JFK Asks \$13.5 Billion Tax Cut

WASHINGTON (AP)—President Kennedy proposed today the biggest income tax cut in history—a \$13.5 billion slash to take effect in three annual steps between now and 1965.

At the same time the President called for tax reforms to recoup \$3.5 billion, for a net reduction of \$10 billion in revenues.

Individual taxpayers eventually would save about \$11 billion a year under the top priority program which Kennedy unveiled in his State of the Union message to Congress.

From congressional conservatives. Besides calling for gradual rate cuts, to lessen the adverse impact on federal finances, Kennedy advanced two companion proposals that would aim in the same direction.

1. The enactment of tax reforms recouping \$3.5 billion of the revenues that would be lost through lower rates. Reforms would begin going into effect next year.

2. A plan to gradually speed quarterly tax payments by large corporations in order to boost revenues by \$1.5 billion without changing corporate tax liabilities.

Kennedy described his tax package as "a fiscally responsible program—the surest and soundest way of achieving in time a balanced budget in a balanced full employment economy."

Although precise details won't be revealed until later this month, it was apparent the tax bill has been carefully tailored in an effort to meet anticipated opposition from congressional conservatives.

Icy Cold Grips Most Of Nation

(By The Associated Press) Winter's icy blasts enveloped the major part of the nation today. No immediate break in the severe cold weather was indicated.

The effects of the frigid weather and snow, which swept into the Rockies last weekend and snowballed across most of the country by the weekend, were widespread.

Deaths blamed on the wintry weather—exposure, fires and traffic accidents on ice and snow-covered highways—passed the 40 mark.

Threatens Crops Property damage, including heavy loss by a rash of fires, mounted into the millions of dollars.

The unseasonable cold in Southern Texas, southern California and Arizona threatened damage to citrus and vegetable crops.

The below-zero zone extended from the upper Great Lakes through the northern plains into the northern Rockies. Temperatures plunged to nearly 60 below in Montana over the weekend. Scores of cities reported record low readings for mid-January as well.

Parts of Michigan were numbed by sub-zero cold today and others crippled under heavy snow. No immediate relief was in prospect.

Rural schools closed in Kalamazoo, Allegan, Van Buren and Kent Counties. State highways were generally clear though slippery, but school buses could not run on snow-choked side roads.

The Upper Peninsula got the worst cold. The mercury plunged to 14 below zero at Covington in Baraga County and 12 below at Escanaba and Marquette.

Forecast for Marquette and vicinity: Variable cloudiness, rather windy and very cold, with scattered snow flurries tonight and Tuesday.

Forecast for Lake Superior: West to northwest winds 18-25 MPH tonight and Tuesday. Snow flurries and continued cold.

Records for Jan. 14 — Maximum temperature, 52 in 1894; minimum temperature, -26 in 1881; most precipitation, 1.28 inches in 1940.

U.S. Senate Begins Fight On Filibuster

WASHINGTON (AP)—Senators start battling today over proposals to put a tighter curb on filibusters.

A bipartisan bloc of liberals will offer a new rule that would permit a majority of the members—51 of the 100 senators—to halt a filibuster 15 days after the filing of a debate-limitation petition.

Heading a middle-ground group, Sens. Clinton P. Anderson, D-N.M., and Thurston B. Morton, R-Ky., will propose a rule under which a time limit could be clamped on debates by three-fifths of the senators voting.

Tightly organized to resist any change in the present rule requiring a two-thirds majority of senators voting to limit debate are 19 Southern senators under the leadership of Sen. Richard B. Russell, D-Ga.

In what may be a promise to use the filibuster itself in the rules fight, Russell says: "We will take advantage of every opportunity to expose the iniquity of gag rule in the Senate."

With a battle cry of "segregation forever," incoming Gov. George Wallace told the nation's leaders today that Southern voters will elect the next president.

From this day," he declared in his prepared inaugural address, "we intend to take the offensive and carry our fight for freedom across the nation yielding the balance of power we know we possess in the Southland."

With a battle cry of "segregation forever," incoming Gov. George Wallace told the nation's leaders today that Southern voters will elect the next president.

Romney Foe?

Former Michigan Gov. G. Mennen Williams says he's willing to challenge Republican Gov. Romney in 1964 "if the occasion would arise where I would be most able to carry the Democratic banners in Michigan and it was more important to work there than in Africa." (NEA Telephoto).

Blue Cross Asks Approval On Rate Hike

LANSING (AP)—Michigan Blue Cross-Blue Shield made a pitch to the state insurance commissioner today for rate increases totaling an estimated \$70 million over the next two years.

The pre-paid health insurance plans were to file formal applications for the increases today.

The hikes were expected to average 27 per cent over the period ending in March of 1963.

Blue Cross said it did about \$150 million in business a year and Blue Shield reported about \$110 million business.

William S. McNary, Blue Cross president, and Sumner G. Whitler, executive director of Blue Shield, said the health insurance plans need new income in the face of rising operating costs.

Spokesmen said both plans currently are operating in the red and that the proposed rate increases are calculated to keep the plans on a firm financial basis through the end of March of 1963.

"We had to draw almost \$5 million from reserves in 1962 and without an adequate increase they will be exhausted in a matter of months," McNary said.

Blue Cross wants a rate increase yielding 29.3 per cent of its income and Blue Shield 23.9 per cent.

Ellen K. Russell Dies In Florida

Mrs. Frank J. Russell Sr., the former Ellen Kennedy Shiras, died at 5:30 yesterday morning in her winter home in Ormond Beach, Fla., following a long illness.

Mrs. Russell was the daughter of the late Mr. and Mrs. George Shiras III and a granddaughter of Mr. and Mrs. Peter White, famous pioneers of Marquette, and of U. S. Supreme Court Justice George Shiras Jr.

Born Nov. 10, 1886, in Marquette, Mrs. Russell had resided in Marquette and in Washington, D. C., until her marriage Nov. 25, 1925, to Mr. Russell, who was the publisher of The Mining Journal and the Iron Mountain News.

Her father, who founded the Shiras Institute, a non-profit corporation which benefits various recreation, beautification and cultural activities and programs in Marquette and Upper Michigan as a whole, was a world-famous naturalist and photographer, and Marquette philanthropist, and had served in Congress.

Mrs. Russell, like her father, was keenly interested in the outdoors. Survivors listed are: Mrs. Russell is survived by a stepson, Frank J. Russell Jr., publisher of The Mining Journal, the Iron Mountain News and Escanaba Daily Press, and owner of WDMJ, The Mining Journal radio station, and several other radio stations, and by several cousins.

Surviving cousins include Mrs. Lincoln B. Frazier, Maxwell K. Reynolds, Mrs. A. J. Fontaine, Mrs. Mary Spear Ross and George N. Spear, Marquette; Alfred O. Reynolds, Lebanon, Ind.; Mrs. Michael Hare, Mrs. Harry Harper and Peter Jopling, in New York State; Ann Shiras and George Call, Pittsburgh, Pa.; Winfield Shiras and Mrs. Sarah Potts, Ormond Beach, and Philip B. Spear Jr., Sarasota, Fla. There also are a number of surviving cousins in Ohio.

Funeral services have been tentatively scheduled for tomorrow in Ormond Beach and will be held in St. James Episcopal Church there. Frank Russell and Mr. and Mrs. Frazier have gone to Florida for the rites.

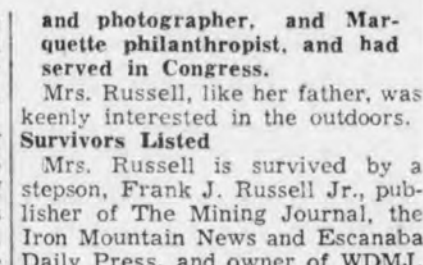

Tshombe To Get U. N. Ultimatum

ELISABETHVILLE, Katanga (AP)—The United Nations prepared today to send a special emissary to Katanga to demand that President Moise Tshombe surrender his stronghold or face U. N. attack.

Diplomatic informants said they believed the Katanga president was rallying his followers for a last-ditch stand to try to hold what remained of his secessionist domain.

The emissary was to warn Tshombe that if he did not peacefully surrender Katanga—center of Katanga's mining industry—the United Nations would fly in a Gurkha battalion to take it by force.

Ambassador?

The United States has selected Carl T. Rowan to be the next Ambassador to Finland. He is presently Deputy Assistant Secretary of State for Public Affairs. (AP Wirephoto).

Printers Vote To Continue Press Strike

NEW YORK (AP) — Mediators met with newspaper publishers and striking printers rallied in support of their leaders Sunday in the 37th day of the city's costliest newspaper strike.

There was no clue to what the publishers of the nine shut-down dailies and federal mediators said. The strikers at a mass meeting gave loud approval to continuance of the strike.

The printers lowered their two-year wage increase demand from \$19 to \$18 a week, and the publishers moved up from a two-year package offer of \$9.20 weekly to one of slightly more than \$10, including \$8 in wages.

Mediators said they would meet with the printers today. Meanwhile, the printers union and the mailers union voted \$20,000 and \$5,000, respectively, to assist "less fortunate" unions affected by the shutdown.

Will Remain On Strike Bertram A. Powers, president of striking Local 6 of the AFL-CIO International Typographical Union, said those attending the mass meeting Sunday voted unanimously to "remain on strike indefinitely until a just contract is achieved."

The latest harassment came Sunday when Meredith returned from an overnight trip to Memphis, Tenn., and found a tire slashed on his 1952 automobile.

Warren (AP) — State aeronautics officials today were investigating the crash of a private plane here Saturday which claimed the lives of three New York state men.

Fred Waite, assistant director of operations for the Department of Aeronautics, said preliminary investigation indicated heavy icing probably resulted in loss of control by the plane's pilot.

Power Struggle Looms In Togo

LOME, Togo (AP)—A struggle for leadership of this tiny West African country appeared to be developing today in the wake of a sergeants' revolt and the assassination of President Sylvanus Olympio.

Two men emerged as possible heads of a new government—former Premier Nicolas Grunitzky 49, and Idrissou Antoine Meatchi, 27, a former opposition leader in the Togo Assembly.

A military revolutionary committee that engineered the Sunday coup reportedly appealed to Grunitzky, a brother-in-law of the slain president to return from exile in neighboring Dahomey to form a government.

89 Refugees Depart Cuba, Exodus Ends

MIAMI, Fla. (AP)—The aerial exodus of refugees from Fidel Castro's Cuba has halted, following an airlift of 89 Cubans and Cuban-Americans to Miami Sunday. At present there are no plans for resuming it.

Red Cross officials announced there will be no more flights carrying ransom supplies to Cuba. Pan American World Airways, which suspended its twice-daily Miami-Havana flights at the onset of the Cuban crisis last October, is not anxious to resume the unprofitable service.

The Pan Am DC8B that made Sunday's refugee flight had taken 15,000 pounds of medicines to Cuba as another installment on the \$53-million ransom guaranteed Castro for release of the 1,113 Bay of Pigs invasion prisoners.

All future shipments of ransom supplies will be made by ocean freighter. The steamship, Shirley Lykes presently is being loaded at Baltimore with 6,500 tons of food, drugs and medical supplies for delivery in Havana.

A tearful, yet joyous scene unfolded at Miami International Airport when the 89 refugees arrived at 5:20 p.m. Sixty-eight of the group were Cubans possessing American citizenship.

The committee voted 45-35 Sunday to continue backing Fanfani until general elections which must be held by the end of May. The party's pro-Communists demanded an immediate break with the premier.

The Socialist support for Fanfani, which followed three days of debate, was qualified by sharp criticism of his Christian Democrat party's delay in passing Socialist-backed legislation to create regional governments in parts of Italy. Right-wing Christian Democrats fear the Socialists will again support their former allies, the Communists, for a leftist capture of power in some regions.

Michigan Officials Probe Crash That Killed 3 Saturday

WARREN (AP) — State aeronautics officials today were investigating the crash of a private plane here Saturday which claimed the lives of three New York state men.

Fred Waite, assistant director of operations for the Department of Aeronautics, said preliminary investigation indicated heavy icing probably resulted in loss of control by the plane's pilot.

Killed in the crash were Cecil L. Simms, 59, Fayetteville, N.Y.; Carl A. Young, 58, Syracuse and David J. Read, 47, of Oswego, N.Y.

The plane, a twin-engine Beech Baron, crashed in the rear of several homes in this Detroit suburb a few minutes after taking off from Detroit City Airport.

No occupants of homes near the crash scene were injured. One house was damaged by a small fire which started after the crash.

Anti-Negro Campaign Continues

OXFORD, Miss. (AP)—Officials at the University of Mississippi again have cracked down on student demonstrations against Negro James H. Meredith, 29, but the campaign aimed at him continues.

The latest harassment came Sunday when Meredith returned from an overnight trip to Memphis, Tenn., and found a tire slashed on his 1952 automobile.

Meredith said he felt the renewal of open demonstrations had been touched off by the arguing of university officials and the Justice Department.

Several students were apprehended Thursday night by campus policemen.

Justice William J. Brennan Jr., writing the court's main opinion, said that while the case was brought by NAACP, the high tribunal was not deciding it with any consideration of race or racial discrimination.

Socialists Nix Bid To Break With Fanfani

ROME (AP) — The Italian Socialist party's Central Committee has voted down a pro-Communist move that would have overthrown Premier Amintore Fanfani's coalition government on the eve of his departure for talks with President Kennedy.

The committee voted 45-35 Sunday to continue backing Fanfani until general elections which must be held by the end of May. The party's pro-Communists demanded an immediate break with the premier.

The Socialist support for Fanfani, which followed three days of debate, was qualified by sharp criticism of his Christian Democrat party's delay in passing Socialist-backed legislation to create regional governments in parts of Italy. Right-wing Christian Democrats fear the Socialists will again support their former allies, the Communists, for a leftist capture of power in some regions.

Supreme Court Strikes Down Virginia Law

WASHINGTON (AP)—The Supreme Court struck down today a Virginia law which the National Association for the Advancement of Colored People said had curbed its participation in litigation over racial discrimination.

Justice William J. Brennan Jr., writing the court's main opinion, said that while the case was brought by NAACP, the high tribunal was not deciding it with any consideration of race or racial discrimination.

Rather, Brennan said, the court condemned the state statute as a violation of the federal Constitution's guarantee of free speech.

NAACP contended the law barred it from underwriting the costs and providing counsel in suits begun to test validity of state-imposed discrimination. The statute calls such activity unlawful fomenting and solicitation of legal business. Lawyers taking part in such cases are declared guilty of malpractice.

France Rejects Missile Accord

PARIS (AP)—President Charles de Gaulle said today France cannot join the British-American agreement made at Nassau establishing a multinational Polaris missile force.

De Gaulle, speaking to his first news conference since last May, responded to a question on whether France might accept President Kennedy's offer of Polaris missiles: "I do not believe that anyone thinks that we can subscribe to the accords of the Bahamas."

Residents Fight Biggest Snowfall Of Season In Sub-Zero Weather

Marquette residents were out in below-zero weather this morning still shoveling themselves out from under 16 inches of snow, the heaviest snowfall of the season.

Snow fell continuously from midnight to midnight Saturday, with a total of 10.1 inches, or the water equivalent of .67 of an inch. Nearly two inches of snow were dumped on Marquette between 11 a.m. and noon on Saturday.

Hazardous Driving Conditions

During the heaviest periods of the blizzard, traffic was decreased to only the absolutely necessary. Shoppers who were caught downtown Saturday morning returned to parking places to shovel out their cars before crawling home.

Driving conditions Saturday were hazardous and county and city road crews fought to keep ahead of the storm.

By Sunday the snowfall decreased to only a trace, but the mercury had dropped so that even

the children who bundled up to climb the mountainous snowbanks decided they'd rather be indoors.

Below Normal Readings

The temperature dropped steadily from a high of 18 about 2 a.m. Saturday to 9 degrees below zero at 6:30 a.m. today, Fred Mueller, meteorologist in charge of the U.S. Weather Bureau in the federal building here, reported.

The weekend's cold statistics were: Saturday, a high of 18 and a low of 9, for an average temperature of 14, which was five degrees below normal; Sunday, a high of 9 at midnight and a low of 4 below just before midnight last night, for an average of three degrees, which was 16 degrees below normal for the day.

15 Below At Airport

With below normal temperatures for the last four days, the month's average temperature has dropped to 3.3 degrees above normal. This morning's low recording of 9 below was one degree above the lowest recording of the season, which occurred Dec. 26.

At the Marquette County Airport in Negaunee Township, the mercury dropped to 15 below this morning. High recording yesterday at the airport was one degree below zero.

Coldest Spot In U.P.

Coldest temperature in the Upper Peninsula this morning, according to reports received at the weather bureau, was 25 below at Ironwood. Ironwood's recording was close to the national low temperature, which was 30 below zero, recorded at International Falls, Minn.

