REPORT OF STEPHEN LOWNEY, SR., LAND LOOKER,
FOR YEAR 1930.

Following is a report of the work in general done on The Cleveland-Cliffs Iron Company lands during the year 1930 by the Land Lookers.

During the year the Company had two crews, comprising four men, steadily engaged examining lands. One in charge of Stephen Lowney, Jr., with his compassman, Toivo Pelto, and our own party consisting of Thomas Billings and myself.

During the year Stephen Lowney, Jr., examined lands, trespasses and patrolled to prevent forest fires, etc., as indicated by his annual report.

Our own party examined 20,160 acres of lands and found and reported 44 trespasses.

- 30 of these trespasses were for saw log timber, quantities ranging from two to forty thousand feet.
- 3 of these were for small quantities of pulpwood.
- 3 of these were for small quantities of second growth hardwood.
- 3 of these were for fences over and onto The Cleveland-Cliffs Iron Company lands.
- 2 of these were for removal of earth or gravel.
- 3 of these were for hunting camps on company lands.

Also spent considerable time patrolling so as to protect the properties from forest fires, trespass or any other features that might be detrimental to them.

The Electric Power Transmission Line built by the Company from Little Lake to Suel Croix on Lake Michigan extends through much of the Company's lands located between Little Lake and Seney. Located this line between these two points and calculated the quantities of timber cut inside and outside of the right of way which was from twenty to one hundred feet wide.

Did considerable work on State, County and Township roads to see that, in widening or cutting out new ones, they do the work in a manner to waste no timber and to cause no additional fire hazards.

Also spent considerable time with prospective purchasers showing them the lands and also numerous other features for the protection and betterment of Company

lands.

Worked a few days, October 17th and 18th, at the Company's Wood Mill at North Marquette to see what portion, if any, of the logs being shipped there classed as chemical, if sorted closer, or cut more carefully in the woods, would make good lumber logs or tie cuts. Found, on October 18th, that about thirty of the logs being shipped there, if sorted closer and cut more carefully in the woods, would make good and first class saw logs or railroad ties.

Also spent two days checking the scale of the Company's logs on cars now being shipped to the Brunswick Lumber Company as the man scaling for The Cleveland-Cliffs Iron Company at that place was sick. On the scale of one car, we found 900 feet more than the Brunswick Lumber Company's scaler gave it. The balance ran from about 200 to 300 feet per car less than our scale.

TIMBER LANDS

Everyone knows that the timber lands owned by The Cleveland-Cliffs Iron Company are of as good grade and as heavy stands as any in the entire Upper Peninsula of Michigan. The Company's operating custom is to take all small logs having diameters of from 9" to 12" to their tie saw mill at Dixon and to have them there converted into railroad ties. They also take out all crooked logs and much of the defective logs and ship them as chemical material to their wood sawmill near the North Marquette Furnace.

I notice at the destination of these logs being sold, a good sprinkling of them having hollow, shaky, and rotten butts. Such logs should be long-butted or trimmed in the woods and not leave it to the scaler to trim them, as he surely will do, with his scale rule at their destination.

Logs of this character are usually large and the dockage on one of them would be from 50 to 100 feet meaning a money loss per log of from \$1.30 to \$2.70. The sawyers in the woods cut these logs by contract at an average price of about fifteen cents per log. If they were instructed to long-butt those kind of logs mentioned and give them fifteen cents for doing it, this would save for the Company

in the aggregate a substantial sum and it would also eliminate considerable controversy, or chewing the rag about the scale.

Mr. Johnson, Manager of the Brunswick Lumber Company, told me that the logs they are getting from The Cleveland-Cliffs Iron Company are constantly decreasing in grade for Pin logs.

FOREST FIRES

Last summer was unusually dry and very little rain. We had through this region numerous fires, located largely in plains, marshes and old slashings. In a general way, we have been over most of the Company's lands and am pleased to say that, to my knowledge, the Company has suffered little or no loss to their timber holdings during the summer of 1930.

