speeches I ever listened to was only fifteen minutes long.

Saying what the audience wants to hear and saying it in the fewest possible words is what hits. I heard of a man who declared that the speech that meant the most to him in his life was delivered by a judge and consisted of but one word—"Discharged."

The habit of succinctness is a good habit. And this applies to two-party lines as well as everywhere else.

BANKS AND INSURANCE.

This is no boom article for banks or insurance, but published because financial and property losses weaken the community.

In nearly every issue of the daily papers will appear accounts of the burning up of homes while owners were in another part of the state.

Often everything in the house was a total loss, including a goodly sum of money, and other valuables. And the boys end with the words: "they had no insurance."

This is a human interest article to warn such as do not have their home, its contents, and all that is insurable, properly protected.

It is sound common sense to use every possible precaution to safeguard one's property, real and personal.

So heavy prove the loss to almost any family that they are for the time destitute; neighbors care for them and relatives in another state are telegraphed to for funds.

Many hardships can be avoided when one takes every precaution to protect, through insurance, his home, his personal property, his health and ward off losses through accident.

SUBSTITUTES FOR COAL.

Newspaper dispatches from all parts of the country show increasing use of fuel oil in homes, apartment houses, factories and public buildings, instead of coal.

For several years the public has been subjected to a periodical coal strike with resulting hardships from lack of fuel and unreasonable prices.

The public interest in the coal industry has apparently been lost sight of by both the operators and the miners.

The day when lack of coal can cripple a whole nation is drawing to a close. The public is sick and tired of the annual outrage.

Electricity, fuel oil and gas are the coming substitutes for coal in the average home and factory.

Public utility plants operated by coal, will use oil or operate their own mines to the great advantage of the public.

Coal mining will get the same lesson that is eventually meted out to any industry that in its operation loses sight of the public interest. A substitute that gives better service will take its place.

A COSTLY EXPERIENCE.

Another community has witnessed the paralyzing effect of suspension of its trolley car service.

The Public Service company of Newark, New Jersey, which serves 145 municipalities in its territory, has through a combination of circumstances, the principal among which was jitney bus competition, been forced to suspend operation pending the working out of new wage agreements and schedule of fares.

Only when a traction company is forced to the extremity of suspending operation does the public begin to realize the advantages and necessity of regular trolley car transportation.

Transportation by jitney buses in thickly populated communities today creates a congestion of traffic that endangers the lives of not only those riding in the busses, but of every pedestrian and horse-drawn vehicle that has to use the streets.

A traction tie-up is a costly experience for any city, but each one emphasizes the advantage of the modern electric transportation system.

BOY SCOUTS

A comprehensive radio program covering a period of five years is at the present time under consideration by the Boy Scouts of America. Details are being worked out by a committee of experts. The tentative plans include the employment of a high-grade radio expert at the national office to prepare material for Boy Scouts in their official magazine; develop broadcasting plans with stations, for the information and entertainment of Boy Scout units throughout the country; develop a Boy Scout relay league with representatives in each of the 21,500 troops and perfect a system for broadcasting important announcements from the national council office.

Make Valuable Records.

Plunging into the past and editing current news is the program of the Boy Scouts of America, in the city of Grand Rapids, Mich., with other camps around the Lake of the States. The program is to be a record of the past and present of the Boy Scout movement. It is expected that definite authorization for the adoption of a plan along these lines will be given in the near future by the national council.

MILWAUKEE LETTER TAXES OCEAN TRIP TO MICHIGAN

By the Associated Press. MILWAUKEE, Wis., Sept. 29.—(AP)—A Milwaukee man has been fined \$100 for failing to pay by sending to Chicago, Ill., a letter from the "Green City." The letter was addressed to Detroit, Mich., but before Herman's departure from New York and across the Atlantic to Chicago, he forgot to change the address.

MARQUETTE MAN IS POSSESSOR OF OLD TYPEWRITTEN NOTE

Shows Well What Improvement Has Been Made in Writing Machines in Past Fifty Years.

MARQUETTE, Mich., Oct. 4.—Just how big is the gap between the first typewriter and the modern letter writing machine is shown by a letter written by Christopher Latham Sholes, inventor of one of the earliest typewriters, which is in the possession of Clint Demossore of this city. The letter was written to Amos Demossore, father of its present possessor.

