## SPLENDID PARADE STAGED IN SPOTE OF PIERCING WIND AND SNOW, FOLLOWED BY MAGNIFICENT BANQUET WHERE NEARLY FOUR HUNDRED PEOPLE ARE SERVED, AND A BIG MILITARY BALL AT NIGHT.

Another red letter day was added to Gladstone history through the wonderfully complete Armistice Day celebration put on here by August Mattson Post No. 71. It was a day which will stand out in the memory of the service men as a high water mark in achievement and which establishes a standard that many other Posts in the country may well strive to attain. Gladstone's observance of Armistice Day unquestionably was the most satisfactory that has ever been staged here and it is doubted whether any city of similar size, not only in the Upper Peninsula, but in the entire nation, did it so appropriately, as did this city.

Too much credit cannot be heaped upon the men and women of this city who made the day such a remarkable success and which sent hundreds of people to their homes at night feeling that the day had indeed been replete with pleasure and that the significance of the day had not been lost in carrying out any portion of the program. The fact that the local legion team defeated Marquette was merely an incident in the day's doings and served to whet the already keen appetite for the things that were to follow.

The day was not only so encouraging to the men and women of this city who whipped the fine snow into the faces of those who turned out to participate in the various activities, but it was a great visitor, but the boys and the spectators soon drummed up a fighting spirit and the day started out right merrily with the exchange of bets between the men in the parade and their friends on the streets.

The Escanaba Military Band arrived early in the day and about 10:30 headed a parade of local legion men and visiting legionnaires around a dozen blocks. Because of the cold the musicians were unable to use their instruments on this march but under a number of selections. Waaah! both before and after the parade and gave a concert on the public square at noon. It was bitter work but the boys stuck to it nobly and gave the best they had under the circumstances.

Fully 200 men from all branches of the services were in line. It is regrettable to have to chronicle the fact that but few business houses were open on the occasion and that the streets were decorated in only a few stores where the American colors shown, but those few went into the matter whole heartedly and made a fine showing.

## A Fasting Russian Puzzles The Police

John Warasowski, a Russian, was arrested Tuesday night after having vainly tried to convince the night watchman at the Coopersage company that he had rented a room on one of the eave-towers, where he insisted on sleeping. When ejected from the place he gathered some hardware flooring and proceeded to build a "shack" in which he made it appear he intended to sleep. The Chief accommodated him with sleeping quarters after it was learned that he had eaten nothing for two days and had satisfied his appetite.

## CALIBRES ARE PAINTING STAKES FOR POST OFFICE

Two announcements already made and more are expected later.

Although the term of Postmaster Frank Miller does not expire for fully a year yet, speculation as to his probable successor is rife and quarters and already several prospective candidates are doing a little early birding, either in person or through friends.

Thus far the names most often mentioned in connection with the post office, are those of Swan G. Nelson and P. W. Peterson. Both are old residents and well known citizens and both have staunch friends who undoubtedly will come to their support.

Mr. Nelson is at present a member of the Gladstone Water Board and has served in the past on various city boards. He was in business here for about 20 years until 5 years ago when he retired and is one of the largest taxpayers in the city. He is also a large stockholder and a director in the Gladstone State Savings Bank.

Mr. Peterson also has had a long business experience in this city, had been a popular and successful traveling salesman and traveling passenger agent for the Nickel Plate and Erie railroads. At present Mr. Peterson is managing the Nickel Plate and Erie Freight agent with headquarters in Chicago, but his home and his family are here and it is understood he wishes to remain in Gladstone permanently if political fortune should make that possible.

Others, it is stated, may develop in the meantime, as it is still quite early to get a proper line on all prospective candidates of the house. The men were both to allow him to stop but he was permitted to help the ladies wash the dishes. His local boys were especially clever and many hopes were voiced that he might be able to stay here during the winter in which event the men of the local post were assured of some fine entertainment at various times.

## HARD COAL HERE

Cargo of 2,000 Tons Arrives From Buffalo and Probably Will Be Ready For Delivery Next Week.