NEW PROJECTS

The Stearns-Culver people started an experimental portable sawmill on Section 28 in 47-15, which is best adapted for ties but can saw lumber also. This operation was started last summer and during the first few months, while the demand and prices for ties was good, the project, it is claimed, was profitable.

LOGGING

Logging operations this winter by jobbers are on a much smaller scale than they were a year ago, for the reason, it is claimed, that there is very little demand for woods products and prices are also much lower than a year ago.

I wish to take this opportunity to thank Mr. Mather, all the Directors, and you for the many kindnesses you have extended to me always.

SL:MD-3.
1/22/31.

REPORT OF STEPHEN LOWNY, JR., LAND LOOKER,
FOR YEAR 1930.

The following is a report of the work which we have done during the past year:

Examined approximately 36,000 acres of land in the townships and ranges as listed below:

A total of about 33,000 acres on the North of Newberry tract in

Townships 47 and 48,	Range 8
" 46, 47 and 48,	" 9
" 47 and 48,	" 10
" 46, 47 and 48,	" 11
" 46 and 48,	" 12

The balance of about 3,000 acres were examined in the Alger County tract in

Townships 48 and 49,	Range 14
" 49,	" 15

We found and examined in all, forty-one trespasses. Of these, thirty were trespasses found in 47-26, 47-27 and 47-28, covering mostly wood for fuel, few fence posts and some gravel taken by parties in making roads.

There were eleven trespasses found in 47-8, 47-9 and 47-10, covering logs from 100 feet to 6000 feet, pulpwood from 1/4 cord to 3 cords, ties, posts and a few pine trees for building material.

We found ten hunting camps, the owners of some claimed to have leases and others were unknown.

We turned in 3 applications for land.

Other various items of work accomplished are:

Kept in touch with fire wardens in the Eastern end of the peninsula, and reported at regular intervals the location, approximate extent of fires and progress made in checking them. Found and extinguished one fire left by tourists on the north branch of the Two Heart, which if left would have caused a great deal of damage.

We made forty calls for trespass collections. Collected six bills; found one man had a receipt for the bill listed; two others claimed to have receipts but could not find them; these two, and ten others promised to go to the office and make settlement.

Made a trip to the Whorl and Antlers Clubs to see what lands they wanted to lease for hunting and fishing, taking the caretaker with us and giving him a plat with proper descriptions.

Spent several days with Mr. Lowney and Mr. Senate going to different locations in the Newberry country.

SL, Jr-MD/3
1/23/31.

REPORT OF MR. A. J. ERICKSON
FOR YEAR 1930

THE CLEVELAND-CLIFFS IRON COMPANY

SALES OF LAND AND TIMBER

The following statement shows the grouping of the sales by districts:

District	No. of Sales	Acreage	Total Am't of Sales	Timber Value	Land Value	Avrg. Price per Acre, Land Only
Rumely-Chatham	7	559.93	\$ 4,020.00	\$ 515.00	\$3,505.00	\$6.26
Trenary	2	120.06 (1)	1,450.00	1,160.00	290.00	7.25 (3)
Negaunee	1	20.00	400.00	300.00	100.00	5.00

Easements & Releases	13		4,095.30	4,059.30	36.00	
TOTAL	36	2,426.86	43,915.23	34,267.54	9,647.69	4.41 (3)

(1) Includes 80.06 acres Timber only

(2) " 160.00 " " "

(3) Based only on sales which included land.

AGRICULTURAL LANDS

The agricultural situation has not improved with the result that no new settlers are coming into the country, and the only sales are those to established farmers who are purchasing additional land mainly for pasture purposes. Each year sees more farms abandoned. Our total sales for agricultural purposes for the year were 649.93 acres. Of these one 80-acre tract and one 30-acre tract were for new farms; the balance represents additions to present farms. The largest sale was to Sture Johnson and son covering 280 acres for pasture purposes and used in connection with their dairy farm. The prices secured range from \$5.00 to \$10.00 per acre for the land only and in addition to which we added stumpage for any timber on the land.

