MANISTIQUE, MICHIGAN, FRIDAY JULY 17 1914

\$1.50 PER YEAR

REPRESENTATIVE

Mr. Alex Sly of Mackinac County, is a Candidate for Legislature.

Mr. Alex Sly of Mackinac county, was in the city Wednesday and during his stay in the city decided to accede to the wishes of his friends and will make the race for representative of the legislative district subject to the legislative primaries in August.

Mr. Sly has been a resident of Mackinac county for thirty years, and has a wide acquaintance in that county as well as Schoolcraft county, being the past seven years, he has been superior of Newton township, and during the past two or three years has been chairman of the board.

He says in case of his nomination and election it shall be his desire to represent all of the people and no special interest. He will keep in touch with leading men of the district and will ascertain their wishes on important matters of legislation and will be governed by their wishes to a great extent.

Mr. Sly is a self made man in the fullest sense of the word. He has a large home and has a large family. He has a large home and has a large family. He has a large home and has a large family.

Whether or not he shall have opposition is not known at the present time. There has been some talk that would indicate the fact that Mr. Thomas B. Wyman might again enter the race. With these two persons in the contest the result would be close and the campaign a vigorous one.

Wanted—Reliable girl for housework. Inquire 110 Cedar street Saturday or Sunday afternoon, after 5 p. m. other days.

ANNUAL SHOOT

Sixty or More Guns Will Participate in Tournament. Noted Shots to Come.

The annual tournament of the Manistique Gun Club & Sportsmen's association, which will be held on the grounds of the club on Saturday and Sunday July 25th and 26th, promises to be an unequalled success. This has been the case in the past and every year has seen hundreds of their intention of being present. Assurances of teams from Marquette, Soss, Munising, Ishpeming and Negaunee have been received, and practically all the local and near-by companies will send their professional representatives. Among those will be Howard Hall and Tom Parker, who representing the Detroit Co., Dr. Doolittle representing the Detroit Co., and Honor Lindsay, representing Remington, E. M. C. and West-ern companies. The Winchester people will also send a representative.

The Grand Island cup is now on exhibition at A. S. Putnam & Co.'s store. This cup must be won three consecutive times by some team before it comes the permanent property of the team.

Hon. Alex Grunbeck, an opponent for the tournament, has donated a solid medal to be shot for this shoot. The Dupont Co. has also sent a handsome patent leather cartridge holder as a prize to be contested for.

The Manistiquian has been engaged for the tournament. The local club is having no pains to make this the best shoot in the club's history.

Distinguished Visitors

Cryptic Masons will be interested to know that Grand T. I. M. Hon. J. H. McAllister of the Soc. and Grand Lecturer McLeod, will be the guests of Elwanite Council No. 45, this evening, at which time the degrees will be conferred upon candidates, and a banquet will be served. Every member of the Council should be present and honor the distinguished guests by their presence.

AGED LADY PASSES

Mrs. Peter McCauley Died Monday Morning After Short Illness.

Mrs. Peter McCauley died at her home on Lake street Monday morning after a two week illness. Paralysis and complications caused her demise. She was a native of Ireland and had been born in Blainthra Oct. 8, 1812 and was 102 years of age at the time of her death. She came to America in 1851 and in 1860 she moved to Beaver Island where she became the wife of Peter McCauley. Thirteen children were the result of this union and of which she and all save one were at her bedside when she died. The children are: Margaret, Mrs. G. F. Mackorann of Beaver Island, H. J. Briggs, Elk Rapids; P. J. McCauley, Glen Haven; P. C. Morrow, Dallas; W. J. Bohan, Manistiquian; J. J. Kane, Chicago; J. L. Doyle, Manistiquian; C. T. Bronson, Chicago; B. J. Miller, Copenish and Mr. J. R. McCauley of Milwaukee. Those that passed beyond, are Edward McCauley, Mrs. P. D. Malloy and Peter McCauley.

During her entire life time she enjoyed the best of health, and when the doctor was called to attend her during her last illness, she stated that this was the first time that she had ever needed the services of a physician.

Mr. and Mrs. McCauley became residents of Manistique in 1891. The deceased was a very estimable lady, and a devoted member of the Catholic faith. The funeral services were held from St. Francis de Sales church yesterday morning at nine o'clock, and were very largely attended.

The sympathy of the community goes out to the aged husband and the children in this, their hour of bereavement.

WEDDED AT DETROIT

Prominent Manistique Lady is Wedded to a Detroit Architect.

Miss Bertha Munroson of this city, and Mr. Saul Saulson of Detroit, were married on 980 Brush street, that city, last Friday evening, at 5:30 o'clock by Rabbi Levine, in the presence of a few of the near relatives of the contracting parties, including the parents of the bride, Mr. and Mrs. M. Munroson of this city.

The bride is the eldest daughter of Mr. and Mrs. M. Munroson, and has spent practically her entire life in this city. She is well and favorably known, and possesses all of the womanly graces that endear her to all knowing her.

The groom is the son of Mr. S. Saulson of Redlands, Calif., is a graduate of the University of Michigan, and is at present in the employ of H. Kahn & Co. architects. He is a young man of exceptional talents and highly esteemed by his employers as well as by all knowing him.

Mr. and Mrs. Saulson left for Niagara Falls and Buffalo the following day where they will spend their honeymoon.

They have the best wishes of their friends and acquaintances, for a long, happy and prosperous future.

A NEW LAWYER

Mr. H. F. Hittle of Detroit. Has Opened Law Office in this City.

Mr. H. F. Hittle of Detroit, arrived in the city this week for the purpose of engaging in the practice of law, and has opened an office in the First National Bank building.

Mr. Hittle is a native of the South and secured his education in the University of Chattanooga and the Detroit College of Law. Prior to coming to Detroit he practiced law at Chattanooga. He comes very highly recommended and as soon as he secures a house will be joined by Mrs. Hittle.

MRS. AHLSTROM DIES

Mrs. Axel Ahlstrom Passes Away Saturday After Long Illness.

Mrs. Axel Ahlstrom died at her home in Lakeside addition last Saturday after an extended illness from cancer. While her death was not wholly unexpected, yet her friends were shocked to learn of her demise. All that a kind and indulgent husband and son and the best medical skill could do to stay her life was done but in vain.

