Council approves contract for city employees

Manistique's City Council approved a new union contract with city employees, made plans to create a special assessment district, decided to pay an old bill and dealt with another problem concerning former City Manager Rush Cattell at its meeting Monday night.

The city reached an agreement with local No. 1196 of the International Union of Brewery and Municipal employees when the council authorized Mayor Frank Hewitt to sign the contract recommended by its negotiating firm, Strom, Butch, Quinn, Rosemurgy and Jandura.

According to the two-year contract, copies of which are presently being printed, employees shall receive an across-the-board pay raise of 55 cents per hour, effective June 1, 1976.

City employees will receive two additional pay raises, one of 20 cents on January 1, 1977, and a final 45 cent raise June 1, 1977.

Speaking for the county Health Department and residents of the 900 block of Main St. in Manistique, Glenn Bignall asked that the Council create a special assessment district there to cover costs of constructing a new sewer line.

Because the sub-surface systems (septic tanks) are failing, Bignall said, the 900 block of Manistique Ave. is a health hazard. He elaborated on that statement by saying that sewage is draining from the area into Lake Michigan, as well.

After listening to Bignall's report, Mayor Frank Hewitt agreed to draw up a special assessment district to install a new sewer system there.

Discussion of finances continued when the Council found itself behind on payment for a front end loader which the city had ordered last November from Gregg Lambrecht, Lake Shore, Inc., Kingsford.

The front-end loader originally cost \$43,000, but the city was given a \$12,000 discount and a \$3700 allowance for a trade-in on a W7 loader.

The council agreed to pay Lake Shore, Inc. \$900 a month for the next four months while they try to arrange for a loan to pay the balance.

In other business, the City received a request from the bicentennial commission

to blow the main siren and for the police cars to blow their sirens July 3 at 10:00 a.m. The council agreed to blow the main siren at 10, but denied the request for police cars to do likewise because that might cause complications.

At the close of the meeting, Councilman Pete Mathson informed the council that former city manager Rush V. Cattell had a walk-behind snowblower that belonged to the city.

The snowblower was originally purchased by Cattell for his personal use with his own funds, following which he made a verbal agreement with DPW Superintendent Ray Linderoth, trading the snowblower for an old tractor that belonged to the city.

According to Mathson, the tractor broke down and Cattell took back the snowblower.

City Attorney Brooks was instructed to write Cattell a letter requesting the return of the snowblower.

Poison Control services here

Services of the Poison Control Center at Marquette General Hospital became available to Manistique recently when it expanded its coverage to include all areas of the Upper Peninsula.

Since June 1, when the Center began distributing stickers bearing its toll free telephone number, calls per month have tripled in number said Gary Pauly, hospital public relations director.

"We were averaging roughly 30 calls per month when we were operating locally,"

he said. "Since the first of June calls have tripled. This month alone we're at 90 calls. It's certainly gone beyond what we expected."

Pauly attributes the service's success to the cooperation of organizations throughout the U.P., who have helped in distributing more than 15,000 of the stickers.

In Manistique, Dr. John Clark and the Chamber of Commerce have been working to place them in the hands, primarily, of families with young children.

Information on the stickers instructs those in need of the Center's services to phone (toll free) 1-800-562-8781.

"When a person calls, we ask what he has ingested and check our computer files for information on whether the substance is toxic or non-toxic and what the prescribed treatment is and then ask him to go to the nearest hospital emergency room where we will relay the information to his doctor," Pauly said. "If a substance is completely unknown to us, we can contact the national program in Rocky Mountain, Denver, where Denver Poison Center toxicologists can give us the necessary information inside 15 minutes. It's a very efficient operation."

Pauly emphasized that there is no charge to the caller. Information is provided as a service of Marquette General Hospital, he said.

History of the Manistique Women's Club

THE FIRST MANISTIQUE Women's Reading Club was formed in 1898 with a membership of 17.