LAND AND TIMBER SALES

The largest sale was to the State of Michigan covering 839.76 acres in the Cusino Game Refuge for a consideration of \$24,000.00. We also sold additional right-of-way at various points to the State of Michigan for use in connection with roadside development; these sales covered 107.87 acres for a consideration of

#2.

\$3,345.10. The prices secured for such roadside parcels averaged \$10.00 per acre for the land in addition to which we secured a good price for the timber. 5.39 acres were sold to the Highway Department in connection with the new concrete highway east of Munising for which we received a consideration of \$2,144.50. 480 acres for \$720.00 were sold to the Federal Government in the Mackinac National Forest. These were lands that were released from the timber permits of Havela and Asiala and the Bay de Noquet Company. In addition to these, the only other sales were one to Webster Lumber Company covering 80 acres in Section 18-45-16 for \$700.00, and a cut-over description to George Shipman, the NE $\frac{1}{4}$ of the SE $\frac{1}{4}$, Section 24-47-5, for \$150.00.

TIMBER SALES

In connection with the purchase of lands by the State in the Cusino Game Refuge, we quit-claimed our cedar rights on 1,161.63 acres, which we acquired under the so-called Forster contract, for a consideration of \$174.00. The cedar timber only on 589.63 acres in Section 31-45-20 was sold to Melvin H. Larson for \$661.00. This cedar was located on lands which will be a part of the AuTrain Storage Basin. The timber on the W $\frac{1}{2}$ of the NE $\frac{1}{4}$, Section 6-44-21, was sold to Frank Oberstar for \$750.00.

EASEMENTS

Included in the above statement of sales are eleven easements granted for electric transmission lines, telephone lines, and gas mains, - all for nominal considerations of \$1.00 each; also one release of mineral reservations on 120 acres in the Cusino Game Refuge for which a nominal charge of \$1.00 was made; also the nominal charge of \$1.00 for a release of general reservations of transmission lines and railroads in certain lands in the Marquette National Forest which were being sold by the Cadillac-Soo Lumber Company to the Federal Government. These include the three easements to The Cliffs Power and Light Company covering the right-of-way of the new transmission line from Gwinn to the Inland Steel Quarry near Manistique and includes the value of the timber on this right-of-way amounting to \$4,059.30. The Cliffs Power and Light Company has as yet not paid for this timber nor the land looking charge which amounted to \$923.00.

LAND AND TIMBER NEGOTIATIONSGROUP NO. 1 LANDS

On March 21st we quoted the William Horner Lumber Company on a hardwood tract in this group, comprising 9,632.30 acres. The price asked was \$50.00 per acre and was the same which we had quoted Dirk Schreur in August 1928. However, nothing further was heard from these people regarding this tract.

In March 1930, Mr. George C. Schneider and Mr. Mead, Jr., of the Consolidated Water Power and Paper Company called at this office with reference to the quotation made to the Newaygo Timber Company on July 9th, 1929, on the softwood group containing 75,201.81 acres. We were finally advised by them in July that they did not care to go into this matter further at this time.

We also submitted 84,834.11 acres in this group to the Thunder Lake Lumber Company in July 1930 and discussed these holdings in a general way with Mr. J. D. Mylrea, President of that Company. Their cruiser and woods superintendent spent several days with Mr. Lowney going over some of these lands. We were finally advised by Mr. Mylrea that they would not be interested because of the light stand of timber.

RANGE 24 LANDS

In February, after discussing these lands with Mr. Mather, we offered Thomas Connors the lands in Sections 3, 4, and 5 in 44-24, but owing to the outlook for general business and the slack demand for forest products, Mr. Connors was not ready at that time to go into their purchase.

Havela and Asiala spent a few days going over a portion of the large group but advised that they were not ready to consider this proposition because of the market conditions.

BRUNSWICK LUMBER COMPANY

In April we offered the Brunswick Lumber Company 880 acres in Sections 2, 11, and 15 in 51-28 for \$29,500.00. These lands are located in the immediate vicinity of their operations but we heard nothing further from them. In July a conference was had with Messrs. Johnson and Defaut of the Brunswick Company and

we quoted them a price of \$690,237.20 on 17,255.93 acres, comprising all of our lands in the district northwest of Marquette, but nothing further was heard from them with reference to this proposition.

