And my ings by American artists recently pre- mother was shocked. sented to the National gallery by Wiland is now, after a year's controversy in the courts, placed on view in the tended. The next promised art gift to the nation is the Freer collection, which will remain in the possession of the donor, Samuel Freer, and be en-

joyed by the people of his native city, Detroit, during the collector's life.

The President's Vacation. President Roosevelt will leave Washington unusually early this year and will take the longest vacation at Oyster Bay he has ever had there. His programme is to leave Washington June 12 and reach Oyster Bay that day. He will remain at Oyster Bay until near the last of September, when he will go unveiling of the monument to the late President McKinley. This will be on the 30th of September, and the president will return directly to Washington, getting here on Oct. 1. He will then begin work upon his annual mes-

sage to congress. Pure Milk For Infants.

A movement is on foot to establish a out the city, at which certified and to the Journal. otherwise pure and safe milk can be purchased for infants. At the last concommission of the District the question of furnishing pure and safe milk for infants of the poor was discussed at much length, and a municipal dairy was recommended by Dr. H. W. Wiley, chief chemist of the department of ag-

riculture. Although such a dairy is looked upon as meritorious, it is not considered being necessary. These distribution stations, to be conducted upon the same the summer, can be put into operation this summer, it is believed, and will answer the purpose of the municipal dairy in many respects.

The Cost of the Parks.

of the walks and the fountains, the seats and the watchmen, as everybody knows, cannot be had for nothing, and so that part of the city's outlay seems to be rather costly. However, such a notion is not based on the facts, for the cost of keeping up the parks during the coming year, as shown by the appropriations, will amount to a little more than \$70,000.

CARL SCHOFIELD.

HIGH GRADE TEAS.

Some That Never Get Beyond the Boundaries of China.

"Many of the highest grade Chinese teas never leave the country-that is. are never exported in commercial quantities," says a writer. "Tea specialists in Europe and America manage to obtain specimens through corresponding firms in Chinese export centers, but these samples are not for sale. These rare teas are preserved for occasional comparison and testing with the general commercial teas. They are known as 'unexported teas.' I have known of only one person outside of the tea protrade of the general public with speci-

range from \$75 to \$100 a pound. "As not even an expert can safely judge such tea by its appearance alone. it is necessary to taste it in the cup before purchasing. The vender can hardtuitously, so a charge of \$1 to \$1.50 a about 200 cups from a pound of tea the profit from this tasting is almost gigantic. On rare occasions exceptionally valuable teas sold at auction in London have brought from \$225 to

\$275 a pound. "But these fancy teas-almost literally worth their weight in gold-are rarely seen by ordinary people. They are preserved in sealed glass jars in the safes of the tea specialists who own them. Such exceptional teas are worth the high valuation placed upon them."-Chicago News.

For Free Raw Materials. It seems rather odd to find a publication called the Manufacturers' Journal engaged in a crusade for free raw materials. We had supposed that it was pretty well understood among the manufacturers that protection for their finished products and the admission of imported raw materials exempt from customs duties could not go hand in to Canton to deliver the speech at the hand. Most of them presumably can recall the free raw material period of the Wilson-Gorman law. If so, they can also recall some of the industrial conditions peculiar to that low tariff regime. Memory if not common sense and common fairness should steer them away from the free raw material folly. A poll of manufacturers on this quesnumber of distributing dairies through- tion is not likely to result satisfactorily

She Had Many Suitors.

Napoleon III., when he was living in London; the Duke d'Aumale, Lord Beaconsfield and many other conspicnous figures of the nineteenth century are on record as having been among the suitors for the hand of Miss Burdett-Coutts, who afterward became baroness, and it is doubtful whether any woman ever received so large a number of matrimonial offers as the baroness. In fact, they became a positive nuisance, and in 1847 she was compelled to bring legal proceedings against a lawyer of the name of Richard Dunn, who, according to the lines as the "free ice" stations during terms of the indictment, had for eight years prosecuted her with most unwelcome attentions with a view to matrimony. Dunn was sent to prison for eighteen months, although there is no doubt that he was, while sane in other Such open places, both large and matters, perfectly crazy on the subject small, which are found throughout the of Miss Burdett-Coutts, as she was

One of the survivors of the wreck who has returned here gave the following ac-

count of the wreck: Just before the wreck the last call to luncheon had gone through the train. Rajah temple of Reading occupied the last car in the train and were the last ones to go forward to the diner. The car was filled almost entirely with Reading people when the wreck occurred. In was in this car that most of the lives were crushed out. The dining car leaped into the air and was thrown directly on top of the demolished locomotive. Nearly every person in the coach was instantly killed. Scores were scalded by steam escaping from disconnected pipes in the kitchen of the dimer. The terror and turmoit of the scene was indescribable. Many of those who escaped instant death by the first impact were crushed by the rear coaches hurled upon the wreckage. Others, pinloned in the debris, were roasted alive. The wreckage caught fire from the coars of the engine, but was extinguished in a few minutes by the passengers who escaped injury.

Miss Corn Young of the yeland was one. Just before the wreck the last call to

She was still alive, but frightruily injured.

She was still allve, but frightfully injured. Her entire body had been showered with boiling water.

Sander Deabald of Cleveland and other men worked heroically but unavailingly to save the lives of two other women pinioned beneath the diner. The flames had broken out amid the wreckage and were burning all about the prostrate forms of women.

Burrowing his way down into the smoldering, splintered wreck, Deabald, with a hose which he had wrenched from a coach connection, spouted water from an adjacent tank and extinguished the flames. Then he reached down and, after cutting away the broken timbers that held her fast, took Mrs. William W. Essick of Reading from the rins. She was begging piteously for relief when Deabald reached her. As he lifted her from the wreckage a stream of boiling water poured over the woman, searing her body terribly. Women passengers sought to remove her upper garments, but fainted when the flesh came off with the clothing. She expired a few minutes after being carried out on the sand.

Henry J. Fisher of Cleveland went under protest with his wife and Mrs. John W. Cutler to the baggage car to rearrange their baggage. The women were killed and he escaped almost unhurt from the wreck.

SAN FRANCISCO, Cal., May 13.—

Pacific Coast line flyer had succeeded in covering more than sixty miles of fear-Three trains bearing Shriners arrived somely crooked track in less than 100 yesterday from the scene of the wreck. An excursion train containing twentyfive Shriners which has been but a few miles behind the wrecked train, arrived last night. The train was switched around the wreck, and the passengers agree in the statement that it was the

most deplorable sight that they ever witnessed Dr. Ware of Cincinnati, who was the first physician to reach the scene, told a graphic story of the terrible scenes that he witnessed. The most pathetic incident was the death of a bride and groom at almost the same instant, each believing that the other still lived L. N. Ellenbogen and his bride were

members of the excursion party and were thrown from the coach on opposite sides of the track as it reeled over on the ground. Both were mortally in-jured, but retained consciousness and exhibited remarkable bravery. The wife's first thought was for her husband, and the husband's first thought was for

"Tell my wife that I am all right," murmured Ellenbogen to the physician. "Give her my love and let me know how

Mrs. Ellenbogen in return sent a message of love to her husband, with the surance that she was all right. Before the physician could carry another message both had passed away.

BEHAVE OR FIGHT--DIAZ TO GUATEMALA.

The President of Mexico Only Awaits Overt Act or Insult to Strike Blow.

NEW YORK, May 13.-In the course of a lengthy interview in the City of Federation of Central American States were counted the number totaled up to Mexico, published in the Herald here thirty-nine more than was reported killed today, President Diaz gave a statement in the confusion Saturday night. Of the injured, seventeen are in hospitals at

tral American republics.

"Mexico," he said, "has throughout all this trouble with Guatemala, which came so near forcing us into war, maintained the attitude of a friendly power. That attitude is a fill maintained. er. That attitude is still maintained. We do not want to shed blood to show

MRS. TERRELL TELLS ABOUT KID-NAPING AT KENOSHA.

Husband, in Divorce Action, Tells of Rise from Gardener to Manager of Simmons Plant.

CHICAGO, III., May 15 .- [Special.]-"I would rather be knocked down and beaten by a man who loves me than not be loved at all.'

This is the statement which was credited to Mrs. Ethel Harkness Terrell, who is suing for a divorce from her husband, Alfred K. Terrell, by Mrs. Lillian Dougherty. The latter lived in the Terrell home as a companion of Mrs. Terrell and testified in Judge Dupuy's court, in the trial of the divorce suit.

"Were Mr. and Mrs. Terrell affection—

ate and loving in their attitude toward each other?" inquired Attorney Hiram I. Keck, who represents the husband.
"They were not as affectionate and loving as I think I would be if I had been married only six years," was the

reply of the witness.

Mrs. Terrell told how she had kidnaped her children from Kenosha, April

"I felt I could not live without them," she said, "so I decided to go to Kenosha and get them at any cost. I bought a bundle of muslin and a box of pepper bundle of muslin and a box of pepper down town. I intended to use the pepper as a weapon in case I met resistance. When I reached the house the nurse met me at the door and let me in without recognizing me. I told her I had come to take my children away, and that if she attempted to interfere I would harm her. I tied her hands and feet with the muslin dressed the children and came to

muslin, dressed the children, and came to Chicago on the electric cars." When Mr. Terrell was placed on the stand he told the story of his rise from a gardener's assistant at \$4 a week to a gardener's assistant at \$4 a week to general manager of the Simmons Manu-facturing company of Kenosha, at \$4500 a year. He said he was carying \$12,500 life insurance in favor of his wife and children, and declared he was indebted to his firm. He denied that he has a

large amount of money invested.
His married life, he said, had been wife protested against his sending money to his mother in England.

"She told me that if I sent any more money home she would kill herself and the children," he testified.

Directors Declare Disbursement of \$9 a Share Compared With \$15 Last Quarter.

NEW YORK, May 15.—The directors of the Standard Oil company today declared a quarterly dividend of \$9 a share. This compares with a dividend of \$15 declared three months ago.

Hector Lucis Paredes Charges President of Venezuela With Murdering His Brother, a Revolutionist.

NEW YORK, May 14.—Hector Lucis Paredes, brother of Gen. Antonio Paredes, who was killed on February 15, after he had led an insurrection against President Castro, has forwarded to the high federal court and court of cassation at Caracas a petition accusing Castro of murder and demanding that he be placed on trial. The petitioner is now in Ber-lin. Gen. Paredes and his companions were captured and summarily put to leath. The documents of accusation death. against Castro show first that capital punishment being abolished. Article 17 of the constitution guarantees the in-violability of life. Secondly, that the president of the republic can be punished for common crime, and thirdly, that President Castro had ordered the killing of Gen. Paredes. Senor Paredes has also written a letter to Senora De Castro. She had pleaded with her husband to spare the lives of Gen. Paredes and his compatriots.

JAPS NEVER PAID UP

China Indignant Because Mikado Has Not Returned Property Appropriated

During Late War. MUKDEN, China, May 14.-The repeated promises made by the Japanese to return to China the property appropriated through the exigencies of war are still unfulfilled. China is expressing much indignation. Yet the recovery of a large amount of government and private property throughout Manchuria which was appropriated by Japan without compensation, on the pretext that China had failed to observe neutrality in allowing Russia to occupy these buildings, mines and land. This excuse is not considered honest because Japan is aware of China's helplessness to enforce neutrali-ty while Japan in regard to abuse of neutrality is considered equally guilty.

SIDE WITH KRUSZKA,

Indiana Polish Societies Ask That Ban on Father Kruszka's Writings . Re Raised

LA PORTE, Ind., May 14.-[Special.] -Polish societies of northern Indiana Catholic parishes are passing resolutions censuring Archbishop Messmer of Milwaukee and Bishop Joseph J. Fox of Green Bay, Wis., on account of their al-leged attitude toward Rev. Wencenslaus Kruszka of Ripon, Wis., because of certain work which Mr. Kruszka has done in a literary way among the Polish people of the United States. They ask a cessation of his writings.

KAISER SENDS GREETING

Lieut. Von Lowenfeld Brings Words of Affection from Emperor to German-Americans.