Amos Demossore and his brother, James, were interested especially in the manufacture of Sholes' early typewriter, and pooled many letters from him. In one of the letters Sholes, compiler of Demossore's edition of the "Sholes' Typewriter," is indicated in the correspondence, was very similar to the present day machine. It was a "Sholes' Typewriter" and had no lower case letters, every line being in capitals.

In a letter from Christopher Latham Sholes, dated Oct. 1, 1874, to Amos Demossore, he writes: "I have just received your letter of the 29th inst. and am glad to hear that you are interested in the typewriter. I have just received your letter of the 29th inst. and am glad to hear that you are interested in the typewriter."

In a letter from Christopher Latham Sholes, dated Oct. 1, 1874, to Amos Demossore, he writes: "I have just received your letter of the 29th inst. and am glad to hear that you are interested in the typewriter. I have just received your letter of the 29th inst. and am glad to hear that you are interested in the typewriter."

VALWAIDE BOOKS OWNED BY STATE

Library Purchased in France Several Months Ago Presents Unusual Interest to Students

ANN ARBOR, Mich., Oct. 4.—In the University of Michigan library, purchased in France, and presented to the University by the French government, is a collection of books of unusual interest to students.

purchase the collection of books for the American institution, according to W. W. Bishop, librarian of the college. Mr. Bishop had so little time in France at the time of the purchase that after convincing himself that part of the library relating to the history of America was what the university desired, he bought the entire library without further inspection.

Study of the books during the summer and cataloguing has demonstrated, Mr. Bishop says, that the non-American portion of the library is also an unusual collection. It deals largely with French philosophy, beginning with the seventeenth century and running through the eighteenth century. In addition to presenting the writings of the lesser French philosophers, it also has many of the little known treatises of the major writers of the periods covered.

Less than five per cent of the non-American books in the collection are duplicated among the volumes in the college library. The Vignaux collection therefore adds greatly to the scope of the university's books upon French philosophy.

Work of cataloguing the Clements Library, of which the Americana of the Vignaux Library will be a part, has been going on throughout the summer, although there are several large packing cases that have not yet been opened. It will require until the end of the present school year to get the books of the collection listed properly, Mr. Bishop says. With the books in shape, 25,000 pamphlets will remain to be classified.

"UP THE LADDER"

will modern type of women with the modern mind will find much interest in "Up the Ladder," which comes to the Delft theatre, Saturday, Oct. 6.

The play is concerned with the life of a young woman who has just graduated from college and has just entered a law office. The play is a comedy and is a very good one.

SPAIN PREPARES TO SEND MEMO TO PARIS OLYMPIAD

MADRID, Oct. 3.—Spanish interest in the Olympic stadium of that country are to be their eyes to send Spain to the Olympiad of 1924, and something that should be done to secure the best possible presentation.

The Spanish Olympic committee, which was organized last year, has been working hard to secure the best possible presentation of the Spanish team at the Olympiad of 1924.

The sports in which Spain believes she has a chance to excel are lawn tennis, polo, football, golf, boxing, racing, tennis and rowing. These in which she admits she is poor are boxing, tennis, swimming, cycling, rowing and hockey.

Gabriel, Duke de Laforde, president of the Spanish Olympic committee, said recently he thought Spain should be good in the sports in which she has a chance to excel.

Hotel Somerset CHICAGO. AN ENDLESS variety of recreational opportunities welcome the summer visitor to Chicago and the guest of Hotel Somerset sees Chicago at its best. There is an intimate friendliness in Hotel Somerset's unobtrusively beautiful lobby—it is an eagerly-visited gathering place for residents and their guests. Spacious, many-windowed kitchenette apartments, and rooms without kitchenette, give you a view of Lake Michigan or of a sweep of wide boulevard. The kitchenettes are equipped to the last detail, including table silver and cooking utensils. Or you may dine in a restaurant famed for food and service. Hotel Somerset has a large solarium where conventions and private parties may be held and a roof garden giving superb view of Chicago by day and night. The Lake Michigan beach is so close that guests go from their apartments in bathing attire. In Chicago's finest residential district, with theaters, shops, banks and business houses easily accessible, Hotel Somerset offers the most moderately priced high class accommodations in the city. Let us send you booklet and floor plan.