At last the long-expected cargo of hard coal which had been causing Gladstone residents much anxiety arrived here this morning at 8 o'clock on the steamer Richard Star, which came from Buffalo. She brought 2,000 tons of anthracite and in spite of the fact that the price will be high, news of arrival of the coal will be mighty welcome information to hundreds of residents who have been rather in doubt as to whether they could be able to use their hard coal stoves this winter.

## MRS. F. L. HUME PASSES AWAY IN CITY OF CHICAGO

Local friends will learn with the most profound regret the demise of Mrs. F. L. Hume, a former resident of this city, at her home 1425 Parwell avenue, Chicago, last Wednesday.

A letter was received here Wednesday stating that Mrs. Hume had passed away Nov. 8 as the result of an ulcerated stomach. She had been in failing health for several years and was in a Chicago hospital for treatment the greater part of the month of September. She apparently improved under the treatment and returned to her home about ten days ago and suffered a relapse and gradually her condition changed for the worse until the end came Monday.

Mrs. Hume was a talented woman whose peculiar gifts endeared her to those who knew her most intimately. She was possessed of a high refinement of culture and while her business life here interfered materially with the following out of her natural social instincts, yet a very large number of local people will remember her as a very good friend and a charming woman socially.

## No Open Season On Deer In Lake County State Game Warden Says

Baldwin, Mich.—There will be no open season on deer in Lake county this year and Circuit Judge Hal L. Cutler also has made it plain he intends to enforce existing laws. Judge Cutler affirmed the justice court sentence of sixty days, without the alternative of a fine, in the case of Charles E. Ross and Sabbe.

Ross was found by game warden in possession of five deer hides and arrested, with his son, Ernest Ross, who denied all knowledge of the hides. He was taken to the woods and the son frankly admitted that the deer were shot by himself and his father and was released with a fine of \$50 and costs, of about \$75. The father passed the lie to the son and was given a straight jail sentence. He appealed.

## Boxing License Is Expected By Legion Within Coming Week

Commander Dayton of the American Legion Post here received a letter from Tom Higgs of the State Athletic Commission a few days ago announcing that the boxing license for the local club would come through in a short time. The local post, through a misunderstanding of the terms, sent only a portion of the amount necessary to get the license. The letter informed them that a further payment was necessary and this was sent forward at once so that it is expected now the license will arrive within a week.

## DEATH CLAIMS M. M. DAYTON IN GRAND RAPIDS

Former resident and father of local people is called suddenly.

Mrs. George C. Ogden and E. C. Dayton this morning received a message announcing the death of their father, M. M. Dayton, at his home in Grand Rapids during the early hours of the day. Mrs. Ogden and Mr. Dayton will leave for the saddened home this evening. The message came as a great shock to both the well known and highly respected local people as they had been no previous intimation that Mr. Dayton's health was in such a dangerous condition.

Mr. Dayton was an old newspaper man. In 1886 Mr. Dayton founded the Hiltana, N. Y. Daily News, a paper which he conducted with signal success until 1906 when he disposed of the business and moved to Grand Rapids where he entered the real estate field. Remaining in Grand Rapids for about eight years he came to this city and was associated with G. R. Emson in the automobile insurance business. Mr. Dayton remained here until 1918 when he returned to his home in Grand Rapids to spend the remainder of his days. While here he made many warm and lasting friends who will learn with the most sincere regret of his passing.

## Poillips Will Meet Either Man Seeking A Battle With Him

Al Phillips, local featherweight boxer, is recovering nicely from his recent bout with Tom Crawford and is to take on either Kid Crawford or "Kid" Baraga within a reasonable time. "I don't know either of the men," Phillips said today, "but if they will make anything out of 125 pounds I will take them on after a suitable period for training."

