At least it isn't for the steam heated Bos- PLENTY OF tonian, lapped in the luxury of summer warmth. A visitor to a distractingly lovely abode near Fontainebleau says he put in twenty-four hours of physical anguish there and simply came away wondering how his hosts endured the arctic temperature of the rooms. "If I meant to live in foreign lands," says this shivering person, "I would go through the chilling process which inures human flesh and blood in France. What do these people do to render the blood in their veins to course like fire and act like an eternal furnace?" That's a question Americans abroad might well like to have answered.—Boston Herald.

Shakespeare's Last Illness.

According to a tradition handed down by Ward, the vicar of Stratford. Shakespeare's last illness was a fever brought on by a "merry meeting" with Drayton and Ben Jonson. Another authority. Halliwell-Phillips, says that the great poet died of typhoid, caused Painter and by the filth and bad drainage about New Place. Like nearly everything else about Shakespeare, the question of the character of his last illness can be answered only conjecturally.

At the Wind's Mercy. "Scroggins is always boasting about his new balloon."

"That's all it's good for." "What's all it's good for?" "To blow about."-Cleveland Plain NEEDS A SHAVE.

In the course of years the "gravelled" streets of Gladstone have lost the fine edge the contractors left on them. The surface has worn and pulverized until there is an inch or two of detritus lying on top of the hard road-bed. This is of shore, plunged into the swift water, no use as a road material and in wet breasted its powerful sweep successful- weather becomes mere muddy mortar was in the city Saturday. The inch or two of detritus seems to be eternal, for it never blows quite away; there is allic excursion to Niagara Falls was land, slim as they were. The raccoon ways enough left for seed, and it is of written at the time by an eyewitness; ran up a mast and remained there un- the quick-growing variety. It renews "The schooner Michigan was the til the mast fell. He was never seen itself like the fabled phoenix from its again. The foxes ran frantically up ashes and sprinkles itself alike upon the just and the aldermen. Now, good housekeeping would prescribe that a street be cleaned occasionally, same as a house or a barn. The dust that blows east on Wisconsin avenue Monday will blow into the fourth ward on Tuesday. Wherever the good dame hangs out her washing, there the dust is.

Some day, when the inch or two of dust is silent and peaceful it should be scraped and swept into windrows and carted off to some place that needs it. Then, with a smooth, hard surface, the street could be sprinkled decently and kept fit for a gentleman to associate with, as they say in the county town.

This suggestion is offered by a man with blue goggles for the benefit of the mayor and common council.

In the absence of the city attorney there is no way of learning whether the motion is constitutional; but what is the constitution between friends, as Teddy Roosevelt says?

DELAFIELD AND WAUKESHA MEN WIDOW'S VICTIMS

THEIR DISAPPEARANCE IS LAID AT DOOR OF THE CHARNEL HOUSE.

One Tells Relatives That He Was Going to Marry Woman at Laporte, Ind.

HAD \$1000 UPON LEAVING HOME.

LAPORTE, Ind., May 19.-[Special.] widow," written in a strange hand, supposedly by Mrs. Belle Gunness, or an during the coming summer of all

accomplice in her tragedies, is believed by State's Attorney Smith to be the solution of the mystery surrounding the disappearance of George Riediger of Delafield, Wis.

A letter received this morning from Delafield stated that Riediger left that place a year ago with \$1000 in his possession, with the statement that he was going to Laporte to marry a rich widow several days later. Delafield relatives received the letter with the mystifying handwriting. The \$1000 which Riediger brought with him to the charnel house marked him for death, decapitation and digmentations. marked him for death, decapitation and dismemberment in the chamber of hor-

Waukesha Man Missing.

Jennie Graham of 119 Tenny avenue. Waukesha, Wis., this morning communicated to Sheriff Smutzer the fear that her brother, John Graham, who disappeared three years ago and who left home with the statement that he was going to marry a rich woman who handvertised for a husband, met death o the Gunness farm. Miss Graham say she will come to Laporte, if necessary. the aid of the officers in an effort to solve the mystery surrounding his disappear

Identify Olsen Body.

Identify Olsen Body.

The issuing of a death certificate for Jennie Olsen and the turning over of the body by Coroner Mack to the relatives in Chicago puts the official stamp of identification upon a body regarding which there has been much controversy. Although identified by the brother and sister, many refused to believe that the girl was dead for the reason that Mrs. Gunness had made it a point to inform a number of persons that Jennie had gone to Los Angeles to attend school and had arranged little incidents that would help to make this point strong with such people as might be a trifle inquisitive on the subject.

Unidentified Are Buried.

Unidentified Are Buried.

The grand jury resumed its sessions this morning. The seven unidentified bodies exhumed from Mrs. Gunness' barnyard, were today buried in the potter's field, under the direction of Coron-

Sheriff Smutzer and Miner Schuitz. who are sluicing the ashes in the debris of the Gunness fire, found the upper and lower plates from Mrs. Gunness' mouth. both containing the false teeth which Mrs. Gunness had in her mouth. Dr. I. the last hours of the victim of rabies, P. Norton, who made the lower plate, immediately identified them and also identified fied the upper plate, frequently having seen it, although it was made before he

became her dentist. "This proves beyond the shadow of a doubt," said Sheriff Smutzer, "that Mrs. doubt," said Sheriff Smutzer, "that Mrs. fluence of opiates early today and he Gunness was burned to death in the will be kept in that condition until his

PRAYED OVER FLAMES.

Night Riders Chant "Nearer My God to Thee" While Tobacco Barn Burns.

LACENTER, Ky., May 19.-Kneeling on the ground in the moonlight with their heads bowed, while their leader, his masked face turned toward heaven, offered prayer, a band of night rid ers last night destroyed the big tobacco barn of H. G. Maddox, not far from this place. The spectacle was witnessed by Flint Randell and Miss Maggie Tate, two young people who were returning from a party, and who were captured by the raiders and forced to accompany them to the prayer meeting and barr burning. After the torch had been ap plied and the flames were under good headway the young people were led some distance away, with instructions to go home, and as they left they heard the strains of "Nearer My God to Thee" floating through the air to the accompaniment of crackling timbers and the roar of the flames.

PRICE OF CORN SOARS.

Touches 79 on Chicago Exchange, with Patten Holding Bulk of Grain.

CHICAGO, Ill., May 19 .- May corn sold up 3 cents today in the early hours of trading chiefly because of the active of trading chiefly because of the active demand by shorts for grain to deliver on liminaries to the Olympic court tennis their May contracts. The bulk of the grain is in the hands of James A. Patten and not much of it was for sale. The closing price yesterday was 76 cepts and in a short time after the opening today it had touched 79. This constitutes a new high record for the season.

POLITICIAN A SUICIDE,

John MGaughey of Indianapolis Kills Himself After Grand Jury Report.

indianapolis, Ind., May 19.—John McGaughey, former county com-missioner, killed himself this morning, using a pistol. He had been prominent in Republican politics. The grand jury recently returned an indictment against one member of the present board, but Mc Gaughey had not been indicted.

Expressing a Thorax.

Dr. Leopold Jaches of Cornell's medical school recently returned from a study of the use of the Roentgen rays abroad. Pausing in an account of his tour, Dr.

"Abroad, as here at home, the great public's knowledge of the rays continues rather vague. Investigators receive all manner of queer letters and requests. Thus I heard in Berlin of a man who

rote to a specialist:
"Dear Sir: I have had a bullet in my thorax for eleven years. I am too busy to come to Berlin, but hope you will come down here with your rays, as my to perfume herself.

case should be worth your while. If you cannot come, send a packet of rays, with instructions as to use, etc., and I will see if I cannot manage to work them

myself."
"The specialist replied:
"'Dear Sir: I am sorry that my engagements prevent my coming to see you and that I am out of rays just now. It you cannot come to Berlin yourself, send me your thorax by express and I will do the best I can with it."—Boston Her-

injured and the house was badly dam-

Doomed Hydrophobia Victim Will Re main Drugged Till Death Claims Him.

NEW YORK, May 20 .- To ease Wm. H. Marsh, a wealthy inventor and manufacturer of Brooklyn, who was told yesterday at the Pasteur institute that he had hydrophobia and would live a few days only, the physicians about his bedside put him under the in-

death. Mr. Marsh was perfectly conscious and apparently did not suffer except when seized with convulsions. The paroxysms became more frequent last night, each growing more violent than

the preceding one.

Between the paroxysms Mr. Marsh bade farewell to his family which had gathered at his home in Brooklyn and arranged his business affairs.

CHURCHES MAY UNITE.

Amalgamation of Presbyterian Branches to Be Considered at the Assembly.

KANSAS CITY, Mo., May 20.-Amalgamation of the different branches of the Presbyterian church and the harmonizing of all organized religions will likely form one of the most important questions to be brought up in the 120th general assembly of the Presbyterian church, which begins here tomorrow. It is already known that the report of the committee on fraternity and union will show a strong sentiment favorable to amalgamation. Twenty delegates from Porto Rico arrived today.

GOULD WINS IN TENNIS.

Young American Defeats Former British Champion in Straight

LONDON, May 20.—Jay Gould of New York defeated V. H. Bonnell, the contests at Queens club today. The young American won in three straight sets. Score: 6-3, 6-3, 6-2. Mr. Gould showed better generalship and superiority over his opponent at every stage of the contest. He will meet Mr. Page in the

FLEET IS OFF OREGON

Smoke from Funnels of the Battleships Is Seen by Yaquina Residents.

NEWPORT, Ore., May 20.—The battleship fleet pased Yaquina bay at 5 o'clock this morning, about twenty miles off shore. Nothing of the fleet was visioff shore. Nothing of the fleet was visible except the smoke from the funnels. Large crowds were disappointed when the fleet passed so far out at sea. The ships are struggling against a stormy head wind and making slow progress in the tempestous seas.

RUEF JURY DIAGREES.

SAN FRANCISCO, Cal., May 20.— The jury in the case of Abraham Ruef, accused of offering a bribe to former Su-pervisor Jennings Phillips, came into court this morning after having been locked up all night and announced that no agreement had yet been reached and sked for instructions. The indications pint to a disagreement.

large crew. When the captain attempted to land his men, the authorities at the small seaport prevented it.

Will Detain Vessel.

The immigration authorities at this point telegraphed the officials at Gaviota to detain the vessel until an investiga-tion can be made. The steamer had been seen off the coast for several days and this led the officials at Gaviota to tele-graph to this city for instructions.

May Contain Chinese.

An immigration officer went to Gaviota today to question the ship's captain and examine his papers. It is thought the vessel may contain the Chinese who are trying to land in violation of the immigration laws. The captain stated last night that he came in for food and water. He said he carried a cargo

ILL AFTER PATRICIDE,

Betrothed of Millionaire Sterry and Wife of Slayer's Son Collapse.

NEW YORK, May 20 .-- Miss Rachael Blaikie, the young woman whose engagement to marry George E. Sterry, was one of the causes of yesterday's double tragedy, when George E. Sterry, Jr., shot and killed his aged millionaire father and then sent a bullet into his own

brain, is seriously ill at her home in East Orange, N. J., today. "Money was the cause of this whole terrible affair more than anything else," she said after the news of the tragedy had been taken to her. "I suppose George feared that I would receive some of his father's money, but I want to say that I would rather George had every penny of his father's money than to have either of them harmed. I wish I could have told him before it was too late that it was because of money that late that it was because of money that I had been unwilling to marry his-

Mrs. George Sterry, Jr., the widow of the murderer and suicide, also is in a desperate condition today from hysteria.

EVELYN MAY STOP SUIT.

She Is Considering Withdrawal of Divorce Action Against Her Husband.

