GOOD FOR AN OFF YEAR.

RETURNS EMPHASIZE THE VERDICT OF THE PEOPLE AGAINST BRYANISM.

YANKEE MAJORITY IN OHIO DOUBLED THAT OF BUSINESS TWO YEARS AGO.

Even Kentucky Comes out way Electing Taylor Governor by 6,000 Majority.

Elections were held in thirteen states Tuesday.

Ohio, Iowa, Kentucky, Mississippi, Maryland and Massachusetts elected governors and other state officers.

In Nebraska, Pennsylvania, and South Dakota there were three state offices to be filled.

In New Jersey and Virginia, legislatures were elected. In Kansas county officers, and in New York members of the state assembly and one congressman were chosen.

In four states, Iowa, Virginia, Kentucky and Mississippi the legislature elected will elect United States senators.

Municipal elections were held in several leading cities, and county officers voted for in some states, notably the four counties of Greater New York.

The following is a general summary, compiled from reports sent out Wednesday:

Ohio gives Judge Nash, Rep., for governor, 70,000 plurality over McLean; Dem. Jones vote exceeded 100,000. Branches of the Legislature are strongly Republican.

Kentucky elects Taylor, Rep., governor by 6,000, the Democratic vote being divided between Gravel and Brown. The Legislature is united.

John Walter Smith, Dem., was elected governor of Maryland by 10,000 majority and a Democratic Legislature was chosen, a factional quarrel among Republicans contributing to this result.

The Democratic ticket in Nebraska by about 1,000 majority.

Iowa re-elects Gov. Shaw, Rep., by 60,000 majority, and W. Murray Crane, Rep., was chosen governor of Massachusetts by 65,000.

Pennsylvania went Republican by 110,000, New York, by 25,000; New Jersey by 20,000; South Dakota by 10,000.

and Kansas showed an increased Republican vote in local elections. Mississippi is Democratic by 6,000, and both branches of the Virginia Legislature are Democratic.

Famous Passion Play.

This, A. Edison's wonderful and magnificent production of the world's famous Bavarian Passion Play, a touching drama on the life of Christ, his disciples, Pilate, King Herod, and all prominent characters, impelled with an Italian soldier and civilian as given at the last presentation in Ober Ammergau, Bavaria will be reproduced by means of the soul-stirring moving pictures in the Star opera house, Thursday evening, Nov. 16th, under the auspices of St. Francis de Sales church. In connection will be shown some eighty five beautiful transparencies representing as many world famous paintings on subjects from the life of Christ. As the moving pictures are thrown upon the screen Miss Katherine M. Edie will give an interesting lecture descriptive of the various scenes in the sacred play.

The Passion Play is a dramatic representation of the life of Christ from his birth to his ascension. It has been given every ten years at Ober Ammergau since 1634, taking its origin from a vow made by the inhabitants that they would do this holy work if a horrible plague there raging in Europe was stayed. Seven hundred people are required to produce the drama and are selected from among the villagers, parts being assigned with reference to the moral character as well as the dramatic ability of each. All the inhabitants regard the play as a solemn act of religious worship and every performance is conducted with the greatest reverence.

Thos. A. Edison's production of the Bavarian Passion Play is pronounced marvellous and is highly recommended by clergy, press and public.

Blind as a Bat.

Electrician V. X. Lyon, of the Manistique Light Co., was "blind as a bat" as the saying goes, for several hours during Sunday night.

He had been fixing a lighted arc lamp early in the evening and came down to look over the system at about 8 o'clock, and while near the business portion of the city he lost his sight completely for a short time. He groped his way home as best he could without assistance and lay down. After a time his eyes became painful and Dr. Patterson was called and gave treatment. He came out Monday afternoon and since his sight is about as good as usual. In the future Mr. Lyon will protect his eyes by some means when working about arc lamps.

Two Men Injured.

Misses August Miller and Julius Jurgensen, employed by the Burroughs Chemical Co., while hauling a piece of lumber upon the street Monday forenoon, narrowly escaped being crushed to death. The timber struck the men, the former sustaining a compound fracture of the leg and the ankle and had two ribs broken and the latter was injured about the hand and shoulder. Miller was taken to the Manistique Hospital and Jurgensen to his home on the west side near Chandler's drug store.

The accident was caused by the gin pole breaking.

Mr. Miller is getting along as well as could be expected and the other gentleman is again at work.

Body Reached Here Monday.

