WAGE-HOUR BILL MAY BE REVIVED

SPENDING OLD AGE BENEFITS **POT APPROVED**

COUNCIL OPPOSES CUT IN LEVIES ON PAYROLLS

Washington, May 4 (P)-Pres ent methods of handling money collected for federal old age benefits won the approval today of the social security board's advisory

In the face of criticism that use of the money to pay current expenses of government was wrong, the council said that present provisions under which the treasury sells U. S. securities to the pension reserve account in exchange for cash do not "involve any misuse of these moneys or endanger' their safety.

Tax Is 2 Percent The money obtained by the treasury from the reserve account is expended for general governmental purposes.

The council, it was announced by the social security board, is opposed to reduction in the present 2 per cent pay roll tax paid lointly by employers and employes.

The board, appointed about a year ago, numbers among its membership some leading industrial and labor leaders. These include: Edward R. Stettinius, Jr., chairman of the finance committee of U. S. Steel Corporation; Gerard Swope, president of the General Electric company; Sidney Hillman, president of the Amalgamated Clothing Works of America (C.I.O.); and John P. Frey, president of the metal trades department of the A. F. of L. The chairman of the council is J. Douglas Brown, of Princeton university.

Writes to Vandenberg The council expressed its views in a communication to Senato. Vandenberg (R-Mich.), a leading advocate of lower payroll taxes. Vandenberg recently suggested that the council make a preliminary report as a basis of congressional action before adjournment of the present session.

Vandenberg had declared that taxes could be cut if the "needless" program of building up a huge reserve account be scrapped In the place of the big reserve, he suggested creation of a contingent fund only large enough to pay benefits as they come due. This is called the pay-as-you-go

"These pay roll taxes now constitute a major load on commerce," the senator wrote Arthur Altmeyer, chairman of the social security board. Reduction, he declared, "would clearly be a great and essential relief not only to business but also to labor."

Subject "Complex" The council said it recognized there were other ways of financing the old age insurance system than those in operation, but added this subject was "so complex" that it was not ready to express final judgment "as to the method of financing which would be most desirable from a social and economic standpoint.

After explaining how the treaspry puts its securities in the reserve account and takes out cash, the council said:

'As long as the budget is not balanced, the net result is to re-

Premier Devalues French Franc For **War Chest Money**

Stabilization of the French ranc, announced last (Wedneslay) night by Premier Edouard Daladier, is expected to fix its value somewhere near the present

market level of about three cents. The exact figure is to be announced today. Financial circles were inclined to believe that it would be at about 35 francs to the dollar or 2.86 cents, slightly lower than the existing level.

United States Consulted In Washington, Secretary Mor genthau announced the United States, Great Britain and France had agreed to maintain their tripartite monetary stabilizing agreement.

The French action, he said, comes within the spirit" of that

This is the third official depreciation of the franc since the Great war. It reduces the value from the pre-war parity of 19.03 cents to about three cents.

Stabilization, in conjunction with the United States and Great Britain under the tri-partite monetary agreement of 1936, is intended to stimulate trade by restoring confidence but incidentally will give the French government a paper profit of about 25,-000,000,000 francs.

Gold Reserve Revalued This profit will come through revaluation of the French gold reserve which backs the paper cur-

The Bank of France has 55,-806,000,000 francs of gold in bars. This gold is carried at the 1936 valuation of 22.96 francs to. the dollar. If stabilization is at about 33.33 francs to the dollar the average value on world markets today-all this gold would represent about \$1,000,-000,000 francs. The difference of 25,000,000,000 would be the government's profit.

The old pre-war gold franc, valued at 19,03 cents, was devalued June 24, 1928, to 22.52 francs to the conar. That made it worth 4 United States cents.

He asserted that he ran beof Teruel today as the insurgents tween houses and up the rear porch increased the pressure of their of the house of a friend to escape

offensive in eastern Spain. Intermittent rains hampered military operations on both sides, but Generalissimo Francisco Franco's forces methodically attacked after each storm.

The fighting centered in the area south of the Pobo mountains, some 20 miles due east of Teruel, where the insurgents are hammering at defenses fronting the town of Mora de Rubielos.

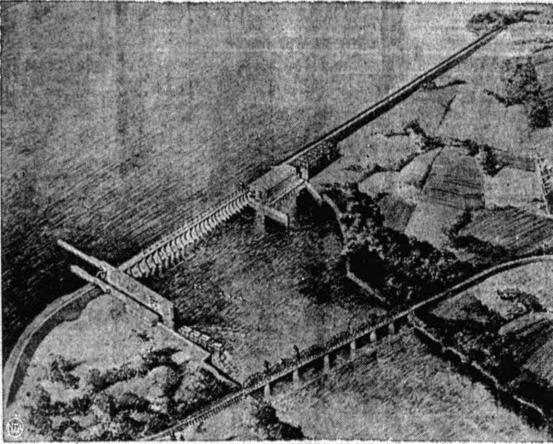

The government tried a counter attack near the village of El Pobo, putting up a fierce struggle a time but finally falling back to original positions. A combination of rainy weather

and strong government defenses has kept the insurgents from making appreciable gains southward from Alcala de Chisvert in more than a week.