## LOCALS DEFEAT MARQUETTE IN SNOW

BEST GAME OF SEASON WON BY GLADSTONE LEGION ON ARMISTICE DAY

One of the stirring incidents of the Armistice Day celebration in Gladstone was the great football game in which the local legion team defeated Marquette by a score of 7 to 0. The contest was the best that has been staged here this year. The Marquette team was by far the classiest organization to show on the local grounds and the fact that Gladstone won is regarded generally as pretty fair evidence that this city has an organization far better than is generally supposed outside the city.

The day was not ideal football weather, but two large bonfires, one at either end of the field helped things considerably, although the real fans had no time to hug the fire.

The film of snow over the ground made it difficult for the team to get away with the faster brand of work and the hard was always very slippery and hard to handle.

As a matter of fact, it was a fumble that had much to do with leaving Marquette scoreless. Stople, the big left half of the visiting team had the ball when Marquette had marched down the field to the Gladstone yard line within five minutes of the final whistle.

Gladstone scoring was done as the result of a series of line plunges, and some aerial work. The big Marquette line seemed too heavy for the locals to go through as will be the first quarter. White, managed to cog a forward pass and made ten yards. Gladstone then began working the end and managed to push the ball up into Marquette territory to the 25 yard line where Arley attempted a drop kick which went wide of the posts.

The first half ended with neither side having scored any particular advantage and the ball was in the center of the field when time was called.

Fenny Scores Touchdown In the second half the local name up filled with determination and began a determined assault on the line. A fumble in attempting to complete an end run play gave the ball to Marquette and after two unsuccessful attempts to complete a forward pass, Gamon of the locals grabbed the ball on the third attempt.

The locals gained and Marquette lost the ball to Gladstone on the 39 yard line as the result of a fumble. Setting themselves as for making a forward pass, the locals sent Fenny around left end for a 20 yard run for the only score of the game. Marquette was expecting a pass and opened suitable holes for the dodging and artful Mr. Fenny. Gamon kicked well.

The banquet was a splendid testi-

(Continued on Page Eight)

Infant Dies The little two month old baby son of Mr. and Mrs. Oscar Bronnan passed away this morning after a short illness. Interment will be made in Fernwood Saturday at 2:00.

Returns From Sweden Mrs. Augusta Nelson, Wisconsin, avenue returned Wednesday night from Sweden where she has been visiting since May.

# EAT MORE LAMB CAMPAIGN ON IN THIS SECTION

### PLAN TO BOOST CONSUMPTION OF MUTTON TO BE CARRIED OUT

Marquette, Nov. 4.—The good people of upper Michigan will be eating more mutton hereafter if the campaign launched this week by Swift & Company, from their branch plant at Ishpeming proves effective.

D. O. Mosher, traveling representative of the concern and T. J. Maloney, manager of the Ishpeming branch, are putting into motion throughout this section a plan which has not only increased lamb consumption throughout other sections of the country, but has awakened the consumer to the fact that mutton is, generally, one of the most healthful of meats, as well as the most delectable when properly selected and prepared.

The reason for the movement is the urgent need of greater lamb consumption in the sheep-raising industry of the country is to be protected and encouraged. It is pointed out that the average per capita consumption of lamb and sheep meat in the country is only five pounds per year, against seven pounds of veal, sixty-seven pounds of beef and seventy-one pounds of pork.

**Will "Demonstrate" Mutton**

In their work in upper Michigan Messrs. Mosher and Maloney will demonstrate to the meat dealers, and the men and women in the towns and cities the advantage of lamb over other meats as a desirable article of food. To encourage greater support for the ordinarily own sheep raising industry, they will emphasize Honeysuckle brand lamb in their demonstrations—the product from the grass and clover lands of upper Michigan.

They will describe how a greater consumption of lamb throughout the district will not only keep the sheep-raising industry alive in upper Michigan, but will encourage its growth and progress.

Asked why the per capita consumption of lamb in the country was so small, Mr. Mosher said: "Because a few unscrupulous dealers began by fattening meat, spoiled cuts and some from aged animals upon the public. There is no finer meat than young lamb and, doubtless for that reason, it is the kind of meat which will spoil quickest if not properly packed and refrigerated."