NEW YORK, May 20 .- Mrs. Evelyn Nesbit Thaw is considering the withdrawal of her suit for the annulment of her marriage to Harry K. Thaw. What impels her to contemplate this course is a secret known only to her and to her lawyer, and neither of them will say a word. Daniel O'Reilly intimated the step was contemplated when he appeared before Robert E. Deyo, referee in the suit. In procuring an adjournment until next Tuesday he assured the referee he would be ready to proceed with the taking of evidence next week or else would withdraw the suit.

MANSION WEDDING GIFT

Leiter and His Bride Will Receive Handsome Washington Residence in June.

WASHINGTON, D. C., May 20.-The famous Leiter mansion on Dupont circle, which has been a center of fashionable interest in Washington for years, is to be presented by Mrs. I. Z. Leiter to her son and daughter-in-law as a wedding gift. The marriage of Joseph Leiter to Miss Juliette Williams will take place in Washington, June 10. Included with the gift of the house according to information at hand tonight, will be works of art and all the furnishings of the man sion, while the bride is to receive the Leiter silver and china and the Leiter

BRITISH BOATS COLLIDE

Latona and Japanic Clash-All the People Aboard are Saved from Drowning.

FALMOUTH, May 20.—The British steamer Latona, 2708 tons, from Montreal May 8 for London, foundered westward of the Lizard this morning after colloding with the British steamer Japanic, 2296 tons, from Newport for Montevideo. All the passengers and FALMOUTH, May 20 .- The British Japanic, 2296 tons, from Newport for Montevideo. All the passengers and crew of the Latona were saved. The Japanic was badly damaged.

DOUMA DUEL IS DECLARED OFF. Guchkoff and Milukoff Encounter Is Averted by Associates.

ST. PETERSBURG, May 20 .-- A due which had been arranged for Thursday morning between M. Guchkoff, the Octo berist leader, and Prof. Paul Milukoff, leader of the constitutional Democrats, has been declared off, thanks to the in-tervention of influential members of the

SEES POLITICS IN GOVERNORS' MEET

JAMES J. HILL WOULD HOLD NEXT CONFERENCE IN AN IN-LAND TOWN.

SUGGESTS SPRINGFIELD, ILL.

NEW YORK, May 20 .- That the recent conference of governors was a good thing and should be made an annual event is the opinion of James J. Hill, president of the board of the Great Northern railroad, who was one of the special guests asked by President Roosevelt to address the meeting at Wash-

"The idea behind that conference," Mr. Hill said, "is a big thing. There are persons, no doubt, who feel inclined to treat is cynically, but they are wrong.

that after the expiration of the formative period big things will be realized. If, as it is generally said, this nation has reached a pass which should occasion the gravest apprehension, it is about time that we began to put our house in order. I do not know of a better way to go about it than through the permanent establishment of an annual gubernatorial conference or con-

are being carried on. There you would have object lessons to hand—lessons which are essential—for our redemption is to come from the soil and in no other

DENVER, Col., May 20.—Preparations for the national Democratic convention have been practically completed. Work on the new auditorium has been hurried until nothing remains to be done except to place the seats in position and allot the space to various delegations. As an indication of what the attendance will be, the unusual demand for seats at the convention is significant. Those

sent to the Chinese colony after the fire of April, 1906. Mr. Lian of Pekin, who has been appointed a special commissioner to supervise the work, says the Chinese government was prompted to undertake the project because there is no school in this country where Chinese scholars can acquire a practical or higher education in the Chinese language.

Sperry, commander-in-chief of the Atlantic fleet, upon its arrival in this city, Saturday, was finished yesterday. The key weighs 10 time, thinking how he can make his covered to the country of the coun ounces. Ten thousand seats for the official reviewing stand have been sold. time, thinking how he can make boxing a science." One of the features of the reception to

the train carried at least twenty-five couples who are making the trip with matrimonial intentions. A great many of them came from other parts of the state to make the trip to get married.— Richmond Cor. Baltimore Sun.

them married-earn their own living.

WORK OF CONGRESS.

Senate.

The sundry civil appropriation bill, carrying a total of about \$120,000,000, was passed by the Senate on the 14th. This is the last of the large supply bills, and its passage places the Senate squarely alongside the House in the consideration of the appropriation bills, and of the entire fourteen leaves only the general deficiency and the military academy bills to be considered. A portion of the session was devoted to the consideration of the bill suspending the penalty feature of the commodity clause of the railroad rate bill. At 4:50 p. m. the Senate adjourned.

Railroad Magnate Believes in Object

and Talk.

PRESIDENT'S IDEA IS GOOD ONE.

adjourned.

The Vreeland currency bill, which was passed by the House on the 14th, was delivered to the Senate on the 15th and at once sent to the committee on finance. Senator Aldrich promptly made a report from the committee substituting the Aldrich bill in an amended form, and it was passed by the Senate. This action threw the bill into conference, and an effort will be made to reach an agreement at a early day. At 5:12 p. m. the Senate adjourned.

p. m. the Senate adjourned.

The Senate on the 16th adopted a resolution reported by Mr. Aldrich from the committee on finance giving that committee authority to employ expert assistants necessary to provide for an intelligent revision of the tariff and to report that further legislation is needed to secure an equitable treatment for agricultural and other products of the United States. The committee is also instructed to collect proof of the relative cost of production in this and the principal competing foreign countries. A bill was passed appropriating \$5.000,000 for the acquisition of lands on the water sheds of navigable streams in the southern Appalachian mountains and the White mountains of New Hampshire and Maine. Senator Carter secured an agreement to make the postal savings bank bill a special order in the Senate held a short legislative sessioner the 18th research production the senate held a short legislative sessioner the 18th research products of the products of the senate held a short legislative sessioner the 18th research products of the senate held.

to treat is cynically, but they are wrong. Everything has to have a beginning and it is easy enough to be cynical. In an annual convention of the governors of the states of this land I see an institution which can be nurtured and built into one of the great forces of the nation. "Neither the first meeting, nor the second, nor the third, nor the fourth will show results which the public mind will be able to graph, but I should say that after the expiration of the formative period big things will be realized. In an annual convention of the formative period big things will be realized. A Democratic speech prepared for circularior of the formative period a pass which should occar.

A Democratic speech prepared for circulation in the coming campaign was delivered on the 19th by Senator Taylor of Tennessee. Mr. Taylor devoted his attention chiefly to the tariff and currency policies of the Republican party. The Senate agreed to the conference report on the agricultural bill carrying a total of \$11,672,106.

Senator Rayner again made an appeal for

MILWAUKEE STOCKYARDS REPORT.

CATTLE—Stronger; butchers' steers, good to choice, 5.50@6.50; medium to good, 4.25@5.50; canners, 1.75@2.25; cutters, 2.50@2.85; bulls, good to choice, 4.00@4.50; bologna bulls, common to fair, 3.25@4.00.

Demand for milkers and springers limited to few choice cows at 35.00@45.00; common sold for canners.

The cattle market at the local yards was strong against a weak market at Chicago, but there were only 50 head on sale at the advance. Calves also rose in price, while sheep remained steady with 150 and 50 head respectively as receipts.

—CATTLE.—

The House devoted the entire day to the market at the local yards was strong against a weak market at the local yards was strong against a weak market at the local yards was strong against a weak market at Chicago, but there were only 50 head on sale at the advance. Calves also rose in price, while sheep remained steady with 150 and 50 head respectively as receipts.

—CATTLE.—

The House devoted the entire day to the conference or convention.

Afraid of Politics.

Afraid of Politics.

But I want to say right here that I believe Washington should never be selected as the place of another meeting of the kind. The atmosphere of the capital is essentially political. You must keep politics out of this institution. I think a city like Springfield, Ill., would be an ideal place. Then there are the large university and college towns. The place chosen should be where big agricultural experiments are being carried on. There you would have object lessons to hand—lessons

The House devoted the entire day to the

are being carried on. There you would have object lessons to hand—lessons which are essential—for our redemption is to come from the soil and in no other way.

"It is all very well to hold conventions and prepare papers and talk, but we might as well stay at home if our papers, our talk, and our purpose mean nothing. At the recent conference, talkers were limited to twenty minutes, and to illustrate what I have just said, I want to mention the case of a man from Chicago who got up and used fifteen minutes of his time telling us that if the world kept going around as it has been doing for so long, that at the end of 10,000 years it will have shrunk a foot though erosion.

Chuckled Over Statements.

"I could not help but chuckle over this"

"I could not help but chuckle over this terrifying announcement. That, indeed, is looking ahead. I am more modest: 2000 or 4000 is far enough to plan, I think. But what I hope to see is the people looking ahead and planning for a couple of generations."

DENVER IS PREPARED.

Attendance at Democratic National Convention Promises to Be

Large.

House took a recess.

The process of cleaning up preparatory to adjournment was continued in the House on the 16th. The sundry civil appropriation bill was sent to conference, the conference report on the military academy bill was agreed to, the general deficiency appropriation bill was reported and the following bills passed: Granting compensation to government employes for injuries sustained in the service, authorizing the continuance of the inland water ways continuance of the inland water ways continuance of the inland water ways continuation to the service of the inland the following bills passed: Granting compensation to government employes for injuries sustained in the service, authorizing the continuance of the inland water ways commission and agreed to, the general deficiency appropriation bill was reported and the following bills passed: Granting compensation to government was continued in the House on the 16th. The sundry civil appropriation to the military academy bill was sent to conference, the conference report on the military academy bill was agreed to, the general deficiency appropriation to the service, authorizing the continuance of the inland water ways continued in the House took a recess.

took a recess.

The passage by the House of the general deficiency appropriation bill, carrying \$17,-368,572, marked the completion by that body of the last of the great supply measures on the 18th. Several measures were passed by unanimous consent, including a joint resolution providing an annulty for life of \$125 a month each to the widows of Surgeons James Carroll and Jesse Lazear, United States army, in recognition of their discoveries in connection with the transmission of yellow fever by mosquitoes. At 6:14 p. m. the House recessed.

The conference report on the legislative

took a recess.

will be, the unusual demand for seats at the convention is significant. Those in charge of the convention for the national committee say that the requests for seats is easily twice as numerous as at any other convention the Democratic party has held.

SCHOOL FOR CHINESE.

San Francisco Children Will Be Educated at Their Own Institutions.

SAN FRANCISCO, Cal., May 20.—A Chinese school where the children of local Chinese may be educated in Chinese is to be built in this city at once. It will be the only school of its kind in this country. The school will be built with \$50,000 of the \$100,000 relief fund sent to the Chinese colony after the fire of April 1906. Mr. Lian of Pekin who

England has plenty of natural fighters, says Tommy Burns. "The trouble is they take to the business too late; they don't know how to train, and their fighting methods are antiquated. If boxing were taken more seriously in England, the country could produce any number of champions. A man who means to be a champion fighter should take to the business by the time he is 18. I was 20 when I started, and although I had previously tried every form of athletics, I could with advan-

FOR THE LADIES.

Let me look always forward, never back! Was I not formed for progress? otherwise, With onward-pointing feet and searching Would God have set me squarely on the Up which we all must labor, with life's

pack?
Yonder the goal of all this travel lies;
What matters it if yesterday the skies
With light were gilded, or with clouds
were black?

I would not lose tomorrow's glow of dawn
By gazing backward, after suns long set.
New hope is fairer than old regret.
Let me pursue my journey and press on—
Not, 'earful eyed, stand ever in one spot,
A briny statue, like the wife of Lot!
—Elia Wheeler Wilcox, in The Nautilus.

-0-:-0-Cause of Empty Pews in Church.

