### Notes.

The regular annual meeting of the stockholders of the Manistique Bank will be held at the banking office in Manistique Tuesday, December 11th, 1897, at ten o'clock A. M.

H. W. CLARKE, Cashier.

### BREVITIES.

Mrs. John Rockey has nearly recovered her usual health.

The Whist Club meets with Mrs. Tucker next Tuesday afternoon.

The shop windows about town are beginning to appeal to the gill-blovers.

The Ladies Aid Society of the Presbyterian church will meet with Mrs. Davall at the Ossawinawakee hotel, next Wednesday afternoon.

The development of the vast beds of shell marl that have been discovered in Mackinac county will prove a veritable Klondike to the owners.

The publication of the tax list is commenced with this issue, and will appear regularly for the next six weeks. Preserve this copy for reference.

The Presbyterian Sunday School has decided to hold its Christmas exercises on Saturday evening Dec. 25th. A Christmas tree will be one of the features.

A hundred engraved visiting cards make a very pleasing Christmas gift. Leave your order at this office. We are agents for a prominent engraving house of Chicago.

When a newspaper designates a man as being a "hasswood king and prince of good fellows," it causes a smile to overspread the countenance of the average reader.

John L. Doyle and family, left for Merrill, Wisconsin early this morning. Mr. Doyle completed his season's work as foreman of the C. L. Co.'s pull-up, and will enjoy a well earned vacation until work is resumed in the spring.

Rev. F. J. Horton of Deatur, Indiana, will occupy the Presbyterian pulpit next Sunday and the Sunday thereafter. Mr. Horton comes highly recommended, and a full attendance of membership and congregation is desired.

The English speaking churches have decided to hold union services next early in January. Rev. Moody, whom it will be remembered, held a series of meetings in this city seven years ago, has been invited to conduct the proposed meetings.

Mr. E. D. Beeson was awarded the contract for furnishing the village schools with wood. After delivering 68 cords, the board decided that the wood was not according to specification and ordered him to remove the wood that he had delivered. The matter will quite likely get into the courts.

Ronald Ross of Beverton, Mich., arrived in the city last Monday evening on a short visit with his brothers, Geo. P. and Don Ross. He returned Wednesday morning accompanied by Mrs. Ross and daughter, who have been the guests of Mr. and Mrs. Geo. Ross for several weeks. Mr. Ross is the founder of Beverton, and is a prominent lumberman, owning three saw mills in the vicinity of that town.

Unearthed Ancient History.  
The C. L. Co.'s dredge while at work near the Ann Arbor car ferry dock brought up portions of the upper works of the Northern Queen, a boat that was scuttled by her crew, at the mouth of the river Friday afternoon Nov. 18th 1881. The articles were in a fair state of preservation. The Northern Queen and the steamer "Lake Erie" collided near Poverty Island the day previous. The latter boat was sunk, and the Queen was badly disabled. The captain lay off this port until Friday morning, when the severe blow compelled him to make for the river. In coming in he went broadside on the bar. Owing to the heavy seas the boats Hawley and Lark, were unable to render assistance, and the crew scuttled her. The boat was loaded with corn and general merchandise, and the beach was littered with barrels of oil, and pork, and cabin furnishings. A few days later the boat was raised, patched up, and towed to Colingwood for repairs by the tug Gladiator, in charge of Capt. Robt. Sutherland.

For a useful X-mas gift see Rose Bros.' elegant display of fine novelties.

Bowery dance at the Star Opera house this evening. No admission charged.

X-mas gifts that will be appreciated and at moderate prices, in great variety at Rose Brothers big store.

The contemplated light and fog signal station at Barge Point, will complete, it is estimated, the chain of lights along the north shore of Lake Michigan.

Miss Florence (nee) and Mr. Joseph Biddell, will be married at the residence of Mr. and Mrs. Geo. Gage at South Manistique, on Wednesday, Dec. 22nd.

The Degree of Honor meets next Monday evening. Officers for the coming year are to be elected at that time, and all members are urged to be present.

The Ladies of the St. Albans Guild have a few aprons that they wish to dispose of at cost. The aprons are on exhibition at Lewis & Mills' store. They would make pleasing Christmas gifts.

Mrs. E. D. Beeson was elected president of the Woman's Missionary Society of the Presbyterian church, yesterday to fill the vacancy caused by the removal of Mrs. Rev. J. M. Rogers.

The Christmas sale of water color decorative work, given by Miss Peckham at the residence of Mrs. Geo. Brooks last Friday evening and Saturday, was well attended and highly successful. She possesses much artistic merit.