NEW YORK, May 14.-A message from the German Emperor to the Ger mans in America was delivered by Lieut von Lowenfeld at a dinner given by the United German Societies of New York last night. Lieut. Von Lowenfeld said that Emperor William asked him to tell the Germans in America that the Emand that he was mindful of the nce of German-Americans in furthering

THREE FINES: \$28,000.

Missouri Judge Was "Shown" and Acted Accordingly-Enjoined from Future Inter-Dealing.

KANSAS CITY, Mo., May 14 .- Walter A. Powell, judge of the circuit court at Independence, Mo., today fined the following named companies, recently found guilty of maintaining a trust to regulate the production and price of ice at Kansas City:

People's Ice, Storage and Fuel company, \$15,-00; Central Ice company, \$8000; Kansas City Breweries company, \$5000. Punishment of the Yanderslie-Lynds Mercantile company, also found guilty of violating the law, will be deter-

Judge Powell also enjoined these companies from doing business in the future with one another.

Similar charges brought against the Dold Packing company, the Western Ice company, Ruddy Brothers, and the Interstate Ice company, were dismissed, the allegations not having been sustained.

Later, Judge Powell ordered that the later, Judge Powell ordered that the charter of the People's Ice, Storage and Fuel company be forefeited and that that concern be ousted from the state. Attorneys for the People's company announced that an appeal would be taken.

CLERK AFTER MILLION.

Planned to Use Money to Compel Trust Company to Pass His Recent Theft of \$80,000.

NEW YORK, May 14.—William O. Douglass of the Trust Company of America, who has admitted the theft of bonds from that institution to the amount of over \$80,000, today confessed that he had planned to steal a total of \$1,000,000, which he intended to use to compel the trust company to overlook the minor thefts. Douglass has pleaded guilty to ceny and is awaiting sentence.

Douglass first took small quantities of bonds, and, borrowing money on them, lost it in speculating. When it was evi-dent that he could not retrieve his losses a lawyer was consulted, who advised that the only way out of the dilemma was to steal \$1,000,000 worth of securities and negotiate with the officials the trust company for their return.

RUSS MAY DAY QUIET.

Workmen All Strike, Newspapers Suspend, Cars Stop, But No Disorders Reported in St. Petersburg.

ST. PETERSBURG, May 14.-The workmen of St. Petersburg generally to-day celebrated the Russian May day with a one day's strike. Only the governmental works were open. The strike also affected many of the smaller stores, the street car service was suspended on sev eral of the lines, and most of the new papers announced the suspension of their afternoon or Wednesday morning editions owing to the strike of their compositors. No disorders have been reported and none were expected.

STOLE FOR A FUNERAL.

James Cundy's Mother Buried at Iron Mountain, Mich., While He Is

Jailed for Theft of Fare. ROCK ISLAND, Ill., May 14.—Because he stole \$16.50 from his landlady with which to go to the funeral of his mother at Iron Mountain, Mich., James Cundy was bound over to the grand jury in the police court for grand larceny. He was unable to give bond and now is in jail. His hearing was held at the same hour yesterday that his mother's

CRIMINALS ARE EATEN.

funeral took place at Iron Mountain.

Terrible Custom of Cannibals Who Buy Human Flesh on Market Place in South Camaroons

BERLIN, May 14.-A correspondent of the Cologne Gazette writing from the South Camaroons says that the Maka. a negro tribe inhabiting the territory between the second and sixth degrees, north latitude, are cannibals and not only eat captives but criminals who have been condemned to death. The corre spondent observed human flesh exposed for sale in the markets. The smallest offenses, he says, are punished with death in order to secure a constant supply for

SEDITION IS SPREADING.

Troops Patrol Streets of Madras City and Racial Riots Appear at Delhi.

LONDON, May 14.—A special dispatch from Lucknow, published here this afternoon, says that the seditious movement among the Hindus is spreading in Madras province. Troops are patroling the streets of Madras City and serious racial rioting has occurred at Delhi, in the Punjab, where a mob of Hindu and Mohammedan malcontents knocked the crown off the statute of Queen Victoria.

HEARING IS RESUMED.

Men Accused of Altering Ballots in New York Life Insurance Election on Trial -One Turns State's Evidence.

NEW YORK, May 14 .- With Charles F. Carrington, who has turned state's evidence, up for cross examination, the hearing into the conspiracy charges against George R. Scrugham, Charles Stirrup and Carrington, employes of the International Policy Holders' committee, was resumed in police court today.

Carrington could not give any detail in the reply as to whether defective ballots returned to Richard Olner were New York Life ballots or not. The men

AMERICA'S MOST BELOVED WOM-AN PHILANTHROPIST.

Beautiful Character of One Who Is the Ideal of Brave Men All Over She Gives.

In the late afternoon of a winter's day back in the '80's, writes Mabel Potter Daggett, in the Broadway Magazine, a little girl stood at the window of one of the great mansions on Fifth avenue. There was a far-away expression in her dark eyes, and she did not even hear when the heavy door of the hall opened and shut to admit a man who came in, stamping the snow from his feet.

"What may my precious one be thinking of so solemnly?" he demanded. She turned with a glad cry and he caught her in his arms.

school to-day," she answered gravely. "It was so beautiful."

"All right, come tell it to me, then," said the man as he drew a great armchair to the fireplace and gathered her into his lap. With a sigh of contentment, she nestled against his coat lapel, while his hand stroked her brown hair with a touch as gentle as a woman's. It was the hand, too, that could rock Wall street to its foundations. In a low, sweet voice, with all the depth of expression of complete understanding. the little girl recited this verse:

"I live for those who love me, Whose hearts are kind and true; For the heaven that smiles above me And awaits my spirit, too;

For the cause that lacks assistance, For the wrong that needs resistance, For the future in the distance, And the good that I can do."

There was a silence for a moment after the child's voice stopped. Then, 'Wouldn't it be beautiful, father, to be just like that?" she said.

"Yes, dear," he answered as he bent his head to kiss her brow; and they

HELEN MILLER GOULD.

sat on there in the thickening shadows with the warm red flames playing about them, the little daughter in Jay Gould's arms in the center of the high light from the fireplace, her face transfigured with the ecstacy of that idea of self-sacrifice that had inspired all heroism since the world began.

That was long ago, and all the picture in the firelight has faded from the great canvas of life. But from the nebulous setting of the years has emerged a woman who is all that the little girl dreamed would be beautiful, "just like that."

The Helen Gould of To-day.

If you turn the pages of Who's Who to-day you will find entered Helen Miller Gould, philanthropist, the daughter of Jay and Helen Day Miller Gould. born in New York, June 20, 1868, distinguished for her services to her country. Two older brothers, George and Edwin Gould, and two younger brothers, Howard and Frank, are all recorded as capitalists with an enumeration of railroads, telegraph lines, steamship lines, banks and corporations in which they are officers and directors. The younger sister, Anna, now "Mme. Gould," as the Countess of Castellane, has had her name enrolled among the list of international marriages.

Helen Gould's share in her father's fortune of \$100,000,000 was \$15,000,-000. Invested, it has now multiplied to something like \$30,000,000. She employs seven secretaries to help her in the office suite that she has set apart in her mansion at the corner of Fifth avenue and Forty-seventh street. Here she works at her desk eight hours a day, while cards of regret represent her at dinners, teas and luncheons that women all about her enjoy day after

Like other young women of wealth and position, Helen Gould "came out" and at a magnificent social function in 1891 was voted as charming and promising a young queen of society as New York had known in years. She smiled and exchanged merry small talk with away, saying that unless his men had the hundreds who passed before her, as in a sheer, clinging white gown she stood in the great ball room, but all the time her misty eyes looked down the ways of life that beckoned her. On one side laughter, snatches of song and dancing feet. On the other side tears, play!" sorrow and wounds to be healed. When the people were gone and lights were dim she stood at the window, a little, womanly figure, watching the snow flakes falling on Fifth avenue, and she was saying softly and very earnestly:

"I live for those who love me." Helen Gould has what has been entreaties not to tell.

HELEN MILLER GOULD | termed the Puritan sense of right and wrong. She will not travel on Sunday and she never allows wine to be served on her table. A member of the Collegiate Reformed church, her faith is Steel King and Actress Bride Sail for simple and reverent and as firm as granite. As a memorial for her beloved father and mother she built for New York university its beautiful library with the colonnade approach Our Country-Dollars Are Not All known as the Hall of Fame. This and later gifts to the New York university now aggregate \$2,000,000. Besides, to Wellesley college she has given several thousand dollars, to Berea college \$10,-600, to Rutgers \$25,000, to Mt. Holyoke \$50,000 and to Vassar \$48,000. Because of what Chancellor MacCracken has termed her eminent services to the cause of education, New York university has bestowed on its princely patroness the title of master of letters. It is altogether an honorary degree. Helen Gould is not a college woman, though she is sometimes inaccurately classed as such by reason of her attendance at the Woman's Law Class of New York university, a year's course | and designed to fit a woman to administer her own property.

During her father's lifetime she invariably accompanied him on his business trips over the Gould railroad lines. When the Y. M. C. A. movement among railroad men came to her notice she endowed the work with \$100,000 and employed a secretary to organize it. Now, as a beautiful monument to her interest, the Gould roads have at 30 points club houses for their men.

For Sailors and Soldiers. At the outbreak of the Spanish-American war she sent the government her check for \$100,000. Sick and suffersupplies. She sent them \$25,000. Then she spent \$25,000 in providing for soldiers who had to be nursed back to health after their discharge from the service. After the war she sent the service. After the war she sent the last night just before the wedding. Its value is said to be about \$1,000,000. army posts libraries and for the sailors she erected a \$450,000 club house in Brooklyn, near the navy yard.

Admiral Dewey says that if the men could have their way there would be a statue of Helen Gould as figurehead on

Stripes. Miss Gould is not beautiful in any sense of the word, as it applies to regu-lar features, her gowns are very plain the 13th of the month, and also to sense of the word, as it applies to reguand her manner almost shy, but when catch the steamer which sailed at 7:30 at a special service for sailors she soft-ly implores. "Don't you want to be a Mr. Corey's parents, Mr. and Mrs. A. ly implores, "Don't you want to be a Christian?" the roughest Jack Tar for her. MADE MIRTH AND TROUBLE.

Some Amusing Incidents Over Designing the First Dollar.

Documents in the Congressional library at Washington show that when the establishment of a mint was under discussion in Washington's time there were some amusing debates in Great Financier Said to Be About to Congress concerning the devices the coins should bear. There is one account of a squabble over the design for the silver dollar.

It appears that a member of the house from a southern State bitterly opposed the choice of the eagle on account of its being the "king of birds" and hence neither suitable nor proper to represent a nation whose institutions and interests were wholly inimi-

cal to monarchial forms of government. Judge Tatcher in reply had playfully suggested that perhaps a goose might suit the gentleman, as it was rather a humble and republican bird and would also be serviceable in other respects, as the goslings would answer

### FRIGHTENED TO DEATH

LIGHTNING TOO MUCH FOR WEAK HEART OF KAUKAUNA WOMAN.

Bolt Tears Away Chimney of Home-Had Been Resident of City for Twenty-six Years.

KAUKAUNA, Wis., May 14 .- [Special. ]-A bolt of lightning and a weak heart formed a combination of circumstances which resulted in the death of Mrs. Barbara Schreiber at her home in this city today.

Mrs. Schreiber was virtually frightened to death. Early this morning there was a vivid display of lightning over the city and during the course of the storm a bolt tore away the chimney of the Schreiber home. Mrs. Schreiber, with four children, was sleeping in the house, and, being a victim of heart trouble, was easily affected by sudden fright. When the lightning tore away the chimney with a flash and crash, the deafening noise of falling brick and ripping boards was too much of a shock and she almost immediately expired.

Deceased was 47 years of age and had Besiden the four surviving children at home, Mrs. Schreiber leaves two daughters and a son residing in Milwaukee, and a son at Oshkosh.

FARMER'S FIRE LOSS IS SEVERE. Lightning Destroys Barn and Stock Near Green Bay.