Sheridan Road at Argyle. W. Gervase, Manager

of the Royal Athletic Federation of Spain, spoke recently with King Alfonso about the games. The king was much interested and said: "The government must be asked for support, but we must not rely solely on this aid. We must do what is being done in England and the United States and open a national subscription in which sporting clubs, lovers of athletics and the wealthy class should join freely. I shall be one of the first to subscribe and will also encourage others to do so. Spain should be represented properly in these games. The Spanish competitors must be trained thoroughly, and for this purpose funds are necessary. We must take practical means to find the money, and I think we shall be able to do so."

The Popularity of "SALADA" TEA has been earned on merit only. One trial will convince you.

Women Nowadays Glorify Old-fashioned Wrappers

THE NEWEST WRAPPERS FOLLOW COAT LINES AGNES AYERS IS WELL-CLOTHED, AND BEAUTIFULLY, IN THIS PJAMA COSTUME

THE day of the wrapper is rapidly waning. The house gown, the negligee, the pajama, are taking its place in the home. All of these things, particularly the pajama and house gown, are more practical and less fearful; the negligee is perhaps less formal and more elaborate, but certainly an attractive garment, to say the least.

year are turning out models well and fashionably made, often following the lines of the current fashionable street gown. For instance, when, during the last two years, the bateau neckline for frocks was in vogue, that same neckline was adopted for house gowns. True, the house gowns were carried out in corduroy, but a certain amount of style was there!

also generous sleeves. They are quite "dressed up" affairs. Should one spend her morning in one of these she would indeed feel well dressed and able to receive a neighbor or sudden caller with the poise that comes to one possessed of the knowledge that she is properly clothed and becomingly.

PRISON LABOR ON STATE ROADS HAS BEEN SUCCESSFUL DECLARES FRED JANETTE AT A CONFERENCE

Men have Worked Hard and With Very Little Trouble.

Interesting Talk Is Given by Man Well Qualified to Know Subject; Prisons Crowded.

(By the Associated Press) KALAMAZOO, Mich., Oct. 4.—The experiment of using prison labor on state highways has been a success, Fred E. Janette, state commissioner of pardons and paroles, declared in an address before the Michigan State Conference of Social Work here last night.

The balance are on the Grand River road. "These 400 prisoners are not the ordinary prison trusties; not the bulk of them. There are many trusties among them. Prison trusties, as you undoubtedly know, are inmates adjudged by their keepers to be safe for work outside the prison on farms, driving teams and trucks for delivery of goods and construction work required in the maintenance of large penal institutions and similar employment. They work at large within a limited radius around the prisons without guards. They are honor men. A very large part of the industries of the prison are founded upon the honor system. At the Jackson prison brick plant at Onondaga, for instance, there are now 125 prisoners out upon honor and in the care of a single officer.

WIDOW PLANS TO BLAME POISON PLOT ON OTHERS

(By the Associated Press) ELKHORN, Wis., Oct. 4.—Mrs. Myrtle Schaudt, Whitewater poison widow, will base her fight for freedom on grounds that another person instigated the poison plot to kill her husband and the attempt on the lives of her four children, and that she performed the act under fear of death, say her attorneys. Mrs. Schaudt was scheduled for a hearing today before Judge E. B. Beldon of Racine.

The Secret of Good Baked Beans

KITCHEN BOUQUET does for baked beans what it does for gravies—greatly adds to their flavor and improves their color. In Boston, where the preparation of all kinds of beans has reached a perfection that is the despair of all other sections, KITCHEN BOUQUET is most liberally used.

Preparing for the oven, add a tablespoonful to a quart of beans. Prepare your beans the Boston way.

KITCHEN BOUQUET

CHILDREN MUST BE VACCINATED, RULE

(By the Associated Press) LANSING, Mich., Oct. 4.—The state supreme court ruled today that local health boards have the power to require school children to be vaccinated when there is a danger of an epidemic of smallpox. The decision settles a controversy between the Lansing health board and the board of education. Last winter the health board issued an order that all children must be vaccinated. The board of education refused to comply with the order and appealed after the board of health had obtained a mandamus writ to compel compliance with the vaccination order.