The remains of Mrs. Bragg, wife of Foreman William Bragg of camp 68, arrived here Monday morning from Ann Arbor, where she died in the U. of M. hospital on Friday morning of last week. The funeral occurred Thursday morning, services being held at the First Baptist church, by Rev. J. C. Rooney. Many friends of the family were in attendance at the last sad rites.

Mrs. Bragg was a daughter of Mr. and Mrs. Adamson, J. Smith, and was well known and highly respected in this vicinity. Deceased was 37 years of age. Her death was a great loss to the eldest

son years of age, are left motherless. The husband of deceased and relatives have the sympathy of this community.

S. J. Bouschor Arrested.

Simon J. Bouschor, of Berque Point, was placed under arrest on Saturday last, on complaint of a state deputy warden, for taking whitefish out of season. He was brought here and gave bonds. The deputy went to the fishing grounds on the patrol boat, Columbia, and lifted one of the pond nets in which he claims to have found two whitefish.

We learn, it is a fact that Mr. Bouschor had three pond nets set in the lake, two of them with leads tied and the other he was using to catch what is known as "rough" fish, such as herring, snappers, etc. The latter net he had been using for some time, and a couple of days previous had taken out about 15,000 pounds of "rough" fish, and during the time the net had been in use he had never taken a whitefish or trout from it.

The Matter will have a hearing in court, there is no doubt.

Week Near Sear.

Five cars of Saturday's west bound through passenger on the South Shore were derailed four miles east of Sear. A broken rail caused the accident.

The combination baggage and smoking coach was first to leave the rail and was followed by the first-class day coach, the dining car, the Pullman sleeper and two extra day coaches put on to accommodate the extra travel on account of the opening of the season. The train was running at between twenty-five or thirty miles per hour at the time.

Aside from a few bruises and cuts on broken glass the worst thing that befell the passengers was a wetting. The ditch which the cars fell into had considerable water in it, and those passengers on the lower side were considerably soaked before they succeeded in crawling through the windows on the upper side. It was a miracle that none of the passengers were killed or badly injured. The train was delayed about five hours.

A DRAMATIC CLIMAX.

The Effect of One Woman's Pathetic Pleas on a Jury.

That juror affected by hair-raising and laughing eyes is said to be a remarkable experience of the greatest ad- vantage at the New York bar, the late James T. Brady. He was a counsel for a young woman in a case involving an attempt to break a will.

His client sat by his side. She was a very beautiful young woman whose eyes seemed always to rivet the atten- tion of those upon whom her glances fell. There was a pathetic expression watching the jury during the course of the trial, and at last there was some complaint that she was attempting to monopolize her glances to excite the sym- pathy of the jury.

Then Mr. Brady arose and in one of the most touching and beautiful of all the addresses he ever made in court he spoke of the blessings which every eye who had an appreciation of beautiful things and could see in this joy, and dwell for some moments upon the happy lot of the jury who could see in the budding of the flowers—it was then spring time—and the charms of nature; then, suddenly turning to his client, he said, "That blessing is denied my client, for though she has eyes which seem to look upon you, gentlemen, there is no vision in them, for her sight has been taken from her."

She had been, in fact, the victim of total paralysis of the optic nerve, which had impaired the beauty of her eyes, but had given to her that sin- gular pathetic expression which she was thus falsely charged with employing that she might excite the sympathy of the jury.—Philadelphia Press.

THE SCHOOL PLAYGROUND.

Its Abolition is a Grievous Wrong to the Children.

This is an evil which has crept in with the tendency to centralize the schools. When in any place the school begins to centralize, it is to get up a larger building take place, accom- panied by an effort to create a high school department, not so much the need of the community as an ambition dream of some principal who would be superintendent or some sort of central school.

This dream is too easily realized, be- cause it flatters the people. Then there arises a preposterous structure of stone and brick. A house of many gables, out of keeping with everything else, either public or private, in the place; a temple of vanity. Now is rung the knell of the school playground, for the new "high school," although it will house all the children from a 5 to 18, must needs be surrounded by a big lawn, studded with shrubbery and bordered by line- stone roads. The janitor has to employ an assistant to keep the grounds in or- der.

A shut in, pent-up place has been evolved by the architect and school committee, gratifying to their pride and a deep wrong to the children. There are many wrongs about it. The one insisted upon is the abolishing of the recess, that time honored joy of the American schoolboy and schoolgirl.—Lynchburg A. Valley in Popular Science Monthly.

Music and Entree.