The deceased was born in Sweden Oct. 20 1854 and was therefore nearly sixty years of age at the time of death.

She came to Manistique in 1891 and became the wife of Mr. Axel Ahlstrom from the same year, and with her husband has lived here continuously since that time. She was well liked by her associates and was a valuable factor in the Swedish Lutheran church of which he was a consistent member. She was president of the Ladies Aid for a number of years until ill health forced her to cease her activities.

She leaves a husband and son, Harry Ahlstrom, to mourn the loss of a kind wife and a loving mother.

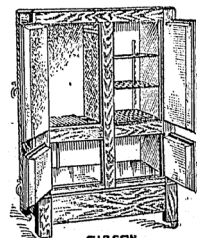

The funeral services were held from the Swedish Lutheran church Tuesday afternoon, the pastor Rev. Nelson officiating. They were very largely attended, and the wealth of the floral offerings amply attested to the esteem in which the deceased was held by all.

The immediate family have the sincere sympathy of the community.

Arthur Callari of Palatka is contemplating starting a picture theatre in this city. He is desirous of securing a location in the westside, as that section of the city thus far has been without the convenient necessity.

The Boy Scouts of the First Baptist church enjoyed a hike Tuesday to Indian lake. The annual Camp is interesting the boys, soon to be held.

Two runaway's finished some excitement in the business portion of the city yesterday forenoon. A horse belonging to John Knoph became frightened and breaking loose from the wagon ran down Cedar street and followed the sidewalk on Oak street into the blind alley at the rear of the American hotel and emerging from it started down Maple street toward the Osawinimacke. Passing the American Hotel it frightened a horse belonging to Lindley Bros. Co. which also ran away. One of the horses was injured by the heavy hitching weight it dragged during the run. The team was stopped on Water street while the Knoph horse received portions of Lakeside and returned to the creamery. It was certainly fortunate that someone was not killed or injured during the flight of the frenzied trio.

QUIET ELECTION

Messrs Putnam and Teeple Re-elected as Members of the Board of Education.

The annual school election of the city of Manistique was held Monday and as there was no opposition to Messrs Putnam and Teeple, very little interest was taken in the election. Twenty-five voters availed themselves of the opportunity of casting their ballot, and the result follows: Putnam 23; Teeple 20 and E. W. Miller 1. There was little opposition to Messrs. Putnam and Teeple prior to election, but it appears that the opposition failed to crystallize.

These gentlemen have done good work upon the board in the past, and no mistake was made in their retention for another term.

Called on Sad Mission.

Mr. and Mrs. H. J. Neville were called to Winona, Minn. last week by the death of Mrs. J. C. Neville, wife of a brother of our fellow townman. She died Saturday July 4th, after an illness of several months and leaves a husband and three sons to mourn her loss. She was forty-four years of age and was married at Green Bay in 1892. Speaking of her demise the Winona newspaper says: "For several years she had made her home in Winona and had cultivated a wide friendship. Her's was a personality most charming to those that lived within the radius of her sunny disposition. She was ever hopeful for recovery during her illness and fought bravely for life which meant so much to her. Her death has brought sad news to the hearts of scores of friends and relatives in the community."

The funeral was held from St. Paul's Episcopal church on Wednesday last week.

ENDORSE SCOTT.

Lower Peninsula Newspapers Speak Highly of Him.

Mr. Scott with marked success served the City of Alpena as its City Attorney and the County of Alpena as Presenting Attorney. All who know him are his friends and the people of Michigan could well wish that the district of Michigan could well wish that he were represented in Washington by a man possessing Senator Frank D. Scott's abilities and we feel sure that he will discharge the new duties as faithfully and efficiently as he has served us many times in the past.

Although a staunch Republican he has always respected the honest convictions of his political opponents. No man in the district is more popular. No man of superior public mind has been known as a gentleman of untarnished honor, one of a greater business qualifications, a friend and graceful speaker, and one who will persistently advocate with all his ability what he believes to be right.

"Manicuree News."

Antrim County.

Mr. Scott has nobly served his district in the State Senate and is therefore entitled of the support of his present constituency. Men of action are needed in Congress. Mr. Scott seems to be such a man.

"Harbor Springs Republican."

Emmet County.

Scott is making the greatest fight we have ever seen. We believe he will succeed in securing the nomination, as solo from having the necessary qualifications, he is a man with an exceptional personality. We have known him for fourteen years and he is as successful in retaining his friends as he is in making them.

"Boysie Citizen."

Charlevoix County.

Senator Frank D. Scott, Republican candidate for Congress has been longed for through portions of Antrim and Kalkaska everywhere and is well received wherever he goes. Scott has represented this senatorial district four years at Lansing, but an excellent record and is entitled to the votes of the Republicans of this district. His eloquent Congressional District has no other of more deserving citizen than Frank D. Scott.

"Charlevoix Sentinel."

Charlevoix County.

Mr. Scott's personality wins him many friends. He is an eloquent and convincing speaker. For two terms he has been a member of the upper house in the state legislature.

"Chibogon Tribune."

Chibogon County.

Mr. Scott is young, energetic, ambitious and has a good personality that wins him friends in every walk of life. He has experience in legislative matters gained through four years of service in the Michigan senate, the last session of which he was President Pro Tem and chairman of the judiciary committee, the two highest honors in the gift of that body. He is a consistent Republican with advanced ideas along the lines of government ownership, government aid to highways and labor legislation. He is a brilliant orator. His past record shows that he is responsive to the wishes of his constituency.

MOST WONDERFUL OF PUMPS

Contrivance Known as the Human Heart Truly a Marvelous Piece of Machinery. The most perfect pump in the world, the most perfect ever made, is also the simplest—how did, no one knows, for it is as old as man himself. This pump is so small and so light that it might be carried in an overcoat pocket. Yet it runs day and night without a stop, without attention, drawing in and sending forth two and a half ounces of liquid 70 times a minute. In one minute it pumps 175 ounces. In one hour, 6564 pounds; in one year, 5,388,750 pounds. Its normal life is about 70 years, in which time it pumps 49,412,500 pounds, or more than 201,408 tons. This diminutive piece of machinery has been known to keep up its work without a single stop for more than 100 years. It pulsates 4,200 times an hour, 100,800 times a day, 847,920 times a year. It has no journals or bearings to oil, no bolts to tighten or shanks to be taken up, without attention. Its parts are automatically repaired as it goes along. But, with all of this, there is one very serious characteristic inseparably connected with this pump, which is, that if it stops it cannot be started up again, unless immediate steps be taken to do so by an expert. Even this generally fails. The owner should use care and judgment in its upkeep. There is no other machinery that we have any knowledge of which the above can be said. How this is all accomplished is known only to its inventor. This pump is the human heart.

