For President,
BENJAMIN HARRISON.
For Vice-President,
WHITELAW REID.

Chicago, June 18.—Emmons Blaine died suddenly this noon of inflammation of the bowels. The announcement of young Blaine's death was a complete surprise to his friends and associates. He returned from Minneapolis Monday, and Tuesday felt considerably indisposed; the physicians pronounced his ailment paralysis of the bowels, but thought that unless complications set in no danger might be feared. That afternoon symptoms of blood poisoning set in and he gradually grew worse. Telegrams were sent to his father at Bar Harbor, Augusta, and New York, but no reply was received. At the hour of Emmons's death both his father and mother were entirely ignorant of their son's illness.

Dental Rooms.
Dr. A. H. Johnson has his rooms over Fydel & McCullough—store in business, and will be pleased to see any one wishing dental work done. Gas administered for the extraction of teeth.

Shipping Press: In nominating Whitelaw Reid for the second place on the republican ticket, the Minneapolis convention has paid a high compliment to the newspaper profession. As a minister to France Mr. Reid has earned just plaudits, but it is as an editor of one of the greatest of American newspapers that Mr. Reid has earned his title to the regard and respect of the American people. It is a curious fact that the only paper which was ever furnished a candidate for the presidency (Horace Greeley in 1872), should now furnish the first candidate for the vice-presidency.

Attention G. A. R.
There will be a special meeting of George F. Fuller Post No. 257, of Manistique, Mich., will be held June 24th at the S. of V. Hall; and a general attendance is requested. Business of importance. By order of
D. P. KIMBELL.

Here is something from a recent ruling of the post office department that every postmaster would be pleased to have patrons remember: A postmaster should, in a spirit of accommodation deliver letters from lock boxes to the owners thereof when such owners have forgotten to bring their keys. He is not justified, however, in delivering mail from lock boxes to any person other than the owner, unless he be presented with a written order therefor. If the owner of a lock box desires some one else to take the mail from the box, he should provide him with a key thereto.

Millions smoked annually—Geo. Moeb's & Co.'s great CIGARS. **THEY ARE MADE OF HONOR.**

Er-Secretary Whitney has taken himself out of the list of dark horses and burned the bridges behind him. He says: "No lieutenant of Mr. Cleveland, particularly one who is so well known as I am, can take the nomination." This is manly if not wise. No man would come nearer uniting the New York factions than the popular ex-Secretary of the Navy.

Merit is the measure of success. Geo. Moeb's & Co.'s Cigars sell by the million.

Westside street work going right along. That Deer street ditch will be in good shape now for many years to come.

The legal mill once in awhile grinds through a chap for getting drunk, but outside of that very little is being done in the courts.

Buy a lot and build, so that you may be sure of a home. That you cannot be, if you always depend upon renting a house.

FRED. NILES, Sec.

Wanted.

A good sausage maker, by Orr, Brothers & Co. To the right kind of a man good wages will be paid and steady work guaranteed.

Rose Bros. cordially invite all young boys from town and vicinity to visit their store on Saturday morning at 10 o'clock; when they will be presented with a handsome gift, which is just the thing for boys. Come on time and get your present.

Yours Respectfully,
Rose Bros.

J. B. Garnett returned from Minnesota yesterday morning, and expects soon to return there. He speaks lightly of the business outlook in that quarter.

It is a shame that the village does not require men put in jail for drunkenness to work 10 hours each day upon the streets. That would tend greatly to make sober men out of them.

Don't ask about the probable candidates for county officers this fall. Sometime yet, as they are coming to the surface very slowly and tenderly. They will gather strength as the time approaches.

The bills are out for the exercises on the 4th; and the small one gives a program and list of prizes that speaks well for the enterprise and liberality of our people. We are bound to have a grand time and invite everybody to it.

Manistique people will fool away no time on the 4th of July. The day has been set apart for genuine fun and that is what we are bound to have; and what is better, they invite everybody to come to town and enjoy the occasion.