MISCELLANEOUS

We received a number of inquiries during the year for smaller groups scattered through the Peninsula but they were not as numerous as previous years due undoubtedly to the depressed business conditions. The prevailing prices for forest products of all kinds were very low and even at these low prices it has been difficult to make sales, with the result that a number of the smaller jobbers who generally purchase these scattering small acreages are not operating this season.

LAKE AND RIVER FRONTAGE

Owing to the press of other work, we were unable to do but very little during the year on the special survey of our lake and river frontage lands. We continue to get a number of inquiries for property of this kind and considerable interest and demand exists for frontage property.

MACKINAC NATIONAL FOREST

On September 22nd, 1930, we executed a proposal covering 480 acres to the Federal Government and this was accepted and an option given on November 7th for a price of \$1.50 per acre. This option was accepted by the Commission at its meeting in December and deed was executed but the sale has as yet not been entirely completed. We also issued a proposal and option covering 520 acres in this forest which covered lands it is expected that the Bay de Noquet Company will release in the Spring of 1931 from its timber permit. This option was granted too late to be acted upon by the Commission at its December meeting. It has developed since that the Bay de Noquet Company have curtailed their operations and will probably not release but a small portion of the lands covered by this option so that it will be necessary for us to withdraw them. Before granting this option we had an understanding with Mr. William L. Barker, Jr., Forest Officer in Charge, that the Company would be permitted to withdraw lands that were not released from the timber permit.

No action has as yet been taken on extending the limits of this forest to include the 730.04 acres in 46-20 offered to the Government August 1st, 1929.

LOT SALES

The only items included under this heading are the sale of Lot 56 and the East half of Lot 55, Island View Addition, Munising, on which is located the so-called Norman Osland house, contract covering which was surrendered in 1929, and was sold to John L. Yell and wife in 1930; also the portions of lots in the Anna River and Munising Leather Company Additions of Munising sold to the State of Michigan as additional right-of-way for the so-called Munising East Road, amounting to \$855.50, making total sales of \$1,105.50.

HOUSE AND LOT SALES

We were successful in disposing of the Norman Osland property which came back to the Company in 1929, having been surrendered by Osland and his wife. We secured a price of \$2,600.00; terms \$100.00 cash, the balance in monthly payments of \$25.00 each which include interest, in addition to which the purchaser is also required to pay the taxes and insurance. As additional security for some of the monthly payments, we took an assignment of a claim of \$800.00 which John L. Yell, the purchaser, had against Frank Runsat, Sheriff of Alger County, and which was payable to Yell in monthly installments of \$25.00. As a result, Mr. Runsat is taking up the monthly notes in the bank until the \$800.00 has been paid.

NEW LEASES

During the year we issued 16 new camping leases for a total of \$54.00 per year and in addition to which some of the lessees will be required to pay the taxes, and these in 1930 amounted to \$171.52; one new residence lease at a rental of \$12.00 per year and taxes which in 1929 amounted to \$5.69, and also special sewer taxes amounting to \$44.78; 11 garden leases for a rental of \$22.00 per year; two forestry plot leases to Ishpeming Township and Negaunee City School Districts at a rental of \$10.00 per year plus taxes which amounted to \$12.62; 1 gasoline station lease for a rental of \$60.00 per year plus taxes which amounted to \$19.52; and replacement of an existing oil station lease, increasing the rental from \$10.00 to \$100.00 per year; 1 lease to the D.S.S. and A. Railway Company for service tracks, \$25.00 per year; 1 lease to The Cliffs Power and Light Company covering electric sub-station site at

Munising at a rental of \$1.00 per year plus taxes which amounted to \$28.68; and 1 private garage lease at \$5.00 per year; also 3 transmission line easements for which we are receiving a nominal rental of \$3.00 per year.