MADE THE SCENE EFFECTIVE

Comical Before, Small Boy's Anxious Questions Turned into a Real "Scream". An amateur dramatic society recently introduced a striking bit of realism into their careful rendering of "Eugene and Jilted". It will be remembered that when the heroine faints and falls gracefully upon the stage, the awestruck crowd is required to seize a large pitcher from a small table standing near R. B. and boldly invert it over the prostrate lady, exclaiming, "Oh, does she see? Oh, heavenly! There's not a drop of water in the place!"

This is a highly humorous effect. In its way, by the way, of substituting a bucket for water, through some oversight when, through some oversight, the pitcher was half-full of water when it was placed on the table. The proper cue was given. The comic servant grabbed the pitcher and fairly deluged the unexpectant heroine. She spluttered and gasped for breath and waved her arms wildly in the air; and utterly forgot to wait for the hero's arrival before recovering from her "faint". "Cool 'im the water!" called out a small boy in the gallery. And then the applause was simply deafening.

Odd Facts From Abroad. An Association of Neglected Wives has been formed at Schoonbeck, on the Elbe, to establish a time limit for husbands' visits to beer houses and cafes. If necessary, the wives will form a militia to remove all husbands found on the premises after 11 p. m. A notary named Sauter, who died recently in the town Arbon, on the banks of Lake Constance, had a strange old man for a friend. He left a museum containing about 5,000 pairs of boots and shoes, valued at over \$5,000. No one—not even his wife—was allowed to remove any pair of shoes from the museum except he. He left a room where this collection was kept.

The latest articles devised for the benefit of the motorist, are aromatic toilet brushes, scent bottles, sprays and powderpuff boxes for her dressing table. Two tubes can be used for the brush while it is being used. The little button which starts the mechanism is placed just where the hand is certain to press it.

BOD LIVER OIL AND IRON

Two Most World-Famed Tonics Combined in Vinol. Cod Liver oil and Iron have proved to be the two most successful tonics for the blood and the medicinal curative elements of cod liver oil as a strength and tissue builder for body and nerves, and for the successful treatment of throat and lung troubles. Two eminent French chemists discovered a method of separating the curative medicinal elements of the cod liver from the oil of gross quality which is thrown away, but to these medicinal elements tonics in now added, thus combining in Vinol the two most world famous tonics. As a hobbyist and health crafter for weak, run-down people, for feeble old people, delicate children, to restore strength after sickness; and for chronic coughs, colds, hemoptysis or pulmonary troubles, we ask you to try Vinol with the understanding that your money will be returned if it does not help you. P. S. The standard and best is your own. No guarantee.

OFFICIAL COUNTY AND CITY PAPER

FRIDAY, JULY 17, 1914

EDITORIAL COMMENT

If there is a better summer resort than a breezy veranda in Manistiquie it isn't shown in the geographicals.

During these hot July days the average man is apt to envy the female sex for the average woman does not wear more than a quart of clothing.

It requires an immense amount of work to keep a lawn looking as it should look, but it is an investment that pays—in satisfaction and real pleasure.

Not content with prohibiting their employees from drinking booze while on duty the railroads of the state have also ceased serving liquor on the dining cars.

Yelland of Delta County, it is predicted will drop out of the congressional race, and will throw his strength to Scott of Alpena. The Escanaba Journal in little missions to know what the consideration will be.

The average American should acquire a taste for fish and vegetables for the packers state that another raise in the price of meat is imminent. The time will come when a good fat dog will be in danger of his life.

Hon. Joseph Baylis of the So., will receive a big vote in Schoolcraft county at the congressional primaries. He is a clean, manly sort of fellow, is not owned by any interest or clique, is right on all moral questions, and will not have to be watched by his constituency should he be so fortunate as to be sent to Washington.

Hon. Chase S. Osborn who made a flying trip through portions of the upper peninsula during last week certainly was given a royal reception wherever he went. Immense crowds greeted him everywhere, and if there is any dissatisfaction in the peninsula toward his candidacy it was not apparent to any extent during the tour in question. The vote Osborn shall receive in the peninsula will surprise even his most sanguine friends. Osborn will secure the nomination, and that means he will be the next governor of Michigan.

Marshfield, Wisconsin citizens presented their ex-mayor with a home worth several thousands of dollars as a slight token of how they appreciated his services in behalf of the city. Come to think of it, Manistiquie has never in a tangible way, ever showed its appreciation of the services of its governing officials. We have in mind a man that devoted seven long years of his life in the government of the city, and we doubt if half a dozen citizens have ever gone to him and demonstrated to him they appreciated his painstaking services for the welfare and upbuilding of the city, during those many years.

What makes Manistiquie's summer climate so desirable? The prevailing wind in the summer time veers from the south, and as the winds pass over the length of Lake Michigan before it strikes Manistiquie, it can readily be seen why the summer is a cool few months. It would immediately become more popular than Mackinac Island, Petoskey or Charlevoix. Manistiquie can furnish a better brand of climate, better bathing and fishing facilities, than any of the resorts above mentioned. What is needed is the thorough adoption of Manistiquie's superiority, and the patronage will be forthcoming.

Dumb animals such as the squirrel give mankind a fine example of industry and thoughtfulness in the way of natural instinct. Give a tame squirrel a walnut and he will dig a hole in the ground, and bury the nut. Give him fifty or a hundred and he will dispose of them in the same manner. In the future when the little animal is destitute of food, or may be when winter storms prevail and snow covers the ground it will then have recourse upon its little savings bank and draw of amusement even by intellectual humanity. There are scores of people in Manistiquie earning good wages now who are living up and squandering much of it as they go from day to day, and when winter comes and no work to be had, will have been nothing to fall back upon; no fuel or food provided for, no money saved with which to purchase it, and there is where the squirrel is wiser than they. While they complain of hard times and no work, many of them will ask for charity. The taxpayers of the city who have watched them squandering their hard earned money all summer will be up to the hills. There will be another winter and it is only a few months away. Now is a good time to follow the example set by the little squirrel and lay something away for winter.

