PRICE FIXING SUGGESTED BY STEEL MAKER

FAIR RETURN ASKED FOR MAINTAINING WAGE LEVEL

Washington, May 25—Another phase of the wage problem now laid on the government's doorstep is involved in the speech of James A. Farrell, president of the U. S. Steel Corporation, who criticized other steel companies for failing to maintain wage standards.

It introduces the problem of price fixing, which for more than a generation has been under the ban of the government through the operations of the Sherman anti-trust law.

Contrary to Law To accomplish what Mr. Farrell desires it will be necessary for the other steel companies to take concerted action and this means possible prosecution under the Sherman law for price fixing.

INCREASE CAN NOT BE AVOIDED, SAYS COUZENS

Washington, May 25 (P)—Secretary Mellon's discussion of federal tax remedies drew fire today from senate Republican independents and Democrats.

Senator Couzens, Republican of Michigan, of the finance committee, said the Mellon speech was "an obvious attempt to sustain the evident intention of the administration not to have a tax raise at the next session."

Senator Borah, Republican, Idaho, saw in Mr. Mellon's radio speech Saturday night a move toward extending the income tax to the lower incomes.

POSTAL DEPT SAVINGS LARGE

Vacancies in Personnel Reduced Expenses \$38,000,000

Washington, May 25 (AP)—A \$38,000,000 reduction in postoffice department expenses this fiscal year was today by Arch Coleman, first assistant postmaster general, to have been due largely to vacancies in personnel which had not been filled.

His statement was made after President Hoover returned to the White House from a week-end conference at his Rapidan camp on the postal deficit. The chief executive expected a \$38,000,000 saving this year and \$15,000,000 next year.

Meanwhile, Representative Kelly of Pennsylvania, a Republican member of the house postoffice committee, said if the "president and postmaster general intend to curtail service to effect the economy in the postoffice department it will be a bad policy and will be opposed in the next congress."

Personal reduced "Increased volume of mail is the answer to the postal problem of today and we certainly can't get an increase by a reduction of service," he said.

Coleman said a decrease of seven to fifteen per cent in the volume of mail during the depression had left the postal service overmanned and the situation had been met by not filling vacancies resulting from death, retirement or dismissal for cause.

The personnel had been lowered by about 2,100, he said, adding "not a single employe has been discharged except for cause."

The president's week-end conference was the third he had had in an effort to find ways of reducing government expenditures. Previously, he had conferred with war and interior officials and plans were announced for decreasing expenses in those departments.

Next week-end the president is expected to study either the treasury or justice expenditures with other departments to come under scrutiny later. Mr. Hoover hopes to reduce government expenditures annually by \$125,000,000 to \$150,000,000.

Professor Miller Of Ohio Dismissed

Columbus, O., May 25 (AP)—Ohio State university trustees failed to renew the teaching contract of Professor Herbert A. Miller of the sociology department for next year, it became known today. Professor Miller has headed the department since 1925.

Professor Miller confirmed the report of his dismissal, but would make no further comment. University officials also refused to comment.

During a recent trip abroad Professor Miller was closely associated with the non-violence campaign of Mahatma Gandhi, Indian leader. He recently came into the limelight by opposing compulsory military training for students at the university.

Kentucky Banker Acquitted of Fraud

Louisville, Ky., May 25 (AP)—James B. Brown, Louisville banker and newspaper publisher, was acquitted by a jury in circuit court here late today of embezzlement of \$2,000,000 on a note he gave a local broker which then was cashed by Bank of Kentucky, holding company for the closed National Bank of Kentucky. The jury was out about three and a half hours.

The defense, which claimed Brown's collateral was more than sufficient to cover the note, offered no testimony.

Trial started last Thursday and the state called among its witnesses former directors and officers of Bank of Kentucky. Most of the directors said they knew nothing of the note until the bank was closed a year after it was made.

Pope Pius Protests Spanish Disorders

Madrid, May 25 (AP)—Minister of the Interior Maura announced tonight that the government had received a note from Pope Pius XI protesting against the recent anti-clerical disturbances in Spain.

The minister refused to divulge the text of the protest but said it was "couched in cordial terms."

From reliable sources, however, it was learned that the Vatican's protest was presented several days ago to President Alcalá Zamora by Papal Nuncio Tedeschini and that it was divided into three principal parts.

Detroit Fliers On New Endurance Test

Jacksonville Beach, Fla., May 25 (AP)—A third attempt to break the non-refueling endurance flight record was begun here today by Walter Lees and Frederick A. Brosey, Detroit aviators, in a diesel motored plane.

Taking to the air at 6:47 a. m. Eastern Standard Time, they were still going strong tonight with fine weather prevailing. The present record is 75 hours and 23 minutes and the men must keep the ship in the air until 11:10 a. m. Eastern Standard Time next Thursday to set a new mark.

Lees and Brosey failed in one attempt in March and in another try last month were forced down by a storm within three hours of the goal.

Justices Give Opposite Views On Bland Case

Washington, May 25 (AP)—Here are some of the opposing views in the Macintosh-Bland case in the supreme court today as expressed by Justice Sutherland in the majority opinion and Chief Justice Hughes in his dissent.

Justice Sutherland said: "We are a Christian people x x x but also we are a nation with the duty to survive; a nation whose constitution contemplates war as well as peace; and submission and obedience to the law of the land, as well as those made for war as those made for peace, are not inconsistent with the will of God."

"It is not within the province of the court to make bargains with those who seek naturalization. They must accept the grant and take the oath in accordance with the terms fixed by the law, or forego the privilege of citizenship."

"The privilege of the native born, conscientious objector to avoid bearing arms comes, not from the constitution but from the act of congress. No other conclusion is compatible with the well nigh limitless extent of the war powers, which include, by necessary implication, the power in the last extremity to compel the armed service of any citizen in the land, without regard to his objections or his views in respect of the justice or morality of the particular war, or war in general."

"If the attitude of this claimant be held immaterial to the question of his fitness for admission to citizenship, where shall the line be drawn? Upon what ground of distinction may we hereafter reject another applicant who shall express his willingness to reject any particular principle of the constitution?"

Chief Justice Hughes said: "Professor Macintosh, when pressed by the inquirers—put to him, stated what is axiomatic in religious doctrine. And, putting aside dogmas with their particular conceptions of deity, freedom of conscience itself implies respect for an innate conviction of paramount duty."

"There is abundant room for enforcing the requisite authority of the law and for maintaining a conception for the supremacy of war as essential to orderly government, without demanding that either citizens, or applicants for citizenship, shall assume by oath an obligation to regard allegiance to God as subordinate to allegiance to civil power."

"There are other and most important methods of defense, even in time of war, apart from the personal bearing of arms."

"Among the specific requirements as to beliefs we find none to the effect that one shall not be naturalized if by reason of his religious convictions he is opposed to war or is unwilling to promise to bear arms."

"Nor is there any ground, in my opinion, for the exclusion of Professor Macintosh because his conscientious scruples have particular reference to wars believed to be unjust. There is nothing new in such an attitude. Among the most eminent statesmen here and abroad have been those who condemned the action of their country in entering into wars thought to be unjustified."

"The battle for religious liberty has been fought and won with respect to religious beliefs and practices which are not in conflict, with good order, upon the very ground of supremacy of conscience within its proper field."

and that the young teller told him one evening he was looking for "a couple of men with a lot of nerve" to help him make a fortune robbing the bank.

"I thought he was joking at first," Morgan said, "but later found out he was serious. He turned my mind. I kept thinking about it because my parents were over their necks in debt."

Grandon borrow a key to a side entrance of the bank from a director one day, Morgan said, saying he wanted to go to work early the next morning. He gave the key to Morgan, who had two employees made in Detroit, the statement says. Grandon returned the key the next morning.

Robbery Postponed The robbery originally was planned for last Monday, Morgan said, but was postponed by Grandon because, he said, Grandon discovered the amount of money in the bank would not be as large as usual that day. Morgan said Grandon told them Thursday night there would be \$63,000 on a certain money truck in the basement vault room the next day and that would be a good time for the robbery.

It was arranged he said, that Grandon should signal the two youths from inside the bank when the time was ripe for the robbery.

He gave the signal, Morgan said and the robbery was carried out. But instead of the \$63,000 they had expected to get, the robbery netted only about \$18,000, of which \$12,500 eventually was recovered.

It was Grandon, Morgan said, who suggested the escape by airplane, and Kish volunteered to take flying lessons which would enable them to steal a plane for the flight into Canada.

It was agreed, Morgan said, that he and Kish should fly to Montreal, "hide out" for several months, returning to Detroit the first Wednesday in December to meet Grandon between 9 and 10 a. m. in front of a designated poolroom on Woodward avenue in Detroit and divide the loot equally.

Edison Burned By Acid During Test

Fort Myers, Fla., May 25 (AP)—Thomas A. Edison, the inventor, had the fingers of both hands bandaged today as the result of acid burns received last week.

Riblet, messenger for a Canton bank, killed Charles Kish, one of the robbers, as he fell mortally wounded. The loot later was recovered in Romeo's room.

PLANES VISIT NEW ENGLAND

Thousands Line Shores To Witness Aerial Maneuvers

Boston, Mass., May 25 (AP)—New England thrilled today to the onrush of nearly 700 army airplanes that swept eastward to the shores from Springfield, Mass., and Hartford, Conn., to repel a mythical invader, threatening the coast.

One group of 36 reced northward across Maine, New Hampshire and Vermont to come to rest, finally, at the airports at Schenectady and Albany, N. Y. More than 600 others took part in a tremendous demonstration over Boston. The planes later flew back over southern New England to the four airports at Springfield and Hartford, at which they were quartered. But before the day was closed, another aerial demonstration was given over Springfield.

Thousands See "Fight." Boston cast away its tradition of aloofness as schools were closed and hundreds of thousands crowded the wide-sweeping shores of Old Harbor, Dorchester Bay. There, a crack group of pursuit, attacking and bombing planes, 39 in number, roared through the sky in attack demonstration, low altitude formation, pursuit assaults on attacking planes, bombardment formation as in bombing raids, pursuit attacks on bombers, high speed formation flying, two pursuit planes in a "dog fight" and combat acrobatics.