Several gentlemen have spoken to us about the necessity of at once organizing a Republican Club; and still not a single person seems willing to head the call for a preliminary meeting. Each one wonders why certain other parties do not move in the matter.

To-morrow Harry B. Baker, of Tiffin, Ohio, formerly of the L. C. Co. furniture store, will be married at St. Ignace to Miss Florence Cornell, who it will be remembered was formerly a teacher in our schools here. Their Manistique friends wish them much joy.

Mr. D. L. Goodrich, of Detroit, general agent of The National Loan and Investment Co. of Detroit; is in town and expects to remain a few weeks here to interest the people in behalf of that organization. We have not time to say much about that company this morning; but will merely remark that for the past three years some of our people have been doing business with them and speak highly of their manner of transacting the same. They have loaned considerable money here already and are prepared to loan more. They require "git-edge" security and that is one evidence of the soundness of the corporation; besides it is backed up and managed by some of the wealthiest business men of the state. There is a local board organized here, of which J. D. Meserau is President and W. C. Marsh, Secretary. This company is no stranger at the place and we ask those who want any money favors, for the purpose of building and improving property, to investigate the standing and reliability of this Association. Mr. Goodrich is stopping at the Ossawinimakee, and will be pleased to see and answer the inquiries of all who may be interested in that direction. More anon.

Consular Agency.
The papers which declare that the Hill Democrats in Massachusetts may hurt Cleveland if he is nominated are needlessly alarming themselves. They can't hurt Cleveland in that state for he couldn't come within 25,000 of carrying it in any event. New York is the only place in which the Hill Democrats can do any damage to the ex-president, and there they will be ineffective and bitter. —St. Louis Globe-Democrat.

A Bluff on "Ace High."
The Baltimore Herald claims that Gorman would receive the electoral votes of California, Indiana, Connecticut, New York, Idaho, South Dakota, Rhode Island, New Hampshire and Iowa of the northern states. What's the matter with Pennsylvania, Vermont, Maine and Ohio? A bluff that could be no bluff hearted affair. —Philadelphia Press.

Average Democratic Logic.
Senator George, of Mississippi, would have two G's on his presidential ticket because he has never known a name commencing with that letter defeated (Gorman and Gray are good names. So are Xerxes and Xantippe. —St. Paul Globe.

An Intolerable Cheat.
The Democrats say they will carry Wisconsin for president. They said the same thing in 1888 but they did not come within 21,000 of doing it. Their chances are no better this year than they were then. —St. Louis Globe-Democrat

"He Winks the Other Eye."
If, as he says, Governor Flower is not giving any thought to the chance of his nomination for president, it is because he wants to be in a position to verify the charge that it is the unexpected that happens. —New York Tribune.

It's the Way with Democrats.
The congressmen who are finding so much enjoyment in the races run in Washington are not likely to find much enjoyment in the races run in their home districts later on. —St. Louis Post-Dispatch (Dem.)

It's an Easy Task.
Thomas B. Reed appears to be devoting all his energies to having some fun in this session of congress. It is due to him to say that he is not laboring in vain in this direction. —Boston Herald.

The New Paris Bridge.
The new bridge in Paris, called the Pont Mirabeau, is to be constructed somewhat on the cantalver principle, since it will rest upon two piers and meet in the center. Its stability, however, will depend upon an adjustment of weight like that of a huge crane. The long arm meeting in the center will be of light construction, and to compensate for its weight the short arm received by the abutment will be specially heavy. —New York Times.

PRAYER FROM SIR HUBERT.

The Philadelphia Ledger's Tribute to the Hon. Vice President.

The Republican national convention unanimously elected that veteran of a war before, and it is a consolation to him for president, by nominating Mr. Reid for vice president.

Mr. Reid's career has been as brilliant as it is distinguished. He has achieved no honor for which he has not fully and laboriously won, but he has not deserved to achieve. He represents in a conspicuous degree the sturdy, thrifty material of the American character of its active, vital mind, absorbing and exploiting intelligence, rising to eminence through well directed endeavor, and by the display of those great qualities of mind and heart which denote manhood which is honorable and useful to the world.

