### Nixon Stirs Speculation With Move

NEW YORK (AP)-Richard M. Nixon has stirred up a whole new round of political speculation with his announced intention to move to New York June 1 and practice

The former vice president, who missed becoming president by 118.550 votes in 1960, then suffered political disaster last year when he lost a bid to become governor of California, made the announcement last week in a brief state-ment handed out by a friend. Nixon could not be reached for com-

### Turini Concert

Preference for the Liszt and Chopin may be as personal as a critic's dislike for them, but to a description of these works as unqualified "blockbusters" anyone may take exception. It has thus become a sin for beauty to be achieved today in art; when the achievement involves difficulty, it's a sacrilege.

As to the suggestion the concert association determine the programs of forthcoming artists, what artist would tolerate it? Let Dr. Hedlund get the music education he wants on RCA Victor Records and let the association Rockefeller would have a better continue as it has in the past to do an extra-

There has long been not be less than 75 per cent of the a bill pending in the Italian parliament to ad valorem tax paid the preced- grant what we would call states' rights to each of the 19 regions of which Italy is composed. There are, however, two regions, Emilia and Tuscany, where the Communists and the Nenni Socialists combined would have an absolute majority. The Fanfani government is not likely to pass the states' rights bill unless the Nenni Socialists promise not to form a governing coalition with the Communists.

### Still The Strongest Combination

The critical question is whether Nenni can make this promise and still hold his party together. If he cannot, the Fanfani coalition government will be in grave danger.

While the outcome is not decisive, nevertheless it is true that, while the Fanfani coalition has lost some seats in the parliament, it is still very considerably stronger than any other combination which could be put together. If, for example, the Nenni Socialists were excluded, either of the other conceivable combinations would have only about 53 per cent of the seats as against the 60 per cent which these elections have given to the Fanfani coalition.

A somewhat closer study of the vote shows that there has been a general movement to the left. Starting with the Communists on the extreme left, we see that they gained about a million votes. Presumably the Communist gains come from those Socialists who disapproved of Nenni's arrangement with the Christian Democrats. Yet, curiously enough, the Nenni Socialists held steady. Their share of the popular vote is only one-third of one per cent lower than in 1958. If, indeed, they lost a million votes to the Communists, they must have gained about that many from the Christian Democrats.

### No Real Gain On The Right

Moving another step to the right, the Saragat Democratic Socialists, who have never collaborated with the Communists, gained over half a million votes. These, too, must have come from the Christian Democrats. All in all, the Christian Democrats lost a little more than a million votes, and the bulk of them must have gone to the parties on the left. It is true that the Conservative Party, which in Italy is called the Liberal Party and is comparable with the Eisenhower Republicans in this country, made big gains. But these appear to have been at the expense of the Monarchist Party on its own right. The Conservative Liberals gained over a million votes, while the Monarchists lost over a million votes. Thus there was no real gain on the right, although the Neo-Fascists gained about 165,000 votes.

Parenthetically, it has been said that the Communist gains must have come from the 1,750,000 young people who are the new voters. The figures do not bear out this conclusion. The electorate for the chamber of deputies begins at 21 years of age. The electorate for the senate begins at 25 years of age. The new voters, therefore, were in the electorate of the chamber of deputies and not in that of the

senate. If it was these young people who swelled the Communist vote, there should have been a greater Communist gain in the chamber of deputies elections than in the senate elections. In fact, the contrary is true. The Communist gain was smaller by 234,000 votes in the younger electorate than it was in the older one. A slightly higher proportion of the older electorate voted Communist than did

### Cleanup Set Tuesday In Precinct 7

Public works department crews vill be in precinct 7 tomorrow con ducting the city's spring pickup.

Precinct 7 is bounded on the south by Hewitt Ave. extended, on the north by Center St. extended, on the east by Lake St. and on the west by the city limits.

Six of the city's ten precincts have already been covered in the pickup operations.

### Ends Spring Cleaning

The "pickup by precincts" project winds up the public works department's post-winter task of cleaning the city's strects.