Other U.P. temperatures this morning were 15 below at Iron Mountain, 12 below at Escanaba, 7 below at the Soo and 9 below at Calumet.

Snow Depth 16 Inches

The snow depth this morning had settled to 16 inches, but yesterday the depth was measured at 17 inches, the greatest snow depth here so far this winter.

The smart snow shoveler yesterday worked backwards against the wind, which was fairly strong for such cold temperatures. Yes-

Lifelong City Resident Dies In Hospital

Mrs. Rudolph (Minnie Bourgeois) LaCourse, 62, Lincoln Ave., died at 2:45 yesterday afternoon in St. Mary's Hospital.

Mrs. LaCourse was born Jan. 9, 1901 at Ropes Gold Mine, and was a lifetime resident of Marquette.

She was a member of the Salvation Army Citadel, the Salvation Army Home League, the Women's Benefit Association, Review No. 52, and the Veterans of Foreign Wars Auxiliary.

Services will be held at 1:30 Wednesday afternoon in the Swanston Funeral Home, with Major R. B. Sharp, commander of the Salvation Army Citadel, officiating. Burial will be made in Park Cemetery.

Friends may call at the funeral home after 2 tomorrow afternoon.

Freedom Rider Says Racial Problem Now Greater In The North

DETROIT (AP) — A leader of a clergymen's anti-segregation bus ride in the South in 1961 said today the racial problem now is greater in the North.

The Rev. Malcolm Boyd, Episcopal chaplain of Wayne State University said:

"In practice, there probably is more segregation in the North than in the South.

"In the North, people talk out of both sides of their mouths, but in the South, out of only one side and people know where they are."

Commercial candlemaking in the United States was pioneered in 1855 in Syracuse, N.Y., by Anton Will, a German immigrant. The firm he founded now makes candles for the Vatican.

PTA To Hear Chaplain From Sawyer Base

Lt. Col. Boleslaw Karpowicz, Catholic chaplain at K. I. Sawyer Air Force Base, will be the speaker tonight at the regular January meeting of the Vandenberg Parent-Teacher Association.

At the meeting, scheduled for 7:30 p.m. in Vandenberg School, Col. Karpowicz will speak on "The Unity of Prayer."

Refreshments will be served later by mothers of fourth graders.

Obituary

WILLIAM J. QUANTZ

Services for William John Quantz, who died Friday noon in St. Mary's Hospital, were held this afternoon in the Swanston Funeral Home with the Rev. John Adams Alford, rector of St. Paul's Episcopal Church, officiating.

Palbearers were James Quantz, Howard Quantz, Sanford Olmstead, Elmer Olmstead and Eugene Olmstead, brothers of the deceased, and Harry DeRusha, his brother in law. Burial was made in Park Cemetery.

J. L. Williams Dies At 72 In VA Hospital

John L. Williams, 72, Big Bay, died last evening in the Veterans Administration Hospital, Iron Mountain, where he had been a patient since April of 1961.

Mr. Williams was born July 7, 1890 in Allegan and lived in Big Bay for 40 years making his home with Mr. and Mrs. Fred Marsh.

Before his retirement, he was self employed as a cabinet maker. Mr. Williams was a veteran of World War I and was a member of the Williams-Beerman Post Veterans of Foreign Wars of Big Bay.

He is survived by a nephew, George S. Williams, West Palm Beach, Fla., and a niece, Mrs. Helen Meyers, West Palm Beach.

Services will be held at 2:30 Wednesday afternoon in the Swanston Funeral Home with the Rev. John Hamel of Marquette, officiating. Burial will be made in the Big Bay Cemetery.

Friends may call at the funeral home tomorrow afternoon and evening.

Commission's First Meeting Of 1963 Set For 7 This Evening

Marquette's city commission will hold its first meeting of the new year beginning at 7 this evening in the city hall.

Mayor James R. Smith will preside at the session, which probably will include some items in addition to the pre-meeting agenda arranged earlier.

Among the topics to be taken up are a pair of communications, one from Ann M. Murphy, assistant to the director of the continuing education service, University of Michigan School of Public Health, concerning a state meeting of health officers.

The other is from George N. Spear, chairman of the Marquette Harbor Committee, concerning a recommendation by the committee on the small boat marina for Presque Isle Harbor.

A communication concerning Pioneer Rd. also will be received, from Jack C. Messenger, Marquette.

One Hearing Set

The commission will conduct a public hearing on Ordinance No. 217, which was read at the last commission meeting and which concerns the expansion of the city's light and power plant for the construction of a steam plant.

For Financial Consultants

An agreement to arrange for the services of financial consultants, the firm of Kenower, MacArthur & Co., Detroit, also is scheduled to come up at the session.

The Detroit firm will be retained to assist in the sale of bonds and will be the first meeting of the new year.

POWERFUL PLUNGER CLEARS CLOGGED TOILETS in a jiffy!

TOILAFLEX Toilet Plunger

NEVER AGAIN that sick feeling when your toilet overflows!

Special Service Set Tonight By Salvation Army

Major R. B. Sharp, Marquette area commander of the Salvation Army, said today a special evangelistic service will be held at 7 tonight at the Salvation Army Citadel, to be conducted by the Upper Peninsula Salvationists Evangelistic Brigade.

Representatives from the various Salvation Army corps in the U.P. will unite here for this service, which will be led by Cap. and Mrs. Orville Butts of Escanaba. Capt. Glydon Swan of Hancock will preach. Others officers will be participating in the service, at which there will be special music and singing.

Major Sharp said this evangelistic brigade is in operation for nine months of the year and conducts services each month in a different city in the U.P.

The public is invited.

Ellen K. Russell

The family of Mrs. Ellen K. Russell requests that in lieu of flowers, remembrances be sent to the Ellen K. Russell Memorial Fund, in care of St. Paul's Episcopal Church in Marquette.

DON'T MISS THIS BARGAIN

Shown at the Upper Peninsula Committee on Area Problems (UPCAP) meeting Saturday, and presenting UPCAP's tourism project proposal, are, from left, Clare Gunn, East Lansing, Michigan State University tourist and resort specialist; Charles Follo, Escanaba, assistant U. P. extension director for the University of Michigan, and Harold Dettman, St. Ignace, committee chairman. The development proposal was approved by the delegate body.

Optimistic Report Given On Natural Gas For Peninsula

Delegates to the Upper Peninsula Committee on Area Problems (UPCAP) meeting here Saturday received an optimistic report from its newest standing committee.

Thomas Moore, acting city manager of Marquette and chairman of the UPCAP natural gas committee, said a market survey had been completed and that a pipeline is feasible from both the standpoint of engineering and finances.

Need More Commitments

He added that the directors of the Northern Natural Gas Co. were in agreement with the above points.

"The company now needs more firm commitments from large users," Moore said, "and are in the process of getting these potential customers to indicate the volume that would be consumed."

UPCAP delegates approved a development project prepared by its tourism committee and submitted by Harold Dettman of St. Ignace. The project will now be submitted to local, state and Federal agencies for support.

Michigan State University has already pledged to provide \$41,800.00 that would be used for market surveys, an

analysis of the industry, recommendations and implementation stages.

The 23-member UPCAP agricultural committee reported the completion of a Soil Conservation Service survey that indicated there were 2.5 million acres of U.P. land suited for producing Russett Burbank potatoes.

Queen Of U.P. Spuds

The Russett Burbank has become the queen of U.P. potatoes since there is great market demand for the bakers that brought fame to Idaho. Outstate producers and processors have contacted committee Chairman Frank Molinare of Iron Mountain and have indicated interest in several U.P. county locations.

Cisco Study Cited

Commercial Fisheries Committee Chairman Leo R. Garlepy of Munising reported that the market phase of a project to utilize Lake Superior Cisco is already under way.

The delegates passed a resolution calling for additional guidance from Nathan Associates and ARA in preparing a final project to re-vitalize the commercial fishing industry.

Other reports were made Saturday from UPCAP's forest products, research, mining, manufacturing, human resources, federal and state activities, transportation, communications and utilities committees.

Furnace Blower Overheats; City Firemen Called

Marquette firemen were called out at 9:03 yesterday morning to a cottage in Deertrack Village, Marquette Township, occupied by Ellwood F. Burke, when an electric blower on the motor of a gas furnace became overheated.

Fire Chief John W. Myers said the blower motor "shorted out" when it became overheated, with smoke going through the ductwork from the basement to the first floor.

There was no fire and firemen stood by until a repairman corrected the malfunction. Firemen drove to the scene with the No. 4 (750-gallon) pumper and returned to the station at 9:38 a.m.

Seven Drivers Fined \$51.80 By Justice

Seven persons have been ordered to pay a total of \$51.80 in fines and costs by Chocoley Township Justice Lawrence Ewing.

Albert E. Baker, K. I. Sawyer Air Force Base, paid a fine of \$5 and \$4.30 costs for violation of the basic speed law. He was ticketed by state police Nov. 15 on U. S. 41 in Chocoley Township.

Speed Law Violation

For violation of the basic speed

Three Crashes Take Place In Township

Five automobiles were damaged and a motorist was issued a ticket, but no one was injured, in three traffic crashes which occurred in the area during the weekend and were investigated by state police from the Marquette post.

All three mishaps occurred in Sands Township. Reports follow:

1. At 12:15 Saturday afternoon a car being driven south on County Road 553 by Grant K. Bright, 19, K. I. Sawyer Air Force Base, smashed into the rear end of an automobile operated by Mary Thomas, 30, also of Sawyer Base, a half mile south of County Road NV.

State police said she slowed down for a truck ahead of her and he couldn't stop his car. Extensive damage resulted to the front end of Bright's automobile, a 1952 coach, which had to be removed from the scene by a wrecker. The rear end of the Thomas vehicle, a 1963 sedan, was damaged and it was driven from the scene under its own power.

Bright was ticketed for violation of the basic speed law.

2. An automobile being driven east on County Road 480 by Nancy Vachon, 18, of 142 W. Arch St., Marquette, struck a stalled car owned by Denton Washington, Sawyer Base, one and one-half miles west of County Road 551, at 9:20 Saturday night.

Stuck In Snowbank

State police said the mishap occurred as she came around a curve. She applied the brakes but her car slid into Washington's automobile, which had struck a snowbank.

The right rear of Washington's 1956 sedan and the right front of the Vachon car, a 1955 coach, were damaged.

3. At 1:10 yesterday morning a car being driven south on County Road 553 by David Rem, 21, Sawyer Base, struck a deer which ran out from the east side of the roadway, just north of County Road NF.

The front end of Rem's automobile, a 1960 coach, was damaged and the car was driven from the scene under its own power.

law, Betty J. McMahon, Skandia, paid a fine of \$5 and \$4.30 costs. The summons was issued by state police Dec. 9 on County Road OA in Skandia Township.

A fine of \$5 and \$4.30 costs was paid by Edward F. Hedmark, Skandia, for passing on a marked curve. The ticket was issued by state police Dec. 16 on U. S. 41 in Chocoley Township.

James F. Myers, Skandia, was fined \$2 and ordered to pay costs of \$4.30 for driving without a Michigan operator's license. He was ticketed by state police Nov. 25 on U. S. 41 in Chocoley Township.

For driving without a valid chauffeur's license, Thomas A. Dionne, Route 2, Marquette, paid a fine of \$2 and \$4.30 costs. State police ticketed Dionne Dec. 4 on County Road BAA in Chocoley Township.

Defective Brakes

Edward C. Boiler, Route 1, Marquette, was fined \$2 and ordered to pay costs of \$4.30 for driving with defective brakes. The summons was issued by state police Dec. 4 on U. S. 41 in Chocoley Township.

John P. Lindsay of Marinette, forfeited \$5 bond posted to state police after being ticketed Dec. 8 for driving left of the centerline on U. S. 41 in Chocoley Township.

Sex ratio is 971 males per 1,000 females for the U. S. population of all ages.

Law To Regulate Trading Stamp Companies Drafted

LANSING (AP)—A law to regulate trading stamp companies has been drafted by the attorney general's office and will be recommended to the 1963 Legislature, Atty. Gen. Frank Kelley says.

Trading stamp companies would be required to file a performance bond with the state guaranteeing the value of unredeemed stamps, under Kelley's proposed law.

The attorney general said "there is an intense and immediate need for legislation in this area to protect Michigan consumers."

Luncheonettes Hit Hard By Press Strike

EDITOR'S NOTE — Phil Simon owns a luncheonette, typical of thousands of such small stores in the New York City area. They lean heavily on daily newspaper sales and the newspaper blackout has been a costly blow.

NEW YORK (AP)—"My business is off \$600 to \$700 weekly. "Because I have almost no evening papers, most of my regular customers have lost the habit of dropping in afternoons and evenings. Cigars, cigarettes, candy, soda fountain, short order meals—all these are off.

Blackout Blues

"You can say I'm singing the blackout blues, the newspaper blackout, that is. I've had a month-long headache, and I'm not kidding. Some of the stores like this have had a 50 per cent drop in business. Luckily, I haven't been hit that bad."

Phil Simon is proprietor of a small luncheonette located in the Queens section of New York City. He usually has a quick smile and a bright quip. A frown often creases his face these days as he tries to cope with the effects of the newspaper strike. Like other dealers he has been able to get deliveries of Newark and Philadelphia papers and this helps.

City's Chances For Aid For Steam Plant Through Federal Grant 'Good,' Moore Reports

Acting City Manager Thomas Moore has returned from a meeting in Chicago concerning Mar-

quette's application for a federal grant for the proposed steam plant with "a feeling that the application will be speedily approved."

The city has applied through the Federal Housing and Home Finance Agency for a grant under the accelerated public works program which would provide half the cost of the proposed steam electric generating plant.

Moore and J. Bryan Sims, Grand Haven, consulting engineer for the city, met with regional officials of the Housing and Home Finance Agency last week in Chicago. It was indicated at the meeting that Marquette would receive an early approval of a grant for \$1,942,000, Moore said.

The officials noted that Marquette's five-inch thick application was better prepared than any of the other 322 applications made for funds under the program. Marquette's application was prepared by Sims, Moore, the staff of the light and power department, City Attorney Waldo McCrea and City Clerk Everett Kent.

322 Apply For Help Many of the 322 applications will not be eligible for grants because the cities are not ready to provide matching funds for projects, it was reported.

Moore said that the Housing and Home Finance Agency regional officials indicated that the Marquette request was attractive and that it would be given top priority, especially because "Marquette has a sound record in the electrical business."

Marquette's application, named "APW-Michigan-322G" will be forwarded to Washington in two or three weeks, where it will be considered for approval by the Housing and Home Finance Agency.

Considered Tonight A bonding ordinance for the city's proposed steam plant will be considered for adoption at a city commission meeting tonight. If the revenue bond ordinance is approved by the city, citizens have a 30-day period in which to submit a petition calling for a referendum on the project. Petitions must bear 877 signatures, 10 per cent of the number of registered voters in the

last general election. Moore said that the federal officials indicated that they were in hopes that the project "would not be delayed by a vote of the people."

According to the proposed bonding ordinance, revenue bonds totaling \$3,775,000 would be issued. Moore said that because the proposed grant would provide 50 per cent of the cost of the steam plant, three procedures could be followed:

1. If the bonds were issued before the grant is approved, all of the bonds might not be sold immediately.

2. If the grant were approved after the proposed bonds are issued, the bonds equal to the amount of the grant could be redeemed, or

3. Bonds from the light and power department's 1956 bond issue could be redeemed.

Bigger 'Hospitality Program' Planned In Peninsula This Year

A pledge of continuing cooperation by news media and educational institutions has been given the Upper Michigan Tourist Association for its 1963 hospitality program.

The program — to be conducted much along the lines of the first "It Pays To Know" campaign in 1962 — will be climaxed by presentation of prizes worth about \$2,000 to the person selected as the Upper Peninsula's No. 1 host, Ken Dorman, UMTA secretary-manager, told about 40 persons attending a meeting in the Hotel Northland.

Briefly, he explained that the campaign was intended to give this 15-county region a "Texas-like attitude" toward its outstanding resources and at the same time better prepare business people for serving the many thousands of travelers who vacation in the Upper Peninsula during the summer.

"Such a program would be impossible to conduct without the cooperation of the press, radio and television and without the support of academic institutions," Dorman declared. "We plan a more effective program this year to improve still more the hosting ability of Upper Peninsula people serving travelers."

'Area's Representatives' Larry Rubin, St. Ignace, of the Mackinac Bridge Authority, who served as toastmaster for the gathering, keyed the theme of the meeting when he stated that the "people working at gas stations, restaurants and souvenir shops are our representatives — somebody has to teach them how to better serve the traveling public."

He pointed out that the "Pays To Know" program was designed to help travelers learn about accommodations available in the region as well as the many attractions the U.P. offers visitors. "I don't know of any place in the world where you can find such a large and varied assortment of attractions concentrated in one area — of genuine, honest, all-around family interest — as you can in the Upper Peninsula," Rubin declared.

