DAMAGED BY FIRE.

Mr. Johnson's handsome home Parson's Block in the South End.

The handsome new home of E. E. Johnson was damaged by fire last Monday evening. The fire originated about the chimney.

For some time prior to the occurrence of the fire Mr. Johnson states that the room appeared excessively hot. An unusual noise up stairs alarmed him and he rushed up to the room where his little children were sleeping. The room next to them was a swimming tank of flame and he rescued them with difficulty. Had he been a moment later they would undoubtedly have been suffocated. As it was Mr. Johnson was burned about the face and hands in the rescue.

An alarm was quickly sounded and the neighbors, many of whom had not retired as it was about eleven o'clock, came to the rescue. After considerable time the flames were extinguished. Much damage was done to the house as it was necessary to cut holes into the floor and walls so that water could be applied. The heavens.

Mr. Johnson sustained loss of \$3,000 on the house and \$3,000 on the household goods. The furniture in one or two rooms was also destroyed. Mr. Johnson lost a wallet containing nearly \$300. As the money was in the room where the fire was the fire was probably consumed.

The loss on the house and effects is amply covered by insurance as there is \$2,000 on the house and \$3,000 on the household goods. The first impression many had was that a lamp had exploded in one of the upper rooms. This was proven untrue as the bowl of the lamp was found intact and still contained a little oil.

A sample of oil used by Mr. Johnson was tested by Deputy Inspector Holben and stood a high test. A corroded fitting on the boiler of the fire engine gave way under pressure and for that reason no water was pumped.

Inspected by E. T. Vanhook.

Trans. March 11.—Special to Star News: Representative McCullum, of Schoolcraft, is preparing an important bill, skeleton for which he has introduced, that will tax the railroad on a specific basis. It is claimed by many that if a railroad taxation bill passes at all it will be McCullum's specific tax bill.

NEWBERRY'S ANNUAL VILLAGE ELECTION.

Newberry's annual village election occurred Monday and was highly successful. There were two tickets in the field, one of which was the latter party, electing one of their candidates and the other's three. Followed the result: President, William Brown, trustee, Joe Stubbins, H. E. Smith, and J. P. McKinley, assessor, Jas. Harper, clerk, Frank S. Seymour, ex-treasurer, C. A. Fungay.

The council is evenly divided, politically, with the deciding vote in the hands of the president.—Star Record.

Mr. H. A. Payne, representing the Genron Wheel Co., was in the city on Thursday with model of 1901 wheel manufactured by that company. He relates his experience in Topeka, Kansas, where he happened to be at the time of the rail by Mrs. Carrie Nation on the Senate saloon, and carries as a souvenir, a half of the stone with which Mrs. Nation demolished a large and costly plate glass mirror.

Mr. Payne relates many exciting incidents of the rail, and altogether it was an experience long to be remembered.

A New Military Store.

Rose Bros. are adding an up-to-date military department in their big department store for the coming spring. Mr. Rose when in the East secured the services of Miss E. F. Wales a prominent modist who will arrive here about March 20th and take complete charge of the military department.

Mr. Rose has bought a very large stock of strictly up-to-date and stylish military; the department will occupy a space of 20x40 ft. in the rear of the dry goods department and will without a doubt be the handsomest military department in the upper peninsula. The ladies are cordially invited to visit the new department when it is opened up.

THE WRING OF SENSE.

Folks who have clothes wash them, and folk who wash clothes wring them. All folks don't wringers, some folks twist their wrists in clothes wringing. This get first. They wear out their selves while wringing out the clothes. Clothes wringing spoons out more wear than water. The way to wring water out of clothes is to use something made to take it out, and that's a WRINGER. There are poor wringers and good wringers. A poor wringer catches and makes the clothes cost more. A good wringer cost more and makes the clothes cost less. If you want a good wringer with guaranteed rubber rolls and made of selected material, buy a wringer bearing the HOUSEHOLD TRADE MARK.