Will F. Crane, the lumber inspector and shipper, made a good record this year. He handled 22,000,000 feet of lumber, and had the honor of loading the first and last boats of the season at this port. His business is increasing yearly, which speaks well for his work.

The derrick that Street Commissioner Ross was using for the purpose of planting the electric light poles, broke down in front of the Blumrosen block last Saturday afternoon. Ryan & Boomer's sign was demolished. Mr. Ross barely escaped serious injury, and one of the timbers grazed a plate glass in its descent.

Mrs. A. C. Babcock and one of the drivers for Orr, Tucker & Donah's livery barn, narrowly escaped being killed or severely injured at the Soo Line crossing east of town Tuesday afternoon. They failed to notice the approach of the west bound freight train and crossed the track just in front of the rapidly moving train.

"The electric lights were turned on last night." Wm. Ross and Bert Fletcher hoisted a smoking lantern across Cedar street last evening, and a herald of fun listening to the comments made upon the new method of street illumination. The majority of the passers by mistook the lantern for an are light, and condemned the system of illumination in unmeasured terms. "Rast" Orr was willing to wager that a fellow candle would give more light than the whole blamed system. When the jokers got tired they lowered the lantern and went home. However, many people are under the impression that electric lights made its debut last evening.

In a letter received from Otto A. Olson, we learn that he is now in Dresden, Germany, after a visit to relatives and friends in Sweden for six weeks; he went to Dresden, Germany, to study music, etc. After examination he was entitled to the highest class in violin music. His studies are violin, piano, harmony, music, history, quartette, chorus, etc., and next year he intends to take extra lessons in singing and Italian language. He sends his best regards to his many friends in Manistique and wishes to meet them again. Chris Forsberg who went to Sweden in company with Olson has got a position in Stockholm, Sweden and is doing nicely.

### A Dime Social.

On next Saturday evening the Ladies of the Eastern Star will give a dime social in their lodge rooms over the Hardware store. All are cordially invited to attend. A delightful program has been selected, and refreshments will be served.

"If you see it in our adv., its to be had."  
There is a principle in advertising that is as plain as day to honest folks. "Be fair," say what you mean, mean what you say, make it plain. We remember this when we write our advertisements. We had it in mind when we wrote this one.

## Fine Reading, But Poor Bargains, That's what some Merchants are continually giving you in their Prize Advertisements.

Anything we Advertise is not only for to Read, but for Sale.  
Who ever heard of a Man knowingly throwing his money away? Yet that is just what you are doing when you fall for the "Savings" Offers and "Prize" Advertisements. They are offering at \$5.00, \$7.50 and \$10.00. They are worth more and you can get more pleasure. If you need one you ought to come now to see them you will almost think you have made the prize yourself.  
Women are quick to recognize style and quality. We give you with every dress-outfit and a pocket mirror all the latestest styles, Blouses, Skirts, Dress Shirts, Books and Eyes and more absolutely FREE.  
One Third of All Cakes and Jellies. We must close out every Cake and Jelly. We must want to carry over a single one; therefore we have slashed prices right and left, and as a special inducement we give you One Third off. You can buy a Cake or Jelly for almost what the material cost.  
We have a collection of very handsome, useful and ornamental goods suitable for Christmas gifts. If you don't know just what you want, remember that you can not run us out in serving you, so shall be pleased to assist you in making your selection. Don't forget always to come early. Our Clothing and Furnishing Goods Department offers special attractions for men and boys. Our Toy department offers some handsome goods suitable for Ladies and Children.

## H. WINKELMAN.

In our fancy goods department we have handsome new goods such as Collar and Cuff Cases, Handkerchief Cases, Ivory Cases, Albums, Dolls, etc.

## What You'll Want for Christmas.

Hanging and Banquet Lamps, Chinaware, Crockery, Fruits, Nuts, and Candies.  
Mixed Candles, 5 Cents per Pound. Assorted Nuts, 2 1/2 Cents per pound. Also many pleasing novelties for Christmas tree decorations.  
Also a Full Line of Staple and Fancy Groceries.  
**Falk & Anderson.**

Mr. E. D. Beeson was in Chicago this week.

The dynamo for the electric light plant has arrived.

The PROSBER-TAMMUS office will be illuminated with electricity.

Artist House completed the painting of the new Blumrosen cottage yesterday.

Fourteen hundred couples were granted decrees of divorce in Michigan the past year.

Rose Brothers have secured the exclusive sale for the celebrated "Gold Seal" rubbers.

Mr. Andrew Foley returned to the city Wednesday evening. He will spend the winter here.

