

# DECLARED PAY IS ADEQUATE FOR EMPLOYEES

## Chamber of Commerce Says Salary in Rural Districts Is Enough Just Now.

## United States Chamber of Commerce Makes an Exhaustive Survey of the Postal Situation.

WASHINGTON, April 22 (AP)—In support of its conclusion that the need of increasing the pay of postal employees is confined principally to the industrial areas and metropolitan districts and does not extend to the country at large, the Postal Service Committee of the Chamber of Commerce of the United States today made public a statement based upon information supplied by the Civil Service Commission giving a nation-wide survey of conditions in the postal service.

In response to a request of the Chamber the Civil Service Commission obtained reports from the 111 district secretaries covering 574 first class and 2,811 second class post offices. The summary of these reports indicates that, in general, there is no difficulty in maintaining the level of salaries in rural districts. In certain localities, however, difficulties exist, these being almost without exception in cities or industrial communities affected in the one case by high cost of living due to metropolitan conditions and in the other case by the higher wage scales and higher cost prevailing in the industrial communities.

It is the conclusion of the report that such difficulty is encountered in maintaining the level of salaries is largely due to the existing of requiring long periods of time for the appointment to permanent positions. Applicants are sometimes subject to call for an indefinite period to the detriment of any other occupation they might have.

As to the quality of employees and children the reports indicate that in the industrial areas, from New England to Northern Illinois, and in Southern Florida, the standard is not up to par, but has shown a tendency to improve in the past two years. In the rest of the country, with few exceptions, the quality compares favorably with the war. The chief causes mentioned for such inferiority in standards are: (1) the greater increase in wages in private occupations, particularly in metropolitan and industrial centers, and the resultant conditions in the post office in certain localities.

tably Chicago. With the exception of a few large cities, notably New York, Chicago and Detroit, in comparatively few cities is there difficulty in recruiting post office clerks and city carriers. Except in rare instances economic conditions are not found to be responsible for the shortage of eligibles in the smaller cities.

The Civil Service Commission report shows, in addition, that outside a few mining and manufacturing districts, particularly the mountain region of Pennsylvania, West Virginia and Ohio, little difficulty is experienced in recruiting rural carriers and that even in that territory the situation is not at all serious. Notwithstanding it has been found difficult to secure a sufficient number of eligibles to fill all vacancies in the railway postal clerks positions, except in a few sparsely populated states, such as Wyoming, Nevada and Arizona.

Little more under consideration by the Postal Commission of Congress for increasing the pay of postal employees, call for additional appropriations, ranging from systems of patronage to the Kelly-Edwards bill, which involves an expenditure of \$10,000,000 in creating an additional provision for meeting this expenditure. The measure proposed by the Postmaster General, involving an increase of 10 per cent in the pay of the postal employees, would probably be the most adequate means of postal relief, it raising the charges for the services of postal carriers, including an increase in the rate of postage and a second class mail rate.

The Postal Service Committee of the Chamber of Commerce of the United States recommends that in those localities in which there is no time is exceptional, that postal employees should be allowed a temporary salary, applicable on a sliding scale adjusted to local conditions, until such time as a proper reclassification of post offices and reassignment of employees be effected to meet existing conditions. The temporary increase in the pay of postal employees required in accordance with this recommendation amount to approximately 10 per cent in rural districts.

A LUXURY HOME AT ALL

A very few of the people who are building new homes are doing so in the city. The majority are building in the suburbs. This is because the city is so crowded and the cost of living is so high. In the suburbs, there is more room and the cost of living is lower. This is why so many people are building new homes in the suburbs.

# RUB CHEST COLDS AWAY: STOP PAINS

Pain and congestion is gone. Quickly? Yes. Almost instant relief from chest colds, sore throats, bronchitis, influenza, follows a rub with St. Jacobs Oil.