Has Not Forgotten Schoolcraft.
Hon. Joseph Baylis is so busy campaigning in the lower portion of the peninsula district at the present time, that he has had no time to visit Schoolcraft county for at least a week. He desires the Pioneer-Tribune to inform the people of this county that he will see them on a tour that will make a thorough canvass of the city and county in the near future.

He is very much encouraged with the outlook in the lower peninsula. Twelve newspapers in that section are supporting his candidacy while ten are supporting Scott. His chances therefore for landing the congressional nomination are very good. It goes without saying that he will receive good majorities in every upper peninsula county and will naturally cut into Scott on his own stamping grounds.

EDITORIAL COMMENT

Some enterprising citizen should erect a lighthouse on the lake for the convenience of the persons that are to take a swim. Trasher present conditions the small boy is compelled to straddle in the open.

On a hot day with a lot of work ahead of him a man is apt to envy the martyrs confined in a nice cool dungeon, for jumping their board bath, where their hardest work is kept tab on who played "Law" and who went the court for game.

Brer, Baldwin, who nobody will concede of being an Osborn supporter, says in the last issue of the Escanaba Journal, that it is a fact that Osborn put several good laws upon the statutes of Michigan. He also made a record for economy that the state needed!

A preacher criticized the streets of Delta County at a street carnival at Somerset, Ky. and as a result three of the diabolists attacked him with parangs. The girl were fined one cent each, while the preacher was fined \$50 and given ten days in jail for disturbing the peace.

Ford renounces President Wilson that business is good but at the same time he is discriminating employees by the thousand. Ford perhaps has made ten million in the month. Ford perhaps has made ten million in the month. Ford perhaps has made ten million in the month.

Copper was not hit by the wool Hilsos tariff law and as a result the copper country is highly prosperous. More men are employed now than at any time in the history of that section. The iron country just now is slumping badly and miners are being discharged in wholesale numbers. Less iron is being used, and foreign countries where labor is underpaid are shipping finished iron to the United States and are able to underbid American manufacturers.

The Escanaba Journal says: As between Osborn and Groesbeck it favors Osborn. It also states that he accomplished some splendid things for Michigan during his previous administration, and more than that he has burned his bridges behind him so far as the liquor interests are concerned.

Continuing it says: Groesbeck, we believe, is receiving the united support of the liquor interests, just the same as Congressional Candidate Scott is. It is always the duty of good citizens to support the candidate that is opposed by the liquor traffic, because that business was conducted in sin, born of iniquity, and is carried on under all sorts of corrupting influences and conditions. It is our candid opinion that any man who will align himself with the liquor traffic hasn't a single particle of citizenship that he will not harbor and sell for his own selfish interests.

So, for the reasons above stated, The Journal will support Osborn rather than Groesbeck. He there will be a lot of these upper peninsula newspapers that support Osborn four years ago that will oppose him this year, just because he did do the things a governor that should command the support of good citizens.

Ewald Appreciates Patronage.

Manager Ewald of the Garden Bay Railroad Co. desires to express his hearty appreciation of the manner in which the Manistiquie citizens patronized the excursion to Garden last Sunday. He is very sorry that sufficient cars were not secured but he as well as others did not expect a crowd of such magnitude. However, in the future cars will be ready for any contingencies that might arise. Mr. Ewald is doing a commendable work in his communication with the Garden people and will be liberally patronizing the excursions conducted by him. The people are materially assisting him in his laudable undertaking. He contemplates running another excursion from Manistiquie later in the season, and it without doubt be a duplicate of the one last Sunday as far as patronage is concerned.

Osborn Will Be A Winner.

The enthusiasm with which Ex-Governor Osborn was received throughout the upper peninsula proves conclusively that the rank and file of the male population are wanting his candidacy for another term. Everywhere he went he received by thousands of enthusiastic citizens, who by their cordiality gave tangible expression to the fact that the upper peninsula is loyal to its foremost son.

Schoolcraft county has always been loyal to its support of Osborn. Years ago he aspired to the honor of representing this district in congress, and Schoolcraft county's delegation was pledged to his candidacy. "Chase" was in the city that day and a committee was appointed to bring him before the convention, and he, in halting, was expressed his gratification at the endeavor to have him. He has been an aspirant for office since that time, and to the credit of Schoolcraft county it can be said that it has always shown its loyalty, to his cause, and that it will again do so this year is a foregone conclusion.

From an humble newspaper man, Mr. Osborn has developed into one of the leading statesmen of the state and as the result of his world wide travels that have taken him into every nook and cranny of this good old world of ours.

MANY USES FOR INDIAN CORN

For One Thing It is Classified as, Next to Rice, Most Important of World's Foods.

Next to rice, this grass is the most important food plant in the world, besides serving in a thousand other important ways the needs of man. It is native to America, having been cultivated in the western hemisphere since prehistoric times. The name maize was used for it derived from the word Maiztli, the name the old Indians gave the plant which Columbus adopted when he discovered America. The white settlers came to the United States they found the Indians cultivating it, and quickly learned from them its great value.

Among its manifold uses, outside of food value, are the following: The oil extracted from the kernel is used for surfacing and polishing olefin and linoleum, and the cake left after the oil has been extracted is used to absorb Gluocum from this plant, a sugary white liquid, is used by confectioners in great quantities. Cornstarch, when not used for chocolate puddings, is held by us when we put a stamp on the envelope. Maize is also a growing source for denatured alcohol used for heating and lighting. Corn stalks were used in strong bolls and used on large vessels at the bulkheads for protection. Our most dangerous explosive gun cotton and smokeless powder, rely for their strength on the Indian corn. A poor quality of cellulose is furnished by the stems, paper by the stalks, and stalks and stems are used as fodder for farm stock.

LITTLE BUT ACTIVE BRAIN

Small Margaret's Scheme to Secure Liberty Would Have Done Credit to Much Older Person.