When a \$4 per week man receives a \$20 per week offer he may be excused for crowing about it.

No meeting of the village council last Wednesday evening. A meeting will be held next Wednesday evening.

Mrs. A. C. Babcock is offering some splendid bargains in first-class pianos and organs, to the holiday trade.

Mr. Fred Lee, editorial assistant on the St. Ignace Enterprise, is in the city. He was a pleasant caller this morning.

All the organizations about town have elected officers for the coming year with the exception of the Never-wear club.

The PROSBER-TAMMUS and the Inter Ocean for one year would make an acceptable holiday gift. Both papers one year for \$1.60.

A surprise party was given in honor of Rev. and Mrs. Hoglet at the Swedish Baptist parsonage last evening. A pretty and serviceable reminder of the occasion was left in the shape of a hanging lamp.

The action of the board of supervisors relative to the disposal of the two poor commissioners that have proven themselves incompetent, is awaited with much interest by the constituents of these several supervisors constituting the board.

The newspapers of nearby towns poked a deal of fun at the Manistique papers last summer for predicting a good future of this city as a shipping point. They are all compelled to admit that, in the light of recent developments, that the horizon in this vicinity has taken on a decidedly rosy hue since the Ann Arbor and Soo railroad lines have begun making preparations for utilizing Manistique as an all-the-gone port. The "apron" at the Gladstone dock will be brought here and it is safe to say that it will not be returned.

Rumor has it that Whitdale is to have two more saloons shortly.

Miller Rose is assisting at the C. L. Store during the holiday rush.

Mr. and Mrs. H. W. Clarke entertained a few friends last Saturday evening.

Try a pair of Gold Seal rubbers if you want to get your money's worth.

Marvetic wants the armor plate factory that the government is contemplating erecting.

WASTON—A position as cook in a camp. For qualifications and particulars apply at this office.

Kitchen phones have been placed in the residence of Chas. B. Meserrent Louis Danto and Rev. J. M. Shank.

Our local fisherman will resume fishing off this port after Dec. 15th, the date of the expiration of the closed season.

The tug Elmer left for Manitowish yesterday afternoon where she will go in drydock for much needed repairs.

The McCallan boys are not meeting with the best of success with their gramophone venture judging from the notices given by newspapers along the route they are taking.

Schoolcraft county's efficient sheriff, Andrew Estrom of Manistique, was a pleasant caller in town Monday. He left on the afternoon train for Germantask—St. Ignace Enterprise.

The smoke stack at the electric light plant was raised today (Friday). Capt Andy Cushman had charge of the job and it may be said to his credit that the stack, weighing 9,000 pounds and sixty feet high, was raised and placed in position in five minutes.

Mr. Hefron informed a party yesterday that he had the board of supervisors by the neck the same as he had last spring, and in consequence, he would continue to hold the position of poor commissioner for that reason. It remains to be seen whether that neck hold's what he claims it to be.

### The G. A. R. Post Elects Officers.

At a meeting held this (Friday) evening the local Post elected the following officers:

FRIDAY, December 10, 1897.

Mr. Brown will move into his new home on Dec. 16th.

The deep snow has effectively nipped all Klondike longings in this vicinity.

Pay your taxes now and avoid the extra penalty that is added in January.

An appropriation of \$92,000 is asked for a light and fog signal station at Point Aux Barques.

"The Iconoclast," a wild and woolly magazine published at Waco, Texas, has several subscribers here.

The fire engine was called into requisition last Saturday for the purpose of flooding Ekstrom's ice rink.

It has been ascertained that a bed of salt underlies the city of Cheboygan. When lumbering becomes a back number then the salt industry will no doubt be developed.

A mathematician has computed the movement of a rider's feet while working a bicycle, and has demonstrated that it requires less exertion to traverse 15 miles on a bicycle than to walk three miles.

Chas. S. Hampton editor of the Independent Democrat, Potosky, was so elated upon his success as a hunter that he attempted to publish a list of those who were successful in killing deer in his county. The list contains his name—not in bold-face as some might imagine.

The announcement of the declaration of another \$10 dividend by the Calumet and Hecla has created a furor among mining men. In all the mine has paid \$45 on every share this year, which means \$3,000,000 on the total of 80,000 shares. The Tamarrack has just come to the front with a dividend of \$8 a share, and the Occoils is to pay \$1 a share the first of the new year.

A Manistique man was surprised recently by eighteen of his poor relations dropping in on him and signifying their intentions of staying all winter. Depressed by the prospect he went out and got drunk, and ended up in the cooler. The judge before whom his case came had evidently had a similar experience some time or other, and let the unfortunate man off with the payment of the costs of the case. Menominee Journal.