In addition to the above, we also issued the following new leases on lands of the Mining Department:

- 5 garden leases on Athens property at \$11.00 per year,
- 3 garden leases on Negaunee Mine property, \$4.00 per year,
- 1 dwelling lot at Republic, \$6.00 per year,
- 19 garden leases at Negaunee at \$19.00 per year,
- 1 banking ground lease at Princeton for \$25.00 per year,
- 1 dwelling lot at \$6.00,
- 9 garages at \$32.00 per year,
- 18 garden leases at \$29.50 per year,
- 2 miscellaneous leases at \$5.00 per year each.

These leases are in addition to those which were already in force when these lands were turned over to this Department for supervision.

The total annual rental on all of the above new leases amounts to \$424.50, and the taxes which the lessees will pay in addition for the year 1930 amount to \$282.61.

Renewals were also issued on a large number of leases which expired during the year. Seventy-nine transfers of leases were made, for which a nominal charge of \$1.00 each was collected.

LAND RENTALS

The earnings from leases on unplatted parcels for the year 1930 amounted to \$9,232.46, or an increase of \$1,230.10 over the year 1929. This increase is made up principally by the leases taken over from the Mining Department covering parcels in the Negaunee and Gwinn Districts, and several miscellaneous leases in the Ishpeming-Negaunee District. The platted lots leased showed an earning of \$12,396.52, or \$23.07 less than the previous year. This is due to the sale of the Holmes Mine property on which was located the Junction Location; the rentals accruing from November 1st, 1930, on these lots was turned over to the Oliver Company. Included in 1929 also was two years' rental on some of the Delft poster leases at Munising.

MINING DEPARTMENT LANDS

The Mining Department early last spring requested us to look after the surface of all of their lands, particularly with reference to surface leases, trespass, etc. As we found time during the year, we checked over all of these lands in

Negaunee, the larger portion of the Gwinn District, and some of the lands in the Ishpeming District, and also did some work on the Republic lands. Mr. Lowney is now engaged in making reports on the outlying lands, that is, those not within the cities and towns, and early in 1931 we expect to have a complete check of all of the Mining Department holdings.

ROYALTIES

During the year we received \$1,188.70 royalties from the Pine Hill Quarry of the Advance Industrial Supply Company. This is \$357.06 less than the revenue from this source in 1929.

LAND PRODUCTS SALES

These amounted to \$2,236.17, or an increase of \$1,537.35 over the year 1929. This item includes the sales of rock to the Negaunee and Ishpeming municipal crushing plants and miscellaneous sales of gravel and borrow material. The large increase is due principally to the sale of gravel to the Marquette County Road Commission amounting to \$1,230.70, sales of borrow material to Marquette County, \$114.60, and the State of Michigan, \$368.10, and also some borrow material and gravel to the L.S. and I. Railroad amounting to \$108.06.

RENTED BUILDINGS

With one exception, all of our rented buildings were occupied practically the entire year. House No. 114 has been vacant for the past two years and is not in tenable condition. The earnings from this source for 1930 amounted to \$7,813.68, or an increase of \$304.99. The operating cost was \$8,180.60, showing a loss of approximately \$366.92. During the year we repainted ten of our houses in Negaunee and this included the necessary carpenter work to put them in proper shape for painting. We also repaired the fencing surrounding all of our houses in the Jackson Location. These were the large items of repairs during the year. At Munising we were compelled to make considerable repairs to the boiler in the Alger Hotel and also some repairs to the Acker property. In addition to this, we had the usual items of interior decorating and minor roof repairs and plumbing.

COLLECTIONS

The collections on our various rental accounts, considering the general business conditions, were very good. We have several rental accounts, both among our dwelling lots and farm leases, which are considerably in arrears but we are keeping after them and each year are successful in cleaning up several accounts. Attached to this report are statements showing the condition of the various sales accounts. The collections of the house rents at Munising were very poor during the year owing to poor employment conditions existing. However, some of the delinquent accounts have been taken care of since the first of the year. Dr. C. J. Light is considerably in arrears on his house rent and also on his water rates but he has promised to take care of these by the middle of February, but it is doubtful if he will be able to do so. He has been handicapped considerably by sickness and poor business.