Mr. Reid's life has been a singularly active one. He is not only a man of affairs, made familiar by experience with those large problems which occupy the world of business. He has been a publicist, a diplomatist and a journalist, this latter being his first and best found choice and occupation. Mr. Reid is the successor of Horace Greeley in the editorial management and control of the New York Tribune has distinctively honored journalism daily in the pages of that great newspaper, which has been made by him to conform to his lofty ideal of what an American newspaper should be. In the narrower though scarcely less difficult field of diplomacy Mr. Reid during his residence in France as the American minister to that country added to the reputation he had previously made as a journalist whose character and work imparted distinction to Journalism.

Mr. Reid was something more than persona grata to the government of France. He exercised a distinctive and powerful influence in his office, and so well was he considered and so effective was his diplomacy that he was able to achieve material commercial advantages for the United States and to strengthen the bonds of good feeling between the two great republics, that of the Old World and that of the New.

Mr. Reid is a man of broad culture, of good judgment, of attractive personal manner; dignified, courteous and considerate. He possesses all desirable requisites for the office to which he has been nominated, and if elected to it he will be a worthy successor to the present distinguished incumbent, Vice President Murton. —Philadelphia Public Ledger.

Reid Will Heal All Breaches.

With Mr. Harrison at the head of their forces the Republicans unite Mr. White law Reid. He will strengthen the ticket in more ways than one. He is a man of large wealth, which he knows how to spend. He is the chief of a great journal in the city of New York, which is a power by itself. He is a Republican of the most orthodox kind and an editor of national celebrity. He has served the country with distinction in a great diplomatic office, has been abroad long enough to have engaged the interesting struggles which have divided his party in the Empire State and is a fresh man as a candidate. The effect of his nomination will be to heal, not to widen, the New York breach. —Louisville Courier-Journal (Dem.)

A Blaine Paper's Honest Words.
Mr. Blaine's unskillful and patriotic appeal will be heeded, by Republicans of every grade. So far as concerns Mr. Blaine's especial following, it was not needed. The Blaine men are not Republicans for revenue only; they do not use their votes upon men who represent Republican principles; they are not addicted to bolting conventions in which they have participated when the results do not satisfy them. —Brooklyn Times.

All Wool and a Yard Wide.
It is a ticket to fight for and to shout for and to win with. Its Republicanism is all wool and a yard wide and will neither tear nor ravel. It is an American product, free from foreign frills and flourishes, and it just fits the American idea of robust, progressive statesmanship. —New York Press.

McKinley's Force and Loyalty.
McKinley conducted himself nobly at Minneapolis. Modesty, force, loyalty—these traits he displayed at a time when more ignoble souls would have scrambled for self. He will be held in remembrance by the American people. —New York Mail and Express.

Can't Match Him.
Ben Harrison. Can Chicago show his equal? Certainly not his superior. —Brooklyn Standard-Union.

The Lawyer Won.
The ownership of a dog was contested by a lawyer and a farmer in Moberly, Mo. The dog was worth about ten cents, but the costs of the suit amounted to over \$100. Thus the farmer had to pay as the law gave the dog to the other claimant. The farmer was flab, but the dog didn't seem at all displeased as he went off with the lawyer. —Kansas Blade.

How to make a dollar go a long way? That's the problem

Everybody is therefore interested in any method that promises this result.

Methods are as common as dirt! but which are worth trying.

One of the best methods is to buy your groceries at headquarters.

The headquarters for groceries is at our establishment. Why? because we sell the best goods at a small margin and save your money thereby. Our prices speak for themselves and the problem is therefore solved.

The question has been asked frequently if we thought it would pay to start a wood yard here? It would certainly be a great convenience and, if rightly managed would pay well.

Rev. Mr. Kennedy, of Lake City, preached at the Presbyterian church Sunday morning and evening, and it is said by those that heard him that it was one of the best ever preached in this house.