GREEN BAY, Wis., May 14.-[Spe cial.]—During an electrical storm early this morning, lightning struck the barn owned by Robert McGeehan, in the town of Rockland, burning it with all the machinery, twenty-six head of cattle and eight horses. The loss is \$5000.

It is reported that the station of the Kewaunee, Green Bay & Western road at Casco Junction was struck by lightning and burned. The loss is \$1000. wned by Robert McGeehan, in the town

WYOCENA STATION BURNS. Lightning Supposed to Have Struck Depot in Storm.

w station of the Milwaukee road at Wyocena on the La Crosse divi-sion, was totally destroyed by fire early this morning, together with the entire contents of the building. The fire is supposed to have been caused by light ning during a storm which broke over the little town of 1000 people shortly after 1 o'clock, at a time when the station was closed. The station was erected less than a year ago. The loss will probably be \$2000.

#### DAVIDSON'S BODY FOUND IN RIVER

Jones Island Fisherman at Early Morning Discovers the Corpse in Kinnickinnic.

MILWAUKEE, Wis., May 14.- (Special.]--The body of J. S. Davidson, manager of the A. G. Seeboth manufacturing oncern at 222 Mineral street, was found n the Kinnickinnic river at the foot of Walker street at 8 o'clock this morning. There it is supposed to have lain since April 18, when Davidson disappeared. The place is but a short distance from the plant where he worked.

Jones Islander Finds Body.

The body was found by a L isherman, Ernst Kraus, who notified the life saving station. It was taken to the government station, and later to the coroner's office, and after an inquiry t will be carried to his home at 512 Grove street. Mr. Davidson is survived by a wife and one daughter, Mrs. Wil-liam T. Johnston. No reason except acdent is given for the drowning.

The disappearance of the manager of the Seeboth company nearly a month igo was considered a great mystery, and he only satisfactory explanation was hat he fell into the river. A teamster said that he saw Davidson on the Kinnickinnic avenue bridge one or two days after his family had seen him, and had bassed the time of the day with him. Beyond that no trace was ever found unil this morning.

Could Find No Trace.

The life saving crew dragged the riy er for long distances, but no body could be found. The police were notified, but hey proved unable to render assistance. At first the family thought he might have gone across the lake with some captain whom he knew, but this was given

up when no word came. It was said that he had no troubles that his accounts were straight and that no reason could be given why he should voluntarily take himself off or commit He was 57 years old and had ived in the city many years. On oc asions he had been active in ward poli-

the factory of the Marble Safety Axe

Their Final Goal.

The Democrats are claiming that they merely desire to revise the tariff schedules at certain points, but their final goal is free trade pure and simple. The history of the last Democratic attempt to revise the tariff is fresh in the public mind. It was followed by a period of idleness and an era of free soup houses and full almshouses. Do the voters of Maine care to have history repeat itself in this respect? If they do not, the way to avoid it is to vote for men who will support the policy which has placed the United States in the front rank among the nations of the world.-Biddeford (Me.) Journal.

Intoxicating of wild hasheesh dreams
Is dull beside the rapture of Love's pain;
For of the primal Dawn's unstained beams
Rained on its natal soil it doth retain
The immortal essence, and of Earth re-

barrenness with bloom where Eden lives again. -Mary J. Serrano in Harper's Bazar.

#### A Fatal Mistake.

A great many people seem to think that the marriage ceremony absolves them from all further courtesies and attentions to the person whom they have wed. After that they are always in neglige,

both as to manners and clothes, when they are at home. This is a fatal mistake. Because a woman is married is no excuse for her going untidy about the house, and telling he rhusband home truths that hurt his vanity. Because a woman is his wife gives a man no right to say things to her he would not dare to say to any other lady who possessed a big, able-bodied

Good manners are the preservetive of peace and concord, and are warranted to keep happiness in any climate.

The problem of how to happy though

married is really no problem at all. No mystery should ever have been made of says Home Notes. In this merely fair dealing in fair part-

nership—giving the other party the same privileges and perquisites you assume for yourself, and allowing the person you love as much consideration and civility as you would show a stranger.

#### Discretion Needed.

While it may beyond human power to avoid making enemies in this life, nobody will attempt to deny that a vast amount of carelessness is exhibited in the treatment of those who are likely to be vindictive when occasion arises. It is the worst blunder a woman can make, for reputation is one of her most

valuable assets and most perishable also. Men can walk through double lines of the can walk through double lines of unfriendly faces and suffer little from the experience. Possibly an enemy's influence may affect his business, though that does not happen often. Certainly it does his character little or no injury and does not affect his social standing. and does not affect his social standing. But a woman can be humbled dust by a malicious tongue and malice is a common weapon. When you find a woman with a guarded tongue, you see one with few enemies, probably none save those who are actuated by envy or Home-Making as a Business. ealously, and those are not of the really

dangerous type.
It requires some degree of eleverness clear of such pitfalls as malice. The average woman is gifted with intelligence enough to look carefully to her own interests in many directions, and it would be largely to her advantage to give the department of discretion some extra attention. Speech and written thoughts are both too freely indulged in for safety.

No person is so humble but what their kindly feeling is of more value than their

#### Charm Is Woman's Heritage: Why Try to Become Mannish?

A prominent educator of girls in addressing an audience, mostly of teachers, in New York, this spring on "The Education of a Girl," says Harper's Bazar, opened his remarks by the question, "Why try to make a man of her?" "To educate for efficiency," he declared, was the use of the girls' school. An efficient woman should be the product.
"There are some traits," this speaker

insisted, "that the vast majority of peo-ple agree upon as being especially and desirably feminine; sweetness, agreeable ness, or whatever you are pleased to call it: grace, beauty, gentleness, love of home, skill in the care of children. Why should not those in charge of the education of girls attempt to formulate a clear idea of what the efficient woman is, and then devise the best daily exercise they can to help each girl achieve that efficiency?' Why not, indeed? A school efficiency? that could turn out that ideal girl would be a blessing to any community. That a woman, to be efficient, must resemble an efficient man is the idea of many people on the matter. The efficient woman, effi cient in being graceful, agreeable, gentle, ome-loving and home-making, is more a Japanese education ideal for girls present, than an American one. If to the acknowledged charm of the Japanese girl the superior opportunities of the American girl could be added what an education it would be!

For one who does not exclude the other. Charm should be the heritage of every woman, as energy that of every man. The eternal feminine is meant to be eternally feminine, or she will never "lead man upward and on." A school "lead man upward and on." A school that turns out girls with "good health, good looks, good brains, good ideals and good prospects" was this wise speaker's ideal. It is ours, too.

#### The Teminine Pocket Whistle.

To be without an attractive little pock whistle nowadays is to be slightly handicapped in the race for the survival and then plunge in the waist. Do not of the fittest. Indeed, fashionable men and women are becoming slaves to their pocket whistles, finding many occasions ity of the goods. Instead, squeeze the during the day for their use. Children run in answer to them, dogs follow and sprightly grooms have ears alert to their the hands. Let all the work be squeez-Indeed, it is now not unusual for ing. a fashionable woman to hail a cab on the street by means of her whistle, while in automobiling the need of a whistle is white is well to let the waist stand all night in this water, for the from fields and brookside spoils can be from fields and brookside spoils can be cathered. There is the heart leaf of the automobiling the need of a whistle is acknowledged. For the moment they may be regarded as the smartest little trifles that women hang to their chains hours, remove it carefully and put it that men keep in their waistcoat

pockets. Gun metal, silver and gold are the material mostly used for up-to-date whistles. ways squeezing and always keeping the taste may be used as the basis of a salad The latter are extremely smart when small and flat in design and marked with the crest or monogram of the owner. They are often attached as eyeglasses to tiny gold chains, which fasten securely either a man's coat or a woman's bodice. Silver whistles are usually more ornate than the ones of gold. One delightful design which has just arrived from London has an embossed spider spread over the top of the whistle, which has for its body a deeply embedded emerald. Many of them, indeed, are decorated with such semi-precious stones as topazes, amethysts and moonstones The gun metal ones, not too somber in tone and showing large topazes in their

cylinder parts, are quite enchanting. Not infrequently they are seen hanging with bunches of charms which dangle from women's bracelets or are suspended from women's bracelets of are suspended from their belts. In fact, those seeking whistles for either personal use or to give to friends may find some perplexity in making a choice among the many in making a choice among the many unique designs, which have been originated mostly in Europe. There is, however, considerable difference in the notes given forth by these whistles. They is in the sam way, still keeping away from drained, then laid on a soft cloth and patted quite dry. This is especially necessary when a French or oil dressing is to he used, as wet leaves repel and shed the oil.

To prepare a plain dressing put in a

should therefore be carefully tested fore buying. The tone of one may be unpleasantly shrill and discordant, while that of another is prolonged and sweet.

#### Planning the Home.

"In selecting an architect several things are to be considered, writes Charles Edward Hooper in the May Woman's Home Companion. "The ordinary individual will perhaps have formed some ideas of what he wishes before consulting an architect. You may thrust through the sleeves and serves as a foundation. Should the material dry too much during the process, the blouse should be dampened with a soft cloth. When the sleeve is finished it should be risp and entirely without a crease. fore consulting an architect. You may see some completed structure which you will consider desirable. In this case it is most natural that you should take is most natural that you should take before the backs. The pressing should to give a little which you may have overlooked.
"The architect's fee is usually three

and one half per cent. of the contract better done without it. half per cent. for supervision, plus traveling expenses from his office to the work From this it may readily in question. seen that there is not a fortune in it for the professional man. Understanding this, it is best that you have a fairly good grasp on what you desire, and avoid as much as possible the extra work occasioned by drawing and redrawing

the plan.
"The first drawings made by the architect are termed sketches, and are usually drawn to a scale of one-eighth inch to the foot, just half the ordinary working scale. These are merely to show the scheme of design, and are more easily changed than the more precise drawings If the architect fails to suit you will these preliminary sketches, and you wish to sever the business connection at this point, he is entitled to a fee of one per cent, of the calculated cost of the house. If, however, the sketches are accepted and working drawings completed, he receives the three and one-half per cent already referred to.

"The drawings furnished by the archi tect are usually one-quarter-scale plans and elevations and framing plans; also full-size detail of cornices, window trim, etc.; in fact, whatever requires furthe explanation than is given by the scale

"It is not customary to make a con tract with the architect, as he is consulted in the same manner as the doctor lawyer. "The relations between th architect.

builder and owner are these:
"The contractor is engaged by the own er to perform a certain piece of work the architect acting as the agent of the Thus the owner should, to be address the contractor through the medium of the architect. The condition of th work is vouchsafed for by this agent, and all payments should be made direct to the contractor upon certificate of the architect.

"Being in business is a very good thing for women in one way," said a young matron lately to an older friend, who was lamenting the entrance of so many girls into the business field. "It educates the business sense—or ought to—and when they begin housekeeping they bring a knowledge of system and profit and loss to it. Housekeeping is a business proposition; so much yearly income so many servants to keep systematically occupied, so many tangible results to get at the end of the year. Why most women consider that business and home are two different things I never could see. A really good home is always run on business principles, and comes out on the profit side. "I consider myself a woman in business. I have, as far as possible, business hours-hours when I visit my kitchen, cellar, and larder, hours when do my marketing and household accounts hours when I mend and sew. When I get a new servant, I train in my schedule of hours, and I see to it that she is always busy during her working-day just as my husband's clerks are. A servant who has spare time on her hands during the day invariably becomes discontented. But if she has a schedule and is free when her day's work is over she likes the place—it is a business at-mosphere. Of course there are extra times of work—but it is remarkable how things can be systematized when one mind to it determinedly. for the children, all babies are brought up by system nowadays, you They thrive on it."

"Why, I never would have though your nousekeeping was like that." said the other. "It looks so—so homelike!" "That's just it," replied the young housekeeper, with a smile. "It's my business to make home homelike—don't you see?"—Harper's Bazar.