"Everyone doesn't know they're

KC Council To Hear Talk By Mottard

Earl J. Mottard, Marquette, representative of the Belton Hearing Service, will speak tonight at 8 at a meeting of the Knights of Columbus Council.

A 1958 graduate of Michigan State University with a bachelor of arts degree in business and public service, Mottard moved to Marquette in August.

His speech, illustrated by a short film, will be "Hard-of-hearing children can be helped."

Mottard was trained with the Mottard Distributor Co. and the Telex Hearing Service in Escanaba before starting his own business.

seeking, but often are misdirected." Ron Watson, Gladstone Delta Reporter publisher and weekly newspaper representative, said he was impressed by the UMTA educational program last year. "One of the biggest things we need is to get more of the details into print, so the public will become aware of what is going on," he added. "We welcome any information fed to us."

Irv Horton, Sault Ste. Marie, who represents Canadian television station CJIC-TV in the Upper Peninsula, revealed there was considerable enthusiasm for information about this region in Ontario and told how the station showed pictures of the Mackinac Bridge and other U.P. attractions during "station breaks."

"I hope other television stations will follow our example," he declared. "Just The Beginning" The 1962 "Pays To Know" campaign was reviewed by Clare Gunn, East Lansing, tourist and

AMAZING PSORIASIS STORY

Jan. 10, 1960 — Pittsburgh, Pa. "Doctored for psoriasis 30 years. Spent much money to no avail. Then used GHP Ointment and Tablets for 2 weeks. Scales disappeared as if by magic. In 6 weeks skin completely cleared and clean. First time in 30 years. Thanks for your marvelous products." This much abbreviated report tells of a user's success with a dual treatment for the outward symptoms of psoriasis. Full information and details of a 14-day trial plan from Canam Co., Dept. Heavy Tax Rate

The largest issue shaping the new session of Congress is taxes. This could be said about any session, perhaps, but it is especially true this year because it has become clear even to the tax-and-spend advocates that taxes have become so heavy that they are a factor in the sluggishness of the American economy.

It is one thing for an Administration to have tax squawks because the public is nicked so heavily for taxes. It is another and more serious thing for taxes to become so high that private enterprise, which the government taxes to live, isn't fully venturesome because it figures: Why bother; we can keep so little of what we earn.

There's been talk of reforming the federal tax structure for years. There have been attempts to do this. In 1954 Congress Ways and Means Committee drafted some reforms which caused Chairman Dan Reed (R-New York) to boast, "This is the first overall revision of our tax laws which has ever been undertaken." The Reed bill left the income tax rates unchanged and added another batch of new exceptions to the tax.

When Congress was writing the income tax law in 1913 Sen. William E. Borah (R-Idaho) said that critics who forecast that the rate might go as high as 50 per cent on income or higher insulted his sense of fairness. The top rate was set at 7 per cent, but by 1932 the maximum was up to 63 per cent.

The tax seems to impress little taxpayers, who bear it so heavily, as something that clobbers the rich. This isn't the case. The rich get richer. They aren't dependent upon their income for existence so they can do things taxwise that the person who needs his annual income cannot do. They can seek refuge in capital gains, oil depletion allowances, tax exempt municipal securities income, etc.

The law says that all income shall be taxed, but Congress has written so many exemptions into the code that at present only 43 per cent of the total personal income of the United States is subject to the federal income tax. The high rates, which soak hardest persons in the upper middle income brackets—businessmen and professional men—and the exemptions create a great inequity which influences the national economy and which diverts a big part of the energy of the prosperous to minimizing tax payments. It would be much more helpful to the public welfare if this energy went into wealth creation under the encouragement of a better tax system.

President Kennedy wants the economy to move because this is so vital to the national welfare and to the reputation of his Administration. Last year he didn't go along with a tax cut to stimulate the economy when many persons, Democrats and Republicans, were proposing one. He said it would be part of a larger tax reform package to be introduced this year.

The package now is in preparation and its dimensions aren't known yet, but it is expected to affect both corporate and personal income taxes. The AFL-CIO, which sees the economic light, has suggested that the present 91 per cent top rate be slashed to 65 per cent. President Kennedy wants the tax reform in several phases. Such an approach would help him politically. The first phase would be tax cuts now and tax reform later. We would have the benefit (?) now and pay for it later, but the stimulation of the economy by more deficit spending is a tricky device which should be undertaken most warily. There will be a big addition to the federal debt this year under all current prospects. A deficit of \$8 billion is estimated, with another massive deficit in 1964 even without a tax cut.

The Administration suggests that the basic reason for the deficit is not that the federal budget is too high, but because federal taxes are too high and thus drag down the economy and shrink tax income. There is little talk of cutting government spending to ease taxes.

The public has reason to suspect that the persons offended by suggestions that the tax burden will be increased by tax cuts without corresponding cuts in tax spending are like Sen. Borah back in 1913 with his cozy confidence in a low rate income tax. The healthy way to cut taxes is to cut spending, but there's no inclination at Washington to do this and the situation makes the current tax reform effort face a prospect like the 1954 attempt.

Paris Reminds Visitor Of Napoleon's European Rule

BY JEAN WORTH
Journal Special Correspondence

PARIS — Groucho Marx consoled losers on his quiz show with a prize for naming the person buried in Grant's Tomb in New York City and I suppose French wags make the same joke about Napoleon's Tomb here. It is in the Hotel des Invalides, a hospital for sick and aged soldiers.

Marshal Ferdinand Foch, commander in chief of the allied armies in France in World War I is entombed there too, along with Napoleon's first wife, Josephine; his youngest brother, Jerome, and some of his generals. The great room of the tomb has a windowed view of a great collection of captured flags that came to Paris from many European battlefields. The flags are tatters and strings now, just wisps of remnants of material glory, but the influence of Napoleon is everywhere.

Loot Of Obelisks
And it is so across Europe. He filled the Louvre with the loot from his conquests. In Milan they say that Da Vinci's Last Supper is there and not in Paris because it's a fresco, painted on the plaster of a wall and not transportable. Rome yielded treasures. In Venice St. Mark's Cathedral has its gilded horses (taken from Constantinople) back on the parapet because Napoleon's successor wanted to curry the favor of the Venetians. In Egypt they explained that the Obelisk cannot be seen in its original setting because it's in Paris on the Place de la Concorde. (The British, Italians and Americans took obelisks, too.)

In Innsbruck in Austria at the Tiroler Kaiserjäger Museum the feat of Andreas Hofer's men in repulsing the troops of Napoleon for several days is memorialized. At Heidelberg Castle it is explained that the crest was taken to Paris after the castle's capture. In Copenhagen the decline of Denmark (England was once a province) is linked to events like the messianism with Napoleon.

off Alexandria. In it Bonaparte speaks boastfully of his position in Egypt. Below in the tortured writing of Admiral Nelson's left hand (he'd lost his right hand in a fight in the Canary Islands and his right eye earlier) is "Mark the end, Nelson." Nelson had destroyed Napoleon's fleet at Aboukir Bay.

When Napoleon was only 32 years old he drove from the Tuilleries Palace to Notre Dame Cathedral accompanied by a colorful procession of generals, officials and diplomatic representatives to celebrate the pacification

ling here at the time, but when the figure was mounted on the top of the column it was Napoleon, in classical dress as a Roman emperor.

Napoleon sponsored codification of the laws, set up a strong central government and reorganized schooling. He subjected religion, the press and education to strict controls and used them to glorify himself and France. His control of creative writing had its inevitable result and when people complained of a lack of French literature Napoleon said, "It is the fault of the home minister. He ought to set about getting some decent stuff written."

He embellished Paris with the loot from Florence and Rome and other conquered cities and with so much of his architects. You can see much of it today as it was then because Paris has frozen building style. There is a seven-story limit on buildings in the area of the Opera. If a building is replaced, it must be with one that keeps the look of Old Paris.

Venerable Charm
This gives Paris a charm of other times that must make it appealing to Americans, so used to the American constancy of change. Paris is venerable and uniform in its architecture. It does not have a skyscraper flanked on one side by a pioneer house with a widow's walk on the top and a car parking lot on the other.

Behind this historic facade there's a serious building shortage. Paris isn't going up in the air like New York or Chicago, it's just condensing and sprawling some more. Napoleon isn't around now, but he would approve the authority of the rigid controls which persist.

His demands in buildings were for big ones that should be lasting and could be erected quickly and cheap. He preferred granite and metal as materials and while he admired ornate Fontainebleu and Notre Dame, he preferred designs that were plain and geometrical.

If architects' plans met his taste, he opened the treasury and his spending was almost as liberal as the Bourbon kings' who created such enormous pleasure domes as the palaces of Versailles and Fontainebleu. Napoleon built pillars, arches and palaces both in Paris and the provinces, spending many millions of dollars.

Biggest Anywhere
He began the Arch of Triumph at the end of the Champs Elysees here in 1806 and it was completed by King Louis-Philippe in 1836. The inner walls bear the names of hundreds of Napoleon's generals and nearly 100 of his triumphs. The arch is 160 feet high, the largest thing of its kind in the world.

Napoleon's taste and motives have been questioned by many critics, but his patronage helped to keep the artists of his age alive and to give the name Empire to a style which has made a mark in the history of art.

The unending wars of Napoleon made an enormous drain on French manpower. Finally an average of one man in every four was rejected for military service because he was under 5 feet and the required height was gradually reduced to 4 feet 9 inches. This was at a time when the standard height in the British army was 5 feet 5 inches and a fair proportion of the men topped 5 feet 9 inches.

In the Russian campaign the interest because there was a campaign of distortion that reached more people than he could reach. Rarely has a President or a press secretary dished out such a mouthful of arrant nonsense.

True, there was a vigorous lobbying and propaganda campaign against the withholding plan; but there was some distortion.

But it is not true that any organization within the United States can reach more people than the President.

In fact, the President himself controls and operates the most powerful lobbying and propaganda machine in the nation.

As Lobbyists
White House staff members and representatives of the departments are in constant touch with all members of Congress. These lobbyists swarm over Capitol Hill.

Furthermore, the Administration has more than gentle persuasion to get its will. When a Congressman wants a supporter appointed judge, marshal or other official in his state or district, he becomes beholden to the Administration.

The Administration, of course, never offers to trade an appointment for a vote. But every Congressman knows that if he consistently opposes White House policies it would, to say the least, not be fitting and proper to pressure the White House for a job for a brother-in-law.

battle of Borodino was like that of Eylau, a massacre. Both armies were so slaughtered that they could not strike again. The Russian casualties were nearly 58,000 and the French nearly 30,000 a quarter of their army, along with 50 generals. When the last Frenchmen left Russian soil over the Niemen River ice, only 350 exhausted men were left of the 250,000 Frenchmen who had led the invasion six months before.

Napoleon had gone on ahead to Paris with his guard. His seeming indifference to the dreadful slaughter was regarded by some as a mark of his greatness. Twice a year he had an army of close to a half a million men.

Public spirit in France had slipped back to the feeling that prevailed after the Revolution. Except in the frontier provinces, people asked only for peace. They had had a fill of glory.

Twelve years of military dictatorship ended in his abdication April 6, 1814 and this was the real end of Napoleon. For 10 months he ruled the island of Elba, for four months he was emperor again and then he was defeated at Waterloo and sent to the barren island of St. Helena off the west coast of Africa, where he died. His body was brought back to Paris in 1840 and his showy tomb is visited by many people now every day.

4 Tots Burn To Death In Hammond, Ind., Fire
HAMMOND, Ind. (AP) — Four children burned to death in a fire that destroyed their one-story frame house on the East Side.

Four other members of the family were hospitalized with burns. Dead were Imogene, 7, Alberta, 3, Gloria, 4, and Clark, 2 — all children of Mrs. Alberta Griffin, 28.

Grand Rapids Firm Helped In Ransom
WASHINGTON (AP)—Interstate Motor Freight System of Grand Rapids is listed by the Red Cross as one of the firms contributing their services for the transport of \$42,329,489 in drugs, food and medical equipment donated or pledged for the recent ransom of Cuban invasion prisoners.

Oscar Role?
Peter O'Toole, Ireland's talented contribution to the silver screen, plays the greatest role of his career in the new film, "Lawrence of Arabia." The stature of his work, it is considered, will place him in the forefront of Oscar candidates.

boys mingle at the best cocktail parties.

All the lobbyists in Washington combined haven't half the contacts and the possible pressure points in Congress that the White House has.

Progress Without Crisis

BY WALTER LIPPMANN

The new Congress is meeting in a time of letdown from a prolonged crisis. There has come a pause in world affairs. For the first time in a number of years — say since the challenge over Berlin in 1958 — the threat of thermonuclear war has receded somewhat into the background. From Berlin, the Congo, the resumption of nuclear testing and finally to the climax in Cuba, the crisis mounted. Now, for the time being at least, in both halves of the world, the pause which has a faint resemblance to peace has relaxed the tension enough to release the rivalries and ambitions of normal and unrighted men.

After the armistice which ended the fighting of the First World War, Winston Churchill wrote that the battle of the giants had ended and that the wars of the pygmies had begun. In the aftermath of mortal crisis, there are removed the unifying pressures to hang together lest we hang separately, the urgency to rally around the leader lest everything should fall apart. Thus, with the Cuban crisis behind him, Mr. Khrushchev can turn on his Chinese rivals. In the West, dispute has broken out over the leadership of the alliance. The dispute is possible, indeed it is conceivable, only since the alliance no longer feels that it is seriously challenged by the Soviet Union.

Many Problems At Home
We may expect that the new Congress will reflect the pause in world affairs. In our American constitutional experience, the power of the President to lead is, generally speaking, a function of some kind of national crisis, abroad in time of war and at home in a time like the great depression of the 1930s. President Kennedy's problem in this Congress is how to lead it when there is no apparent national crisis. There is, to be sure, plenty of trouble and danger in the world in which we are so deeply involved. But trouble which does not carry with it the danger of nuclear war is, for this case-hardened generation, not a real crisis.

At home, there are many problems. But there is no crisis remotely resembling that of the Thirties which generated the steam behind the New Deal. While great many Americans are very angry about a good number of things, more people are worried that the government may take away something that they now have than are hoping that it will provide them something which they do not now enjoy. This is the feeling of a satisfied population.

And yet, under the complacent surface, there are great matters which need to be attended to. These matters do not show their consequences immediately, but only in the long run. A prime example of this is the weakness of American education. As we fail to educate adequately one generation of school children, the evil results of this failure do not appear fully until these children grow up and become the uneducated parents of a still-less-educated generation.

Must Lead By Persuasion
It is hard to arouse democrats about the long run. This is the President's difficulty in dealing with the crucial matter of overcoming the chronic sluggishness of the American economy. The American economy is not doing what it could to provide the means for meeting the long-time needs of our expanding urbanized population. But the American economy, sluggish though it is, does nevertheless provide a remarkable sense and a rising standard of private living. The President must try to rally the support of a people which does not feel itself under the pressure of a crisis.

He has to try, because he is not President for this day but for the many days to come. As there is no crisis which drives the people to follow him, he must lead by persuasion. He has to prove his case not only in a court of impartial judges, but in the arena where prejudice and passion and special interests contend. Thus, he has to be not only persuasive, but overwhelmingly persuasive, which is impossible with a very big and complicated program of measures, but may be possible with a program which is concentrated on some great issue, as for example and in particular, the expansion of the American economy.

To achieve overwhelming persuasion where there is no great surge of emotion behind him, he will have to take the risk of boring the public by saying the same thing over and over again, if possible in different words. That has not been in the Kennedy style. But it may be indispensable.

From The Journal Files

90 Years Ago

—Marquette County—
A subscription was recently made up at the Custom House here and donated to Mrs. Bridges, widow of Capt. Isaac P. Bridges, who was drowned off Granite Rock while keeper of the light last fall. Of this sum, \$48 was contributed by vessel captains and the remainder by citizens of Marquette.

The internal improvements are being put in the Adams Building (southeast) corner of Front and Superior Sts., very rapidly. Being built by Sidney Adams and the Masonic Society, it is destined to be a hive of industry, commerce and science. We trust the Historical Society will not fail to secure rooms in it, as has been talked of.

Jacob Kramer has fitted up his Marquette House on Spring St. to accommodate his guests and the public with restaurant fare, when they desire it, as well as the regular table fare. He proposes to make it as attractive and satisfactory as possible and desires his friends in the city and up the road to be informed of the fact.

At a meeting this week in the city recorder's office to arrange for a course of lectures, a board of officers was organized, consisting of Peter White, president; W. S. Chapin, secretary, and Byron P. Robbins, J. B. Cochran and W. S. Dalliba, lecture committee.