Rub this soothing, penetrating oil on your chest and like magic relief comes. St. Jacobs Oil is a famous liniment which quickly backs chest colds, soothes the inflammation of sore throats and breaks up the congestion that causes pain. It never disappoints and does not burn the skin. Get a 35 cent bottle of St. Jacobs Oil at any drug store. It has been recommended for 75 years.

# TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrous. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does so naturally, so gently. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application of two, your hair becomes beautifully dark, glossy, soft and beautiful.

# The Song of the Builders

Once a hard day's work, the rattle of the builder's hammer and the rasp of his saw. Over-night, it seems, buildings rise—new streets appear.

And the thousands of new homes and great buildings increase the progress of the public service throughout Michigan.

This Company attempts to foresee the great growth of service demand and extends its plant into new districts as rapidly as possible in an effort to most efficiently serve the people of Michigan.

However, sudden unforeseen population and industrial growth frequently make it impossible to furnish utility service at all points immediately upon demand. Hundreds of new telephones are wanted. The Telephone Company's problem is the same as that of the water, sewer, gas, electric, street, and school services.

But the solution of that expansion is breaking all records. Thousands of new instruments are being installed, miles of new underground cables with additional capacity are being provided, to 4,000,000.

Everything that can be done to provide service is being done to meet the demand.

## FARRELL'S SPORT STORY

By HENRY J. FARRELL.  
United Press Sports Editor  
NEW YORK, April 22. (United Press.) Fortune always has been very kind to Georges Carpentier. The Frenchman has had more good breaks and less bad ones than any other boxer in the game.

After having been stopped by Jack Dempsey and knocked out by the late alarm Siki, Carpentier finished himself a most sought-after boxer in the ring.

Considering his fighting for Carpentier's contract and all of a sudden it again becomes the most talked-of boxer in the country. Carpentier still has color and pluck to him and he is still a great drawing card.

Recently a short and experienced promoter was asked to explain what there was about Carpentier, who is only an ordinary fighter, that makes him such a card, and he replied:

"He draws the women."  
Carpentier, it is almost certain, is coming out of retirement for the primary purpose of making money. He cannot be seeking more glory, as nothing he can do now will erase the defeats by Dempsey and Siki from his record, and he can't hope to defeat any of the American heavyweights whose names could be fore any of his old practices.

The Frenchman very obviously figures that he can beat Gene Tunney, the American light heavyweight champion, because he wanted to fight Tunney's best, he must. That is why Carpentier knows that he can't beat Gibbons and he wanted "big shot" here this summer to close his career.

Tunney knows that he is regarded as being easy by Carpentier and he does not try to deny it.

"When Carpentier was in this country," Tunney says, "he was a new Paul Simonson, and I'll agree that it was a terrible thing. It was the worst fight I ever put up. Carpentier got up about the sixth round, gave me a nasty look and walked out. He became convinced, then, I suppose, that he could beat me."

Tunney was the one who blocked the deal when Floyd Fitzsimmons, Chicago promoter, offered \$100,000 for the contract. The Frenchman had signed with him. Tunney refused to give up the bout and, his reasons show how lucky Carpentier had been compared to some of the other fighters.

"In the fight he was a real plain, whatever that means, and I have not had a chance to get a thing out of it," Tunney says. "I have had only two fights since I lost the title and I worked both."

the 12 1/2 per cent. A lot of ordinary fighters get more than that. I want to fight Carpentier because he'll draw a house and I'll get some real money for my end. If I don't get Carpentier, before Gibbons does, I'll never get him. I'm smart enough to know that Carpentier will not be a card when Gibbons gets through with him.

"If Gibbons beat Carpentier and I wanted a match with Gibbons, I'd have to take his term, and I would not be more than another 12 1/2 per cent. If I had Carpentier, I could fight Gibbons on my terms and I could be entitled to it."

Carpentier had a fortune thrown to his lap, and Tunney has to go to all kinds of extremes to get him off some return from his title. He was forced to the expenditure of about \$5,000 out of his own pocket to get Carpentier signed to the title.

Tom Gibbons is the most striking example in this country of bad breaks. Carpentier's good breaks.