With the following story Margaret's father supports his opinion that adulthood is congenital in women. On Saturday Margaret, aged four, was in deep disgrace. Four times since two o'clock she had run away to visit Mrs. Gilbert, her favorite playmate, and in a few minutes Margaret snored out, her mind intent on carrying out her plans, and shortly suggested:

Daddy, let's play you are the baby, and I am the mother. Daddy agreed on condition that it must be a very little baby and one that would not be expected to move. Margaret, after a short while in which one could hear her brain currents crackle, said: "Now, Hoozy, you are to be a good little baby and don't run away, and the Mother's for a little while going over to Mrs. Gilbert's." The Sunday Magazine.

Name Was a Mistake.

The island of Luzon, the principal one of the Philippine group, owes its name to a mistake of interpretation on the part of the early Spanish discoverers, according to Mr. Kaula, secretary of the Philippine commission at Washington. There seems to have been no name applied to the island, as such, by the natives; each tribe, such as the Tagalog, Ilocos and others, designated only their own particular territory.

Pepys' Library.

Pepys' library, since 1724, has been in the possession of Magdalene college, Cambridge. Pepys directed in his will that his collection of books should be given to the trustees of the death of his nephew, John Jackson, to either Trinity college or Magdalene college, Cambridge, and required that the college which received the books should submit to an annual visitation from the other, the purpose of which should be to ascertain whether the books were being worthily fulfilled. "Could I be sure," Pepys wrote, "of a constant succession of heirs from my said nephew qualified like himself for the use of the library, I should not entertain a thought of its ever being alienated from them."

The Greatest Degree.

Science assures us there is a definite limit to the lowest conceivable temperature, and that this may be placed with considerable accuracy at 453 degrees below zero on the Fahrenheit scale. It is held that at all temperatures above this "absolute zero" particles of matter either solid or gaseous are in a state of vibration, the more rapid vibrations corresponding to the greater degree of heat.

Do You Spend 5c a Day Foolishly?

No Danger of Competition. In 13 years' experience I am an instance of the sharp, biting wit for which Alexis Piron the French epigrammatist was famous. A young author whose ability was by no means equal to his conceit was discouraging at length upon the merits of his work.

"I am tired of writing of that which others write of," he said. "I want to create an original work, something that no one has ever written about or over which would abound."

"Piron turned quickly to the speaker." "You mean to create an original?" he said.—Youth's Companion.

Under the Stars in Prayer. Before the orders of Emperor William, as the head of the Lutheran church, and with the consent of the Lutheran synod, the general prayer, which is read weekly in all Lutheran churches, now adds the petition of God for the social service as well as for the army and navy. The sentence, as amended, reads:

"Protect the king's army and the entire German war forces on land and sea, and particularly the ships and airships while on their journeys."

As You Like It. Jimmy, who was no highbrow, had gone all alone to see one of those outdoor performances of Shakespeare. He was telling his elders about it.

"Some claim to Shakespeare," said Jimmy. "The show was fine."

"But what was it?" asked Jimmy's big sister.

"Let his 'body Do to Suit Himself,'" replied Jimmy.

NAPOLEON AS PRESS CENSOR

Great Emperor Exalted Strict Control Over the Newspapers of France.

It is not generally known that Napoleon Bonaparte acted as press censor in 1805.

With the beginning of popular government in France in 1789 the "liberals" were one of the oldest newspapers in Paris and it recently celebrated its centenary.

In 1805 the paper was compelled by Napoleon to change its name, and was the "Journal de l'Empire" it was in the course of the correspondence which took place between Napoleon and the editor, Steeven, on the subject of the threatened censorship, that the emperor gave the order which has become famous, about the policy of the newspaper, "that it should publish no news unfavorable to the government until the truth was well known that publication was needless!"

After Napoleon's retirement to Elba the paper resumed its old title, and it is that event which has just been celebrated.

It is still edited and printed in the house where it was first started, beside the Church of St. Germain l'Auxerrois, from the tower of which the signal was given for the massacre of St. Bartholomew's Eve. Of all the great Paris newspapers, it has been the least affected by the modern development of journalism, and its dignified columns are an encouragement to thoughtful reflection and a serious study of affairs.

MAGIC AND MEDICINE TWINS

Influence of the Former Plainly to Be Seen in the Practise That Preval Today.

Magia was the origin of many of the practices still used in the treatment of disease, according to Dr. G. K. Dickinson of Jersey City. In an address before the Medical-Surgical society, entitled "The Trail of the Sorcerer," which he holds is still discernible in medicine, Dr. Dickinson used the following language, as reported in the New York Medical Record: "The cure by magia was the earliest known. Amulets were worn in order to ward off evil influences. Parts of other animals, teeth, claws and paws were carried in order to turn away the evil one and protect one from illness. Superstitions were so great that a potent influence was supposed to be obtained through them. The same is today, we see the horse-shoe over the door, the scapular, the amber beads around the neck, the rabbit's foot and the potato kept in the pocket to ward off rheumatism. "In the religious method of treatment we have ancient and modern. Paris is to appear to the ritualistic sense, and through these hundreds of years we find that man's nature is not satisfied except to uphold this great tendency to the lower world, furnishing, burning and destroying. Fasting and persecuting the body cleared the alimentary tract and satisfied religious thought, hence the present-day Lent. Bloodletting to draw the demon to come out; cupping to draw it from some particular region; massaging to drive it away—these are all religious ceremonies and explained by the theologian."

Lenz, aged seven, is always anxious to acquire fresh knowledge. During a prolonged cold spell she heard frequent mention of the thermometer, and was curious to know what "zero" meant. Mama, being answered her questions in a hesitating and unconvincing manner, she said, "Oh, it's down there at the bottom," she said, when asked where "zero" was.

"Woman," after a thoughtful silence, "it can't get below zero, can it?" "Certainly, dear. It's been below many times."

"But, how can it, mamma? You said zero was down at the bottom, and how can it get below the bottom, that's what I want to know?"—Chicago Record-Herald.

The Men Women Wish to Be. An interesting parallel to the recent inquiry: "Do women want votes?" was afforded by the replies received by the women's newspapers to its readers. To the question addressed to its readers: "If not a woman, what man would you wish to be?"

Napoleon's early antagonists claiming this as evidence of feminine energy. Next were Pasteur, Hugo, Poincare, Herriot and Wagner. Edison was the only American on the list. Her definition was: "That is management of one's affairs in such a manner that the value of one's possessions is not necessarily diminished."

LITTLE KNOWN OF VAST LAND

Immense Tracts in Empire of China That Have Never Been Surveyed or Ever Explored.