The crowd remained to see the impressive 20-mile procession of 600 planes which came in from the west, just after noon.

One mishap marred the day's maneuvers. A pursuit plane nosed over in landing at Springfield. Lieutenant Curtis Lemay of the 27th pursuit squadron, the pilot, said a locked brake on one wheel caused the accident, which damaged the plane somewhat. He was unhurt.

Another Civil War In China Predicted

Nanking, China, May 25 (AP)—Another Chinese civil war to begin in a few days with Nationalist government troops lined against rebels of Kwangtung and Kwangsi provinces, was predicted tonight by Chinese political circles.

The prediction followed denunciation by Nationalist Chairman Chiang Kai-Shek of asserted attempts by Communists in the provinces to overthrow his government after his refusal to resign.

In a statement to the nation, Chiang Kai-Shek said the crisis essentially is one between the Kuomintang (National People's Party) and the Communists.

Gandhi's "Talkie" Rushed to America

New York, May 25 (AP)—Talking picture audiences in hundreds of first-run houses throughout the United States will soon see and hear James A. Miller's interview with Mahatma Gandhi at Bord, India, April 30. Mr. Miller is a foreign correspondent of the Associated Press.

Associated Press newspapers printed cable accounts of this unusual interview May 1, and readers then were told how the mahatma said he was tortured by his first experience before the microphone. The leader's voice was weak and low. He was repeatedly urged to speak louder, and consented although he protested it was painful.

The Gandhi film was rushed to the United States by airplane and ship and is now being shown in one theatre in New York city. It will be sent out Wednesday for general release throughout the United States late this week.

Escanaba Business Places Inspected

Fire Chief Arvid Johnson started out Monday on his inspection tour of Escanaba business places and industrial buildings.

The firemen are looking for accumulations of rubbish and other bad conditions in basements, attics or storerooms likely to create a fire hazard, and recommendations are being made for improvement where needed.

The inspection is conducted annually as a part of the spring clean-up.

Shrub Despoilers May Get Bad News

Destruction of shrubbery and flowers is likely to get some Escanaba youngsters in trouble.

The police department has been receiving a number of complaints of shrubbery pulled up and broken down and flower beds trampled by careless and thoughtless boys and girls. One resident told of having a row of shrubs pulled up outright by the miscreants.

The police are collecting names of the guilty children, and parents may be paying bills for damages shortly unless the depredations are stopped, the police department says.

New Applications Keep Police Busy

With the receipt of a new supply of blanks, the Escanaba police department is now ready to handle applications for operators' and chauffeurs' licenses. To speed up the process, applicants are asked to bring a certified check with them to cover the cost of the license.

In the case of the operators' licenses, the charge is \$1, and the chauffeurs' licenses are \$2 each. Applicants for the latter must be accompanied by a photograph not larger than 1 1/2 by 2 inches. Over 100 applications had been sent in by the police department yesterday.

WAR'S LESSONS TOPIC OF TALK

T. J. Lynott Tells Rotary Why Nation Should Be Prepared

In an appeal for general military preparedness before members of the Escanaba Rotary club yesterday, Thomas J. Lynott, president of the Northwest Fruit Company, told a story of the unpreparedness of both Great Britain and the United States, at the opening of the World war, that thoroughly stirred his audience. As a member of the Canadian army, Mr. Lynott served throughout the war, permitting him to speak both with authority and intimate knowledge of facts which he detailed. His story, told without oratorical effort, made a profound impression upon Rotary Club members and when he concluded the speaker was accorded an ovation seldom given a speaker before that organization.

Announce Memorial Rites
Mr. Lynott appeared before the Rotary Club yesterday as a representative of Cleveland Post of the American Legion, to request the club to be represented in the Memorial Day parade on Saturday and accepted, the occasion as an opportunity to emphasize the importance of a day dedicated to the memory of a nation's soldier dead. And in imparting his message he related facts, from his own knowledge, of the greatly increased death toll, among both British and American forces, because of the unpreparedness of both nations at the outbreak of the World war.

Mr. Lynott insisted that a proper Memorial Day observance is not only due the living and dead heroes of a nation, but serves to emphasize in the public mind the necessity for military preparedness for any national emergency that may develop. It was with this thought that Mr. Lynott related his own experiences in the war, together with facts which came to his knowledge while in that service, combining to prove the unforfeitable crime of forcing men into battle without a preparation ration behind them.

Mr. Lynott gave strong endorsement to the military training camps, conducted each summer, for the youth of this country and urged that every father should give thought to permitting his son's attendance at such a camp. He pointed out that in such camps young men are given an opportunity to learn the rudiments of military training, as well as develop qualities of independence and a moral training such as will be found to have a most important influence upon their later lives.

Piqua Handle Co. Sawmill Running

The sawmill at the Piqua Handle company's plant at Marquette, which has not been running for nearly a year, will be put in operation in a few days. It was announced Saturday by officers of the company. The mill will be operated on an eight-hour shift, five and one-half days a week, and will furnish employment for about 45 men, among whom will be some of those who were employed in other departments of the plant and who were laid off early this spring.

Impressive Program at Escanaba May 30

Memorial Day will be fittingly observed in Escanaba and tribute paid to the memory of deceased veterans of wars in which the United States has been engaged. This information is gained from the fact that committees of Cleveland Post, American Legion are already busy shaping their plans for the day. The expression is freely made that the local post is anxious for the commemoration of life and heroism of those who died in service and since to be more impressive than at any observance yet held.

Differing from some pasts and some of the past programs of the Memorial Day exercises will be the complete and thorough arrangement this year which will bring various units and organizations together under the general direction of the American Legion.

The selection of Tom Lynott as Grand Marshal of the day gives the program a touch of international color and brings officers and men from two of the allied armies together. Mr. Lynott was a major in one of the overseas divisions of the Canadian army, and served overseas for three years.

Visit Three Cemeteries
The arrangements committees have been assembling their plan which will bring together bodies of individuals and groups to compose one of the largest and most impressive processions held in Escanaba in many years. Starting an hour in advance of the regular procession will be the meeting shortly before eight o'clock in the morning at the City Hall of the Drum and Bugle corps of the legion and the Firing Squad under the direction of Eric Pierson. This unit will be taken to St. Joseph's, St. Anne's and St. Patrick's cemeteries where appropriate military music will be played and a volley of shots fired over the graves of service men who the remains rest there. At the conclusion of this brief ceremony the buglers, drummers and firing squad will return to the meeting place to become a part of the entire procession.

At 8:45 o'clock assemblage will be made at the City Hall. All former service men are expected to attend and be in military uniform. Again the Drum and Bugle corps will take the head of the line of march followed by Spouse-American War veterans, Women's Relief Corps, High School Band, High School Girls Athletic Association members, City Rotary members of Kiwanis and other fraternal organizations. Where possible fraternal societies are expected to designate their proper classification by an appropriate flag or emblem. The color bearers will

of course, hold the head of the line. Other units of the line of march will be announced.

Attend Flag Raising
Leaving the City Hall, the various units will proceed to Merchant's Dock where brief Naval services will be held under direction of the W. R. C. Leaving the dock, the procession will be directed to Lakeview cemetery where the morning program is to be held.

The Rev. Karl J. Hammar will give the address at Lakeview cemetery, and Robert Oshins, Escanaba high school orator, will give Lincoln's Gettysburg address.

All flags in the city will remain at half mast until noon and then raised to full staff. At the conclusion of memorial services and the program at the graves, the procession will march back to the City Hall where it will disband, drawing to a close the morning program.

In the afternoon, the Drum and Bugle corps will assemble again and proceed to the High School Athletic Field to participate in the flag raising ceremony just prior to the holding of the Upper Peninsula Relays. The new uniforms for the Drum and Bugle corps have arrived and will be worn for the first time May 30.

Special stress has been laid by the committees in charge on the necessity of all participating organizations keeping on schedule and carrying out the orders which will be issued as to their parts in the day's program. Escanaba expects quite a number of visitors to be in the city on that day and the legion members have expressed themselves as being desirous of having the Memorial Day observance here one of an outstanding nature.

H. I. DAVIES IS LOWEST BIDDER

Price of \$30,481 Given For Concrete Paving on Washington Ave.

Three contractors submitted bids for the paving of Washington avenue when proposals were opened at the office of the Delta county highway commission Monday morning. H. I. Davies was the low bidder on the job, which calls for a 34-foot concrete pavement with curb and gutter, constructed on joint agreement of the city and county. The county's share of the project consists of a 20-foot traffic lane, while the city will pay for the six foot parking lane and two-foot curb and gutter on each side by assessment on abutting property.

Bids received on the project were as follows:
Coleman Nee bid—
City share ----- \$17,300.19
County Share ----- 14,188.00

Total ----- \$31,488.19
H. I. Davies bid—
City Share ----- \$16,511.99
County Share ----- 13,969.53

Totals ----- \$30,481.52
M. J. Bacco of Iron Mountain also participated in the bidding, but did not submit a complete bid on all items. It is expected that the work will get under way shortly. The route is intended as a cut-off for Gladstone-Escanaba traffic, and a connecting link between the new US-41 and M-35.

START with a "Caterpillar" END with a Profit

THERE'S no loafing in the life of a "Caterpillar" Tractor. Early to work . . . straight furrows behind the plow . . . right over swale, gulleys and wet spots.

Thorough cultivation with disk or harrow . . . over the soft seed-bed with wide tracks that do not pack . . . that save power and fuel by their sure-footed grip.

Then a safe harvest even in a showery season . . . to the envy of other farmers who don't own a "Caterpillar." Dependable power and

sure traction "hitched up together." At the year's end . . . extra profit comes from extra power, extraordinary traction and reliability.

It picks up its tracks behind it! The "Caterpillar" Tractor is like a cross country locomotive . . . It lays its own tracks ahead of itself and pulls them up behind. Broad tracks that carry the machine over the difficult spots that used to delay farming operations.

NEW STEAMER LANE MAPPED

Escanaba Bound Vessels Given Directions at Point Lighthouses

A new steamer lane for downbound vessels in Lake Michigan has been charted as an aid to navigation on the Great Lakes.