By Helen Hall Olsen
Life Member of the Club

At the turn of the century, a small group of Manistique matrons, wishing to put their intellects to better use than card playing, converted their whist club to a literary club.

The Women's Reading Club

In 1898 the Women's Reading Club with a membership of 17 was organized "for the promotion of study, cultivation of literary taste and encouragement of freedom in discussion." The club flower was the violet and the colors were violet and white.

The membership was limited to 25. Any woman wishing to join the club could submit a written application, the approval of which would allow her to become an active member with the payment of 25 cents. Meetings were held at 7 p.m. on the first and third Tuesdays of the month, September through June.

Meetings were held in the home, each opening with a roll call to which the member responded with a quotation from a designated course. This was followed by a ten minute drill in parliamentary law and each program closed with current events. The first year was spent studying the history of the United States.

State Federation

In 1964 the club joined the State Federation. The flower was changed to the present pink carnation and the colors to pink and green. A more active interest was taken in civic affairs.

Waste paper barrels were placed at Putnam's corner and at the American House, Oak and US-2. Sixty-five maple trees were planted along Lake and Maple streets and shrubbery around lakeside school. A drinking fountain was installed "for man horse or dog" in the triangle park at River and Main Streets.

The committee on civic improvement sent petitions to the City Council requesting early closing of stores and more strict enforcement of the anti-spitting ordinance.

General Federation of Women's Clubs

With these achievements, the women looked to even wider horizons and in 1916 they joined the General Federation of Women's Clubs. The name was changed to the Manistique Women's Club and the membership was increased to 93.

Programming for the club became more diversified. In the thirties and forties ambitious club productions included "Our Town" and a cutting from "The Taming of the Shrew." The University of Michigan sent faculty members to the area to speak on a variety of subjects.

For the children's entertainment the club presented puppet shows and some of the ladies became almost professional in making and manipulating the dolls. Another accomplishment was the production of living pictures which were posed within a gilded frame covered with black gauze, giving the effect of an oil painting.

Musical programs were also presented by the club. For many years "The Messiah" was presented as a Christmas gift to the community. Recently the club sponsored a concert by the Interlochen Choir and Chorus. Garden tours were held during the summer. One of these included a Tom Thumb wedding performed by children of club members.

Youth Assistance

Among projects undertaken in the interest of youth have been: an orphan from Belgium and one from France were adopted for a period following World War I, dental and medical care were provided for children of low income families, a story hour was presented in the library, a Junior Garden Club was instituted, the Girl Scout movement was organized in 1924 and sponsored until 1941 when it was taken over by the Council, and a student loan for girls was established in 1926, expanded to include boys in 1936 and changed to a scholarship in 1966. The club proposed, promoted and contributed substantially both ideas and funds for the development of Central Park and the building of the Youth Center.

Conservation and Civic Interest
In addition to club projects mentioned previously, sixteen acres of property at Intake Park were purchased, beautified and donated to the city. The club also purchased land in the county and promoted planting of 1200 oaks and pines and helped financially to restore forty acres in the Upper Peninsula. The group built and maintained a memorial to service men which in 1970 was moved to the triangle park at River and Elk Street. Two thousand dollars was donated to the new maternity addition to the Shaw Hospital.

Many hundreds of Christmas baskets of food, clothing and toys have been sent to needy families in the county with the cooperation of the entire club membership. With the advent of government aid to the poor, there was no longer a need for the project. One of the current projects is to remember the forgotten people, those who have been placed in foster homes instead of mental institutions.

Women's Club Today

After 78 years of uninterrupted existence, the Manistique Women's Club has a membership of 155. Meetings are held once a month, October through May. Current community contributions include donations to Community Concert series, CBC, Boy Scouts, Girl Scouts, March of Dimes, Care, Indian and nursing scholarships. The club sponsors music scholarships, academic scholarships, amblyopia clinic, Manistique Manor visitation group and hosts the Senior Girls Tea.