Next to Jack Dempsey, Tom Gibbons is the best crowd in the country, but he has to go around the province taking \$1,000 and \$2,000 fights, because the good fighters will not meet him.

Gibbons went 15 rounds with Deeney and didn't get a cent. Carpentier got \$100,000 for a game he won by a margin and taking a punch on the shoulder.

Gibbons was pushed out of the big game with New York last year, but he has more than that back word in his pocket. He had a fight postponed here this summer with Dempsey and Dempsey, for some reason, decided that he didn't want to fight him. Dempsey probably knows that Gibbons would be good to look after.

Gibbons was in the big fight with Lopez because he got a reputation in that fight and it is possible that he could like to look that reputation. Gibbons has had a fight with Carpentier right within his reach and he was pushed out of that because the Frenchman's manager got the better of him.

with the fountain pen and signed up for a fight ahead of him.  
He was promised a "shot" at the winner of the proposed Turkey Carpenter match, but he'll never get it if Tunney wins. Tunney doesn't want any part of Gibbons and it's a cinch if he beat Carpentier he would want to capitalize on the victory for at least a year before he would take a chance on being smacked over by Gibbons.

More than two years ago Tex Rickard signed Gibbons to meet Carpentier and the Frenchman accepted terms, but he never lived up to the contract. He let Rickard know that he was through with the fight and if the old urge for dough didn't come back on him it is doubtful that he would have brought his chin out of the shell again.

A quick bettering of the economic position is not to be expected. By the catastrophe in finance during the last month, the government was forced to give up most acquisitions of the revolution. By parliament, the government to which the socialists no more belong conferred on itself dictatorial authority. To keep order, a state of siege was established over the whole country. Besides the communistic party was prohibited. It is in no way permitted to be active. Their newspapers too were forbidden.

In the following weeks a series of vital measures were resolved. Thus the additional allowances paid in the last years by government for vicinals, especially for bread and sugar, were suspended. In time to come the tax supply for the building of houses will be likewise abolished. # Escanaba's Auto-Radio Show Pleases Crowd

## HUNDREDS ARE ATTRACTED BY FINE DISPLAY

### Country Store Makes Money for Base Ball Team at Show.

### Pep Jazz Orchestra Furnishes Music that Makes Old Timers Step Lively About Coliseum.

Yes, Escanaba is again being entertained by the annual automobile and radio show and this time the opening night broke a record for attendance. The Coliseum is a pleasant place to go. It has been nicely decorated for the big show and is well lighted, so that the exhibits are very easily seen to good advantage.

This season some new cars have made their bows before the public at the show. The Chrysler is new in every way, this being its first year before the public of the United States. The Maxwell has a new model and the Oldsmobile "Six" was not seen last year at the show.

In fact, most of all the cars sold are shown at the exhibit. A. J. DeGrand & Co. have a large space, but it was empty last night. Perhaps Jules will drive down some of the

new Gray cars and show them this evening.

Radio exhibits are exceedingly good, but there is not much chance to hear them, for the Jazz orchestra is manned by honest musicians who believe in earning their money, and they do not "come up for the air" for very long at any one time. Anyhow the visitors are satisfied to see the different sets on display and they know now that any set on display at the show will work—if it did not, it would not be shown.

Special battery exhibits and displays of the many kinds of lubricating oil and grease are shown by many dealers as well as a general display of automobile and camping accessories by the Delta Hardware Company and others.

The Country Store, being conducted by the committee to raise funds for a new base ball club was so well patronized last night that a second store will be opened this evening to take care of the customers who were disappointed last night by not being waited upon.

Many out of town people drove in last night to see the show and declared they would go home and tell their friends to come in some day during the week to take in the wonderful displays.

Each evening special features will be put on and there will not be a dull minute while the show is on.

Edwin Monsour of Milwaukee visited at the home of his mother and family at Kipling over the Easter holidays.

Mrs. Eugene Enberg of Kipling was in the city on a business trip today.