#### Laundering Waists.

To launder a lingerie waist so that i looks like new is a piece of work that even the most inexperienced can do if they will but give the time. No previous knowledge of ironing is necessary, though certain deftness must be exercised to bring the best results. I would say, indeed, that lightness of touch and pa-tience were the two most necessary

Washing is the simplest part of the operation, yet the blouse may be quite ruined or made to look thick if it is in my way hurried or slurred over.
The soap used in this cleansing should

be of a fine quality of white, and ammonia or washing powders are quite superfluous. The best way to launder is to make a basin of hot water quite soapy garment, keeping it under water, and avoid rubbing the least bit, even between both hothouse grown and from south

into another basin of soapsuds and squeeze again. This should be done three times and then rinsed in clear water, al-

material under water.

If the blouse is white I would put a little bluing in the last water.

To stiffen a lingerie waist I consider a great mistake, as it detracts from the delicacy of the fabric. Yet a little dressing is required and may be had by ironing when damp as hardbarehiefs the required the dressing is required and may be had by ironing when damp as hardbarehiefs the required or carbinate left the laws of the laws o

rease when completed.

To do this pressing so there will be no wrinkles a small ironing board and a smooth roll of brown paper just large enough to go through the wristband are necessary. Begin the work by spreading crispness by leaving them in cold water or the processory of the processor of the processo necessary. Begin the work by spreading out one sleeve quite flat, smoothing so there will be practically no creases. Over this run the iron, taking care not to let it go to the very outside edge of the sleeve, because if you do it will make a sleeve, because if you do it will make a sleeve.

You then have both sides

done smooth. Run your hand through the sleeve and spread it the other way, that is to say, so that the unpressed edges will now be in the middle where the iron may go tablespoonful of plain or tarragon vinesleeve so that it is quite without a

crease. In the gathers comes the fussiest part of the work, and here the paper roll moistened, will be found a help. The effort must Such a be to run the iron over without pressing until the any of these flat, and this is only accomplished by going slowly and spreading almost every inch over the roll that is thrust through the sleeves and serves as

will consider desirable. In this case it is most natural that you should take your troubles to the author of this example. Keep the estimated cost of the structure down to below the limit of your purse; the final cost is very apt to it must be done first on the wrong side exceed the contract in certain extras to make it stand out and then finished on the right side. Remove any belt be-fore washing, for the laundering can be

#### If You Are Going to Move.

If you are going to move, before you begin to pack make a clear plan of operations.

Decide what you mean to keep, and do not commit the blunder of having to cartage on mere truck and rubbish Cut down your possessions mercilessly rejecting all those that have no value except association. Find some poor person to whom your cast-offs would not be worthless and bestow them freely or

be wortness and bestow them freely of else throw them away.

Do not start packing too long before you intend to move. There is no sense in turning the house upside down for a eek or so before you leave it.

There are pienty of small, out-of-sight

There are pienty of small, out-of-sight tasks that may be done. Pack trunks with clothing that is not in use, with boxes of odds and ends to be found in every bureau. Save yourself endless trouble in unpacking by affixing to the inside of the top of the trunk a general list of contexts. of contents

When you begin to dismantle th bouse attack bric-a-brac first, then the pictures and draperies. Beat and brush the latter and wipe off the books.

Have plenty of clean strong boxes.

with good tops, ready for the reception of the contents of bookcases and cabinets, choosing small boxes rather than large ones as they are easier to handle. Do all the packing in one room if you

Have your carpets lifted and beaten. Draw the tacks from the matting, brush and roll them, tying them se-curely that they may not slip. If the matting it at all stained or spotted wipe it off with a cloth dipped in a strong solution of salt and water. You will probably have more time for this

will probably have more time for this now than if you wait until it is put down in your new home.

In these days of padded vans it is not necessary to box pictures, mirrors and furniture, though handsome upholstery should be covered with burlan Mattresses may be rolled and cord-

Pillows tied together and blankets packed in trunks and boxes. The bureau drawers may be filled with cloth The buing and light articles, but heavy goods, as bed and table linen, should be stowed way in trunks. Provide for the odds and ends that have to be stored at the last moment by having one box for that purpose

Trust to none for the final inspec tion of the premises, but go yourself from room to room. from closet to closet, satisfying yourself that nothing has been left behind. Leave the house at least broom clean for the next

When moving day actually arrives, you will have little voice in the disposal of your possessions. The practical movers will take charge of everything and sweep the house with the possesions out of wonderful rapidity. Have everything ready for them; mirrors unscrewd from buerau and chiffoniers, beds in pieces, boxes uailed up, trunks locked and strapped.

It is needless waste of time and money to keep the men waiting while you give the finishing touches to the packing. One trustworthy person should be to take care of the loading of the vans. while another goes to the new house. Let a good worker be at the new house, ready to sweep and brush and scrub. Washing windows and paint will have to be postponed until later.

Have each piece of furniture as it is brought in, put into the room where it belongs, that there may be no confusion

to remedy afterwards.

Get the house clean and the carpets down before attempting ornamentation. Put down the hall and stair carpets the last. Be content with bare walls and window shades for awhile. Make haste slowly. Spare yourself all you can, and be determined not to wear yourself out in the endeavor to bring your home to perfection within a week.—Exchange.

#### How to Make Good Salad.

To speak of salad or in fact any dish or article of food as "tame" when the word is intended for any other reason than, perhaps, lack of seasoning seems peculiar, yet in many country districts, especially among mountaineers the expression is a common one and has reference to some vegetable or fruit which is cultivated and so distinguished from that provided by nature—as "tame strawberries," "tame cherries," etc. Spring brings to us material both wild and cultivated which may readily be used in salads and which, coming at this season, may be recommended for their

tonic effect on systems enervated by heavy winter foods. The town dweller both hothouse grown and from south ern gardens; escarple from the same sources, the tiny sweet leaf of the fettigathered. There is the heart leaf of the dandelion, delightfully bitter: the acid sorrel or sour grass, the spicy cress and brook mint. The young tender leaf of any plant whose flavor appeals to the and when the supply is abundant those plants which are delicate and young can be covered with stones, boards or a layer of sand: in a week or ten days they

the round or cabbage leaf, the long of romaine, also caused cos. All salad If the blouse is a fine quality it will greens should be carefully and thoroughtake not more than half an hour to dry sufficiently to iron. Ironing is the difficult part of the work, and if properly done should leave the waist without a with the plant leaves, deposit on them germs which if taken into the system

saucer or shallow dish a half teaspoon ful of salt, a quarter of a teaspoonful of

over this wrinkled or unfinished portion. gar, stirring fast and hard until the Smooth it and finish that part of the vinegar is so blended with the oil that the globules are no longer distinct. Pour this over the lettuce, turning the leaves over and over that they may be well

Such a dressing should not be made until the salad is about to be served. for union of its elements is not permanent and oil and acid quickly separate. When cress, cabbage or any sharp salad green forms the base of the salad a pinch of dry mustard added to the seasonings of the dressing will often be found agree-Also the vinegar used may be of a special character, such as onion vinegar, celery vinegar, pepper vinegar or the spiced vinegar from pickles. When lemons are plentiful and juicy their strained juice will make a pleasant substitute for vinegar; as the acid is mild a double amount may be used.

Already radishes from cold frames are in market at reasonable prices; a few cut in thin slices add piquancy to a simple green salad and the same dressing may be used. By way of garnish use a few whole radishes, loosening and turning back a few strips of their glowing skin. Be sure not to remove the one or two tiny heart leaves; they have a pleasant warm taste and French chefs assure us that they lessen any tendency to heart-

ourn and indigestibility.
After radishes come the cool green cuumbers. How eager we are for them at this season and how refreshing they After peeling and slicing them for half an hour with cold-salted water, then drain; this simple process makes them more digestible. Instead of slicing they may be cut in half inch dice. An addition which is generally liked is a spoonful or more of either grated onion

r onion juice. The southern or hothouse tomato follows close on the heels of the cucumber. So long as it remains high in price it is most economical to cut it in slices after peeling and serve it with lettuce. Later the top may be cut off each tomato, the seeds removed and the cavity filled with spoonful of mayonnaise.—Cornelia Bedford in Chicago Chronicle.

#### REFLECTIONS OF A BACHELOR.

Successful public service is nine-tenths

When a man can hang on to his money it's a sign he isn't married.

To a girl spring means gauzy things that a blind man could see through.

Tact is calling a woman's red hair burnished gold and being sure she hears

It takes a woman when she catches her child in a lie to convince herself it wasn't.

A woman has two unceasing ambitions -first to be a mother, second a grandnother.

A woman really likes to go to church o that her neighbors can't say she loesn't.

A woman never seems to think her rusband is sick unless he cusses a about it.

Most people take more credit to themselves over inherited money than if they

Having a reputation for good morals making the people with whom you have it believe you do what they do. A woman wouldn't be willing to admit

she was an old maid if that was the surest way for her to get to heaven. A woman is not always sure her children are the smartest in town, but she never has any doubt about their being

A woman is hardly ever happily mar ried unless her husband will tell her he doesn't believe anybody else could dress as well on so little money.

A girl would almost rather have to ' her complexion than have a red nose from a cold in her head.

When a girl goes to the theater she keeps thinking of the ice cream soda she is going to have afterward, or when sha is having it she keeps thinking of the eyes of the hero.

A man can always prove to his wife that he was off on a business trip by bringing her home a present that he says cost less than she knows he could buy it for in her town.-New York Press.

#### Dressmaking Dictionary. Ombre stands for shaded effects.

Marquisette is woven like a very fine renadine. Mexicana is a sheer barred muslin with printed floral designs. Organdie carreau is plaided with

lightly raised lines. Epingline is a chiffon cotton fabric in cotton weave.

Spider silk is a silk and cotton fabric

Plumetis is on the order of the Swiss muslin, with a little woven dot or allover design of some sort, and this again s printed. Jacquard means a woven brocaded design that is either all over or else in deached figures; it is often woven more

#### lightly in some places than in others. The Scotch Juror.

In Scotland in a civil case jurymen get 10 shillings (\$2.50) a day for their services, and the litigants must in addition provide them with lunch. If cases are tried consecutively on one day. and the same jurymen officiate, they get 10 shillings for each case.

But the most important difference between an English and a Scottish jury is this: An English jury when returning their verdict must be unanimous, and if they fail to agree after a certain length of time they are dismissed and the whole proceedings are begun again de novo before a fresh jury. This is a most expensive mode of administering justice. In civil cases, in order to avoid this result, the litigants sometimes agree to accept the verdict of a majority. In Scotland the jury can always give a verdict by a majority in civil cases after the lapse of three hours.—Chambers' Journal.

#### MEMORIAL DAY.

On their swords the red rust, On their graves the red roses; Like old Hate, turned to dust, On their swords the red rust, While Love blooms, as it must; So this day-dawn discloses On their swords the red rust, On their graves the red roses. -Margaret Root Garvin in Lippincott's.

#### Some Prominent People.

MARY MANNERING, the well known actress, is an English woman by birth, though of late years she has been identified wholly with the American stage. She was born in London, April 29, 1876. It was in "The Courtship of Leone" that Miss Mannering made her American de-but at the Lyceum theater in New York on December 5, 1896. She had come from England, where she was little known. Her first American performance showed unusual power and delicacy and she had the advantages of youth, beauty and intelligence. Later she played leading parts in "The Princess and the Butterfly," "The Tree of Knowledge," "John Ingerfield" and other Lycerm and Daly productions. ceum and Daly productions. After four years as leading woman of Daniel Froh-man's company Miss Mannering came out as a star in 1900. In private life she is Mrs. James K. Hackett, wife of the well known actor and manager.

CHARLES S. FAIRCHILD, who was secretary of the treasury under President Grover Cleveland, was born at Cazenovia, N. Y., April 30, 1842. He graduated from Harvard university in 1863 and from the law department of the same institution two years later. He began the practice of law in Albany in 1874, became deputy attorney general of Ne York and was attorney general in 1876 and 1877. He established a law practice in New York city and in 1885 was appointed assistant secretary of the treasury department. In 1877 he was made secretary of the treasury and filled the office for two years. Since his retirement from public office he has been engaged in banking in New York. In 1892 he was a leader in the famous "antisnap" movement in New York to secure the nomination of Mr. Cleveland. He was a supporter of the gold wing of the Democratic party and was a member of the monetary commission appointed by the executive committee of the Indianapolis monetary conference of 1897.