The new course is described in the following bulletin issued by the Lakes Carriers Association.

While no changes are made in the northbound course nor in the courses on Lakes Superior and Huron, all are listed.

These courses or limiting lanes, are plotted by the United States lakes survey on the general charts of these lakes:

Lake Superior
Downbound vessels in Lake Superior shall lay a course from Duluth or Superior to pass not less than 12 miles north of Copper Harbor nor less than 10 miles north of Devils Island. The course shall then run from Copper Harbor to Whitefish Point.

Upbound vessels in Lake Superior shall lay a course to pass not more than five miles north of Manitowish, five miles north of Copper Harbor, five miles north of Eagle Harbor and five miles north of Devils Island.

On the downbound course from Ashland, also in Lake Superior, vessels shall lay a course from La Pointe to the intersection of the downbound course from Duluth 10 miles north of Eagle Harbor.

Lake Michigan
Southbound vessels in Lake Michigan, over the new course, bound for points north of Milwaukee, shall run out 30 miles from point of departure abreast of Lansing Shoal on course to Rock Island Passage, thence to destination.

Southbound vessels in Lake Michigan, bound for points below Milwaukee, shall run out 30 miles from point of departure abreast of Lansing Shoals on course to Rock Island Passage, then head on Milwaukee Lightship to a point 19 miles, 115 degrees from Twin River Point Light, thence to destination.

Vessels from Sturgeon Bay and Points north as far as Port Inland, bound for ports near the south end of Lake Michigan, shall steer to a point 19 miles, 115 degrees from Twin River Point Light, joining the main southbound lane, thence to destination.

Vessels northbound on Lake Michigan for the Straits of Mackinac, will navigate by way of the Manitowish Passage. This rule does not apply to vessels coming out of Green Bay.

Vessels bound from South Chicago, Gary and other points near the south end of Lake Michigan to Escanaba, shall keep, not

more than eight miles off Wind Point and not more than five miles off Twin River Point Light.

Vessels bound from South Chicago, Gary and other points near the south end of Lake Michigan to Port Inland shall navigate the northbound courses to Wind Point and Twin River Point Light and thence to destination.

Lake Huron
Downbound vessels in Lake Huron shall lay a course from DeTour Passage to pass not less than 12 miles NE by E of Thunder Bay Island, thence not less than 12 miles ENE of Harbor Beach. Downbound vessels from the Straits of Mackinac and Caliste shall lay a course to intersect the downbound course 10 miles NE by E of Presque Isle, and vessels from Rockport shall lay their course 12 miles NE by E of Thunder Bay Island.

Upbound vessels in Lake Huron shall lay a course to pass not over five miles ENE of Harbor Beach, and not over five miles NE by E of Thunder Bay Island.

When ice and weather conditions hinder these rules masters may exercise discretion in departing from these courses.

Suspect Released On Larceny Charge
After a hearing in justice court, Delta county officers have released Charles French, 50, who was arrested at Wabeno, Wis., on a local larceny charge. No evidence was found to connect French up with the case, which involves the disappearance of about \$70 worth of foodstuffs from the Leo Dubar camp near Nahma.

Ed Ziemer, who is now serving a sentence in the Oconto, Wis., jail for driving a car while under the influence of liquor, is to be brought back to Escanaba for questioning on the case as soon as his present jail term expires, local officers announced.

Spearing Season to End May 31st
Spearing in Michigan's non-trout streams will cease at midnight, May 31.

Since April 1 spearing has been permitted in these waters for the taking of non-game fish and since May 1 spearing of pike has been lawful.

AMUSEMENTS

AT THE DELFT

A new Nancy Carroll, more dramatically real than ever before, is revealed to moving picture audiences by the red-headed star's latest, dramatic portrayal, in "Stolen Heaven," the Delft Theatre attraction today and tomorrow.

The musical comedy and light romantic roles which introduced the vivacious young woman to motion picture audiences have been left far behind, and Miss Carroll takes her place with the true dramatic artists of the screen. In "Stolen Heaven" she gives deep meaning to a role actually taken from life. She reveals hidden resources for interpretation heretofore only hinted at.

A small town girl, loose in the city without money or friends, haunted by fear, with death seeming her only outlet, she meets Phillips Holmes, a man gone wrong, hunted by police and with the proceeds of his first robbery in his pocket. Together they make a pact. They will take their final fling at life in the grand manner until their money is gone and then face death together.

Florida opens its gayety and pleasures to them. They dance, dine and gamble away the money Holmes has stolen, and all that

remains for them is death. But they have now discovered they love each other. Life has meaning after all. Nancy, in a desperate effort to save Holmes, asks a wealthy admirer to gamble their remaining dollars. The admirer loses, but, hoping to marry Nancy, she pretends to have won. Nancy asks him to repeat, and again he supplies "winnings" from his own funds. Equipped with the money, Nancy persuades Holmes that they can now return the stolen money, and, together begin life again.

But their hide-away has been discovered by the police. They are arrested, escape by a ruse and flee to Cuba. Nancy's wealthy admirer asks her to marry him and desert Holmes, but Nancy sees a way clear. She persuades Holmes to return and face the law, promising to wait for him and a new life together.

Local Fire Chief Will Get Picture
Beautiful 8 by 10 colored desk photographs of the J. W. Wells plant fire at Menominee on April 13 have been prepared by a Menominee studio for presentation to the fire chiefs of Escanaba, Green Bay, Marinette and Menominee.

All these departments assisted in curbing the blaze as it swept into Menominee's residential section, and the gifts will be made in appreciation of "good work."

Baldwin Township Adopts Fast Time

Perkins, May 25, (Special)—At a meeting of the Baldwin township board held Saturday fast time was adopted and all clocks were set one hour ahead Sunday night. Although the change does not meet with popular favor here, the community did not like to be out of step with neighboring towns.

Build Cemetery Road
A strip of land adjacent to the cemetery has been purchased from John Fuhrman by the township of Baldwin and a road is going to be constructed which will lead through and around the cemetery so that the difficulty of parking and turning on cemetery hill will be done away with. A box of men and teams is called for Tuesday and it is expected a large number of men will turn out and lend a hand to this project which is of interest to every resident of the place. The road will lead around the west side of the cemetery and the old concrete vault which is crumbling away will be crushed into stone for dressing the road.

Gibbs Return
H. D. Gibbs and daughter, Mary, motored to Green Bay on Friday returning Saturday. They were accompanied on their return by Mrs. H. D. Gibbs who had spent the week at the home of Mr. and Mrs. Joseph Gibbs where

Mr. Gibbs has been confined to his bed for the past two weeks with a serious attack of the flu, complicated with pleurisy and neuritis. Mr. Gibbs, who is in his 55th year, is convalescing favorably at this time.

Rock Wins, 6-3
The first game of the season was played at Rock on Sunday. The weather was unfavorable and the game was rather slow, resulting in a 6 to 3 score in favor of Rock. Archie Miron pitched a good game for the locals and Stanley Deloria was on the receiving end.

Band Concert Enjoyed
The concert given by the All Saints school of Gladstone on Sunday afternoon in the basement of St. Joseph's church was thoroughly enjoyed by the entire audience. The concert which was intended by Fr. Coignard as a treat for the catechism classes proved a treat for the whole congregation. Every member was excellently rendered and would have done credit to any group of older and more experienced musicians. The sisters and members of the orchestra are to be congratulated on the wonderful progress made in music.

Personals
Bud Rico leaves for Minneapolis on Tuesday.
Margaret Gibbs left Monday for Blaney Park resort, where she expects to be employed for the summer.
Leslie Lancour of Munising

was a Sunday visitor here. He spent part of the day working at the cemetery.

Breaks Jaw While Working In Plant
Gust Olson, who is employed at the Chicago & North Western tie plant, was taken to St. Francis hospital Saturday evening, suffering with a fractured jaw which he sustained while at work as stationary engineer at the local plant.

Mr. Olson was resting comfortably yesterday although the injury was painful. Mr. Olson was alone at the time of the accident and no one knows just how the accident occurred.

Everyone Takes A Hand; Clocks Set Back Plenty

One well-known Escanaba business man is just about now finding his household adjusted to daylight saving time. It happened this way: Mr. Business Man set his clock ahead Saturday night instead of Sunday, and awakened bright and early the next morning, discovering his mistake after he had taken a morning walk down town. He returned home, called his wife and told her of the mistake, advising her that she would have another hour's sleep to enjoy before arising for Sunday services, and set the clocks back. She arose an hour later and recalling her husband's mistake, she set the clocks back an hour.

For a while there was confusion, but the household has just about figured it out and from now on breakfast is being served at breakfast time.

DELEGATES FACING ANGLO-GERMAN PROBLEMS

Old Heads of Politics To Study Trade, Arms

By EDWARD STANLEY
London, (AP)—Four "old heads"—shrewd and cautious but brilliant minds—will mull over the problems of Britain and Germany at Chequers the second week in June.

Once postponed, the informal Anglo-German conversations now definitely are scheduled for June 5 to 11. No definite program has been outlined because every topic of conversation seems dependent upon other circumstances.

These discussions are expected to have none of the formality that usually marks international conferences.

The four old heads, wise in the ways of economics are Chancellor Brüning and Foreign Minister Curtius for Germany, Prime Minister MacDonald and Foreign Secretary Henderson for England.

Henderson and MacDonald are Crots and in the main are cautious men; but they have political cunning as well.

Each has climbed up from the bottom, works at his job now with tremendous energy. Labor's diplomatic laurels are due to the work of this team, long and practiced in harness together.

Brüning, a bachelor of simple habits, likes informal gatherings, and so this meeting should be to his taste.

Curtius has a quick lawyer's mind and is something of an authority on political economy. Both are negotiators of mettle.

They will be the first German statesmen to come to England for such a purpose since the war.

Two chief subjects will be discussed. The English, full of trade depression, want to talk business. Germany wants to talk debt revision.

Germany has become one of England's best customers, ranking just under the United States, and, while England is protected by a favored nation pact, the proposed German economic union has raised a patterning of alarm and an early outbreak by Henderson, England can't afford to lose customers at the moment.

As for debt revision, Britain probably will reply that this is an unprofitable time to discuss the question with America, which always must be considered because British payments to the United States depend in part upon the flow of payments from her European debtors.

