

# TEACHER HAS A HARD JOB, SAYS ONE CONTESTANT

## Another One says Nursing Is the Hardest Job There Is,

### Farming Has the Lead in the Letters Sent in to Mirror by Writers in Contest.

Today The Mirror publishes two letters in which it is declared the teacher and the nurse have the hardest jobs. In looking over the great number of letters in, the editor of The Mirror is impressed with the fact that some of the very evident hard jobs have been overlooked. So far farming, keeping home and teaching are the popular subjects upon which letters have been written. Most subjects have been touched upon by some of the real hard jobs have been overlooked. What are you thinking about the following as a hard job?

**Teaching Is a Hard Job.**  
As all the people in the world but of them are so busy, so hard to find their education. And even though there are very many people who are millions and millions of miles away from their motherland yet they are diligent to get their education. Can we know what the teacher can say that all of them are for themselves, and their children, and even their families, to be so?

For we know education is necessary to our lives, but how can we get it? Can we get it in the streets or factories or farms? No, we cannot get nothing from them. The only place that we can get it is in the schools. Do we get it in the streets laughing and shouting at the school? No. To get it in the schools, what the teacher has to do is the only way we can get it.

What is a teacher? He is important to us. He is an educator, he is ignorant or worker. He is a teacher. He is a person who can give us more reality and more experience than we can get from any other source.

For instance, a father. He is always always according to the parents. If their parents are kind and educated, he must be educated and kind as his parent, but if their parents are violent, ignorant, he must be the same as they are. The teacher is just the same. If the teacher is an educated, kind, and intelligent student, cannot get anything from him, but the only thing that can get from him is the education he has.

If the teacher is ignorant, his experience and good education that the student could get the same as he has. From here, we know teachers are extremely difficult job.

But how can we be a teacher? I can say that he ought to have a good college education, have heard of some wise persons, to see the influence of successful persons and their good experiences. If he has these he can be an excellent teacher and also a good teacher to make a student interested in lesson, to make a student though he is not educated, yet he can not make them understand to interest the lesson. The only way he can make them understand the lesson is to be a teacher. So I think to be a teacher he must be obtained these things which he can be made stud of, he can be a teacher and can understand the lesson.

So far as I can say, to have a good college education, to have some experience, to have a good personality, to have good morality, of all these I have mentioned, or extremely hard to get. So I can say teachers is the hardest job.

#### Nursing.

Life is one hard job, and you must ever be on the alert to keep your place in this wide world. There are many cares and worries connected with anything in which you might engage. Your heart is full of things to be, the one thing for someone else.

To be a nurse is the chief desire of many girls and women. They wish to give service to the poor unfortunate who are in pain and sorrow. Being a nurse is a very hard job and the nurse is very seldom idle. She must sometimes be on call twenty-four hours a day, and be able to do simple housework and cooking in addition to nursing. She spends her time helping others and many times, inspiring her own health.

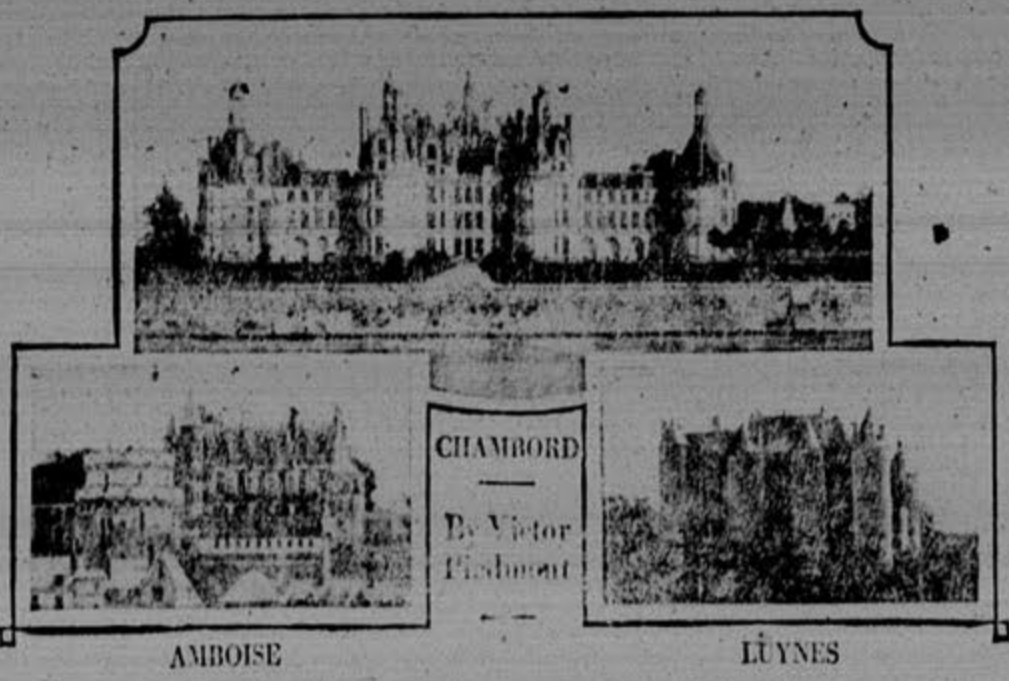

Because of this strenuous work, many of the nurses become one of the patients whom they themselves wish to care for.