Preliminary Peek at New Gilbertsville Dam

ESCANABA, MICHIGAN, THURSDAY, MAY 5, 1938

This artist's drawing shows what the great \$112,000,000 Gilbertsville dam will look like when com pleted. The dam to be built by TVA near the confluence of the Ohio and Tennessee rivers 22 miles up stream from Paducah, Ky., is designed to develop flood control, power and navigation. It will be 8600 feet long and 150 feet high at the spillway, and will be able to pass 960,000 cubic feet of water per second, more than twice the volume of flow of the biggest flood on record on the Tennessee river. In the left background of the drawing is part of the 184-mile-long lake to be backed up by the dam. In the foreground is the Illinois Central railroad bridge and at the left the lock by which boats will pass the

TOCCO'S DEATH STORY DOUBTED

Wyandotte Officers See Love Affair Clue in **Ambush Shooting**

Detroit, May 4 (P)—Belief that Joe Tocco, gang chieftain of the

that they thought the shooting was caused by a love affair rather than in a new outbreak of gangland war-

dence had been uncovered that indicated Tocco's deathbed account of his shooting was a falsehood. Before he died yesterday, the forthe bullets of the gunmen.

Detective Lieuts. Roy Pender grass and William DeLisle, of De rolt, and Detective Sergt. Fred Schwartz, of Wyandotte, said they wer convinced the killers had hidden in the alley and ambushed Tocco. The angles at which bullets and shotgun slugs found imbedded in the kitchen and rear of the house supported this contention, the officers said.

Professional gunmen, the officer said, would have stepped up to Tocco and killed him on the spo-

Lightning Blaze Kills 53 Animals

(By The Associated Press) Standish, (P)—A barn fire that was started by lightning destroyed 53 animals at the farm of Charles Tuttle near here Wednesday. Included in the livestock lost were 35 head of cattle, eight horses and 10 pigs. Machinery and grain also were destroyed, fire department officials estimating the loss at \$20,000.

DERBY TO HAVE 11TOPNOTCHERS

Sande - Trained Entrant, The Chief, Favored in Betting, 5-2

BY ORLO ROBERTSON

Louisville, Ky., May 4. (A)-Eleven three year olds, forming the smallest but the best balanced field in many years, are expected to fight cout in the 64th running of the \$50,000 Kentucky Derby at Churchil Downs Saturday.

Not since Broker's Tip surprised in 1933 has America's blue ribbon three year old race been so wide open. One need go all the way back to 1922, the year Morvich scored, to find a field of less than 12. That year only ten faced the barrier.

But what Saturday's field lacks in size, it makes up in quality. No less than seven of the probable starters figure to be 10 to 1 or less in the mutuels with another slightly more and only three rank outsiders.

The big six in order of their rating are: Maxwell Howard's combination of Stagehand and Dauber.

former Chicago alderman, Bert leaders. Friend's Co-Sport and Mountain Ridge, all that is left of what Mrs. Ethel V. Mars' Milky Way

son and secretary. Protest Vote Heavy Whatever the actual forces behind Pepper's sweep, his success

stands on the face of the record as a demonstration of Roosevelt in- committee, adding, "It is indeed a fluence. It might encourage the special privilege to have such a administration to even more ac- man come here to deliver the tive intervention in party primary memorial address and it augurs fights elsewhere; just as it might lead to greater pressure by the White House on congress to and Finnish people should take round out the administration's legislative program before it shuts down for the campaign.

On the other side of the Florida picture stands the unquestionable fact that the Wilcox candidacy gave anti-Roosevelt and anti-new deal party sentiment a chance to rally and express itself. The actual size of the Wilcox vote rather than its ratio to the vote cast for Pepper alone or Pepper and Sholtz is an important factor, in observer judgment, that indicates deep-rooted party cleavage which may grow to serious proportions by 1940.

(By The Associated Press)

Victories by administration supporters in Tuesday's primary elections brought the assertion Wednesday from Democratic Chairman James A. Farley that President Roosevelt's leadership and policies had been endorsed.

This interpretation of the outcome of primary contests in four states was disputed, however, by picture "Snow White and the Sev- ish, he had the left side of Sixto's Republicans and such conservative Democrats' as Senators Cope- to know that an upper peninsula closed land of New York and King of tional significance in the results.

BAND CONCERT **ENJOYED HERE**

Offerings of Northern State Music Groups Please Audience

The Northern State Teachers college band and glee club from Marquette presented a fine concert before an appreciative audience at the Wm. W. Oliver Memorial auditorium at the Junior high school last evening. The musicians, now on tour of the Upper Peninsula, delighted the audience with a well rounded United States". He left no doubt program and drew especially enthusiastic applause for several numbers.

Of special interest was the Clarinet solo by Tom O'Connell, an Escanaba boy. The Octett numbers "Bird Songs at Eventide" and Winter Song and the accordion solo "Dark Eyes" by Lawrence DeRidder were also well liked.

Dr. Roy A. Williams is director of the Northern band. The program:

BUDGET WILL HAVE HEARING

Tax Roll Likely To Be Decreased Slightly; Meeting Tonight

First reading of the budget for the new fiscal year beginning on July 1 will be held at the regular meeting of the city council this

The council held an informal meeting Monday at which time es of liens from dealers, for their tentative approval was given the protection. budget. If finally approved in its present form, city taxes will be decreased slightly. In its tentative state, the present budget provides for a tax roll of \$120,000, a reduction of \$3,000 from last year's

outlay of \$345,000, a reduction of about \$9,000 over last year's estimate of \$354,699. Some of the reduction is due to the smaller amount of bond retirals to be faced this year and also to the decrease in the health fund, which is being taken over to a large extent by the county health unit.