Last Saturday considerable flutter was occasioned here by the statement that ex-Gov. Baldwin and Gov. Bagley were on a tour of inspection of state lands, but the party consisted only of the board of commissioners. When they arrived in Negaunee a special train took them to their destination, L'Anse. It is important to mention in this connection that they were but 32 hours on the road between Detroit and L'Anse, via Chicago, a distance of 763 miles. As the Marquette, Houghton & Ontonagon Railroad is involved in these land grants, the visitors inspected the docks and shops here.

Ice boat riding has been one of the excitements of the past week, after the bay finally froze over. A mile in two minutes was made by one of the craft.

The recent horse race on Lake Angeline

was a very pleasant affair, and the day could not have been better. By 2 o'clock about 300 people, including a few ladies, had gathered there and four straight parallel tracks a half mile long had been made through the snow that covered the ice, thus making an excellent course. The program consisted of three races: first, the best of five heats, for a \$150 harness; second, best two in three for a horse blanket and hood valued at \$30; third, best two in three for a string of bells.

The Lake Superior Iron Co. mined 185,000 tons of ore during 1872, considerably more than the Cleveland. Over half the ore shipped from Marquette County was mined in the neighborhood of Ishpeming.

There are 63 pews in the Methodist Church in Ishpeming, and already 35 have been rented for an aggregate of \$800. The highest price paid for a pew was \$50. The pews in St. John's Catholic Church were rented last Sunday for the coming year. There are 100, all of which were taken at prices ranging from \$50 to \$15. Some alterations are in contemplation which will give sitting room to 150 or 200 more persons.

Carney, Negaunee's popular livery man, has more courage than most mortals. A few nights ago a couple of gents applied to him for a sleigh to take them to Marquette, but passenger trains on the railroad being blocked by snow. He turned out a team and made the Morgan Furnace tolerably well. From there nearly to the brewery the road had to be broken through an average of 20 inches of new snow, and with the temperature 12 degrees below zero. However, the journey was accomplished with but one upset, in less than three hours.

We understand that a series of elegant socials, each including a dance and supper, to be held in Winter's Opera Hall, are in contemplation. People cannot be found who have a better faculty of enjoying themselves than those who populate Negaunee.

The Pioneer furnaces are now shipping pig iron from Negaunee direct to Chicago. It is of excellent quality and goes on the market for car wheel purposes, commanding the highest price.

turned after three years spent in study at Leipzig, one of the great German universities, talked entertainingly yesterday with a Mining Journal reporter in regard to German student and social life in the kaiser's empire. He enjoyed his stay there.

Miss Gem Sherman, principal of the schools at Michigamme, has been tendered Miss McKittrick's former position in the high school. Superintendent Scribner was at Michigamme yesterday consulting with the school board there.

—Negaunee—
The fire horse which has been sick for a number of days is again in the harness and has seemingly recovered completely.

The Larson brothers, John, Henry and Frank, who went to Lake Gogebic some time ago, have returned home.

Today's Special Story

has a windowed view of a great collection of captured flags that came to Paris from many European battlefields. The flags are tatters and strings now, just wisps of remnants of material glory, but the influence of Napoleon is everywhere.

Loot Of Obelisks
And it is so across Europe. He filled the Louvre with the loot from his conquests. In Milan they say that Da Vinci's Last Supper is there and not in Paris because it's a fresco, painted on the plaster of a wall and not transportable. Rome yielded treasures. In Venice St. Mark's Cathedral has its gilded horses (taken from Constantinople) back on the parapet because Napoleon's successor wanted to curry the favor of the Venetians. In Egypt they explained that the Obelisk cannot be seen in its original setting because it's in Paris on the Place de la Concorde. (The British, Italians and Americans took obelisks, too.)

In Innsbruck in Austria at the Tiroler Kaiserjäger Museum the feat of Andreas Hofer's men in repulsing the troops of Napoleon for several days is memorialized. At Heidelberg Castle it is explained that the crest was taken to Paris after the castle's capture. In Copenhagen the decline of Denmark (England was once a province) is linked to events like the messianism with Napoleon.

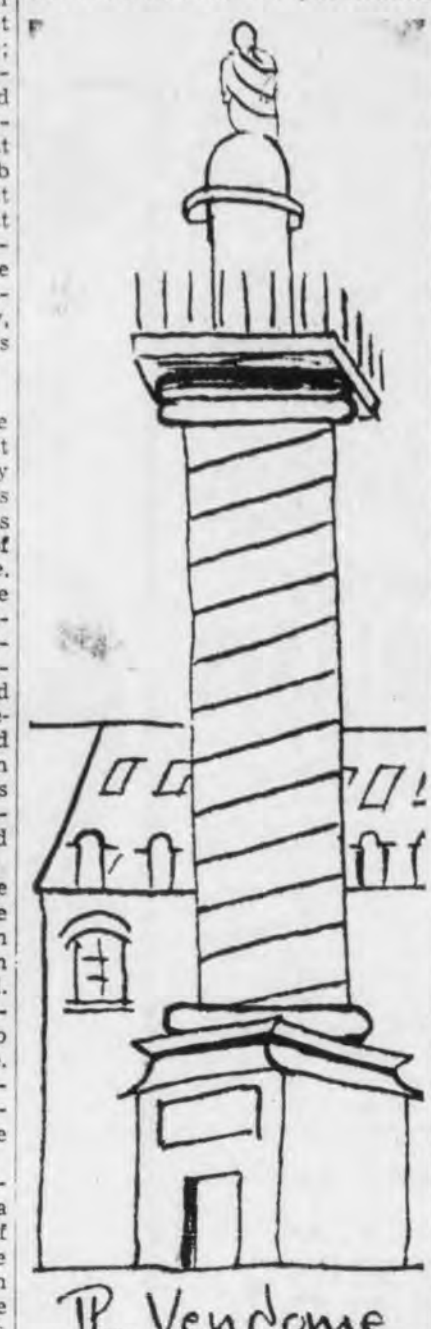

The little Corsican was a colossus, and also something of a monster. The great eminence of France during the years of the Napoleonic wars seem to be much better remembered today than the huge toll they took of French manhood. Napoleon's influence is to be found everywhere in Paris and through much of Europe, not only in victory arches, tombs and monuments, but in governmental forms and lawmaking, in education and other things.

Human Dynamo
He became an emperor because he was such an able battle strategist, a dynamo of human energy, a fearless, immensely inventive man. He came to power after the revolution when France was in the throes of trial of popular government and he restored the monarchy. The directors feared him after his Italian campaign successes and wanted to keep him and his army as far from Paris as possible, so they approved the Egyptian campaign. Through his active years Napoleon debated an attack on England and alternatives and always fought the alternatives. England's navy ringed Europe and Napoleon's armies dominated it.

A merciful man on the humanitarian standards of 1798, he prohibited the use of torture on Egyptians to gain information, but allowed a massacre of the town-people of Jappa and ordered 3,000 prisoners put to death.

When he became first consul, Sieyes summed up: "You have a master, a man who knows everything, wants everything and can do everything." He destroyed the separation of church and state because he wanted to have the ecclesiastical as well as the political control of the nation.

Nelson Postscript
In the British Museum in London there's a letter in Napoleon's handwriting dated Aug. 23, 1798, and captured by a British frigate

of Europe. It was the high tide of Napoleon's fortunes. Only seven years before he had been known only to his professional circle in the army. Since then he had fought three spectacular campaigns that made him the leader of France and France the mistress of Europe.

Napoleon was to go to Notre Dame again later to crown himself emperor in 1804, but it was becoming clearer (to posterity) that there was to be no enduring pacification of Europe. Napoleon was unbeatable, it seemed, but like any champion he had to keep fighting to prove it.

In the Place Vendome here there is a tall column of bronze made of cannon captured by Napoleon's Grand Army. A spiritual frieze depicts his conquests. The column is modeled after Trajan's column in Rome; with a statue of Charlemagne atop it.

Napoleon had ordered a statue of Charlemagne like it for Paris and two such statues were available

Views Of Others

ZIP TO YOU, TOO

Well, it was bound to happen. Once the phone company found that it could do away with exchange names and assign numbers to everything, the post office had to take a similar step. The result is something known as the "Zip Code," which Postmaster General Day presented with as much pride as it was an improved version of the quantum theory.

Under the system, every American with a mailing address is to receive from the post office next year a notice listing a Zip Code number consisting of five digits. They will be intelligible only to mail room sorters, and through their use, says Mr. Day, service may be speeded up as much as 24 hours. However, the postmaster general says that only big organizations and not individual mailers, will be expected to make use of the Zip Code.

What to make of it all is something of a mystery. Between his social security designation, his phone dialing code and now his Zip address the American taxpayer is the greatest triumph of numerology since the abacus board. "We are working with the big mailers," says Mr. Day reassuringly, "and we're not concerned if Aunt Minnie doesn't learn the new number." Well, that's all right for Mr. Day's Aunt Minnie. Our Aunt Minnie says never mind about the Zip Code and how about going back to two-a-day delivery? — New York Herald Tribune

★
GREATER COOPERATION IMPERATIVE
I do not believe, in the light of present world conditions, that government, labor and management can each continue to go its separate way with little or no consideration of the viewpoints of the others or the needs of the nation. A much higher degree of cooperation between these major elements in our economy than has existed heretofore seems to me an imperative of our times. — Joseph R. Block, Inland Steel Co.

Members of the Upper Peninsula Committee on Area Problems are shown in Marquette after they introduced Robert Nathan of Washington D. C. who heads up Nathan Associates—a firm that is providing technical assistance for UPCA. From left, are UPCA Treasurer Donald Munro of Ontonagon, Secretary Harold Vanterbergh of Escanaba, Nathan, Chairman Lynn Sandberg of L'Anse and Vice Chairman Harold Dettman of St. Ignace.

Economic Development Outlook For Peninsula Good, Nathan States

Foreign countries should not depend so much on United States aid that they fail to develop their own muscles for economic recovery, Robert R. Nathan of Washington, D.C., told delegates of the Upper Peninsula Committee on Area Problems at a Saturday meeting in Marquette. Nathan indicated he felt the same held true for our own underdeveloped areas seeking federal aid.

Nathan is president of Nathan Associates, a technical assistance firm that has been contracted to serve UPCA through an Area Redevelopment Administration grant and has established an office in Escanaba.

Price To Pay For Progress

The economist, who commutes throughout the world to serve his firm's clients, told the 50 UPCA delegates and committee members that prospects for real development in the U.P. look good but that there will be a price to pay for the progress. The job calls for much energy, hard work, imagination and dedication, he said.

Nathan, a former chief of the national income division of the U.S. Department of Commerce and a deputy director of the War Mobilization and Reconversion Board in the early forties, warned against the assumption that the U.P. is isolated and independent. He said the area is very much influenced by the rest of Michigan and other states in marketing efforts.

Priority On Human Resources

Related to this, Nathan predicted that a stronger economy in the United States would help the Peninsula's chances for recovery. The strengthening of the U.S. economy, he predicted, could come from two directions—a general tax cut and a boost in retail business coming from many new family units being formed by the big crop of "war babies" of the early forties.

Referring to assets of the U.P., Nathan put human resources at the top of the list. He said there's a reservoir of talent here but some more sparks are needed to motivate action. "This is a real challenge to academic and adult educators and to the organizations of the area," he emphasized.

The next important asset, he stressed, is the large reservoir of natural resources. He warned against the assumption that these resources are worthless simply because they aren't as rich as they once were.

A liability he listed was the long distance from markets, but he stressed that this problem may be solved since transportation rates are flexible. Another problem lies in the energy field, Nathan admitted, but said UPCA's natural gas committee could provide some answers here.

Regional Plan Urged

The economic developer advised UPCA to establish a regional plan, to provide technical assistance to counties and other units of local government and to maintain machinery for county coordination of activities since counties represent the important decision making units in many phases of economic development.

"Contrary to what we may have heard, the Upper Peninsula has not been completely surveyed or studied," Nathan stated. "There are fantastic gaps of information which investors would demand before moving into this area." He mentioned the Lake Superior cisco project as an example and said that in order to meet competition, the U.P. would have to do some feasibility studies to attract industry.

Raw Materials Exploitation

Regarding implementation, the speaker emphasized that planning is only the beginning of economic development and that planning could create delusions if no product results. "Proper planning can be a part of implementation," he said.

Referring to a program for UPCA, Nathan advised somewhat more selective and carefully detailed raw materials exploitation. He sees the greatest possibilities for small enterprises and thinks this pattern would better solve the Peninsula's problems since there are small groups of unemployed persons scattered throughout the area. "Our firm," said Nathan, "will try to provide a specialist who will soon be spending some time in the area to check the potential for more small businesses."

Nathan concluded by stressing that there are no miracles to economic development, by saying that his firm would use their Washington and world contacts to push

Three Ticketed, Ten Autos Damaged In Collisions Here

Three motorists were issued tickets and 10 automobiles were involved, but no one was hurt, in five traffic mishaps which occurred in Marquette during the weekend.

1. At 9:40 last night a car being driven south on Tracy Ave. by Thomas Niemi, Carey Hall, struck an automobile traveling west on Center St. and operated by James Kilburn, Spooner Hall. City police said Niemi had slowed up at the intersection and said he didn't see anyone coming. The mishap occurred as he was attempting to make a right turn onto Center St.

Right-of-Way Violation

The left front and left side of Niemi's automobile, a 1960 two-door hardtop, were extensively damaged and the right front of Kilburn's 1955 four-door sedan was damaged. Both vehicles were driven from the scene under their own power.

Niemi was ticketed by city police for a right-of-way violation.

2. An automobile being driven south on Champion St. by Paul Pringle, 702 Division St., collided with a car operated by Mark Trotochaud, 430 W. Washington St., at 10:15 yesterday morning.

Didn't Yield Way

City police said Trotochaud, driving east on Blenhuber Ave., had almost completed a left turn onto Champion St., when the collision occurred. Pringle had applied his brakes and the car struck a snowbank on the west side, city police said, causing its left rear to slide to the left and strike Trotochaud's automobile.

The left rear fender of Trotochaud's 1958 four-door sedan and the left rear fender of Pringle's 1940 four-door were damaged to a minor extent. Both were driven from the scene.

Pringle was ticketed for a right-of-way violation.

3. At 6:47 last evening a car being driven south on S. Front St.

projects for UPCA if they had merit and by warning that they can be technically helpful but that the real job would be done by U.P. citizens.

driven from the scene under their own power.

5. At 11:10 Saturday night a 1959 city snowplow operated by Joseph Lampman, 903 Pine St., backed into a car owned by William Griewe, 715 W. Magnette St., which was parked in front of 420 Albert St.

City police said Lampman had waited for another plow to go by and then backed across the Spruce-Albert St. intersection, striking Griewe's automobile, a 1957 four-door sedan. The hood of the car was damaged.

Five Drivers Pay Fines In City Court

Five persons were ordered to pay a total of \$48.60 in fines and costs by Judge Edward H. Dembowski in municipal court last week.

For permitting an unlicensed person to operate a motor vehicle, Mildred B. Santamore, Iron River, paid a fine of \$10 and \$4.30 costs. For driving without an operator's license, Lucille J. Sisk, Iron River, paid an identical assessment.

The two tickets were issued Jan. 6 by state police on U. S. 41 in Marquette.

6 by state police on U. S. 41 in Marquette.

Speeding Charge

For speeding, Ralph P. Doto, 114 Teal Lake Ave., Negaunee, was fined \$6.30 and ordered to pay costs of \$3.70. He was ticketed by city police Jan. 2 for driving 40 miles per hour in a 25-MPH zone on Lincoln Ave.

A fine of \$1.30 and \$3.70 costs were paid by Albert N. Gauthier, 337 Fisher St., for failure to secure a parked motor vehicle. City police issued the ticket Jan. 1 at the corner of W. Washington and Seventh Sts.

Beverly A. Johnson, 2127 Presque Isle Ave., was ordered to pay a fine of \$1.30 and \$3.70 costs for speeding. The summons was issued by state police Dec. 27 for driving 65 miles per hour in a 55-MPH zone on U. S. 41 in Negaunee Township.

Cop Bit By Partner Will Get Back Pay

BIRMINGHAM, Ala. (AP)—The county has approved payment of a policeman's salary for time lost from work after being bitten by his partner.

Officer W. N. Alvis, was off five days recently after he was bitten as he tried to remove his police dog from a police car.

"BUT—How Can a Private Citizen Fight the Reds?"

Here's how: by helping to broadcast the unanswerable truths that keep the Communists off balance.

Where? At Communism's weakest spot—Eastern Europe. Here 80,000,000 people still resist Red domination... in Poland, in Czechoslovakia, in Hungary, in Bulgaria, in Romania.

Here many powerful Russian divisions are tied down, unable to leave.

You can help keep the pressure on, by supporting Radio Free Europe's daily news and commentary broadcast service to captive people. These messages of truth and hope are counted among our major weapons in the Cold War.

