MANISTIQUE LOST IT

Newberry Eleven Defeats Locals In A Very Close Game.

THE FINAL SCORE WAS 5 TO 0

The Visitors Had Several Starbursts That Effective Work.

Manistique and Newberry high school teams played an interesting game of football at the driving park last Saturday afternoon, which resulted in a victory for the visitors in a score of 5 to 0. The game was very evenly contested throughout. Newberry kept the ball in Manistique territory during the first half, and during the last five minutes of this period succeeded in getting a touch down. This was made by Smith, the quarterback of Newberry, who ran back a punt through the Manistique team and placed the leather behind the goal. Manistique played a better game during the second half and carried the contest into Newberry's territory. During the last three minutes of play Newberry scored the ball on their own five yard line, and Smith pulled off another sensational run. He carried the leather almost the entire length of the field, being finally brought down by Guinan on Manistique's ten yard line. Newberry could not make the remaining distance; her men were thrown for losses in each of the next three plays. Time was called with the ball on Manistique's forty yard line.

Besides Smith, the right guard, for Newberry, played a star game. He broke through the line and broke up many of Manistique's plays before they could be started. Guinan, although played too often, made good gains for Manistique, as also did McClaurin and Needham. Smith of Manistique played an excellent defensive game.

The following was the lineup for Manistique: L. C., V. Smith; L. T., Cutler; L. G., Cornell; C. Johnson; R. G. Weber; R. T. Arneson; R. C. Guinan; Q. B., Robert F. Barnes; R. H. Needham; L. H. McClaurin.

The referee was Dr. Perry of Newberry. The umpire was V. Harshman of this city, and the head linesman was A. Birch.

ARRESTED FOR STEALING

Three Boys in the Toils for Petty Thieving.

Three boys, named Stinesby, Sharkey and Beaudin, were arrested Saturday charged with stealing a box of cigars from the saloon of Jacob Hold, and for appropriating a half pound of tobacco from Costello's delivery wagon. The boys called at Hold's saloon with a lot of empty bottles that they desired to sell. While they were being waited on one of the crowd perched a box of cigars from the show case. The cigars were missed shortly after the boys left the place, and the officers rounded them up and secured most of the cigars. During the week at various times tobacco had been stolen from Costello's delivery rig, and the crowd has been practically traced to these same boys. It has been ascertained that a number of boys have been implicated in various thefts by the officers, and from appearances much of the petty thieving about town can be traced to them.

Two of the boys are ten years of age while the other is fourteen. They were given a preliminary hearing before Probate Judge Ashford Tuesday morning, and their case was continued to today, when they will be disposed of.

Damaged by Lightning.

During the thunder storm on last Sunday evening, lightning followed the lines leading into the Manistique Lake Superior depot. Five poles near the depot were burned and the switches on the depot were fused. The charge jumped to the wires of the telephone company and over one hundred phones were out of connection. As the current entered the lead cables enclosing the wires, Mr. Rahn and his crew of men quickly repaired the damage.

Surprised Him.

City Clerk Christensen's birthday anniversary was celebrated in a surprise party in which his neighbors participated. The event was highly enjoyed by Mr. Christensen and the other participants. He was presented with a Masonic ring by the guests and refreshments were served.

Mrs. Knox has opened her music studio in the Ork block, Cedar street, and is ready to receive pupils.

HE WAS NOT SUITED

A Resident of Doyle Township, Dissatisfied With Result of Long Distance Courtship

LADY CAME FROM OREGON

Had Was Disappointed After a Two Year's Trial. Without Means to Return.

About a week ago Anna Steele arrived at White Lake from Oregon in response to letters written to her by Harold Forney of Doyle township, with the intention of becoming his wife, but after residing at his household for several days, Forney decided that he preferred to go it alone and cast her out. She came to Manistique Monday evening, and being without money, spent the night at the depot. The sheriff was informed of her plight and he was requested to return to White Lake for the purpose of compelling Forney to give her sufficient funds to return to the west, as he promised to do in the letters written to her prior to her departure from home.

Mrs. Steele says that she does not know how Forney secured her name and address, but in the course of time he proposed that she come here and if all was satisfactory they would be married, and in case they failed to do so, he would provide her with sufficient money to return to the west. He also sent her a ticket so that she could make the trip here. She was accompanied by a young daughter.

She desires to go to Kansas where she has relatives.

Is Successful.

Miss Clarissa Borow, is carving out a reputation as an actress of great ability in New York City.

A recent number of one of the magazines published a very complimentary notice of her work, and a good portrait accompanied the wrap-up. She has reached acceptance by hard and unremitting toil. Only a few years ago she presented several home talent theatricals here, and her acting while crude, showed that she possessed a vast store of native ability. Her many friends here are pleased to learn of her success in her chosen life's work.

Wanted—A new milk cow. Must be first class in every respect. Dr. G. M. Yalomsstein.

Will Settle Dispute.

Rumors are afloat that the board of public works and the Manistique Light & Power Co., have decided to settle the long pending dispute relative to the charges for pumping city water, and that a new contract will be entered into. The \$100 per month contract which was charged by the company and which the city refused to pay since the new pump was installed, will be eliminated and the city will pay for water actually pumped, not for what might have been pumped had the new pump been in commission.