A large tract of the great Chinese empire has never been surveyed or ever explored. It covers an area of varying estimate as to the size of China have been given. Any estimate can merely be an approximation representing the last guess. This tract is situated in the north-west, about 4,000,000 square miles for China's area—about 500,000 miles larger than the total area of our United States. While in several thousand square miles smaller than our own state of Texas, yet within the borders of this Chinese province there have been dwelling 20 times as many Chinese inhabitants as there are Americans who dwell in our great state of Texas.

The also of our own state of Indiana corresponds approximately to all of the 18 Chinese provinces. There are, however, more than five times as many Chinese dwelling within their own native province as there are Americans living in our Hoosier state. The ratio of five to one applies generally when making population comparisons between any locality of China and America. Thus when the Chinese name is referred to what is meant is China proper. This latter is composed of 18 provinces. There are in addition to this certain dependencies of China, known as territories, these are overrun with mountains, vast stretches of desert land, high plateaus and varying densities of population.

Mandaria is one of these dependencies, and its size is about three times the size of the British islands. Mongolia is another vast territory lying to the north, covering nearly 1,000,000 square miles in area. To the south and westward lie the dependencies of Tibet and of Turkestan, a locality of severely rugged mountainous country. Less than 1,000,000 Chinese roam within these two territories.

If you wish to travel from Peking in Northern China to Hongkong in southern China you will have a sea voyage of 2,000 miles to cover after you sail from the port of Tien-tsin. You do not fully appreciate the vast distances you have to travel in China until you actually become a visitor in this strange land and are compelled to secure transportation somehow, some how. China is a country of rugged streets and vast areas, but when it secures our occidental railways and trolley lines throughout its empire distances will be annihilated beyond China's laudatory dream.—Clyde Wilmer.

BROUGHT HIM TO BELIEF

Experience Convinced English Laborer, That They Were Poisons With Lightness of Touch.

The simple-hearted Wray One of the crafty Bill Sykes was supporting his family of six by his trade of unripened coffee in his hands. Bill's coffee looked like coal, while the Wray One had in his the added luxury of small pieces of milk. "Wherefore, as they say, did Bill covet the tin of the Wray One, and did decide to exchange beverages, should an opportunity occur." "The 'tacker' of plotter," said the Wray One, "I once heard of a chap who could pick a 'ankorther from a gent's sleeve." "Oh, that's nothing!" laughed Wray One, "I know a cove who can take 'er 'at from 'er 'at without 'er knowing it."

Just then he was called away by the foreman, and on his return he picked up the tin which he had trustfully left with Bill. He saw its incredulous light shining. "Well," he exclaimed, "but me if this don't beat 'er 'at 'erick, Bill, 'ere's some one else 'at 'erick the milk out of my coffee!"—London Telegraph.

Benefit of the Doubt. At the club the other night a member of the Seventh regiment found himself the center of a group who were discussing the likelihood of an invasion of Mexico by the National Guard. General remarks about the possibility of a general assault were peppered about him. "Everybody had kindly suggestions to make—such as, 'make a dash for it as good as dead,' 'run for your life,' and 'the victim took it very well.'"

"I'd like to contribute just one remark to this discussion," he said. "I'm reported shot in the back, remember that. I may have turned around to encourage my men."—New York Evening Post.

Wagnerian Relics Stolen. It transpires that a casket sent from Brussels to Germany containing important Wagnerian relics was broken open and pillooted during the railway journey, says the London Daily Telegraph. The articles included letters and photos of the famous composer, a portrait of Frau Wagner, the daughter of the celebrated tenor who first sang the roles of "Lohengrin" and "Tannhauser."

Frau Wittichatsch, who died here recently, bequeathed the relics to the Wagner museum at Eisenach, whether they were being conveyed. The whole of Wagner's correspondence with the tenor, some very important letters, was stolen, and, possibly, a necklace and money.

KNOWN USE OF THE CEREALS

Evidence That People of the Stone Age Did Not Live Exclusively on Animal Food.

There is nothing to indicate that the men of the later stone age did not have back-bone panacea for their aches. It has been shown that not only back-bone but many other grains of the present day, such as corn, barley, flax, rye and oats, formed an important part of the daily bread consumed by the people of the latter half of the stone age, known as the neolithic epoch.

It is generally admitted that the men of the stone age were stone hunters. With Abalite inventions the manner of living changed. The neoliths began to raise domestic animals and to cultivate certain species of plants, the remains of which are still to be found.

Corn is the most ancient plant known. Scientists have discovered a corn in the celebrated layer of the Zins d'Azil, or end of the hoen stone period.

It is believed that this kind of plant is essentially of Asiatic origin. It is essentially of Asiatic origin, brought into Europe by neolithic invaders. Egyptian wheat has also been found. Barley is also pretty frequent, being represented by the hand, rye and oats were represented by a different kind from the present species.

The other plants of that age were probably gathered in a wild state. Fruits were generally cut in quarters and dried; such as certain little species of apples and pears.

MAKEUP MAN IN BAD MIXUP

Transposed Lines of a Wedding and Auction Sale With Very Lucrative Effect.

In handling the slugs which make up the lines in a newspaper, and in separating the various items, the makeup man sometimes gets the lines mixed up. As an illustration of what can happen, we cite the mix-up of the Bangor (Pa.) News a few days ago when the printer got a wedding and an auction sale mixed up with the following results: "William Smith, the only son of Mr. and Mrs. Joe Smith, and Miss Lucy Anderson, were united in matrimony at my farm one mile east, in the presence of 70 guests, including two mules and 12 heads of cattle." "Rev. Jackson tied the nuptial knot for the parties, average 1,250 pounds of beef. The beautiful horse of the bride was decorated with one silky rack, one feed grinder and two sets of work harness, nearly new, and just before the ceremony was pronounced the Mendel and Sons wedding march was rendered by one mule cow, two years old, one Jersey cow and one sheep, who carried a bunch of brides roses in her hand with very beautiful. She wore one light spring wagon, two crates of apples, three crates of peaches, and a quantity of miscellaneous dole and trimmings with about one hundred bushels of spuds. The bridal couple left yesterday on an extended trip. Terms, spot cash."

Dramatic Scene at French Wedding.

