A CANDIDATE FOR RE-ELECTION

In Hon. Geo. P. McCallum, who so ably represented the 10th District in the Legislature.

Political custom demands a second term to a worthy official and for that reason Hon. Geo. P. McCallum should be re-nominated for legislative honors. That he made an efficient public servant it is only necessary to point to

his official record. He proved himself a loyal friend to the interests his constituency and although one of the youngest members of the lower house he emerged from it at the close of the session with an enviable reputation. His speeches were ably quoted.

He possesses the courage to stand by his convictions irrespective of the popularity. It was the only member of the House from the upper peninsula that voted in favor of a specific taxation on the mining industry.

As a parliamentarian he had few superiors among his fellows, and in case of re-election he will be a formidable candidate for the speakership. He should be tendered the nomination without opposition.

Commissioner Osborn Satisfied.

The Supreme Court Tuesday sustained the contention of Railroad Commissioner Osborn that the mail and express earnings of railroad companies must be treated as the earnings of passenger trains in arriving at the rate of passenger fare that can be charged in this State. The law provides a graduated rate based on earnings per mile of the road in the State, and Commissioner Osborn recently ordered the .Wabash to reduce its rate from three to two and one-half cents per mile. The company objected, claiming that the law excludes earnings from the transportation of express and mails.

Blaze at the Chemical Plant.

The liquor room at the recent plant of the Burrell Chemical Co., caught fire from the boiler room last Saturday forenoon and for a time it was thought that the fire might involve all the buildings in the vicinity. The fire department responded promptly and did very effective work, confining the fire to the roof of the building in question. The valves and the machinery was not damaged to any great extent. The loss will aggregate about \$10,000.

The Gladstone fire department was instructed by Genl. Mr. Pennington of the Son line, to be in readiness to go to Manistique via special train to assist in fighting the fire but before the departure of the train the fire was under control.

New Bank Building.

The Manistique Bank has decided to erect a two story brick building on the lot at the corner of Cedar and Walnut streets. At a recent meeting of the directors, Messrs. Geo. W. Orr, N. B. Waddell and C. B. Meseroux were appointed committees to secure plans and estimates, and to report at a meeting to be held May 5th. The building will be one of the handsomest in the city and will be completed this summer.

Went into the Jail.

On St. Woodgild of the St. Canister had a narrow escape yesterday morning. He fell into the hold of the vessel and a chains of about fourteen feet by falling he grasped a rope which became tant just as he struck the bottom of the hold. He certainly had a narrow escape from serious if not fatal injuries.

Turned to the Departed.

Isaac O. A. J. Hill, a Fish Lake who was found wandering about in the woods near Chumpey in a demented condition and who was brought down from there for examination as to his sanity, had his examination yesterday in the presence of the court and was judged insane. As he has not been a year in this country he will be deported. The United States authorities have been notified.—Mining Journal.

Will visit Manistique recently.

An issue brother was expected to Finland from this city a few weeks ago.

We are informed that the Burrell Chemical Co., the Manistique Iron Co. and the White Marble Lime Co. will install a powerful pump on the river bank in the vicinity of their buildings as an additional protection from fire. Several thousand feet of hose will also be purchased.

TIMES HAVE CHANGED.

The Fire Department Now the Epitome of Any in the Upper Peninsula.

There was a time in the history of Manistique that when the fire bell tolled an alarm the citizens turned out in large numbers to view the spectacular scene and to toast their shins in the heat. The finks of these fires invariably came a heap of ashes. Things have changed since the improved facilities for fighting fire have been provided. In but very few cases has fire entirely destroyed the building in which it had its inception since the steam fire engine has been in use. A notable example of this was the recent fire at the Chemical plant. The still house was in flames and contained thousands of gallons of wood alcohol. By the efficient work of the department the building was practically saved and its contents were uninjured. It required heroism of no mean order for men to enter the burning building in order to fight the flames when incalculable by burning started the man in the tin. Had one of the tanks exploded their lives would have paid the penalty.

Too much praise cannot be given the fire department for its excellent work last Saturday.