In 1974, the club assisted in the formation of a Junior Women's Club. The two clubs compiled and published a Bicentennial Cookbook. The Manistique Women's Club is currently developing project plans for use of the money raised by participation in this project.

The Manistique Women's Club is proud of its past achievements and is looking forward to making future contributions to the community.

Fuller Brush awards local resident highest honor

In 1951, women full time Fuller Brush dealers were very few in number. Marion Jacques, Garden, a widow with three children to raise, looked to Fuller Brush for an opportunity to support her family and do a job of which she could be proud. According to Marion, "I looked to Fuller because I knew they were an old reliable company with quality merchandise."
During the last twenty-five years, Marion's pride in her work and independent drive made her consistently a top dealer in her section. But more important, her compassion, devotion, and her personal integrity has won the hearts of everyone who has been privileged to know and work

OASIS
In the middle of the giant city, the lake is an oasis, removed from the bustle and din, just a stone's throw beyond. It is strangely quiet, peaceful, giving the visitor a moment's pause, a time to think.
All of us need that moment to pause, that time to think. We need, now and again, to stop and ask ourselves the questions about the deeper things in life which we gloss over in the pace of everyday living. We need to dwell on spiritual things, to assess our sense of values and to wonder if we are truly living in accord with God's wishes.
Sometimes it is much easier to keep on rushing than it is to stop for a moment and take stock. Sometimes it is hard to keep on going in what may well be the wrong way than it is to stop and change directions. The greatest opportunity for contemplation and meditation is in your church. Here you will find spiritual resources to help you rest and strengthen your life.

Medical Care

by Sally Schuetter

Hi Everyone.

This week should prove quite exciting with the upcoming bicentennial parade on July 3. It appears there are going to be many nice floats and if you have ever had the opportunity to work on one you know how much time and effort goes into it and the colorful floats shown in years past. I'm sure were shown with great pride. The Lutheran women church group will be sponsoring a party this coming Thursday and it sounds like it will be quite interesting. This is also the day of the traffic drawing sponsored by the Bingo Volunteers. The volunteers are raffling a 21 piece set of antique china and a

miniature Christmas tree with the proceeds going to the new chapel.

June 4 the Bingo Volunteers had a party for the patients in honor of Flag Day and all of the patients had a rootbeer float, compliments of Dell and Mary O'Brien, the new owners of the A and W Drive In. This was a real unusual treat and enjoyed by everyone.

The Y.F.W. sponsored a monthly birthday party on June 15, with their usual good treat and fine entertainment. Bingo treats these past two weeks have been provided by Shirley Huston, Mrs. Al Ungar, Mae Gonder and Vida Lund. Bingo prizes have been provided by Mary Kay Anthony, Nancy Clement, Rose Christianson, and Barb Hinkson. Thank you everyone.

JOHN JAMES COWMAN is pictured standing in the old cemetery on Decoration Day in 1920. Records indicate that he was the last living Civil War veteran in Manistique.

History of Private James Cowman

Private John James Cowman fought in the Civil War with the 26th New York Volunteers Light Artillery. His battery was equipped with four 12 pound Napoleon field pieces.

His major campaigns were the Red River campaign and the Mobile campaign. During the Mobile campaign and the siege of Spanish Fort, his battery fired 811 rounds and was commended by the officer in command.

He was discharged in 1865 in New Orleans, married Mary Abby Dean, and settled in Manistique. Seven children were born to John and Mary, including Jim's

grandfather Clarence James Cowman. Earl "Turk" Cowman is his father. John James Cowman died April 2, 1929, in Manistique. He was according to some records the last Civil War survivor in Manistique. His wife remained on the Civil War pension roster until her death in 1942.

Editors Note: This article was written by Tom Cullen, Cleveland, Ohio, New Mexico. He is researching the Civil War career of his great grandfather John James Cowman of Manistique and would appreciate any additional information about him.