The nurse is quite often blamed if her patient dies. If she really likes her profession, and tends to kindness, she is unjustly condemned. Some people, however, expect the doctors and nurses to do the impossible.

There are dangers and difficulties, and unpleasant things connected with all forms of nursing, but some men and women like to solve such difficulties. The nurse must have a double measure of fact, patience, strength and poise, for she deals with sick people who are sometimes but altogether responsible for what they say and do.

Because of all these things, nursing is a very hard job. It is a job that is not for the faint hearted.

# GLIMPSES OF THE OLD WORLD

SOME FAMOUS CASTLES OF OLD TOURAINE

The castle of Chambord was built by Francis I, on the site of a hunting lodge of the Counts of Blois, in the midst of a great park of 2,700 acres, enclosed by a moat 2 1/2 miles around. As one enters the park, the blue chimneys of the castle, surrounded by a profusion of slender trees, rise up and are visible for miles. The castle is a masterpiece of the chateau style, and is a model of the chateau style. It is a masterpiece of the chateau style, and is a model of the chateau style.

# Paint your house with

**SWP**

THE above picture shows that one gallon of SWP house paint covers 360 square feet of surface, two coats. Ordinary paint covers from 200 to 250 square feet. That is the first saving. SWP, though heavy-bodied, flows easily and evenly, thus cutting down the time required to apply it. That is the second saving.

SWP outlasts two or three paintings with ordinary paint, saving the cost of materials for repainting and also saving the labor cost which is about 75 per cent of the total expense.

In buying paint it's the area a gallon covers, not the cost per gallon, that determines its economy.

We carry a complete line of SWP. If you plan to paint your house, let us help you.

When you find a man who has no prejudice, you have found one who has no convictions.

It isn't what a woman says that is shocking but the fact that a woman could say it.

The chief objection to the plain people is that some of them are so darned plain.

**PRIDE IN APPEARANCE**

"Pride in Appearance"  
A Nation-wide  
Movement

There are few men who are not proud of their homes. A home is one of the things the world judges a man's social standing by, and as a consequence he wants it to be as good as he can make it. It is not merely a place to live, but one to which he is glad to invite his friends, where he may entertain them comfortably and be proud to do so.

Likewise there are few men who do not insist that their wives or daughters be well dressed—that their appearance be a credit to them.

Today there is sweeping throughout the country the "Pride in Appearance" Movement. It is a movement for better clothes for men, a movement for correct dress. It has been brought about by the attitude of men themselves, who are everywhere, paying more attention to correct appearance, and who are insisting on finer things. Everywhere men are coming to know more about clothes, and are becoming more careful in their buying. They insist that a suit of clothes should do more than wear well. They insist also that it be correct, smart, well tailored and well cut. This movement is also evidenced by the attitude of manufacturers, who realize that they must offer better values and are doing so. It is not limited to one city or section of the country, but extends throughout the nation.

This movement means that men have realized the importance of clothes in everyday life, and are giving them the attention they deserve. Today no man cares to be incoherently dressed, but on the contrary he takes pride in correct appearance. "Pride in Appearance" means that men have realized that clothes are a large factor in their impression upon other people, and that a man's appearance is a matter which will repay his most careful attention. He owes correct dress to himself for the added ease and self-confidence it gives him. He owes correct dress to his family because it gives them as much pride in his appearance as he takes in theirs. He owes it to his position, because clothes that are either conspicuous or ill-fitting are no help to business, but on the contrary are frequently a detriment.

In short, "Pride in Appearance" is sweeping the country because men everywhere have realized that no man can run the risk of seeming poorly dressed, but that his clothes, like his home, serve as a standard by which the world at large judges him and measures his standing.

**Better Styles, Bigger Assortments, Greater Values**

THESE ARE OUR PART  
IN THE "PRIDE IN APPEARANCE" MOVEMENT

Men in every city are realizing more than ever before the importance of good dress. That's the meaning of the "Pride in Appearance" Movement, which is sweeping the country.

Knowing our own city as we do, we realized months ago what the demand on us would be at the Easter Season. We prepared. We combed the markets of the country—we secured the co-operation of manufacturers, we made certain that we would have not only the largest assortments and the best styles we have ever shown—but the greatest values as well.