Further question, troubling Germany particularly, is disarmament.

Germany's plaint is that recent treaty restrictions on her military establishments leave her in a helpless position unless her neighbors begin a real disarmament movement.

TEACHER WILL BECOME PRIEST

Ordination Ceremony of Martin Melican at Marquette June 7

An event of unusual interest in religious circles and of particular interest to former Escanaba high school students and others who knew him, is the announcement of the coming ordination to the Holy Priesthood of the Roman Catholic church, of Martin B. Melican, of Manistique.

Mr. Melican, who has completed his studies in preparation for the priesthood at St. Naziance Seminary and at Kendrick Academy, Webster Groves, Mo., near St. Louis, will be ordained on Sunday, June 7, at St. Paul's Cathedral, Marquette, by Most Rev. Paul Joseph Nussbaum, C. P., D. D., Bishop of the Marquette diocese.

The first solemn mass will be celebrated by him at St. Francis de Sales church, Manistique, Tuesday morning, June 9, at 9 o'clock. Mr. Melican is a former member of the faculty of Escanaba high school, teaching agriculture and science here for five years, 1918-22. Esquimos to Start Spring Football Practice Today

Coach W. H. Puckelwartz has called out football men for spring football. He will issue equipment to sixty candidates this afternoon. Edward Edick will be in active charge of the workouts.

Spring football work will consist of a few weeks of conditioning and intensive work on fundamentals. Because most of the experienced football players are on the track squads the spring practice will afford the coaches more time to uncover new material.

CIRCUIT COURT
Circuit court for the county of Alger convenes next week Monday with a considerable number of cases. The criminal cases are liquor law violations mostly.

An interesting case will be that of Ed. Culver vs. the Limestone township election inspectors. This case grows out of the refusal of the election board to recount the votes in precinct No. 1, such recount being asked for by Mr. Culver who was a candidate for supervisor at the last spring election and who was defeated by Frank Debelak on face of the returns.

The refusal of the board to recount was based on the manner in which the ballots were found in the ballot box when it was opened. They were unsealed. Mr. Culver contends that a recount would have shown that he had received a majority.

Another case of interest is that of Thomas G. Sullivan against the city of Munising. Mr. Sullivan fell upon an icy sidewalk opposite the city hall a year ago last winter, when he was mayor. He broke the bones in his shoulder and was laid up for several weeks. He is suing the city for damages.

PRIZE WINNERS
Twenty girls sold poppies in Munising last Saturday for the American Legion under the direction of the Women's Auxiliary. The winners of the prizes offered for girls selling the most poppies were: first prize, Luella Parker; Dorothy Nelson, second; Mariann Boucha, third; Leona Lawie, fourth; Madeline Clikak, fifth; Jean Turvo, sixth; Marie Pellitteri, seventh; Marcella Schroeder, eighth.

The girls sold 650 poppies and could easily have sold a thousand.

MUCH-MARRIED WOMAN
Philadelphia — When Jessie Jones, of Glenolden, city suburb, got married, she married the chief of police, the fire chief, building inspector, director of street cleaning, dog catcher, head of the bureau of licenses and the highway engineer. Yet she's satisfied, for despite all these, she's only married one man. He is Sam Haggart, who holds all these jobs.

Accepted For Life Ins. After Taking Sargon
"My real condition was brought home to me when I made application for insurance and was turned down," said Hans Hein-

richs, well-known building contractor, 14102 Houston St., Detroit. "It was so nervous and had such dizzy attacks it wasn't safe for me to inspect a building under construction. I also suffered from stomach trouble and constipation. This wonderful new Sargon medicine put me back on my feet a well man. I've gained 20 pounds and the other day passed another examination for insurance as in perfect health."

Nation Rolling Up Wheat Crop Beating 1930 by 50 Million Bushels

HIGH ACREAGE; CROPS BETTER

Tremendous Surplus Is Predicted for 1932 Market

Washington, (AP)—Unless unfavorable weather intervenes, the United States is expected to produce about 50,000,000 bushels more winter wheat than a year ago.

New crop estimates by the department of agriculture show production to have been increased in 21 of 39 states growing grain.

The most important increases are in Kansas, Nebraska and Texas. The former is expected to produce 175,800,000 bushels, as compared with 158,400,000 last year.

The total for the United States is estimated at 653,000,000 bushels. In 1930 the yield was 604,000,000 bushels. That compares with a 5-year average production of 547,437,000 bushels.

Both the acreage remaining for harvest and the condition of the crop are higher than last year.

The first is estimated to be 40,432,000 acres as against 38,608,000 harvested in 1930.

The condition is reported at the high figure of 90.3 per cent of "normal," whereas it was 76.7 per cent on May 1, 1930.

The 10-year average condition on that date is 82.1 per cent.

The anticipated yield, added to the estimated carryover, would give this country about 900,000,000 bushels of wheat, or approximately 400,000,000 bushels more than are required for domestic consumption. Of late years exports have amounted to about 200,000,000 bushels annually.

Thus it would appear that the 1931-32 market may feel the weight of a tremendous surplus. There is a crop of spring wheat yet to be reckoned with. That, however, does not go into export, and to a measure enjoys the benefits of the tariff.

Farmers' Appetite Cuts Hen Profits

Raleigh, N. C. (AP)—North Carolina farmers are fond of fried chicken—in fact too fond of it, in some cases.

C. F. Parrish, extension poultry specialist at State College, has found that in many cases the frying pan is often detrimental to the best interests of the flock.

Vigorous young chickens, Parrish said, are very desirable for frying, while the smaller ones are not. He has found that the farmer's appetite causes him to pick the better birds for the table.

CITY GIRLS GAIN HEALTH AND PROFITS ON FARM

Two city girls, Cora Dancy and Laura Randolph, who made good on a farm, are shown here feeding some of the 600 chickens they own. Below is Cora, left, and Laura.

Baton Rouge, La.—Laura Randolph, former stenographer and bookkeeper, and Cora Dancy, who intended to be a doctor, have turned out to be two of Louisiana's most progressive farmers.

A few years ago Cora received a degree from Millsaps College, Jackson, Miss., and intended taking a course in medicine in New Orleans. Illness, however, forced her to retire from school and move her to recuperate.

In the meantime Laura was in the midst of a humdrum routine consisting of typing form letters, making out invoices and entering figures in a huge ledger. Business life grew stale, so she sought out her girl friend, Cora, and suggested that they move to the country.

Start With Two Acres
Cora consented. The girls purchased two acres of land from Cora's uncle. On it they built a little home and started raising chickens. Soon finding two acres couldn't begin to furnish enough territory to take care of their ideas, they bought more land.

After the first year on the farm, the girls could show a slight profit. Going into the second year they again increased their holdings and diversified their farming. Today they operate Hurricane Ranch, consisting of 15 acres which they own, and 225 acres which they rent. They raise everything from spinach to Belgian hares.

Do Their Own Labor
Farm work, always considered hard for toughened males, holds no terrors for these "weak" females. They both take their turn at plowing, planting, harvesting, weeding, milking and other farm labor.

They own two mules, a grade "A" dairy barn, 600 chickens, a thoroughly modern brooder house, a delivery truck, all kinds of farm implements and a comfortable farm residence.

Both girls are firm believers in scientific farming.

If the skim milk or buttermilk is produced on the farm it can be kept constantly in front of the chicks in place of water, and the dried skim milk left out of the ration. Care should be taken that all utensils be kept clean, as disease germs breed freely in unclean milk.

Flock Reports Show Egg Production at 84 Cents A Dozen

BY B. D. KUHN
County Agricultural Agent

During the month of April seven farmers in Menominee county keeping records on their poultry flock report an average production per hen of 20.9 eggs. The cost of producing these eggs was 8.4 cents a dozen, leaving a profit of \$16.20 for each 100 birds kept.

Thus, even with the present low prices for eggs, farmers that are getting good production are still making a profit with this kind of livestock.

The report follows:

| Farm No. | No. of Hens | Total Eggs | Total Cost | Total Profit |
|--------------|-------------|---------------|-----------------|-----------------|
| 1 | 100 | 2100 | \$17.64 | \$14.56 |
| 2 | 125 | 2625 | \$21.72 | \$18.64 |
| 3 | 150 | 3150 | \$26.10 | \$22.90 |
| 4 | 175 | 3675 | \$30.48 | \$27.28 |
| 5 | 200 | 4200 | \$34.80 | \$31.60 |
| 6 | 225 | 4725 | \$39.12 | \$35.92 |
| 7 | 250 | 5250 | \$43.44 | \$40.24 |
| Total | 1325 | 28,050 | \$232.12 | \$205.56 |

The poultry situation looks promising for those who have their baby chicks now, and who will feed and care for them so that they will grow out well.

The following ration is one used by Michigan State College, and will prove to be a good and economical ration for a starting feed for the chicks.

Ground Corn, 70 parts; flour middlings, 20 parts; meat scrap, 50 percent, 6 parts; dried skim milk or buttermilk, 10 parts; raw bone meal, 4 parts; fine salt, 1 part.

If the skim milk or buttermilk is produced on the farm it can be kept constantly in front of the chicks in place of water, and the dried skim milk left out of the ration. Care should be taken that all utensils be kept clean, as disease germs breed freely in unclean milk.

CONTEST WILL CLOSE MAY 31

Low Number of Entries Makes Prize Winning Chances Good

With the selection of May 31 as the final date for accepting entries in the Better Home and Garden contest, residents planning to enter will have to do so by the end of this week if they want to participate in the biggest prize list ever offered in Manistique for a similar contest.

Prize money amounting to \$170 or its equivalent will be distributed to the winners early this fall when separate judging teams for each class will decide upon the winners, those showing the best improvements to their homes, gardens or vacant lots. Six prizes are being offered in each of six different classes, with \$35 being the highest and \$5 being the lowest within each group. Each class carries a total of \$110 in prize money. A grand championship prize of \$50 will be awarded irrespective of classes.

Only 80 Entries
Thus far less than 30 entries have been received and in some classes there is no competition whatsoever. Because of the low number of entries, those who enter the contest this week will have a wonderful chance of getting into the prize money.