Due to the present business recession, provisions have been made in the budget to care for a larger tax roll delinquency than was provided for last year. A dif-

BILEK APPOINTED

Menominee-Matt F. Bilek postmaster and local attorney was named city attorney at last night's council meeting to succeed Kenneth O. Doyle. The vote was 12 to 2, with the two Fourth ward aldermen, Herbert Beyersdorf and Chester C. DeVoe casting the opposition votes.

Last night's meeting was staged before another packed council chamber with standing room at a premium. The session lasted from 8 o'clock until almost 9:30

Council's action did not wholly divorce Mr. Doyle from his legal connection with the city. A later resolution was adopted by which council's committee, which is negotiating with the Menominee and Marinette Light and Traction company for the purchase of its dis tributing system, was authorized to engage Mr. Doyle as special legal counsel to help carry on the projected municipal light plant.

The Escanaba Chamber Commerce has received a number of requests for fishing pictures from newspapers and magazines. Pictures taken at trout streams are particularly desirable.

Amateur photographers, have taken good pictures of night smelt dipping scenes during the recent smelt run, also are invited to submit their work to the Chamber of Commerce.

Cadillac's Fort To Be Rebuilt On Old Site At St. Ignace

St. Ignace, Mich.-Cadillac's historic Fort St. Ignace, or Fort de Buade, as it is sometimes called, is being rebuilt on the ancient hillsite west of Sco-bo-go-no-wis bluff in this city, on plans drawn from original data compiled by the Rev. Fr. John T. Holland of

Site clearing and reconstruction of the stockade and buildings will cost approximately \$12,675.00, about two-thirds of which will be in federal funds provided by the Works Progress administration. From 1679 to 1701 the fort was the foremost military post of New France in the Northwest. Its most famous commandant was Antoine de la Mothe Cadillac, afterward commander of the French post at Detroit.

Under his incumbency at St. Ignace were about 200 soldiers and the surrounding community uit mission founded by Father geny from his Blue Ox and that James Marquette, and a large colony of fur traders. It was visited were about three weeks old. I also by Hennepin, LaSalle and other well-known explorers and was frequently mentioned in the chronicles of the time. In and around the Fort Adario, chief of the Wyandotte Indians, hatched a plot which resulted in the coming of the British to the territory and radically changed the history of the Northwest.

Immediate plans call for the square, using eight-inch peeled ceed white. The interior buildings will come later. A gravel road three-quarters of a mile long will be built from highway US-31 to the fort, which will be in plain view of the federal highway, Mackinac Island, the Straits and Lake Huron. The city and the St. Ignace

Lions club are sponsoring the project, and construction is following closely the maps, sketches and descriptions collected by Fr Holland from the departments of public archives in Ottawa and Paris. The reproduction will no doubt greatly stimulate travel interest in the city, where the grave of Marquette is located.

A low estimate puts the value of Great Britain's crown jewelry at \$30,000,000.

California, Oklahoma, and Texas are the leading petroleum-producing states of the Union.

Tax Sale Closes In Delta County; 70 Parcels Sold Delta county's tax delinquent

land sale was wound up Wednesday, but County Treasurer Ralph R. Olsen said that descriptions read off yesterday afternoon would be repeated again this morning, beginning at 10 o'clock, as provided by law.

About 75 descriptions were purchased by bidders during the sale, and delinquent taxes were paid on many parcels prior to the sale by taxpayers who wished to avoid the sale listing.

Interest waned toward the close of the sale Wednesday, and only a half dozen bidders remained.

Commercial Operators Will Have Important Meeting Friday

The North Division of the Michigan Commercial Fishermen's Protective association will hold its annual election of officers at a meeting called for Friday evening at eight o'clock. The meeting will be held in the club area which will be taken up at rooms of the Eagles hall on South ninth street as usual.

In addition to the selection of the slate of officers who will meeting, present officers are urghead the association in this sec- ing all fishermen in the industry building of a stockade 150 feet tion for the coming year, Presi- to make a special effort to be dent Ralph Christensen has an present and have a voice in the dar poles 20 feet long and paint- nounced that there will be a proceedings. PLAN BANQUET FOR SENATOR

Prentiss Brown Will Be Honor Guest at Dinner May 12

BY PAUL MAY

Washington, D. C .- The Michigan Washington Democratic club is planning a testimonial banquet on May 12 at the Shoreham hotel here in honor of Senator Prentiss M. Brown, Democrat of Michigan, it was learned here today.

The club meets Thursday of this week to discuss final plans for the banquet.

Invitations to the dinner have already been accepted by a number of state and national government leaders. The Michigan congres sional delegation is to attend the session this week to aid in prepara tions for the affair.

James A. Brown, banquet chair man, is to give a report of the work of the arrangements commit tee. Club officials announced ves terday tickets for the event may be purchased from club members or Michigan representatives.

Air Mail Service

THE postoffice department has received two bids for the carrying of air mail between Detroit and Sault Ste. Marie, and it is likely that a contract will be awarded in the near future to R. Stuart Weeks of Port Huron, the low bidder.

During air mail week, six aviators will participate in demonstration flights in the Upper Peninsula. The tendency of these flights is to emphasize an east-west air route, which would run between Detroit, the Upper Peninsula and Duluth.

While the east-west route could be utilized to advantage by the Escanaba area, the need for air mail connections with Chicago is more apparent. Such a route would-make possible the more rapid and the distant points in the United States. If there are new routes to be established, serious consideration should be given to the possibilities for direct connections with Chicago, which is the air mail center of the United States.