The timber permits to Blizel and Blank, and Havela and Asiala were paid in full during the year.

TIMBER PERMITS

Accompanying this report is a statement showing the timber permits in force and the condition of the accounts. All of these with the exception of that to Wallace D. Masters, have been paid in full and only call for the collection of the taxes each year.

SURRENDERED AND CANCELLED CONTRACTS

The only two contracts surrendered during the year were the one held by Urho Tynnismaa covering the SW $\frac{1}{4}$ of the SE $\frac{1}{4}$, Section 17-46-22, and this we arranged to resell to his father; and the one to C. P. Johnson covering the NW $\frac{1}{4}$, Section 8-46-17, located in the Van Meer District. Mr. Johnson left Alger County, where he had been employed as County Agent, a number of years ago, and since leaving spent several years in the Philippines and is now located in California. He made very substantial payments on the contract but finally decided that he would have to give it up. This is good land, well located, and as soon as there is a revival in demand for agricultural lands, should be readily sold.

CLIFFLAND FARM

The crop of hay on the farm this year was the best that the Koskelas have secured since taking over this place. The oat crop looked exceptionally good early in the season but owing to the dry weather, did not turn out quite as good as expected, though it was better than 1929. They only had a small area planted in potatoes; Mr. Koskela stated that this was due to the fact that there is so much quack grass on the farm that they have no suitable parcel for potatoes and will have to remove the quack grass before they can plant any sizable acreage. In 1929 they kept working the parcel of land just east of the superintendent's house, getting rid of the quack grass and last spring, planted about eight thousand strawberry plants and expect to have a fairly good crop of strawberries in the spring of 1931. The apple orchard does not seem to give good results. I do not believe these people are particularly interested in the orchard and this may have some bearing on the unsatisfactory condition of this crop. However, the results from the orchard, even under the Company management, was not satisfactory. It seems that at the time the greatest portion of the apples in this orchard mature the country is flooded with early apples with the result that prices are low and unless the crop is of first class quality, it is difficult to get rid of them.

During the year they installed a new Holland hot air furnace in the superintendent's dwelling at a cost of \$355.00. They also put a new composition roof on the double dwelling and repaired and cleaned it up in good shape and have had it rented since to three and four families. They also had a carpenter working around for a week or so during the summer making minor repairs to the other buildings.

The total of \$1,357.42 was paid on the contract during the year. These payments represent deductions made by the Company from sales of hay, oats, and potatoes to both the Lumbering and this Department, and also from deliveries of milk and cream to Hotel Williams during the summer months. Late last fall they also accepted an order from the Lumbering Department for 70 tons of hay to be delivered during the winter of 1930-31 but up to the end of 1930, the Lumbering Department had not called for any shipments so that the proceeds from this sale will not be credited to this contract until 1931. On December 31st, 1930, the following was past due on this contract:

#10.

Payment on Principal due December 1st, 1928	\$ 500.00
Payment on Principal due December 1st, 1929	500.00
Payment on Principal due December 1st, 1930	500.00
Interest on Principal to December 1st, 1930	1,898.65
1930 Taxes	<u>315.87</u>
	\$3,714.52

BEACH INN

Mr. Heckathorn made only four payment of \$250.00 each on his contract during the year. He attributes this to the fact that he had a poor summer season and also that he spent a great deal of money in repairs and purchase of new equipment. We have had this matter up with him and he has promised to catch up on the back payments in 1931. At the close of the year he was fifteen payments in arrears.

He claims to have spent \$3,600.22 in repairs, redecorating, and purchase of new equipment for the year 1930. He replastered portions of both of the upper halls and the lobby, and also covered the lobby walls and ceiling with "Textone" and redecorated the halls, a number of the guest rooms, and the lobby. He also put in a new hardwood floor in the kitchen and replaced 4 doors leading to the fire escapes. These items amounted to approximately \$1,400.00. He also advised us that he was obliged to make a number of changes and improvements in the plumbing and electric wiring and this cost him about \$375.00. He also purchased some new furniture and equipment, including a General Electric Refrigerator and replacement of dishes, linens, etc., which cost him approximately \$1,700.00. He has taken care of the 1930 taxes which amounted to \$616.77.