JAMES M'CREA, who became on the Connellsville & Southern Pennsylvania railroad, which position he held until 1867. The following year he was employed in construction work on the Wilmington & Reading railroad, and in 1868 he became an assistant engineer on the Allegheny Valley road, serving with that company until 1871. In that year he entered the service of the Pennsylvania railroad in which he remained unosa; the purple and the green leaved bartil 1882, filling the positions of assistant engineer and division superintendent, manager, general manager and fourth vice president of the Pennsylvania lines west of Pittsburg. In 1890 he was made second vice president and one year later he became the first vice president. In recent years he has been president of several of the roads belonging to the Pennsylvania system, among them the Vandalia line and the Grand Rapids &

mig money or you despise them for not having it.

WILLIAM CLYDE FITCH, the well-known author and playwright, was born in New York, May 2, 1865. He attended boarding school at Holderness, N. H., and completed his education at Amherst college. His first real dramatic work constitution. lege. His first real dramatic work consisted of putting the play of "Beau Brummell" into shape for the use of Richard Mansfield. This was in 1889. It was a good beginning that he had made, and he followed it up in 1890 with "Frederick Lemaitre," a one-act play which was successfully produced by Rosina Vokes and Felly Morris From this plays that came in rapid succession from his pen were such pronounced successes as "A Modern Match," "The Moth and the Flame," "Nathan Hale," "Barbara Frietchie," "The Climbers," "Captain Jinks of the Horse Marines," "Lovers' Lane," "The Girl and the Judge," "The Way of the World," "The Stubbornness of Geraldine," "The Girl With the Green Eyes," "Her Own Way," and "The Woman in the Case." Mr. Fitch enjoys the distinction of having had five njoys the distinction of having had five of his plays running at one time in New York alone and his annual income from his works is said to be not less than \$200,000.

PRINCE VON BUELOW, the Chancellor of the German empire and the right-hand man of Emperor William, was born in Holstein May 3, 1849. His education was received at the Universities of Lausanne, Leipsic and Berlin. He entered the Prussian regiment of Royal Hussars for the campaign of 1870, and from florists in the spring and this is served in this regiment as lieutenant until 1872. The following year he entered the diplomatic service and during the The following year he entered next few years he was attached to the legations in Rome, St. Petersburg, Vienna, Athens and Paris. He was ambassador at Rome in 1897, when Emperor William decided that there must be new blood in the foreign office and forthwith Prince Von Buelow was made Prussian minister of state and secretary in a loose poplin weave, printed in floral of state for foreign affairs of the Gerdesigns. reputation of being an immensely cauious statesman of prodigious common sense and world-wide knowledge of men and affairs. He speaks and writes German, English, French and Italian.

GOV. CHARLES S. DENEEN of Illinois was born at Edwardsville, Ill., on May 4, 1863. He was educated at the public schools of his native town and graduated from McKendree college in 1882. He taught school for about three years, but all this time he was busy studying law and was admitted to the bar in 1866. He was sent to the state Legislature in 1892 and was attorney for the sanitary district of Chicago for two years. He was state's attorney in Chicago from 1896 to 1904, and in the latter year was nominated by the Republicans and elected governor of Illinois. It is now rumored in political circles that Gov. Deneen, whose term at Springfield will expire next year, aspires to a seat in the United States Senate.

REV HARRY PINCKNEY NORTHROP, Roman Catholic bishop of Charleston, S. C., was born in that Charleston, S. C., was born in tha city May 5, 1842, and prepared for the priesthood at Georgetown college and St. Mary's seminary. In 1864 he went to Rome, resuming his studies in the American college and the following year e was ordained. His first charge upon returning to the United States was at the Church of the Nativity in New York city. In 1866-68 he was the rector of St. Joseph's church of Charleston. He engaged as a missionary priest in North Carolina for four years, when he returned to Charleston as the assistant rector of the cathedral for a term of six years. He was then pastor of several other churches in Charleston and vicinity. On January 8, 1882, he was conse-

crated vicar apostle and titular bishop of Rosalia. One year later he was appointed successor of Bishop P. N. Lynch as head of the Charleston diocese. Bishop Northrop is a man of great learning and is one of the best known churchmen in the south.

#### IN THE FLOWER GARDEN.

Poppies, with their gorgeous flowers

#### Poppies.

and graceful stems, are exceedingly simple of culture. The annuals should be sown early in the spring, before the ground is dry and hot. The perennials, if seed is planted in the spring, do not bloom the first year. It is better to get plants that have been grown from seed planted in the late summer or early au-tumn. The seed of the annuals is very small and need not be planted thick. It should be lightly covered with soil and gently firmed. When the plants are gently firmed. When the plants are well up, they should be thinned out, to be ten or twelve inches apart. A rather light, rich soil, somewhat sandy, is best, although poppies do well in almost any soil. If the bed is somewhat protected from the sun and drying winds a longer blooming season will result. Some gardeners try a succession of planting, so as to have blooming plants through all the summer, but unless the weather is cool and of uniform temperature, results from a late planting will not be good. Perennials, if the seed is sown in late summer or early autumn will grow and become established plants before winter. Slight protection should be given them in the cold weather, and in the spring they will produce flowers of immense size and brilliant colors providing the soil is rich. While the perennials excel in brilliancy, their blooming season is comparatively short and it is a good plan to use the ground for other purposes after the blooming season is over. Asters, verbenas and plants of like character may be planted between the poppies and will furnish a desirable bed the remainder of the season

#### Shrubs for a Succession of Bloom.

The importance of obtaining a succesion of bloom in a shrubbery planting scheme has been pointed out. ing the varieties to produce this there is room for a large variance of choice; tastes will vary; the climate, soil and the care given the plants should be considered. But the following list of twelve shrubs will be found to give good results

with little care: 1—Forsythia, or golden bell; 2—cydonia ident of the Pennsylvania Railroad deompany on the death of Alexander Cassatt last year, was born in Philadelphia May 1, 1848. He entered the railroad service in 1865 as a rodman and assistant engineer on the Convelleyille & Southern Pennsylvania Railroad death of Alexander Cassatt last year, was born opulis steralis or snowball; 4—spiraea Van Houttii, or white spiraea; 5—lonicera tatarica, or upright honeysuckle; 9—weigela rosea or rose colored weigela; or the Convelleyille & Southern Pennsylvania Railroad death of Alexander death of Alex cera tatarica, or upright honeysuckle; 9—weigela rosea or rose colored weigela; 7—philadelphus, or mock orange; 8—syr-inga or lilac; 9—spiraea collosa or pink spiraea; 10—spiraea Antony Materer or dwarf spirnea; II—biblicus syriacus or althea; 12-hydrangea paniculata grandi-

osa; the purple and the green leaved barberry: several varieties of the dogwood; and the flowering locust. Next to trees and shrubbery in consid-

eration of a planting scheme come perennials. When once planted these need little care from year to year. The anemone, foxglove, hollyhocks, asters, poppies, peonies, chrysanthemums, phlox, coreopsis, larkspur, golden glow, and others that have been handed down from our grandfathers' time but have been much improved in the descent, will be found worthy of trial. Next in import-

sina Vokes and Felix Morris. From this beginning Mr. Fitch embarked upon a career of prolific play writing unequaled sown in the spring and they root very These plants may be started from seed sown in the spring and they root very career of prolific play writing unequated during the last century. Among the plays that came in rapid succession from his pen were such pronounced successes with sandy soil in midsummer and work with sandy soil in midsumme ing it well down around the stems so roots may grow from the stems into the soil thus supplied. The following spring these plants may be separated and set out where wanted. They bloom very freely early in the summer and take a period of rest later, followed by a second season of bloom which is not as Perennial phlox has a great many vari-

eties and a great range of color. It is taller than the other groups. Its season of bloom is late summer and autumn. In many localities it will last several weeks while in hot dry places it blooms a shorter time. It is propagated from seed, best sown in September so the plants may become well established and ready for blooming the following summer. A more common method of propagation is by cuttings or division of plants. Plants may usually be obtained more convenient than propagating them unless a greater number is desired. The plants bloom best when about three years old and will thrive for many years without much attention. The clumps increase in size and after a few years should be divided, the young vigorous shoots on the outside being separated in the fall and transplanted.

#### Currants.

Being one of the hardiest and most productive of fruits, the currant is often neglected, the patch allowed to become with grass, never thinned trimmed, the leaves worm eaten until the

plants die. Don't plant currants or any other fruit along the fence. Set them out in the open at least five feet from anything that will interfere with cultivation. No fruit will more readily despond to care than the currant. Clean cultivation and a liberal use of fertilizers will certainly be followed by good crops. One or twoyear old plants may be set out 4x6 feet. Trim the bush by cutting off most of the suckers below the surface of the ground. If the season is dry a mulch of straw or leaves will assist the plants to estab-

Red and white currants bear mostly on 2-year or older wood. A succession of young shoots should be allowed to grow in place of the old bearing wood. out the canes as they grow too old. The partial shade afforded by a young or-chard suits the currant well.

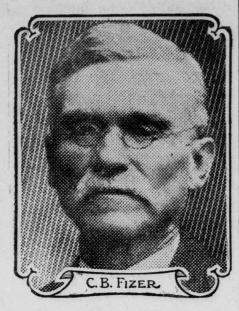

lish themselves.

A currant patch should continue in good bearing for ten to twenty years if properly handled. One important point is to keep the old, weak canes cut out and a succession of two to four new ones coming from the roots each year.

To combat the current worm spray thoroughly with Paris green to kill the first brood just as soon as holes can be seen in the lower leaves. If a second seen in the lower leaves. It a second brood appears spray with white hellebore. For "borers," cut out and burn the affected canes. White Imperial and Moore's Ruby are excellent varieties for home use. Prince of Wales is a heavy bearer and is excellent for cooking. Cherry Wilder, Victoria, and White

Grape are meritorious varieties. Advertise in Your Home Paper.

Suffered Two Years-Relieved In Three

MR. C. B. FIZER, Mt. Sterling, Ky.,

"I have suffered with kidney and bladder trouble for ten years past. "Last March I commenced using Peruna and continued for three months. I have not used it since, nor have I felt

"I believe that I am well and I therefore give my highest commendation to the curative qualities of Peruna."

#### Pe-ru-na for Kidney Trouble.

Mrs. Geo. H. Simser, Grant, Ontario,

"I had not been well for about four years. I had kidney trouble, and, in fact, felt badly nearly all the time. "This summer I got so very bad I thought I would try Peruna, so I wrote to you and began at once to take Peruna and Manalin.

"I took only two bottles of Peruna and one of Manalin, and now I feel bet-

ter than I have for some time.
"I feel that Peruna and Manalin cured me and made a different woman of me altogether. I bless the day I picked up the little book and read of your Peruna."

It is the business of the kidneys to remove from the blood all poisonous materials. They must be active all the time. else the system suffers. There are times when they need a little assistance. Peruna is exactly this sort of a remedy. It has saved many people from disaster by rendering the kidneys service at a time when they were not able to bear their own burdens.

#### TELEPHONE CLOCKS.

#### Put in Like Telephones and Run Entirely from Central Office.

Telephone companies are now furnishing their subscribers at a small annual rental self winding electric clocks

that give absolutely accurate time. The clocks can be placed anywhere in the house, says Popular Mechanics, and are connected to the telephone wires by

means of concealed wires.

The telephone clock never stops, for it never runs down, and should it vary a second or two in the course of the twenty-four hours it will be correct again within a few hours, for each day all the telephone clocks in the city are syn-

chronized or set.

This setting is done from the central office at some hour when the telephone is least likely to be in use, say 3 o'clock a. m. The setting requires only a mo-

ment and is accomplished by a separate current from the master clock.

The operation of the telephone clock is simple. The winding is done by means of dry batteries, which energize the magnet and cause it to lift alternately two small round weights, each one of in falling once will operate the clock

m failing once will operate the clock seven and one-half minutes.