The department has men that have no equals in the upper peninsula, yet they barely receive sufficient recompense to pay the laundry bills incurred as a result of their dressings.

The boys want a room where they can congregate and transact the business of the department. Under present conditions this is an impossibility. The remedy lies in the erection of a suitable headquarters building.

Surprised a Guest.

Mr. Frank Crittenden was reminded of the fact last Monday evening that he had reached another milestone in life's journey, by a surprise birthday party given by a number of his G. A. R. comrades. The evening was very pleasantly spent and refreshments were served. The gentlemen presented him with a handsome cane, and his present from Mrs. Crittenden was an easy one.

Staple Syrup Sold.

The High School Athletic association will give a maple syrup social at the opera house next Friday evening May 4th. A very pleasing program will be rendered and maple syrup and hot biscuits will be served as refreshments. Admission 25 cents. The public should patronize the social and encourage the boys.

A Conundrum.

Generally Speaking... What is it?

THE answer apparently has nothing to do with the Hardware business but will have a great deal to do with it, and if you are after the almighty dollar you will as certainly seek our answer as our answer as for the answer to the above conundrum.

"I think DeWitt's Little Early Risers are the best pills in the world," says W. E. Lake, Happy Creek, Va. They remove all obstructions of the liver and bowels, act quickly and never grip. A. S. PUTNAM & Co.

A fire was discovered in the Cherrand restaurant building on the West side at an early hour Wednesday morning. A defective flue was the cause.

W. M. Waples, Weston, Wis., says "I consider One Minute Cough Cure a most wonderful medicine, quick and safe." It is the only harmless remedy that gives immediate results. It cures coughs, colds, croup, bronchitis, and all throat and lung disease. Its early use prevents consumption. Children always like it and mothers endorse it. A. S. PUTNAM & Co.

Charles H. Hackley of Muskegon presented the council of his city with a check for \$10,000 with no provision as to how it should be expended. Why don't one of Manitoba's wealthy citizens donate a sufficient amount to erect a commodious modern town hall.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and whenever any of my family or myself catch cold we begin to sneeze begin to cough and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. CHAPTER VII.

Billy Gray was indeed in close arrest and the grim prophecy was fulfilled. Canker was proving "gray" thing but a guardian angel was in.

Not only an important prisoner was he, but two not only took out four. No man in authority was able to say just when or how it happened, for it was Canker's own men who were the prisoners should not be paroled when the guard fell in at night.

There were three men who had hitherto been allowed to walk about and such notes as Canker's wrath that not only was Gray in arrest, but the sergeant of the guard also, while the three lockstep men who were successful in taking out of the wooden shed that served as a guardhouse were now in the hands of the prisoners in the place of the escaped quarry.

It was not long that Canker's men were seen to be in the hands of the prisoners. One of the three men who had hitherto been allowed to walk about and such notes as Canker's wrath that not only was Gray in arrest, but the sergeant of the guard also, while the three lockstep men who were successful in taking out of the wooden shed that served as a guardhouse were now in the hands of the prisoners in the place of the escaped quarry.

So he heard these stories with eager ears and sent for Gray. He wanted to bully him into an admission or confession, but Gordon's words were "I'm free!" The little fellow who had been bragging Canker's anger and telling him he had said all he proposed to say that he could call his bluff up on the previous day. The result of that was his being placed in close arrest and informed that he should be tried by general court-martial at once. So he had taken counsel, as was his right, and "counsel" forbade his committing himself in any way.

poor Billy contemplated them with sinking heart. Taking prompt advantage of his position as officer of the guard, he had, with his revolver, taken to the guardhouse to the right outside the guardhouse, and as a heavy, dripping fog came on the wings of the night wind, he had seen the night wind blowing to the sheltered side, which happened to be the direction of the route to the building, and had taken advantage of the darkness to slip away from his position. He had taken advantage of the darkness to slip away from his position.