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching "Czema Helped Over Night"

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even Gery, itching eczema is dried right up. Get a small jar of Rowley Mentho-Sulphur from any good druggist and use it like cold cream.

MEISNER SEEKS HANGING STAY IN SUPREME COURT

(By the Associated Press) SPRINGFIELD, Ill., Oct. 4.—John Meisner, who is under sentence to hang in Chicago October 29 for the murder of a taxicab driver, filed a motion in the Supreme Court yesterday for a writ of error and supersedeas. James Hunter, who was sentenced to thirty years in the penitentiary at the same time, also filed a supersedeas petition.

JACK JOHNSON LOSES CASH AFTER SIKI FIGHT

QUEBEC, Que., Oct. 4.—Former heavyweight champion Jack Johnson has complained to police that his pockets were picked of \$600 after an exhibition bout with Battling Siki.

THROWN OFF OF TRAIN; PILES TIES ON TRACK

COUDERAY, Wis., Oct. 4.—An attempt to wreck the southbound North-western road passenger train from Park Falls to Rice Lake was made near Lemington, five miles from here, and would have succeeded if the engineer had not been keeping a close watch on the track ahead. A half mile from where the ties were piled on the track, a few planks, piled on in the same manner were found. The train stopped before reaching the obstruction. Conductor Darggett, who is in charge of this train, had stopped his train on the last trip near the point of obstruction and put a man off that was beating his way. It is thought that he tried to wreck the train for revenge.

GERMANY'S COMEBACK AT SEA ALARMS HER COMPETITORS

COPENHAGEN, Oct. 4.—German shipping is showing remarkable recuperative powers, so much so that other maritime states are today concerned lest this "dreaded competitor" will regain her old position. The quotation is from the Scandinavian Shipping Gazette, which publishes an article on the subject. In 1920 Germany had 426,000 gross tons of steamers and motorships, according to this authority, and in June of 1923 a total of 2,510,000 tons. "Bitter complaints are made against the resumption of the German competition in practically all waters, but perhaps principally in South American seas," the Gazette says in conclusion.

COUDERAY, WIS., OCT. 4.—AN ATTEMPT TO WRECK THE SOUTHBOUND NORTHWESTERN ROAD PASSENGER TRAIN FROM PARK FALLS TO RICE LAKE WAS MADE NEAR LEMINGTON, FIVE MILES FROM HERE, AND WOULD HAVE SUCCEEDED IF THE ENGINEER HAD NOT BEEN KEEPING A CLOSE WATCH ON THE TRACK AHEAD. A HALF MILE FROM WHERE THE TIES WERE PILED ON THE TRACK, A FEW PLANKS, PILED ON IN THE SAME MANNER WERE FOUND. THE TRAIN STOPPED BEFORE REACHING THE OBSTRUCTION. CONDUCTOR DARGGETT, WHO IS IN CHARGE OF THIS TRAIN, HAD STOPPED HIS TRAIN ON THE LAST TRIP NEAR THE POINT OF OBSTRUCTION AND PUT A MAN OFF THAT WAS BEATING HIS WAY. IT IS THOUGHT THAT HE TRIED TO WRECK THE TRAIN FOR REVENGE.

HARD-UP COLLECTORS SELL ART TREASURES TO AMERICA

(By the Associated Press) LONDON, Oct. 4.—Art collectors from America have sent more treasures to America since the war than were purchased by Americans during the 29 years previous to 1914. English collectors explain that this is the result of the need for cash which is being acutely felt in England. Many formerly wealthy art collectors are forced to sell their possessions in order to meet high taxation and living costs. There seems to be no such condition among the American collectors, for their English agents are everywhere and always ready to seize upon any treasures that are for sale. In fact, so anxious are some of the agents to buy that they have adopted the method of calling on well known collectors and making them offers for various objects. Art objects to the value of \$10,000,000 were shipped to the United States last year.

BIRD DEAD, SEASON NEAR, CAN HE EAT?