The Clean-Up and Paint-Up committee, while a bit disappointed in the number of entrants, is well pleased with the many improvements made in beautifying some of the eyesores in and around the city. It is quite evident that quite a number of residents have been cooperating with the committee, but have failed to enter the contest. Those who still desire to enroll are urged to fill out the entry blank on this page and mail it to Walter M. Moon, chairman of the Paint-Up and Clean-Up committee.

Put in Curbing
Along with the Better Home and Garden campaign, but not included in it, is the special curb proposition now offered to residents through an arrangement made by City Manager Wesley B. Orr in which home owners may have curbing put in front of their property for the low price of 25 cents per linear foot.

Quite a number of residents have already taken advantage of this unusual offer which will go far toward making thoroughfares more unified and beautiful. Special efforts are being made to have all residents living in the section bounded by Main, Arbutus, Range and Cedar street, to have curbing put in, but persons living in other sections of the city may take advantage of the same offer and are encouraged to do so. The primary purpose of the committee is to have the curbing done completely in entire blocks.

Exercising Lot Built for Bull
Lack of adequate facilities for managing the dairy bull is one of the greatest handicaps to permanent dairy herd improvement. Under present conditions many good young bulls are slaughtered before their value as a sire is proved. In this way hundreds of bulls worth thousands of dollars from the standpoint of breeding are lost each year to dairymen of the county.

A demonstration exercising pen and safety breeding chute will be built in Menominee county on June 3rd through the cooperation of the county agricultural agent and the Dairy and Agricultural Engineering Department of Michigan State College.

This pen will be built on George Rasmussen's farm at Wallace.

The construction of an exercising lot and safety breeding chute for the bull will eliminate the chance of the owner or caretaker being injured by the bull.

By getting plenty of exercise throughout the year, the bull will be an active breeder to a ripe old age. Bulls kept under these conditions can be retained until their daughters have proved their production ability. If the daughters are good producers, the bull can be used as long as he is an active breeder. In this way, valuable breeding animals will be kept in service a longer time.

RAISES RUMMUS AT DANCE HALL; GETS FINE OF \$25, COSTS

Joe St. John, Manistique township, was handed a heavy fine by Judge W. G. Stephens in justice court yesterday morning when he pleaded guilty to a charge of being drunk and disorderly in a country dance hall Saturday evening. St. John paid a fine of \$25 and \$11 costs, a total of \$36. It was his third offense.

The arrest was made by Sheriff John M. Hewitt when St. John raised a rumpus and used vile language. Law enforcement officers state that offenders will be dealt with severely in an attempt to clean up dance hall conditions.

A new baggage carrier for automobiles can be folded into the spare tire carried on the back of the car.

MANISTIQUE

Stores Open On Friday Evening; Close Saturday

All stores in Manistique will close all day Saturday in observance of Memorial Day, according to a decision made yesterday by local merchants. Stores will remain open Friday evening, instead of Saturday evening as has been customary, to permit buying for over the week-end.

CITY BRIEFS

Mrs. I. W. Rowell, Hermansville, is the guest of her brother-in-law and sister, Mr. and Mrs. Ray Benner, Houghton avenue. She will return home Wednesday or Thursday.

Mrs. V. I. Hixon is in Rochester, Minn., undergoing an examination at Mayo Brothers clinic.

Mrs. Mayme Saunders returned Saturday from Ann Arbor where she has spent the past three weeks visiting her son and daughter-in-law, Mr. and Mrs. Leonard Saunders. She was accompanied here by Mrs. Roy Teeple, Brighton, who is a guest at the Volney Teeple home.

Mrs. Herman Soder and Miss Ella Sandstrom motored to Newberry Sunday to visit the former's brother, Harold Kenney. Miss Evelyn Kenny accompanied them on the return trip to spend a week at the Soder home.

Walter Morrison who has been quite ill at the home of his parents, Rev. and Mrs. C. E. Morrison, Walnut street, is gradually improving.

Mrs. Anton Weber who attended the state convention of the Women's Benefit association held in Lansing recently returned to the city Saturday. Ecroure Mrs. Weber visited relatives in Detroit, Flint and Cheboygan.

Arthur Adams, Skaneateles, was the week-end guest of his family and also his mother, Mrs. Harry Adams.

Fred Greenwood and G. M. Morrison left yesterday for Milwaukee to purchase flowers for Decoration Day.

Mr. and Mrs. Kenneth Titworth and son Willis, and Mr. and Mrs. Clara Denton, son Bobby, returned Sunday to Detroit after a week's visit at the Harvey Saunders' and F. N. Cookson homes.

Misses Louise and Lucille O'Neil, Emmet Powers and Lawrence McDonald have left by motor for Marquette to visit friends.

Theodore Palmateer, Escanaba, arrived Friday to join Mrs. Palmateer and family who have been visiting Mrs. Palmateer's parents, Mr. and Mrs. Frank Oliver, Cedar street. While here Mrs. Palmateer attended the celebration of the eighty-fifth birthday anniversary of her grandfather, George Marks, sr., held last week.

Russell Oliver, son of Mr. and Mrs. Frank Oliver, returned to the city Friday after spending several days in Escanaba.

Mr. and Mrs. Rueben Nelson and family, McMillan, are guests this week at the home of Mrs. Nelson's parents, Mr. and Mrs. Otto Sandstrom.

SEEING DANGER
London—Thousands of red circulars being received in Great Britain are being banned by postal authorities. The reason is not because of Soviet propaganda supposed to be contained in the circulars, but because the color tends to ruin the eyes of postal employees. The sorting of a large number of these circulars would cause eye strain, it is said.

For Guests
Honoring Mr. and Mrs. Kenneth Titworth, son Willis, and Mr. and Mrs. Clara Denton and son Bobby, Detroit, Mr. and Mrs. Everett Cookson were hosts to a group of friends Saturday evening at their home on Oak street. Four tables of bridge were in play during the evening, ladies' honors going to Mrs. F. N. Cookson and Mrs. Titworth. Gentlemen's prizes were awarded to Harvey Teeple. Dainty refreshments were served. Mrs. Roy Teeple, Brighton, was an out of town guest.

On Friday evening Mr. and Mrs. Ira Crawford entertained at a family dinner at their hunting camp on Bruce Creek for the pleasure of the Titworth and Denton families. A delicious picnic dinner was served at six o'clock, and the later evening was devoted to bridge.

Other guests were Mr. and Mrs. Everett Cookson and family, Mr. and Mrs. F. N. Cookson, Mr. and Mrs. Volney Teeple and family, and Mr. and Mrs. Harvey Saunders and family.

Entertains
Mrs. J. L. Turpin was hostess to several friends at a six o'clock dinner Thursday evening complimenting Mrs. George LaPlante, sons Eddie and Jimmie, Fort Wayne, Ind., Mrs. Hiram Squires, Thompson, Mrs. Peter Leggo, Royal Oak, who is Mrs. Turpin's houseguest, and Clyde Olmstead, Munising.

Dragoons Wallop
Riverside Tigers

After getting away to a bad start the West Side Dragoons took the measure of the Riverside Tigers here Sunday afternoon by a score of 14-8. The Tigers began as though they really meant things, leading at the end of the third inning by a score of 5-3. Chartist, pitching for the Dragoons, finally settled down and held the Riverside team well in hand throughout the remainder of the afternoon while his mates were combing the offerings of three Tiger pitchers to pile up 14 runs.

Settleren, Tiger pitching ace, was knocked off the rubber in the third. LaBar assumed the hurling duties and lasted until the sixth when he was replaced by Click. Chartist became more effective as the game progressed, striking out five of six batters in the last two innings. Battles were: Dragoons, Chartist, Shampine; Tigers, Settleren, LaBar, Click and Garvin.

The Manistique Warblers game with Gormfash was postponed on account of rain.

BRIEFLY TOLD

Mothers' Club—Mothers' Club of Calvary Mission will meet this afternoon at 2 o'clock at the home of Mrs. Hilma Nagle, Manistique Heights, instead of at the Charles Howard home as formerly announced.

Mrs. Eugene Forest and Mrs. Charles McCarney visited in Iron Mountain recently.

CARD OF THANKS
We wish to thank our many friends and neighbors who contributed cards, sent floral offerings or baked goods, or in any way assisted us during the illness and death of our son and father, Robert Morrison. Their kindness during this trying time can never be forgotten.

SCIENCE STILL STUMPED BY BURBANK'S PLANT PUZZLES

Santa Rosa, Calif.—Six years after the death of Luther Burbank, famed plant wizard who gave to the world thousands of hybrid plants, flowers and fruits, botanists and plant specialists are still trying to solve his "garden of puzzles."

Strange, outlandish plants, created in the fertile imagination of the wizard, are coming into being in the gardens. Plants and shrubs which a year ago seemed to be destined to grow into one type of plant or shrub today are showing entirely alien characteristics.

The widow of the famous plant breeder, with the help of the Stark brothers of Louisiana, Mo., and old John Bertino, Burbank's faithful gardener, is carrying on his work. But although they have made much progress in classifying the plant "freaks," there are thousands which still remain puzzles.

"Surprises are in store for us every time we go into the gardens," Mrs. Burbank says. "Even the horticulturists can't as yet name some of the strange flowers and fruits and plants which are growing in the gardens."

Many Surprises in Plants
"It is really a garden of puzzles."

"Plants, which early in spring we feel sure will be small shrubs, blossom into eight and ten-foot giants. It's uncanny. In everything we can still see the hand of Luther Burbank at work, but whether he was tending we do not know."

Horticulturists carrying on the experiments are working blindly in many cases, hoping something in the growing plants will show what was intended by the master who has gone."

Mrs. Burbank pointed to a pink-flowered, odorless, spear-shaped plant, as tall as herself.

"That was a tiny little thing this spring," she said. "Look at it now! I don't know what it is, neither do the Stark Brothers, University of California. Professors have failed to classify it. We are waiting, hoping that it will show kinship with some other known plant of the flower kingdom."