Dunckel Urged to Run

SENATOR MILLER DUNCKEL of Three Rivers, who is well known in the Upper Peninsula as a result of his many visits here in the interests of the Republican party, is being urged by his many friends to seek the party's nomination for the office of secretary of state.

A man is best known in his home town and the manner in which he is regarded by his neighbors is always good evidence of the type of person he is. In this connection, the Three Rivers Commercial has the following complimentary editorial comments to make concerning Mr. Dun-

"Speaking from the standpoint of ability as a candidate, which naturally is one of the first considerations from the view point of party interests, Senator Dunckel fills the qualifications. In this there is nothing detrimental to his ability as a citizen or as a public official.

"Gifted with a remarkable personality, suave, poised, an excellent public speaker and perfectly at east before the public, combined with the unusual faculty for remembering names and faces makes the Senator an unusual force in the political

"Aside from this which deals with his ability and position as a candidate is his record as a member of the State Senate for two terms. He is not a candidate for nonncement of candidacy four years ago ternate between the two counties. In newspaper it disagreed with. keeping with that pledge he is not a candidate for reelection to the Senate.

The Annual Worry

CUMMER is here.

The village of Great Neck, N. Y., has passed an ordinance forbidding persons over 15 to go shopping in their swimming suits.

Summer certainly came early this year. In a way, it's nice, and what's referred to by that is not in this instance the weather but the business of getting the oratory ly repeated story that Japan is building a about bathers over with early in the season. It's so much easier to bear all the this narrow isthmus of Siam as a chalsound and fury when the weather is com- lenge to England's great naval station at paratively cool.

country follows the lead of Great Neck in though the project is spoken of today as rushing the season just as quickly as it if it were a new enterprise. can. Do it now. Get it all decided about whether the male may or may not bare his a Japanese-built Kra Canal has come up chest, whether the female may or may not for discussion in most of the parliaments expose a strip of her person around the of the world, and has caused deep appremiddle, and just how far from the beach hension to the armies and navies of the either may stray without changing into Big Powers. On each occasion the report street wear.

There are so many other things to worry about these days.

More Tax Conscious

THE time is here when all citizens in I this nation should ask themselves. "Shall we eat or shall we pay taxes?"

The Chamber of Commerce of the United States has shown that the annual tax "take" is in excess of the nation's food bill.

Those who, pay taxes, whether they pay on property or by the more vicious hidden method, should begin to realize that taxes can reach such a point that they are confiscatory on the individual as well as on the employer of thousands.

And people are becoming tax conscious. Business leaders have for many months realized that taxes were crippling dispatching of air mail between this area their business and making it almost impossible for them to keep going.

Employees are learning that taxes paid by business and industry build up c barrier to higher wages and steady jobs. They are coming to learn that because of regulatory and confiscatory taxes on business their own future is in peril.

Consumers are finding out that huge taxes are accountable for the high had been proclaimed a military zone, forprices. They are getting stirred up and a bidden to natives and foreigners alike. On revolt may be expected at any time.

Certainly if taxes keep mounting (and any new spending program cannot but boost taxes, because under present conditions the U. S. deficit is nearly 40 billions graphing. of dollars and every day growing greater) it will be impossible for individuals to eat. There will not be enough money have never heard of such a thing," they for food after taxes are paid. But remember this, the politicians will eat and eat well even if you can't afford to.

As taxes increase business finds it impossible to keep going and gives up the fight. But that throws people out of work and makes still greater taxes neces-

If you want to eat in the future, you had better indicate to your congressman at once that you demand a retrenchment in spending.

KRA, Siam (P)-One of the greatest myths in modern history is the persistentgreat new strategic maritime canal across Singapore. Actually, the story of such a It's to be hoped that the rest of the canal is nearly a hundred years old, al-

> Within the last ten years this bogey of has drawn vigorous denials from the Siamese government.

-NO SHRED OF EVIDENCE-

To establish the facts in the case, I made an exhaustive survey of the entire Kra district, which extends roughly from the little town of Chumpohn, situated on an estuary of the Gulf of Siam; on the east, for a distance of forty miles, to the jungle town of Kraburi, on an estuary of the Bay of Bengal, on the western shores of Siam.

My five days' journey by elephant, oxcart, motor-car, and afoot took me through jungle districts infested by wild elephants, tigers, monkeys, crocodiles and cobras. Nowhere in the so-called "canal area" did I see a blade of grass disturbed, a single stone turned, or a solitary shovel of earth removed, to indicate that any such project as a canal was being undertaken. Nor was there the slightest evidence of Japanese engineers supervising the construction of the canal, as had been reported abroad recently.

There were no Siamese sentries on guard and no trace of a single workman excavating. Neither was there the slightest indication that the Kra district the contrary, traffic of all kinds moved with the fullest freedom. No passports were asked from foreigners, nor was there the slightest restriction against photo-

The natives looked astonished when the subject of a canal was broached. "We all declared.

-JUST A ROADWAY-

I found that the government was just completing the construction of a new 40mile metalled highway from . Chumphon to Kraburi. This necessitated extensive excavations and blasting operations through the range of high rocky hills covering almost the entire Kra Isthms. These activities, which involved the employment of 400 native workmen, may have firm in the United States? E. J. been misconstrued by careless observers M. as evidence that Japan was building a strategic canal for the Siamese govern ment.