(By the Associated Press) SAULT STE. MARIE, Mich., Oct. 4.—The partridge season does not open here for 12 days yet, thereby causing a dilemma at the Soo locks. To eat or not to eat—that is the question Monday morning a partridge dashed its life out against the plate glass windows of the canal office and lay there tempting the blue-coated lockmen. "It looks like an act of providence to me," said Capt. Charles Spaulding, at whose feet the bird fell.

HAIR STAYS COMBED, GLOSSY, WELL-GROOMED

Greaseless Combing Cream Costs Only Few Cents a Jar at any Drug Store

Even stubborn, unruly or shampooed hair stays combed all day in any style you like. "Hair-Groom" is a dignified combing cream which gives that natural gloss and well-groomed effect to your hair—that final touch to good dress both in business and on social occasions. Millions use greaseless, stainless "Hair-Groom" because it does not show on the hair. It is absorbed by the scalp, therefore the hair remains so soft and pliable and so natural that no one can possibly tell you used it. Not sticky or smelly.

STATUTORY TAX NOTICE

To the Owner or Owners of Any and All Interests in, or Liens Upon the Land Herein Described: TAKE NOTICE, That sale has been lawfully made of the following described lands for unpaid taxes thereon, and that the undersigned has title thereto under tax deed or deeds issued therefor, and that you are entitled to a reconveyance thereof, at any time within six months after return of service of this notice, upon payment to the undersigned or to the register in chancery of the county in which the lands lie of all sums paid upon such purchase, together with one hundred per centum additional thereto, and the fees of the sheriff for the service or cost of publication of this notice, to be computed as upon personal service of a declaration as commencement of suit, and the further sum of five dollars for each description without other additional cost or charges. If payment as aforesaid is not made, the undersigned will institute proceedings for possession of the land. Description: Lot 19, Block 39, Original Plat, City of Escanaba; amount paid, \$57.91; taxes for the year 1915. All in the County of Delta, State of Michigan. (Signed) MAUD WILTSE, Place of Business: 719 Second Avenue, Escanaba, Michigan. Dated, August 27, 1923. To Mrs. Jennie Furlong, Residence unknown. (259)

DENVER MILLIONAIRE DIES WHEN AUTO MISSES BRIDGE

DENVER, Colo., Sept. 4.—John F. Campion, Jr., 28, son of the late John F. Campion, multi-millionaire mining man of Colorado, was killed near Leadville yesterday when his automobile went off the mountain road. Campion was returning from a duck hunting trip and his machine missed a bridge, hurtling down an embankment.

CREDITS BETTER CATTLE TO EFFORTS OF CHILDREN

SYRACUSE, N. Y., Oct. 4.—Boys and girls enlisted in a nation-wide campaign have been a valuable aid in improving the breed of dairy cattle, Frank O. Lowden, president of the Holstein Friesian Association and former governor of Illinois, told the World's Dairy Congress today. Calf clubs are being organized by the children, who become owners of pure-bred calves. As a result, said Mr. Lowden, the breed of cattle in their vicinities already has been improved. The speakers urged upon the farmers greater attention to breeding. He praised European farmers, to whom he said Americans were much indebted for knowledge of how cattle stock might best be improved. "The purebred associations are fighting the scrub bull," a campaign which will add to the country's health and wealth and in which the cooperation of business interests will be valuable," the speaker said in conclusion.

GERMANY'S COMEBACK AT SEA ALARMS HER COMPETITORS

COPENHAGEN, Oct. 4.—German shipping is showing remarkable recuperative powers, so much so that other maritime states are today concerned lest this "dreaded competitor" will regain her old position. The quotation is from the Scandinavian Shipping Gazette, which publishes an article on the subject. In 1920 Germany had 426,000 gross tons of steamers and motorships, according to this authority, and in June of 1923 a total of 2,510,000 tons. "Bitter complaints are made against the resumption of the German competition in practically all waters, but perhaps principally in South American seas," the Gazette says in conclusion.

DEMOCRATS TO ELECT NATIONAL DELEGATES IN MARCH PRIMARIES

WASHINGTON, Oct. 3.—Democrats in 17 states will select their delegates to the national convention next year by direct vote in a series of primaries beginning in March.

Recent discoveries have established the fact that in milk are certain qualities which make it a necessary and complete food for humans.