One of the Sebastopol experi-

Six years after the death of Luther Burbank, his widow is found aiding in carrying on his experiments. At left she is shown with one of the strange plants which science has failed to classify. At right she is shown with Burbank's 14-year-old dog, "Bonita." Inset is John Bertino, faithful gardener of the late plant wizard.

mental garden acres, the horticulturists are gathering everything that Burbank experimented with. Wherever possible experiments are being continued, in accordance with the notes left in his voluminous books.

But where no records of these experiments are available, the experimental plants are being gathered into one section of the garden and allowed to grow in an effort to determine what Burbank intended them to be.

Rows upon rows of these hybrids, cupans of the garden,

may be found in the gardens. At Santa Rosa, at the gardens in which Burbank made his home, only old John Bertino remains to continue the planting, thinning, watering and propagation of the flowers and shrubs. It is almost entirely a garden of flowers.

The old Burbank home, a white two-story frame dwelling, reminiscent of the New England farm from which Burbank came, and in which Burbank resided for many years with his mother, has been restored by Mrs. Burbank and is now occupied by her.

PREPARE PLANS FOR CONVENTION

Principal Strickland Attends M. E. A. Meeting Saturday

Plans for the annual meeting of the seventh district of the Michigan Education association were discussed at a meeting of executive and sectional officers held at Marquette, Saturday.

(Continued From Page Four)

day, she could give it to him. To stand by and watch Irene playing with him was like seeing him go to war.

"I wouldn't want him to go through that," she told herself in a spirit of sacrifice.

After that—and remembering the affection of her gang—she relaxed and such thought as she had were uplifting and soothing.

What Beryl was thinking of, and unable to decide if she feared or hoped for it, was that Tommy might walk past the house when she closed the theater and find Irene with Prentiss.

Then she heard Prentiss' car drive up before the house, and stop. No other with a motor like that ever stopped there. Had she not been listening she could not have heard it.

A half hour passed, and Irene did not come in. Were they going to sit there all night?

IRENE did not mind if they did. She had the situation perfectly in hand at her own front door. A girl could be less diffident in the shadow of the parental roof-tree.

He wasn't indifferent. That was plain enough. And there had been moments at the inn, when he sat across the narrow pine table from her and she could see his face between the two big wax candles, dripping contentedly in their pewter holders, that she had thought he was about to say something important to her.

In a way she was glad that he was like that. It would make it easier for her to weigh his attitude toward her. It is different, the way a girl accepts conventionalities and the way a man accepts it.

Irene had, to be sure of things with Prentiss before she would know what to do with Tommy. Something would have to happen soon between her and Prentiss if it were going to happen at all.

She could get some fun out of going with Prentiss for a while but eventually she would have to answer to Tommy and that might be serious.

The next time Prentiss took her out she would see to it that they went some place where there was dancing. Irene knew that when she enjoyed dancing with her. Didn't they always finish by calling her pet names—all except the kids' names such as Sugar Pie, Baby Doll, Cuddles and even Piddy?

Would it help if Prentiss kissed her good-night? Could she tell him that and not spoil things? She turned a provocatively lifted face toward him as they sat in the car and sighed: "Well, good-night, I've had a lovely time."

ation. The latter presided at the meeting.

The convention this year will be held in Sault Ste. Marie, October 1 to 3.

Included in the speakers are: Bishop Foster, of Ann Arbor, a personal friend for 25 years of Mahatma Gandhi, who will tell of the life of the Indian Nationalist; President Ruthven, of the University of Michigan, and H. A. Overstreet, head of the City College of New York. Professor Overstreet is the author of several books, including "Influencing Human Behavior."

The division chairmen are: C. L. Phelps, superintendent of schools, Ishpeming, elementary; A. E. Erickson, principal of the Ironwood high school, and Bert R. Miller, Iron Mountain, commissioner of Dickinson county schools, rural. No chairman for the parent-teachers section has been appointed yet.

In addition to Miss Radford Seventh district officers are: Professor W. F. Lewis, Northern State Teachers college, secretary, and Professor C. C. Wiggins, Northern State Teachers college, executive secretary.

If Joe E. Brown had been a better ball player he might never have been a star comedian in talking pictures.

Brown did play professional ball for a time and managed to make a living at it and that was all. A few years ago he sat a season through on the bench for the New York Yankees, but his job was to keep the team cheerful rather than to gather any honors for himself on the diamond.

White Joe was making "Sit Tight," his current comedy in which Winnie Lightner is co-featured—he sprained his right arm so badly that he was unable to play ball for six weeks. But he never missed seeing a game from the sidelines.

Brown and Winnie and their new laugh riot "Sit Tight" are to be seen now at the Rialto Theatre.

the validity of the bill as a whole. Opposed Special Taxes.

While the prospective tax on property is above what the governor would like, the legislature left no doubt that it was opposed to special revenue measures. The size of the state tax will be determined finally by the state administrative board later in the year, but will have to be based upon the amount the budget calls for after the governor has exercised his veto power.

To Return June 18. The governor has ten days after their receipt in which to veto or sign the bills.

The governor has ten days after their receipt in which to veto or sign the bills. Should he veto measures which legislative leaders particularly want, there is nothing to prevent the membership from returning June 18 and 19, when final adjournment will be taken.

Usually final adjournment is a perfunctory matter, attended to by a handful of legislators who live in or near Lansing. This year the senate has been urged to return to pass upon three administration bills. One provides for an eight instead of a seven member conservation commission.

The others deal with protection at railroad crossings and permit the state to participate in grade separation costs in all cities and villages. The bills were passed in the house shortly before the session adjourned. The constitution provides they must lie over in the senate at least five days before being put to a vote.

This could not be done in the business session, so Senator Norman B. Horton, administration floor leader, requested the senators to come back in June.

CARD OF THANKS
We wish to thank our neighbors and friends for the sympathy and kindness displayed at the time of our recent bereavement, the death of our brother and uncle, Alfred Anderson.

Especially are we grateful to all who sent floral bouquets, loaned cars for the services or assisted us in any way during this hour of grief.

Sohlberg Papers Will Be Used In Swedish History

A second manuscript, one covering the history of the Swedish people in the upper peninsula, by A. Theodore Sohberg, justice of the peace, real estate and insurance agent, has been accepted for use in a three-volume book, "The Swedish Element in America," now being published by the Swedish American Biographical society, a headquarters in Chicago.

Mr. Sohberg had previously contributed a paper covering the subject in the state of Nebraska, where he was born and raised and A. T. Sohberg for many years.

Acceptance of the second paper will give Mr. Sohberg the honor of being one of the main contributors toward the work. Mr. Sohberg is a former newspaper editor.

STOP REMOVAL OF PROPERTY

Injunction Used By County in Effort to Collect Taxes

A writ of injunction was yesterday served on John Yoelus, caretaker of the Kipling property formerly owned by the Cleveland Cliffs Iron company, to restrain him from tearing down or removing any buildings or equipment on the property until delinquent taxes amounting to \$2,200 have been paid. Service was made by Officer Henry Brault of the sheriff's department.

The proceedings were started last week by County Treasurer Mary McColl to protect the interests of Delta county which were being jeopardized by the wrecking and removal of the property upon which the taxes remained unpaid. Taxes on the property are delinquent for the years 1928, 1929 and 1930.

Last Thursday, following filing of the complaint by Treasurer Mary McColl, a temporary restraining order was sought from Circuit Court Commissioner William Miller of Rapid River by Pros. Atty' Glen W. Jackson, to prevent further destruction of the property until the case was settled.

The local case is one of the few on record where injunction proceedings have been used to enforce tax collections.

Members of Minnawasca Chapter No. 96 will be guests of R. C. Hathway Chapter No. 49, Order of Eastern Star, at the annual Past Matron's Night which will be observed by the Escanaba chapter this evening in the Masonic Temple.

PRICE FIXING SUGGESTED BY STEEL MAKER

(Continued from Page One)

bor, insist that industry entered into a solemn pledge with President Hoover in December 1929 at the White House conference to maintain wage levels unless the government itself recognizes a moral responsibility to permit industry to stabilize prices?

Railroads in Same Fix
These are fundamental questions raised twice within the last twenty-four hours by the two biggest industries in America, namely, the transportation systems and the steel industry, whose products enter into the manufacture of automobiles and trucks as well as into the construction of office buildings and public works.

Mr. Farrell's statement that the steel industry could operate at a profit even at fifty per cent capacity provided there was no ruinous price cutting was taken here to mean that what the venerable president of the steel corporation meant was not an agreement to impose higher prices on steel or to increase the burdens of the steel buying groups but to prevent prices from falling below the cost of production altogether. In other words he was asking for a fair return in an unregulated industry just as the railroad executives have asked that they be permitted to earn a fair return in a regulated industry.

Schools Bid for Full Title to Relay Trophies

FEW CUPS WILL GO "FOR GOOD"

Escanaba and Gladstone Each Has One Cup Permanently

Escanaba and Gladstone have each won permanent possession of one silver cup offered for the Upper Peninsula Relays by taking first place in the events three years but from all indications, few, if any, cups will be won permanently by any of the competing schools this year. Gladstone copped the high hurdles cup by winning that special event three times and Escanaba has permanent possession of the pole vault trophy by winning the event three years. New cups have been offered for both of these events this year.

With the largest list of entries this year, schools who have won legs on any of the trophies will find the going a great deal tougher next Saturday when they compete in the fourth annual Relays at the Escanaba Athletic field.

Iron Mountain, Escanaba, Soo, Menominee, Gladstone, Rock River, and Webster eighth grade all have won two legs on trophies up for the fourth time this year and they may be able to grab permanent possession of some of them but, unless upset as the rule of the day, the same cups will be on the market again in 1932 when the teams line up for the Fifth Annual Relays.

Escanaba has two legs on the half-mile relay cup and two legs on the low hurdles cup. With Iron Mountain heavy favorite to repeat their 1930 victory in class B 880-yard relay, Escanaba's hopes for gaining permanent possession of that cup this year seem nil. Ballaragon, however, may be able to give the Eskymos full title to the low hurdles cup as he ranks one of the favorites in that event, although V. Johnson, Iron Mountain, who defeated Ballaragon last week, will be back again this Saturday and may postpone Escanaba's hopes of getting a full time lease on the trophy.