Why men do not go to church-except in the Catholic communion—is a matter of grave and continuous concern, and many are the devices clergymen have resorted to for enticing them to the house of God. Sometimes the inducement takes the form of a smoking club annex, and recently parlor socialism has been introduced as a method of pew filling. religious press and the ministry have been much exercised to determine the cause of this indifference, and many reasons have been advanced, among which none surely is more far-fetched than that which attributes it to man's reluctance to hear his business methods and principles rebuked from the pulpit, and to have his sins brought before him by hymns, Bible reading, and preaching. When will the religious press and the Protestant pulpit realize that the fault is with the churches' message, not with the laity, and that the true reason why the majority of both men and women not church attendants is because they want what one distinguished New York rabbi left his ecclesiastical fold and became an independent ethical leader to give them-ethical truth stripped ecclesiasticalism? Heresy trials, higher criticism, and progressive Christianity, which result in the revision of creeds, are all great shocks to generations brought up to believe that the creeds, and the ecclesiastical interpretation of Scripture, and the Bible itself, are all the word of God, and the will of God; but when the authority of creed interpretation, and the Holy Book is assailed, not by infidels, or by those of opposing faiths, but by reverent and intelligent erstwhile creed adherents, it must inevitably beget in the laity a loss of confidence in religious leaders and conmunions, and dispose it to question the soundness of anything now put forward as ecclesiastical truth. Why, it asks, if the churchmen have been deceived all these centuries as to the inerrancy of the Scriptures, and the religious authority of creeds, may not what is now pr claimed latter day ecclesiastical truth be quite as much error as were the earlier

The Protestant church has, in a large measure, lost authority, and that is what keeps its pews empty of men and women while the ethical culture halls are crowded. Its decadence or its further development depends upon the message it has for a world that hungers for religious truth.-Vogue.

The American Wife. Your wife doesn't want you to love her She wants you to show it more. She doesn't want more indulgence. She wants more life. She wants a broader life, not that she may neglect her funcamental duties as a wife and as a mother, bu, that she may bring to these duing all the treasures of his life that she ties more wisdom, more experience. wants, in short, the square deal which which he drank to her. In Alexandria, she had a right to expect when you married her. Her desire is more than a desire. It is an instinct: an instinct born bows with Roman, Green, and Egyptian, in her by sex heredity. The husband with slave and noble, the Queen and who disregards this instinct will wake up some day to find his marriage a wreck unrealized hopes.

Perhaps, you are not only a good provider, but do continue to tell your wife you love her. Perhaps, in spite of all, she is unreasonable enough to be discontented. She wants something! She doesn't know herself exactly what she wants. She has a good home a good husband, good children. She has her household duties and the care of her children to occupy her time. Whether she knows it or not she wants contact with life outside Ler home. If she is a woman of great energy, of executive ability, she propably wants more occuation. That does not mean she wants be a stenographer or a public lecturer. It doesn't mean necessarily that she wants any gainful occupation. You say she has her housekeeping; her children to train. To do these traings is her sphere. Let her stick to tl.em. The importance cannot be overestimated. You are entirely right. She should never neglect these fundamental duties. One of the large fundamental duties. One of the large fundamental duties are should never neglect these fundamental duties. One of the large fundamental duties are should never neglect these fundamental duties. One of the large fundamental duties are should never neglect these fundamental duties. One of the large fundamental duties are should never neglect the people call to her. Cleopatra is going to Cydnus in the golden barge fundamental duties. One of the large fundamental duties are should never neglect the should air as the people call to her. Cleopatra is going to Cydnus in the golden barge fundamental duties. One of the very reasons she needs other interests, other occupations, is that she may bring more knowledge and new enthusiasm to these duties. Can she best teach her children the meaning of life by knowing nothing of it beyond the walls of her home? She canont, any more than you can best conduct your business by knowing nothing of business in general.-Appleton's Magazine.

Was Ever a Finer Compliment Paid to Women?

Septimus Dix-Simple Septimus-is a genius, an inventor of guns. He is as eccentric as such men often are, and all his movements are wonderfully interesting. But, withal, he has a marvelous power to express truth directly and beau-Listen, for example, to this of his, as it came out in the course of a conversation with Zora Middlemist, the heroine:

"Whatever one does or tries to do, one should insist on remaining human. It's good to be human, isn't it? I once knew a man who was just a complicated mechanism of brain encased in a body. His heart didn't beat; it clicked and whirred. It caused the death of the most perfect woman in the world."

drawn to him.
"Who was it?" she asked softly.
"My mother," said he.

They had paused in their stroll, and were leaning over the parapet above the railway line. After a moment's silence he added, with a vague smile:

"That's why I try hard to keep my-self human—so, that, if a woman should ever care for me, I shouldn't hurt her."

A green caterpillar was crawling on his sleeve. In his vague manner he picked it tenderly off and laid it on the leaf of an aloe that grew in the terrace vase near which he stood.

'You couldn't even hurt that crawling thing-let alone a woman," said Zora. This time very softly.

He blushed. "If you kill a caterpillar you kill a butterfly," he said apolo-

getically.
"And if you kill a woman?"
"Is there anything higher?" said he.

-0-1-0-Boston's Emmanuel Clinic.

Harper's Bazar is determined that its readers shall have the benefit of the Emmanuel church work in Boston, if they need it. So the editor of the Bazar

has persuaded Rev. Samuel McComb to write about how nervous women in his church are helped to help themselves. He says, among other things, in the May

"The Emmanuel clinic in Boston aims

not only at directly helping sufferers by

well-known therapeutic measures, such as suggestion administered in a waking or hypnotic state, psycho-analysis, mora and religious re-education, and so forth or again do we listen to the supplicabut also at helping them to help them selves. I will briefly describe a few

typical cases which may, perhaps, courage other sufferers to set about task of self cure. A sufferer from func-tional insomnia was enabled to rid himself of this misery. How? First of all the despair which sleepless nights breed was dissipated and the curability of the trouble made clear. Then the necessity for varied and congenial work in mod-eration was insisted on—work alternating with rest and recreation. Especially was he taught how to prepare himself for sleep. Each must decide for him self what occupation will most soothe and quiet his mind, whether a game of or the reading of a comic paper, or genial conversation with a friend. The sufferer will do well to spend the time preparatory to retiring in some such way. Finally, the patient was induced to practice the art of auto-sug For fifteen minutes or so night-

now enjoys six and sometimes seven hours' refreshing sleep. "Another patient came to us some time ago complaining not of sleeplessness. of sleep made miserable by frightful dreams, especially by one bad recurrent dream. Here also the patient practiced auto-suggestion. She was instructed to auto-suggestion. She was instructed to write out her dream so as to render it part of her conscious waking experience. Soon she was able to report that though the vision recurred, it was in a less

ly he talked sleep to himself. The result of all this effort has been that he

Soon she was able to report that though the vision recurred, it was in a less tragic form. Later it gradually ceased to appear, and finally vanished away. A third patient was a victim of indecision and extreme emotionalism. With settled down upon her. After explana-tions as to the power of attention to create and intensify nervous states, as how the conscious will can do much to control the subconscious mind, and as to the efficacy and method of good, healthy self-suggestions, this woman was set well on the road to recovery. Here are some of her own words: I am better, a great deal better, mentally and physically, and I am beginning to learn what a wonderful power there is in suggestion. The more I use it the more remarkable it seems. When I feel discouraged, despondent, or suspicous of people, and suggest to myself the opposite of these conditions, I find that after a time the outlook changes.' Similar testimony has been borne by scores of

Cleopatra Still Mistress of the Nile. One famous figure stands out in the history of Egypt and the Nile, giving river, country and seaport a lasting charm. All along the river, from Philae, lasting above all at Dendera, the shores are per sonal with the recollections of the woman than whom no queen was ever more bril liant, whose charm, seduction, wit, and human fascination have been made immortal by the masterpieces of the world. Antony, as did her subjects, called her Egypt. And the country, whose shape s a lotus, whose emblems are the serpent and the papyrus, is instinct with the grace of this empress. Alexandria, her capital and playground, was a garden, a in making one good piano. Suitable mapleasure park for her, a banquet hall terials must be brought together from where beside her on her couch Mark Andistant places; but all of those necessary tony delivered up Caesar, Italy, fame and honor into her beautiful hands, giv-She | might dissolve them in the winecup from | the mad Antony made sport of the etiquette that hedges royalty. Here, where he had originally bewitched Caesar held Antony, until kingdom and his old glories were nothing to him; and here in Alexandria she lifted him, defeated, broken, anto his tomb; and here, beside him, she herself died. So intense is the cartouche that Cleopatra has left Egyptian history and on this marine city that the ugly bustle of commerce, where Jews, Greeks and Egyptians fight today for stocks and bonds and land speculations in the modern cosmopolis, is lost and forgotten as the old capital rises like a mirage on the edge of the desert and, as one thinks of Cleopatra, shines again with something of its old glory.

The Queen's pink obelisks (one of which is now in the New York Central park) re seen again in their old place, and its effect. shouts and cries tremble upon the ground her feet have trod; she is a god-dess; she is Isis—Hathor; she is Empress of Upper and Lower Egypt, Mistress of bloomer trousers stood there. The boy But she is, above all else, a woman whom Antony has named his "Serpent of Old Nile." Her ship puts out for sea, and the seaside crowded with citizens is black like a pall. As she sails away, the heart of Egypt goes with her, and the great river and the land have in all their history no more sumpous memory than the memory of her.

Marie Van Vorst in Harper's Magazine. -0-0-Matrimony by the Year.

We engage in matrimony too lightly. We marry for the moment, and our motives are not often good nor pure-yes, I am obliged to say it, disagreeable though it may be—and are often sordid.

Two years ago, I was discussing the subject with a young girl at Newport. She was then engaged, and her wedding was to be one of the "functions" of the town year. She spoke so flippantly about her future that I could not help asking her: "Well, are you really in love? Have you considered the step you are taking?" And she laughingly replied, "Oh, but there are the divorce courts you know the laughing of the step you have the step you are taking?" courts, you know. It is all so easy, and you become such an interesting personality in the eyes of the public. In fact, I shall try it a year, and if it does not go, I shall 'chuck' him."

When I was a boy, I sometimes went to rather primitive outcomes in the content of t

Old Virginia town. The sets in the village were graded by religion, and the Episcopalians as we called them there were the aristocracy. Occasionally we would steal out to a Methodist or Baptist gathering, where there were pretty girls, and charming ones too, although not in our caste. At these "parties" dancing was allowed, as it was considered sinful, but we all played a round game which was nothing else but the old reel "The Wild Irishman," except that there was not the recommendation of the reco that there was no musical accompaniment. Each girl had an escort, but there was an extra man, and it was his role to try while the couples walked a grand chain to oust another man and take his partner. When this was accomplished—the game was something of an innocent romp-the girls used to

Women the Best Speakers. During the campaign of the Women Suffragists in London, the Pall Mall Gazette said: "Everybody seems agreed that the best speeches are being made by the lady suffragists. Within three hours I heard seven of these speakers, and an equal number of men; and the speeches of the women were far more acutely rea-soned, more happily expressed, and dis-

tinguished by a better grasp and closer knowledge of the questions of the day. Whatever may be one's own views on women's suffrage, no fair man can deny the remarkable ability with which it is being presented by the women in Peck-

MANY WOODS IN A PIANO. United States Can Meet the Demands for Them.

As many kinds of wood are used in the making of a piano as in the making of a house or an ocean-going steamship. Certain woods possess qualities demanded by piano manufacturers, and no substi-

tutes will be taken. The sounding board, for instance, or without provocation she gave way to tears, and a sort of moral indifference to the ordinary interests of life had pieces glued together—the whole thing would hardly make enough kindling for a fire, if a hatchet were used on it. But it is the one essential thing, and without it there could be no piano.