**Sell More Lamb**

"We are going to try to show the dealers that, where now they are disposing of but one animal in two weeks, they can sell three, four or five a week and even more. This has now accomplished in other sections where the lamb consumption had for years been very low, and we have found in every case that it only required a thorough discussion and an instructive demonstration to convince the consumer that in a young lamb he was possessing the most delicious of meats, and the same time contributing to the well-being of the country's most worthy and valuable industries—sheep and wool growing."

The strategy which will be covered in this week's "Eat More Lamb"

campaign will embrace Marquette, Alger, and Ontonagon counties, extending, later, to the whole of upper Michigan. In the principal towns and villages of each county demonstrations will be held, talks given to the men and women's clubs and instructive displays set out. The women will be taught, particularly, to distinguish between old and new mutton, between lamb chops and goat meat, and a far-reaching effort will be made to give to upper Michigan's sheep-raising industry the impetus which will place it among the most thriving activities of the region.

"Eat More Lamb" is the war cry this week—and the house wife, business men and others interested are advised to watch for the date of demonstration in their district.

### Unemployed Looking Toward Search For Work

Continued curtailment by Detroit automobile plants, as well as similar industries in other lower peninsula cities, is reported in letters received in Lake Linden. With winter approaching the prospects of being thrown out of work is anything but rosy and many former Copper Country residents will return to this district if assured work.

The first concrete evidence of any large number of people returning to this district from the manufacturing centers is said to be reflected in the schools. Hundreds of families are taking no chances, it is explained, but are sending their wives and children back to this district, the father and husband remaining while work is available but making arrangements to join his family as soon as he is out of employment.

"High rents and excessive cost of living have no appeal for men with a family when his job is uncertain," read one letter. "Wages are being paid on a half and I'm earning 45 per day less now than two months ago. If people return to Houghton, county as the rate they are being paid out it's possible that the Copper Country club in this community."

Oct. 20th, 1920. Nov. 11, 1920  
ORDER FOR PUBLICATION — Probate of WILL

STATE OF MICHIGAN, The Probate Court for the County of Delta. At a meeting of said court, held at the Probate Office in the city of Escanaba in said County, on the twelfth second day of October, A. D. 1920.

Present: Hon. John Yelland, Judge of Probate.

In the Matter of the Estate of EDWARD LUTOMSKI, Deceased.

Amiel M. Lutomski, having filed his petition, praying that an instrument filed in said court be admitted to Probate as the last will and testament of said deceased and that administration of said estate be granted to himself or some other suitable person.

It is Ordered, That said petition thereof be given due publicity in one of our newspapers for three successive weeks previous to said day of writing in the Delta County Reporter, a newspaper published and circulated in said county.

JUDG. YELLAND,  
Judge of Probate.

JANE STONEHOUSE,  
Register of Probate.

## Take your choice

Here are a few of the buildings for which we will gladly supply full size working plans free. We have a book about each kind of building, also free. These are only samples.

## There are 20 others

and there are no strings to this offer. You don't even promise to use "Old Faithful" HEMLOCK lumber, the old standby for 300 years.

Of course we feel pretty sure that you will insist on using "Old Faithful" after you know all about it, and that's why we only ask you to write for what you want (and please mention your lumber dealer's name).

### MINERAL RIGHTS BEING ACQUIRED BY HENRY FORD

AUTO KING IS SECURING SOME  
OPTIONS NEAR CRYSTAL FALLS  
AND IRON RIVER

Indications are that Henry Ford is not content to rest with the timber purchases he has made nor with the mineral possibilities on the lands of the Michigan Iron & Land Co. He wants mineral lands and is actively engaged now in a still hunt to acquire mineral rights in Iron county, says the Crystal Falls Diamond Drill.