I dined the other day at a restaurant where the dinner is served to the accompaniment of an orchestra. We had "King Cotton" with tea system and rag time with the song. Then the or- chestra slid into that wondrous beautiful intermezzo of "Cavalletta Rusticana." They played it much more slowly than I remember ever to have heard it be- fore. The head waiter fidgeted and gnarled his lip. There was misery in his eyes. At last he disappeared in the direction of the musicians, and a moment later the intermezzo began to gallop along, presto, prestissimo, and at the end of it the orchestra struck up a new step. The head waiter came back relieved.

"We can't have slow music here, madam," he said to me when I asked him about it. "We'd never get through, and I want to get off early. People eat too slow when they play slow music."

And when I looked around I saw that knives, forks and spoons were moving to the tempo of the waltz. Every body was hurrying. The head waiter knew what he was about.—Washington Post.

The Record Controversy.

Father O'Leary, a well known Roman Catholic priest and wit, was on very friendly terms with his neighbor, the Church of England vicar. They met on the road every day, when the vicar saluted ecclesiastically, "Oh, Father O'Leary, have you heard the awful news?"

"No," says the priest, "what is it, all?"

"Something awful," says the vicar. "The bottom has fallen out of purgatory, and all the Catholics have tumbled into hell!"

"Oh, dear, oh, dear," says Father O'Leary, "what a crushing the poor Protestants must have got!"—London Chronicle.

An Explanation.

Little Dea Mauney, I was playing with your best ball set while you were away, and when you bring it out for company you'll be shocked, "cane you'll think one of the cups has a hair in it. But it isn't a hair."

Mamma—What is it?

Little Dea—"It's only a crack.—Pick Me Up."

A Heedless.

Quorum—Do you think trained nurses should be pretty?

Hillebrand—Not if they are expected to follow their calling permanently.—Philadelphia Call American.

And Ministerial Two.

The Minister—Well, how did your battle with the quiplets come out?

The Newly Made Headset—It was a tie.—Syracuse Herald.

If any in this vicinity intend sailing "Cape Horn" presents to friends in Phila- delphia, they should start them out at once so they may reach San Francisco in time for the sailing of the mail steam- ship Nov. 13th, next Friday. This mail will require twenty nine days to reach Hong Kong and two days more to get to Manila. After that it will take but two or three days to get the mail to the front.

CELESTIAL FIREWORKS DISPLAY.

November 14 and 15 the Earth to In- counter an Army of Meteors.

According to the calculations of the astronomers the earth is due to run into a gorgeous and dazzling display of celestial fireworks on November 14 and 15. The spectacle, which will be visible in the peninsula, will exceed in brilliancy anything of the sort that has been seen for a generation. The great meteoric phenomenon appears about every thirty-three years. There was one in 1860, another in 1882, and is fore that of similar interval.

The meteors that we are about to en- counter are called the Leonids, because

The Making of Good Coffee

Begins in the growing. Anywhere between the plantation and the coffee pot the flavor may be changed, the quality spoiled by carelessness, inexperience, or unscrupulous methods. From the time Arbuckles' Coffee leaves the hands of the grower until it reaches the user in a sealed packet, it is handled with the same watchful care, the same thought for cleanliness, that you would give any article of food that goes on your table. The house of Arbuckle is the largest and oldest coffee house in the world. Its employees have grown up caring for this great business; the business has grown great under the care of its employees. As a result of this personal care,

ARBUCKLES' Roasted Coffee

is used every day in more than a million American homes. Its reliability is recognized; its quality is appreciated; its flavor is enjoyed; its price is a revelation.

Ask the grocer for Arbuckles' Roasted Coffee, and be sure you get the genuine. All other packaged coffees are but imitations of Arbuckles'.

is each pound of Arbuckles' Roasted Coffee there is a list of arti- cles. With each package in which the list is found the purchaser has the right to the conditions that the list contains. TRANSVAAL WAR ITEMS.

WAR NOTES.

The Boers have raised the flag of the Transvaal at Vryburg on Oct. 18, and are about issuing a proclamation that mechanized men forms part of the Transvaal. This is regarded as a move on the part of the Boers to include the colonial Dutch to join the republic without incurring the risk hereafter of the change of high treason if the Boers are ultimately defeated.

Gen. Yule of the British forces made a brilliant strategic movement on the 20th and effected a junction of his forces with those of Sir George Seward. This was a move on the part of the Boers to include the colonial Dutch to join the republic without incurring the risk hereafter of the change of high treason if the Boers are ultimately defeated.
