THE COLD SPECIAL AND

THE CO

"In The Patch Again"

THE WEATHER continuing unpleasant, one is forced to look elsewhere for encouragement. We find it in a study of the proposed budget to run Cladatone for the next year. This presents some bright spots for every citizen honestly concerned with the future of this city. The amount of the budget itself: and the rate of taxation is fittle changed. Perhaps it will fall slightly below the \$14.50 per \$1.000 of assessed valuation of the past few years.

But the good feature of the budget information printed officially elsewhere in this issue, is that it discloses an appropriation of \$9.000 for the sinking fund an amount which when added to that already on hand and with anticipation of a like amount. appropriated in 1920, will make possible the retirement of an additional \$20,500 of the city's bounded indebtedness. This means that by the end of 1929, Cladatone's bonded disbt will have been reduced to \$34,000, bear than the total voted by the people in March. 1922, to "keep the city from going bankrupt."

Cladatone's financial recovery has been most remarkable and particularly realized when it is noted for city governous. \$5.02, the coor property of the city's highligan. Assuredly the City Commissioners who have revered in the past free years, esting the policy to be set, and City Manager Buechner who has the policy to be set, and City Manager Buechner who has the policy to be set, and city who have treved in the past free years, estering the policy to be and and ministration's record. If those of this inclination will study the proposed budget, which inclination will study the proposed budget with commission-manager form of government.

THIS is being written at a time when we do THIS is being written at a time when we do not know whether Cladatons will be represented at the annual meeting of the U. P. Baseball association at Negausen next Saunday aftermoon. Should some public-spirited fan desire to enter Cladatone with that organization again this newspaper would be willing to give the team is loyal support, but we may repeat at this time the conviction that semi-pro baseball is doomed to fall and the best chonce of restablishing the national game lies in returning to the strictly amater game, such as Cladatone and other Delta and Schoolcraft county towns have experimented with in the past two seasons.

he past two seasons. Young players have been encouraged to devote homselves to the game; attendance has been increasing games have been played on schedule and without undus wrangling; these are all good signs and should distribute the way to future efforts, we believe. The nanagements have abided by their agreements not to magaze players; members have played for the fun in he game, and not for monetary reward under the matery baselil, and rules adopted at the start of the cason have been lived up to surprisingly well, for asseball.

baseball.

The U.P. association plans to use part salaried and part non-salaried teams, in an effort to reduce expenses to within the funds available. But the trouble with such a system is that there is no telling where to begin and where to end. One team starts with a salaried battery, then adds another salary, and as its rival go; it one botter, it also raises the ante, and the whole the proposition of the property of closing the season with large deficits which must be met with deseason with large deficits which must be met with de-

If Marquette and the other upper peninsula associa-tion towns can demonstrate the success of the semi-pro game, it will be time enough to join them. In the meantime Delta county towns may set the pace in an-

WITH the Republican state conve WITH the Republican state convention over, and Michigan's delegation ploqued to a more or less degree to Herbert Hoover for the Republican nominism. the active politicians have until June to do their political horge-trading, while the ordinary citizens may contemplate just how much of a say they have had in the selection of their candidates. Just how responsive the system is to public opinion remains to be seen to be seen the second of their candidates. So far he guess that Hoover is the choice of Michigan Republicans is a happy one and should the state delegation remain loyal to the Hoover cause, there should be I tele complaint with the system as it worked in this particular conventon.

ation, the active politicians have until June to do their political horge-trading, while the ordinary citizens may contemplate jush how much of a say they have had in the selection of their candidates. Just how responsive a system is to public opinion remain to be seen. Republicans in a happy one and should be likely and the selection of their conditions of their conditions of Michigan Republicans in a happy one and should be likely and the particular conventon.

And yet those who are opposed to Hoover as the Republican nominee may rightfully complaint that they have not been given a proper opportunity to give express on to their view. The trouble is that there is no way in which to gauge the relative strength of the propects, and for this the system is certainly at fault. One can hardly blame the delegates for voting as they pear a when there is so little chance to determine how the ajority would rule in the matter. Perhaps the see aposlessed of such significant powers as to be capable of this greater understanding, but the matter of the content of the c

Chats with The Editor

THE WEATHER continuing unpleasant, one is force of to look elsewhere for succuragement. We find in a study of the proposed budget to run Cladatons for the next year. This presents some bright spots for the next year. This presents some bright spots for the next year. This presents with the future of this city. The amount of the budget itself and the travel of the same of the value of the proposed on the proposed of this city. The amount of the budget itself and the rate of taxation is little changed. Perhaps it will fall slightly believe the \$1-30 per \$1,000 of assessed value and the proportion of \$2,000 for the city's bonded indebtedness. This means that by the end of 1929, Cladatone's bonded debt will have been reduced to \$54.000, less than of debt will have been reduced to \$54.000, less than of the state of the Michigan's school, it's time that some good, common sense should emanuate from the time of the Michigan's school, it's time that some good, common sense should emanuate from the time of the Michigan's school, it's time that some good, common sense should emanuate from the time of the Michigan's school, it's time that some good, common sense should emanuate from the time of the Michigan's school, it's time that some good common sense should emanuate from the time of the Michigan's school, it's time that some good common sense should emanuate from the time of the Michigan's school, it's time that some good c