A new contract has been let by the post office department, and these changes will be made in the size and appearance of postal cards. The ordinary one cent card will be made one fourth of an inch narrower, so that it may be included in the common size of business envelopes. The small one cent card is to be considerably smaller than before, conforming to the size used by librarians and others in indexing. The small sized cards will have on them a portrait of John Adams. This is the first time a picture of John Adams has appeared on any government postal material.

The board of supervisors meets in special session next Tuesday.

The Soo barber shops all close at 8 o'clock p. m. every evening.

The issuance of the tax list was the cause of a slight delay in the appearance of THE PIONEER-TRIBUNE this week.

It seems odd that a woman can be a cracker-jack cook for the heathen, at church festivals, yet always needs a hired girl to cook for her husband.

We acknowledge the receipt of the nineteenth annual report of the Secretary of State, relative to farms and farm products for 1896-7. While Schoolcraft county is not an agricultural county yet it makes a very favorable showing in the report.

The Workmen Elect Officers.

At a meeting of the A. O. U. W. Lodge held last Monday evening the following officers were elected.

Master Workman, John B. Lovis; Foreman, J. S. McKnight; Overseer, Dennis Murphy; Recorder, J. S. Strong; Financier, J. I. Peck; Receiver, C. P. Hill; Guide, R. D. Johnson; Inside Watch, Fred Johnson; Outside Watch, Eph. McCullough; Representative to Grand Lodge, R. D. Johnson.

Alternate Representative, John Eichenbruch; Trustee, John Hackenbrach. The officers will be installed at the first meeting held in January.

Its First Passenger Train.

The first regular passenger train on the extension of the Munising railroad which connects with the Northwest line at Little Lake passed over the line Sunday.

By this extension Munising gives a much better connection with the outside world that it has enjoyed before and at the consummation of their hopes the jubilation of the Munisingers gave vent in a demonstration.

The train, consisting of an engine, and accommodation car and a regular passenger coach, left Munising yesterday morning, leaving the officials of the road, the mayor of the new town and about a hundred of the leading citizens.

The hundreds who were not fortunate enough to secure invitations did not allow this to dampen their enthusiasm but cheered the newly decorated train and its little passengers as it pulled out of the station.

It arrived at Little Lake ahead of the Northwestern train, and when that pulled up beside the new depot the people from the future metropolis were all put on the platform and were making the air ring with their cheers and shouts of Munising! Munising! John Meelan, a former Marquette man, was conductor on the train—Mining Journal.

Tax Notice—Doyle Township. Notice is hereby given that the undersigned, treasurer of Doyle township, Michigan, will be at his residence in Doyle township, each Saturday from the first of December, 1897, to the 10th day of January, 1898, for the purpose of receiving and receipting for taxes. All interested are invited to call.

JACOB EDWARDS, Treasurer.

Sixteen years ago the number of scholars enrolled in our public schools did not exceed 105.

A Menominee ice boat is being fitted up with an electric flash light. The power for the dynamo will be generated by a wind mill.

The year 1897 contains 53 Fridays. In consequence THE PIONEER-TRIBUNE will be issued 53 times during the year drawing to a close.

The Ste. City of Alpena has 50,000 miles to her credit for the season just closed. This was done without accident or loss of life.

Logan Bros. have purchased Mr. Menany's interest in the Gould City Times, and the issue of last week is the result of their effort. The paper will be better than ever under their management.

Alpena will try prayer on the diphtheria epidemic. If it would try fumigating and right quarantining it would do better. "Did you pray?" said one of the elect to a fellow who fell over a cliff and was miraculously saved by catching hold of a tree a few feet from the top. "Yes," says the fellow, "but I hung on like a puppy to a root."—Cheboygan Democrat.

This afternoon, while making calumet a man by the name of Duffy had the misfortune to cut his head open on the sharp edge of an axe. It seems he was cutting down a tree when he slipped and fell, the ax falling from his hand striking him on the head, cutting a gash 4 inches long and quite deep. Dr. Summers was called and advised him sent to Manistique to the hospital. He was employed by A. B. MacArthur & Co., and boarded at Mr. Dulbec's camp—Gould City Times.

The Carole Drug Co.'s variety show had its reception at St. Ignace. A watch was to be given to the young lady getting the most votes, each vote of course requiring the purchase of a bottle of medicine. A Miss Brennan ran 200 or 300 votes ahead, whereupon it is alleged, the troupe ran in enough votes through a "capper" to bolster up a rival, and thus bring about the sale of more bottles to keep Miss Brennan in the lead. The crowd caught on, and the troupe left town amid a shower of snow-balls and decayed eggs.