"I can't talk about the affair—with that fellow spying," he said, with an eager look in his eyes. He had taken advantage of the darkness to slip away from his position. He had taken advantage of the darkness to slip away from his position.

the service has gone to the devil and officers are running errands for enrollment. An 'get back inside two minutes, too' had followed, with a warning to the sergeant of the guardhouse to the right outside the guardhouse, and as a heavy, dripping fog came on the wings of the night wind, he had seen the night wind blowing to the sheltered side, which happened to be the direction of the route to the building, and had taken advantage of the darkness to slip away from his position.

The latter day department of the Genesee Woodwork company, a plant was destroyed by fire in Escanaba, entailing a loss of \$20,000. The fire started in a dry kiln in the north wing of the factory and spread with such rapidity that many of the girls employed on the second floor were unable to escape. Four of the girls were compelled to jump from second-story windows and a number of others had their wraps in the path.

The latter is John E. Sylvester's assailant at the site of Sylvester's camp, while far and near through the fog, fragments of a secret of the camp, the bugles and trumpets were being raised for "lights out" and shadowy figures with caps turned about the corner of the guardhouse were seen, hurried about the company streets orderly laughter.

FOR WOMAN'S HEALTH.
Barrett's Letters from Women Recovered of Pain by Mrs. Pinkham's Compound.
"DEAR MRS. PINKHAM:—Before I commenced to take your medicine I was in a terrible state, wishing myself dead a good many times. Every part of my body seemed to pain in some way. At times of menstruation my suffering was something terrible. I thought there was no cure for me, but after taking several bottles of Lydia E. Pinkham's Vegetable Compound my mind feelings were gone. I am now well and enjoying good health. I shall always praise your medicine."—Mrs. Anna Peterson, Box 270, Hiram, Mich.

Female Troubles Overcome.
"DEAR MRS. PINKHAM:—I had female trouble, painful periods, and kidney complaint, almost total trouble. About a year ago I happened to pick up a paper that contained an advertisement of Lydia E. Pinkham's Vegetable Compound, and when I read how it had helped others, I thought it might help me, and decided to give it a trial. I did so, and as a result am now feeling perfectly well. I wish to thank you for the benefit your medicine has done for me."—Miss G. A. STANLEY, Colerain, Neb.

No More Pain.
"DEAR MRS. PINKHAM:—My Vegetable Compound has been a great benefit to me. When my meninges first appeared they were very irregular. They occurred too often and did not do so, and as a result I was very much benefited at these times with terrible pain in my back and abdomen. Would be in bed for several days and would not be exactly normal at times. I took Lydia E. Pinkham's Vegetable Compound, and in a few days the pain subsided and I feel better."—Mrs. E. C. EDITORIAL COMMENT.
 Life is more serious than death. The most common fault we know of is insincerity. After people are old enough to have sense they are too old to use it. The easiest way to reach the people of any community is through its leading newspaper. The man who can't make a dollar in his own business knows how you can get rich at yours.

The funny part of Dewey's candidacy is that he is after McKinley and does not consider that Bryan figures in the affair at all. The custom receipts of the port of Manila have increased at the rate of more than \$1,000,000 a year since American occupation, notwithstanding the war. With peace, it is reasonable to suppose that the development of Manila would be marvelous. Representative Sheldon and ex-representative S. M. Stephenson are talking amicably together in the floor of the house, and are talking together quite socially in the theatre restaurant. At Washington on one day last week, and the correspondent of the Detroit News says that the two men were so friendly that they were able to agree on the fact that they

WANT A REMEDIATION.
 The Pittsburg News classifies Dewey as the automobile candidate. He has no pull and nobody is pushing him. Editor Knight of the Norway Current, has lately been deeply bereaved by the death of his mother and sister.

WANTS A REMEDIATION.
 Licent. Governor Robinson thinks that he is entitled to a re-nomination and has announced his candidacy in the following letter to the convention. As the time will soon arrive for opening the campaign of 1900, I announce myself as a candidate for re-nomination for the office of lieutenant governor on the Republican ticket.