It is selected with care, seasoned in the most painstaking manner, cut and shaped by experts, and it becomes the soul and life of the instrument. Had the spruce used in a sounding board gone to the pulp mill instead of the piano fac tory, it would have made about enough paper for a couple of sheets of music. The piano's frame, the part which holds the strings and endures the incessant strain of several tons, is usually of elm. Bicycle rims are of the same wood, and the enormous load which a thin strip weighin well known. weighing a few ounces can carry is

The visible part of the piano is the veneer, the thin shell of wood glued over he outside of the frame. The music would be as fine and the frame as strong without the veneer. But it adds beauty and for that reason a beautiful wood is selected, and is stained, varnished and polished. It may be walnut, mahogany oak, ash, maple, cherry, or rosewood. It is as thin as egg shell, but it hides the heavy poplar planks to which it is glued. Yellow poplar is nearly always used for

backing of piano veneer. Maple and cedar are commonly used for bridges, levers, hammershanks, backstops and other small mechanisms, while white pine is excellent for keys. in making one good piano. Suitable ma terials must be brought together from are found in sufficient quantities in the United States; though considerable amounts of the finest foreign woods are brought in for veneer on high grade in-

INITIATING A SENATOR.

A Page Shows Him How to Get Around the Capitol Quickly.

There are many ways in which the new senator learns when he gets past the vice president's desk, and one of the most fruitful and unreserved sources of nformation is the Senate page.

The Senate page is an institution without a parallel. The dozen or so young Americans who enjoy the honor of run-ning errands for the solons are bright. and by no means backward, and they are philanthropically ready at any moment to impart information to the new senator The new member of the Florida delegation, Senator Milton, who was sworn in on Monday, took a lesson from one of the youthful Mercuries that day, accompanied with an actual demonstration of

Mr. Milton found his way about lunch time to an elevator, intending to refresh the inner man in the dining room, down in the basement. When he reached the shaft a sprightly young American in a blue serge Norfolk jacket and a pair of immediately started in to get acquainted. imparting the information Delicately that he knew the senator was a one," the page proceeded to show him

how to ring for an elevator.
"You see," he said, "three rings means that a senator wants a lift, and that he don't want to have to wait long either. No matter who or how many may be in the car the elevator man starts for the senators' floor and takes him up or down, wherever he wants to go. Then he lets the other people off where they want to See-this way.

Three rings jingled through the corridor and the elevator was there, with half a dozen passengers.
"We want to go down," said the page. we want to go down, said the page, with a familiar flourish of his head toward his protege. And in they stepped—senator and page—and down they went.—Washington Herald.

A Free "Ad."

The little village could not boast of ery many entertainments, and consequently a concert was looked forward to ith great delight by the inhabitants. It so happened on one occasion that a renown who had just scored inger of some signal successes at Covent Garden ame down to spend a few days with he squire and smilingly acquiesced in he request of the vicar that he should ing at the village concert.

His song, which was delivered with eep feeling, for which he was famous, was the old favorite, the "Village Black-smith." In response to a vociferous encore

was about to give one of his operatic successes when the chairman tugged ard at his coat tail.

"Better sing t'owd 'un over agen, mis-ter," he said; "I 'appen to be the chap you've been singing about-the village olacksmith-and I reckon it 'ud only fair to me if you was to sing it all over agen, and pop in another verse saying as 'ow I let out bicycles."—Punch.

Tents Used as Uniforms.

A California inventor has devised an nteresting shelter tent, the canvas covering of which can be divided into sec tions and worn as a garment or uniform during the day, says Frank H. Gotsche in the Popular Mechanics.
Adapted for the use of troops, hunters and campers in general, the uniform, or poncho, as it is called, somewhat re-sembles the uniforms sometimes worn poncho, by the soldiers of oriental countries.

It Pays to Advertise.

OF GENERAL INTEREST

In dissecting a duck to learn the cause of its death, Fred Prageman of Meriden, Conn., found a wedding ring which his wife lost nearly twenty-five years ago. Mrs. Prageman now believes that she lost the jewel while playing with her baby in a swing suspended from an apple tree on their farm in Valaville says the tree on their farm in Yaleville, says the Cincinnati Enquirer. The tree has since been cut down, and this spring Mr. Prageman ploughed the ground for the first time. The duck that died fed with others in the loose earth, and was probattracted by the ring, which was still bright.

Eight horses attached to a circus wagon with a Lippopotamus in it, became frightened during a parade in Cleveland, O., the other day and ran away. They dashed down Scranton road hill at terrific speed. The driver tried in vain to check them, but could not. He threw on he brakes, but the weight of the wagon was so great that the brakes broke. The crowd, panic-stricken, scattered in terror as the great wagon, weighing tons, careened back and forth across the street, threatening to upset at any moment. The hippopotamus snorted loudly in its fright, adding to the confusion. There were many narrow escapes from death, the wheels of the gilded car narrowly missing several persons in its path. Finally two of the front horses broke loose, the whiffletree snapped and the last two horses were entangled in the harness. Both fell. The great wheels rolled ever them and they were instantly crushed to death. The back wheels caught on the bodies of the horses, however, and the chariot came to a stop. The terrified animal inside jammed himself against is cage and endeavored to break loose. but the keepers quieted him.

Awakening in their burning home at Klingerstown, Pa., with flames licking the bed they occupied, William Rothermel and wife fled for their lives, but out-doors remembered that Nellie, an infant. was in her crib upstairs. Rothermel was about to rush into the building when the roof fell just as the baby, black from smoke, appeared through the front of the mine to which he goes. haviny crawled down a long flight

Dr. George C. Wilkins performed an operation on Raymond, the 2-year-old son of Mr. and Mrs. Herbert Martin of South Dunbarton, N. H., to remove two yellow eyed beans which lodged in the nose two months ago. He discovered that the beans had sprouts more than a half inch long. The baby had suffered severely since he placed the beans in his nose, while at play.

One of the most unusual blowouts that ever occurred in the Humble, Tex., oil field happened when a well drilled by Harry R. Decker blew out and brought from the depth of 200 feet below the surface of the earth a whole tree. Pieces of the tree were collected and are now being kept for verification of the remarkable occurrence. The wood is in a good state of preservation, not withstanding its many years in the earth. The well that blew out is the fifth that has suffered this experience in this tract of land. The pressure here seems to be much greater than in any other part of the oil bearing territory.

Elder Joseph Hall's son Leonard, 15 years old, and Mrs. Sarah Proffit's daughter Annie, 11 years old, were married at Upper Rock House Creek, Ky. The ceremony, performed by Elder Hall, who is a pillar in the Hardshell Baptist , was witnessed by many rela-The boy and girl fell in love and did their courting while attending the district school and determined to wed. parents looked on the match as a 'calf love" attachment and tried in evhad played with since she was a baby. The girl almost broke down as she kissed the dolls good-bye. The young husband has been offered a position in a local store and says he will support young wife to the best of his ability. His father, while not rich, is comfortably well to do, and says he will see that the young couple do not find the matrimonial sea too rough at the start.

"Applications of very hot alcohol and were recommended strongly to water' John Barreuther of Winsted, Conn., who suffered so with rheumatism he could scarcely move. Barreuther put basin containing about nine parts of alcohol to one of water on a gas stove the other night. After awhile, without turning out the flame, he dipped a big piece of flannel in the basin. As he lifted out flannel a tall and beautifully vivid bluish flame shot up. Mr. Barreuther dropped the flannel. It set fire to some newspapers on the floor; they ignited the hanging on the mantelpiece and from that the man's nightic caught. By the time he put out the fire Barreuther was not even limping. He says that the treatment is rather heroic, but there is nothing like very hot alcohol and water for rheumatism.

A gray-bearded wharf rat at the Aiken lumber yard, Perth Amboy, N. J., chews tobacco like any old bo'swain. Ed Tompson, watchman at the yard, uses plug that reeks with licorice and mo-asses. Tompson left his plug on a pile of boards one day; he saw the rat take good chew of the tobacco. After that Compson, who is not selfish, and who s lonesome at the yard, left a chew of tobacco for the rat every day and they became fast friends. Now the rat has the habit and comes to the watchman for its chew. Tompson declares the rat loes not swallow the tobacco, but chews it like any human and seemingly greatly enjoys the flavor.

Miss Caroline Tibbetts, aged 23, of Toledo, O., overcome with the loneliness of the desert station of Danby, Cal., where she was recently assigned to duty as railroad telegraph operator, committed sui-cide by shooting herself through the head. Miss Tibbetts, who had been ill, was unused to the quiet of the desert, and for several days had been in a restless frame of mind, declaring repeat edly that it was better to be dead outright than buried alive. The body has been sent to Toledo, where her parents are well known.

A Timely Yankee Invention. Recently, at the time of the explosion

on the battleship Georgia, by which a number of men, including the officer in charge of the gun crew in one of the turrets, lost their lives, there was loud complaint as to the character of the ammunition hoists in American battleships. It was said that these hoists led to the turrets directly from the ammunition room in front of the magazines, and in the event of explosions sparks were liable to fall through the hoists into the ammunition awaiting elevation into the turrets. This criticism of the hoists was repeated at the time Reuterdahl, the artist, aroused popular excitement and condemnation by that American battleships have their armor belts located so low that the armoring afford little protection above

by two processes, and that therefore the danger from sparks incident to trouble in the turret is obviated. inference was that the United States ought to borrow the British idea, and alter the hoists in all of the battle-ships. The Navy Department was convinced from experience that something should be done, and an appropriation was immediately secured sufficient to cover the expense of cortemplated altera-tions. But if the bureau of construcion had any intention of copying the

British hoists, it will probably abandon

the idea, as a Yankee invention has made

Washington dispatch announces

its appearance in the nick of time.

A washington dispaten announces that within a few days a new hoist will be sent to the bureau of construction for trial. It is a pneumatic device that operates on the principle of the package carrier; ammunition placed in a receiver is shot with great rapidity into the tur ets, and delivered to the gunners. tube is a closed mechanism through which no sparks can find their way, and the danger incident to explosions above the magazines is therefore completely eliminated. The British hoist is slower than the direct hoist which has been conthan the direct hoist which has been con-demned as unsafe, and had it become necessary to revert to its use, the rapid-ity of fire which American gunners have been cultivating at great expenditure of time and ammunition would have been interfered with. The new invention will enable the gunners to do their work even more rapidly than heretofore, as the pnuematic delivery is remarkably swift. Therefore Great Britain and other naval powers are more likely to copy latest Yankee invention than the A ican navy is to borrow the old doubl hoist.—Evening Wisconsin, Milwaukee.

RECENT LEGAL DECISIONS.

An employe in a mine, who leaves his place of work and goes to another part of the mine to reclaim tools which he has lent to a fellow employe, is held, in Pioneer Min. & Mfg. Co. vs. Talley (Ala.) 12 L.R.A.(N.S.) 861, to have no right to recover damages from the mine owner for injuries received by the fall-ing of slate from the roof of the portion

The owner of a building who lets the different floors to different tenants, re taining no control over them, and requiring the tenant of the upper floor to during the tenant of the upper noor to keep it in repair, is held, in Lebensbur-ger vs. Scofield (C. C. A., 6th C.) 12 L.R.A.(N.S.) 1025, not to be liable to the tenant of the lower floor for injuries to his stock from water from a closet which overflows because of the tenant's failure to maintain it in repair, or his negligent use of it.

The attempt by a labor union coerce a mill owner to unionize his mill by refusing to handle his product unless he does so, and notifying prospective customers of that fact, is held, in Purvis vs. Local No. 500. United Brotherhood, etc. (Pa.) 12 L.R.A(N.S.) 642, to be properly enjoined as an unlawful con-

One sending a telegram to another to meet him and be ready to return with him by next train is held, in Western U. Teleg. Co. vs. Shenep (Ark.) 12 L.R.A.(N.S.) 886, to have no right, under a statute permitting recovery for mental anguish, to recover as damages for delay in its delivery, by reason of which he is not able to return at that time, compensation for mental suffering because he fears something may have befallen the sendee, and, having only one day's leave of absence from his employment, thinks he may be discharged by overstaying his time.

