EDITORIAL COMMENT.

And now a company, in embryo, as yet, is being formed for the purpose of asking for a franchise to install a gas plant for lighting and heating purposes, here.

Clarence E. Long of Sturgeon Bay, known all over the lakes as a recognized authority on things nautical, has founded the Nautical Magazine. The publication will no doubt be quite popular in marine circles.

If some young men expended half the time and application trying to get on in the world that they do in endeavoring to put the pool ball in the corner pocket, there would be more successes and fewer failures in this world.

According to the Michigan Monthly Bulletin of vital statistics, for October, Schoolcraft county's death rate was 6.8 as compared to 10.7 for the upper peninsula, and 12.0 for the state. Five deaths occurred the county.

The Christmas edition of THE PIONEER TRIBUNE will be issued in time so that it will be thoroughly circulated throughout the county before the holiday rush is on. If you have not secured space as yet you should do so at once.

The daily paper recently started at Cheboygan has given up the ghost after a very short career. The Democrats say that the man who started it got out just as soon as the Lord would let him, having lost from \$10 to \$14 a day, but some of his employees took it up as a labor of love—but love must eat, hence the suspension.

The editor of the Cheboygan Democrat in a paragraph concerning the demise of Editor D. R. Anthony of Leavenworth, Kansas, states that the deceased editor was the father of Miss Susan B. Anthony of equal suffrage fame. The latter is a sister instead of daughter, and is four years older than "D. R." was at the time of his death.

Don't get hot if you receive a statement of your subscription account. Don't call it a "dupe." Pay it if you want to—you should pay it if you owe it. It costs money to issue a newspaper and the publisher always needs and has use for the dollar or two you owe him. So when the printer sends you a polite little statement telling you that you owe him so much there is no occasion for getting mad and snorting.

Robert J. Bates of the Soo is in a fair way to be advanced to the position of brigadier general of the M. N. G. when Gen. McGurrin goes out of his present office. It is believed that Bates will win, not on account of his political letter written during the last campaign, but on account of his efficiency as an officer. He was commended by the regular officers at the West Point encampment last year for the rapidity with which he disembarked his regiment.

Holding the U. P. Educational Association's annual meeting in the Thanksgiving recess did not prove to be popular innovation and it is doubtful if it will ever be repeated. The attendance was large, but not as large by any means as would have been the case had the sessions occurred at any other season. The meeting is pronounced a success, but it would have been even more successful had it been held either earlier or later. Teachers are but human. When they get a vacation they want to be able to enjoy it as a vacation.—Mining Journal.

C. J. Byrns of Lehigh, is being mentioned as a candidate for speaker in the next house of representatives at Lehigh. His name comes up in a recent issue of the Iron Ore. Lehigh and he has received numerous letters from friends asking him to run for the place. As the Ore remarks: "His well-known ability as displayed in the two last sessions and the neat way in which he trimmed up the two-edged opposition, has made him popular with those who want an active, business-going man in the place at the head. Mr. Byrns is a great hustler, and has many friends with those who are associated with him in the list of Michigan's law associations." He is certainly well qualified for the position for which his friends are urging him.

EDITORIAL COMMENT.

The city council did a very commendable act last Monday evening by electing Mr. R. B. Waddell alderman from the third ward, to succeed Mr. Harry Rose, who moved from the ward recently. Mr. Waddell is one of the heavy taxpayers of the ward, is careful, conservative and honest and will no doubt make an ideal successor to Mr. Rose, who had an excellent record as an official. Mr. Waddell received five of the six votes present.

It certainly does not look consistent to lock up a poor laboring man who has a large family dependent upon his exertions for a livelihood, for getting drunk on Sunday, and allow the man who violates the state law by selling the liquor that causes the man to become intoxicated, to go free. If the laws regarding the liquor traffic were strictly enforced Sunday drunks would not be so common. No objection should be made to those violators of the law. The drunken man is a very sorry sight, but the man who sells the stuff that makes him drunk why arrest one and let the other go free. Carrying the same argument farther: Why not confiscate and destroy the slot machines about town and arrest the men that harbor them. There is a law prohibiting their operation. Until such time that the man who sells liquor Sundays is brought into court and made to pay a fine the same as his victim, the latter should not be arrested.