A dramatic scene marked the wedding of Mlle. Marie-Angelo de Maistre with Count Pierre de Rouville de Lamoy de Hony, a young army officer, at the little church of Bossy, near Chambéry, France. At the moment when the priestly benediction was to be given, the Count, a young man of advanced age, Raining his arms above his head, he asked a divine blessing for the newly married couple, and a rustle of sensation ran through the church when he merely that of the priest, but of a grandfather. "The benediction was Father Du Hour's pastor of the order in Paris, and the grandfather of the bride. Formerly a smart cavalry officer, he had lost his wife after but few years of married life. After bringing up his children until they were old enough to look after themselves he quitted the world and exchanged sword and gold lace for the robe and cow of the monk.

RICHES IN HOUSE PLASTER

Rules of Abandoned Town in Montana Found to Yield Gold in Paying Quantities.

Shipping plaster from a house to a smelter for the gold, silver, and lead in it is a new departure in the way of making money, but that is what is being done by Frank Fish. For about fifteen years Fish has been working the tailing at the old Gregory mine, near Wickes. The property is owned by the Helena and Livingston company. Because of the change of plaster fall from the ceiling of one of the houses, Fish found it was very heavy, and he had it assayed. "The returns were satisfactory, and then he obtained from the company a lease, with the right to assay all of the plaster in all the houses in the town. As the town has long been going to decay the leases did not disturb any one.

Fish has already shipped eight tons of the plaster to the East Helena smelter, and the returns are said to amount to \$100,000. The richness of the plaster is not surprising. When Gregory was on the map and a booming camp and house were here, the plaster was taken from the tailings. The methods of getting

the value out of the ore were crude and the tailings were rich. This and the larger portion of the ore was sold to the smelter, and now it is a sheet of ice. (Herald and Mont.) Dispatch to the New York Star.

Dangerous Hiccoughs. Two unusual cases of suffering through hiccoughs are reported. In one, a man had an attack of hiccough which lasted for nine days before he obtained relief. A hiccough which lasted for three and four months, and was the result of a fright. Doctors had been unable to cure the hiccough, and many times the child would die.

"Tin Can" Professor. "Tin cans strung upon telephone wires and on the top of poles usually being used for hanging out clothes, but in Cambridge, the city is littered with the cans and other such things, but in this case a Harvard professor collected this at a book of dust, had strung up numerous cans to catch the University City's dust, which he will examine and discuss for posterity to read about in the future ages. It is not exactly known just what use the University City's dust can be put to, but the professor has already collected enough to build a good sized museum.

Who Owns the Wedding Ring? Does a wedding ring belong to a man or to his wife? This question is being raised in a lawsuit involving the estate of a man whose wife is suing for the jewelry of the deceased in making an inventory of his property. So far, the courts have not decided the question, which is being debated by counsel for both sides, though the value of the ring is small.

An American Abroad. Miss Mary Doyle O'Reilly, daughter of the late John Doyle O'Reilly, the Boston poet and editor, is visiting in Ireland, and as the guest of the countess of Aberdeen was much entertained in Ireland. In London she was the guest at dinner of the lord mayor and other celebrities. Miss O'Reilly is studying geological conditions in England and Ireland.

 Miss Frances Mitchell returned from Porto Rico Monday evening, where she has been teaching school during the past year. Her many friends will regret to learn that en route home she was stricken with appendicitis and her condition was such that a nurse and a physician were in constant attendance upon her during the trip from South America, which continent she visited on her return trip. After a three day's stay in New York City, she decided to start for Manistique reaching here in fair condition. Her physician advises an operation as soon as she regains her strength and it is now quite certain that she will not be able to return to Porto Rico this year to resume her work as teacher.

He has fixed Tuesday July 21st as the time for his appearance in Manistique, and a meeting will be held at the First Baptist church on the evening in question, commencing at 7:30 o'clock. All persons interested in the work of wiping out the saloons in Schoolcraft county, should be present at the meeting in question. At this meeting an outline of a plan of campaign will be presented.

BIG SUCCESS

Excursion to Garden Was Largely Attended Sunday. More than 500 Participated.

The excursion to Garden via the Soo Line and the Garden Bay railroads last Sunday was certainly a financial success. The crowd exceeded the most sanguine expectations of Manager Ewald of the Garden Bay road, and as a result he did not have sufficient cars to transport the crowd that desired to go. More than 500 persons were aboard the train when it left the local depot, and were compelled to remain at home because it was impossible for them to secure standing room on the train.

A number also went to Garden via automobiles, and it is safe to say that at least 400 Manistiquians were in Garden on the day in question. The trip was made without incident, and on the return trip reached the city practically on schedule.

Eight hundred persons witnessed the game between the Manistique and Garden base ball teams and saw the Manistique robbed of a victory by the raw decisions of an umpire that it is stated had \$15.00 on the Garden team. The score stood five to six in favor of Garden.

The Garden team will play a return game on July 27th at which time it is safe to say, the umpire that did such raw work last Sunday will not be permitted to officiate.

The unexpectedly large crowd will have depleted the eatables and drinkables provided by the Garden people, and not all of the visitors were able to participate in the chicken dinners provided for their guests by the hotel managers.

Always Warmly Welcomed.

There is one ex-Manistiquian that is always sure of a royal welcome whenever he returns to Manistique, and that is Mr. Sam Winkelmann of Wausau, Wis. Sam came to Manistique twenty years ago, as a youth and was inexperienced in the business of merchandising. He engaged in business in a very modest scale. Later he engaged in business in a much more pretentious mode in Manistique, where he achieved success. He then returned to Manistique and purchased the Blumrosen store, and conducted the store in

question for four years. Four years ago he resided to Blumrosen, and located at Wausau, where he owns the biggest and best store in that enterprising city of 20,000 people. It is considered one of the best stores in Wisconsin, and Sam is doing extremely well. During his residence here, he was always enterprising, and was prodigal with his time and money in furthering any cause that might advance the city's interests. More than once, prominent business men have been heard to say that they wished Sam Winkelmann was here to do certain tasks that they know he would do well if here. Sam was in the city Sunday as the guest of his brother, Mose Winkelmann, and during his brief stay he met many of his former business associates. He still has a warm spot in his heart for Manistique, and really feels that he is "going home" when coming here.

Jumped Board Bill.