A statute providing that adult fe males shall not be employed to work in ery way to persuade the youngsters to make small not be empty to the morning wait until they attained their majority. Just before the ceremony was performed the bride was found by her mother dressing several of her dolls which she do not be the small not be empty to the morning of a factory before 6 o'clock in the morning. In a detriment to the neighborhood as we as a loss to its owner and a vexation to the person who works it. "The was to the person who works it. "The was ing of the soil," said James J. Hill his eloquent address at the White House the contract of the soil of the soil, its eloquent address at the White House the contract of the contract of the contract of the contract of the soil of the soil." ing.

> An owner of part of a drove of cattle which, while being driven along highway, trespassed upon another's land, is held, in Wood vs. Snider (N. Y. 12 L.R.A.(N.S.) 912, to be liable for such part of the damage done by all the cattle as the number of cattle owned by him bears to the whole number of cattle trespassing upon the land, where the evidence justifies the finding that they did equal damage to it.

A stockholder in a corporation is held. in Stokes vs. Continental Trust Co. (N. Y.) 12 L.R.A.(N.S.) 969, to have the right, upon the increase of stock to be sold for money, to subscribe for a pro portion of new stock at the price fixed for its issuance, equal to that which his former holdings bear to the former issues, of which he cannot be deprived by the officers of the corporation and the majority stockholders.

One working a farm on shares, who ccupies a house thereon free of rent a part of the agreement, which occupancy is more conducive to his employmen than would be that of any other house, is held, in Mead vs. Owen (Vt.) 12 L.R.A.(N.S.) 655, not to sustain towards the owner of the farm the relation of tenant.

Squleching a Warbler. Jacob H. Schiff, on the way to Egypt on the Caronia, was criticising in th man who gave, all by himself, a little musicale every night after dinner.
"With a voice like that," said Mr. Schiff, "one is apt to meet with extra-

ordinary experiences.
"I have a friend with a voice like that a young broker. For his Christmas holi days my friend made a little tour of New England, visiting many quaint houses, many picturesque churches. "One Sunday he went to church it Salem or Gloucester or some such place and lifted up his tenor voice in

hymns and responded with a fervor and orce that made the congregation stare "Pleased with the attention he attrac my friend threw back his puffed out his chest, and, abandoning the last vestige of restraint, sang with all his might and main. A high note was approaching. He collected his powers to meet it. They were staring now-well he would give them something to stare for. What a glorious thing this congregational singing was! He must have more of it every Sunday on his return to New York.

"A heavy hand fell on his shoulder. He turned with a start and saw the sexton, an old, bent man, glowering at him, 'Here, young feller, hold your noise said the sexton in a wheezy whisper, audible all over the building. 'We pay people to do that here!' "-Washington of representatives and properly so. As

Backing Into the Winter.

At an Atlantic City hotel there is an old southern negro employed as head waiter. One afternoon last summer number of guests were remarking how cool it was for the season, and one of them turned to the old servitor. chanced to be standing nearby, and said: "Well, John, how do you account for its being so cool?"

The colored man thought for a mo-

the water line.

During the investigation following these reflections upon the designs of American battleships, it was stated that British battleships have double hoists from the ammunition rooms;! that the ammunition is sent upward to the turret

The colored man thought for a moment and answered gravely:

"Well, sah, dere hab been so many ob dese here earfquakes and volcanoes eruptin' dat de earf hab done shook off its axis and's revolvin' the odder way. It am comin' winter instead of summer."

—Philadelphia Ledger.

School Children's Eyesight.

The Association of Women Principals of the Public Schools of New York has called attention to two causes or eye-

strain to pupils.

One is the glare of the highly glazed paper used by many American publishers to bring out the contemporaneous half-tone illustrations with a high degree of effectiveness. The other is the use of long lines of type. There are some school books which present both of these defects. The use of glazed paper is common not only in books used in schools, but also in books intended for greened circulations. general circulation, and in the popular magazines. The New York Medical Journal agrees with the women principals in the belief that glazed paper and long lines, even when the lines are set in comparatively large type, produce

deleterious results.

As for the evil of long lines, it can be easily remedied. All that is needed is to set up books hereafter in measures that will not tire the eyes. But the illustrations-must half-tones be abandoned, because glazed paper demned? It should not follow. and German publishers print half-tones in excellent style on paper without a glare.

The Medical Journal talks of going back to the wood cut. That is out of the question—not, as the authority on therapeutics seems to suppose, because of the scarcity of good engravers. Good engravers could be trained if there were a market for their work. The rea-sons which the wood engraving has been superseded by the half-tone are the half-tone is incomparably the and may be produced with enormously greater speed. Time was when days were spent in preparing a single large wood engraving for any of the illustrated weeklies. Now a better picture can be turned out by chemical processes in a few hours.

in a few hours.

When the steel engraving came in there were those who sighed for the cop-per-plate. When the wood cut all per-plate. When the wood cut all but supplanted the steel engraving sighs for the steel engraving were frequently heard. But each of these developments was an economic improvement upon its predecessor, just as is the half-tone upon the wood cut. The hand upon the dial of progress rarely moves backward.— Evening Wisconsin, Milwaukee.

The Problem of the Rented Farm.

Do you own a farm? Do you rent it? Have you reason to believe that it is running down? Then you are interested in the suggestion of the Practical Farmer that farm leases ought to be for long terms, that landlords should exercise more discretion in the selection of renters, and that in every lease there ought to be stipulations defining the duties of landlords and tenants, so that the tenant will have a greater incentive than he has now to work the land in the most intelligent and least exhausting way, thus enhancing his own legitimate profits and at the same time protecting

the interests of the owner. There are many farms where noxious weeds are creeping in and where the crops show a small average yield because the land is losing its fertility. The situation is worse in the West than it is in the East and the South. It ought to be improved without delay.

A definite understanding with a tenant on the subject of the crop rotation is a wise precaution that should never be omitted. The tenant should be required to keep a specified number of cat-tle. He should not be allowed to sell hay and straw or to neglect the proper care of the manure. The landlord should furnish suitable buildings and fences.

By the proper regulation of these mutters both landlord and tenant would gain-and so would the community. A run down farm, accumulating weeds, a detriment to the neighborhood as weil as a loss to its owner and a vexation his eloquent address at the White House Conference yesterday, "is one of the greatest present perils of the nation."

The Killers.

It happened that once a man ran past Socrates armed with an axe. He was in pursuit of another who was running

in pursuit of another who was running from him at full speed.

"Stop him! Stop him!" he cried.

Plato's master did not move.

"What!" cried the man with the axe;

"couldst thou not have barred his way? He is an assassin!"
"An assassin? What meanest thou?"
"Play not the idiot! An assassin is a man who kills."

"A butcher, then?"
"Old fool! A man who kills another

To be sure! A soldier!" "Dolt! A man who kills another man in times of peace." see-the executioner."

"Thou ass! A man who kills another in his home. "Exactly—a physician." Upon which the man with the axe fled and is running still.-La Terre.

Rash Rogers' Experience. Poultney Bigelow said the other day

of the chicken farm that he is about to set up at Malden:
"I hope we succeed with the farm. hope our experience wen't too closely re-semble that of my old friend, Horatio

"Rash Rogers lived in the suburbs. On the suburban train one morning he said me with a sour laugh: I've got something nobody else has got, Mr. Bigelow.

'Have you, Rash?' said I. 'What "Well,' said Rogers, 'I bought a \$50 incubator last month, put \$15 worth of eggs in it, and hatched out a blue bottle

"He frowned, then sighed. "'Yes,' he said, 'I've got the only \$65 blue bottle fly in the world.' "—Philadelphia Record.

Elongated Belgian Orchards.

The Belgians border their roadsides with apple and pear trees of the cider and perry varieties and they draw a profitable revenue from their elongated plantations. Thus the 800,000 roadside trees of Belgium bring in an annual income of £13,000—that is, a little over 4d per tree, big and little; while they including contributions to a replanting sinking fund, a trifle over 1d per tree.— Car.

Mistletoe Too Dear.

An amendment to the agricultural appropriation bill providing for the extermination of the mistletoe as a parasite a traditional fomenter of marriage the mistletoe holds too poetical a place in the hearts of the people to be disposed of in this light and flippant way.—Baltimore News.

shown on July 4, is a question. There from Eighth street toward both ends. will be a paving on Delta avenue that will enable races to be held there, and a thorough use of the sprinkler should make it cool and dustless. The band has been practising hard, and should be in excellent tune that day. There is time to get up a program which shall be interesting without extravagance, and attractive to all. Something that shall keep the young people and the older ones interested. The town is developing a number of amateur athletes, for whom it is suggested that such prizes be given as amateurs may accept. parade may be gotten up, and the day made generally interesting. Although it is yet six weeks off, it is not too early to think about the question. We need not be afraid of over-exertion, we will have all the next day to rest from it.

The race between fire teams will be the feature of this year's tournament at Marquette. The modern fire department no longer pulls a reel or hook and ladder truck to the blaze. These events are interesting and good for the company's enthusiasm, but no more tests of efficiency at fires than throwing the things. shot. The fire department depends on its ability to turn out with the wagon and get there. The copper country papers are boosting and telling of their excellent teams and prompt dispatch. The Gladstone department has been complimented hundreds of times on its promptness, and there is no doubt that our representatives would rank among the best, if not take the prize. The cost is not great and the distance is no farther than the other contestants must go. Gladstone should be there.

The Rapid River Leaders came down locals. There is a picture in Goldstein's school building. window, by Charles Carlson, somewhat expressing the situation. The Tigers' next game will be played in Escanaba.

The eighth grade next year will number sixty, so that it will be necessary to give them the old high school room. A high school teacher will take charge of room now used for reading.

Dr. A. L. Laing will be at the office of Dr. M. F. Stever, in the Mc Nilliams' block, every Friday afternoon. from 1:30 to 6:00 and from 7:00 to 8:00, at which time he may be consulted by any so desiring. Practise limited to surgery, and diseases of women.

generally encouraging, and merchants Farrell. in the West are confidently stocking up. The company's business for April and May will be a record-breaker; in spite of hard times, exceeding any similar time of previous years. This certainly marks a return of confidence to the country, as the sporting goods line must be more affected than staples by

The county board will meet next Tuesday, to elect a chairman and to county road system.

You, who own a dog, must get a to. See advertisement.

The signs of a paved street are grow-The Gladstone Delta ing, to the relief of merchants, who found too much real estate in their goods. Scrapers have been at working bringing the sand which drifted over the sidewalks back to its place. The street will have a high crown, so that it will drain rapidly. The crushed rock will be furnished from Bichler's quarry instead of from Manistique. Four cars What degree of enthusiasm will be arrived Thursday, and work commenced

> Mayor Miller has announced that no one will be permitted to discharge cannon crackers, dynamite canes, or other dangerous fireworks within the city this Fourth. No other city of any size permits the use of any such mantraps at the present time, and dealers are warned to lay in no stock of them, as they are apt to be "stuck."

There is now but a block of sewer to be laid, and the work is progressing rapidly, so that with good luck it will be turned over in a few weeks to the With care and thought an excellent city. There will doubtless be a rush of work then for the plumbers.

> surprise that Gen. Bates had to intro- farm. duce himself in Gladstone, and says. "Didn't know the genial general, eh? Theodore Hook, wishing to visit Sunbury, was recommended to the Flowerpot inn. Now, there resided, it seems, at Sunbury in a large house an elderly gentleman, a bachelor of somewhat eccentric disposition, whose ruling passion was for his garden.