Radio Free Europe is supported by private contributions. It needs your help. Give now—whatever you can.

Stand up and be counted. You'll be proud you did.

Dear Abby . . .

BY ABIGAIL VAN BUREN

DEAR ABBY: The growing trend toward teen-age marriages didn't worry me until my 17-year-old daughter told me that she and her 19-year-old boy friend wanted to get married. They have gone steady for two years and he is a nice enough fellow, but I'm sure they don't know what they are letting themselves in for. How should I handle this?

MRS. G.

DEAR MRS. G.: Say, "Fine, but first I want to give you a little sample of married life. You manage this home for the next two weeks. That means getting up in time to prepare Dad's breakfast . . . fix his lunch (if he carries one), do the dishes, make the beds, vacuum, sweep, scrub the bathroom, prepare all the meals, do the laundry and ironing, wash the windows and Venetian blinds and do all the marketing. Meanwhile, I'll get up at the time you usually do and spend the day as you spend it (including an hour on the phone.) Then I'll borrow some soiled diapers so you will be prepared for the chores of early motherhood." If daughter understands what will be expected of her marriage, and still wants it in a hurry, give her your blessings.

DEAR ABBY: Please tell me if you have ever heard of anything like this, and explain it to me. I am of one religion and my husband of another. We have a 13-month-old baby girl who has never been baptized because my hus-

band wanted her baptized in his religion, and I said I would rather see her not baptized at all than agree to that. Now my husband says he wants to take her and get her baptized—but not in any special religion; she will just be baptized. It's a no-religion baptism. Have you ever heard of such a thing? My mother says she thinks he is trying to pull a fast one.

YOUNG MOTHER

DEAR MOTHER: The mode or rite of administering baptism in the Christian churches is fixed by the discipline or doctrine of each church. There is no such thing as a "no-religion" baptism since baptism is a religious ceremony.

DEAR ABBY: My daughter is 16. She is very attractive and mature for her age. She has fallen in love with her teacher and he is in love with her. He is 30, married and has children. He has told his wife he loves my daughter and his wife won't give him a divorce. Why should she want to hang on to a man who doesn't love her? Don't you think this man and my daughter have a right to happiness together? Abby, if you could see them together you would know it is true love and not infatuation. What can be done?

QUESTION MARK

DEAR QUESTION: It is conceivable that a 16-year-old girl could have a crush on her teacher, but how her MOTHER could condone, encourage and permit such relationship to grow is beyond me. Your daughter has no business

going with a married man. Consult a professional counselor for your daughter's sake. You, too, need to have some twisted notions straightened out before you can give your daughter proper guidance.

DEAR ABBY: I always thought a girl should confide in her mother and I used to until I found out she was telling all my business to my aunt who has the biggest mouth in Philadelphia. Please, Abby, tell parents that the young people deserve to have their secrets kept, and if their parents

don't do it they shouldn't cry and wring their hands when they discover their children are keeping secrets from them.

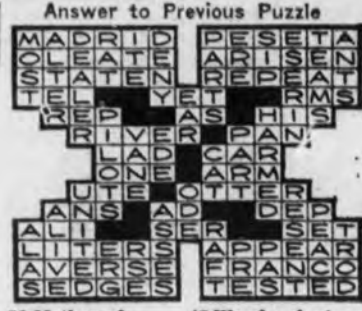

BETRAYED

DEAR BETRAYED: I know you are right and I hope this inspires thoughtless adults to think twice before betraying the confidences their children have entrusted them with.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif. (McNaught Syndicate, Inc.)

Thursday: Group "D" will meet at 2:15 p. m. in the lounge; at 7:30 p. m., regular meeting of

Don't Diet Like Amateur, Says Nutritionist At MSU

Don't diet like an amateur if losing weight is among your New Year's resolutions. Use your professional know-how. "Nutrition educators across the country must have cringed some weeks ago to read the new Miss America's widely publicized formula for weight reduction," says Anita Dean, Michigan State University foods and nutrition specialist. Although Miss America of 1963 is to be complimented for recognizing her weight problem and for her will power, Mrs. Dean says, her manner of dieting leaves much to be desired. The new Miss America said she used to skip breakfast and lunch to shed pounds. "Today's teen-age girls, Mrs. Dean contends, have access to more reliable nutrition information and can plan their diets accordingly. "Being overweight is a common problem among teen-age girls, especially the 15- and 16-year-olds," the specialist points out. "Too often mothers try to discourage their daughters by saying, 'Oh, you'll grow out of it' or 'You don't need to diet. You look fine!'" Mrs. Dean says that a mother should be sympathetic with the teen-agers' concern for her appearance. If you refuse to help your daughter, she will try to diet on her own. Offer she feels the only way she can avoid eating foods high in calories is to skip the meals you prepare. "It's hard to make teen-agers look ahead, but the fact remains that many girls marry before they are out of their teens," Mrs. Dean continues. "Poorly nourished bodies can make child-bearing more difficult and might impair the infant's health as well as the mother's."

the vestry in the lounge. Friday: Group "T" will meet in the lounge at 1 p. m., for luncheon with hostesses Mrs. John A. Alford and Mrs. Warren C. Lambert; a regular meeting follows. (This is a dues-paying meeting). Saturday at 10 a. m., confirmation instructions in the chapel.

The Marquette County Cosmetologist's Association will meet at 7:30 p. m. Wednesday in the Union National Bank lounge. All interested persons interested in joining the association may attend this meeting.

St. Christopher's Activities — Masses this week at 7:15 a. m. daily; additional Masses on Monday and Tuesday at 6:45 a. m. and on Wednesday at 8 p. m. Tonight there will be a special dinner meeting of the parish lay board at 6. The senior choir will meet tomorrow evening at 7 in the church. St. Jude's Circle of the Altar Society meets Tuesday at 8 p. m. at the home of Mrs. Loy Ellis Jr. on Gray St. On Wednesday, public school instructions — at 3:30 p. m., kindergarten, first, fifth and sixth grades meet in the church; the second, third and fourth grades in the parish hall; at 6 p. m., the junior and senior high school students meet in the hall. At 7:45 p. m. on Wednesday, Miraculous Medal novena followed by Mass. Thursday evening at 7, the St. Vincent de Paul Society meets at the parish rectory. Altar boy instructions on Saturday at 1 p. m.

Messiah Lutheran Organizations — Junior Choir meets tonight at 6:30. There will be no Senior Choir rehearsal for this week only. The Boy Scouts meet Tuesday at 6:30 p. m. and the Explorers meet at 8 p. m. Tuesday. The meeting of the Messiah Churchmen scheduled for Tuesday is postponed one week. The Martha Circle meets Tuesday evening at the home of Mrs. Sadie Lindholm, 1124 High St. The Miriam Circle meets Tuesday evening at the home of Mrs. Arnold Lutley, 1015 N. Third St., and the Sarah Circle also meets Tuesday evening at the home of Mrs. Milton Kinney, 810 W. Magnetic. The Dorcas Circle meets Thursday afternoon at the home of Miss Gyda Johnson, Longyear Apts. The Mary Circle meets Thursday evening at the home of Mrs. Harry Nydahl, 224 E. Michigan. The junior confirmation boys meet Wednesday at 4 p. m., the junior girls meet Thursday at 3:30 p. m. and the senior class meets at 2 p. m. on Thursday. The annual congregational meeting will be held at 7:30 p. m. on Wednesday.

San Francisco Operatic Quartet In Appearance Tomorrow At Ishpeming

The San Francisco Operatic Quartet, one of the outstanding group attractions of the concert stage, will appear in Ishpeming tomorrow evening in the second program of the Ishpeming Concert Series. Directed by Nino Comel, who founded the quartet eight years ago, the four artists — Catherine Paul, Donna Petersen, Kenneth Wahn and Richard Frock — will appear in a program ranging from grand opera to musical comedy. Curtain time is 8:30 in the Ishpeming High School Auditorium. Director Translator

Priest, Once Here, Marks Anniversary

The Rt. Rev. Msgr. John T. Holland, 74, former pastor of St. Peter's Cathedral, marked the 50th anniversary of his ordination to the priesthood in Menominee yesterday. Attending the observance, which began with a solemn golden jubilee Mass of Thanksgiving in Menominee's St. John's Church, of which Msgr. Holland was pastor from 1948 until his retirement last year, were the Most Rev. Thomas L. Noa, bishop of the Catholic Diocese of Marquette and an estimated 40 priests of the diocese, including 10 from this area.

Native Of Hancock A native of Hancock, Msgr. Holland was educated at the Grand Seminary, Montreal, Canada, and was ordained by the late Rt. Rev. Frederick Eis on Dec. 26, 1912. His first priestly assignment was as chaplain of St. Mary's Hospital here, and he later served churches in Hancock, Chassel, St. Ignace, Sault Ste. Marie, Marquette (1945-1948) and Menominee. During World War I, Msgr. Holland served as an army lieutenant with the rank of first lieutenant. Named a parish priest consultant in February 1938, Msgr. Holland later served as dean of the Sault Deaneary, diocesan consultant and dean of the Marquette and Menominee Deanearies. He was named a domestic prelate on Sept. 4, 1943.

Paragraphs

St. John's Altar and Rosary Society has scheduled its monthly party sale Tuesday in the church hall. The sale will start at 11:30 a. m., and advance orders may be placed by calling Canal 6-2511 before 11 a. m.

"If your daughter feels that she needs to lose a few pounds, don't discourage her," the specialist advises. "Instead, help her get sound information about nutrition from reliable sources. Check with your family physician. Then sit down and help her plan her diet. You might be inspired to try it, too."

Pamphlets on nutrition may be obtained by writing to Bulletin Office, Room 10, Agricultural Hall, Michigan State University, East Lansing. They include: Breakfast Bonus (F-248), In Tune with the Teens (F-274E), and Counting Calories (F-113), and all are free.

Lines from Lou's by ... maggie

An interesting article tells us that a new record will be set in 1963 in retail trade. Nearly 300 billion dollars will be spent with merchants during the coming year. There will be more dollars to spend (somebody must have a money tree), and there will be several million more people to do the buying or to be bought for. People will spend more for food than anything else. Meat will perhaps be more expensive and so will milk and bread, at least that is the outlook now. But clothing is expected to stay fairly stable. However, there are differences of opinion among the top ranking merchants in the country, and as usual it remains a guessing game to some extent.

January may be considered a dull month, but if you want a winter pick-up to chase those dollars away, come down to Lou's today and shop. Our clearance sale is still going on and we have received some lovely new things. If you are traveling, whether to foreign ports or just downtown, try a lighter, brighter knit, such as our three-piece white orlon washable one with a price tag of only \$19.98. We'll be looking for you at Lou's in the center of Marquette!

Engaged

Mr. and Mrs. Leo Schmeltzer announce the engagement of their daughter, Patricia Ann, to Airman 1-c Jack Rickman, son of Mrs. Blanche Rickman of Arnolds Park, Ia. Airman Rickman is presently serving in the U. S. Air Force at MacDill Air Force Base, Fla. A June wedding is planned.

'Home Life' Subject For Clubwomen

A program arranged by the Home Life committee will feature Wednesday afternoon's meeting of the Marquette Woman's Club. Mrs. Henry Ericson, committee chairman, has announced that the program will be a showing of slides, with commentary, featuring a group of room settings and entitled "Musee Fabrics for Your Home." Each room has been created by an outstanding interior decorator and all the fabrics used in decorating the rooms have been inspired by original designs from the Musee De L'Impression Sur Etoffes in Mulhouse, France, the only museum in the world devoted entirely to textile printing and design.

One Of Series

The slides are one of a series provided for showing throughout the country by the Celanese Corporation, Mrs. Ericson said. The Mulhouse Museum, dating from 1746, contains a rare collection of some six million fabric designs, including Napoleonic commemorative prints, antique tapestries, provincial prints, historic toiles and decorative floral designs. Prior to the slides program, there will be a business meeting, beginning at 2:30. A dress length of material will be given as a special prize during the afternoon.

Mrs. Robinson Takes Top Honors In Bridge Club's Current Series

Mrs. Thomas Robinson won the current five-week series of the Superior Duplicate Bridge Club's Friday night section with an average percentage score of 57.27. Also in the high bracket were Ray Windus, 55.68; Mrs. Rollin Thoren, 53.25; Mrs. Bernard Schmeltzer, 52.27; Cleve Sullivan, 51.11; Ray Windus, 51.01; Mrs. Zigmund Mileski, 50.85; and Mrs. Luther McGee, 50.34. Mr. and Mrs. Bertrand Beauchamp were the winners Friday night with a score of 60.16 per cent. Other teams with scores of 50 per cent or above were Mrs. R. E. Hodson and Mrs. Adelaide Jurmu, 58.51; Mrs. Robert Bystron and Mrs. Thomas Robinson, 56.04.

Mr. and Mrs. Leo Schmeltzer announce the engagement of their daughter, Patricia Ann, to Airman 1-c Jack Rickman, son of Mrs. Blanche Rickman of Arnolds Park, Ia. Airman Rickman is presently serving in the U. S. Air Force at MacDill Air Force Base, Fla. A June wedding is planned.

Mr. and Mrs. J. Victor Johnson announce the engagement of their daughter, Arlene Frances, to Brian N. DeRoche, son of Mr. and Mrs. Robert DeRoche. Miss Johnson, a graduate of Baraga Central High School, is employed as a secretary for the Travelers Insurance Co. Her fiancé, also a Baraga graduate, is a junior at Northern Michigan College. A summer wedding is planned.

Mrs. H. N. Young, and Mrs. Nathan Narotzky and Arthur Nisenbaum and Robert Maxwell, tied with 54.94; Mr. and Mrs. Ernest Pesola, 53.64; Mrs. Oakes O'Neill and Mrs. Russell Adams, 52.74; Mr. and Mrs. Zigmund Mileski, 52.47; Helen Winter and Mrs. Earl Makela, 51.64; Lloyd Seestad and Ray Windus, 50.82. The club will resume its meetings at the Clifton Hotel this Friday, play beginning promptly at 7:30. Last Friday, the meeting is at the Northland Hotel.

Sub-Zero Cold Wave Follows 17-Inch Fall Of Snow In Negaunee

NEGAUNEE — Residents of Negaunee were still digging their way out of the snow which fell during the storm that began about midnight Friday and continued until 9 Saturday night.

Sub-zero temperatures which prevailed Sunday and again this morning failed to add to the enjoyment of their task.

Below This Morning

Dayton Kellan Jr., water works engineer, reported a reading of 4 degrees below zero Sunday morning and 14 below at 8 this morning. According to readings taken by Arthur Anderson, superintendent of the department of public works, a total of 17 inches fell during the 21-hour period Saturday.

Plowing equipment was put into action at 2 Saturday morning, with nine vehicles in use continuously as city crews battled the storm. City Manager Leonard Harris reported today.

Crews were sent home for a rest at 5 p.m. Saturday, with the relief driver keeping one vehicle in operation on principal thoroughfares until 2 p.m. Sunday. The nine regular equipment operators then re-

turned to their jobs.

"Even with every vehicle in operation, it was a tough job keeping up with the storm on Saturday," Harris said. "Plows would cover an area, but by the time they finished another three to four inches of snow had fallen—and the job had to be done over again.

"Colder weather halted the snowfall between 9 and 10 Saturday night, so that we were able to start widening the streets on Sunday. The temperature never did get above zero Sunday, and without any further snow our crews were able to make good progress on the cleanup."

Business Near Standstill

Public works personnel, directed by Anderson, started cleaning up the business district at 4 this morning, and by 10 a.m. the snow removal operation was completed. Although visibility was practically zero at the height of the storm on Saturday, no traffic accidents were reported in the city limits by police. Business was practically at a standstill, with several establishments closing early because of lack of traffic.

City Crews Do Good Job Of Clearing Snow On Ishpeming Streets

ISHPEMING — Residents awoke this morning to hear weather reports that the temperature had dropped to 15 to 20 degrees below zero in some areas of the county.

The cold weather came on the heels of a severe weekend storm which brought out all available snow removal equipment in Ishpeming.

The public works department did a speedy and efficient job of snow removal and cleaning of streets. Only evidence of the unfavorable conditions which prevailed over the weekend are high snowbanks and snow-covered vehicles crunching their way through the streets.

The snowstorm, which was at its peak Saturday, resulted in cancellation of the Ishpeming Youth Center dance, but otherwise motorists and pedestrians accepted the wintry blasts with little complaint.

Commended for their excellent cooperation and judgment, residents answered a plea from Police Chief Frank Sarvello to exercise caution in driving over the weekend.

A minor accident Saturday morning involved a car driven by Miss Deanna J. Savilluto, 19, which struck another vehicle driven by Earl H. Solmonson, 404 Pine St. Miss Savilluto was ticketed for not wearing corrective lenses. The left front fender of her car was damaged and the car was removed to a garage by a wrecker.