The system is said to be absolutely safe. The rental of a clock is about the same price as people pay for having clocks cleaned each year.

#### TEN YEARS IN CONGRESS, MUM.

Representative Walter Brownlow of Tennessee Has Made Only One Speech.

Congressman Walter Brownlow of Tennessee has made but one speech during the 10 years that he has been a member of the House of Representatives.

## One Advantage of a Long Night.

"The Land of the Midnight Sun" was a subject assigned to Judge Berry at a feast shortly before his last sickness. "The Land of the Midnight Sun!" he exclaimed. "Ah, gentlemen, I find that a most inspiring subject. In the land of the midnight sun, I've read, the days are six months long, and so are the nights. Just think what a blessing that would be to some of us. Why, if one of my creditors came to me and said: 'Berry, I want you to pay up that \$10 you owe me,' it wouldn't bother me in the least. me,' it wouldn't bother me in the least. 'My dear fellow,' I would reply, 'come around day after tomorrow and I'll pay you,' and then I wouldn't hear any more of him for twelve months."—Boston Her-

#### CHANGE IN FOOD

#### Works Wonders in Health. It is worth knowing that a change

In food can cure dyspepsia. "I deem it my duty to let you know how Grape-Nuts food has cured me of indigestion. "I had been troubled with it for

years, until last year my doctor recommended Grape-Nuts food to be used every morning. I followed instructions and now I am entirely well.

"The whole family like Grape-Nuts, we use four packages a week. You are welcome to use this testimonial as you see fit."

The reason this lady was helped by the use of Grape-Nuts food is that it is predigested by natural processes and therefore does not tax the stomach as the food she had been using; it also contains the elements required for building up the nervous system. If that part of the human body is in perfect working order, there can be no dyspepsia, for nervous energy represents the steam that drives the engine.

When the nervous system is run down, the machinery of the body works badly. Grape-Nuts food can be used by small children as well as adults. It is perfectly cooked and ready for instant use.

Read, "The Road to Wellville," in pkgs. "There's a Reason."

## KIDNEY TROUBLE ABE RUEF PLEADS GUILTY.

TION CHARGES IN SAN FRAN-CISCO INDICTMENTS.

#### GOLDEN GATE EARTHQUAKE.

Man Behind Mayor Schmitz Gives Up and Tremendous Expose of Graft Conditions Is Expected.

SAN FRANCISCO, Cal., May 15 .-Special.]-Another earthquake could not have shaken San Francisco more today than when Abe Ruef, the man behind the mayor's throne, appeared in court and pleaded guilty to charges of bribery and extortion which were made in indictments brought recently by the grand jury.

There are some sixty odd indictments against the San Francisco boss and it is believed that he saw it was futile to dodge the meshes of the law.

#### Frisco Is Astonished.

The plea of Ruef has caused a tremendous sensation and it is expected that through his confession every grafter who has not secured immunity will be convicted. Many believe that the mayor imself is now in the shadow of prison.

#### Ruef a Fallen Power.

Ruef is a lawyer and for years has been the right hand man of the mayor, moreover, the moving power in the administration. Amazing graft conditions were disclosed by the grand jury when it was found that thousands had been given members of the board of supervisors for their votes on public utilities franchises.

#### May Get Schmitz Now.

A large part of the money in boodle unds has not been accounted for. has been the impression that most of went to the men "higher up," or Ru went to the men "higher up," or Ruef and Schmitz. Mayor Schmitz also has a number of indictments hanging over his

bead. Enters Plea of Guilty.

When the Ruef trial opened today Attorney Ach renewed his motion for a change of venue. Judge Dunne denied the motion but granted a recess until 2 o'clock in order that the attorneys might confer with Ruef "on a matter of consid-

erable importance. When court reconvened Ruef entered a plea of guilty.

#### Charge in Indictment.

Ruef's plea of guilty was to the charge of extortion on which the taking of testimony in his trial was about to begin. specific charge in the indictment erned the payment to Ruef of concerned the payment to Ruef of \$1175 by the proprietors of Delmonico's French restaurant to secure for the place permission to sell liquor in private rooms.

When Eccentric John Bryan Finds State With Proper Marriage Statutes, He Will Marry 20-Year-Old Girl.

COLUMBUS, O., May 15.—John Bryan, the eccentric 60-year-old million-aire farmer, author and manufacturer of Yellow Springs, near Xenia, O., is here today examining the books in the state law library for a marriage law in some state that suits him and when he some state that suits him and when he finds it he says he will journey to that state and wed pretty Miss Frederica Murphy, a Cincinnati girl who is 20 years old and whom he educated.

"Its the state that has the best statutes on this subject," he said, "that will get us, and I assure you that it will be neither Kentucky, Ohio nor Dakota.

"The marriage contract provides that

"The marriage contract provides that my wife shall not go on the stage nor write any novels until after twenty years of married life. We only want a million and will give away the remainder of my estate, \$3,000,000."

#### CARUSO PAYS HIS FINE.

Singer Drops Appeal in Monkey House Case-Was Accused of Annoying Woman.

NEW YORK, May 15.—Frederick W. Spelling, counsel for Enrico Caruso, the tenor, has paid the \$10 fine imposed on the singer last November, and announced that the appeal has been withdrawn. This ends the case. Caruso was arrested on a charge of disorlerly conduct in Central park. The woman who complained to a policeman that the singcomplained to a policeman that the sing-er had annoyed her never appeared against him and could not be found. The singer was convicted and fined \$10. Caruso is now in Paris.

### CONDUCTOR A BANDII

New Yorker Says Car Man Turned Out Lights, Assaulted and Robbed Him of \$980.

NEW YORK, May 15.—That a conductor of the Grand street car line turned out the light of the car, knocked him down and robbed him of \$980, a dianond ring and watch while he was a passenger on the car was the complaint made to the police today by Antonio Kresnic, a hospital nurse. Kresnic says he was then thrown off the car.

### GIGAR COST \$28,000.

Set Fire to Stage Coach Containing That Amount of Currency, Which Was Consumed.

LOS ANGELES, Cal., May 15.—A stage coach was accidentally burned in Death Valley, near Ash Meadows, Sunday. Fifteen thousand dollars in bank bills and \$13,000 in registered mail were consumed. The stage caught fire from a cigar which the driver was smoking. The money was consigned to the Greenwater bank.

#### WHEAT OUTLOOK IS NOT SO BAD,

ADMITS TO BRIBERY AND EXTOR- Reports from Various Parts of North Dakota Bearing on Seeding-Big Crops in Some Places.

> ST. PAUL, Minn., May 15 .- Dispatches from various points in North Dakota indicate that from 40 to 70 per cent. of the wheat seeding has been finished. Larimore reports seeding backward with about half the crop in the ground. A large crop will be grown under favorable conditions.

able conditions.

From Minot it is reported that the acreage cown in Ward county in wheat and flax will exceed the record of 1906. One-fourth of the crop is in despite the backward season and within two weeks the entire crop will be seeded.

#### Old Farmers Have Hope.

Devil's Lake reports about 75 per cent. of the crop in the ground although seeding is later than ever known and that about 90 per cent. of the crop will be seeded. While the outlook is serious, old farmers say that they have known several seasons nearly as late as this to yield large crops. Carpio reports about 70 per cent. of the

seed in, and the ground in excellent condition. If the weather gets warmer, prospects are good for an average crop.

Nebraska Very Cold. OMAHA, Neb., May 15.-The weather bureau reports killing frosts over central and western Nebraska last night, and light frosts over the eastern portion of the state. Snow is falling this morning at many points along the Missouri river. Deadwood, S. D., reports two feet of snow. In central and western por-tions of Nebraska it is clear today. In-dications are for slowly rising temper-

#### atures. Green Bugs Scattered.

The heavy winds of the last three days are reported to have blown the famous green bugs practically all over the wheat growing section, invasions being made in large portions not heretofore infected. The rains and snows of yesterday and last night is of great benefit to wheat as well as to corn planting and the soil is now in good condition for planting.

Kansas Corn Threatened. TOPEKA, Kan., May 15.—A light frost, ice and a temperature of 32 degrees last night followed the chilly weather of Tuesday over this portion of Farmers fear the young corn

s badly injured.

America Holds Key. BERLIN, May 15.-Interviews with a number of the leading grain merchants and members of produce section of bourse here disclose a feeling of great uncertainty in connection with the grain situation. The dealers generally are disposed to regard the present wave of speculation as being an exaggerated one. All admit, however, that the United States at this moment holds the key to the international situation. The German winter crop is admitted to be much delayed and a considerable acreage was frozen out, but nevertheless good hopes are entertained that the spring planting will overcome the shortage

### HE MUST STAND TRIAL.

H. Clay Pierce, Missouri Oil Magnate, tents housing owners of buildings in Will Have to Return to Texas.

ST. LOUIS, Mo., May 15.—Judge Adams in the United States circuit court delphia, stated clerk of the Assembly for over twenty years, and Rev. Francis E. Marsten of New York, are candidates for moderator. It is the sentiment of the delegations apparently that Dr. Roberts and the hours. e petition Sheriff Matthews of Travis county,

Texas, for extradition.

Pierce is wanted in Texas to answer to an indictment charging perjury in an affidavit made by him in May, 1900, to the effect that the Waters-Pierce Oil company was not a party to any pool.

Attorney Priest, counsel for Pierce,
gave notice that two appeals would be
taken from the decision, one to the Unit-

ed States court of appeals, and one to the United States supreme court. Pierce

### CRUSH RUSS REFORMS.

was held in \$40,000.

Reactionists in Convention Declare for Exclusion of Tews and Confiscation of Property of Revolutionists.

MOSCOW, May 15.—The Congress of reactionists closed today after adopting a resolution setting forth the measures it considered necessary for public safety, which include the dissolution of Parliament, the proclamation of full martial law wherever there is any revolutionary agitation, disarmament of the Jewish or-ganizations, legalization of the bands of reactionists, confiscation of property of revolutionists, and the exclusion of the

Jews from military and civil service. COPENHAGEN, May 15.—The dowager empress of Russia declares the czar and the imperial family love their people. She says she has always been misunder stood by the Russians and wishes the remaining years of her life might passed in Denmark.

### MISS NIGHTINGALE 87

Heroine of Crimean War Unable to Leave Home But Mind Is Still

LONDON, May 15 .- Lovers of good works on both sides of the Atlantic joined in sending "Many happy returns of the day" to Miss Florence Nightingale, who was 87 years old today. For many years the heroine of the Crimea has lived in quiet retirement in her house near Park Lane. For more than a decade she has not been able to leave her home. Her mind is still alert.

## SKIRT OFFENDS NATION.

Daughter of Magistrate Arrested for Wearing the Roumanian Colors-Forced to Take Garment Off.

VIENNA, May 15.—The Roumanian colors of red and yellow are forbidden in Austria-Hungary, and yesterday the daughter of a local magistrate in Grossbuttyn, Hungary, was arrested for wear ing a skirt of striped red and yellow. The police ordered her to take it off there and then, and when she refused a crowd collected. Finally the offending skirt was taken off in private.

#### DOCTORS HATE FORAKER

Because of His Opposition to Pure Food Bill and Aid to Christian Science.

CINCINNATI, O., May 15.—The Homeopathic Medical society of Ohio passed resolutions opposing the endorsement of Senator Foraker because of his opposition to the pure food bill and reported work to aid Christian Science and osteopathy.