Among the delegates will be Dr. Hugh G. Cunningham, League of Nations; Professors Sato and Miyawaki, Hokkaido Imperial University, Japan.

A total of 1,329 dairy cattle entered at the exposition will show the highest perfection to which breeders and scientists have arrived in this country.

There will be 1,001 delegates at the 1923 democratic national convention, and 729 1/2 votes will be required to nominate.

FOR RENT. A six-room flat, water, lights and bath. Inquire at 722 Second avenue, south or phone 821 J.

Mr. and Mrs. W. L. Kennedy are visiting with friends and relatives in Alpena, Mich., which is Mr. Kennedy's old home.

Much of the city of Kimberley is built of "tailings," the refuse from the diamond mines, which was used by the authorities for street making and street-repairing.

Mr. and Mrs. George Speers have returned from Milwaukee and will spend the winter in Escanaba at the home of Mrs. Speers' mother.

Regular subscribers as well as new subscribers of the Daily Mirror will be given one of the new \$1,000 insurance Policies Free by paying a year in advance for the paper.

DAIRY INDUSTRY TO HAVE A LARGE EXHIBITION SOON

National Dairy Show and World's Dairy Congress to Meet at Syracuse, N. Y.

SYRACUSE, N. Y., Oct. 4.—A comprehensive cross-section of the dairy industry, the great branch of agriculture, will be shown in this city October 5, when the National Dairy show and World's Dairy Congress convene.

Emphasis will be placed on the tremendous part the industry plays in national prosperity and welfare; on its economic importance in bringing \$2,400,000,000 to the dairy farms of the country annually.

The exposition will bring together more than 1,200 of the United States and Canada's finest dairy cattle; machinery and equipment for dairy farm and dairy factory valued at \$3,000,000; 300 of the country's finest horses.

Distinguished scientists and research specialists, delegates from 10 foreign countries, will deliver addresses dealing with improvement and greater efficiency in farm production.

Recent discoveries have established the fact that in milk are certain qualities which make it a necessary and complete food for humans.

Among the delegates will be Dr. Hugh G. Cunningham, League of Nations; Professors Sato and Miyawaki, Hokkaido Imperial University, Japan.

Four special trains will bring the delegates and visitors from Washington, where the congress will be formally opened by President Coolidge.

A total of 1,329 dairy cattle entered at the exposition will show the highest perfection to which breeders and scientists have arrived in this country.

Every division of the exposition has been designed to inspire dairy farmers to practice more economical and successful methods.

Boy and girl judging teams will come to the exposition from 20 states and boy and girl demonstration teams from 17 states.

WORLD'S SERIES RECORDS REVEAL BATTING HEROES

NEW YORK, Oct. 4.—Batting feats in world's series, although eclipsed in brilliance by the work of the pitchers, have been the outstanding features in many games of the annual classic.

Few players have been able to gather as many as four hits in one world's series game. The records show ten men to have accomplished this feat.

In 1903 Tom Leach, of the Pirates, gathered two singles and two triples off Young, of the Red Sox.

In 1908 Ty Cobb, of the Tigers, spanked the ball for three singles and a double off Pfeister and Reulbach of the Cubs.

Three New York Giants collected four hits in the 1921 series with the Yankees. Frank Frisch batted out four singles off Carl Mays' delivery.

The batting star of last year's Giant-Yankee series was Little Helme Groh. In the first game Groh walked once and connected for two singles and one triple off Bush and Hoyt.

The first world's series player to clean the bases with a long hit was George Robe, a substitute player for the White Sox in the 1906 series.

Robe's three-base hit off Pfeister, a Cub southpaw, scored three runners. The second "clean-up" hero was Elmer Smith, of the Cleveland Indians.

Official Recognition Sought by Soviets. BELGRADE, Oct. 4.—Intensive efforts are being made by the Soviet government at Moscow, both here and in Prague, to obtain recognition by Yugoslavia and Czechoslovakia as an entering wedge to worldwide recognition.

The first recognition by an European power was expected from the Stamboulsky regime in Bulgaria.

Soviet agents in that country were in close relations with the late Stamboulsky government.