Tri-County Briefs

Alger - Baraga - Marquette

Baraga

The ALCW of the Zion Lutheran Church will meet at 7:30 tomorrow night. All women of the church are invited. Mrs. Fred Engman and Mrs. Leonard Prost will be hostesses.

Committee chairmen were appointed as follows: Pastor Lutey, devotion; William Hampton, entertainment; Raymond Vadnais, membership, and Joseph Mentel, project.

Manistique Beats Negaunee, Houghton Defeats Bessemer In Debate Tournament Finals

Top awards in the Upper Peninsula championship debate tournament at Northern Michigan College went to Manistique in the large school division and Houghton in the small division.

The Houghton team took first place for the second year in a row by gaining a 2-1 decision over Bessemer in the finals Saturday morning.

In the large school division finals, Manistique won over Negaunee, also by a 2-1 decision.

21 Schools Take Part

Students from 21 high schools in the Peninsula participated in the championship tournament, which began Friday afternoon.

The debate meet was sponsored by the Michigan High School Forensic Association, headquartered at the University of Michigan's Bureau of School Services.

State-wide, there are 262 schools entered in the program. This year's debate theme is "Resolved: That the United States should join in forming a Common Market among the nations of the Western Hemisphere."

Members and coaches of the teams participating in final competition were: Manistique — Jacquelyne Anderson and Cordell Sikarskie and Coach Marvin Fredrickson; Negaunee — Kristine Sunne, Stephen Adamini and Coach Berlyne Miller; Houghton — William Raduchel, Byron Boyd and Coach Olive Keskiato; Bessemer — Diane Gustafson, Rosanna Favero and Coach David Lindquist.

One debater each from the top Class B and the top Class C and D schools will be invited to go to Ann Arbor April 27 to compete for \$2,800 in college scholarships awarded by the Detroit Free Press.

Semi-Final Contestants

In semi-finalist competition Saturday morning, Marquette Quereau's affirmative team met the Manistique negative team, while the Negaunee negative team faced the Newberry affirmative squad.

In the small school division, Bessemer's affirmative team was pitted against the Felch negative team and Houghton's affirmative unit met the Ironwood St. Ambrose negative team in the semifinals.

Home-School Club Plans Card Party

NEGAUNEE — The St. Paul Home-School Club is making plans for a Valentine card party to be conducted Sunday, Feb. 17, in the school gym as a fund-raising project.

The social event is under the chairmanship of Mrs. Lawrence Bertocchi Jr. and Mrs. Angelo Bessolo.

At last week's club gathering, the attendance award was won by Sister Rose Albert's eighth grade. Mrs. Douglas Francis was chairman of the eighth-grade lunch committee.

The seventh grade mothers will be hosts at the February meeting, with Mrs. Clarence White and Mrs. Frank Paterno heading the lunch committee.

Annual Meeting Of Zion Church Wednesday Night

BARAGA — The annual meeting of the Zion Evangelical Lutheran Church is scheduled for Wednesday night at 7:30 in the church parlors. Officers for the coming year will be elected, next year's budget will be set and other important business matters will be discussed and acted upon.

Pastor Robert W. Sutherland urges all confirmed members of the parish to attend this annual meeting. Refreshments will be served following the business session.

Obituary

J. W. MATSSON

ISHPEMING — An Ishpeming native, J. W. Mattson, 63, Hibbing, Minn., died Saturday in the Hibbing hospital.

He was born Jan. 22, 1900, in Ishpeming and moved to Hibbing, where he was employed for 22 years as chief clerk by the Cleveland-Cliffs Iron Co. He was a member of Holy Trinity Church, the Engineers Club of Northern Minnesota, Chamber of Commerce, the Range Shrine Club of Hibbing, the Duluth Consistory and Temple Shrine, the Iron Range Lodge of Perfection and the Canisteo Lodge of Coleraine, Minn.

He is survived by his wife, Lempi; a brother, August of Negaunee, and three sisters, Lillian, Mae and Helen Mattson, all of Chicago.

Funeral services were held today in Holy Trinity Church with the Rev. Alex William Koski officiating.

Services will be held tomorrow at 3 p.m. in the Jackson Funeral Home, Ishpeming, with the Rev. Albert Hautamaki officiating. Friends may call at the funeral home tomorrow after 10 a.m.

Better Health Through Knowledge

NUTRITIONAL SHELL GAME

Q. I believe that the processing and refinement of our food destroys much of the healthful properties and that this causes many diseases. Don't you agree?

A. No, we don't agree. You may be the victim of a carefully planned game operated by dietary quacks. Through suggestions, these so-called "nutritionists" try to make normal persons "sick" so they can be "restored to health." The quack's first pitch is that our food is poor, over-processed, devitalized and generally unsatisfactory. Having firmly implanted this idea, the next step is to blame "bad food" for everything from heart disease to halitosis. Then comes the final big pitch . . . buy their pill containing "all essential elements" and be restored to health. Rubbish!

FOIL COOKING

Q. Is it dangerous to eat food that has been boiled or baked in tin foil?

A. No, there is no hazard associated with food wrapped in either tin foil or aluminum foil. Neither foil contains materials sufficiently soluble to render the food hazardous.

UNWANTED HAIR

Q. Why can't modern medicine find the cause and cure for "superfluous hair"?

A. This condition can be influenced to some extent but it is not always advisable to attempt treatment. Hairiness is part of the "make-up" of the individual and such fundamental characteristics seem to resist change.

Send questions to Science Editors, Inc., P. O. Box 1174, Louisville 1, Ky.

The real "miracle" of today's medicine is that so much cure costs so little.

Woman Hurt In Accident In Baraga

BARAGA — Two cars were damaged and one woman injured slightly in a collision at 11 Saturday morning at the intersection of Superior Ave. and old M-35 in Baraga.

An auto driven by Peter A. Sikes, 39, Chassell, traveling west on old M-35) slid through the stop sign on Superior Ave. and crashed into the side of a car driven by Mrs. Mary F. LeClaire of Baraga. The right side of the LeClaire car, which was traveling north on Superior Ave., and the front of the Sikes auto were damaged considerably, but both vehicles were driven from the scene.

Mrs. LeClaire was shaken up and bruised, but did not require hospitalization. Neither Sikes nor his wife, Darlene, suffered injury. State police officers ticketed Sikes for disregarding a stop sign.

66-Year-Old Resident Of Republic Dies

REPUBLIC — Arthur Windahl, 66, died yesterday morning in Bell Memorial Hospital, where he had been a patient for 17 days.

He was born Jan. 15, 1896, in Chicago and lived in Republic most of his life. He was employed by Cleveland-Cliffs Iron Co. until his retirement in 1961, and was a member of the Bethany Lutheran Church of Republic.

Survivors include his wife, Betty; two sons, Raymond of Ishpeming and Robert of Republic; two daughters, Mrs. Harry (Ruth) Johnson Jr. of Republic and Mrs. Joseph (Anna Lou) Brewer of Rapid City, S. D.; three sisters, Mrs. Rufus (Mae) Martin of Republic, Mrs. Raymond (Jarda) Rowley of Chicago and Mrs. Louise Beck of Valparaiso, Ind.; three brothers, Edward of Groton, Conn., LeRoy of Round Lake, Ill., and Leonard of Republic; 10 grandchildren and several nieces and nephews.

The body is at the Bjork & Zhukie Funeral Home, where friends may call after 7 Tuesday night.

Funeral services will be held at the Bethany Lutheran Church Wednesday at 2 p. m. The body will be taken to the church at 11 a. m. The Rev. Leslie Niemi will officiate and burial will be made in Republic Cemetery.

Albert Dreon Dies; Retired CCI Worker

NEGAUNEE — Albert Dreon, 71, of 104 Mill St., died at 12:30 Sunday afternoon in Bell Memorial Hospital, where he was a patient for one month.

He was born Aug. 4, 1891, in Italy and was a resident of Negaunee about 50 years. He was employed by the Cleveland-Cliffs Iron Co. at its Cambria-Jackson Mine, retiring in 1956. He was a member of the Druid Lodge of Negaunee.

Surviving are two sons, Sergio of Negaunee and Louis of Kalamazoo; three grandchildren; a brother, Angelo of Philadelphia; a brother in South America and a sister in Italy.

Services will be conducted at 9 Wednesday morning in the Koski Funeral Home. The Rev. Joseph Charlebois, assistant pastor of St. Paul's Catholic Church, will officiate and burial will take place in Negaunee Cemetery.

Friends may call at the funeral home after 2 Tuesday afternoon.

Mrs. Bjork Of Munising Dies At 59

MUNISING — Mrs. Anna M. Bjork, 59, Bay View Addition, died at 8 Sunday morning in Munising Memorial Hospital following a five-day illness.

She was born May 4, 1903, in Calumet and had been a resident of Munising 50 years.

Mrs. Bjork was a member of the American Legion Auxiliary, the Order of Eastern Star and the Royal Neighbors.

She leaves her husband, Gunnar; a daughter, Mrs. William Shirey of Kalamazoo; a son, John of Munising; three sisters, Mrs. Richard McMartin of Menominee, Falls, Wis., Mrs. Frank Massard of Escanaba and Mrs. Arvid Olson of Kenosha, Wis.; a brother, Rudolph Ulrich of Ishpeming; her mother, Mrs. Mary Ulrich of Escanaba, and three grandchildren.

The body is in the Bowerman-Hallifax Funeral Home, where friends may begin calling at 2 Tuesday afternoon.

Services will be conducted in the funeral home at 2 Wednesday afternoon. The Rev. L. F. Danner will officiate and interment will take place in Maple Grove Cemetery.

'HUE AND CRY'

"Hue and cry" signifies the old English common law practice of pursuing a criminal with horn and voice, according to the Encyclopedia Britannica.

These women operate the libraries in the Gwinn school system—the only public school system in the Upper Peninsula to have trained, full-time librarians in each elementary school. From left are Mrs. Kathleen Murto, Mrs. Marion Flaherty, Mrs. Clarice Hafeman and Mrs. Harriet MacQuestion. Mrs. Murto and Mrs. Hafeman hold master's degrees in library sciences.

Gwinn School System Has Trained Librarians For Each Grade School

GWINN — "We are the only public school system in the Upper Peninsula to have a full-time trained librarian in each of our elementary schools," boasts Mrs. Marion Flaherty, Gwinn High School librarian.

Another unusual fact that Mrs. Flaherty is quick to mention is that two of the three elementary school librarians in the system hold master's degrees in library sciences. They are Mrs. Kathleen Murto and Mrs. Clarice Hafeman.

Had To Wash Old Books

Acting as chairman for the group, Mrs. Flaherty outlined the history and growth of facilities at Gwinn at a recent meeting of the library staff. She recalls, as she puts it, "dis-bugging" dusty, dusty old books from attics and storerooms and from small schools scattered in the township to establish Gwinn's first elementary library in the '30's.

She and Miss Mariel Geer literally washed books in ammonia to rid them of parasites and then hung the books to dry. Their modest effort to establish an elementary library in Gwinn was, nevertheless, approximately 10 years ahead of the times. Not until the 1940's were elementary libraries promoted nationally.

Returned To Gwinn In '49

The idea faltered when Mrs. Flaherty — she was then Mrs. Marion Robertson — left Gwinn to teach in Wisconsin. The town might have lost a librarian had not John Flaherty of Little Lake used apron strings to tie her to the community. The couple was married in 1936. Mrs. Flaherty began to teach permanently in Gwinn in 1949, and since that time the libraries of the schools have shown constant growth.

The present elementary schools at Gwinn were designed to include libraries; however, classroom shortages have been a constant problem in the rapidly growing area and libraries have been moved to temporary quarters.

Use Foyer of Gilbert School At Gilbert Elementary School Mrs. Harriet MacQuestion operates her library in the foyer. At the Air Force base schools Mrs. Hafeman and Mrs. Murto use what will eventually be the serving kitchen at McDonald School.

In spite of inconveniences all three libraries operate as they would in permanent installations. The Dewey Decimal System, which classifies materials accord-

ing to subject matter, is used, and pupils receive library instruction beginning in the first grade.

From a musty collection of tattered books, the Gwinn schools' libraries have grown to a collection of more than 7,000 volumes. The high school library today more than meets the requirements of the North Central Association, the accrediting institution for Michigan high schools and colleges.

Each of the libraries has a curriculum materials center and a professional library to assist teachers in keeping informed on teaching trends and in specialized subject areas. In addition to professional publications provided by the school system, collections of curriculum guides from numerous schools and research data on curriculum development is available to teachers in order that they might learn what is being done in other systems.

Teachers have played important roles in developing the libraries at Gwinn by suggesting materials to be added and by seeing the facilities are used by pupils. Even modern physical education classes find library materials useful. Publications recommended by specialists in the school system are also made available to teachers. Coordinators in the fields of English, mathematics, and physical education and reading consultants have been employed to improve the instructional program.

Teaching Aids Available

Librarians put to extensive use the facilities of the state library in order to supplement material for units being taught in classrooms. Audio-visual equipment — tape recorders, projectors, films, and film strips — falls under their supervision. Maps, globes and teaching aids are also available.

Librarians have learned that more and more emphasis is being placed by teachers on special reports, research and enrichment programs; consequently vertical files of materials on subjects of a wide range must be maintained and kept up to date. Such files include pamphlets, pictures, clippings and free and inexpensive materials that are available to students.

Mrs. Flaherty recalls when she felt fortunate to receive a \$50 budget for books. She explains that early shortages made Gwinn one of the first

public school system in the state to use the state library extensively to supply reading material for pupils.

Next year she will move her library into Gwinn's new high school, which she calls "a school built around a library — as it should be." She hopes eventually to set up "one of the finest high school libraries in the state."

The new library will be 41 feet wide and 69 feet long with adjoining conference rooms, a periodical reading room, a work room and an office.

Seek Still Higher Standard

Although the present high school library exceeds the minimal requirement of the North Central Association of seven books per pupil, Mrs. Flaherty hopes to meet the standard of 10 books per pupil suggested by the American Library Association. Budget, naturally, will be a problem. The library association recommends that \$4 per pupil be budgeted each year for printed material; this year her budget for the junior high school and high school averaged \$3 per pupil for printed material.

Although both the junior high school and high school libraries are in the same area at the present school, the two libraries have been set up individually with separate check-out systems. Should one library be moved, the other could remain intact.

Allie Finally Beats Vince - In 'Bowl' Tilt

LOS ANGELES (AP) — Allie Sherman finally has a victory today over Vince Lombardi, his old New York buddy, even if it took one of Jim Brown's finest days, five fumbles, two dropped touchdown passes and a field goal by a guy with the shakes.

Sherman, the young scholarly coach of the New York Giants, got his revenge Sunday in the Eastern Conference's 30-20 victory over Lombardi's Western Conference stars in the 13th National Football League Pro Bowl All-Star game.

Sherman called it "a great team victory and a great game under the circumstances." Lombardi, like Sherman a Giant assistant before starting his championship reign at Green Bay, called it a "comedy of errors."

Most of the 61,374 who watched the sloppy, but exciting struggle at the Coliseum under sunny skies and 60-degree temperatures probably would agree the answer was somewhere in the middle.

On the positive side, the East had the brilliant running of Cleveland's Brown, who proved he's just as good as ever by carrying 17 times for a record 141 yards, scoring two touchdowns on a 30-yard gallop and a one-yard power plunge and setting up a third score with a 33-yard burst through three or four would-be tacklers.

There was the clutch 19-yard touchdown pass from Y. A. Title to Pres Carpenter that pulled the East into a 20-20 tie early in the fourth quarter after it blew a two-touchdown lead, and the field goal by flu victim Lou Michaels that snapped the tie. And there was the tremendous defensive play of Gene (Big Daddy) Lipscomb and Jim Kataevage.

But that side of the East's first victory over the West in four years and Sherman's first over Lombardi in six tries since he became New York coach tended to be lost in the shuffle of fumbles by Abe Woodson of San Francisco that cost two touchdowns, a fumble by Johnny Unitas that led to Michaels' field goal, and sure touchdown passes dropped by Gail Cogdill and Ron Kramer of the West.

"We just handed it to them in the fourth quarter," echoed Unitas, whose passing—including a record 87-yard completion to Cogdill—had rallied the West into the lead on a 17-point third period burst.

The key play came with 6 minutes left, the score tied, and Unitas back to pass. He was hit by Lipscomb and Kataevage, who topped the ball, and Big Daddy plopped his 290-pound, 299-pound frame on the football on the West 25.

Michals, so wobbly that Sherman was reluctant to let him play, kicked a 27-yard field goal three plays later.

On the kickoff, Woodson jitter-bugged looking for an opening as he headed up field. He ran smack into Cleveland's Galen Fiss, who separated him from the ball with a ferocious tackle. Dallas' Don Bishop picked it up and raced 20 yards for the clinching touchdown.