Four itinerant roller skating artists registered at the Barnes hotel last Thursday morning and after a days stay in the city decided that their ability would not earn them a living here as the rink was closed and they were not given an opportunity of earning money. They meted out of town the following morning for the Soo without paying their hotel bills, amounting to \$150 each. The Soo authorities were notified, and the fellows were arrested, two of them at the Soo and two at the Canadian Soo. Sheriff Howard and Deputy Reboke went in the Soo Saturday morning, and brought the quartette to the city. They had their hearing before Justice Teeple Monday morning, pleaded guilty, and were each fined \$5.00 and costs, or thirty days in jail. They chose the latter alternative.

Was "Rolled" for \$55.00.

A young fellow residing in Manistique, will land in the penitentiary sooner or later if he does not mend his ways. Last Saturday afternoon, he robbed Walter F. Krueger of Merrill Wis., of \$55.00 in the Star Cafe, Krueger missed his money, and suspected the young fellow in question who left the saloon in a hurry a short time before the discovery was made. He was located and the money returned. Krueger, who is a very gentlemanly young fellow, came to the city a few days ago with E. H. Price, a former Manistique boy, and the two are spending their vacation in this city. Price says he is a "good" fellow, and the money certainly should be returned to the man who lost it, but he escaped so easily.

Has Good Position.

Mr. C. N. Dewey of this city has received the appointment of deputy state fire-marshal. He has been assigned to the upper peninsula, but his duties will also require frequent trips to the lower portion of the state. The position pays a good salary, and Mr. Dewey's friends are pleased to learn that he has landed something good. He was a formidable factor in the recent local option fight, and the excellent endorsements he received in that fight, assisted him materially in landing the position to which he was appointed a few days ago. He will continue to make Manistique his home.

Alex Sly of Mackinac county, was in the city last Thursday evening.

The Fact Remains

No amount of misrepresentation by the peddlers of alum baking powders, no juggling with chemicals, or pretended analysis, or cooked-up certificates, or falsehoods of any kind, can change the fact that

Royal Baking Powder has been found by the official examinations to be of the highest leavening efficiency, free from alum, and of absolute purity and wholesomeness.

Royal Baking Powder is indispensable for making finest and most economical food.

TO HAVE OPPOSITION

F. D. Davis of Escanaba, May Oppose Present Senator of This District.

The Escanaba Mirror has the following to say concerning the probable candidacy of Mr. F. D. Davis for the senatorship in the Thirteenth district:

There is a strong sentiment throughout the thirteenth senatorial district for a candidate to oppose James C. Ward of Manistique, and a committee has been in this city for the purpose of trying to induce F. D. Davis to enter the race for the Republican nomination.

Mr. Davis was seen this morning by a reporter and declined to comment himself. He said that as an officer of The Detroit Life Insurance company his duties compelled him to devote about all the time he has at his disposal to the interests of his business. He admitted that he had been waited upon by a committee but that he had not given them a definite answer, for he desired to have more time in which to consider it. Should he decide to enter politics, Mr. Davis would be sure to make an excellent showing when the votes are counted, for he probably has a better acquaintance in the district than any other man.

The delegation that called upon Mr. Davis represented prominent politicians from every county in the thirteenth senatorial district. These counties are: Delta, Chippewa, Luce, Mackinac, Menominee and Schoolcraft.

An automobile party from Crystal Falls, consisting of Editor Thomas Conlin and family, Mr. Herman Holmes and family and William Holmes, arrived in the city Tuesday evening, and the following morning left the city for Newberry. Tom stopped long enough at the Pioneer-Tribune office to say "hello" to get a smelly of printers ink and to voice his thanks to the fellows that had the foresight to place markers along the route from Garden to Manistique. He also stated that if Fayette was located in Europe hundreds of Americans would annually pilgrimage there to drink its beauty.

VIOLATED RULE

Great Lakes Co. Mulcted \$300 for Working Men Extra Time.

The Great Lakes D. & D. Co., which has the contract of building the harbor improvements at this port, were indicted \$300 by the U. S. district court at this time for violating the government rule relative to the hours that constitute a days work. It appears that during the prevalence of two big blazes, April 20th and May 5th, it asked its employees to work an extra hour in order to save at least \$2,000.00 worth of construction work from demolition. This was reported to the proper authorities by someone and the fine followed. Supt. Thos West, his assistant, S. J. West and the government engineer in charge of the work, Mr. Karl Nison, and his assistant Geo. Young, were called to the U. S. district court relative to the infraction of the rule.

Under the circumstances, it looks as though the Great Lakes Co., was harshly dealt with. It has never been its custom to compel its men to work more than eight hours, and only when it was imperative to do so owing to weather conditions, was the rule disobeyed, in order to save the company a large sum of money. The amount of the fine should be rebated.

ON FURLOUGH

Mr. Earl Franklin of the Navy, Here this Week Visiting Friends.

Mr. Earl Franklin, a former Manistiquian boy, is spending a portion of his thirty day furlough in this city and vicinity with friends. Franklin is a member of the U. S. S. Michigan crew and has been in Mexico for several months, being stationed at Vera Cruz. The Michigan was sent to the shipyards at Philadelphia for needed repairs, and some of the crew, including Franklin secured furloughs. He has been in the navy for seven years, and upon the expiration of his enlistment in August, he expects to reenlist for a four year period.

He arrived in the city Wed. morning from Minneapolis, where he visited his parents. He has numerous pictures that give one a good idea of what nappal at Vera Cruz during the bombardment.

IS A GOOD IDEA

Business Man Proposes that a Series of Base Ball Games be Instituted for Benefit of Fair Association.

One of Manistique's young business men proposes that a series of base ball games be instituted in which the various business men as well as the employees of the various manufacturing establishments, participate as players, and the proceeds are to go to the fair association.

The idea is a good one and should be acted upon. It should be an easy matter to organize a league, and no doubt sufficient interest would be manifested so that a snug sum might be realized for the fair association.

The idea might lead to the consummation of a general half holiday for the toilers of the city during the summer months.

Buy a farm and be independent. I have 180 acres, 4 miles east of Manistique. Suitable for poultry and fruit or anything, will sell it divided (if preferred), enough of hardwood timber on the land to pay for it. Apply to Emil Johnson, 222 1/2 St. Manistique Mich. Adv 57.