The Soo-Yukon Mining & Transportation Co. was formed at the Soo Saturday last for the purpose of operating on the Yukon river and tributaries. The members are: Capt. Jay Hursley, George Hursley, R. G. Ferguson, Rev. C. M. Westlake, Harry Kemp, M. S. Holton, D. Brown, George Watson, Geo. O. Comb and D. B. Frank Reynolds of the Soo, Donald McLean of Minneapolis and J. W. Davidson of Marquette. The company will build two boats at St. Michaels and do a general mining and transportation business.

A Menominee dispatch to the Free Press of Wednesday says: "As soon as navigation closes in Green Bay the apron for loading cars onto the ferry steamers of the Ann Arbor lines will be taken from Gladstone to Manistique, where it will not remain in the new slip. A connection will be formed there between the east and the Lake Superior country. The Chicago Lumber Co. owns and operates about thirty miles of railroad north of Manistique, which is now connected with the North Western main line and the South Shore road. Thus the Ann Arbor will have an outlet to the west and the whole upper peninsula north of its present western terminus in this city. The boats will run to Manistique the entire year; and the new line will open up a splendid industrial country." A portion of the above article is misleading. The railroad in question is not owned by the Chicago Lumbering Co., neither has it been extended to the South Shore railroad. It will only be a question of time when the Manistique & Northwestern railroad will be made the connecting link between the South Shore railroad and the whole winter open port on Lake Michigan.

Election and Installation of Officers.

Lakeside Lodge No. 371, F. & A. M., elected and installed officers at the regular meeting held Monday evening of this week. The list of officers follows:

W. M., V. I. Hixson.  
S. W., Alex Davidson.  
J. W., J. J. Hornberger.  
Treasurer, E. C. Brown.  
Secretary, Sherman McNeil.  
S. D., E. D. Carr.  
J. D. Corwin Adkins.  
Tyler, Eugene Madden.  
Chaplain, W. C. Brown.  
Stewards, Nels J. Olsen and Earl Vastlander.  
Marshal, S. Mix.  
The officers were installed by Past Master Bronson.

Representative to Grand Lodge, W. C. Bronson.  
Organist, W. F. Kefauver.

The liquor tax list for 1897 appears in this issue. It is the smallest in years.

The storm of Monday last would have made the face of an old time Kansas blizzard turn green with envy.

The Commercial Bank at Iron Mountain has been designated as a depository for state funds. This speaks well for the management of that institution.

A Little Mixed.

John Miller, general superintendent of the Manistique Lumbering Company, of Manistique, Mich., the Manistique railway, Alger, Smith & Co., the Elroy Land Company, and president of the Marais Lumbering Company, is making an effort to promote emigration into the agricultural district of upper Michigan. He has placed the farming lands of the companies named on the market, and is offering inducements to settlers. North of Manistique he has reserved a tract which will convert into a model farm.—Northwestern Lumberman.

A Boom for Ann Arbor.

A Toledo dispatch to the Detroit Journal says: H. W. Ashley, general manager of the Ann Arbor railway, is in Frankfort, looking up the freight interests of the road for the coming winter. It is understood that some more propeller will be placed in service on Lake Michigan during the season. This will make a total of six boats run by this company, two of which will be regular car ferries. Two of the propellers, the Ford and the Parwell, are now on their way to Frankfort to go into service.

A new pier is soon to be opened by the Ann Arbor people on the upper peninsula at the town of Manistique. Workmen are now building a ship and deepening the channel at that point. Gladstone, quite a distance to the southwest, will be abandoned during the entire winter, as it is practically impossible to keep the channel open. The Ann Arbor boats will however still touch at Menominee during the entire winter. Boats will also run from Frankfort to Manitowoc and Kewaukee.

The statement of earnings of the road for the month of November indicates gross receipts to the amount of \$119,327.17. This is an increase of \$10,824.03 over the same month in 1896. The road was never in a healthier condition, and promises to become in time a very strong system for general traffic.

For Postal Banks.

The establishment and regulation of a postal savings bank system is provided for in a bill introduced in Congress by Rep. Lorimer (R.). Under his scheme, money can be deposited by the postmaster-general are to be made branch postal savings banks with an office in the department to be called the Central bank. Any person may become a depositor under this act including married women and minors above 12 years. Deposits are limited to a dollar and its multiples and not exceeding \$300 in 1897. The total amount of \$1,000 will not draw interest.