A lover peninsula editor opened up the fishing season with this story: "On Sunday last Oscar Bemis caught a brook trout which weighed one pound thirteen and three-quarter ounces, had thirteen rattles on its tail and held in his mouth a trout showing up the iniquity of Sunday fishing."

Quite a number of our local Democrats have summed up the Chicago convention as follows: I cannot be either Cleveland or Hill; but must be some new man; Boies, Gorman or Free Trade Morrison. Should Cleveland get there, they are willing to stand up and swear he was their first choice.

We make it an invariable rule not to advise any man to run for a local office; but allow every man that wants to up to the close of party caucuses and conventions, and accept the man nominated as our candidate; and then we oppose every move that looks towards an independent or "stump" ticket. If a man has not friends enough to secure a nomination, he never ought to be elected.

Manistique is considering the feasibility of water works. The proposition is to lay pipes from Indian Lake to the town 13 miles distant.—Menominee Democrat.

The above quotation makes public a matter that is very little talked about here; in fact by none who would be likely to aid in carrying out such a project were it attempted, although the plan might be a feasible one. Then again Indian Lake is only four miles distant, instead of 13.

Anybody can freeze his own ice-cream in five minutes, and for an expenditure of 2 or 3 cents. If the preparation desired to be frozen is placed in a tin bucket or other receptacle, it can readily be congealed by putting it in a pail containing a weak solution of sulphuric acid and water. Into this throw a handful of common Glauber salts, and the resulting cold is so great that a bottle of wine immersed in the mixture will be frozen solid in a few minutes, and ice-cream or ice, may be quickly and easily prepared.

Early Conventions. Some of our Republican friends are kicking because the state convention is called as early as July 20th, and a few go to the extreme and say there's some political trick in it. We do not see it in that light at all, but believe the earlier all conventions are held the better. In presidential years ever since 1860 the state officers have been nominated five times in July and four times in August. The earliest held July 1 and the latest August 13.

We also favor holding district and county conventions not later than September, thus giving the party time to get in line and do a thorough work for the ticket. It gives time to set

of all differences of opinion as to the nominations made and leaves each voter in a better condition to vote correctly. Of course, nominate all parts of the ticket early and be ready for actual service.

The day that President Harrison was re-nominated a Welsh tin-plate firm decided to move to Indiana and set up a big tin-plate mill. The British free traders are keeping track of American policies and do not propose to be shut out of this market by fighting at long range. They recognize that the tin-plate used in this country is to be manufactured at home, and if they wish to have a hand in it they must become Americans.

How Mr. W. D. Wenz of N. Y., was cured of the worst form of dyspepsia! He says everything he ate seemed like pouring molten lead into his stomach. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. I. Hood & Co., Lowell, Mass.

The highest praise has been won by Hood's Pills for their easy, yet efficient action.

Mr. J. L. Runstrom writes us from Chicago. It will be remembered that he left here last fall for the sunny south. On that trip he says: "I went to Florida and found it a very beautiful country, with lots of picturesque and wild scenery through Tennessee and Georgia; I traveled around there two weeks and then returned to the World's Fair City. I am now learning the machinist trade and calculate to 'get there' sometime—no one is too old to learn" you know, when they make up their mind to go ahead right away. I suppose that all my friends (and enemies) in Manistique think that I have emigrated to the moon? No, but I am on the way to reach it by and by, when I get my flying machine constructed. I enclose \$2 for the PIONEER, as I like to see how it is going in the forest city of Manistique, where I resided so many years. I wish you all a happy 4th of July." Mr. R. is now engaged in the Bicycle works.

The young people in these modern times don't have the good opportunities for courting that a former generation had. The modern fashion that has done away with the front yard fence and its swinging gate has eliminated the best chances ever enjoyed by our fathers and mothers. The nice little swinging gate—not too high and located a little back from the street, has heard a thousand times as it squeaked on its hinges pledges of devotion from timid lovers that might have been delayed or lost. All other things being equal, the girl with a front fence and a swinging gate has a big advantage.