But when the anti-Bolshevik Russian colony recently discovered his

curves in the 1921 series for a triple when the bases were full. Earlier in the same inning with Jack Quinn pitching for the Yanks, Young drove out a double.

What will your harvest be when the year's work is over? A Savings Account at the First National will help you store up the fruits of your labor and make the year show definite progress.

The First National Bank

Escaaba, Michigan

Oldest, Largest and Strongest Bank in Delta County

fearful complications with Great Britain and France stood between him and the carrying out of his desire to exchange diplomatic representatives with Soviet Russia.

The fall of Stamboulsky made it necessary to change the field of endeavor to Belgrade and Prague.

The efforts of the Soviet advocates are finding a strong popular response, especially in Czechoslovakia, where the anti-German feeling still exists.

In Yugoslavia Soviet purposes have been accompanied by activities in the form of espionage. The latest incident is the one in which the Russian Colonel Leiba figured prominently.

Leiba arrived in Belgrade from Russia about two years ago, representing himself as a Communist officer fleeing from Soviet persecution.

But when the anti-Bolshevik Russian colony recently discovered his

true character as a Soviet agent, orders were issued for the colonel's arrest. Before they could be carried out, however, he took to the air in one of the planes attached to his command, and when last seen was headed in the direction of Russia.

The incident has produced a painful impression here.

A claim is put forward for one James Chalmers of Arbroath, Scotland, who submitted specimens of adhesive postage stamps to a committee of the House of Commons in 1834.

DEMOCRATS TO ELECT NATIONAL DELEGATES IN MARCH PRIMARIES

WASHINGTON, Oct. 4.—Democrats in 15 states will select their delegates to the national convention next year by direct vote in a series of primaries beginning in March.

A tabulation of the dates of these primaries has been made public by the Democratic National Committee, in many cases they coincide with the dates when voters will express their preference among presidential candidates.

- Alabama, May 13; Arizona, May 6; Arkansas, June 3; California, June 5; Colorado, April 8; Connecticut, April 29; Delaware, May 27; Florida, April 15; Georgia, March 11; Idaho, April 22; Illinois, March 18; Indiana, April 29; Iowa, May 16; Kansas, May 29; Kentucky, Dec. 4, 1923; Louisiana, March 18; Maine, May 27; Maryland, April 1.

In Louisiana the method of selecting delegates chosen in district convention is left to the state committee, the usual custom is to call a state convention for the purpose.

In practically all states in which conventions are called to select delegates, the convention dates are set by the state committees. At the Illinois, New York and North Carolina conventions delegates at large only are selected; in Maryland the convention follows the presidential preferential primary of May 5; in Michigan the date is usually about May 15; in Nevada the platform convention is held June 24; district delegates are chosen in district conventions in North Carolina; the South Carolina convention is usually some time in May.

There will be 1,921 delegates at the 1924 democratic national convention, and 72 1/2 votes will be required to nominate.

FOR RENT—A six-room flat, water, lights and fuel. Inquire at 722 Second avenue, south or phone 824-J.

DAIRY INDUSTRY TO HAVE A LARGE EXHIBITION SOON

National Dairy Show and World's Dairy Congress to Meet at Syracuse, N. Y.

SYRACUSE, N. Y., Oct. 4.—A comprehensive cross-section of the dairy industry, the great branch of agriculture, will be shown in this city October 5, when the National Dairy Show and World's Dairy Congress convene.

Emphasis will be placed on the tremendous part the industry plays in national prosperity and welfare; on its economic importance in bringing \$2,400,000,000 to the dairy farms of the country annually and a greater stability to agriculture, and on productive methods of still further increasing the industry's stability and prosperity.

The exposition will bring together more than 1,200 of the United States and Canada's finest dairy cattle; machinery and equipment for dairy farm and dairy factory valued at \$3,000,000; 500 of the country's finest horses; the latest scientific facts and discoveries in the relation of milk and its products to human welfare, and scores of educational exhibits for the study of farmers in betterment of their farms.

Distinguished scientists and research specialists, delegates from 10 foreign countries, will deliver addresses dealing with improvement and greater efficiency in farm production, manufacture of dairy products, transportation and marketing. Another important phase taken up in detail will be the vital and essential part played by milk in the welfare of mankind.