## UP TOWN SHOW BY WOLVERINE DRAWS CROWD

### Is Not in Opposition to Big Show, But Is a Booster for It.

### Many Local People and Visitors from Other Towns Were Attracted to Display Rooms Last Night.

The Wolverine Motor Company is staging their own automobile show this week, not in opposition to the big show at the Coliseum, but as a booster in the business section to help it along.

It was found by the Wolverine Motor Company that they could not get enough space in the Coliseum to display their full line of cars, so they decided to have a show in the big display room on Ludington street. The interior of the room was handsomely decorated with a new lighting system and other decorations added for the occasion.

A neotryve radio set furnishes the music and last night hundreds of people went in to look over the different models of cars handled by that con-

## Society

### Birthday Party.

Miss Cecelia Seidl was the honored guest of a surprise party given at the home of her parents at Wells last night by the members of the Fifty-Fifty Club. The various diversions of the evening were games, dancing, music and a few tables of Mah Jong, which was followed by a wonderfully prepared birthday luncheon.

# On Exhibition Gratis

### Something more worth while to see than the seven wonders in all the world.

Lots of people travel to the four corners of the earth and spend thousands of dollars to see less of real worth and merit than can be seen gratis at your Central Cash Market.

On March 24th, 1924, Herman Winters sowed tomato seed in SOIL MANNA treated hot beds on the Kurz Bros. farm, and on the 22nd of April, 1924, Mr. Winters brought in the thriest looking 9 inch high tomato plants we have ever seen before.

Mr. Winters has raised a lot of tomato plants as well as tomatoes in his days. You cannot help but remember the delicious choice of the choicest tomatoes which for many seasons were shipped by boat from Garden to this city. It was Herman Winters who raised them.

Congratulations, Kurz Bros., for securing the services of tomato wizard Winters.

Mr. Winters informs us that it always took him 90 days to raise 8 to 9 inch high tomato plants, no matter whatsoever kind of fertilizer he used and that in seasons when we had better growing weather and more sunshine than obtained through March and April thus far. The constant, steady growth of these plants simply took Mr. Winters by surprise. For did he not come in a week ago and said: "Well now, Mike, you got me to use SOIL MANNA in these hot beds and now these tomatoe plants grow so fast and rank that you ought to give me something to stop them from growing for a while."

Those plants are crowding Mr. Winters' beds. He is obliged to do some heavy thinning out, and here is where you lovers of early deliciously-ripe tomatoes will shine. Here is your chance to get sturdy, pedigree tomato plants for the mere bagatelle of 15 cents per dozen thrifty plants. Plants can be seen and orders left therefor at your Central Cash Market, or at Kurz Bros. farm on the State road but two miles from town.

Here is your chance to cash in on real tomato plants if you will hurry with your orders. Transplant and set out when time is ripe. Feed them SOIL MANNA in either the dry or liquid form and you will be the proud raiser of better and finer ripe tomatoes than Herman Winters was ever able to raise before he came to know and use SOIL MANNA.

Get your tomato plant from Herman your SOIL MANNA from Mike, and all will be well in tomato dom.

YOURS TRULY,

## Mike Gunter.

## We Are Not Displaying Our Radio Sets at the Auto-Radio Show. BECAUSE

—the space allowed us there would not permit us to satisfactorily demonstrate our complete Radio line. We invite all Escanaba's and particularly all outside callers, to make their Radio Headquarters at our store. Our sales people stand ready to serve you in whatever you may wish. We have engaged the services of a Radio expert from Chicago, who will be at our store to help you with your Radio problems. He will be glad to explain the latest instruments.

## Sold Since Tuesday Morning

ELEVEN RADIO SETS—four of which were the late four-tube NIGHTINGALE SERIES II Sets. We just wrote in for 50 more NIGHTINGALES.

Just think!—a four-tube NIGHTINGALE "Packard Radio at Ford Price"—going at this ridiculously low price of \$22.50. We advise you to put your order in NOW and protect yourself. The new shipment won't last long at this price.