Annual Dance.

The fire department will give its annual dance at Costello hall Nov. 26th, Thanksgiving evening. Excellent music has been secured and a good time is promised. The net receipts will be used for the benefit fund of the department.

The Manistique & Lake Superior Road to be Sold for Taxes.

AMOUNT INVOLVED IS \$93,000.00

The sale will be held December 28th. The title for seven years. Involvement. Attorney General Bird and Deputy Auditor General Simpson, were in the city yesterday serving papers and making arrangements for the legal publication of a notice advertising a railroad tax sale which involves the property of the Manistique, Marquette and Noyahon, known as the Manistique & Lake Superior Rd. The road is in arrears in its taxes for the past seven years, and the total amount, including penalties, is \$93,000. The sale will be held at the front door of the passenger depot of the road in this city on the eighth day of December at ten o'clock.

The state has levied on all of the property of the company, and as much as shall be necessary to liquidate the amount above mentioned, shall be sold on the day in question.

MUSICIANS OF NOTE

Mr. and Mrs. John Brueggemann of Indiana, Contemplate Locating Here

MUSICIANS ARE INTERESTED

And are Endeavoring to Secure Sufficient Number of Pupils to Revere Their Country.

Several local musicians have been interested in the scheme of securing Prof. and Mrs. John Brueggemann, musicians of note now residing at Att. Warren, Ind., as permanent residents of Manistique. They have signified their willingness to come to Manistique if fifty pupils can be guaranteed. Mr. Brueggemann is a teacher of the violin and mandolin, while Mrs. Brueggemann is teacher of piano and voice. Both are graduates of the National Conservatory of Music, and she possesses a remarkably sweet and clear soprano voice. Both have excellent recommendations as musicians and teachers. Manistique needs and should welcome people possessing the talent they have shown to possess, and an effort is being made to secure the quota of scholars they desire.

Being considered one of the leading violinists in Indiana, Mr. Brueggemann would certainly be a decided acquisition for the local musical community.

It is hoped that the effort to secure them will be successful. Anyone desiring to assist can leave the names of the pupils at the newspaper office of the city or with Angus McAllan or any other person interested in the matter.

Pic Social.

The Woodmen's circle will give a Pic Social at K. of P. hall on Wednesday evening, November 10th, to which everyone is cordially invited to attend. The price of admission is fifteen cents.

Estray Notice.

A six month old red bull calf came to my enclosure some time ago. Owner can secure same by proving age and other claims. He is expected home late this week or the fore part of next week.

OSBORN'S PLATFORM

Outlined in His Address at Green
ville Last Week.

HAS MANY GOOD IDEAS

That will certainly increase the popularity of the speaker, is the general observation that the content of a state's business was essentially similar to the conduct of a private concern, only upon a larger scale the speaker held up as a model of this sort of administration that of Governor John T. Rich.

"This was a regime of rugged, horse sense, combined with a fine conception of public duty," declared Osborn.

"Our great need," continued the speaker, "is the methodizing of the state's business. If the Standard Oil company or the United States Steel corporation, or the Michigan Central Railroad were to conduct their business affairs as loosely as some states manage their business, their failures would have been colossal, as their success has been tremendous. There are many things to be learned and applied from the business methods of great corporations in Michigan, there is much opportunity of work. This should be corrected. A great reform might be wrought and much money saved by systematizing and unifying the work of the purchasing supplies. In this regard the purchasing department of great business organizations may be studied with profit. This important public work should not be done by Tom, Dick and Harry as at present."

Declaring that conservation should become a great fact and should not be carried to wild extremes, Mr. Osborn urged that its purposes are best accomplished gradually. Encouragement of farmer's wood lots and the lining of all roads with trees, the state to supply the young trees is one of the plans he suggested. Apart of the cost of protecting the cut from fire should be borne by the private owner, and growing timber should if possible be taxed to encourage owners not to harvest their trees.

Upon the subject of diffusion of agricultural knowledge, Mr. Osborn spoke with emphasis. He favors the teaching of elementary agriculture in all of the public schools and the establishment of county agricultural schools. He also suggested a bulletin service for every farmer in the state, covering important phases of farm work.

Wild cat mining schemes came in for the speaker's denunciation and an amendment to extend the law governing the licensing of such operations was urged.

Continuing Mr. Osborn said: "The question of good roads will always be a vital problem. The state must at least connect every county seat with a good road. Convict labor can be used to advantage to this end. This would not only stimulate the question of convict competitions with free labor which is always wring."

"State laws governing the employment of children and women in factories should be perfected and enforced. Nothing will do to cure the social evil of child and woman labor in factories and work shops until the standard of industrial hygiene in England to day is attributed to our workmen and children in coal mines and factories a half a century ago."

CURED BRONCHITIS

Mrs. Hopkins Says Her Life Was Saved—Coughed and Gasped For Breath.