I was informed by the Siamese government that it will extend the newly completed motor highway across the Kra manufactures leather products. Men are unwilling to accept omen as their equals and to acknowledge their merits. -Miss Maude Bennot, director of

ton, to confer with Senator Bob. When they are apart, the two men are in daily touch by telephone, but they like best to put their heads together in one room. The discussion was long; many factors entered into it. The President's waning leadership, the tie-up of his legislative program in the special session, the suc-

cessful opposition of the Democratic conservatives to the New Deal-all these were touched upon. Touched upon also was the new depression, which was recognized as real by both Senator Bob and Governor

At length, the two men made up their minds. They would make no announcement; that could wait. But they would make all necessary preparations, and spy out the lie of the land. Immediately thereafter, Governor Phil began a series of small, informal meetings, at which he carefully tested sentiment for a real Third Party among Progressive leaders. Meanwhile, both men and their inner circle of friends and advisers were busy with such chores as designing their curious cross and circle party emblem and looking up the state laws affecting their venture. This spring they were ready. The announcement was made.

BOB AND PHIL Politically, the La Follettes are a wellbalanced pair. Phil is all public presence and platform manner. He has his father's dash and fire, the faculty of arousing a crowd, the ability to hold attention. There is something stage-managed about his entrances and exits, as there always is in the goings and comings of a born leader

of crowds. Bob stems from his mother, who was always old Bob's closest and best adviser. He can orate. Rather stiffly, if he has to, but he prefers to stick to an intelligent exposition of the facts. He is shrewd, rather secretive, immensely practical, with a stern public manner which belies his fondness for private good-fe.lowship. His mind is harder, probably better than Phil's. Phil would scarcely bother, for example, to become an expert of taxation, as Bob has. Above all, Bob La Follette

has a passion for getting things done. and Mrs. Louis Hansen, formerly champagne—and one shudders to The Combined political judgment of Bob and Phil should be excellent, for, ing Press leaves tonight for Fort like without the bubbling amber while Phil supplies the intuitive flair, Bob brings to the team the factual knowledge and touch appraising eye. "Break-Ups"... Save Thousands

of Dollars for Taxpayers

TT'S tough on everyone when spring thaws break up

your streets. Business suffers when streets are closed

for repairs. Motorists don't like the muddy chuck-

holes and ruts. And taxpayers pay the repair bills.

The answer is to pave with concrete-safe,

smooth-riding and trouble-free the year around.

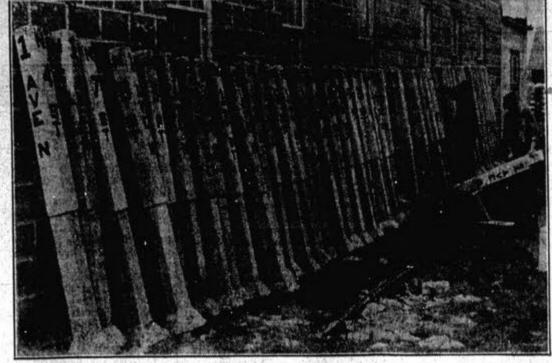

Skid-resistant, wet or dry. Permanently free from

Remember, too, concrete costs less to build as well

as to maintain than other pavements of equal load-

carrying capacity. Be sure your streets are paved

Over 400 reinforced concrete street marker posts, such as those shown above, have been completed under a WPA project and will be set up at Escana ba street intersections soon. Henry Zeegers and C. Feller are shown at work on the posts, removing rough cement from the numbers preparatory to painting. About 640 posts will be made and erected under the project.

Thus we have a prospect of more state and local taxes for Greater expenditures inevitably necessitate a greater tax Someone has to pay the piper, and it's usually the man

Will the state set an example by reducing payrolls and otherwise cutting its spending? The 1938 situation in Michigan has interesting contradictory possibili-

Annual Wage Blasted

As we pointed out in this column a month ago, the annual cemetery. wage proposal appears to be an economic mirage to Michigan automobile workers.

It's all right for the Hormel meat packing company in Minnesota because regardless of prosperity or depression we still have to eat. But the experience of the last depression taught us that people don't have to buy new automobiles. When times are hard they delay the purchase of new furniture, new automobiles, and

At the White House the other day, Henry Ford blasted rumors that he was planning to inaugurate an annual wage for workers in his River Rouge industrial empire. He informed Roosevelt, so to these concerns be stamped Detroit reporters were informed, that the law of supply-and-demand still prevails. For that reason he said it was "silly" to Interesting news! See Classified talk about fixed production, fixed wages, and other arbitrary floors and ceilings in the automobile in-

But don't be surprised if you hear of a "monthly wage". It is being studied as a feasible step, if only a modest one, towards the desired goal of increas-

ing the worker's security. Profit Sharing Of interest to Michigan citizens, because industrial payrolls here have simped 41 per cent within 12 months—the greatest decline in any state in the nation—is the effort by Senator Vandenberg at Washington to get a modest \$30,000 appropriation for a federal survey of profit sharing sys-

tems for factory workers. Gar Wood, famous sportsman, introducing the idea to his. Michigan plants. Twenty per cent of declared dividends will be set aside for profit sharing among his employees. Wages are not be-

Furthermore, Wood is cutting his own salary 50 per cent. Gar Wood is making his co-

workers "dividend conscious." And that means just this-they are going to read corporation statements with new interest. Payroll taxes, profit taxes, and other charges against the business mean less profits for the worker. The idea is revolutionary.

\$100 Month WPA Pay Left-wing leaders in the Michigan C. I. O. ranks are making plenty of trouble for John Lewis.