Tripucka Grid 'Finale' A Gem; Ex-ND QB Leads West To AFL 'Star' Win

SAN DIEGO, Calif. (AP)—Old pro Frank Tripucka came off the bench Sunday and passed the West team to a 21-14 victory in the second annual American Football League All-Star clash—then said it was his final game.

The 35-year-old quarterback re-lived Len Dawson of Dallas in the final quarter with the score 14-14.

The score was set up on a 49-yard toss to Tripucka's Denver Bronco teammate Lionel Taylor. The same Tripucka-Taylor combination worked on a 20-yarder two plays later for the touchdown.

A crowd of more than 25,000 fans at Balboa Stadium watched the West jump off to a 14-0 halftime lead.

64-Yard Run

West scores came on a 64-yard run by Curtis McClinton of Dallas and an 11-yard pass play from Dawson to San Diego end Dave Kocourek.

McClinton, AFL rookie of the year, was also named outstanding back of the game. The 230-pound fullback was the leading rusher with 94 yards.

The sputtering East offense—plagued by intercepted passes—caught hold late in the third period. Quarterback George Blanda of Houston used only four plays to move the Easterners 68 yards to a score.

Tripucka told newsmen it was his final game.

"It would take a fantastic amount of money to get me back next year," he said. The 14-year performer in two United States and one Canadian League said he plans to retire and manage his team in Bloomfield N.J.

West defensive end Earl Faison of San Diego was named outstanding lineman of the game.

UMD-NMC Tonight At Fieldhouse

Duluth Branch of the University of Minnesota, moving toward another good season, faces Northern Michigan College on the basketball court at the NMC fieldhouse tonight.

UMD, like Northern, has lost three games. The visitors have a 7-3 record under Coach Norm Olson.

The Bulldogs, paced by three sophomores, topped by 67 Mike Patterson, The Bulldogs, captained by Harry Oden, have eight lettermen back from last year's 20-5 squad, but the top three scorers of their 1962-63 season are not among them.

Tip off time is at 8 p. m.

Northern's Saturday afternoon game with Wayne State has been shifted to 3:30, following the winter commencement.

Positive-Thinking Player Sinks Key Putt To Win Open

SAN DIEGO, Calif. (AP)—Golf star Gary Player is a positive thinker and proud of it.

So today, as the American PGA Champion from South Africa led the golfing nomads to the uncertainties of the Bing Crosby tournament at Pebble Beach he could reflect on a putt he sank. It won the \$25,000 San Diego Open Sunday.

Had Missed 5

The putt measured 18 feet from the edge of the 18th green and Gary had to make it or go into a sudden death playoff with Tony Lema.

"You know," Gary said later, "I had a feeling I was going to make the putt. I had hit about five real solid putts which just missed the hole."

"I told myself I was due for one. That last one made up for all the ones I missed."

Marquette Lions Win VFW Juvenile Title, Avert Soo Jr. Sweep

An upset by Marquette's Lions Club kept Saul Ste. Marie's junior hockey team from sweeping the 1963 VFW Tournament.

The Lions, rated as the underdogs, downed the VFW Chippewas to win the Juvenile Division championship. The highly rated Chippewas, who have been matched against Canadian competition, had run up a string of 19 straight victories for the season.

The Chippewas broke into the scoring at 2:48 in the second period on a goal by Gerrish from King. Five minutes later Paul Hytinen, Mike Greenleaf, and Al-Holm teamed up to even the score with Hytinen scoring.

Bystrom put the Lions in the lead at 10:55 with help from Ron Maki and Roger Contois and 15 seconds later Hytinen picked up his second goal on a pass from Greenleaf. The third period was 4 minutes old when Greenleaf broke into the clear, pulled Chippewas' goalie out of position and drove in Marquette's 4th tally.

Hytinen ran the score to 5-1 for the Lions as he picked up his "hat trick," with Sommers and Greenleaf assisting. With two minutes left to play the Chippewas showed their power by scoring twice in 17 seconds.

However, the Lions tightened their defense and the final whistle found the Lions with a victory.

Among the players on the Lions' squad deserving credit for the win was goalie Don DeVooght. Undoubtedly, DeVooght turned in one of his best performances as a goal tender. He kicked out 28 shots while his opponent in the

Chippewas net had 30 saves.

Marquette players shined in the outstanding player award department. Ken Bullock, defenseman on the Lions Club, won the trophy as the outstanding defensive player in the tournament. The award for the most outstanding offensive player also came to Marquette in the hands of Allan Swanson of the Mobil Specials.

In the other divisions Saul UCAA downed the Marquette Pee Wee team, the Mobils, 4-0, in a semifinal game Saturday, and then went on to defeat Houghton's Tervo Agency in the finals.

In the Bantam Division, Marquette's Mobil Specials had to settle for the second place spot. They downed Brimley VFW, 6-0, in their semifinal contest while the Sault Warriors eliminated Houghton's Sundiachs. The two winners met Sunday in one of the outstanding games of the tournament. The only goal came with just four seconds left in the second period when the Warriors scored what proved to be the winning tally from a scramble in front of Marquette's net.

The championship in the mid-level division also went to a Soo team. The Elks Iroquois eliminated the Marquette Elks by a score of 7-3 in the semifinals and went on to register a win over Houghton's Dolls in the final game.

In the Bantam Division, Marquette's Mobil Specials had to settle for the second place spot. They downed Brimley VFW, 6-0, in their semifinal contest while the Sault Warriors eliminated Houghton's Sundiachs. The two winners met Sunday in one of the outstanding games of the tournament. The only goal came with just four seconds left in the second period when the Warriors scored what proved to be the winning tally from a scramble in front of Marquette's net.

St. Andre, Reischel Top Mark

ISHPEMING — Four out of six Ishpeiming jumpers placed in the annual ski jumping tournament in Minneapolis, Minn., yesterday.

Errol Moffat came in second in Class B with jumps of 180 and 167 and Jim Marra placed tenth.

Jon St. Andre of Ishpeiming tied with Steve Reischel of Aspen, Colo., for the longest leap of the day and a new hill record of 193, smashing the old record of 182.

St. Andre finished third as Reischel placed second and Ansten placed first while being judged the most graceful rider of the meet.

Bill Norkoll, jumping in the junior division, leaped 161 and 163 for a point total of 187.9 as he finished in sixth place.

An entry list of 123 jumpers from the CUSSA competed in the meet.

CLASS A

Ansten Samuelson, Steamboat Springs, Colo.	187-193-224.8

Howe Spree Snaps Wings NHL Slump

DETROIT (AP) — Coach Sid Abel must succumb to hairsplitting and head scratching before discovering any fault Gordie Howe has had in 17 seasons with the Detroit Red Wings.

"This one fault? Howe passes off too much when he should shoot himself."

"Gordie is shooting much more now," said Abel in explaining one of the hottest scoring streaks in Howe's brilliant National Hockey League career.

Howe scored twice Sunday night — on two dazzling individual plays — as Detroit beat the New York Rangers 4-2. He has seven goals in the last four games. And his scoring has marked an abrupt turnaround in the Wings' long slump that followed their 10-game unbeaten streak at the start of the season.

Montreal tied first-place Chicago 2-2 and Boston deadlocked Toronto 2-2 in Sunday night's other NHL games.

Howe blasted 11 shots at the Ranger goal.

His first goal — after stopping the puck himself and trading passes with Alex Delvecchio — wiped a 1-0 Ranger lead in the first period.

Howe sent the Wings ahead to stay with his second goal — 20th this season — in the second period. He has hit the 20 - goal mark the last 14 seasons.

Jean Ratelle and Dean Prentice were the Ranger marksmen. Prentice scored midway in the third period, cutting Detroit's lead to 3-2. But Norm Ullman eased the pressure with Detroit's fourth goal 83 seconds from the end. Val Fonteyne scored the Wings' actual winning goal shortly after Howe's second.

NMC Skiers Host Tech At Cliffs Ridge

The Northern Michigan College Ski Team, defending Intercollegiate State Champions, will open its season tomorrow at 1 p. m. when the Wildcats host the Michigan Tech Huskies at Cliffs Ridge.

The NMC ski team, which began dryland training in the fieldhouse in October, capped its pre-season activities yesterday with an intrasquad meet and selection of seven members.

The 1963 team, coached by Prof. Roland Schweitzer, has two returning lettermen: Frank Bothwell, last year's captain, and Chuck Wilson, a 1961 team member. Both are from Marquette.

Newcomers on the roster include Rockwood Bullard, Clarkston freshman; Louis Fouare, Midland freshman; Tom Nasser, Iron River junior; Lynn Novakowski, Minouqua, Wis.; freshman, and Tom Tapio, Gaylord freshman.

The Michigan Tech ski team is coached by Fred Lonsdorf.

Georgia Tech Wins Seventh Cliff-Hanger

(By the Associated Press)

If Georgia Tech basketball coach John Hyder survives the season without developing an acute case of the screaming meemies, he should get some sort of an award—and maybe check his physicians to make sure he still has a heart.

Hyder's Yellow Jackets have run up a spooling 11-0 record, the only perfect mark in the Southeastern Conference. But Alfred Hitchcock wouldn't dare write some of the scripts.

Both teams are now 1-1 in conference play.

Berry and Jack Lamers set the early pace and gave the Spartans an early 8-0 lead.

Wisconsin pulled in front 25-24 with seven minutes left in the first half and went on to take a 31-25 lead at one point. Michigan State stormed back and recaptured a 30-24 lead with the half ended.

Williams Eligible

The second half saw-sawed until Spartan Ted Williams, playing his first game for the Spartans this year, scored on a layup to make the count 39-38.

The Badgers never were able to catch up and Pete Gent's two baskets and five free throws sewed up the game for MSU.

Wisconsin's Jack Brens shared scoring honors with Gent with 19 points.

Bucks Edge U-M

COLUMBUS (AP)—The University of Michigan takes on Minnesota at home tonight after losing its first Big Ten Conference basketball game at Ohio State Saturday.

42 In Row At Home

The Wolverines were edged, 68-66, by the defending league champion Buckeyes who scored their 42nd consecutive home court victory. The result left both teams 2-1 in league play and 10-2 overall.

Michigan held a 10 point lead at one point in the first half but the Bucks came back strong to narrow the gap to 29-25 at the intermission.

Buntin Fouled

OSU finally went ahead 55-54, with less than seven minutes remaining, on a play which saw Michigan's Bill Buntin foul out. The 6-foot-7 sophomore had controlled both boards most of the way.

Gary Bradds of Ohio State paced the scoring with 33 points, while Tom Cole led the Wolverines with 17, two ahead of Buntin and Bill Cantrell.

Wayne State surprised Allegheny

Spartans Upset Badgers; U-M Edged At OSU; Tech Wins; Wayne State Ends Loss String

MADISON (AP)—Favored Wisconsin ran into a sharp shooting, determined Michigan State University quintet Saturday and saw the Spartans take a 75-68 Big Ten conference basketball victory.

Both teams are now 1-1 in conference play.

Berry and Jack Lamers set the early pace and gave the Spartans an early 8-0 lead.

Wisconsin pulled in front 25-24 with seven minutes left in the first half and went on to take a 31-25 lead at one point. Michigan State stormed back and recaptured a 30-24 lead with the half ended.

Williams Eligible

The second half saw-sawed until Spartan Ted Williams, playing his first game for the Spartans this year, scored on a layup to make the count 39-38.

Thai Flyweight Comes Off Floor To Regain Title

BANGKOK (AP) — Boxing-happy Thailand is in a frenzy of delight—Pone Kinpetch has won back the treasured world flyweight championship.

In a gallant, come-from-behind struggle, Pone regained the 112-pound title Saturday with a split 15-round decision over 19-year-old Masahiko (Fighting) Harada of Japan before 15,000 deliriously partisan fans.

Harada, tough and confident in the earlier rounds, built a solid edge in points and floored the 26-year-old Thai in the eighth. Pone arose as the count of three and the bell sounded simultaneously, then took charge.

He slowed Harada and upset his timing with some clever counter-punching—using sharp left jabs and stiff right uppercuts—and eventually overcame the disadvantage in points. One judge and the referee voted for Pone, the other judge called it even.

Harada had taken the crown from Pone with a startling 11th-round knockout victory last Oct. 10 in Tokyo.

Colleges End Most Bars On Substitutes

(By the Associated Press)

CORONADO, Calif. (AP)—Free substitution is back in college football after 10 years—but with variations.

The rules committee of the National Collegiate Athletic Association liberalized the substitution rule Saturday for the 1963 season.

Free substitution by either team will be allowed during all time outs and on all plays in a series except the fourth down and when the ball changes hands.

On the fourth down, each team can substitute two men on the present "Wild Card" basis. Also when the ball changes hands, two men may be sent in.

Time outs include any time the clock is stopped, including incomplete passes and an out-of-bounds play.

The old free substitution rule, in effect in 1952, allowed a coach to substitute any number of men at any time.

The new arrangement is expected to speed up the game by not requiring the recording of substitutions, and by allowing greater use of specialists.

Time outs have been reduced from five to four each half.

The country's college football coaches tossed away their scorecards today, verbally approved the newly adopted free substitution rule as "good for the game" and indicated they now have enough room to manipulate their forces despite a couple of annoying strings.

"I think it will make a better game," said Coach Dan Devine of Missouri. "It's a great rule change," said North Carolina's Jim Hickey. "I'm delighted."

"Very wise — very sound," said Bump Elliott of Michigan.

There was no hue and cry from the opposition replying to an Associated Press survey—only a lone determined voice dissenting. "It's a tremendous step backward," said Ralph Jordan of Auburn. "I had a feeling when Coach DeVine passed on something like this would take place."

Nevlad was strongly opposed

Lakers Stage Typical Rally To Win 10th

(By the Associated Press)

The Los Angeles Lakers can be beaten—for one quarter, or two, or three. But it is becoming increasingly tough to handle the National Basketball Association's Western Division leaders over the distance.

Staging another of their whirlwind finishes, the Lakers came from behind Sunday night and trimmed the New York Knicks 108-102 for their 10th straight victory. Los Angeles was behind by 10 points at the half and trailed by 12 in the third period when Elgin Baylor, bothered by a sore right knee and not expected to play at all, came in and sparked a rally.

By the third-quarter mark, the Lakers had cut the deficit to two, then they made it convincing by outscoring the Knicks 35-27 in the last period.

Also in the NBA—Sam Jones triggered the attack as the Boston Celtics overran the Chicago Zephyrs 143-99, the St. Louis Hawks nipped the Cincinnati Royals 105-104 with a fourth quarter uprising, and Syracuse swamped Detroit 148-114, almost reversing exactly the score of their Saturday night game.

St. Louis was down 10 points to the Royals going into the last period, then a surge paced by Charley Vaughn shot the Hawks into a 99-94 lead. Cincinnati counter-attacked, moving to within one point at 101-100, but the teams played it even the final minute, with John Barnhill putting in the clincher. Vaughn scored 28 points for St. Louis, while Cincinnati ace Oscar Robertson had 31.

to a "rat race" that robbed the game of its "character building aspects."

Tech Sweeps Past U-M; State Splits

(By the Associated Press)

Michigan Tech scored three goals in the final period to edge the University of Michigan 4-3 in a Western Collegiate Hockey Association game Saturday.

Minnesota (Duluth) defeated Michigan State by the same score in a non-conference contest.

Michigan's Gordon Wilkie scored two goals and Gary Butler one as the Wolverines raced to a 3-1 lead after two periods.

But it was all Michigan Tech in the final stanza. Scott Watson, John Ivanitz and Mike Draper scored for Tech in the final 20 minutes to pull out the victory. George Hill scored for the winners in the second period.

Tech is 4-3-1 in the WCHA and 8-3-1 overall, Michigan is 1-6-1 and 5-2 Saves For U-M-D

At East Lansing, Minnesota (Duluth) goalie Tom DeLuza made 62 saves, 28 in the third period, to preserve the victory over Michigan State. It was DeLuza's first college hockey start.

Doyle's goal was the winner of the third period proved to be the winner. Other Minnesota (Duluth) goals were scored by Jay Blaesey, Terry Shercliff and Dick Fisher. Mark Williams, Dick Johnstone and Rick Hargraves scored for MSU.

Doyle's result left Michigan State with a 6-7 record, Minnesota (Duluth) is 3-8-1.

Michigan teams split in two hockey contests Friday night, with Michigan State winning a non-conference match, and Michigan bowing in a league contest.

Michigan State's Bob Doyle scored with less than four minutes remaining in the game to give the Spartans a 5-4 victory over Minnesota-Duluth.

At Houghton, Roy Heino and George Hill each scored twice to give Michigan Tech a 5-1 Western Intercollegiate Hockey Association decision over Michigan.