#### INDIANA PEOPLE IN WESTERN CANADA.

What Shall We Do! I've Got to

Build Granaries." A letter written to a Canadian government agent from Tipton, Ind., is but one of many similar that are in the hands of the Canadian government agents whose privilege it is to offer one hundred and sixty acres of land free, and low railway fares. But here is a

copy of the letter: "Tipton, Ind., Nov. 28, 1906. "At your earnest solicitation a party of us from Tipton left May 15 for Western Canada. Our interviews with you and a careful study of your literature led us to expect great things of your country when we should arrive there, and we were not disappointed. We went prepared to make a careful examination of the country and its resources, and we did so. At early dawn the second morning out of Tipton we awoke in a new world. As far as the eye could reach was an apparently limtless expanse of new sown wheat and prairie grasses. The vivid green of the wheat just beginning to stool out, and the inky blackness of the soil contrasted in a way beautiful to see. An hour or two later we steamed into Winnipeg. Here we found a number of surprises. A hundred thousand souls well housed, with every convenience that goes to make a modern, up-to-date city-banks, hotels, newspapers, stores, electric lights, street railways, sewerage, water works, asphalt pavements, everything. With eyes and ears open, we traveled for two thousand miles (brough Manitoba, Saskatchewan and Alberta, going out over the Canadian Pacific Railway, via Calgary to Edmonton and returning to Winnipeg over the Canadian Northern Railway. In the meantime we made several side trips and stopped off at a number of points where we made drives into the surrounding country. On every hand were evidences of prosperity. The growing wheat, oats, rye, flax, barley, not little patches, but great fields, many of them a square mile in extent, the three, five and sometimes seven horse teams laying over an inky black ribbon of yellow stubble, generally in furrows straight as gun barrels and at right angles from the roads stretching into the distance, contrasted strangely with our little fields at home. The towns, both large and small, were

immediate neighborhood. "The newness, the thrift, the hustle, the sound of saw and hammer, the various stages of completion, the piles of household effects and agricultural implements at the railway stations waiting to be hauled out to the 'Claims,' the occasional steam plow turning its twenty or thirty acres a day, the sod house, the unpainted house of wood, the up-to-date modern resi dence with large red barn by, all these were seen everywhere we went, an earnest of prosperity and wealth to be. We talked with men and visited their places that four years ago was unbroken prairie. Their houses, barns, implements and live stock were the equal of anything in Tipton County and why not, when they were raising five, ten and twenty, yes in one instance forty thousand bushels of wheat a year. The fact that such large yields of wheat are raised so easily and so surely impressed us very favorably. And when we saw men who four or five years ago commenced there with two or three thousand dollars, and are now as well fixed and making money much easier and many times faster than lots of our acquaintances on Indiana farms fifty years cleared and valued at four times as much, we decided to invest. So we bought in partnership a little over two thousand acres, some of it improved and in wheat.

doubly conspicuous, made so, first by

their newness and second by the tow-

ering elevators necessary to hold the

immense crops of wheat grown in the

"Before leaving Indiana, we agreed that if the opportunities were as great as they were represented to be, that we would buy, and own in partnership a body of land, and leave one of our number to look after and operate it.

This we accordingly did. "Just before time to thresh I received a letter from him. 'What shall we do,' said he, 'I've got to build granaries. There's so much wheat that the railways are just swamped. We can't get cars and the elevators are all full. I never saw anything like it.' In reply we wrote 'Good for you. Go ahead and build, your story sounds better than the letters we used to get from our friends in Kansas when they bewailed the fact that the hard wheat had been destroyed by the chinch bugs | ski, duke of Leuchtenberg. and the corn by hot winds, and that they must sell the stock for means to live on.' 'Yes, build by all means.' And he did, and our wheat put in by a renter made twenty-seven bushels

"Very truly yours, "(Sd) A. G. BURKHART, "(Sd) J. TRELOAR-TRESIDDER, "(Sd) WALTER W. MOUNT."

Turned the Tables.

In a crowd waiting for a car at Eleventh street and Grand avenue yesterday was an old negro, who was inclined to be discursive. Two high school believed they saw a chance to make fun of him, and made several remarks at which they themselves laughed heartily. Finally one of them said. You're a preacher, aren't you, uncle?"
"Yes, sah," replied the negro, bringing "Yes, sah," replied the negro, bringing forth the card. "Ahm a undertaker, too. Ah, don't wish you no bad luck, but Ah'd lak teh have yo' business."

#### Profitable.

"What did you get out of your garden last year?"
"Not a week went by that I didn't have one of my neighbor's chickens for dinner."—Life.

## SAW NEGRO FIRE SHOT

TEXAN, BLIND IN ONE EYE, TELLS NEW BROWNSVILLE TALE.

Under Cross-Examination of Senator Foraker George W. Rendall Amends His Story of Shooting.

WASHINGTON, D. C., May 15 .- The examination of witnesses on behalf of the government began today in the Brownsville investigation before the Senate committee on military affairs.

George W. Rendall of Brownsville, Tex., testified that on the night of August 13, when the affray occurred at Brownsville, he saw men whom he de-clared to be negro soldiers, climb over the wall from Fort Brown and enter the He said also that he saw a group of from three to five men inside the gar or from three to hve men finde the gar-rison gate and saw the flash of two or three shots fired by men in this group. These men, he caid, moved up the wall on the inside and joined another group of ten or twelve men and all of them climbed over the wall at the alley be-

tween Elizabeth and Washington streets.

This is the alley where a number of shells were picked up.

Rendall is 73 years old and blind in one eye. He lives about thirty-five feet from the main gate entering the military reservation. He said he felt the dust and air stirring, and believed it was caused by a bullet passing through the room of his home. Investigation the next day showed that a bullet had entered the house underneath the caves tered the house underneath the eave and penetrated five thicknesses of wood, passed through the mosquito netting over the bed. Rendell and his wife had just

Senator Foraker secured an admission from Rendall that the night was very dark and that there were no lights at the point where he had declared that he saw negro soldiers climb the wall and that this point was fully 150 feet dis-

#### PUNISH HARRIMAN SAY U. S. ATTORNEYS.

Kellogg and Severance, Lawyers for Interstate Board, Recommend

Prosecution NEW YORK, May 15 .- A portion of the recommendations of Attorneys Frank B. Kellogg and Charles Severance to the interstate commerce commission concerning the Harriman railroad investigation

#### has been published here. Finds Competition Stifled.

It reviews the testimony and holds that railroad competition has been suppressed in an area equal to one-third of the United States; that the contracts between the Union Pacific and Rock Island for the control of the Alton rail way as well as the contracts between the Union and Southern Pacific and the trol of the Illinois Central and the San Pedro road, are all in violation of the Sherman anti-trust act.

#### Recommends Prosecution.

It recommends that the attorney general institute proceedings to annul these agreements. It also recommends that there should be new and effective laws to prevent inflation of securities and de-clares that the profits of the great railroads of the far west are being used to buy stocks and control systems in east instead of building more roads for the development of the west as they

Report Not Yet Accepted. WASHINGTON, D. C., May 15.— The recommendations of Messrs Kellogg and Severance in regard to the Harri man railways are not yet accepted and confirmed by the interstate commerce commission so that they stand at pres-ent merely as recommendations to the commission and not the report of the

ommission itself. Commissioners Harlan and Knapp of the interstate commerce commission say that the commission has not yet made its

WILL FIND CANDIDATES. William J. Connors Calls Meeting of Democrats at New York to Discuss

Man for Presidency.

SCHENECTADY, N. Y., May 15 .-William J. Connors of Buffalo, chairman of the Democratic state committee, has called a conference to be held in New York in November at which the question of a Democratic candidate for President will be discussed. He has invited all the Democratic United States senators, former United States senators and state senators, nineteen Democratic governors, all the Democratic national committee men and the chairmen of all the Democratic state committees.

#### CZAR SANCTIONS UNION.

Formally Recognizes Marriage of Grand Duke Nicholas to Divorced Princess Anastasia.

ST. PETERSBURG, May 15.—The Czar has created the Princess Anastasia of Montenegro, who was married May 12 at Yalta to the Grand Duke Nicholas Nicholaievitch, a grand duchess and has sanctioned the union. No formal cognizance had hitherto been taken of the marriage owing to the attitude of the orthodox church towards the remarriage of divorced persons, the grand duchess having been divorced from her first husband, Prince George Romanow-

name in a tree? Lucy Languish-He said wanted me it would be more to the point to take the axe and spend two hours chopping wood for the fire.—Illustrated

### What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medi-cines, "Golden Medical Discovery" and

"Favorite Prescription."
The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surface way upon all the macous lining surface. faces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous darrhal) bladder, uterus or other pelvic organs. Even in the chronic or uterative stages of these effections it is often suggested in affect

affections, it is often successful in affectaffections, it is often successful in affecting cures.

The "Favorite Prescription" is advised for the cure of one class of diseases—those peculiar weaknesses derangements and irregularities incident to women only. It is a powerful yet gently acting invigorating tonic and nervine. For weak wornout, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain

the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system. A book of particulars wraps each bottle giving the formulæ of both medicines and quoting what scores of eminent med-ical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

The words of praise bestowed on the several ingredients entering into Doctor Pierce's medicines by such writers should here.

have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof Both medicines are non-alcoholic, nonsecret, and contain no harmful habitforming drugs, being composed of glyceric extracts of the roots of native, American medicinal forest plants. They are both sold by dealers in medicine. You can't

afford to accept as a substitute for one of these medicines of known composition, ny secret nostrum.
Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

Over 200,000 American farmers who have settled in Canada during the past few years testify to the fact that Canada is, beyond question, the greatest farming land in the world.

Over Ninety Million Bushels of wheat from the harvest of 1906, means good money to the farmers of Western Canada when the world has to be fed. Cattle raising, Dairying, Mixed Farming are also probable callings. Coal, wood, water in abundance; churches and schools convenient; markets easy of access. Taxes low. For advice and information address the Superintendent of Immigration, Ottawa, Canada, or the authorized Canadian Government Agent, W. D. Scott, Superintendent of Immigration, Ottawa, Canada, or T. O. Currie, Room 12, B. Callahan Block, Milwaukee, Wis., Authorized Government Agents.

## STUMACH ON STRIKE

SUCCESSFUL TONIC TREATMENT FOR INDIGESTION.

Dr. Williams' Pink Pills Cured This Woman and Have Cured Many Hundreds of Other Cases of Common Ailments

Loss of appetite, coated tongue, bad taste in the mouth, heavy dull headache and a dull, sluggish feeling-these are the symptoms of stomach trouble. They indicate that the stomach is on a strike; that it is no longer furnishing to the blood the full quota of nourishment that the body demands, hence every organ

There are two methods of treatment, the old one by which the stomach is humored by the use of predigested foods and artificial ferments, and the new one by which the stomach is toned up to do the work which nature intended of it. A recent cure by the tonic treatment is that of Mrs. Mary Stackpole, of 81 Liberty street, Lowell, Mass. She says:
"I suffered constantly for years from

stomach trouble and terrible backaches and was confined to my bed the greater part of three years. I was under the care of our family physician most of the time, but did not seem to get better.

"I was completely run-down and was not able to do my work about the house. My blood was impure and my complexion pale. I suffered from flashes of heat, followed suddenly by chills. I had awful headaches, which lasted from three to four days. I could get but little rest at night, as my sleep was broken and fitful. As a result I lost several pounds in weight and became very ner-

"I was in a wretched condition when I heard about Dr. Williams' Pink Pills. I started to take the pills at once and began to gain in weight and health. I was encouraged by this to keep on until I was cured. My friends and neighbors often remark what a changed woman I am and I owe it all to Dr. Williams'

These wonderful pills are useful in a rheumatism, sciatica, neuralgia, nervous headaches, and even locomotor ataxia and partial paralysis.

The great value of Dr. Williams' Pink Pills lies in the fact that they actually make new blood and this carries health and strength to every portion of the body. The stomach is toned up, the nerves are strengthened, every organ is stimulated to do its work.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicino Company, Schenectady, N. Y.

-Workmen digging a drain near the city hall of Bendigo, Australia, found a large lump of quartz thickly studded with gold.

They also relieve Discress from Dyspepsia, Inligestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste n the Mouth, Coated Tongue. Pain in the Side. TORPID LIVER. They egulate the Bowels. Purely Vegetable.

SMALL PILL. SMALL DOSE. SMALL PRICE.

The autumn sun was dylng, Glowed with the light the scene, The crimson sky, and the sable earth, And the flood of gold between.

But she thought not of the sunset, To its pomp her eyes were dim— His country's call had drawn his sword? She thought alone of him.

In the distant Asian passes
The banner of England blew,
Beneath its folds she saw him fight; Fighting he saw her, too.