This was kept in admirable order and decorated with a profusion of or naments in the very height of suburban fashion-leaden Cupids, slate sundials, grottoes of oyster shells and looking glass, heaps of flints and overburned bricks denominated rockwork and. beyond and above all, with a magnificent vase filled with a flaming cluster of fuchsias, geraniums and a number of plants with brilliant blossoms and unutterable names which faced the en

Here one fine afternoon when the flowers and reached their acme of refulgence Mr. Theodore pulled up his dennet. A powerful pull at the bell brought a sort of half groom, half gardener, to the gate.

"Take the mare round to the stable, put her in a loose box and rub her down well. I'll come and see her fed myself in a few minutes. None of you rascals is to be trusted."

So saying the young gentleman threw the reins to the domestic, marched leisurely along the broad, brown, sugarlike looking walk, dexterously cutting off here and there an overgrown carnation with his whip, and entered the

Giving another tremendous jerk to the bell wire in passing, he walked into the dining room, the door of which happened to be open, took up a magazine and threw himself at full length upon the sofa. A tidily dressed maidservant appeared at his summons. "Bring me a glass of brandy and wa-

ter, my dear, and send Boots.' "Boots, brandy and water!" exclaim-

ed the astonished girl. "You may fetch me a pair of slippers yourself if you like, so make haste and you shall have a kiss when you come back."

Duped by the authoritative air assumed by the visitor (it would be indecorous to suppose another motive), the attendant disappeared and speedily returned with the slippers, observing, "If you please, sir, I have brought you a pair, but they are master's, and he is rather particular.'

"Nonsense! Where's the brandy and

"He never leaves out the spirits, sir; he always keeps the key in his pocket." "He must be a deuced odd sort of fellow then. Send him here."

"Master is dressing, sir; he will be down directly." And accordingly, after a few minutes, Mr. - made his appearance in full evening dress.

"My good friend," commenced Hook without raising his eyes from the paper, "allow me to observe that the rules of your establishment are a little inconvenient to travelers. I have been here above a quarter of an hour and have not been able to get so much as a glass of brandy and water. Bring me one immediately and let me know

what you have for dinner." "I really beg your pardon," said of Mr. - as soon as he could find words

"but I am quite at a loss"-"So am I, my good man-for a glass of brandy and water. Bring that and another for yourself, and then I shall be happy to hear whatever you have

"But, sir, you must permit me to state"-

"I was never in such a detestable house in my life," exclaimed Hook, starting up. "What do you stand there for instead of attending to my orders? Am I to be kept here starving all night? Bring the brandy and water, d've hear?"

The old gentleman was struck positively speechless, his face purpled. He seemed in imminent peril of choking with a sudden conflux of ire, indignation and astonishment.

"Why, the fellow's drunk," pursued Theodore; "disgracefully drunk at this time of day, and in his own parlor too! I shall feel it my duty, sir, to lay a statement of this inexcusable conduct before the bench."

Mr. — sprang to the bell. "John! Thomas! Turn this impudent scoundrel out of the house!"

The arrival of the servants led to an explanation. Nothing could exceed Mr. Hook's regret. What apology could be made? He was a perfect stranger to Sunbury, had been directed to the Flowerpot as the inn affording the best accommodation, and on seeing what he imagined to be a gigantic representation of the sign in question at the garden gate he had naturally entered and acted upon this erroneous impression.

This was the unkindest cut of all. To find a stranger reclining in full possession of his sofa and slippers was bad enough, but to hear the highest achievement of art he possessed—the admira tion of himself and friends and the envy of all Sunbury, his darling vaseto hear this likened to an alehouse sign was a humiliation which dwarfed into insignificance all preceding insults .-London Evening News.

W. STONE,

Circuit Judge. JUDD YELLAND. Solicitor for Complainant. Business Address: Escanaba, Mich.

HOMESTEADS.

A batch of decisions from the interior department has been received by the Marquette land office. One is the decision in the case of the United States vs. Paul McLauch, an Ontonagon homesteaders, who filed on a tract of 160 protected. acres. The commissioner of the land office recommended the cancellation of McLauch's filling, and McLauch took an appeal to the secretary of the interior. The secretary, however, upheld the commissioner's ruling. The ground for the ruling was bad faith on McLauch's part, it having been shown that the day after he submitted his of water till it forms a jelly. Now mix final proof he made a deal with a lum- a little of this jelly with wheat bran ber company for the saie of the timber and you have an excellent food for a on the tract. This was held to show that McLauch was not a bona fide homesteader, but had taken up the land in bad faith, with the idea of exploiting

In the case of the United States vs. Charles Lee, a homesteader in Drummond Island, the cancellation of whose agent of the department, the register and receiver of the Marquette office recommended that his title be confirmed. This recommendation has been concurred in by the commissioner. besides this, they will be smooth, rangy Abandonment of his homestead was pigs, making good roasters at any charged against Lee.

In the case of the United States against Peter Dutcher, against whom a similar charge was made, the receiver and register of the Marquette office recommended cancellation, and the commissioner has upheld this decision. Dutcher's homestead, like that of Lee, was located on Drummond Island.

After wrecking the safe in the bank at Raymore, Mo., recently robbers got 7,000 one cent pieces as their haul.

Spain on Sundays, and the inns must be closed on week days at midnight. At a recent tobacco exhibition in London some Harvard cigars were shown which were quoted at \$5 each. John Blue, a boy of Natalie, Pa., ate a quarter of a pound of smoking to-

bacco, which caused his death after great suffering. General Booth's latest project is to steamers to carry the army's emigrants

across the Atlantic. The Seven Stars hotel at Village Green, Pa., has been a public house for 145 years. It was the headquarters

of General Cornwallis in 1777. When George Murphy, colored, who pleaded guilty of larceny in Jefferson has wholly abandoned said land and changed City, Mo., was searched thirty-four razors were found in his pockets.

A Reversal. "What will happen when women

rule?" "Among other things, I presume father-in-law jokes will come into style." -Louisville Courier-Journal.

Censure or praise cannot affect a man

Heat of the Sun.

It has been computed that the temperature of the surface of the sun would be expressed by 18,000 degrees of Fahrenheit's thermometer, or between eighty and ninety times the temperature of boiling water. This is about five times the highest temperature that man is able to produce by artificial means. The light given off from the surface of the sun is reckoned as being 5,300 times more intense than that of the molten metal in a Bessemer converter, though that is of an almost blinding brilliancy. If we compare it with oxyhydrogen flame, the sun sheds a light equal to 146 times the intensity of the limelight.

Children's Favorite Toys.

A hundred and thirty-two schoolboys of Paris and seventy-two girls were invited to describe their preferences in the way of toys. Among the former thirty-one voted for a railway train, twenty-three for tin soldiers, ten for steam engines, nine for building bricks and eight for toy typewriters and mechanical horses. Forty girls—a solid majority-declared without hesitation that a doll was superior to any other implement of recreation. The superchild seems, happily, a long way off .-Pall Mall Gazette.

HINTS FOR FARMERS

The Winter Cleanup.

No matter how careful the farmer tries to be, there is always a great deal of trash that accumulates around the barn lots, along the fences and even in the fields, says the Farmers Advocate. The farmer should make it a practice to use all the old boards and fenceposts that have become useless during the year as kindling or firewood. These may be worked up into wood now and the place occupied by them put into a much better appearing condition. All trash that cannot be used as firewood should be collected and burned.

It is a good practice to burn all such wood in the hogpens. The charcoal and ashes make an excellent addition to the hogs' ration, and the very best way to get this into the hogpen is to make the latter the burning ground for all the useless wood on the farm.

The barn lots and hog lots should be cleaned of all manure and dirt that are not frozen to the ground. It is known succession of mills, of increasing sizes, that disease germs, especially cholera the frozen lumps of manure and filth ground, has been filled in to a large exin these lots. If these lumps are carted be kept in the lot next summer will be

Flaxseed For Swine. Professor Stewart says that flaxseed is a preventive of disease in hogs-a good food medicine. Its oil is very soothing to the stomach and intestines and is also rich in food for muscle and bone. One of the best ways to use flaxseed is to boil it in six times its bulk growing pig. This is also good for the brood sow, promoting her yield of milk. If used in this way one pound of boiled flaxseed is mixed with ten pounds of bran. Pigs very soon get a liking for the taste of flaxseed. Another way is to grind one bushel of flaxseed with eight bushels of oats or all the flaxseed that can be ground without sticking to the millstones. Then flaxseed with 200 pounds of bran. This will be the best kind of feed for young pigs, and it will be good for them all the time up to fattening, and, time. In other words, they will grow and fatten every day of their lives.

Facts About Angoras.

Angora goats will not protect a flock of sheep against sheep killing dogs. The experiment has been made, and it is reported a failure.

Angora goats and sheep will not herd together on a range. The two classes of animals separate into flocks.

Angora goats do not cross with sheep. The statement that the two will cross is an erroneous one.

Angora goat hair will prices than wool.

Angora goat flesh sells well in the city markets. In some cities it is reported that large quantities of goat fered for sale as goat meat it commands a lower price than sheep flesh. Angora goats will do well on the same treatment and feed that are suc-

No wine may hereafter be sold in cessful with sheep. Angora goats are hardy animals in some respects, but they need dry shelter in the winter.-Farm Progress.

Sheep Manure Valuable.

There is no other animal kept under more or richer manure for its live weight or for the feed consumed than the sheep, writes a correspondent in establish a fleet of Salvation Army National Stockman. It has been common experience that sheep kept during the nights in a well ventilated shed ter in which there is no risk of entanglement will leave a solid mass of the richest manure in the very best condition for use in the spring, and at the same time by the use of plaster liberally scattered on the floor there will be no disagreeable odor from it, while the sheep will be in perfect health. The sheep's manure is next to that of poultry in availability.

Test For Oil Meal.

Professor Woll of the Wisconsin station gives the following simple method of telling the difference between new level teaspoonful of it into a tumbler; then add ten tablespoonfuls of boiling water to the meal. Stir thoroughly and leave to settle. If the meal is new process meal, it will settle in the

Applying Lime to Land.

When light applications of lime are made they should go on the land after the sod has been broken. The tendency of lime is to go downward. When very heavy applications are made, as formerly was the rule in some limestone districts, it is the custom to spread the lime on the sod the season previous to the time of plowing. This is not the best method for light applications. Mix the lime with the soil after the sod has been broken.-Alva Agee in National Stockman.

The Cow Stable.

The cow stable should be well ventilated, lighted and drained; should have tight floors and walls and be plainly constructed.

No musty or dirty litter, no strong smelling material and no manure should remain in the stable longer than is absolutely necessary.

AROUND BIG BAY DE NOC

NAHMA.

property of the company, which under the main road, built in last year. operates one of the most modern lumbering systems in the country.

The Nahma & Northern railway, with thirty-six miles of standard gauge track, taps this country. The Nahma mill is built on an artificial island in deep water, and has a capacity of \$250-000 feet a day of soft wood, or half as much of hardwood. It is the latest of a which have maintained Nahma for germs, can live through the winter in many years. The town, on low-lying tent, and has been much added to, of to the field, the health of the herd to late years. The broad main street, upon which the office fronts, present the appearance of a long established village with well-built, comfortable houses and handsome trees. The cross-streets. which are newer, lack only the dignity of years, though deficient in no other respect. The office and store, the hotel, and the great boarding house, with other important buildings, have light and water from the dynamo and pumps of the adjacent roundhouse. The town has two churches, the older Catholic, and the newer one, erected last summer, a Union Protestant. It is a quaint building, of an old English order, designed by Mrs. Farnsworth. There are two school buildings with three departments and about one hundred pupils, although Nahma's population contains a large proportion of men without families, as does any other lumbering mix 100 pounds of this ground oats and town. There is a town hall, used often for entertainments, and a ball park which will be the scene of many exciting games this summer. The company has strict regulations for the barroom, to promote order and temperance among its employees. The population has, of course, a large foreign element, French, Bohemian, and noticeably, Indian. These last, who are not tribal, plant has not been put in operation. but citizens, are employed to load the

WILL LOSE HIS SIGHT.