MANUFACTURERS' HOTEL

Mr. Belfry, the tenant, continued to receive very good patronage nearly the entire year and we were able to collect the full rental of \$85.00 per month for the whole year. However, his business dropped off in November and December and it is possible that we may have to make some reduction in the rental charge for the winter months in order to keep the place occupied. We spent about \$256.25 on repairs to the heating plant; these repairs were made at the request of the Boiler Inspection Bureau. Outside of this item, the only repairs were minor ones to plumbing and some necessary carpenter work.

BELLEVUE AND CLIFFS FARMS

The Bellevue Farm was leased for the year for the rental of \$300.00. The large barn building is in poor condition and in order to have them make some necessary repairs, we furnished some material to the lessees which cost us \$64.20. This included also some roofing for one of the dwellings.

The Cliffs Farm was not used and as stated in last year's report, the cleared areas are run down and the fences are gone, and it is probable that this farm may not be cultivated again for a long time.

LOCATION IMPROVEMENTS AND GARBAGE COLLECTION

The only improvement work done by the Company during the year in its locations was the repairs to Barn Street in the Hard Ore Location. The people living along this street have requested us for several years to improve the road, particularly to enable the City to plough it in the winter. In connection with the Mining Department, we looked this over and arranged with the City of Ishpeming to do this work. They did a very credible^{ta} job and the expense amounted to \$288.49. The improvement is appreciated by the tenants.

The cost of cleaning and garbage collection for the year amounted to \$66.60.

WHITE PINE BLISTER RUST

The State of Michigan for the past few years has been endeavoring to eradicate the White Pine Blister Rust in the State, and has had several crews busy each summer removing the black currant bushes and also the diseased red and white currants. In addition to this work, they are also cooperating with timber owners in protecting areas of second growth White Pine by destroying all wild gooseberry and currant bushes of various varieties within the Pine area and also a 900-foot protective zone surrounding it. There is a small tract of very nice young White Pine on lands of this Company in Section 8-47-27 on which we cooperated with the State in this work at an expense of \$88.00. The State furnish the superintendence and equipment and we paid only the actual labor employed in removing the currants and gooseberry bushes. The State also did considerable of this work in Marquette County in the vicinity of the Negaunee Cemetery and the County Parks at Champion Beach and Gwinn. We believe they also arranged with the Mining Department to do similar work in order to protect the

White Pine plantings in the vicinity of Mr. Mather's cottage at Ishpeming.

ROSENWALD TITLE

Proceedings were started by Messrs. Berg and Clancey, acting as attorneys for William C. Weber, to probate the Isaac Rosenwald Estate in Michigan, but have not been brought to a conclusion. After considerable correspondence and delay, Mr. Weber finally advised that he was not in a position to make any cash payments which would be necessary as soon as the inheritance tax due on this estate was determined. Berg and Clancey therefore suggested that The Cleveland-Cliffs Iron Company pay these inheritance taxes and have Mr. Weber give us his note for same. This was reported to Mr. Mather and approved by him and this method of settlement has been submitted to Mr. Weber.

BUNKER HILL MINING COMPANY

RENTED BUILDINGS

The earnings for the year were the same as in 1929, namely \$568.80. All of the houses were occupied the entire year. The total operating expense we figure amounted to \$166.61, showing a net profit of approximately \$402.19. The only maintenance expense was some interior decorating and minor roof and plumbing repairs. These figures are only approximate as we have as yet not received the actual ones from the Cleveland Office.

LAND RENTALS

These were the same as in 1929, namely \$707.00. The only other rental is the \$12.00 which we receive each year from The Cleveland-Cliffs Iron Company for the use of the so-called "Company Barn".

MISCELLANEOUS REVENUES

We received \$1.00 for a telephone line easement and \$2.00 for a sale of rock to the Michigan Bell Telephone Company.