Postal savings stamps and cards of the denomination of 5 and 10 cents are to be sold. Interest is to be at the rate of 2 per cent a year to be added to the principal on Jan 30 of each year. Pass books are to be forwarded annually for examination. The secretary of the treasury under this bill is required to invest in interest bearing bonds of the United States or whose principal is guaranteed by the United States, or in state bonds and bonds of municipalities and counties under stated restrictions. Deposits will not be liable to seizure or detention under any local process. All statements delinquent in the postal service are to be applied to the postal savings system and the act is to take effect within six months of its passage.

MICHIGAN MELANGE.

NEWS OF GENERAL INTEREST TO OUR READERS.

Important Happenings in the State During the Past Few Days Reported by Telegrams and News Selected for the Benefit of Our Own People.

Jackson, Mich., Dec. 7.—In the arrest of DeWolf W. Gould at Tecumseh for non-support of his wife, a strange story was disclosed. Five years ago Gould abandoned his wife, and never returned to her. She died in Chicago. Mrs. Gould came to Jackson, the home of DeWolf's father and mother. Shortly after her arrival she received a letter from the Minneapolis police stating that DeWolf Gould a railroad engineer, was drowned. Later a second telegram informed her that the body had been recovered, but having remained under water a long time was not identifiable.

Weeks and months and years passed. Three weeks ago Mrs. Gould heard that her DeWolf Gould was running a locomotive on the Lima Northern railroad between Lima, O., and Detroit. She wondered if it could be her husband, and although she had received notice of his death she decided to investigate. Her investigations proved beyond doubt that the man was her husband, whom she had supposed to be dead all this time. She wrote on yesterday's paper against him for non-support and the arrest followed. Gould tells the following story: "When I left home in Chicago five years ago my wife told me that she never wanted to see me again. I went to Minneapolis, and after long hesitation I determined that it would be best for my wife to care for my family and that they all should believe me dead."

Accidentally I went to my wife's bank and left all my money together with my watch and nearly \$100 in money, to look as though I had drowned, accidentally or otherwise. She was told of them, as I understand, and later found a corpse in the river which they took for mine. My wife tells me that she never received the money, and that she and her children were in the pockets, or my life insurance, and that the corpse supposed to be me was buried at Minneapolis."

Since that time he has been wandering. He traveled nearly all over the United States in search of work, finally securing a position on the Lima Northern. He says he can't provide for his family, though he would gladly do so. Mrs. Gould denies that she did she never wanted to look upon his face again.

Some Mining Reports Unfounded. Jaspeling, Mich., Dec. 5.—Reports that the Carnegie interests have secured controlling stock or were about to secure control of the Cleveland-Ohio Mining company are absolutely unfounded. It is stated here, No Carnegie interest has been secured by the officials of the Cleveland-Ohio company, all trustworthy men, emphatically deny that any negotiations are, or have been in progress, toward the Carnegie or other companies and control of the property.

Harris a Church Insurance Company. Lansing, Mich., Dec. 2.—The National Church Mutual Fire Insurance company, which has its headquarters in Detroit, S. D. Fouse is president, has been sending by circulars sent all over the state to induce the Michigan clergymen and church officers to act as its agents and has thus enlisted the services of many of them. Insurance Commission Campbell has issued an open letter warning the public that the company is doing a fraudulent business in the state.

Discoveries of Tyzans. St. Ignace, Mich., Dec. 2.—People of this city are expecting a boom on account of the wonderful discoveries of gypsum in the vicinity. The gypsum so far is of the finest quality, and is found in so many places within a radius of a dozen miles that it is believed the whole section is underlaid with it. Fifty years ago quite a quantity of the gypsum was taken out and shipped, but the industry was abandoned on the death of one of the prime movers.

Grand Rapids, Mich., Dec. 3.—The grand jury men have been circulating petitions asking Governor Pinckney to call a special session of the legislature to meet a 2-cent railroad law, and after that to meet a 1-cent law. It is proposed then to appoint a committee by the petition before Governor Pinckney and give favorable consideration.

Labor Demands a Christmas Gift. Ionia, Mich., Dec. 3.—The local branch of the Mine Workers' union yesterday made another demand on the mining companies for an advance of 15 per cent. In wages of all employees, to take effect Dec. 25. The union threatens to strike if the increase is not granted. The companies had decided to grant a raise in a few days, but will not do so unless the union make a demand.

met and Hecla stock. Today he possesses more than 500 shares, valued at nearly \$50 a share. When the mine pays one of its regular quarterly dividends of one dollar, Peter says he checks for \$500. Peter is known about town as the copper king and controls almost as much stock as the Boston owners.