History of Hiawatha Goodwill Club

The history of the Hiawatha Goodwill Club begins with the founding of the Greenwood Chapel and the Greenwood Ladies Aid. The founding date was November 29, 1904. The chapel was located across the road from the Maple Grove School. Later it was moved to within a mile of the city limits on M-94.

Mrs. Louise Cumirgham (formerly Louise Greenwood) raised funds among her friends in Buffalo, New York and purchased the building. The late Charles R Orr donated the ground for as long as needed for church services. Miss Greenwood was Episcopalian, but there being no Episcopal Church in Manistique at that early date, Greenwood Chapel was devoted over to the Superior Presbytery who helped pay the pastor of the chapel. A Ladies Aid was organized among the members of the little church, which took care of their expenses of the church, including half of the minister's salary. Reverend Torbett who was the Presbyterian minister in Manistique was also the minister of Greenwood Chapel, holding services on Sunday afternoon.

The first officers of Greenwood Chapel Ladies Aid were: Mrs. A. B. Greenwood, president, Mrs. Fred Graham, vice president, Mrs. Arthur Graham, secretary. Both Mr. and Mrs. Greenwood were very active in carrying on the work of the Chapel which bore their name.

After the automobile replaced the horse and buggy, the residents of the neighborhood preferred driving to town to the church of their choice, and for a number of years, no services were held in the little chapel. The Presbyterians sold the building, and the land went back to the original owner, Mr. Orr. Mr. Orr was also a trustee of the little church for as long as it was used for church services.

After services at the church were discontinued the Ladies Aid decided to re-organize and become a community social club, therefore the birth of the Goodwill Club. The Ladies Aid was reorganized March 1, 1917 to the present Goodwill Club.

They met with Mrs. William (Tilly) Wieland and the following officers were appointed: president, Mrs. Myrtle Tennant; Vice-president, Mrs. John Tennant; secretary, Mrs. Arthur Graham, and Treasurer; Mrs. William Wieland. First members were as follows: Mrs. John Tennant, Mrs. John Creighton, Mrs. Myrtle Tennant, Mrs. Arthur Graham, Mrs. W. B. Brown, Mrs. Fred Graham, Mrs. John DeVroy, Mrs. John Woodruff, Miss Nettie Phenix (teacher), Mrs. Otto Christensen, Mrs. Henry Christensen, Mrs. Mary Bond, Miss Christina Christensen, Mrs. William Wieland and Mrs. John Riley.

Mrs. John (Lena) Riley held the office of Secretary, treasurer for more than fifteen years.

This March 1, 1976 the Goodwill Club is 59 years old and many new members have come and gone during all these years. Mrs. Henry Christensen is the only remaining living member of the original group.

The church was located across the road from the Maple Grove School. Later it was moved to within a mile of the city limits on M-94.

America, the Practical

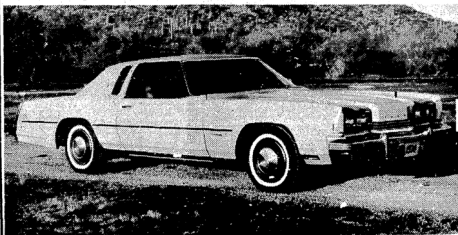

For 200 years, Americans have been a practical people. They are continuing to search to practical machinery to keep them going in their day to day lives. And they've found them.

Americans have turned to their fellow American and found their answers. The cotton gin, the covered wagon and the steamboat keep America on the move, thanks to the skill of her own.

While America is 200 years old and has seen a lot of changes, some things just never change.

Like America's love of the practical and reliance of her fellow American to come through.

That's why Olds and Chevy are right for America. They're practical machines built on the American spirit.

Curran of Manistique sells Chevrolet and Oldsmobile. They too are made of the practical spirit, always there to serve their fellow man in the best way they know how. Curran Chevy—Olds has been selling cars in the same location for over 40 years.