Peculiar Accident Befalls Negaune (Mich.) Man While Fishing for Trout.

MARQUETTE, Mich., May 12.-Fish ing for brook trout from a raft in Morgan lake, west of here, Carl Mattson of Negaunce was the victim of a peculiar accident as a result of which he will probably become totally blind. He had hooked a fish and while endeavoring to land it he stumbled and fell. As he struck the timbers of which his raft was composed, an upstanding spike entered his remaining good eye, he having lost the sight of the other in a mining accident some five years previous. As Mattson was made blind by the accident he could not make his way to the shore and he spent all night on the raft, hopeless and unable to attract assistance. Finally his outcries were heard in the morning and after some hours he was taken to a hospital. There is said to be practically no chance of saving the sight of his eye.

FOREST FIRE CHECKED.

Heavy Rains Prevent Greater Damage in the Michigan Timber Belt.

CALUMET. Mich., May 12.- Special. |-Forest fire which had already done serious damage and threatened wide spreading ruin are effectuaily wide spreading ruin are enectuary checked by the neavy rains of past twenty-four hours. Woods along the southern part of Houghton county were afire and many farmers in that district narrowly escaped serious loss. One large barn was destroyed. North of Calumet the woods were burning. Capt. Mad-den of the steamer Alva, which passed lake ports, reported smoke from a for-est fire in the eastern part of the coun-ty, fifty miles on Lake Superior.

Swarthmore's Attitude Toward Athletics.

Swarthmore College has taken a stand in regard to college athletics which will attract wide attention, not only because it is experimental, but because it indicates that the faculty has been led to think deeply on the subject of athletics in discussing the wisdom or unwisdom of declining the Jeanes bequest, which hinged upon the abandonment of ath-letics entirely. On Friday last President Swain announced to the students that the facular had by unanimous vote de cided to recommend to the Board of Managers the abandonment of footbal and basket ball for an indefinite period. not less than a year, as the only way in which harmony can be re-established among the many friends of the institu

The refusal of the Jeanes bequest by the Board of Managers doubtless ex cited criticism among supporters of Swarthmore who believe that athletic as at present conducted are inimical to the morale of the student body. On the other hand, the advocates of athletics

mise can be made.
Football and basketball have been to strenuous of late years, and if they can be modified by universities generally most of the woes in connection with ath letics will be removed. Swarthmore can better afford to attempt the settlement of its athletic difficulties independent of such propositions as the Jeanes bequest, as decision at this time will not cause suspicion of mercenary interest.—Evening Wisconsin, Milwaukee.

Took No Chances.

Edward McIntyre, a Minnesota young man, has set an example of combined patience, endurance, and foxiness that it would be hard to match. An abandoned homestead near Estevan. Sas katchewan, was thrown open to entry, and animated was the scramble therefo McIntyre took pains to be the last in quirer at the land office on the day previous to that set for the filing. Then ing, a vigil of seventeen hours. Many others had gathered from all directions to get a chance at the homestead, but McIntyre was the winner. Whenever western Canadians want to be shown a trick or two, let them apply to Gophe

Growing Shorter Each Season.

The stream of fashionable equipages in Fifth avenue, New York city, is fast being depleted, and by another month that thoroughfare will assume a comparatively deserted appearance. The fashionable shopkeepers are the ones who notice with growing alarm that the season in town becomes shorter each succeeding year. The exodus to Europe is still on, and country houses are being opened every day. With the season of opened every day. With the season of outdoor sports at hand social operations for the next two months will be confined to the country, with periodical dashes back to town for this and that wedding.

Where It Came In.

The scene was a doctor's surgery, and a very parsimonious patient had just been prescribed for. The medico handed it to his patient, demanding half a crown therefor "Half a crown! Why, there isn't six-

pennyworth of stuff in that bottle! cried the man. "No, I don't suppose there is but I tell you what I'!! do. The next time you come to see me just pay the six-pence and help yourself from all these bottles you see around you."
"Ah! but I shouldn't know what to

take."
"Of course not. And that's where the other two shillings come in."—Pick-Me-

Badges Part of Uniform.

To inquiries which have reached the war department the reply has been made that campaign badges are now a part of the uniform of an officer, and the fact peninsula counties solid for Johnson, Chippewa being the other.

Johnson, that they have been adopted as a part of such uniform makes it necessary for officers to wear them as required in the case of the insignia of rank. HOUGHTON, Mich., May 14.—Clay Clement, an actor, and his entire company are stranded here, their baggage attached and the members of the troupe were contains a head of Lincoln, together with the motto, "With malice toward none, with charity to all." The reverse side contains a legend, "The Civil War, 1861 to 1865," surrounded by a wreath

DINGWALL TELLS OF HIS OPTIMISM

THEATRICAL MANAGER DECLARES MONEY STRINGENCY WEEDS OUT WEAKLINGS.

FINANCIAL AIR IS CLEARED.

The Institutions Which Outlived the Storm Are Now Doing Good Business.

LONDON, May 19 .- "Those calamity howlers who are making believe they know all about how things financial are in America, and are persistently trying to give the country a black eye, are all wrong. They make me tired, because I

This was what Mr. A. J. Dingwall, manager and proprietor of theaters in New York and Chicago, and formerly of Milwaukee, in addition to various other important enterprises, said in answer to a question as to how he thought things really were in the United States.

"The recent financial stringency has not been such a bad thing after all," he continued, "for it served to weed out the weaklings and bad ones. It cleared the inancial air just as a thunderstorm does n August.

Weeds Out Weaklings.

"Banks which had no right to exist anyway went to the wall. In the long run their failure will prove a blessing to the country. Those that survived the test are now on a sound basis and are doing [Special.]—Falling seventeen feet at the American mine, Carl A. Carlson of Marquette county, a Scandinavian, was short," he concluded, "times are steadily getting better. They are not half as bad as they are painted."

Have Toured Island.

Mr. Dingwall is accompanied on his trip to Europe by Mr. Charles Cook. They have just finished a pleasant automobile tour through Ireland. After stop-ping in London a few weeks they will our England and then the continent. Mr. Dingwall says he is not on the lookout to buy any European plays for his theater and he has no intention of producing any American play in London. He leaves that to managers who have ambitions in

DATA ON PAPER PRICE

HOUSE COMMITTEE GETS FIGURES FROM PUBLISHERS.

Average of Reports Shows Increase in the Market to Have Been Small.

WASHINGTON, D. C., May 18 .-The wood pulp and print paper invesfurnished a mass of statistical information today by the census bureau. On May 6 letters were sent by the comcirculation of 1500 or more. Up to last Saturday night 1911 answers had been received and these were turned over to the census bureau for compilation. Of that number 887 were sufficiently complete to enable the bureau to tabulate

the information. Taking New York as a example the tables show that on January 1, 1907, 106 papers reported that the average price was \$2.45 per hundred. On January 1, 1905, eighty-nine reported the average as \$2.41. On January 1, 1900, fifty-six papers reported it to be \$2.35; January 1, 1897, thirty-nine reported an average of \$2.19; January 1, 1894, thirty-two papers reported \$2.39, and on January 1, 1890, twenty-six papers reported \$3.24.

Regarding the removal of the tariff sixty-eight papers said it should be removed; thirteen thought it should not be; fourteen did not answer the query and twenty-four were non-committal.

CONSERVATION BILL IN

Measure Introduced for Appointment of National Commission by the President.

WASHINGTON, D. C., May 19 .-Senator Newlands of Nevada today introduced a bill for the appointment of a men and not insist upon the seniority national commission for the conservation of natural resources, and defining its duties. The President is authorized by the bill to appoint a commission of fif-teen members for the investigation of all questions relating to the conservation and control of the water resources of the United States for navigation, irrigation and municipal supply, power and swamp land reclamation, prevention of flood, prevention of waste in mining, etc. The commission is to report to Congress annually.

MAE C. WOOD DECLARES SHE RE-CEIVED \$7500 FOR EPISTLES.

Senator's Counsel Questions Witness in Divorce Suit About Hummel's Work

NEW YORK, May 19.-Mae C. Wood continued her testimony today in her suit for absolute divorce from United States Senator Thomas C. Platt. to whom she alleges she was married in this city in 1901.

Mr. Stanchfield of counsel for Platt continued his cross-examination of Miss Wood, questioning her about a release which she gave to Abraham H. Hummel, the former lawyer, in 1903, in which she agreed to accept \$10,000 in settlement of her claims against Senator Platt. Miss Wood declared yesterday that this release was signed under duress, but she said she accepted some

of the money.

Although Miss Wood had signed the release and declared in an accompanying affidavit that she gave the alleged Platt denied today that she retained Hummel as her counsel and declared that she could have obtained \$50,000 for the letters. Miss Wood said today that she was ference, the views contained in the let-paid \$7560 for the letters. She did not ters to the committee have been collated know where the money came from, she and "dangers" of the House bill pointed out as follows:

As the cross-examination progressed, As the cross-examination progressed, the questioning attorney frequently produced newspaper clippings purporting to recount interviews with Miss Wood regarding her relations with the senator and questioned her with reference to certain quoted statements. In many instances she acknowledged here stances she acknowledged having made the statements attributed to her, but in others she declared that she had not been correctly quoted.

In a letter written by Miss Wood to Abraham H. Hummel, which was produced by the examining attorney, she wrote that J Martin Miller had demanded that she buy him a diamond ring. "This," says the letter, "after the \$100 you remember I gave him in your office Well Leave him the \$100 your parts of the story well. your office. Well, I gave him the \$100 and told him for God's sake to keep away from my hotel."

Miss Wood testified yesterday that J.

Martin Miller, now United States consul at Rheims, France, had forced her to give up some of the letters she had received from Senator Platt.

tigating committee of the House was CLEVELAND TROLLEY COACH IS WRECKED-NO ONE HURT.

mittee to 6932 publications having a Municipal Traction Company Claims Gains-Rioting and Disorder Continue.

> CLEVELAND, O., May 19.-The trucks of a Superior avenue car were wrecked today and the car windows broken by the explosion of dynamite or giant powder placed on the tracks. The car was filled with passengers and a panic ensued, but none was hurt. Notwithstanding the widespread disor-

der in various parts of the city last night the Municipal Traction company today claimed to have more cars in operation than it any time since the strike began. With the approach of daylight the lawssness, which continued throughout the night, had in a large measure ceased, and cars were run on all lines without molestation. While a number of persons received injuries as a result of the assaults made upon the cars during the night, no one was seriously hurt so far as reported.

The board of arbitration was in confer-

ence with President Dupont of the trac-tion company today. It is understood that the company is willing to arbitrate tion all points in controversy providing the strikers return to work and stop the violence. The only condition President Dupont is understood to insist upon is that rule. This is done for the purpose of caring for the men who remained at work when the strike was called, whom the company desires to give preference.

WILLIMPROVE HARBOR.

Assurances Felt That Congress Will Appropriate \$237,000 for Duluth-Superior Bay.

WASHINGTON, D. C., May 19 .-[Special.]—Wisconsin and Minnesota members interested in the further improvement of the harbor at Duluth are today feeling jubilant because it is an assured fact that an appropriation of assured fact that an appropriation of \$237,000 will be contained for dredging and enlarging the harbor at that point. Today Gen. McKenzie, chief of engineers informally requested Maj. Fitch, of the Duluth district to prepare plans and specifications so that all such data might be in hand promptly to advertise the contract work just so soon as Congress votes the money. It is considered important by vessel owners that work should be commenced this summer and completed before the season is closed. The bill appropriating \$200,000 for the construction of a new revenue cutter for construction of a new revenue cutter for service on Lake Superior is assured of passage.