May Hoped Insurance Companies. Lansing, Mich., Dec. 4.—State Insurance Commissioner Campbell has issued a circular containing names of thirty-five fire insurance companies that he expects to do business in Michigan, and many of them he charges have no legal existence anywhere. There are in addition a number of over twenty additional fraudulent companies recently published by the commissioner.

### House-drudgery,

more than any other one thing, is what wears out women. Not ordinary house-work—but hard labor with the hands, trying to keep things clean without modern methods. That isn't work. It's drudgery—an enemy to woman's health. Now, which is better—to use Pearline and stop the drudgery, or to wear yourself out and then try to get well? Pearline, more than any other one thing, makes house-work what it should be. It makes the washing and clearing fit work for any woman.

# HAYTI HAS YIELDED

## FORCED TO COMPLY WITH THE DEMANDS OF GERMANY.

**Reluctant the Kaiser's Flag and Agreed to the Ultimatum and Other Clauses of the Peace of Berlin.**

PORT AU PRINCE, Hayti, Dec. 7.—The trouble between Germany and Hayti appears to be settled. It is understood that the question of indemnity demanded by Germany for the alleged illegal arrest and imprisonment of her citizens has been settled to the satisfaction of that country. It is further understood that the government of Hayti, in face of the display of force made by Germany, and under the threat of a bombardment of the defensive works of the port unless these demands were agreed to within the eight hours following the time the German ultimatum was delivered shortly after the arrival at this port of the two German cruisers sent to back up the demands of the German minister here. The first part of the settlement took place at 6 p. m., when the Haytian fleet formally saluted the German flag.

### TOOK ANOTHER SLICE.

**German Forces in China Advance and Seize the City of Kiao-Chau.**

LONDON, Dec. 7.—A dispatch to The Daily News from Shanghai says a telegram has been received there from Chinan-Fu asserting that 200 German marines and sailors, with two machine guns, on Friday last entered the city of Kiao-Chau, 45 miles from the bay, and took possession of the city walls and gates. They were not molested, the Chinese troops retreating as the Germans advanced.

### Wanted to Join the Volunteers.

BERLIN, Dec. 7.—It is deemed significant that 120 volunteers, including a number of members of the aristocracy, like Count von Kessler and the Prince of Thurn and Taxis, are to accompany the expedition to Kiao-Chau bay, with Prince Henry of Prussia as its commander.

### Have Just Taken a Lesson.

LONDON, Dec. 7.—The Berlin correspondent of The Times believes that Germany has proposed to China to take a lesson, at a nominal sum, of Kiao-Chau bay and adjacent territory for a long period.

### FIRST HOUSE SKIRMISH.

**Currency Legislation at the Bottom of a Lively Fight of Several Hours.**

WASHINGTON, Dec. 8.—The session of the house, though it lasted but two hours, witnessed a very lively skirmish over the question of distributing the president's message to the various committees clothed with jurisdiction over the subjects dealt with. The conflict of authority came between the ways and means committee and the banking and currency committee. The battle raged all along the line. During the debate General Grosvener of Ohio first the first gun against the civil service law, and this also brought the friends and enemies of that measure into action.

Mr. Johnson of Indiana, in a ringing warning, declared that if a bill to enlarge the civil service law were passed it would meet the presidential veto. Eventually Mr. Dingley, in deference to the opposition of the members of the banking and currency committee, agreed to a modification of the order of distribution so as to send to the ways and means committee all matters relating to the revenues, the bonded debt of the country and the treaties affecting the revenues. The resolution was then adopted.

WASHINGTON, Dec. 8.—A new member in Mr. H. D. S. Mone of Mississippi was introduced in the senate during the day, and after some brief criticism of the form of his credentials the oath of office was administered to him. During the session 106 bills, many of which were private pension measures, were introduced in addition to several joint resolutions and some senate resolutions. An interesting contest for precedence in consideration by Mr. Lodge's immigration bill and the proposed legislation to confer authority upon the president to act for the protection of the government's interest at the sale of the Kansas Pacific was pending at the close of the session.

### RECOMMENDED BY GAGE.

**Annual Report of the Secretary Submitted to Congress.**

WASHINGTON, Dec. 8.—The annual report of the secretary of the treasury sent to congress shows that the total receipts for the year ended June 30, 1897, were \$430,378,167, and the expenditures \$448,439,622, leaving a deficit of \$18,061,454. The receipts of the year, however, exceeded those of the year 1896 by \$20,911,759.

As compared with 1896 there is an increase in the customs of \$16,732,574 and internal revenue \$1,342,741.