Marin convicted Monday, warrant issued for LaRose

Tony Marin, Perin, Ill., was convicted here last Monday of violation of the building contractors fund act as the result of two transactions made last year with Manistique Lumber and Coal.

According to Prosecuting Attorney Gifford Smith, Marin accepted \$1276 from Lisa Carey and Charlotte LaFleur to purchase building materials from Manistique Lumber and Coal. Rather than pay cash for the materials, Marin charged them and "the cash disappeared", Smith said.

He negotiated a similar deal with Mr. and Mrs. Raymond Rice and the Timberline Company. That transaction involved a total of \$2336.

Last Monday Marin plead guilty to charges stemming from the Carey LaFleur and Manistique Lumber and Coal incident and was ordered to make total financial restitution. He was also ordered to reimburse Timberline Company for the materials that they delivered to the Rice.

Marin will appear in court again April 5, 1977 for final sentencing.

A warrant has been issued by the Prosecuting Attorney for the arrest of Edward LaRose, Manistique, on charges of the malicious destruction of property over \$100. The charges stem from a June 18 incident involving several automobiles.

On June 23, 1780, stout Patriot defense turned back a British attack at Springfield, N.J., and ended the British offensive operations in New Jersey.

Jumping frogs compete in Newberry

Rivet-Rivet. Jug-a-rum! Jug-a-rum! The mating call of the bull frog reverberates like a cacophony of strumming rubber bands on early summer Michigan evenings. But now that it's July and the fun is all over, the frolicsome bulls return, as males of many species are wont to do, to their favorite time-wasting activity, the challenge of one-upmanship.

In Newberry, the popular warm weather has culminated in a regular herpetological overland. It's the Upper Peninsula's First Annual Celebrated Jumping Frog Contest. What are purported to be the area's best Bicentennial bullfrogs have convened to proclaim the day of July 4, the hour of 11:30 A.M. the location of Washington Park, Newberry, Michigan, for this spectacular post-mating competition. All bullfrogs from throughout the Water Wonderland of Michigan who have successfully completed their early summer rite of passage are converging to the scene of competition.

Since the Upper Peninsula is alleged to know of a frog capable of jumping the Straits of Mackinac, but who cannot yet be persuaded to land in the Lower Peninsula, frog-jumping officials have invited the two most intrepid competitors from south of the Straits to try their skill at jumping north.

In a June 9 telegram to the White House, President Ford was invited to send his favorite Grand Rapids contestant to the Newberry athletic spectacular. Claiming to have more critical competition on the West Coast, the President sent his regrets and his best wishes to Newberry, and allegedly hopped on to California.

Governor Milliken, likewise, has been invited to jump his challenger north across the Straits from Lansing. He is currently reported to be sizing up the competition before leaping to a positive response.

U.S. Representative from northern Michigan, Frank Ruppe and Newberry's

own Major have also been invited to enter the Upper Peninsula contest, and are expected to appear among the top contenders.

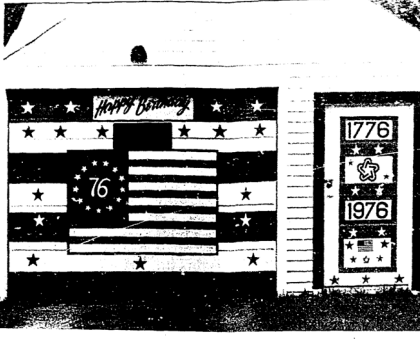

Although the U.P.'s 1st Annual Celebrated Jumping Frog Contest anticipates the participation of certain dignitaries for its kick-off (er, hop-off), frog-jumping enthusiasts of any age, sex, or station in life are invited to attend. The only qualification is that each entrant bring his own bullfrog (and that any very young competitors be, naturally, under the supervision of an adult "athletic manager").

Competing frogs may very well have a jumping chance at the world record championship which this year measures out to 20' 3". This record-breaking distance, was jumped last May at the Calaveras County Jumping Frog Jubilee in Angels Camp, California by Grand Champion E. Davy Crockett of Mt. View, California.