JAP WOMEN DEPORTED.

First Case Reported Under Agreement Between Japan and the United States. LOS ANGELES, Cal., May 19.-The

first Japanese women to be deported from Los Angeles under the agreement between the United States and Japan relating to the presence of Japanese citizens in this country, were started on their way yesterday when Chi Yone Minodo and Toshida Kiyona were sent north under special orders from the sec-retary of commerce and labor. They were arrested a month ago and were unable to exhibit proper passes to the

NO CURRENCY BILL AT THIS SESSION

MEMBERS OF CONGRESS AGREE THAT WORK WILL BE RE-SUMED NEXT FALL.

BANKERS ENTER OBJECTIONS.

They Protest Against Vreeland Measure and Conferees Do Not Reach Agreement.

'DANGERS" HAVE BEEN DISCLOSED

WASHINGTON, D. C., May 19 .-That there will be no currency legislation at the present session of Congress is now believed by many members to be almost a certainty. The conferees on the Senate and House bills have held several sessions in an effort to work out something under the head of the Aldrich-Vreeland bill, but they are said to have almost apandoned hope. As a result there is a decided sentiment among the conferees and leaders of both branches of Congress that the whole subject should go over until next session. In that event the work would be taken up next session by the same con-ferees, as the bills introduced at the present session do not die until the end of the Congress.

Bankers Make Protest.

The Senate committee on finance has Although Miss Wood had signed the release and declared in an accompanying affidavit that she gave the alleged Platt letters to Hummel as her attorney, she letters to Hummel as her attorney, she denied today that she retained Hummel based chiefly upon the charge that it produced to the shear that it produces the state of the shear that it produces the shear that it produ popes an asset currency through clearing house associations being permitted to issue notes. For the benefit of the con-

"First that the market value of government bonds would be impaired by reason of banks selling bonds in reduc-ing their circulation with a view to plac-

"Second, that many banks may be driven out of business. In organizing associations for the issue of the proposed notes, the stronger banks may be unwilling to guarantee the payments of the notes of the weaker institutions and consequently deny admittance to mem-bership. Unfortunate consequences could hardly fail to result in thus publiely branding a bank.

"Third, that a panic would immediately be precipitated if at any critical period the associations should take steps to issue the new notes. Knowledge of such steps could hardly be kept from the public."

FIT THE GROCER

Wife Made the Suggestion. A grocer has excellent opportunity to know the effects of special foods on his customers. A Cleveland grocer has a long list of customers that have been helped in health by leaving off coffee and using Postum Food Coffee.

He says, regarding his own experience: "Two years ago I had been drinking coffee and must say that I was almost wrecked in my nerves. "Particularly in the morning I was so

irritable and upset that I could hardly wait until the coffee was served, and then I had no appetite for breakfast and did not feel like attending to my store duties.

"One day my wife suggested that inasmuch as I was selling so. much Postum there must be some merit in it and suggested that we try it. I took home a package and she prepared it according to directions. The result was a very happy one. My nervousness gradually disappeared and to-day I am all right. I would advise everyone affected in any way with nervousness or stomach troubles, to leave off coffee and use Postum Food Coffee." "There's a Reason." Read "The Road to Well-

ville," in pkgs. Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of

Startling Arraignment of Engineers.

The New York Tribune has sounded startling warning as to the integrity of the new cantilever bridge over Black-well's island. This structure, the ends of which were recently ceremoniously joined, is the only bridge that is com-

the load that was imposed upon them. The Canadian commission which also sought the cause of the disaster reported that the Quebec bridge exceeded its calculated weight 18 per cent. on the sus pended arm, 25 per cent. on the cantilev er arm, and 30 per cent. on the anchor arm. An engineer has informed the New York Tribune that it is well known the Blackwell island bridge exceeds its esti mated weight by a considerable percent age, and that according to his own checking as to the calculated stresses on the portion of the Quebec bridge which gave way and precipitated the structure into the river the burden on the corresponding member in the Blackwell island bridge exceeds that on the Quebec struc ture by nearly a thousand pounds

ture by nearly a thousand pounds a square inch.

This startling statement in regard to the Blackwell island bridge arraigns the engineers who have had charge of the building of the structure for either miscalculating at the start, as to the weight and size of the various weight-bearing parts, er toying with human life in altering the design of the bridge by increasing the weight of the materials. The matter should be investigated more fully before the bridge is opened for general use, so that the public may for general use, so that the public may be safeguarded against a terrible acci-dent—if collapse of a bridge due to blundering can be called an accident.

The "Familiar Friend."

There is a young man in New York who has built up perhaps the most artificial business that the city has yet produced. He is professional escort to rich and unattended ladies who long for the sights of gay New York. Their husbands and fathers here on business weary and and fathers, here on business, weary and worn out when night rolls around, pay this young man to escort them to the joined, is the only bridge that is comparable in its size and reach with the while they are with business friends. joined, is the only bridge that is comparable in its size and reach with the great Quebec bridge, now in course of construction, an uncompleted arm of which collapsed in August last, carrying seventy-five men down to death in the river. Its contract price was \$5.132.985, but its cost up to this time is \$6,242,985, and a few weeks ago the Board of Aldermen of New York city authorized the expenditure of \$1,200,000 more to complete the bridge. This tremendous excess of cost over the contract price has aroused inquiry as to where the money has been spent, and it has been discovered that it has gone largely into additional weight of material. As bridges that are scientifically designed are supposed to have their weight-bearing requirement figured accurately, so that the structure will not be overtaxed with the weight of its own parts, fears have been engendered that the Blackwell island bridge has ben made unsafe by the addition of weight that was not provided of for in the original design. land bridge has ben made unsafe by the addition of weight that was not provided for in the original design.

Investigation of the collapse of the land bridge has ben made unsafe by one his clients kept on increasing until he found all his time taken up. New York to the visitor isn't only the theater, Fifth avenue or hotel. Some ed for in the original design.

Investigation of the collapse of the cantilever bridge at Quebec revealed the people want to see the bizarre, out-of-the-way corners that they have read about: on an overload of material used in its construction. The engineers who conducted the inquiry were unanimous in the conclusion that certain structure. the conclusion that certain structural members of the bridge were too light for the load that was imposed members and the strange shops. companionable person in town.

STRUGGLE WITH A TIGER.

The Strange Story of a Homeric Contest from India.

Two brothers, Khuda Bakhs and Shaikh Abdul Ghani of Moradabad, were dispatched recently to Rampur on an errand, and while entering a grove at Khadpura a tiger sprang upon Khu-da Kakhs, who, being an athlete, ward-ed off the blow aimed at him with his right hand and caught one of the paws with the other and maintained his hold. though the tiger was mauling the other

Abdul Ghani now rushed up with a stout stick, which he forced down the stout stick, which he forced down the tiger's throat, making it release his brother's hand, when Khuda Gakhs seizer another paw with his wounded hand, forcing both the paws back. He wrestled with the tiger, keeping it down by sheer force, while Abdul Ghani belabored it with his lathi and killed it. The tiger was carried by the brothers to his highness the Nawab of Rampur, 'who kept the skin as a momento and sent Khuda Bakhs to the state dis-pensary for treatment."—Indian Daily

FOUND THE CAUSE

Six Years of Misery and

Wrong Treatment. John A. Enders, of Robertson avenue, Pen Argyl, Pa., suffered for six years with stinging pain in the back, violent headaches and dizzy

spells, and was assured by a specialist that his kidneys were a l l right, though the secretions showed a reddish, brick-dust sediment.

Not satisfied, Mr. Enders started using Doan's Kidney Pills. "The kidneys began to act more regularly," he says, "and in a short time I passed a few gravel stones. I felt better right away and since then have had no kidney

trouble." Sold by all dealers, 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

A Hard Job.

There is an old Irishman in Baltimore who for many years was prosperous as a grocer. Not long ago, however, the old fellow lost his all in "a side line," and was compelled to look for a job. Through the influence of a friend he was offered the position of crossing tender at a small religious station in Maryder at a small railroad station in Mary

The Celt looked dubious as the duties of the office were explained to him and the meaning of the various flag: was "In case of danger, you wave the red flag." explained the man told off to in-

struct Mike. "Wait a bit, wait a bit," interrupted Mike, with a doubtful shake of the head. "I'm afraid this job'd be too much for me. I could never trus mesilf to remimber to wave a red flag whin there was a green wan handy."—Harper's Magazine.

ITCHING RASH 18 YEARS.

Girl's Rash Spread and Grew Worse Under Specialist's Care-Pertect Cure by Cuticura Remedies.

"When my daughter was a baby she had a breaking out behind the ears. The doctor said that she would outgrow it, and it did get somewhat better until she was about fifteen years old, and after that she could get nothing that would drive it away. She was always applying something in the way of salves. It troubled her behind the knees, opposite the elbows, back of the neck and ears, under the chin, and then it got on the face. That was about three years ago. She took treatment with a specialist and seemed to get worse all the time. We were then advised to try the Cuticura Remedies, and now I don't see any breaking out .. M. Curley, 11-19 Sixteenth St., Bay

City, Mich., May 20, 1906." Guarding Against Accident.

Capt. Deforest Chandler of the United States signal corps was lamenting in Washington the numerous balloon accidents that have recently occurred. Capt. Chandler, himself an expert aeronaut, concluded:

"But inexperience is usually to be blamed for these accidents. The aeronaut goes up alone before he has thoroughly learned his business. Indeed, I have seen some aeronauts so untried that they remind me of an episode that befell

Metal Flour Bins.

The use of wood for flour receptacles or bins is folly, for mice will gnaw their way through. Proper washing is impossible, because it makes the bin too damp and the flour sticky and pasty.

By all means use a good tin or metal flour bin; have it placed where you can fill it easily and where it can be cleaned and washed regularly.-Success.

About the first thing the doctor says—How are your bowels?

Then, "Let's see your tongue." Because bad tongue and bad bowels go together. Regulate the bowels, clean up the tongue. We all know that this is the way to

keep well. You can't keep the bowels healthy and regular with purges or bird-shot pills. They move you with awful gripes, then you're worse than ever.

Now what you want is Cascarets. Go and get them today—Cascarets-in metal box-cost roc. Eat

them like candy, and they will work gently—while you sleep. They cure, that means they strengthen the muscular walls of the bowels, give them new life. Then they act regularly and naturally. That's what you want. Cure guaranteed. Be sure you get Cascarets. Sample and booklet free. Address Sterling Remedy Company, Chicago or New York.

NEW SHORT STORIES

A Silver Heresy.

ago the Louisville Courier-The money was put in a canvas bag rather than Senator Burrows? and thrown into a safe, there being no circulation for Mexican money in Louisville. It is the rule of the office that Marse Henry Watterson, the brilliant editor of the paper, shall have at all times any money he desires from the cashier. One night Marse Henry got into a little game of draw near the office. Things went badly for him. Suddenly he appeared in the counting room of the paper and asked the clerk in charge for money. There was little money on hand, as the cash had been

"GIVE ME TWO HUNDRED OF THOSE." banked that afternoon, and only a small sum was left in the till for the draft on treasury, and repeal of bounty. business that might come in during the evening.

"There isn't much, Mr. Watterson," said the clerk. "How much?" inquired Marse Henry.

"Only about \$20 or \$30." "Pshaw!" said Marse Henry. "That thing in the safe?"

"Nothing but 400 Mexican dollars." "Well," said Marse Henry, "give me 200 of those."

The clerk counted the dollars out, and Marse Henry toted them over to the game.

An hour later he returned, happy as a lark. "Tom," he said to the clerk, "give me those other 200 Mexican dollars. I am losing them to those fellows over there for a hundred cents apiece." -Saturday Evening Post.