ADVOCATES ELECTROCUTION.

The Detroit Free Press is of the opinion that the coming legislature should restore capital punishment in Michigan. It advocates electrocution instead of hanging, however.

"Life imprisonment, under the interpretation dictated by modern penology, is adequate as a punishment, but it is not adequate as a deterrent," the Free Press says. "It is more important to prevent murders than to mete out punishment to those that have committed them. Imprisonment for any length of time affords few terrors to the highwayman, the burglar or the professional criminal. Michigan needs capital punishment, and the next legislature should pass a law providing for it."

MAGNITUDE OF LIFE INSURANCE.

If the assets of all the life insurance companies engaged in business in the United States were distributed equally to all the population of the world, each man, woman and child of every continent and every country, from Africa to Labrador would receive \$2 each. The world would be two dollars for every human being on the globe.

The assets of the life insurance companies of this country—that is, the actual property, real estate, bonds, stocks, etc., which they own—amount in the aggregate to more than two billion dollars. The companies doing business in New York state, and these include also practically all of the companies with headquarters in other states—had at the close of 1903, assets, in exact figures, equal in value to \$2,216,423,202. Such is the magnitude of the institution of life insurance! If all the adult men in America contribute simultaneously \$100 each toward the fund, that enormous sum would not equal the value of the property owned by the American life insurance companies—The Era Magazine.

WHY CRIME INCREASES.

A startling condition of affairs is revealed by S. S. McClure in the current number of McClure's Magazine, wherein is pointed out the alarming increase of lawlessness in this country. In the United States last year, with a population of approximately 80,000,000 people, there were 3,976 murders. In 1881, when there were 51,316,000 inhabitants, there were but 1,666 crimes of this class, showing that at the present time there are four and one-half times as many murders and homicides for each million people in the United States as in 1881. Appalling as this showing, it is not the reason that is made with fatalities in war and on railroads that the real significance becomes apparent. In three years the homicides in the United States numbered 31,395. In the same period there were killed on railroads but 21,847, while the British loss in the Boer war was only 22,000.

Commenting on conditions which contribute toward this reign of violence, the writer attributes the increase largely to misrule in the city and state affairs, arguing that a body of policemen engaged in blackmail, protection and in shielding lawbreakers cannot prevent others from committing crimes of make a community law-abiding any more than a board of aldermen who for private gain combine to loot a city can govern that municipality well, the same rule holding good all through the scale. That this assertion is true cannot be denied any more than can the constantly increasing indifference upon the part of the masses toward crime and perpetrators of offenses against the government or individuals. No more does the criminal receive public condemnation as he once did; no longer is he an outcast from society, scorned by the world, unless, perchance, he is unfortunate enough to belong to the lower strata.

The wholesome respect for the law that once prevailed has disappeared, and instead of seeking to uphold it every effort is devoted to defeating the ends of justice by fair means or foul. Men guilty of crimes against society are sentenced to short terms in prison if not freed altogether; the murderer and the thief are treated with the utmost consideration and succeed in eliciting the sympathy of those who should be first to condemn them. Even when punishment in some degree commensurate with the offense is inflicted a lenient governor or a pardon board adds its aid toward the general disorganization by shortening the sentence. On every hand there is apparent a disregard for the law, an indifference to consequences, an implied realization that the punishment will be light, that is the most potent factor in the increase in lawlessness which endangers the future of the nation. It is the increasing tendency in the direction that furnishes just cause for alarm, and indicates that until there is an awakening of the public conscience, until respect for law and order have been restored, until the courts and public officials do their full duty, lawlessness will continue to thrive and crime increase.

WHISKY AND A PISTOL

Together They Enable an Afflicted Man to Leave His Troubles Behind Him.