SANGER IS NAMED

NEW YORKER GETS HIS COMMITTEE AS ASSISTANT SECRETARY OF WAR.

OPPOSITION IS WITHDRAWN

Senators Platt and Depew Voted the White House and Shortly After Their Departure the Nomination is Announced—War Department Issues a Statement in Connection With the Vacancy and the New Appointment.

Washington, March 15.—Colonel William Carey Sanger of New York received his commission as assistant secretary of war at 11:30 o'clock and was immediately sworn in at the office of Secretary Root.

The following official announcement was made at the war department regarding the appointment of Colonel Sanger: "Some time before the expiration of the last administration and before the reappointment of the cabinet Secretary McKittrick, notified the president that by reason of the resignation of the senate, the long canvass attending it and the necessity that there should be an assistant secretary who could be present in Washington who could perform the duties of office, he was unwilling to permit his name to be considered for reappointment. Mr. William Carey Sanger, has accordingly been appointed and will immediately enter upon the discharge of his duties."

OPPOSITION IS WITHDRAWN

Platt and Depew Saw the President Regarding Sanger. Washington, March 15.—Senators Platt and Depew of New York called at the White House during the day and were with the president for an hour. When they left the following official statement was made as to their visit: "The two New York senators, Messrs. Platt and Depew, called upon the president and for the first time the question of Colonel Sanger's appointment as assistant secretary of war was referred to. They desired to offer an opposition to Colonel Sanger's appointment."

While the New York senators had been disposed to oppose Colonel Sanger they realized that the assistant secretary of war should be in harmony with his chief and they decided not to carry their opposition any further. Colonel Sanger's confirmation by the senate will not be opposed by them.

The latest reappointment of the congressional districts places Mackinac, Chippewa, Schoolcraft and Lapeer in the French District. It will be a close thing district as it lies on the east shore of Lake Huron to and including Bay county will be included in this district.

SEIZE INSURGENT VESSELS.

Three Hundred Boats of Various Sizes Destroyed.

Manila, March 15.—The rebel trading operations in the "Pagan Islands" have been effectively broken up. Lieutenant Fred R. Payne, commanding the United States gunboat Panama, pursuant to instructions has seized and destroyed 300 vessels of various sizes, mostly native craft, constructed to assist the insurgents. But among those which have come to grief are a number of coasting vessels belonging to leading Manila firms.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or other ailments. Doctors were scarce, and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Great August Flower, in liquid form, to make you satisfied there is nothing sorer the matter with you. Get Great's Prize Almanac. A. S. Putnam & Co.

Northwestern Flour Output.

According to the Northwestern Mill the flour output at Minneapolis last week was 235,000 barrels, compared with 240,000 barrels for the corresponding week in 1900. Duluth and Superior ground 2,500 barrels. Eighteen mills out of 22 are in operation and the output this week is estimated at 200,000 barrels. The tendency is to curtail a little. However, high flour prices furnish a strong incentive to run, and some are doing so and placing flour in store at lake ports to await the opening of navigation.

Trade Totally Paralyzed.

Kingston, March 15.—The British shipping "Panic" from Liverpool via Colon, reports that trade is totally paralyzed in Colon in consequence of rebel activity in the neighborhood. Fighting is going on in several quarters but without important results.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or other ailments. Doctors were scarce, and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Great August Flower, in liquid form, to make you satisfied there is nothing sorer the matter with you. Get Great's Prize Almanac. A. S. Putnam & Co.

Northwestern Flour Output.

According to the Northwestern Mill the flour output at Minneapolis last week was 235,000 barrels, compared with 240,000 barrels for the corresponding week in 1900. Duluth and Superior ground 2,500 barrels. Eighteen mills out of 22 are in operation and the output this week is estimated at 200,000 barrels. The tendency is to curtail a little. However, high flour prices furnish a strong incentive to run, and some are doing so and placing flour in store at lake ports to await the opening of navigation.