The secretary, at some length, argues the need of a reform in the currency and in conclusion recommends the enactment of legislation establishing a department of the treasury to be designated in which is to be deposited \$25,000,000 in gold to be used only for redemption purposes, and all silver now held in the treasury for redemption purposes, and also all silver bought under the act of 1890. He further recommends that the sum of \$200,000,000 in United States legal tender notes be also deposited in this division, to be disbursed therefrom only on receipt of gold.

### Extended the Time.

WASHINGTON, Dec. 8.—The interstate commerce commission has decided to extend for two years the period within which railroads must comply with the act of congress requiring all railroads to be equipped with safety appliances for the protection of the employes and passengers.

### RECOGNIZED HER SON.

**President's Mother Hopes to Meet Him on His Return From Washington.**

CANTON, O., Dec. 8.—One more of the children of Nancy Allison McKinley have gathered about her couch, unable to be parted by her untimely death. The arrival of the president's mother arrived before the death of the child, and took with him the children and other relatives, among them Mrs. Albert Osborne, mother of General W. M. Osborne.

In that little apartment at the McKinley household there was a scene which has never before been witnessed in the eyes of all present, were remarkable and almost miraculous in the president's mother from had fallen early in the morning.

Recognized the President.

As her famous son entered the room, accompanied by his wife and niece, Miss Mabel McKinley, the sister of the president, Miss Helen said:

"Mother, here are William and Ida." She knelt by her bedside, he kissed her tenderly, reverently, and as he did so she put her arm about his neck and signified that she knew him. She also recognized the president's wife, and Miss Mabel McKinley and Jack Buchanan. It seemed to friends that she had the arrival of her son. Soon after she lapsed into an unconscious state, the strength that had been hauled in for the last meeting of son and mother seemed to leave her.

### ASK NEW LEGISLATION.

**Iowa Railroad Commissioners Want That Power Restored.**

DES MOINES, Dec. 8.—The annual report of the Iowa railroad commissioners, just filed with the governor, makes some radical recommendations calling for new legislation to rehabilitate laws that have been supposed null and void recently to give ample power to the commissioners to regulate rates. In the case of Harris against the Chicago, Burlington and Quincy railway, the Iowa supreme court decided that the rate fixed by the commissioners was not prima facie evidence of a reasonable rate, thus in effect holding that all rates are subject to review by the courts, and giving the railroad companies the bond which, the right to wholly disregard the commissioners' rate.

### GOVERNMENT TO QUALIFY.

**It Will Make a Bid on the Kansas Pacific Bond Dec. 14.**

WASHINGTON, Dec. 8.—The secretary of the treasury has taken the first step to qualify on behalf of the government as bidder at the sale of the Kansas Pacific railroad on Dec. 14.

A transfer order for \$300,000 was sent by Treasurer Roberts for certification to the Southern City bank of New York, in favor of the master of the court having jurisdiction of the case. This order will be delivered to the master five days before the sale by an officer of the treasury department, who, it is believed, will bid at the sale, under instructions from the president.

It is said that 600 words are all that are necessary for purposes of communication in the English language. This being the case, it would be a good plan to find out what the 600 are, and learn how to handle them.  
 People go to the postoffice or railroad station with money in their hands to pay for stamps or tickets, as the case may be, and feel it no hardship that the government and railroad company do no credit business. The cash and cash only plan of doing business, as conducted by them, causes no inconvenience seemingly. What a blessing it would be if private business could be conducted in the same way.

There may be some mistake about Santa Claus and the bills for Christmas gifts do take off the edge of pleasure, but there is no discount on Thanksgiving. So long as it is kept free from presents and devoted to good eating, Thanksgiving will retain supreme.

Several of our business men who have decided to use electricity as a medium of illumination, are a little slow in allowing Mr. Alister to wire their buildings. It is the wiring in operation prior to the time set for the done of the plant it can be more cheaply and satisfactorily done. It saves expense and extra work. The cost of 10 candle lights per month is 50 cents and for 32 candle lights \$1.00 a month. The charges for wiring a building and putting in the lights is \$1.00 per lamp. The lamp and all fixtures become the property of the customer.

Chris Johnson, a year ago, went to Denmark to visit his parents. He did not have his full naturalization papers with him, and was at once impressed into the Danish army and a year's service exacted from him under the law requiring all male subjects to bear arms from one to three years. Chris arrived back ten days ago in not very good humor with the mother country. He received a pound of bread and 39 cents a day—\$120.45 in money, and 366 pounds of bread; and provided himself with all other necessities—this for a year's sold duty. No wonder Chris is disgusted.—St. Ignace Republican.