With the exception of the limonite ores that exist upon his lands in Baraga and the west end of Marquette, his ore holdings are in Iron county, both the proved minerals and probable minerals of value. The Richards mine and the Oliver property are both close to Crystal Falls. His most promising mineral prospects on the Michigan Iron & Land Co. purchase lie in the north east end of the county, in Crystal Falls township.

The proved ore deposits are under case and the unproved are away from the known to the unknown. Evidently Mr. Ford is seeking some mineral lands closer to known deposits of commercial value and for that reason has started a hunt for mineral rights.

#### After Mix Lands

One of the tracts of land that Mr. Ford seeks is what is known as the Mix lands, most of which are located on the west side of Iron county, south and south-west of Iron River and near Chicagoan lake.

Mr. Mix, owner, was one of the pioneers in these parts and for many years has been interested in the paper manufacturing business. He visited Crystal Falls last week as a result of overtures that have been made him by the Ford interests.

In addition there are negotiations on between Mr. Ford and small holders of mineral rights scattered all about the southern end of the county. These negotiations will be made public in a short time. It is understood that so far no deals have been closed but indications are that they are very likely to be and that in their wake will come an explanatory campaign by the Ford interests.

#### To Operate Imperial

Reports are that Mr. Ford intends to operate the Imperial mine west of M'Aligamme, in Baraga county. This property is on the Michigan Iron & Land Co's purchase and is a low grade limonite ore that the Cleveland Chiles people were unable to handle at a profit and for that reason they released the mine from the lease that they held upon it.

Mr. Ford's furnaces are now and have been running on Crystal Falls ore from the start. The Carpenter mine furnished considerable ore to Ford and it is understood that most of his supply has been coming from the M. A. Hanna properties, the Hanna people owning the Detroit furnace which is located near the Ford plant and whose docks were utilized while the dredging was being done for the Ford slips.

Just what the movement at the Imperial means is yet to be seen but coupling that with the activity of the Ford interests in gathering in mineral properties it indicates that Ford is going after iron ore.

The particular interest in the Ford moves to Crystal Falls people is the promise to renewed exploration. There has been practically no exploration for ore in the Iron county fields for five years. If Mr. Ford should start an exploring program it will undoubtedly lead to other explorations and finally to the development of some of latent properties.

#### The Irish in It

O'Brien (at phone)—What? Ye can't hear what Oim sayin'? Well then, repeat what ye didn't hear an' Oim'll tell it t'ye again.—Boston Transcript.

**This is the Stove Polish YOU Should Use**

IT'S different from others because more care is taken in the making and the materials used are higher grade.

**Black Silk Stove Polish**

Makes a brilliant, silky polish that does not rub off or dust off, and the silken luster long keeps as long as ordinary stove polish. Used on enamel stoves and cold iron, brass and copper. Cleans, polishes and shines on your own stoves. If you want a really brilliant, shining, polished surface, use Black Silk Stove Polish. It is the only one in the world that is made in liquid or paste form.

**Black Silk Stove Polish Works**  
Stirling, Illinois

One Black Silk Stove Polish cleans and shines on your stove, range, oven, refrigerator, and brass. It has no equal for uses mentioned.

Latest sheet music hits received today are "Chill-Bean", "Kissin'", "Sweet-Heart Waltz", "Just Like the Rose", "Avalon", "Out of a Clear Sky", "I'm a Long-some Little Raindrop". Now at Stewart's.

SPECIAL SERVICES

Beginning Sunday morning, a series of evangelistic meetings will be conducted at the Swedish Mission church. The evangelist has called Rev. E. A. Skousburgh of Minneapolis, Minn. to have charge of these services.

The Rev. Skousburgh is considered to be one of our most careful and eloquent Swedish ministers. He has for several years been pastor at one of the largest churches at Minneapolis. Aside from his ministerial activities he has been very interested in the education of his countrymen. He is the founder of the Swedish Bible school at Minneapolis. He will have a series of lectures on the subject of the Bible to come and have the message delivered.