The night game was his second of the season. Heino led the score at 4-4 and wiped out the deficit early in the third period. Tom Lackey also scored twice for Michigan State.

Wills 'Steals' Top Athlete Award Of '62

NEW YORK (AP)—If all the awards received by Maury Wills this fall were lined up side by side they probably would match the 104 bases the fleet-footed Los Angeles star stole last season.

The latest—and most important to Wills—is the Athlete of the Year award for 1962 which was voted him by a wide margin Saturday in the annual Associated Press poll.

"I've received many awards," said Wills today, "but this is perhaps the daddy of 'em all. I'm real happy about the honor."

"Everyone has been wonderful to me," said Wills. "My main aim from now on is to try and make myself worthy of all these honors. I have been trying to do it, but I can pay back all these nice people."

Wills captured 72 first place votes and 338 points on a 3-2-1 basis from a national panel of 302 sports writers and sportscasters who participated in the poll.

Golfer Jack Nicklaus was second with 38 first place votes and 208 points.

The runaway victory for Wills was fitting. He captured the national fancy as he passed Bob Bescher's National League record of 80 stolen bases in August and closed in on Ty Cobb's major league mark of 96 a month later. He finally passed Cobb on Sept. 17, reached the 100 mark the last week of the regular season and added four more in the 3-game playoff with the Giants to finish with 104 stolen bases in 165 games.

Sawyer All-Star Team Drills For Hardwood Tournament Trail

K. I. SAWYER AFB — It's almost tournament time for K. I. Sawyer's all-star basketball team.

The ten man squad will be one of seven teams competing in a double elimination tournament at Osceola, Wis. Feb. 2-6 to determine who is going to the Air Defense Command tournament at Paine Field, Wash. Feb. 17.

The squad will be composed of AIC William Smith, A3C George Wiley, A3C George Hawkins, and A3C Vincent O'Brien, guards; A2C Roy Rush, 2d Lt. Allan Miller, A2C Robert Drain, and A1C Vernon Hawkins, forwards.

The center post will be handled by 2d Lt. Jesse Shanks and A3C Rudy Peterson.

The team will be coached by SSGT Julius Hursley who coached them in their three wins over a team from Lawther Air Force Station in December. "With the list of people we have," said Hursley, "we should have a pretty good

Archery Meet

The Gwinn Archery club will meet Tuesday at 7:30 in the Gwinn Clubhouse. All interested persons are invited to attend.

Small Schools Open Week's Play In Jr. High Circuit

Michigan plays Dorr this evening, as two of the smallest schools in the state start the week's action in the Marquette County Junior High basketball league.

Last week in the Western Division, Michigan topped Champion, 21-18, while Ishpeiming St. John edged Dorr, 27-22. Also, Negaunee St. Paul topped Republic, 38-14; National Mine topped Marquette St. John, 24-22.

In other games this week, Wednesday, Ishpeiming St. John goes to Republic, and Thursday, St. Paul goes to National Mine, Marquette St. John to Champion.

In the Eastern division, Ishpeiming, 71-8 victors over Marquette St. Peter last week, goes to Marquette City, St. Peter's Colts go to Negaunee, also on Wednesday; Marquette St. Michael, 34-18 victor over Pierce last week, goes to Marquette, Thursday. Marquette downed Gwinn, 42-28, last week.

Colleges End Most Bars On Substitutes

Los Angeles was behind by 10 points at the half and trailed by 12 in the third period when Elgin Baylor, bothered by a sore right knee and not expected to play at all, came in and sparked a rally.

By the third-quarter mark, the Lakers had cut the deficit to two, then they made it convincing by outscoring the Knicks 35-27 in the last period.

Also in the NBA—Sam Jones triggered the attack as the Boston Celtics overran the Chicago Zephyrs 143-99, the St. Louis Hawks nipped the Cincinnati Royals 105-104 with a fourth quarter uprising, and Syracuse swamped Detroit 148-114, almost reversing exactly the score of their Saturday night game.

St. Louis was down 10 points to the Royals going into the last period, then a surge paced by Charley Vaughn shot the Hawks into a 99-94 lead. Cincinnati counter-attacked, moving to within one point at 101-100, but the teams played it even the final minute, with John Barnhill putting in the clincher. Vaughn scored 28 points for St. Louis, while Cincinnati ace Oscar Robertson had 31.

to a "rat race" that robbed the game of its "character building aspects."

Tech Sweeps Past U-M; State Splits

(By the Associated Press)

Michigan Tech scored three goals in the final period to edge the University of Michigan 4-3 in a Western Collegiate Hockey Association game Saturday.

Minnesota (Duluth) defeated Michigan State by the same score in a non-conference contest.

Michigan's Gordon Wilkie scored two goals and Gary Butler one as the Wolverines raced to a 3-1 lead after two periods.

But it was all Michigan Tech in the final stanza. Scott Watson, John Ivanitz and Mike Draper scored for Tech in the final 20 minutes to pull out the victory. George Hill scored for the winners in the second period.

Tech is 4-3-1 in the WCHA and 8-3-1 overall, Michigan is 1-6-1 and 5-2 Saves For U-M-D

At East Lansing, Minnesota (Duluth) goalie Tom DeLuza made 62 saves, 28 in the third period, to preserve the victory over Michigan State. It was DeLuza's first college hockey start.

Doyle's goal was the winner of the third period proved to be the winner. Other Minnesota (Duluth) goals were scored by Jay Blaesey, Terry Shercliff and Dick Fisher. Mark Williams, Dick Johnstone and Rick Hargraves scored for MSU.

Doyle's result left Michigan State with a 6-7 record, Minnesota (Duluth) is 3-8-1.

Michigan teams split in two hockey contests Friday night, with Michigan State winning a non-conference match, and Michigan bowing in a league contest.

Michigan State's Bob Doyle scored with less than four minutes remaining in the game to give the Spartans a 5-4 victory over Minnesota-Duluth.

At Houghton, Roy Heino and George Hill each scored twice to give Michigan Tech a 5-1 Western Intercollegiate Hockey Association decision over Michigan.

The night game was his second of the season. Heino led the score at 4-4 and wiped out the deficit early in the third period. Tom Lackey also scored twice for Michigan State.

Wills 'Steals' Top Athlete Award Of '62

NEW YORK (AP)—If all the awards received by Maury Wills this fall were lined up side by side they probably would match the 104 bases the fleet-footed Los Angeles star stole last season.

The latest—and most important to Wills—is the Athlete of the Year award for 1962 which was voted him by a wide margin Saturday in the annual Associated Press poll.

"I've received many awards," said Wills today, "but this is perhaps the daddy of 'em all. I'm real happy about the honor."

"Everyone has been wonderful to me," said Wills. "My main aim from now on is to try and make myself worthy of all these honors. I have been trying to do it, but I can pay back all these nice people."

Wills captured 72 first place votes and 338 points on a 3-2-1 basis from a national panel of 302 sports writers and sportscasters who participated in the poll.

Golfer Jack Nicklaus was second with 38 first place votes and 208 points.

The runaway victory for Wills was fitting. He captured the national fancy as he passed Bob Bescher's National League record of 80 stolen bases in August and closed in on Ty Cobb's major league mark of 96 a month later. He finally passed Cobb on Sept. 17, reached the 100 mark the last week of the regular season and added four more in the 3-game playoff with the Giants to finish with 104 stolen bases in 165 games.

Sawyer All-Star Team Drills For Hardwood Tournament Trail

K. I. SAWYER AFB — It's almost tournament time for K. I. Sawyer's all-star basketball team.

The ten man squad will be one of seven teams competing in a double elimination tournament at Osceola, Wis. Feb. 2-6 to determine who is going to the Air Defense Command tournament at Paine Field, Wash. Feb. 17.

The squad will be composed of AIC William Smith, A3C George Wiley, A3C George Hawkins, and A3C Vincent O'Brien, guards; A2C Roy Rush, 2d Lt. Allan Miller, A2C Robert Drain, and A1C Vernon Hawkins, forwards.

The center post will be handled by 2d Lt. Jesse Shanks and A3C Rudy Peterson.

The team will be coached by SSGT Julius Hursley who coached them in their three wins over a team from Lawther Air Force Station in December. "With the list of people we have," said Hursley, "we should have a pretty good

Archery Meet

The Gwinn Archery club will meet Tuesday at 7:30 in the Gwinn Clubhouse. All interested persons are invited to attend.

Small Schools Open Week's Play In Jr. High Circuit

Michigan plays Dorr this evening, as two of the smallest schools in the state start the week's action in the Marquette County Junior High basketball league.

Last week in the Western Division, Michigan topped Champion, 21-18, while Ishpeiming St. John edged Dorr, 27-22. Also, Negaunee St. Paul topped Republic, 38-14; National Mine topped Marquette St. John, 24-22.

In other games this week, Wednesday, Ishpeiming St. John goes to Republic, and Thursday, St. Paul goes to National Mine, Marquette St. John to Champion.

In the Eastern division, Ishpeiming, 71-8 victors over Marquette St. Peter last week, goes to Marquette City, St. Peter's Colts go to Negaunee, also on Wednesday; Marquette St. Michael, 34-18 victor over Pierce last week, goes to Marquette, Thursday. Marquette downed Gwinn, 42-28, last week.

Muskrat Has Price On Head In Holland

The muskrat is a public enemy in Holland and a nuisance in much of the United States. But in Louisiana the little rodent is a major asset. The muskrat is a public enemy in Holland and a nuisance in much of the United States. But in Louisiana the little rodent is a major asset. The muskrat is a public enemy in Holland and a nuisance in much of the United States. But in Louisiana the little rodent is a major asset.

holes in the banks of a major ship canal. The water drained, leaving 25 vessels stranded in mud. The muskrat's relentless digging also endangers railroad embankments, earth dams, farm ponds, irrigation projects and fish hatcheries. The little creatures caused widespread highway damage in Iowa by digging around drainage culverts. Roadways sank into the muskrat dens. Wire screening and planks around the outlets failed to discourage the rodents.

staple of French cuisine, both haute and basse. The flesh of muskrat is dark but fine-grained, and it takes only a minimum of cooking to make it tender. The flavor usually is compared to wild duck and terrapin, but it has a distinctive gamy taste. Indians prized the muskrat as food, but its unappetizing name has been a handicap on menus. So far years some restaurants have served muskrat as "marsh rabbit" or "Chesapeake terrapin."

Picture shows metal-frame bunk bed and window in one of the two cells at the Marquette County Juvenile Detention Home. Probate Judge Michael F. DeFant of Marquette has recommended that the detention facility be remodeled for fire safety requirements and to provide an atmosphere conducive to rehabilitation. (Mining Journal photo).

'Jail-Like' Atmosphere Of Detention Facility Rapped

Marquette County's juvenile detention facility is "contrary to the philosophy of the juvenile court program," Judge of Probate Michael F. DeFant, Marquette, asserts.

Rehabilitation is the aim of juvenile court action. Judge DeFant noted that the jail-like atmosphere of the detention home is "a punishment and not conducive to rehabilitation."

Under the juvenile act, all juvenile court proceedings "shall not be criminal in character," Judge DeFant said. "Detention should never be used as punishment, but for the protection of the child and for protection of the community."

'Should Be Remodeled'
In a report to the Marquette County Board of Supervisors, DeFant said that the two-cell juvenile detention facility should be remodeled or other steps should be taken to provide the county with a facility that meets minimum standards.

Supervisors have referred the report to their budget and executive committee.

Little Change Made
More than 20 years ago the county built the juvenile detention "cell block" connected to the residence on the northwest corner of the courthouse property. Little change has been made in the two cells since then.

The two cells consist of a five by 10 foot room containing a metal bunkbed and a four by six foot alcove with a folding desk and built-in stools. Flooring is cement. The cells each contain a small washroom with one shower for both boys and girls located in the cellar of the residence.

Each cell has a four by two and one-half foot window closed in with one-inch metal reinforcement screen and small metal or ordinary glass windows.

Upstairs Not Heated
The upstairs cell can't be heated and is rarely used in the winter, although it is sometimes necessary to lodge a child there for 24 hours, DeFant said. Unsatisfactory ventilation is obtained by opening a metal slide panel in the window.

Doors are left-overs from the county jail, DeFant said. A heavy fire door and a metal-covered door with a peep hole are attached to each cubicle.

"Certainly no child looking out through the peephole feels a sense of justice," DeFant said. "The child who is confined here understandably finds it hard to accept what the juvenile court officers have to offer."

DeFant said the operation of the facility "constantly exposes the county to liability." Located in a frame building with narrow hallways and with fire doors which are difficult to open from the outside, DeFant called the facility a firetrap.

Detention At Minimum
"Because of the inadequacy of the facility, we have kept detention at an absolute minimum," DeFant said. In 1961, 25 children, including five girls, were held in the home for a total of 64 days. In 1962, 34 children were held for a total of 150 days.

"There are occasions when we cannot avoid detention for a long period of time because of delays in commitment to other institutions," DeFant said. In 1962, he said, a psychotic child was held about three weeks pending examination and admission to another facility and two children were held for extended detention before and after commitment to a state training school.

Fire Hazard Noted
Because of the inadequate facilities, whenever feasible children to be detained on a long-term basis are transferred to a suitable facility in one of the downstate counties, he said. Psychotic or mentally disturbed children are transferred to St. Mary's Hospital psychiatric ward whenever possible.

Tech Course In Surveying Begins Jan. 21

HOUGHTON — Michigan Tech's recent approved 48-week surveying course for civil engineer aides will get under way on the Houghton campus on Jan. 21 with 24 students enrolled, according to G. Ralph Noble, director of Tech's institute of extension services.

The \$110,000 program was approved late last month under provisions of the Manpower Development and Training Act (MDTA) of 1962. It will be administered by Tech in cooperation with the Upper Peninsula office of the Michigan Employment Security Commission (MESC).

Al Gavzoda of Calumet, U. P. field supervisor for the MESC, said this is the first state-wide MDTA program approved in Michigan and the first of its type in the nation. The MESC was in charge of screening applicants for the course.

One From Marquette
Students who will take up surveying studies represent a dozen cities. Five will come from Hancock, four each from Calumet and Iron River, three from Ishpeming and one each from Saginaw, Kalkaska, Grand Rapids, Sault Ste. Marie, Iron Mountain, Ontonagon, Menominee and Marquette.

Instructors for the course will be Gerald J. Caspary of Hancock and his brother, L. Jon, Houghton, both graduates of Tech. Gerald, associate professor of civil engineering, received his B.S. degree in civil engineering from Tech in 1943, and has been a member of the Tech faculty since 1946. Jon earned his B.S. degree in civil in 1960 and has served as a graduate teaching assistant while doing graduate work in civil engineering.

The program will be conducted in three phases of 16 weeks each, with classes meeting eight hours daily, five days per week. Although not registered surveyors, graduates of the course will be qualified surveyors capable of performing all activities usually associated with surveying. Graduates can achieve registered status by working seven years with a registered surveyor and passing a state examination.

Throughout the course a weekly training allowance will be given each student, up to a maximum of \$36 per week for heads of households. Those not living near enough to the campus to commute will also receive a weekly \$35 room and board allowance.

The MDTA is a federal program administered jointly by the U. S.

Department of Labor and the Department of Health, Education and Welfare. It is designed to combat unemployment on a national scale by providing training opportunities for qualified people in trades with existing shortages of trained personnel.

Fair Day's Work Key To Labor Peace

ANN ARBOR (AP) — The key to labor peace in the automobile industry is agreement over what constitutes a fair day's work, a Columbia University professor said here.

The professor, Dr. John Hutchinson, addressing a University of Michigan Industrial Relations Seminar Friday, added:

"One of the biggest causes of a conflict between companies and unions for the next two or three years will be conflicting judgment over what comprises a fair day's work."

'Dynamic Climate'
Hutchinson, a former U-M professor, said conditions peculiar to automobile manufacturing give it "a dynamic work climate." He added:

"It calls for high standards and a fair day's work; the engineers for the auto firms have a great responsibility to measure work skillfully to avoid the charges of speedup and inequity."
"The UAW," he went on, "has seen this problem of sufficient importance that they have added their own engineers to their staff to check on the technical abilities of management's engineers. Any sloppy investigators or unprofessional work by management standards engineers will bring forth prompt grievances."

Recommendations
To help solve the problem he recommended:

- that top management insist on sound standards for every worker, and adherence to the standards;
- that standards be based on sound and tested measurement procedures, which requires trained standards engineers;
- prompt adjustments when management finds its engineers erred;
- continuous review of standards.

Homemade Telescope Locates New Comet

TOKYO — A Japanese using a \$22 homemade telescope has discovered a new comet, the Tokyo Astronomical Observatory said. The observatory said Kaoru Iketani, 19, a worker at a musical instrument factory in Hamatsu, central Japan, spotted the comet about 20 degrees southeast of the star Spica on Jan. 3 and 4.