COLLECTIONS

At the end of the year there remained unpaid \$15.40 house rent which has been taken care of in January and \$154.64, representing an unpaid rental account of \$24.00 and 1930 taxes due from the Consolidated Fuel and Lumber Company for 1930. These taxes were paid in January, 1931.

UNSETTLED MATTERS

This has reference to the C.&N.W. Railroad Company's right-of-way across the property of this Company, and particularly the parcel of land occupied by the Granlund Oil Company under a lease from the Railroad Company for a bulk oil station site. This has been reported fully to Mr. Mather and we are awaiting his decision as to what shall be done.

AMERICAN IRON MINING COMPANYLAND AND TIMBER ACCOUNTS

During the year we sold the remaining timber on the $W\frac{1}{2}$ of the $SE\frac{1}{4}$, Section 34-48-31 to Matt Lepisto for \$150.00, and also the remaining timber on the $NW\frac{1}{4}$ of the $SE\frac{1}{4}$, Section 2-47-31, to William A. Hill and Oscar L. Laakonen for \$90.00. These cover lands which were cut-over by the Piqua Handle and Manufacturing Company several years ago and the remaining timber was mostly firewood. Under the timber permits, the purchasers are required to pay the taxes and these for the year 1930 amounted to \$23.07.

TIMBER PERMITS

The timber permit to the Piqua Handle and Manufacturing Company expired July 1st, 1930, and the only permits now in force are the two new ones above mentioned.

THE CLIFFS POWER AND LIGHT COMPANYLAND RENTALS

The land rentals for the year amounted to \$191.22, or an increase of \$10.72 over the year 1929. In addition to this item, the lessees will also be charged with 1930 taxes amounting to \$40.17. The only new lease issued was the one to The Cleveland-Cliffs Iron Company covering lands occupied by portions of the Lumbering Departments' Central and Forest Lake Locations and also a small parcel in the Deer Lake Location occupied by two dwellings owned by the Land Department. The rental on this lease is at the rate of \$1.00 per year in addition to which the Cleveland-Cliffs is also required to pay the taxes on two forties which in 1930 amounted to \$4.63.

#14.

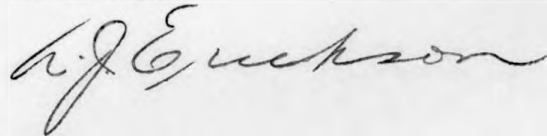

COLLECTIONS

\$135.56 due on land rentals remained uncollected at the end of the year.

A large portion of this item represents 1930 taxes which will be paid in January, 1931.

The only other item of revenue was a transfer fee of \$1.00 collected on a lease assignment.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "A. J. Erickson". The signature is written in dark ink on a light-colored background.

ASSOCIATE COMPANIES (The C.C.I.Co. has no ownership but acts as agent) American Iron Mining Co.	2,501.70		314.80								2,816.50	2,816.50		2,816.50	
GRAND TOTALS OWNED AND CONTROLLED - ALL COMPANIES	544,175.92	50,198.34	29,177.78	2,567.75	53,308.36	520.46	489.21	212.91	127.66	387.25	681,165.64	293,170.61	387,995.03	162,443.49	135,670.88

"A" - Lands where entire fee is owned.
 "B" - Lands where surface only is owned.
 "C" - Lands where minerals only are owned in known mineral district.
 "D" - Lands where our interest is confined to a mining lease.
 "E" - Lands where our interest is confined to a mining option from Michigan Mineral Land Co.
 "F" - Lands where timber only is owned.
 "G" - Lands where we own the entire fee, surface only, or minerals only in lands which are a part of recorded plats of towns or villages.

"H" - Lands which have been examined and which reports show do not contain sufficient timber to be classed as timber land.
 "I" - All lands not included in "H". This includes both lands that have been examined and other lands which have not but which were purchased for timber purposes and are classed as timber lands until such time as reports will show that they are barren either through fire or through operations of the Lumbering Department.
 "J" - Approximate acreage of lands inside the mineral formation as indicated by maps furnished to the Land Department by the Mining Department, April 1914.
 "K" - Acres of minerals reserved in Farm Land Sales, outside of mineral formation.