Here are some recent develop-PROSPECTS FOR Lack of responsibility as evidenced by Flint dues picketing in FLYING GOOD violation to signed agreements. Strike vote by Chevrolet and Buick employees at Flint at a

the WOMEN

BY RUTH MILLETT

Women ought to think a while before they left financial burdens from men. Because as a general thing men like to do the providing.

Depression-recession-or prosperity, the feeling doesn't change. And it is just as strong in the young man who refuses to go 'Dutch treat" for an evening with the girl of his choice as it is in the husband who would gladly forego an inflated style of living to have his wife take all her orders from him.

It isn't a logical feeling in an age when girls are being almost as well-trained for work as men and when two pay envelopes are often necessary to keep a

But still it is there, and women are foolish to ignore it. If working is a necessity-well and good. Well and good, too, for the woman who is working because she would be lost without her job.

But if a woman is getting up every morning and going to an financial burden, she might do first protests. Chiefly because the protests are likely to stop soon,

Instead of laughing when he says that he wants to take care of her she might do well to enhim an excuse for being. Just as street. a woman needs to feel that a man would be lost without her subtle

And if it is a matter of pride with him, that, too, is important.

von't suggest anything else. Even when put to a vote by a

number of the younger generation, with both sexes having their say, the answer was "No" to Dutch treats. Young people reaching the dating age today think the young men should do the paying, despite the fact that many etiquette authorities champion "fifty-fifty" evenings.

Hiawatha Forest Streams Planted With Many Trout

The Forest Service planted 160,000 trout yesterday in various streams of the Hiawatha national forest, it was announced by George Frisbie, fish and game specialist. The fish were secured from the LaCrosse, Wis., hatchery of the U. S. Bureau of Fisheries.

Frisbie reported that 55,000 brook trout were planted in the Minors, Rock, Little, Stutts and Kilpecker creeks; 3500 rainbow and brown trout in the Ogontz. Indian, Fishdam and other

WAKE UP YOUR

the Merning Rarin' te Ge

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. 25c. Stubbornly refuse anything cise.

REPAIRING TO

Nature's Own Prescription

For a Fuller Life of Health and Happiness At a Price Within the Reach of All

All organic life on this earth consists of 35 different elements, salts and minerals. As the laws of nature decree that all body mineral requirements enter our system by way of the plants and derivatives which we eat, it behooves us one and all to eat foods which is rich in the salts and minerals we must have in order to live and enjoy health and happiness. It can readily be seen therefore that all life on earth—good, bad and indifferent—depends on the elements, salts and minerals contained in our soil. When our soil has the necessary elements, salts and minerals our plant life thrives and we thrive with it in the only safe, sane natural and most economical manner possible.

A liberal supply of Soil Manna will restore the mineral balance of your mineral hungry and otherwise much mistreated soil. The plants grown thereon will restore the mineral balance for a longer, healthler and happier human life.

Nothing Mysterious-Just plain every day com mor sense will let you dig more health and happiness out of your Soll Manna treated garden than you can possibly buy in all of your drug stores combined.

HOMECOMING IS PROPOSED HERE

Completion of Improvements Seen as Urge for Celebration

A movement to stage a three day homecoming celebration in Manistique this year, following the completion of the city's WPA Rudyard and Eino Malaski of the civic improvement program, was launched at the regular meeting of the Manistique Lions club on Tuesday evening at the Odd Fellows hall, when the club unani-

mously endorsed the proposal. It is proposed to make the event city-wide undertaking in which all civic, fraternal and other bodies or groups of citizens in the community can participate.

To crystalize sentiment for the project, it is planned to invite River road, is greatly improved. groups of citizens to attend a meeting to be called some day next week, at which time the proposel will be discussed. If sufficient interest is shown, an organization to promote the homecoming celebration will probably b established at that time.

Extensive Improvement The completion of Manistique's WPA program, comprising the construction of new pavement, storm sewers and water services and the installation of new boulevard lighting system in the city's business thoroughfares should be the occasion for joyous celebration, and an opportune time to invite former residents back to the community, it was pointed out by proponents of the project It was also suggested that the

dedication of the new state police

post here could be included in the homecoming activities. Within recent years the city council and the board of education have made extensive improvements within the community, including new school buildings, new athletic stadium, fine it has been announced. tourist trailer park, new boulevard lighting equipment and new other improvements. Hundreds of former Manistique residents have never seen these improvements, and it is believed these former residents would take the occasion of a homecoming celebration as fine opportunity to return to Manistique for a visit with old

riends. Because of the necessity of making a homecoming celebration a city-wide event, with every citizen participating actively in order to make it a success, the lions club, which launched the ed it would act as a spearhead to which the federal government will Wahletrom gram, but that the promotion of the celebration, if undertaken, must be by a separate organization representing all the varied interests of the community.

College Musicians

The Northern State Teachers' college band and glee club presented a short concert at the Manistique high school auditorium yesterday morning for students of the high school. The band, now on a tour of the peninsula, was very well received

Members of the band not only presented instrumental numbers, but also sang several selections.

CARD OF THANKS

We wish to take this means of expressing our thanks and appreciation to all those who assisted us during the illness and death of our husband and father, Frank Sandberg. We wish especially to thank all those who sent flowers, donated the use of their cars or who in any other way aided us. For these acts of kindness shall ever be grateful.