The golden flood was darkened, A shadow before her came; Within the room the warrier stood, Outside the great red flame.

A cry broke on the stillness:
"Great God!"—she reeled and fell—
And the sun dropped down, and the sky
grew black
With the gloom of a deathlike spell.

In the distant Asian passes
A pale corpse faced the sky.
One life the less, one death the more—
Strange spirit-tragedy! -Lord Curzon in the Academy.

#### THE NEW OWNER.

"Well," whispered Marion to me, "I guess it doesn't make any difference if we did have to wear silk gowns that you washed, turned, mended and made over. Guess what I just heard."

"What did you just hear?" I asked. "Why," proceeded Marion, delightedly, 'I was standing over by those ferns a minute ago and just round the corner I heard Mrs. Lewis say to Claudia Brooks: I don't see how the Harcourt girls manage to dress so well,' and Claudia—spiteful old thing—said: 'I think they ought to be ashamed; everyobdy knows they can't afford it.' But just then that grand ooking Mr. Maxwell came over to them and it wasn't two minutes before I heard him ask who that striking girl with the red roses in her hair was. That was you, Eleanor. Now. aren't you flattered?"
"Dreadfully," I answered. "Anything

"Yes. indeed," whispered Marion. "The best of it all was that he asked right wide range of diseases such as anæmia, away if you were one of the Harcourts who had owned the old place up town, and he asked her-Oh, look!"

Marion's volubility was checked at this point by the appearance of the already mentioned Mr. Maxwell with our nostess on his arm. He was a grave, handsome man, about 30. I thought, and after Mrs. Lewis had presented him he at down beside me. He had talked about a good many things and had alnost wearied of my monosyllabic reolies, I fancy, when he finally brought up Harcourt, and I proceeded to aston-ish him by forgetting that we were strangers, and telling him the most ridiculous things with characteristic recklessulous things with characteristic reckless-ness. I told him how we, Marion and I, pint of water for an hour, then adding went a round about way to avoid passing a lump of alum the size of a small hickwent a round about way to avoid passing the dear old place, and how, when there was no way out of it, we went by with An economical woman has discovered our heads turned away, because we loved it so. I told him we had been born there, and that every big room and every dingy panel brought up a memory that we leved. And it was not until Marion keeping to the quantity of water. Strain came for me to go home that I realized and cool, then add bay rum, eight ounces, Eugene Moriarity, who seemed to be a fixture in the Massachusetts Legislature some years ago, was at one time on the Worcester school board. A fellow of the evening. I went home terribly ashamed, and convinced that, notwithhinted at one meeting that there were

well called with Mrs. Lewis and was so And in the weeks following he came frequently and we met at several places. were too many Irish names on our list of teachers. The next day I went up to I couldn't seem to help it. He always a little less of ourselves than previous knew just when to smile, and I never! said a silly thing to cover up a deeper feeling in all those weeks that I did not see sympathy and understanding in his face. Well, it was a pleasant time as I a mere sham. Now he finds he is unremember it, and I got to thinking a able to exist without you, and so he pergood deal about him and to liking him forms, in his wedding ceremony before a very much. There was only one thing to dampen our pleasure; one day the public penance for his previous pride." news came to us that Mr. Griffin, who held a mortgage upon Harcourt, had sold it to strangers, and Marion and I told ourselves that from that time our claim upon it would be only that of any other outsiders, who might look at its dear old walls and pass it by. As I say, this darkened our lives a little, but there were still Mr. Maxwell's visits to look forward to, so it was worth while existing. But one evening, when he called, he said: "Miss Eleanor, I am going away tomorrow and I want you to do some-

hing for me. Will you?" "I don't know," I answered in a low voice. Somehow I couldn't for the life the civil engineering college, and under the honor system.—Cornell Widow.

> My heart beat heavily as we walked we had mounted the broad steps and selves."
>
> "We marry you because you have imfamiliar dim old hall because my eyes were blinded with tears. "Oh, well," thought I, as I stealthily dried them away, "you're a dear old place, but you're nothing to me now, and I've got no right to cry about you." But later, when we went up to the long hall above and found that some impudent person had removed our few remaining pieces of old furniture and had hung new paintings there over crimson hangings, I felt I couldn't stand any more. 'What does this mean?" I cried.

"The purchaser hopes to live here," explained Mr. Maxwell, "and he is getting

it ready for occupancy. Here, I suppose, the poor man was bewildered enough, for I had restrained myself as long as I could and I rushed to the one place where the hateful crimson did not cover the panels, laid my head against their friendly support and

urst out crying. "Oh. why did you bring me here?" I aid. "I can't stand everything. I would rather have this old place burned to the ground with only its poor old chimney left to show where it stood than to see it fitted with the most beautiful things in the world by strangers. Everything care about turns out wrong," I concluded with a scb. "I am losing my home,

and now you-I stopped, frozen with horror. What had I said! But Norman Maxwell suddealy put me into the window seat and sat down bevide me. "Eleanor, look at me," he said. But I absolutely couldn't lift my head, so he put his hand under my reluctant chin and turned my face toward him. "Eleanor," he went on. 'don't you know I've loved you all the time and that I was going away with dinner party, "that the heartache, confident that you did not invertebrate drinker."

care for me? Don't you care just a little more about me than for an ordinary

"Oh!" I exclaimed, very much afraid that my stupidity had forced him into it. "I shouldn't have said-I didn't mean to But he put his arms around me and then I knew it wasn't because of wnat I had said.

Well, I was so happy that I cried and laughed in my own ridiculous fashion and when we went home Marion says it was difficult to tell which beamed brightest, my eyes or my nose. But think I have wept the last sorry tears shall ever shed, for the best man in the world has bought Harcourt for me and it is to be our home when we are mar ried.—Boston Post.

#### To Restore Gray Hair.

Was there ever any woman pleased when the first gray hair was discovered in her head? Certainly not; when the all gray stage is reached, the feeling is quite different. Ah, but the getting there is the rub. It is scarcely fair to criticise those that do all in their power to remove the traces of the unwelcome frost since it is not necessary to have wrinkles. Why should they have gray hair? To children it seems to be the standard on which age is based. You have all heard the expression. "Yes, she is old, she has gray hair." To the sensitive woman it cuts like a two-edged sword. Gray hair, when it comes prematurely, for the white threads are frequently seen in the very young, may be an inheritance traced through a long line of ancestors. Again, too intense application of the mind, business cares, trials, and troubles, all these causes show beyond a doubt that subects which disturb the brain or effect the ervous system weaken the secretions of oloring matter and blanche the hair. The theory is reasonable since those who lo not allow anything to worry or annoy them, but go on in the even tenor of their way, have neither wrinkles nor gray hair. Why dark hair should be the special color that frost visits, has never been quite clearly understood, whilst there are certain shades of brown that seem never to change their color until real old age comes, and quite frequently, not even hen. Nature certainly is kind to them. To those whom she has not so favored, science comes to the rescue, but the mixing of certain chemicals reproduces the original colorings, these applications, however, should not be made by any but an expert. Still there are several excellent restorers that can be easily ap-plied at home. The free use of olive oil taken internally and externally used on the scalp nourishes and strengthens the body and hair, and will prevent the coming of gray hair. The tiniest bit rubbed well into the scalp will not make the nair oily; on the contrary, will give it ife and lustre.

Wainut stain is a perfectly harmless coloring for the hair. It is made by slowly boiling an ounce of bark in a ory nut to set the color. Apply with a tonic brush from tip to roots. If this be done just before retiring protect the bed linen by covering the head well with a towel. A non-injurious coloring is made from black tea, six ounces, boiling water, one pint. Boil together for half hour, oil of lavender one drachm; glycerine four ounces. By substituting half the

#### Are These His Reasons?

Here is a nice little romance spun nice, I guess he didn't mind after all. forth by one man as to the reasons why men marry:

"When we ask you to marry us we are

The bridegroom meeting his blushing bride at the church is there to yield up his spirit of independence. His boasted. self-completeness has been all the time "The desire for marriage is merely a yearning for a change. The man who has spent all his life alone, or surrounded mostly by men, is just the individual who finds in the marriage state a refreshing contrast from his previous mode of exist-

"A man's love is mostly selfish. Ever when he offers you his love he is cognizant of the honor he is paying you by giving you his name and admitting you

into his family."
"Those of us who are romantic and idealists see in you the incarnation of all our highest sentiments. You are all ways in love with love; we too frequently are merely in love with ourselves."
"What we insist on having is contrast." of me manage anything else. But he When we have battled with the world we about regretting his going away. He simply asked me if I would go down to You in your weakness have in your grasp

### In Pursuit of Beauty.

Particular attention ought to be paid by the fleshy woman to sitting and standing correctly. She should have perfect control over her waist and ab-dominal muscles. The figure will be wonderfully improved, even without the loss of flesh, if these muscles are held in their normal position. Do not allow them to become relaxed and flabby.

The following mixture has been found excellent for the blotting out of moth patches: Thirty grains of bismuth oxide, thirty grains of pulverized starch, one fluid dram and kaolini, two fluid drams of glycerine and two fluid drams of rose-water. Paint the spot with this at bedtime, bathing away next morning.

A red nose is often the outward sign of a deranged stomach, and the ruddy glow will disappear with the return of normal digestion. Drink hot water every morning before breakfast. Wear loose clothing, for tight lacing will produce this flamboyant condition almost invari-

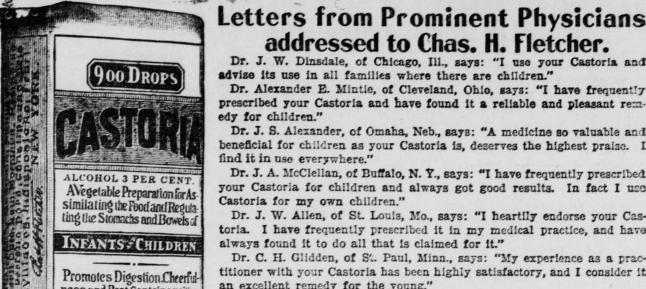

At night apply to the nose an ointment made after this formula: One dram of powdered sulphur, two and onehalf drams of powdered starch, one and one-half ounces of ointment of zinc exide, and three drops of oil of rose.

Brooding over the calamity of being thin will not produce flesh. Settle down to work and pleasanter thoughts, and before long you will surprise yourself.

"I fear," said Mrs. Malaprop, who had been persuaded to take some wine at a dinner party, "that I will become an

## Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CON-TAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

HOW HARD IS HARDEST ROCK?

Montana Miners Tell Stories Which Outrival Sea Yarns.

A bit of the kind of American humor that has thrived since the days of Ben-jamin Franklin comes from a Montana mining camp. Said one miner: "The rock down in that shaft is so hard they used six barrels of drills the other day and barely scratched it." "Ugh!" said another. "I saw 'em working on a ledge once where the rock was so hard that after they had used nine barrels of drills on it the hole stuck out six inches.

SEDERBERG & ANDERSON

First publication April 20, 1907. TIMBER LAND, ACT JUNE 3, 1878.—NO-UNITED STATES LAND OFFICE,

MARQUETTE, MICH.,

April 11, 1907. Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the states of California, Ore gon, Nevada. and Washington Territory," as extended to all the public land states by act of August 4, 1892, Oliver Charboneau, of Garden county of Delta, state of Michigan, has this day filed in this office his sworn statement No. 1665, for the purchase of the lot 1 of section No. 4, in township No. 38 north, range No. 18 west, and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before County Clerk at Escanaba, Michigan, on Wednesday

the 26th day of June 1907. He names as witnesses: Patrick McPhee, John Bonifas, Benjamin Clark, Thomas Valley, of Garden Mich.

Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before said 26th day of June, 1907.

JAMES J. DONOVAN,

Springtime

Is when everyone begins to think of his

plumbing work. I wish to state to my many customers and friends that I am in better shape today to take care of their wants than ever before. All I ask of you is to get my figures before you give your order. I will prove to you that no else can do better by you. Remember there are two kinds, good plumbing and poor plumbing. I do only the good kind.