Crockett's jump demolished a previous 10-year record and won a \$1200 prize for his manager. While Newberry's 1st place prize will not be quite so lucrative, a lovely trophy now awaits the Grand Champion of the Upper Peninsula.

Individuals are being urged to hurry to their nearest marsh or frog-pool and invite the most likely bullfrog competitor who "Hoppens" by. It's not too early to begin training. The Fourth of July competition is just around the next cattail patch, and already there are such ominous amphibian athletes registered as the oriental descendant Won-Long-Hop, the seductive Revester, the unpredictable Pot-Belly, Evil K-see-cap, the Governor's Mansion, Jeremiah, and the Three-Toad Sloth.

Don't delay. Contact your area Bicentennial Bullfrog today: Jerry Irby, (906) 293-8632.

LOU ROGERS CAPTURED the spirit of the Bicentennial on his garage doors with this red, white and blue design. Work on the doors kept him busy throughout the winter and on only one area, the words "Happy Birthday", did he seek any outside help. Both doors have been treated to resist the damaging effects of the weather. (Tribune Photo)

JGAN MILLER HAS been busy with paintbrush and paint to whip the city's fire hydrants into shape before this year's July 4 weekend Bicentennial celebration. On every block residents and visitors in Manistique can now see the brightly colored creations celebrating our nation's 200th birthday. (Tribune Photo)

Public fishing area to open

SENEY, MICH. — The public fishing area at C-3 Pool will be opening July 1 according to John Frye, Manager of the Seney National Wildlife Refuge.

This fishing area is closed during the spring months to prevent disturbance to nesting waterfowl and other wildlife.

Fishermen at C-3 Pool can expect to catch northern pike, yellow perch, and bullheads, depending on the gear used. Boats and live minnows are not permitted.

Access to C-3 Pool is gained from Highway M-28 via the Driggs River Road located eight (8) miles west of Seney. For further information contact the refuge headquarters or call 906-586-6504.

On June 2, 1775, Massachusetts requested that the Continental Congress assume control of the New England Army, which, it was contended, had been raised to defend the rights of all Colonists.

Geesean joins Beaudin-Malloy agency

Bill Geesean, former business manager at Manistique Area Schools, joined the staff Monday of the Beaudin-Malloy Agency, Inc. as a licensed agent. He recently earned his license after two weeks of training at Michigan State University in Lansing.

Of his new position Geesean said, "I think I'll enjoy it. I'll be working with people all of the time and I enjoy that part of it. I know a little bit about the insurance business because I've worked with it through the schools and I expect to learn a lot more during the next few weeks."

Geesean said he began looking for other employment when he was "pink-slipped" several months ago along with other members of the school staff. "We love it here," he added. "We decided to stay here rather than relocate because here we have the advantage of already having friends."
Geesean and his wife, the former Lorna Bjorkman of Gulliver, came to Manistique four years ago from Reed City where he served as personnel director of the Gardner-Emver Company.

No mailbox for Engle

Poor Brice Engle. He may never get any mail.

Last September the mailbox at his summer home in Pine Grove was destroyed when it was hit by a car. Here again Thursday to file a claim with his insurance company, Engle struck out again. Working to mail the forms in his newly constructed box - a red barrel with a white mailbox perched on top - he discovered that it, too, had fallen victim to a run-away automobile.

What will he do now? File another claim, he said, and put up another mailbox.

It took dollars to build America
...and State Savings Bank has been building Manistique since 1917.

Muscle, mind and money were the three key elements that has built America.

Without one of these three elements, we would never have developed to as great of a nation as we are now.

We at the State Savings Bank have been doing our part in supplying the money to keep Manistique on the go.

Stop in and see us next time you need money for a worthwhile project. You'll be glad you did.

We will be closed July 3rd and 5th.