Iron Mountain has two legs on the two-mile relay cup with Escanaba holding the third leg. The situation is reversed here, however, as the Eskymos are picked to win again this year and reach an even level with the Mountaineers for possession of this trophy. An Iron Mountain victory would give the Thummen the cup "for keeps."

Soo has won the medley twice in class B while Escanaba copped the event one year. The Cranmen will make a desperate bid to win the event for the third time this year and gain permanent possession but their hopes also appear small. The medley was a distance medley the past three years but has been changed to a sprint medley this year, giving the Soo athletes an even tougher job as they are not rated exceptionally strong in the shorter events.

Gladstone Has Chance. Menominee has won the class B 440-yard relay two out of three years but the Maroons are not entering the Relays this year so another cup is certain to survive another year of competition. Even if Menominee should decide to enter at the eleventh hour, this cup appears safe as Iron Mountain is picked as the outstanding favorite to take this event this year.

Escanaba has won the event once. The class C medley relay, won twice by Gladstone, appears to be the only trophy seriously threatened. The Kellmen will have to oppose L'Anse, a team that is rated very strong, but Gladstone appears to be on the inside track for the event.

Rock River, twice winner of the class D medley, will be back again with the express purpose of copying the relay for the third year and gain full title to the trophy but Rock is certain to offer tough competition to the Eben Junction lads and they may be able to keep the trophy for another year's competition.

The Webster school eighth grade section is the other team with a possibility of gaining a trophy permanently but the four Franklin school sections and the St. Joe and St. Anne's will be ready to defy the Webster athletes in their bid for the trophy.

Medalletes will be given to members of winning relay teams and winners of special events. This is the first year that individual awards are being granted.

Trophies and Records

The list of trophies, records, and who won them in the past follows:

120 yard high hurdles: Young's Sabers cup. Won 1928 by Liberty, Gladstone; 1929 by Liberty, Gladstone, 1930 by Skogquist, Gladstone. New cup offered this year. Record held by Liberty, Gladstone, made in 1929, 16 seconds.

Pole vault: Blomstrom and Peterson Co. cup. Won 1928 by Schram, Escanaba; 1929 by Schram, Escanaba; 1930 by Murphy, Escanaba. New cup offered this year. Record held by Schram Escanaba, made in 1929, 11 feet, 8 inches.

440 yard seventh grade relay (Escanaba schools): Atty. T. E. Strom cup. Won 1925 by Barr; 1929 by St. Anne's; 1930 by Franklin. Record held by Barr,

U. P. RELAYS TROPHIES

Fourteen beautiful silver trophies, the largest collection of silver trophies awarded in a single athletic event in Michigan, will be awarded to winners of the various relay and special events at the Fourth Annual Upper Peninsula Relays at the Escanaba Athletic Field on Saturday afternoon, May 30. Medalletes will be given to winners of the special events and members of the winning relay teams.

1925, 58.8 seconds. 440-yard relay (class C and D) Cloverland Commercial college cup. Won 1929 by Norway; 1930 by L'Anse. Record held by Norway, 1929, 50 seconds.

One mile relay (class B only): L. Stephenson Co. Trustees cup. Won 1928 by Menominee; 1929 by Escanaba; 1930 by Menominee. Record held by Menominee in 1930, 3:45.5

Two mile relay (all schools): Delta Hardware Co. cup. Won 1929 by Iron Mountain; 1929 by Iron Mountain; 1930 by Escanaba. Record held by Escanaba, 1930, 5:47.5.

440 yard eighth grade relay (Escanaba schools): Delft theatre cup. Won 1928 by Webster (sect. 5); 1929 by Franklin (Sect. 2); 1930 by Webster (Sect. 5). Record held by Webster, 1928, 55.8 seconds.

Medley relay (class D): Bracket Chevrolet cup. Won 1929 by Rock River; 1930 by Rock River. Record held by Rock River, 1930, 6:50.4.

Medley relay (class C): E. A. Grabow cup. Won 1929 by Gladstone; 1930 by Gladstone. Record held by Gladstone, 1929, 6:44.7.

Medley relay (class B): Dr. John J. Walsh cup. Won 1929 by Soo; 1929 by Escanaba; 1930 by Soo. Record held by Soo, 1928, 6 min. 33 seconds.

220 yard low hurdles (all schools): Hoyley's Tea Room cup. Won by Lambert, Escanaba; 1929 by Jensen, Escanaba; 1930 by Co-man, Menominee. Record held by Jensen, Escanaba, 1929, 27.6 seconds.

88 yard relay (class D) Escanaba Nat'l Bank cup. Won 1929 by Rock River; 1930 by Rock. Record held by Rock, 1930, 1:46.

880 yard relay (class C): Lauerman cup. Won 1929 by Gladstone; 1930 by Gladstone. Record held by Gladstone, 1930, 1:41.3.

880 yard relay (class B): The Fair Store cup. Won 1928 by Escanaba; 1929 by Escanaba; 1930 by Iron Mountain. Record held by Iron Mountain, 1930, 1:37.7.

LOTT, VAN RYN CAPTURE TITLE

American Doubles Team Cops French Hard Court Tourney

Auteuil, France, May 25 (AP)—George Lott, Jr., and John Van Ryn today won the French hard court doubles championship for the first American victory in that division of French title play since 1926.

The American youngsters defeated the South African pair, Victor Kirby and Nat Farquharson, in the final in straight sets, 6-4, 6-3, 6-4.

The last time an American doubles team won at Tuteuil was five years ago when Vincent Richards and Howard Kinsey, both professionals now, defeated Henri Cochet and Jacques Brugnon, the same French team won the title last year, but did not defend it because of Cochet's ill health.

American's Win

The day's play saw no reverses for America's players, Miss Dorothy Andrus, of Stamford, Conn., and Miss Virginia Hillary, of Philadelphia, winning their matches in women's singles. They were the only other Americans to play today.

Miss Andrus defeated Mlle. Jean Galley, 10-5, 6-4, and Miss Hillary disposed of Mme. de Montbello 6-3, 6-1.

With three championships already gone, France looked forward pessimistically today to the final two crowns still in dispute—the women's singles and the men's singles.

Mrs. Helen Wills Moody has held their women's title for three years so they are used to not having that on, but it now appears they will not even salvage the men's singles, unless Jean Borotra, Christian Bousset and Pierre Landry improve.

St. Joe Has Easy Time Disposing Of Marenisco Netters

In perhaps the most uninteresting spring tournament seen in Escanaba in several years, St. Joe high walked off with both the singles and doubles titles, winning every match against Marenisco. The only other entrant in the annual Class C-D Upper Peninsula regional net tournament Saturday.

Burleson Fitzharris and Clyde Hira, both of the Purple net squad, will meet today in the finals of the meet on the Saints' court this morning. In the doubles division the Boddy-Grolean combination will clash with Fitzharris-Hira in the finishing round.

The elimination rounds were played off in smooth style, every match taking place at the scheduled time.

From start to finish it was a picnic for the Saints. Because of the lack of competition a poor brand of tennis was displayed, none of the Parochials ever being pressed to win.

In the early rounds Boddy defeated Willard, 6-0, 6-1, but was later eliminated by his teammate, Hira, in a fast three-set match, undoubtedly the best exhibition of tennis during the tourney, 5-7, 6-4, 3-6.

Fitzharris grabbed off his first win against McNicholas, in a lazy match 6-1, 6-0, and followed by taking Clairmont, 6-2, 6-2, in the semi-final round. Clairmont won his first round match from Drotte in fine fashion, 6-0, 6-6. Boddy-Grolean won from McNicholas-Olson, 6-2, 6-1. Fitzharris-Hira defeated Drotte-Willard, 5-0, 6-2.

ATHLETICS WIN 17TH STRAIGHT

New York Beaten Twice by World Champs; 4-2; 16-4

Philadelphia, May 25 (AP)—Robert Moses Grove and Leroy Mahaffey pitched brilliant ball today as the Athletics won a doubleheader from the New York Yankees, 4 to 2 and 16 to 4 and ran their winning streak to seventeen straight.

Grove chalked up his fifth consecutive triumph in the first game. After his mates had staked him to three runs in the third inning, the star lefthander put down threatening Yankee rallies in the seventh and ninth. He struck out Ruth and Gehrig to end the game with two Yanks on base.

The Athletics sewed up the second encounter when they pounded Sherid and McEvoy for nine runs in the first inning. Mahaffey allowed only one hit in the first seven innings.

First Game: R. H. E. N. York 020 000 000—2 8 0 Athletics. 003 000 001—4 8 0 Batteries: Johnson and Dickey; Grove and Cochrane.

Second Game: R. H. E. N. York 000 000 013—4 6 1 Athletics. 900 250 00x—15 16 0 Batteries: Sherid, McEvoy, Weaver and Dickey; Jorgens, Mahaffey and Cochrane, Hevins.

ESCANABA NETTERS Will Get Plaque

Since no other entrants in the class A-B division of the U. P. regional tennis tournament were received Escanaba automatically became the winners of the plaque given annually by the state athletic association. The disposition of the medals intended for the singles and doubles winners, runners-up will be made later.

The Escanaba high school netmen will hold a dual meet with St. Joe Friday and Saturday of this week, the tournament having been arranged by the school principals in order to give the Escanaba team an opportunity to get in some tournament play this spring.

SPARTANS FACE 2 TOUGH GAMES

Michigan State Opposes Chicago Today, Wildcats Wednesday

East Lansing, Mich., May 25 (AP)—Michigan State this week will determine its ability to stand up against "big time" baseball competition.

The Spartans, fresh from an 8 to 4 victory over Michigan Saturday, left today for Chicago, to compete with two other Big Ten teams, Chicago tomorrow, and Northwestern Wednesday.

St. Louis will barely rid itself of the western conference opponents before taking on Notre Dame here Saturday.

Coach John Kob's chances of going through the week in the victory column depends a great deal on his pitching staff. Charley Griffin, State's star southpaw who defeated Michigan for the third time in two seasons Saturday, is expected to pitch one of the three games, with Kahl, a right-hander, and Captain Ed Gibbs, who plays in the outfield when not in the box, handling the other two.