ROAD PROJECT

WPA Proposal to Offer Work to 66 Men for **Eight Months**

The WPA project proposal, prepared by the Schoolcraft county road commission and approved by district and state WPA authorities, will provide work for 66 WPA employes for a period of eight months, when final approv-al is authorized from Washington,

The proposal calls for the grading, drainage and gravel surfacconcrete pavement, as well as ing of six miles of county road in various parts of the county. The project specifically calls for improvement of the following roads: Seul Choix road, Mueller township, from State Highway M-99 at

> Henry Miller road, Hiawatha township, 3,900 feet. Shepherd road, Germfask township, east from M-77, 7,400 feet.

Bulldog Creek, 13,500 feet.

Faketty road, Manistique township, 3,900 feet. Flodin road. Thompson town-

ship, 3,000 feet.
The total cost of the project novement Tuesday night, indicat- has been estimated at \$37,841, of contribute \$28,761, or 74 per cent, and the county road commission will contribute \$9,080, or 26 per cent. It is probable this project will later be supplemented with additional projects.

A preliminary survey is being made now for the purpose of sub mitting a WPA project to relocate Give Program Here and construct a road from Thompson to Barque Point, folowing the lake shore.

The project provides for 32, 550 yards of excavation, 12,000 yards of gravel surfacing, 300 feet of culvert and six miles of roadside cleanup.

About \$30,000 of federal funds still remain on the first WPA project sponsored by the road commission. This project, started in 1935, provided for a total expenditure of \$206,500, of which \$174,800 was federal money and \$31,635 was the sponsor's share. There were 34 separate road improvements in all townships of the county included in that project, covering a total of 40.1

Employment during that period varied from 40 to 150 men, the road projects acting as a satisfactory balance wheel for the other WPA projects in the county When employment became slack on other WPA projects, the WPA men were transferred to the road project.

CHICAGO POTATOES

Chicago, May 4 (P)—Potatoes 121, on track 310, total U. S. shipments 719: New stock slightly weaker, supplies liberal, demand alow; bliss triumphs, U. S. No. 1, per cwt. Louisiana, 1.40 to 1.80, mostly 1.50 to 1.65; U. S. No. 1, size B, washed, 1.25 to 1.30; Alabama, 1.55; showing decay, 1.30; U. S. No. 1, size B, spotted sacks, .80 to .85; Texas 50 lb. sacks, washed, 2.00 cwt. less than carlots, 50 lb. sacks, California White Rose, U. S. No. 1, washed, 2.30 cwt. Old stock, Idaho russets dull, demand light, limited to best stock, other stock about steady, demand light, supplies moderate; sacked per cwt. Idaho russet Burbanks, U. S. No. 1, 1.30 to 1.40; North Dakota early Ohios, 90 percent U. S. No. 1, 1.32½; Wisconsin round whites, U. S. No. 1, 1.25; Minnesota cobblers, 90 percent U. S. No. 1, 1.15; Minnesota cobblers, 90 percent U. S. No. 1, 1.15. CHICAGO POTATOES

CHICAGO GRAIN Chicago, May 4 (P) Influenced by likeli-hood of a spread of rust damage northward from Texas, Chicago wheat prices late to-day more than overcame earlier losses of

day more than overcame earner

lig cents.

Rank growth was reported in Kansas and Nebraska, making cross very susceptible to rust. Advices told of excessive rainfall at various points in Texas and Kansas, three to 5 inches, and anxiety was expressed should high temperatures ensue.

Another late stimulus was 16,000,000 bushels increase of world import estimated requirements, owing partly to British government purchasing. The Dutch government was also reported as preparing for

ward today as Wall Street smacked its lips over the besttasting financial news of recent weeks.

Served up on the overnight platter, and digested during tradlegislation to facilitate govrenspeeded.

speeded.

Giving strength to bonds generally was United States Steel's plan to offer \$100,000,000 of bonds next month. A possible clue to how such an offering might be received, if the new investment market holds up, was seen in the underwriters' announcement General Foods corporation's 150,000 shares of \$4.50 preferred stock, publicly offered today, had been quickly sold, and that the shares, offered at 101, had immediately from the first day of insertion cash rates will be carried. Charged ads will be received by telephone and if paid at the Daily Press will not be responsible for more than one incorrect insertion.

All ads are restricted to their proper classification and to the regular Daily Press style of type. The publishers reserve the right to edit or reject any classified advertising copy.

Advertising ordered for irregular insertions takes the one time rate. No ad is taken for less than a basis of three lines. Accounts unpaid after 20 days will not be granted further credit.

Charged ads will be received by telephone and if paid at the Daily Press office within six days from the first day of insertion cash rates will be allowed.

Ads ordered for three or six times and stopped before expiration will be charged for only the number of times the ad appeared to only 1 or a bit more, advances were widespread throughout the

to only 1 or a bit more, advances were widespread throughout the entire domestic list,

A sharp break in the French franc failed to upset French dollar bonds. French 71/2s, stamped, sold on 15 days' delivery unchanged at 100 1/4, and the unstamped bonds unchanged at 93. French 7s were untraded.

U. S. governments were buoyant, with gains in treasury notes ranging up to 7-32 of a point. The Associated Press average of 10 industrial bonds rose .6 of

age up .3. The foreign bond average dipped .1.

\$4,238,100 Tuesday.

At the close, Chicago wheat futures were around the day's top level, unchanged to 8-8 higher compared with yesterday's finish, May 80 5-8 to 80 3-4, July 78 3-4 to 78 7-8, corn 1-8 to ½ advanced, May 57 1-8, July 58 5-8 to 58 3-4, oats unchanged to 3-8 up, rye showing ½ cent bulge, and pro-visions varying from 7 cents setback to a gain of 2 cents.

cago to Bultais, together with late strength of securities. At the outset, however, the market here was shaken by emphatic refusal of Liverpool to reflect yesterday's two-cent advance this side of the Atlantic. Liverpool quotations, due 7-8 of a cent to 2 cents higher, closed today exactly unchanged after showing at one stage ½ cent net loss.