WANTS A REMEDIATION.
 The seventeenth annual report of the bureau of labor statistics was received at this office Tuesday with the compliments of Labor Commissioner Cox. The report is interesting and reflects much painstaking labor and research upon the part of Mr. Cox and his efficient corps of deputies. According to the report 1203 persons are employed in the various mills, factories and manufacturing establishments in Manistique. This does not include the clerks and business men, who pay his bills in contributing something to charity, and also something to the support of dead beak, who are usually the ones making the most severe denunciations of the man who pays his debts.

WANTS A REMEDIATION.
 An old bachelor was heard to remark that some mighty nice girls are wearing some of the infernalist and ugly hats he ever saw. The government makes a profit of a million dollars a year by the loss of paper money which is burned or destroyed in some other manner.

WANTS A REMEDIATION.
 Now that the war revenue law is producing a surplus, portions of the law should be repealed. The clause providing for revenue stamps on bonds, checks and bills of lading should be the first to go.

WANTS A REMEDIATION.
 Well, the U. S. senate deserves praise. It ousted Clark the Montana boodler and Quay the Pennsylvania trickster all in one week. The Michigan senators voted right on the Quay proposition.

WANTS A REMEDIATION.
 A man in Florida shot his wife because she refused him a dollar she had earned at washing. If every woman shot her husband when he refused her money the male portion of the human race would soon become extinct.

American have scored their first victory at the Paris exposition by an exhibition of getting their building and exhibiting and making much ahead of others as to make the French commissioner general say: "It is an object lesson to us all to see the American people work."

Massachusetts is said to produce a music hero who is a lover of music. For 19 years she has each Friday traveled 80 miles by railroad that she might attend the Boston symphony rehearsal. It may be that we can show greater devotion to music than this, but it is very questionable.

A Chicago man named Helen Ickel 300 mulligan pasters at a sitting and then thought it strange that he should experience any of the symptoms of the month and throat and a painful illness. His friends are trying to cure him by their troubles on the 12th of the month that the mulligan was poisoned. It did not have to be.

Philip Miller and his wife arrived at Omaha, having made the entire distance of 1,600 miles from front from New York by rail and stage. It is explained by the Chicago lady who acts as secretary for the "United States Pet Mice Club" that the mice in which the society is interested are imported animals, and are not the mice of the ordinary petiferous household, and never guilty of the mischief which the opposite side of the globe or the earth will ever when that collection of sovereign majesty gets together in one tiny town.

Hundreds of persons took to Miss Helen Gould, of New York, or said she has applications from all kinds of people, who with a little ready capital, would like to do all kinds of things. Speaking of that famous trotter, the late Maul S., it is said on good authority that every evening at about ten o'clock Mrs. Maud Stone Carey, of New York city, calls up her father, Capt. George S. Stone, of Cincinnati, on the long-distance telephone and bids him good-night. Each message costs \$1.50, but Capt. Stone thinks it is worth enough at that price. He is the street car magnate of Cincinnati, and years ago, when his daughter was still Maud Stone, he named after her the animal that eventually became the queen of the turf.

Prof. Mahaffy, of London, says that he has made one of the most interesting geological discoveries of the age—namely, that the pedigree of the Smith family can be traced back to the time of Ptolemy III, and that a Smith, possibly the first of the line, was a colon from Alexandria, in 157 years ago. The professor showed a dig a little deeper, as further research would undoubtedly show him that the Smiths were not just of power in the time of Augustus, but that a Smith was head granary keeper in the nation.

Darknet Russia
 Will be at the opera house next Saturday evening for a single performance. For those who delight in dramatic work of a better kind this is a nice treat that should prove tempting. The story brings most vividly before an audience the existing conditions of life in a darknet Russia.

 an able and remarkably, and reveals to us in free America the terrible power that can be vested in one man - a thing which we know we little expect from such knowledge as we get from books of history, or the writings of travelers. But Darknet Russia is by no means an array of blood-facts served up in the shape of a fact. It has these facts largely blended with love, devotion and heroism, and it also has a rich abundance of inherent merriment, including lines that are bright and witty.