Clark Chamberlain, State's great cross-country intercollegiate champion, returned to his classes today after advancing another lap on his path to the next Olympics. Chamberlain ran the two mile at the Central intercollegiate at Milwaukee Saturday in 9:18.8, just 9-10 of a second short of the American intercollegiate record.

Butchers Request Bakers Meet Them To Settle Battle

The Butchers, claiming a decisive victory over the Bakers in a diamond ball game at the Wells diamond, a few weeks ago, have become aroused over the assertion by the Bakers that the bread makers were actually on the heavy end of the score when hostilities ceased.

Yesterday the Butchers issued a challenge to the Bakers to play them on Wednesday evening at the city park diamond to settle the issue once and for all and to make their challenge more emphatic, the clearer welders requested that the teams play "for a stake." It seems that Butchers always are talking in terms of "stakes" so their proposition did not come as a surprise to the dough boys.

However, the Butchers insist that one clause be put into the agreement for the game. They will insist that every member of the Baker's team be a bona fide baker, bun pusher or peddler and that no players be picked up from the sidelines while a half dozen bakers watch from the sidelines.

"In our last game," says the Butcher manager, "we were forced to play some of the best ball players in town and that doesn't mean the Bakers, either. If the Bakers play only bona fide representatives, we can hand them a spot and beat 'em."

Many Barnyard Golf Courts About City

Now, that the Escanaba Daily Press has announced that it will sponsor a horsehoe pitching tournament this summer under the sanction of the American Horse Shoe Pitchers' association, the natural result is that many persons, interested in this popular pastime, are wondering where there are places to play.

The Upper Peninsula State Fair has several regulation courts on its grounds, situated between the livestock and poultry barns. Secretary George E. Harvey, a barnyard golf enthusiast, has informed the Press that these courts are available for use of the entrants in the tournament. Several courts have been provided at Ludington park by the city, and, to

Lawless Wins Dull Fight In Chicago

Chicago, May 25 (AP)—Bucky Lawless Syracuse welterweight, who recently defeated young Jack Thompson, welterweight champion, in an overnight match, conquered his negro rival, Gorilla Jones, Akron, Ohio, in a rather painless ten round engagement in the Chicago Stadium tonight.

The fight was so unsatisfactory that General Clinlin, chairman of the Illinois staged the purses of both boxers held, pending examination of Jones' right hand tomorrow. The Akron negro complained he had injured the hand, but examination immediately after the fight failed to disclose any damage, Gen. Clinlin said.

Rules Against Primo Carnera

Judge Says Italian Can Not Go Through With Sharkey Fight

New York, May 25 (AP)—Federal Judge John Knox today landed a knockout blow on the proposed heavyweight battle June 10 between Primo Carnera and Jack Sharkey.

Judge Knox handed down an injunction in the suit brought by the Madison Square Garden of Illinois, barring the ponderous Italian from meeting Sharkey "or any other leading boxer" without the consent of the Illinois corporation. That corporation holds a contract on Carnera's services until December 31, of this year.

It is, or perhaps was, the Garden's plan to match Carnera with the winner of the Max Schmeling-Young Stribling championship heavyweight fight at Cleveland, on July 3.

Judge Knox threw out as immaterial and irrelevant the Italian's lawyers' contention that Carnera was a freak and was being signed more because of the size of his hands and his feet than his fighting ability.

It may be true, the judge wrote in his decision, that Carnera can't fight but "he cannot properly complain if his services here be reckoned at the value he has placed upon them outside the courtroom."

Judge Knox placed his own valuation of Carnera's fighting ability as \$80,000 in fixing bond required of the Garden to protect the Italian against any losses he might suffer because of being enjoined from fighting Sharkey.

Carnera's contention that the Garden also misled him when it signed him to fight the winner of the Schmeling-Stribling bout and thus laid him liable to suspension in New York state if Schmeling should be the candidate he must meet also was held irrelevant by Judge Knox.

Judge Knox's order is temporary, and the suit now must be tried. George Sylvester, Carnera's attorney, announced he would ask that the trial date be set immediately. Jimmy Johnston, co-promoter, with Humbert Fugazy, of the proposed Brooklyn show, had no comment to make on the decision today, other than to say it took him by surprise.

It has been suggested that either Tommy Loughran of Philadelphia or Mickey Walker of New Jersey would make a more suitable opponent for Sharkey than Carnera.

Philadelphia Bouts Postponed By Rain

Philadelphia, May 25 (AP)—The boxing bouts scheduled for the Municipal Stadium tonight, in which Billy Jones, Philadelphia, and Willard Dix, Bellingham, Wash., were to appear in the wind-up, were postponed today until Wednesday night on account of rain.

The Police defeated the Cardinals at the city park diamond last evening, 28 to 8. They will oppose the St. Joseph team this evening at the city park. The officers are looking for pre-scheduled games with other teams in the city leagues. Officer Sullivan is manager of the Cops.

State Officers Speak—James McKean of Sault Ste. Marie, state president of the Ancient Order of Hibernians and John A. Fisher, Sr., of this city, state vice president, will be speakers at the regular meeting of the Escanaba organization, at the Knights of Columbus club rooms tonight.

Lynott Speaks to Students—Tom Lynott, chairman of the American Legion Memorial Day committee, was the speaker at the general assembly of Escanaba high school students Monday afternoon.

Solicitors Are "Pests"—Magazine solicitors operating in Escanaba were described as plain nuisances yesterday by local residents who were interviewed by visiting "collegians" and girls who are earning a trip to Europe.

Towey Gives Tests—Dr. J. W. Towey of Piscataway sanatorium at Powers was at Escanaba high school on Monday.

Crossing Railway Yards Dangerous

A number of complaints have been received at the division office of the Chicago & North Western railway at Escanaba regarding dangerous trespassing practices of local residents.

Children are reported to be crossing through the yards to and from school, and hook and line fishermen enroute to the docks, are crossing over tracks and crawling under and between cars to get to the bay.

With trains and engines moving out and in at the yards, crossing the tracks and going near standing cars are very highly dangerous practices, and a warning has been issued stating that these infractions must be stopped or arrests will follow.

Iron Mountain Men Guests Of Kiwanis

High lights of the national meeting of Kiwanis clubs at Miami were outlined for members of the Escanaba Kiwanis at their regular meeting Monday by Frank Blair, president of the Iron Mountain club, who was a delegate at the national gathering.

Other guests and speakers at the local club meeting yesterday were Russell Kessler, vice president of the Iron Mountain club; R. J. Anderson of Iron Mountain, and J. A. Payant, Iron Mountain, lieutenant governor of the Upper Peninsula-Wisconsin Kiwanis district.

SPLENDID NEWS FOR SUFFERERS

Would You See How Konjola Works?—Then Read These Grateful Endorsements

Read the grateful expression of Mr. William A. Jackson, 610 Spring Street, Little Rock, Ark. He says: "Stomach and liver troubles were making my life miserable. Constipation, bilious attacks and headaches were common. Konjola relieved all these conditions and I now eat heartily without distress, am free of constipation, and do not suffer from biliousness or headaches."

No less enthusiastic is Mrs. H. L. Watts, Route No. 2, Independence, Mo., who declares: "Stomach trouble bothered me for years. My kidneys were weak and night risings necessary. I had frightful headaches and felt tired and draggy all the time. Konjola soon put an end to all these troubles and although I now feel fine I shall continue the medicine because of its tonic properties."

Konjola is sold in Escanaba by People's Drug Store Escanaba, Mich.

Maccabees Hold Meeting Monday At Rapid River

Rapid River, May 25 (Special)—The local Maccabee Hive is host today to the Governor and Association of Maccabee Hives comprising Escanaba Gladstone, Menominee, Muskegon, Manistique and the Rapid River Hives.

The first session will be called to order at 10 o'clock in the forenoon, central standard time, at which time the several hive delegates will make their reports.

At the afternoon session there will be a program, followed by the election and installation of the association officers for the ensuing year. At 5:30 o'clock a luncheon will be served at the gym.

Police Seek Man Who Issued Check

Escanaba police are looking for a man who represented himself to be Dr. H. E. Greenley, a veterinarian, and who cashed a worthless check for \$15 at a local business place Saturday night.

The stranger is described as about 5 feet, 8 inches tall, weighing about 150 pounds, and wearing a grey slouch hat, top coat, and bright necktie. The check which he presented was made out to Dr. H. E. Greenley, and signed C. H. Wilson. It was also endorsed with Greenley's name.

Providing sufficient power is furnished to haul the giant airplanes through the air.

Because this is true it is likely that in a few years we will witness the use of planes that bear little resemblance to the planes to which we are accustomed today—giant flying boats, powered by six to twelve engines, with three or more decks, baths, dining rooms and kitchens.

Piloted Huge Bomber

These huge air monsters will be strong enough to alight on the water and ride the waves, withstanding the buffeting of the worst storms encountered at sea.

As chief test pilot of the Army Air Services at McCook Field, Dayton, O., I had many opportunities to pilot the giant Barling Bomber, largest land plane ever built. Flying this giant plane gave me a foretaste of what it will be like to ride in the huge flying boats of the future.

The Barling Bomber built by the United States Army resembled a flying apartment house. This big plane was designed to carry a load of 42,000 pounds. It was as tall as a two-story house, and had a wing spread of 65 feet. Stairways, floors, observation platforms and lookouts were a part of its equipment. Powered by six Liberty engines it generated 2400

horsepower. Further proof of the feasibility of trans-oceanic passenger flights is demonstrated by the monster Dornier plane which was completed by the Germans last winter. Known as the DO-X it carries 160 passengers at a speed of 110 miles per hour fully loaded. It is powered by twelve engines, and has already made a number of successful flights. It is a forerunner of the great passenger planes which will in a few years be making twice-weekly trips across the Atlantic ocean, and perhaps the Pacific, also. The big planes, carrying from 100 to 200 passengers, will cost no

more to operate than steamships of the same capacity. As soon as there is enough passenger business to fill them comfortably fares will probably be as low—possibly lower—than steamship fares. With \$300 as the average one-way passage across the Atlantic a flying boat with a capacity of 200 people would earn \$60,000 gross revenue from passengers alone in 24 hours. This would more than cover the cost of the flight, overhead, interest, depreciation, land operating expenses, etc.