New York, May 4 (A)—The do-mestic bond market stepped for-

Transactions totalled \$4,921.

Helping to rally prices were vessel char-ters for 480,000 bushels of wheat from Chi-cago to Buffalo, together with late strength

ness owing to big export purchases, 1,250,000 bushels. Sharp falling-off in country
offerings was reported, notwithstanding
today's receipts here were large, 478 cars.
Oats and rye chiefly followed corn.
Provisions averaged lower, sympathizing
with cottonseed oil.

LOWLY PHILS WALLOP CUBS

Larry French Knocked Out of Box; Score Is 6 and 4

Chicago, May 4 (P)—The Phil-lies whipped the Cubs, 6 to 4, today when the Chicago team handed the lowly Philadelphians the two runs which gave them their margin of victory.

After knocking Larry French out of the box in the sixth, the Phills scored their fifth run in the seventh when Clay Bryant walked Chuck Klein and the latter scored on a stolen base and two errors. The Phils counted their sixth run when Bryant walked three men in old . . . but he still is far better a row in the eighth and then uncorked a wild pitch.

The Cubs knocked Claude Passeau out in the eighth, but Al Smith came in to put a halt to the uprising with the bases filled. 1 to 0 Decision for Senators

Washington, May 4 (A)-Rookie Dutch Leonard pitched the Senators to a one-to-nothing victory over the league leading Cleveland Indians today in thirteen innings.

Fluttering his knuckle ball with deadly effectiveness he allowed New York, May 4 (P)—For the only six hits, struck out five, and did not pass a batter. The Senatoday stretched a winning streak tors filled the bases in the thirto three straight by nosing out the teenth off young Bill Zuber who St. Louis Browns 3 to 2 on Bill went to the mound in the eleven Dickey's eight-inning homer with after Bob Feller had been lifted for a pinch hitter. Rookie Taft Joe DiMaggio on base.

That wallop broke up a pitch- Wright was sent in to hit for Rick.

Wright was sent in to hit for Rick. ers' duel between Rookie Joe Ferrell. He came through with a Beggs and Oral Hildebrand, giving the youngster his first major Zeke Bonura slid home after the league victory on a seven-hit catch. Zuber had retired one pitching performance. Hildebrand, Senator in the fatal thirteenth who also went the route, gave up and apparently had another when eight hits.

Vessels using this route of Federal soldiers who took away save 22 miles between Marquette their tools and drove them away and Duluth.

at the point of bayonets. ently changed its attitude, for in two steam vessels on Lake Super-1852, Congress granted to the ior. In the first year of the locks state of Michigan 750,000 acres of operation a total of 14,503 tons land to aid in the construction of cargo passed through them. a canal around the rapids of St. Compare this with the peak year Mary's River. This was accepted of 1929 when a total of 92 1/2 milin the following February and on lion tons of cargo passed from April 19, 1855, C. T. Harvey open- Lake Superior to the lower lakes. ed the sluice gate to the outer cofferdam on the Lake Superior level and let its waters flow into the finished canal,

The completion of this project was the signal for a rapid increase in steamboat shipping on Lake Superior. In fact, there can be little question that the construction of the St. Mary's Ship Canal and the locks was the most important single event in the development of steam boat transportation on Lake Superior. Steel Vessels

Closely following the development of iron steamers came the introduction of steel vessels, the type which universally prevails to-

day. There was steady progress Sec'y of the Lake Carriers Ass'n from that time until the present A. L. Sawyer in his "History of in the improvement of steamboat the Northern Peninsula of Michi- construction. There is a wide gan" states that in the summer of difference between the first 1849, there were but few boats of steamboat on Lake Superior and the 600-foot freighters which are In 1807, however, Robert Ful- now recognized as the standard ton's steamer the "North River," type for the bulk trade. These modern vessels have a capacity

As industry grew throughout steamboats gradually moved west- the interior of Michigan, new types of steamships were develop-No doubt steamships would ed to suit the various needs of have been attracted into the wa- new products and new raw materters of Lake Superior in a short lals. Oil tankers are now an imtime had it not been for the rap- portant part of the traffic on all ids at Sault Ste. Marie. It had the Great Lakes. Several combeen possible to move some small- panies have purchased older type bulk freighters and fitted them boat could hardly accomplish the with elevators thus permitting automobiles to be carried both in

Most of you are familiar with Rapids, the only other alternative the railroad company type of was to go around them. A rough steamship. The main decks are framework was devised which fitted with standard gauge rails would support a steam vessel. In and railroad cars are run directly the "Independence" was from shore tracks onto the vessels in this framework and and fastened securely. Most of moved over rollers around the these boats operate the year rapids into Lake Superior. In the around. They are staunchly built next year another steamer, the and powered by engines of about Palmer," was carried 50 per cent greater horsepower around the rapids in the same than ordinary vessels of the same

Passenger steamers are also The need for some means of frequently seen on the waters of floating freight vessels around the the Great Lakes. This trade, rapids was becoming more urgent however, has been subject to wide although it was nothing new. In variations with the result that defact, Mr. Sawyer writes that the velopments along this line have first lock was built in 1797 while not been so important nor so