DOES THE DEED IN A STORE

Child of Fourteen Barred by Officials From Becoming a Wife. Michigan State News Notes.

Grand Rapids, Mich., Nov. 28.—"I want to be a doctor," said a stranger in the gun store of 17 1/2 Burch, 22 East Bridge street. When shown a weapon he immediately slipped a cartridge into it, pointed the gun at his best and fired. The shot made a leap to rest the weapon away from him, but was too late. The man fell in the floor as the clerk ran out his "I have killed myself, but I wanted to die" moaned the wounded man, and he rapidly sank into unconsciousness.

He Was Tied to Life.
An investigation showed that the man was Peter Karlow, of 263 1/2 Taylor street. A bottle of whisky was found in his pockets. Karlow was suffering with locomotor ataxia and it is thought that he had consumed the whisky for the purpose of nerveing himself for the desperate deed. Karlow was about 35 years of age and resided with his brother on Quincy avenue. He was married, but it is understood that his wife is now south.

They Want Money to Honor Bank Note.
Grand Rapids, Mich., Nov. 28.—The supreme court has decided that the clause in the primary election law relating to the payment of \$100 by the candidate was unconstitutional. The committee of both parties in Kent county demand the return of their money. The total amount of fees paid in the county amounted to over \$700 and the candidates propose to sue the county and fight the matter if the county does not cash up.

Sensational Facts Looked For.
Grand Rapids, Mich., Nov. 28.—Cornelius Hilliker and Leroy leave left for Okla. to look over the scene of the Pere Marquette wreck before falling in. There is much discussion among railroad men here as to who is responsible for the fatality and some sensational stories are being promulgated when the investigation begins.

TRUE LOVE'S PATH IS ROUGH

Girl Alleged To Be Only 14 Years Old Sentenced For Marriage to Her "Swain Own."

Bay City, Mich., Nov. 28.—Claude C. Parks, 21 years old, applied at the county clerk's office for a license to marry Beulah Clark, whose age was given as 10 years. He was refused until he obtained the permission of the girl's father. This he did, and the permit was granted. Later a telephone message was received at the clerk's office from a woman claiming to be an aunt of the girl, saying that the latter was only 14 years old. Sheriff Kinney was notified and investigated the matter, first notifying Rev. C. J. Burns that he must not officiate at the ceremony, as was contemplated by the law. When sent the parents admitted that their daughter was not 16 years old, but that she had obtained the marriage license under the name of Beulah Clark, a good steady fellow. Notice was served upon them that if the ceremony was performed trouble would follow. The young people are determined that they shall not be thwarted in their intention and declare that they will go elsewhere and get married.

No Reason to Fight for Him.

Bay City, Mich., Nov. 28.—All hopes have been given up by the friends of E. T. Warner, who was arrested in a term at Jackson in connection with the death of Miss Agnes Eberstein, of Battle Creek, of his getting a pardon or even a parole during the term of Governor Bliss. Another strong effort will be made as soon as Governor Warner is inaugurated to get Bennett out.

Woman Appears in the Case.

Marquette, Mich., Nov. 28.—James Warner arrested in Liverpool, in company with a woman purporting to be his wife, on complaint of his former employer, E. M. Bretling, of Marquette, is about 40 years of age, and holding in favor among his acquaintances here of his having been acquitted. The news that he was accompanied to Liverpool by a woman occasioned surprise here.

Attempt to Extort Money.

Houghton, Mich., Nov. 28.—Bill Eubank, a prominent resident of Houghton, has received several letters demanding \$5,000 under penalty of assassination. The letters are similar to those received last year ago by Joseph Booth, a wealthy Lake Linden brewer, and it is believed that the same man or gang is at the bottom of the attempt to extort from Eubank.

Will Give Two Men for One.

Detroit, Nov. 28.—A deal has been closed by Manager Armour by which the Detroit American League base ball team secures Herman Schaefer, the Milwaukee short stop, in exchange for Clyde Robinson and a pitcher, who will be selected later.

Woman Hugs a Lion.