"Some five years ago I was taken with a bad attack of bronchitis. I was affected with a bronchial cough and cold, the cough was generally worse at night, and I would wake up choking and gasping for breath, and there seemed to be a terrible stoppage in my throat and lungs. My throat was tender and swollen, and I had an aching sensation, which was especially bad at night. I doctored and used several remedies, but received no permanent relief until I used Chamberlain's Cough Remedy. This remedy is certainly infallible and it saved my life, and I accord it the credit it deserves. There is nothing, so strong for me to say regarding it, as I have said. My name is Mrs. Adia Hopkins, 1437 1/2 Street, N. W., Wash. D. C., August 21, 1905."

CHOCOLAY FURNACE

The Lake Superior Iron & Chemical Co. To Put Marquette Plant in Commission

MR. GEO. H. BRUSIE IN CHARGE

The Lake Superior Iron & Chemical Co., which has charge of the plant in this city, Newberry and Marquette, was in latter city last week, making preparatory work for the early resumption of the plant here. The high price of iron, and the upward trend of the market, is the reason for the strenuous efforts at present being put forth by the company for the early resumption of the two idle plants.

Speaking of the resumption of the Chocloy and Newberry plants, the Mining Journal says: "A most welcome piece of news that comes from an authoritative source is the statement that the Chocloy furnace will be put into operation as soon as it can be gotten ready, possibly by Dec. 1 and probably not later than the first of the year. The work of getting the furnace ready for turning out iron is in charge of George H. Brusie of Marquette, who, in company with the other officers of the Lake Superior Iron & Chemical company is being inspected by the plant. It is understood that the present condition of the company are very anxious to get both the Chocloy and Newberry furnaces into operation at the earliest possible moment, and that Mr. Brusie has been instructed to rush the work as fast as possible."

The Chocloy furnace was purchased by the Lake Superior Iron & Chemical company two years ago last spring, but two years ago this fall, just as the furnace had been made ready to go into blast, the country was hit by the industrial panic and nothing has been done from that time until a few weeks ago. The plant, however, has not been allowed to deteriorate or get out of repair and with a very little work it can be gotten in shape for turning out iron.

There was some talk last spring that the furnace would be put into blast, but up to this time the demand for pig iron had not been sufficiently large to warrant starting the plant. With the great improvement of the iron and steel market within the last few weeks the owners of the furnace have decided to get it into operation at once.

It has been expected almost every day for some time that the company's furnace at Newberry would go into blast, but now repairs have been started there, which makes it likely that the Chocloy plant will be the first to turn out iron, though the Newberry furnace will not be much longer.

The starting up of the furnace will mean a great deal to the business and industrial life of Marquette, as a large number of men will be employed and most of the pay roll will fit into this city. Nothing definite as to the actual number of men that are to be employed or what the output will be at the start was made until the other day, but it is reasonable to suppose that the operations will be actively conducted on a large scale. For some time the company has been taking on men to get out furnace wood and it is understood that there has been definite action in getting men for that part of the work. It is rumored that the company are negotiating for charcoal and that the date of starting the Chocloy furnace will be some extent depend upon the length of that negotiation to provide an adequate fuel supply. The actual work of getting the furnace in readiness for business has not yet begun, but it is expected that a crew of men will be put to work within a few days.

The Lake Superior Iron & Chemical company is a Detroit corporation, which has the best estate in heavily timbered territory in the state. The company has furnaces at Ashland, Manistique, Boyne City, Gladstone, Newberry and Chocloy. The Ashland furnace is one of the country and several of the others have been doing a large business.

WELL PORTRAY LIFE

Of Women of India, at Presbyterian Church, November 14th.

An entertainment that promises to be of exceptional interest will be given at the Presbyterian church Sunday morning and evening, Nov. 14th when Mrs. Abby Snell Burnell at one of the services will be seen in the character of and impersonating "Memarchie" a high caste Hindu woman. Mrs. Burnell's purpose is to give a graphic and realistic portrayal of life in India and those who have heard her say that she tells a fascinating story with unusual personal and dramatic power. Having lived in southern India for five years she is eminently qualified to tell of India and its people.

Upon her return to this country several years ago, Mrs. Burnell found that the American people were in general greatly mistaken in their ideas of life in India and the idea of impersonating the domestic phase of that life before American audiences suggested itself to her. Accordingly, she went together, in the form of a continued story, such facts and conditions as she became familiar with and the result is "Memarchie," which has received enthusiastic com-

mendation from all who have heard her tell the story.

Dressed in the costume of a high caste Hindu woman, as "Memarchie," she tells of her childhood, marriages, and the shame and disgrace which fell upon her because for a long time she bore her husband no son, then of her great joy on becoming the mother of a boy. The climax of the story is reached when this boy grows to manhood, graduates from college and breaks his caste. The story is artistic in its construction, and is so true to life and so vivid that many have supposed they were listening to a Hindu woman telling her own story.

Mrs. Burnell's entertainment will take place of the regular services at the Presbyterian church and no admission will be charged.

Played a Few Pranks.

The young children played their usual pranks Saturday evening, in their celebration of halloween. Most of them contented themselves with using soap on the various display windows about town, and some of the private residences were not overlooked either. The window washing brigade was much in evidence about town Monday morning. Little if any property was destroyed, and no arrests were made.