They're ready for you now. Wonderful shirts, the finest of hosiery, colorful neckwear, smart hats; and an immense assortment of Society Brand Clothes, the best in America. A great many of them are the loose, easy styles that's the thing today—broad shouldered coats, straight, wide trousers, the most comfortable and the best looking clothes men have ever worn.

All this is our part in the "Pride in Appearance" movement; it's the biggest thing we have ever done; we want you to see it.

**SHIRTS**

**\$1.75 to \$10.00**

**NECKWEAR**

Foulards are going to be as popular as last year; the bright patterns in endless and colorful variety, both four-in-hands and bows. Knitted ties, too, of course—they will always be good—also French Silks, English Silks, Austrian Silks, Swiss Silks. They're all here.

**\$1.00 to \$2.50**

**HOSIERY**

Following the lead of neckwear, hosiery is more colorful this season; well dressed men are going in for smart effects to harmonize with suit, tie and shirt. We have a splendid assortment of plain shades and unusual patterns, along with the standard colors.

### ESCANABA CAN HAVE COMPLETE SET OF CHIMES

#### The Swedish Lutheran Church Has Bought a Ten-Tone Set.

#### Citizens Have an Opportunity of Adding from One to Six Tones If They Wish.

The congregation of the Swedish Lutheran church have raised the sum of \$5,000 with which to purchase a set of chimes for the church, and for this sum a ten-tone set may be bought which will play sacred music and a few of the national airs.

A full set of chimes is 16 tones, or 16 different bells, but costs more than the congregation can afford and in fact the raising of over \$5,000 is an exceptional thing for that purpose in a city of this size.

For every extra tone from one to six, the chimes will be able to enlarge the number of selections and it has been suggested to Rev. U. A. Lund, the pastor, that perhaps the people of Escanaba would be glad to have the opportunity of donating a slight amount or as much as they cared to give, so that Escanaba would have a complete set of chimes, or at least a few more tones, in order that the bells might be used on all occasions for the benefit of the city at large.

The ten tones for which the payment has already been collected will take care of everything the church needs in the way of chime music, but will fall far short of what the chimes might be able to do, with a few more tones added. In other words, some of the business men of the city have asked Mr. Lund if he and his church would not be willing to donate their ten tones to the city, providing the citizens stick in a few hundred dollars and buy some extra tones.

The congregation of the Swedish Lutheran church have agreed to do this, with the understanding that it must not be construed by the people of Escanaba, that the church is asking them for a donation to help buy chimes. They are taking the right stand in this, too. The chimes are certainly for the benefit of the city as a whole. They will be an addition to community life. Each tone costs approximately \$500, but once bought, the expense is over forever.

The order for the ten tones has been placed and if Escanaba wants to add a few tones and give the city a set of chimes that is not exceeded anywhere the citizens will have to speak quickly.

## AUGUSTANABAND COMING FOR ONE CONCERT APR. 25

#### Famous Concert Band Will Play at Swedish Lutheran Church.

#### Organization Is One of the Best College Bands in United States, It Is Declared.

The Augustana Concert Band of Augustana College, Rock Island, Ill., will appear in concert in this city Friday evening, April 25th. This concert will be given in the Swedish Lutheran church under the auspices of the Luther League.

This concert band is made up of twenty-five members. Each member of the band must pass a rigorous examination before being admitted to the band, thus insuring a band composed of only finished musicians. This enables the band to present a concert in which not only are ensemble numbers presented with a degree of perfection attainable only to such a band, but it is also possible to intersperse a wide variety of solo numbers and duet and quartette arrangements in the program. Programs rendered include the very best in classical, operatic and sacred music.

The band will be supported in its program by Prof. Elmer Hanke, pianist, Mr. Martin Johnston, baritone soloist, Director Karl Kubitz, flute soloist, and Mr. Leroy A. Stark, violinist.

This concert will be given in the church auditorium of the Swedish Lutheran church.

Price of tickets has been placed at the nominal sum of 50 cents for adults and 25 cents for children to make it possible for the largest possible number to attend this concert.

An evening of music par excellence is in store for all music lovers of the community. The above mentioned church has brought to this city some very high grade musicians during the past several years and is deserving of the support of all in the community who think that "the best is none too good for us."

DUQUOIN, Ill.—Eighteen coal miners were injured, some perhaps fatally, when the cage in which they were being lowered into the Kathleon mine of the Union Colliery Co. of St. Louis, five miles from here, dropped 50 feet to the bottom of the shaft today. The accident is attributed to the blowing out of the safety fuse on an electric hoist, and the failure of "safety dogs" to hold the hoisting drum.

Chicago, in 1895, established the first electric elevated line in the United States.