Marshall, Mich., Nov. 28.—Mr. and Mrs. Glenn Hild have returned from a hunting trip near Newberry, where each bagged a deer.

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years" she writes, "I endured terrible pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and was completely recovered. For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50¢ in glass bottles. It is guaranteed by R. N. Orr & Co., Druggists.

HIS BROTHER DEAD

Geo. A. Wickwire Receives News of Death of His Brother, C. D. Wickwire.
George A. Wickwire received a letter last evening announcing the death of his brother, C. D. Wickwire, aged 71, who was buried at Chillicothe, Ohio. The deceased will be remembered by many here, as he visited his brother several years ago.
Took It For a Jersey Cow.
They tell a good one on a lover gentleman "bumble", who was in quest of deer in the woods between Manistique and Marquette last week. An experienced hunter who knew all about the habits of the best footed hunters of the forest, took pity on the lover peninsula band (importer), placed him on a runaway and started out to beat the swamps. Hearing a shot from the runaway the hunter leaped up his friend and asked him why he had shot at the deer that made a sprint along a runway. He answered that he didn't see a deer but that a very fat and nearly ran over him. What the experienced hunter said is unrepeatable.

THE U. P. EDUCATORS
Did Not Attend the Association Meeting in Very Large Numbers.

EXCELLENT RESOLUTIONS PASSED

Advocating Many Excellent Ideas Which It Hoped Would Lead to Greater Efficiency.

The Upper Peninsula Educational Association held at 10 a. m. last week its annual meeting at the Hotel. The school officers were elected.

President: C. A. Jeffers, Atlantic. Vice President: J. E. Aander, Iron Mountain. Second Vice President: J. E. Patrick, Ironwood. Recording Secretary: Miss Amelia Duff, Bessemer. Railway Secretary: E. E. Sehnert, Escanaba. Treasurer: E. R. Downing, Marquette. Executive Committee: F. D. Davis, Escanaba; H. E. Kratz, Calumet; W. A. McCracken, Marquette.

Following are the resolutions reported by the committee named by the U. P. Educational association for that purpose, and unanimously adopted by the meeting:

Resolved, That we favor a high educational standard for teacher. Along with increased educational requirements from teachers must come increased compensation. It is unreasonable to require the one without granting the other. We also favor reducing the average number of pupils per teacher to thirty-five or forty, believing that the increased expenditure through such reduction will be more than compensated by the correspondingly increased efficiency of our schools.

That we deeply regret that the present attitude of the colleges towards manual training work in our high schools, in giving no credit for such work, has a tendency to keep many of the high school pupils from pursuing this practical line of training and we wish to urge upon college authorities the desirability of giving some credit to this important line of work.

That since the experience of other states has amply demonstrated the serious disadvantages to the public schools resulting from state uniformity in text books, we hereby declare ourselves as strongly opposed to any legislation looking to such state adoption.

That we are heartily in favor of an amendment to our state constitution, granting to our state superintendent of public instruction an adequate salary, commensurate with the important duties of his office and believe that such salary should not be less than \$4,500 per annum.

WAS PLACED IN JAIL.
Dr. Bert H. Ling Falls to Pay Fine and Costs in Case and is Lacked Up.

PRACTICING WITHOUT DIPLOMA
And Has Been Repeatedly Arrested on the Charge, but Revolted to Pay the Fine.

Dr. Bert H. Ling of Greenfish township who failed to pay a fine of \$10 and costs for practicing medicine without a diploma, was arrested by U. S. Marshal LeRoy Tuesday and placed in jail.

Ling has been practicing medicine in that township for several years and has been quite successful. When it was ascertained that he did not have a diploma his troubles began for he has been repeatedly brought to Manistique and upon his plea of guilty to the charge has paid the fines and costs, until the last time, and for failure to do so has been placed in jail.

Ling is quite popular and has a host of friends in the country that regret the turn things have taken. He was recently elected coroner by a plurality exceeding the one given by Roosevelt.