PREVEN FEVERS

Bulgarian Blood Tonic is Nature's sweet restorer and contains no harmful drugs. It can be used with safety by every member of the family from baby to dear old grandma. A box of this pleasant medicinal tea should be in every home as it is a general family life. To break up a cold—take it steadily but at bed-time it works like magic. It keeps the blood rich and pure—and to relieve constipation, indigestion, sour, greasy stomach, nervous and blood trouble. It is truly marvelous. Sold by all druggists and grocers everywhere.

Splitting Bank Accounts

Now and then we find a man who injures his own credit through failure to appreciate the right relationship and the mutual interest between a customer and his bank.

A bank can not loan money the way a grocer sells beans. The bank must limit its loans, keep its assets liquid and sustain cash reserves. Each loan requires most careful consideration from many standpoints.

Often special provision must be made to accommodate a customer, and when a bank extends a line of credit it does so with expectation of the customer's co-operation and support. The fact that he is a depositor has a bearing on the credit and accommodation he receives. In loaning money to him the bank foregoes other investments, and in working with him to promote his business it has a right to expect his loyal patronage.

But an occasional customer thinks that buying the use of money is just like buying cigars. After receiving liberal accommodation

from one bank, given in consideration not only of his responsibility but also of his future business, he may suddenly decide to split his account or to turn the remainder of his business over to another institution. First thing you know he is trying to borrow from two banks without keeping a substantial account in either. Not knowing what loans he may have elsewhere, neither bank knows to any certainty where he stands. The result is that he does not stand well with either and loses more than half of the credit he formerly possessed.

The success of our bank is due in no small measure to the kind of co-operation we give our customers. The value of this team-work a good many successful people can attest. But a bank's whole-hearted co-operation can only be extended to loyal customers who use the bank's service on a fair reciprocal basis. Unless a person has unusually large reserves, it is folly to scatter his banking business. When he divides his account he simply subtracts from his credit

Society Notes

Lewis-Burn

A very pretty wedding took place Tuesday morning at All Saints School Chapel, Rev. O. J. Bennett performing the ceremony when Miss Amelia Lewis became the bride of Henry Burn, both of this city. The attendants were Miss Margaret Lewis, cousin of the bride and August Burn, brother of the groom. The bride wore a beautiful suit of navy blue tulle and a soft hat to match and wore a corsage of delicate pink roses and maiden hair ferns. Immediately after the ceremony the bridal party drove to the home of the bride's parents, Mr. and Mrs. John Lewis where an elaborate three course dinner was served. The home was prettily decorated with ferns and cut flowers, the color scheme being pink and white.

Mrs. Burn is very well and favorably known here having lived here all her life and held a position as book-keeper in Goldstein's store for several years. The groom is equally as popular here being employed as fireman on the Soo Line. The happy couple left Tuesday night on a honeymoon to Manistota, St. Paul and Chicago after which they will reside in this city. Mr. and Mrs. Burn have a large circle of friends who extend their best wishes to the young couple.

Miscellaneous Shower

A miscellaneous shower was tendered Miss Thelma VanDamme at the home of her parents, Mr. and Mrs. Leo VanDamme of First street, Wednesday evening. Miss VanDamme is to become the bride of Frank Quinn of this city Wednesday morning. A delightful evening was spent in various games and music. A dainty lunch was served at the conclusion of the party. Miss VanDamme was the recipient of many useful gifts.

W. C. O. F. Social Evening

Committee No. 3 of the Women's Catholic Order of Foresters will entertain at a social evening next Monday of the parish hall. An invitation is extended to the Men's Forester and friends of both lodges may be asked. A very pleasing program is arranged for the evening and various other amusements will pass away the evening, in conclusion of which a delicious lunch will be served.

Basket Soc.

An intensely lively and interesting basket social was held Wednesday night at the Wood Hall when the W. C. O. F. organization of this city extended invitations to the S. H. E. P. of Escanaba to be present with baskets on their arms. A very large delegation of the Escanaba city were present. After the regular meeting the houses were given to many social amusements after which the pretty baskets filled with pretty trinkets were to their holders and all partook of the dainty food. It proved a most enjoyable affair.