At the same time, the project nelps residents rid their yards of rakings and trash:

Almost any type of item, except for brush over four feet in length, is being picked up by city crews. Rakings are being picked up from the edge of the street, near the curb, and trash for pickup should be placed near the curb, but not on the street.

# Lines from Lou's by . . . maggie Just read an interesting article

called "Fashion Notes." It says: "As you get out your summer cottons, if you find they have a tired look, there is just one thing to do . . . dispose of them. There is no point in letting them take up valuable space when all you will do is push them back and complain about not having the right thing to wear. Give them away; maybe someone who leads a less active life than you, will be able to wear them."

This is a most profound statement and whoever thought it up is, in our humble opinion, nothwould never have the intestinal fortitude to come right out and say it, we heartily agree and hope

For a very small amount of money, you can replace those tired looking dresses with summer beauties created with artistry and figure flattery. When you see them, when you try one on and feel the soft Dacron polyester,

you'll be enchanted! We suggest any or all of the new designs. There are floral stripes, tucked bodices, soft box pleats, embroidered sheaths, moderately full skirts, black on white prints. These are but a few of our summer cotton collection; we

invite you to see them all. Remember all the important occasions coming up; graduation, Mother's Day, end-of-school and oh yes, don't forget the June weddings. The invitations may not be out yet, so we will give you a special one. Shop today . . . and we hope to be seeing you at LOU'S in the center of Marquette!

With competition limited, and little action under their collective belts, the Mid-Peninsula entrants had few top-flight efforts to record. An exception was the broad jump, in which Granlund reached 18-10, one of the top Class D efforts in the peninsula this season to top Ezrow, who had won the event in the Indoor Meet in April.

servers have been saying Upper Peninsula track laurels will be widely spread among the big schools, and the results of the Newberry Invitational strengthen their belief.

Sault Ste. Marie took only one of the 13 first places, but won the five-team meet. Soo piled up 52 1/8 points, chased by Manistique at 40 3/8, Marquette Graveraet, 36 2/3; Newberry, 34 3/4, and Rudyard, 31 3/8.

Manistique's strong showing was largely the work of Mike Dissinger, who picked up four first places - the shot put (47-9), broad jump (20-3), high jump (5-5), and 120-yard high hurdles (16.3 seconds). The other individual star per-

mings' dash victories for Rudyard. He turned in two of the fastest times of the season, with a 10.5 in the 100 yard dash and a 23.4 in the 220. Sault's only first rounded out

this chilly Saturday.

Graveraet's sole first was Steve Nyquist's 22.1 in the low hurdles. Bob Pearson and Nyquist tied for second behind Dissinger in a high jump duel marred by a poor takeoff. Jerry Perttunen was third in the shot, Pearson was third in the lows, and the Redmen half-mile relay team was third, trailing Rudyard's 1:41.1 clocking.

The Redmen also picked up seven fourth-places, a share of a pay Dick Stigman Saturday, but three-way tie for a third, and one fifth.

On Casual Win

LAS VEGAS, Nev. (AP)-Jack Nicklaus, who owns virtually all the prized possessions of the golfing game as well as the most dollars for the year-has unpleasant news for his fellow gentlemen of the greens. He isn't even at his peak yet.

Jack, richer by \$13,800 after his

almost casual victory in the \$60.-

000 Tournament of Champions

Sunday, was asked if he thinks he is at the top of his game. Eyebrows raised in surprise, he exclaimed: "I certainly hope not. I feel and hope I can improve. 'A man wants to improve at anything he does. That's how I

feel about my future in golf."

Nicklaus caped his brilliant

rounds of 64-68-72 with a 69 Sunday. He won the Las Vegas classic five strokes with a 72-hole score of 273, 15 strokes under par. Bill Casper Jr. was forced to withdraw because of a swollen, aching left hand after eight holes so Nicklaus' closest competitors were Arnold Palmer, the former king of the pros, and Tony Lema, WAKEFIELD - For the first who came in with a 66 to tie with Palmer at 278.