MEMBERS of the Michigan Press A.m. have best observing "exchange month" during April each of the approximately 250 members exchanging copies with the others, at the rate of 50 each week. Previous to coming to Gledstone, this writer was in touch with practically all Michigan newspapers, so that their coming at this time is not entirely a novel experience but we want to go on record, nevertheless, as stating that it has been an enjoyable and profitable experience, and we are glad that Chas. Tesseyman, of the Norway Current, motioned at the last annual meeting for this exchange.

V/E KNEW the ladies could do it, but it remained for the arrival of the April 12 issue of the Mansiatuse Pioneer Tribune and the April 13 issue of the Norway Current to impress upon our mind the April 13 issue of the Norway Current to impress upon our mind the deful result of the experiment of having the ladies of those cities edit their home-town papers for one week. The experiments in both instances may be declared pronounced successes and a credit alike to the ladies who made it such and the publishers who opened their columns to them.

THE London Mail issued an imaginary edition dated to be recorded 72 years from now. A flight around the world in 24 hours is one of the "starting" reports according to the comments. Another is where college students absorb their subjects while peacefully sleeping. Nothing startling in that, especially in the sleeping.

(Cheboygan Observer)
The Delta Reporter last week embarked on its 43 rd year of usefulness. It is one of the first papers we look for among our many exchanges, because we invariably find something in its columns that is worth reading and repeating. Editor Joe Sturgeon is a young chap, but he wields a clever pen, and is "not afruid of the cars," and gives his home city a newspaper far above the average. We like Editor Sturgeon and his style, and one must leave his paper with a fine impression of his town after reading it.

St. Ignace Rep. News)

St. Ignace Rep. News)

Most cordially we extend our fraternal greetings to the initial "No. I" of the forty-second year of the Delta Reporter, of Gladstone, emphatically wishing our bright, original, and fearles contemporary "Many Happy Returns of the Day." Reading the Delta Reporter is one of the refreshing oases in the weekly task of "doing" the exchanges. To its editor, Joseph Sturgton, whom we are privileged to hold as a personal friend in addition to a professional brother in the craft, we repeat these congrutations with a personal application and a sincere reminder that his visits to St. Ignace are always too great a pleasure to us, for him to be able to neglect a call and retain a clear conscience in regard to the fulfilment of his duty to his neighbors.

The Home That You Own

OFFICIAL PROCEEDINGS

The Cream of the Tobacco Crop GARET1

LLOYD WANER

Noted Star of the Pittsburgh Pirates, writes:

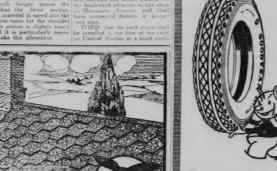

When I arrived at the Pitts. burgh training camp I noticed my brother Paul smoked Lucky Strikes exclusively, and he explained why. You will agree that we were in a close and exciting Pen-nant race and it certainly called for splendid physical condition to withstand the tax and strain upon one's nerves and wind. Like Paul, my favorite Cigarette is Lucky

Lloyd Waner

t's toas

No Throat Irritation - No Cough.

@1928. The American Tobacco Co., Inc.

Good-bye dingy looking roofsthat discount home values! See This Beautiful Roof Today!

YOU would scarcely believe that the home it now protects, was built twenty years ago. Yet, just a few days ago the original roof was rated unsightly and a poor asset to its community. Actually it discounted the homes around it.

With this new Mule-Hide Roof, applied over the original worn shingles—fresh life is now put into the old home. The insurance rate too, is less as leading companies recognize the fire resistant quality of Mule-Hide. Today this old home—ercoofed with Mule-Hide—would easily bring \$500.00 more than if the old roof remained. You too, can increase the comfort and value of your home by reroofing.

WHY

Buy a 1927 Tire in 1928?

Don't be old-fashioned in tire buying!

The Goodyear Balloon with the new-type All-Weather

Tread specially-designed for balloon tire performance is the popular choice for 1928.

This tire--- "The Greatest Tire in the World"---will revise all your ideas about balloon tires.

It's tread insures slow, even wear--no more cupping, "pot-holing" and such troubles. It gives positive, gripping traction. It is a real non-skid tread.

You won't be satisfied with an out.of-date tire, when you see this one! Come in and see it—NOW!