Camp Fire Supper

The Misses Grace Smith and Marguerite Ogden were hostesses at a supper last night when they entertained their circle of Camp Fire Girls at the Smith home. The meal was very tastefully cooked and served entirely by the girls themselves. They decorated the room and made patriotic place cards for the pretty tables without any assistance. Virge Fisher assisted in the serving and much credit is due the girls for their ability in this art. In doing this, the girl or girls serving a supper are awarded an honor, which aids them to become Fire Makers.

Why did the king of Cabool give you a medal? "I gave him one last year," explained the shah of Poooboo.—Lansing Courier-Journal.

A Great Spread Is Genesee Jam

Made of Pure Fruits and Granulated Sugar. No artificial preservatives added to cheapen the quality.

AROUND THE U.P.

Nice Cattle Shipment

Ten carloads of extra fancy steers were shipped to Chicago last week by the Cleveland Cattle company of Hinawatha. This is the first of several shipments that the company will make. While beef prices are somewhat on the decline the officials of the company are well satisfied with the conditions of the herd after six months on the grass of Cleveland.

Offers Blood to James

Marvus H. Wiley of Ishpeming, a veteran of the late war, offers himself for an operation of blood transfusion, deemed necessary to enable Congressman W. Frank James to recover his health.

Wiley was assisted by the congressman to secure vocational training and when he learned that the operation was necessary he wrote immediately to Washington offering his aid.

Engine Blows Up

Mrs. Oscar Peterson, has come to Iron River, where she was summoned Saturday because of the serious condition of her son, Harold, a fireman on the Chicago & Northwestern railway, who, with his engineer, Emil Krassick, was badly injured and scalded when the boiler of the engine on which they were working blew up in what proved to be one of the most terrific explosions ever recorded in upper peninsula railroad circles.

To Sell Holsteins

One of the show farms of Schoolcraft county and probably the home of the finest Holstein-Friesian cattle in the section will go out of business when the White Marble Lime company disposes of the stock at its farm in Middlehead. For ten years this company has been building up its herd of Holstein cattle to a point where it has received statewide recognition. Its exhibits have won first prizes "before and whenever shown and is considered to have been a powerful force for the upbuilding of the dairy business in schoolcraft county.

Doyle on Warpath

The mayor of Menominee is on the warpath for those who are delinquent on personal taxes. According to the mayor \$8,000 in personal taxes remain unpaid, and an effort will be made to get it. Orders have been issued to levy on property on which the personal tax remains unpaid, and inspector H. J. Erditz has been detailed to do the collecting or levying. Erditz is to forego all other city duties until this \$8,000 has been gathered up, or the property it represents is sold.

Accident Victim Dies

Axel F. Carlson, twenty-five who was injured when thrown under a moving train in the Northwestern yards at Ironwood, died at the Union hospital. The lower part of his body was crushed when the car wheels passed over it. Mr. Carlson was born in Ironwood. He had been employed as switchman by the Northwestern Railroad company for the last several weeks.

Engineer Asks Injunction

Harvey Erikson is seeking an injunction against the road building firm of Sandberg Bros., who are engaged in the construction of four miles of trunk line highway running from Whitesdale to the Swede Settlement near Manistique. The petition requests Judge L. H. Fead to dissolve the partnership of Sandberg Brothers, and also asks that the Schoolcraft county road commissioners and the First National bank of Manistique be enjoined from paying any money to

the account of this firm until an accounting is made to Mr. Erikson, who claims a half interest in the contract. The contract between Sandberg Bros. and the road commissioners has been running for over a year and is not expected to be completed until sometime next summer. Mr. Erikson has been connected with the firm in his capacity as engineer and has taken care of such details as his technical knowledge would enable him to do. In building four miles of road between Whitesdale and the Swede settlement Sandberg Brothers have been greatly handicapped by shortage of material and scarcity of labor. The work according to the original intentions should have been completed before this but considerable yet remains to be done.