Recent discoveries have established the fact that in milk are certain qualities which make it a necessary and complete food for humans. It is known to be especially essential for the young in adequate development of both brain and body.

Among the delegates will be Dr. Hugh G. Cunningham, League of Nations; Professors Sato and A. Miyawaki, Hokkaido Imperial University, Japan; Senor F. S. Latour, Minister of Guatemala; Abdullah Eulegan, secretary of the Peruvian legation at Washington; C. Holme, Dennis, Royal College for Science, Ireland; Hjalmar Isachsen, Royal Agricultural College, Norway; Robert Barr, director of the Lieberfeld Experiment Station, Switzerland.

Four special trains will bring the delegates and visitors from Washington, where the congress will be formally opened by President Coolidge.

A total of 1,329 dairy cattle entered at the exposition will show the highest perfection to which breeders and scientists have arrived in this country and Canada in seeking perfection of type and conformation for the economical production of milk. In the number will be several world's champions, blueribbon winners from every state, splendid specimens of the five leading dairy breeds, Holstein, Ayrshire, Jersey, Guernsey and Brown Swiss, which will demonstrate to visitors what points should be sought in breeding for heavier production.

Every division of the exposition has been designed to inspire dairy farmers to practice more economical and resultful methods. Great emphasis will be placed on better breeding; its necessity is indicated by the fact that the average production of milk per cow in the United States is only a little more than 3,000 pounds a year, when it has been established there is seldom profit made with cows yielding less than 5,000 pounds a year.

Boy and girl judging teams will come to the exposition from 29 states and boy and girl demonstration teams from 17 states. More than 29 states have entered student judging teams, while junior project workers have entered more than 100 calves, showing the work the younger generation is accomplishing in giving the younger generation an abiding interest in farming.

WORLD'S SERIES RECORDS REVEAL BATTING HEROES

NEW YORK, Oct. 4.—Batting feats in world's series, although eclipsed in brilliance by the work of the pitchers, have been the outstanding features in many games of the annual classic.

Few players have been able to gather as many as four hits in one world's series game. The records show ten men to have accomplished this feat.

In 1903 Tom Leach, of the Pirates, gathered two singles and two triples off Young, of the Red Sox. Clarence Beaumont, Pirates, accounted for four singles off Dineen of the Red Sox, in another game of the same series.

Frank Isbell, of the Chicago White Sox, doubled four times in the October 13th game of 1906 off Reulbach, Pfeister and overall of the Cubs. Another White Sox player, Edgar Hahn, bumped Edgar Brown and Overall, of the Cubs, for four singles in another game of the same series.

In 1908 Ty Cobb, of the Tigers, spanked the ball for three singles and a double off Pfeister and Reulbach of the Cubs.

Larry Doyle, New York Nationals, found Coombs and Plagk, Athletics, for two singles and two doubles, Oct. 25, 1911. The following day Dan Murphy, Athletics, batted out three singles and a double off Whitse, Ames and Marquard, of the Giants.

Three New York Giants collected four hits in the 1921 series with the Yankees. Frank Frisch batted out four singles off Carl Mays' delivery October 5. In the October 7 game, with Shavkey, Collins, Quinn and Rogers pitching for the Yankees, George Burns connected for two singles, a double and triple, while Frank Snyder, the Giant catcher, made four singles.

The batting star of last year's Giant-Yankee series was Little Heine Groh. In the first game Groh walked once and connected for two singles and one triple off Bush and Hoyt.

The first world's series player to clean the bases with a long hit was George Rohe, a substitute player for the White Sox in the 1906 series. Rohe's three-base hit off Pfeister, a Cub stopper, scored three runners. The second "clean-up" hero was Elmer Smith, of the Cleveland Indians, who did even better by hitting a home run with three men on in the October 10 game of 1920 with Brooklyn. Burleigh Grimes pitched for Brooklyn.

Ross Young, of the Giants, connected with one of Warren Collins'

curves in the 1921 series for a triple when the bases were full. Earlier in the same inning with Jack Quinn pitching for the Yanks, Young drove out a double.

OBITUARY

INFANT SON DIES. The infant son of Mr. and Mrs. Joseph Turner, 518 South Eleventh street, passed away at a local hospital last night.