Primary Reform Essay Contest.
A free, frank, fair, candid and popular exhibition of primary reform invited by The Detroit Tribune. That paper of five 100 yearly subscriptions to The Daily Tribune for the 100 best articles of 500 words each on primary reform received not later than Jan. 1, 1905. In addition the 10 of those who judged the 10 best will be also given the Sunday issue of the paper. Furthermore \$100 in cash will be divided among the writers of the five articles decided to be the very best in the following proportions: \$50 to the best, \$30 to the next best, \$15 to the next \$10 to the next \$5 to the next.

The Tribune does not desire to invite a partisan discussion. What it wants is an honest, fair expression in the hope that the legislature may gain a standpoint and light from what the people say on any and all sides of this big problem for the correct solution of which all honest people are anxious. To enter the competition the articles must not be over 500 words long, must be confined to arguments for or against direct nominations and must outline the kind of law, if any, the writer advocates. All articles must have postmark not later than Jan. 1, 1905.

ARE STATE CHAMPIONS.
Escanaba Post Ball Team the Winners in Interscholastic Championship.

For the first time in the history of football in this city the Escanaba High school team has won the state interscholastic championship. The honor was earned by defeating Mt. Pleasant High school, the champion team of the lower peninsula at Ann Arbor on Thursday evening by the decisive score of 11 to 5. Besides the news of the victory but few details of the great game have yet reached here and the arrival of the team is eagerly awaited to learn the full particulars. It is known however, that Escanaba made its points by straight football. Three touch downs were made, two of them by Riley and one of them by Howell. No Escanaba player was injured and all played the game of their lives. No costly fumbles, such as marking the game with Monomina's work were made. The signals were given and the plays directed by Riley.

The local team was penalized on the game for a total of 100 yards was won out in spite of this tremendous handicap.

The news of the victory was received with great enthusiasm. It came as somewhat of a surprise to many who while they believed Escanaba would make a good showing, did not think they could win against a team which was able to defeat Benton Harbor.

The score is conclusive enough and leaves no doubt but that Escanaba has the fastest and strongest team in the state and is fully entitled to the honors that have been won.—Iron Post.

A raising reception was given the team at the open house upon their return to Escanaba.

READY FOR WORK
Material Here for improvements on Iron Bridge.

J. J. Boyer of Minneapolis, foreman for the Hennepin Bridge Co., arrived in the city Monday to begin the construction of the pier and abutments under the bridge across the river, for which this company has the contract. The steel iron, cement, etc., have already arrived, and if timber and other necessary supplies can be procured it is expected to begin work on the construction Monday next. Mr. Boyer expects to employ resident labor in the prosecution of the work if he can find the men he needs. The gravel to be used will be procured near St. Charles and is of excellent quality for this work.

School Notes.
Hester (Helen) and Lyndan of Thompson, have entered the High School.

The high school enrollment is 85. Miss Barry and Ackeman are new students in the commercial department. Miss Wehrme entered Tuesday.

Teachers' meetings are held semi-monthly at which time the various methods of conducting the work are discussed. Last Monday one hour was spent upon reading.

The class in stenography is now able to take down 70 words a minute. The three new typewriters are in constant use. The Reunited typewriter takes the privilege of placing any of the students who become proficient in the new method system.

There were 35 cases of tardiness in the schools last week. For every 1000 students who enter the school room, there is one case of tardiness. While this is about one-half of the number for the corresponding month last year, it is far too many.

Sw. Flaw Chagnas.
A gentleman who first visited Manistique forty-eight years ago was in the city a few hours this week. He was very much surprised with the evidence of growth and prosperity that greeted him everywhere he went. He stated that at the time of his former visit there was a "little saw mill located on an island in the river."

By far the most attractive Thanksgiving window in the city was that at the McLaughlin Mercantile Co.'s store. In the background was the representation of a turkey and a carving knife, made of handkerchiefs, which in front was a table set with all that goes to make up a festive Thanksgiving dinner. The window attracted much favorable comment.—Manistique News.