Plan Rotary Club

First steps in the organization of a Rotary club in Ironwood were taken at a meeting in the St. James hotel when a number of business men of the city were addressed by Walker Sandberg, attorney of Ashland. W. Charles M. Humphrey was elected chairman of the permanent organization committee, which will select one man from each profession to be a member of the club. It is probable another meeting will be held soon to further perfect plans for organization.

Bureau Seeks Data On Tourist Traffic

The Upper Peninsula Development bureau is compiling data on the automobile tourist traffic in the upper peninsula during the past season. In this connection the bureau asks that all hotel and garage proprietors, secretaries of commercial clubs and others interested in the promotion of the tourist business submit to the bureau their estimates of the number of summer visitors in their city this year. This information not only will aid the bureau in its work but also will help increase the traffic next year. Shop keepers can assist by estimating the amount of money spent in their stores by tourists.

OLSON & ANDERSON

PHONE COMPANY GIVEN A FIFTEEN PER CENT INCREASE IN RATES

An increase of 15 per cent in telephone rates of all Michigan State Telephone company exchanges outside Detroit was granted by the Michigan Public Utilities Commission in an order made effective from November 1, the company had asked for an increase variously estimated at 25 per cent.

The increase granted does not cover all classes of service rates for private branch exchanges, intercommunicating systems, extensions and installation remaining unchanged. The 15 per cent increase applies to all business and residence one, two and four party lines.

The company had represented the 25 per cent increase it asked would meet only the deficit in operating expenses and interest on bonds having nothing for return on stocks. The commission is of the opinion that the new rates should yield an adequate return for all purposes.

The order is to be effective only until the commission's appraisal of the company's properties is completed.

Try a Reporter Want Ad.

Alike Mother was washing her hair, which was curly at all times but when wet decidedly curly. Five-year-old John watched the process with great concern. "Mother", he finally remarked with a frown, "your hair is a lot like grandma's face isn't it. When you wash it, it wrinkles up like everything."

Constipation Most laxatives and cathartics afford only temporary relief and should be used only for that purpose. When permanent relief take Chamberlain's Tablets and be careful to observe the directions with each package. These tablets not only move the bowels, but improve the appetite and strengthen the digestion.

The World Wants EMCO Goods We Need Help To Make Them

Dealers all over the country are clamoring for more EMCO goods. The company must immediately increase its production of dishes, clothespins, toothpicks and other things it makes. It needs more women in many departments and is now offering to girls and women of Gladstone light and pleasant employment at splendid wages.

A Fine Place To Work

The work rooms are comfortably heated in winter. They are large and roomy. The light and air is good. Women can sit much of the time while working. The work assigned to women is light and refined. They cannot lose either health or good looks. This plant has the most modern equipment of any plant in the world making similar products. Everything is done to make the work pleasant and easy for women.

Rest Rooms Provided

Alterations are being made in every department providing for a rest room nicely furnished with individual lockers for the girls. They can change their clothing and "dress up" if they wish before leaving the factory. They can rest and refresh themselves in these rooms. Girls working here will find the company a good friend in times of need. We employ a competent and experienced woman, Mrs. Andrews, to see to it that our girls have everything that the Company can supply. Working conditions are always under the supervision of a woman.

You Save Your Clothes

You don't have to wear your nice clothes to work here. Most of our girls have a factory apron or garment which they put on when they come to work. When work is done, they change back to their street clothes, and are all ready to go shopping or home. Their good clothes are not worn out while they are at work.

No Limit To Earnings

The 200 women workers in our plant today earn an average of \$3.00 per day. Many earn as high as \$4.50 per day. There is no limit to what a girl can earn, for under our plan of compensation we pay her for everything she does.

INVESTIGATE THIS OPPORTUNITY You owe it to yourself to see what are the advantages and opportunities for the ambitious girl or woman in this plant. Complete information cheerfully given. Apply by letter or in person at our offices.
