## EDITORIAL COMMENT.

Thus far more than 15,000,000 persons tended the worlds fair at St. Louis.

The Russian fleet after its escapade in the English molasses to catch unwary Republican flies. The trap channel deserves the same treatment accorded to a small child toying with a revolver.

Some conservative men oppose vertical v probably because their own writing suffers so greatly comparison with that of their babies.—Moderator,

Even the Democrats concede a clean sweep this fall for the Republican party but as a Republican it is your duty to go to the polls Nov. 8th and swell the inajority.

The result of the Detroit primaries show that the tes who had the largest advertisements in the newspapers, won out. Advertising pays in politics as well as in business.

Attend the big Republican ratification at the opera house next Monday evening, register on Saturday, Nov. 5th. and vote the straight Republican ticket Nov. 8th it you would be happy.

We publish an illustrated article on the state can-didates in this issue. After seeing their portraits you certainly, will be so impressed with them that you will vote the straight Republican ticket.

Over in Wisconsin the farmers have banded them selves together and will lynch chicken thieves if apprehended. Manistique's population would decrease several points if its citizens were to follow suit,

If you want to vote Nov. 8th don't neglect to regis-ter Saturday Nov. 5th. The law requires a re-registra-tion of voters in fourth class cities every four years, and this is the year that general registration occurs un-der this low.

A minister made a straight talk to his folks when he said. "I don't want a member of this church to to pay to home missons or any other cause if he owes the butcher, the grocer, the general dealer, the dore or the rinter. Pay your debts at home before won. or the printer. Pay your debts at home before you pay the debts you owe the heathen."

The old idea of making the "State of Super out of the upper peninsula is being revived at the Soo, and the agitation hints that the Soo, Marquette and will be in the race for designation as state Menonince will be in the race to designate capital. When the Republicans of the lower peninsula become sufficiently numerous that they can carry Michigan without the aid of the upper peninsula, why then the idea of carrying out the new state might not be a

unnecessary.

THERE IS BUT OSH ISSUE.

In this static campaign there is but one real issue, primary reforms and on that issue the Republicans are weighted adoptive willing to meet their opportunity. ## THE YOUNG MAN'S PARTY.

In 1860 the Republican party, then but newly or-ganized, won its first national victory, elect ng Abraham Lincoln president; its first nominee. Frement, harding been defeated in 1856. After Lincoln followed Grant, Hayes, Garfield, Harrison and McKirley and under the administration of these Republican presidents have been written some of the grandest pages in our country's history.

The young man about to cast his first presidential vote should coatrast the history of the Republican party with that of the Democratic With the shifting party with that of the Democratic With the shifting of the lines at the time of the Civil War the Democratic time in 1800 and has given to the party became a party opposition and such it has remained to this day, opposed to the war, opposed to its satisfaction of the proposition of the proposition of the proposition and such it has remained to this chief to the carfanch seement of the negro, opposed to to sound on the control of the proposition and is also to the enfranch seement of the negro, opposed to sound on the control of the principle seement of the pri sions and so on almost without limit. When this party of opposition was called on to administer the government in 834, and again in 1892, it proved to be a party of opposition right within itself. There was a complete lack of harmony as to what ought to be done and how to do it. What little was accomplished under Democratic leadership proved disastrous for that party and the nation. The young man of tody can well remother the conditions that existed throughout the country from 1893 until William McKialey was elected to the conditions of the crisical throughout the country from 1893 until William McKialey was elected to the country from 1893 until William McKialey was elected to the country from 1893 until William McKialey was elected to the country from 1893 until William McKialey was elected to the country from 1893 until William McKialey was elected to the country from 1893 until William McKialey was elected to the country from 1893 until William McKialey was elected to the country from 1893 until William McKialey was elected to the country from 1893 until William McKialey was elected to the country from 1893 until William McKialey was elected to the country from 1893 until William McKialey was elected throughout the country from 1893 until William McKialey was elected the country from 1893 until William McKialey was elected the country from 1893 until William McKialey was elected throughout the country from 1893 until William McKialey was elected throughout the country from 1893 until William McKialey was elected throughout the country from 1893 until William McKialey was elected throughout the country from 1894 until the country from 1894 until the country from 1894 until the country from 1895 until the country from 1894 until the c
